

City of Fort Lauderdale
City Commission Agenda Item

#12-1227

TO: Honorable Mayor & Members
Fort Lauderdale City Commission

FROM: Lee Feldman, City Manager

DATE: August 21, 2012

TITLE: Motion to approve the purchase of a Sanitary Sewer Inspection System - ITB 422-11045 - \$83,970

Recommendation

It is recommended that the City Commission approve the purchase of a sanitary sewer inspection system from the low responsive and responsible bidder, Environmental Products of Florida Corporation, ITB 422-11045, in the amount of \$83,970.

Background

The Public Works Department, Distribution and Collection Division staff maintains hundreds of miles of sewer laterals connected to 475 miles of sewer gravity mains throughout the City. This is a standard sewer system that provides excellent service. It also maintains 204 sewer lift stations and over 119 miles of force main. The equipment is providing better than adequate service but around the clock operation in an abrasive and corrosive atmosphere rapidly wears the equipment. In order to inspect the pipe and equipment the Division is replacing the current sanitary sewer inspection system, whose useful life has expired.

The Procurement Services Division issued 1741 invitations to bid and received 7 responses. The low responsive and responsible bidder is Environmental Products of Florida Corporation in the amount of \$83,970. ELXSI, Inc., RS Technical Services, Inc. (aka Baker Equipment) and All Access Logistics, Inc. were found non-responsive because they did not meet the minimum local service requirements and All Access did not have the appropriate business license. EnviroSight, LLC was deemed non-responsive. Including their alternate bid, their version of the camera system did not meet the specifications and it cannot perform the required tasks.

Resource Impact

There is a fiscal impact to the City in the amount of \$83,970.
