Staff recommends the City Commission approve contracts, in substantially the forms attached, with Green Team Plumbing, LLC d/b/a Greenteam Service Corporation, A & A Drainage & Vac Services, Inc., EnviroWaste Services Group, Inc., and All Liquid Environmental Services LLC d/b/a Johnson Environmental Services, for the purchase of pumping services for the initial two-year term amount of \$400,000, and authorize the City Manager to approve two one-year renewal options in the estimated annual amount of \$200,000, for a potential total contract amount of \$800,000, contingent upon appropriation of funds.

Staff is able to manage the workload under normal conditions utilizing City's vactor trucks and equipment. However, for extreme conditions such as severe rain events, extensive power outages, and hurricanes, it is necessary to have additional resources to maintain infrastructure resilience and provide a high level of service.
