**Re: Beach Erosion – Fort Lauderdale**

Dear Governor Scott,

I hope this letter finds you well.

As you are certainly aware, we here in Fort Lauderdale are facing emergency circumstances as our beautiful beach has been decimated. Since 1996 when Congressman Clay Shaw was successful in appropriating funding for the restoration of our beach, we have been tirelessly pursuing this objective.

Unfortunately myriad "so called Environmentalist's" have successfully blocked our efforts. They are now effectively responsible for the millions of dollars in damage to our infrastructure. We were successful in obtain necessary permitting to complete Segment III (from the Dade County line north to Port Everglades) under the Jeb Bush administration. Segment II (from Port Everglades to the Hillsboro Inlet) should have been completed shortly thereafter.

I on behalf of the 16,000 residents of the Galt Mile Community Association and the several million residents of the City of Fort Lauderdale and Broward County, I respectfully request your intervention in issuing an emergency order to allow the Broward D.E.P. to accelerate the completion of this critically important restoration project.

Thank you in advance for your kind consideration of this matter. I am available to you at any time to provide any relevant information you may require.

Sincerely,  
Galt Mile Community Association, Inc.

  
Pio R. Ieraci, CIPS, LCAM  
President
