

**CITY OF FORT LAUDERDALE  
City Commission Agenda Memo  
REGULAR MEETING**

**#14-0962**

---

**TO:** Honorable Mayor & Members of the  
Fort Lauderdale City Commission

**FROM:** Lee R. Feldman, ICMA-CM, City Manager

**DATE:** October 7, 2014

**TITLE:** Resolution approving the consolidated budget amendment

---

**Recommendation**

It is recommended that the City Commission adopt a resolution amending the Fiscal Year 2015 Budget.

**Background**

Budget amendments are consolidated into one agenda item for consideration at the first meeting of each month.

Examples of recommended actions within the consolidated budget amendment are:

- transfer between funds;
- transfer between capital and operating budgets;
- transfer between capital projects;
- acceptance and appropriation of grant funding;
- appropriation from fund balance; and
- appropriation for modified revenue and related expenditures.

Staff is recommending that the City Commission amend the FY 2015 Operating Budget and Community Investment Plan by approving the following transfers and appropriations:

## **City Manager**

### **A. Acceptance and appropriation of grant funding – Grants Fund and General Fund – Re-engage for Good City Challenge Grant - \$45,000**

The City was awarded the Re-engage for Good City Challenge Grant from the Community Foundation of Broward Inc. in the amount of \$30,000 to continue the Volunteer Services Network Program. Funds are used to provide a series of related programming initiatives, workshops, marketing/advertising, and to purchase training and promotional materials. This is the third year of grant receipt by the City of Fort Lauderdale and it requires a cash match of \$15,000 and in-kind support. The grant acceptance, CAM 14-1196, is a companion item on this agenda.

Staff recommends that the City Commission amend the FY 2015 operating budget by amending the appropriate accounts in the Grants Fund and General Fund in the amount of \$45,000 for the Re-engage for Good City Challenge Grant.

## **Fire-Rescue**

### **B. Acceptance and appropriation of grant funding – Grants Fund – Assistance to Firefighters Grant (AFG) - \$61,651**

The City of Fort Lauderdale was awarded grant funds in the amount of \$55,485 from the Department of Homeland Security to fund fire safety programs and activities and requires a match of \$6,166. The initial funding to the program was approved at the August 19, 2014 City Commission meeting, CAM 14-0857. Funding will be used to replace all the Self-Contained Breathing Apparatus (SCBAs) and other personal protective equipment in the Fire-Rescue Department. The grant acceptance, CAM 14-1167, is a companion item on this agenda.

Staff recommends that the City Commission amend the FY 2015 operating budget by amending the appropriate accounts in the Grants Fund in the amount of \$61,651 for the purchase of the Self-Contained Breathing Apparatus and other personal protective equipment.

## **Police**

### **C. Acceptance and appropriation of grant funding – Grants Fund - Enhanced Marine Law Enforcement Grant - \$163,920**

The City of Fort Lauderdale was awarded the Enhanced Marine Law Enforcement Grant from Broward County to continue the City's "Operation Venice of America" program in the amount of \$163,920. The program improves boat safety education and supplements marine law enforcement activities. The grant will fund up to 3,680 hours of marine law enforcement and training.

Staff recommends that the City Commission amend the FY 2015 operating budget by amending the appropriate accounts in the Grants Fund in the amount of \$163,920 for the Enhanced Marine Law Enforcement Grant.

## **Public Works**

### **D. Transfer between capital projects – Water and Sewer General Capital Projects Fund – South Andrews Ave & SE 17<sup>th</sup> Street Large Water Main Replacement project- \$149,324**

To ensure safety and continuous operation, an 18 inch water main along South Andrews Avenue and SE 17th Street will be replaced with a new 20 inch water main. Total improvement costs are estimated at \$478,378; however, an additional \$149,324 is needed for fully funding the project to be transferred from the completed Dixie Wellfield Raw Water Main Replacement Project account. The contract award, CAM 14-1078, is a companion item on this agenda.

Staff recommends that the City Commission amend the FY 2015 Community Investment Plan (CIP) and Budget by amending the appropriate accounts in the Water and Sewer General Capital Projects Fund in the amount of \$149,324 to complete the water main replacement along S Andrews Avenue and SE 17th Street.

### **E. Acceptance and appropriation of grant funding – Stormwater Fund – Lauderdale Isles Canal Dredging project - \$311,000**

The City was awarded a grant in the amount of \$150,000 from the Florida Department of Environmental Protection for a canal dredging project in the Lauderdale Isles Neighborhood. The Lauderdale Isles project is necessary to deepen the waterways to the minimum canal depth criteria for allowing vessels to safely navigate. The City will provide a cash match in the amount of \$161,000 to complete the project at a total cost of \$311,000. The grant acceptance, CAM 14-1148, is a companion item on this agenda.

Staff recommends that the City Commission amend the FY 2015 Community Investment Plan (CIP) and Budget by amending the appropriate accounts in the

Stormwater Fund in the amount of \$311,000 for the Lauderdale Isles Canal Dredging project.

**F. Appropriation for modified revenue– Sanitation Fund – reduced revenue due to recycling composition study - \$90,897**

A recycling composition study was recently conducted by Kessler Consulting to measure the value of recyclables to include single stream collections and large wheeled recycling carts. This study yielded a decrease in the value of the recyclables, which is expected to yield a decrease in the previously estimated recycling revenue for FY 2015. Staff recommends decreasing the FY 2015 revenue budget by \$90,897. If the revenue comes in higher than anticipated, the fund will be in a more favorable position. The study acceptance, CAM 14-1213, is a companion item on this agenda.

Staff recommends that the City Commission amend the FY 2015 operating budget by reducing the appropriate revenue accounts in the Sanitation Fund in the amount of \$90,897 from an anticipated reduction due to the recycling composition study.

**G. Transfer between capital projects – Water and Sewer Debt Financed Construction Non-Regional Bond Fund and Water and Sewer General Capital Projects Fund – Tarpon River 10 Inch Gravity Sewer Main at Andrews Avenue - \$400,000**

The Tarpon River 10 inch gravity sewer main at Andrews Avenue was originally attached to the Andrews Avenue Bridge by ten steel straps. Over time, the straps have corroded and broken causing the pipe to sag significantly further creating a blockage through the waterway and posing a potential safety hazard. Neighbors have reported complaints of the impeded waterway for kayaking and canoeing activities. Staff is concerned that the pipe could possibly crack and/or leak raw sewage into the Tarpon River endangering the public and environment. City crews are providing an interim solution by fabricating temporary supports to keep the pipe from slipping further into the river. Staff proposes to replace the 10 inch sewer main immediately to mitigate any potential issues. Funding for the design, survey, permitting and construction is estimated at \$400,000. Staff recommends transferring funds from two (2) completed projects: Pump Stations A7 and A8; and Riverland Water and Sewer Water Mains to fund this emergency replacement of the 10 inch gravity sewer main.

Staff recommends that the City Commission amend the FY 2015 Community Investment Plan (CIP) and Budget by amending the appropriate accounts in the Water and Sewer Debt Financed Construction Non-Regional Bond Fund and Water and Sewer General Capital Projects Fund in the amount of \$400,000 for the emergency replacement of the 10 inch gravity sewer main crossing the Tarpon River along Andrews Avenue.

**H. Transfer between capital projects – Water and Sewer Debt Financed Construction Non- Regional Projects Fund - Broward Boulevard Bridge (FDOT) Replacement - \$850,000**

The Florida Department of Transportation (FDOT) is designing the replacement of the Broward Boulevard Bridge over the North Fork of the New River Canal. A 30-inch major water transmission main must be removed to facilitate the demolition and construction of the replacement bridge at an estimated cost of \$850,000. Funds are recommended to be transferred from the completed Dixie Wellfield Raw Water Main Replacement Project.

Staff recommends that the City Commission amend the FY 2015 Community Investment Plan (CIP) and Budget by amending the appropriate accounts in the Water and Sewer Debt Financed Construction Non- Regional Projects Fund in the amount of \$850,000 for the completion of the 30 inch Water Main Replacement Project - Broward Boulevard Bridge (FDOT).

**I. Transfer between capital projects – Special Obligation Construction 2011 Fund –Seven Isles Seawall Improvements - \$63,513**

To ensure compliance with required seawall elevation levels, the existing seawall at Seven Isles will be elevated to 5.5 feet requiring funds for new grading, permitting, and project management at an estimated cost of \$63,513. It is recommended to transfer necessary funds from the completed Annual Marine Facilities and Seawall project.

Staff recommends that the City Commission amend the FY 2015 Community Investment Plan (CIP) and Budget by amending the appropriate accounts in the Special Obligation Construction 2011 Fund in the amount of \$63,513 for the completion of the Seven Isles Seawall Improvements Project and the closeout of the Annual Marine Facilities and Seawall Project.

## **Sustainable Development**

### **J. Transfer between capital projects – Northwest Progresso Flagler Heights Community Redevelopment Agency CIP Fund – Urban Intervention Project - \$60,000**

In an effort to achieve the City's goal to be a community of strong and beautiful neighborhoods, the City will partner with Florida Atlantic University Center for urban and environmental solutions to conduct the Urban Intervention Project in the Northwest Progresso Flagler Heights Redevelopment Area with a focus on Sistrunk Boulevard. The project is estimated at \$60,000 and will take up to nine months to complete. The project plan will engage neighbors residing in the area.

Staff recommends that the City Commission amend the FY 2015 Community Investment Plan (CIP) and Budget by amending the appropriate accounts in the Northwest Progresso Flagler Heights Community Redevelopment Agency CIP Fund in the amount up to \$60,000 for the Urban Intervention Project.

### **K. Amendment of staffing levels and associated expenditures - Building Permits Fund – Elimination of the Building Services Manager position - \$169,474**

Staff recommends that the City Commission amend the FY 2015 operating budget by reducing the appropriate expenditure accounts in the Building Permits Fund in the amount of \$169,474 and eliminating the Building Services Manager position from the City's personnel complement.

### **Resource Impact**

The fiscal impact to the various funds is outlined in the tables below. The letters below correspond to the descriptions in the background section of the document.

Where applicable, the approval of companion agenda items listed below are contingent upon the approval of the respective companion items as part of this consolidated budget amendment.

Related CAM(s): 14-1196, 14-1167, 14-0952, 14-1148, 14-1078, 14-1213
