September 9, 1958

In view of the foregoing considerations, you may consider this letter to be this Administration's authorization to so utilize the land in question for general recreation purposes as outlined in Resolution No. 7016, subject to the following conditions?

- (1) No structures will be erected on the land to a height which would constitute an obstruction to the aeronautical use of the airport as determined by the applicable standards of Civil Aeronautics Administration's Technical Standard Order N18.
- (2) No use of the land or structures erected thereon will be made or permitted which would interfere with the operation and development of the airport or which would constitute an airport hazard.
- (3) Five percent of all gross receipts received from any recreational activities for which a charge is made in "Area C", including 5% of all gross receipts received from fence advertising, parking facilities and concessions sold, rented or operated on said "Area C", will be paid into the airport account and devoted exclusively to the operation, maintenance, improvement, and development of the airport as a public airport.

It is recommended that the master plan for the airport be revised at the earliest opportunity to include the proposed and future airport development as well as non-aviation development.

Sincerely yours,

/s/ David C. Kelley
