**CITY OF FORT LAUDERDALE
City Commission Agenda Memo
REGULAR MEETING**

#18-0336

TO: Honorable Mayor & Members of the
Fort Lauderdale City Commission

FROM: Lee R. Feldman, ICMA-CM, City Manager

DATE: April 3, 2018

TITLE: Resolution Approving the Water and Sewer Bond Budget Amendment

Recommendation

It is recommended that the City Commission adopt a resolution amending the Fiscal Year 2018 Budget and Community Investment Plan (CIP).

Background

Examples of recommended actions within the budget amendment are:

- transfer between funds;
- transfer between capital and operating budgets;
- transfer between capital projects;
- acceptance and appropriation of grant funding;
- amendment to staffing level;
- appropriation from fund balance; and
- appropriation for modified revenue and related expenditures.

Staff is recommending that the City Commission amend the FY 2018 Operating Budget and Community Investment Plan by approving the following transfers and appropriations:

Public Works

A. Reconciliation of Bond Proceed Funds – Water and Sewer Master Plan 2017 Fund, Water and Sewer Regional Master Plan 2017 Fund

On February 18, 2003, the City Commission adopted Resolution 03-29, which constitutes the master bond resolution for the City's water and sewer revenue bonds. On January 23, 2018, the City Commission adopted a resolution and issued a fifth series in the amount of \$200,000,000 for the purpose of funding projects from the comprehensive utilities strategic master plan. At that time, an associated Budget Amendment Resolution was approved and all funds associated with the transaction were assumed to be related to the City's Water and Sewer Fund until a project list was finalized. It has been determined that \$84,365,734, 42.18% of the bond proceeds will be used to fund projects within the Central Regional Wastewater System.

This request is to amend the Community Investment Plan to appropriately account for the distribution of approved bond funds for the newly issued bond based upon the final project list.

Staff recommends that the City Commission amend the Community Investment Plan in the amount of \$84,365,734 to apportion bond proceeds to Central Region Wastewater projects. This action includes a commensurate de-appropriation of funds in Water/Sewer accounts.

B. Reconciliation of Bond Transaction- Debt Proceeds, Debt Issuance, and FY 2018 Debt Interest Payment – Water and Sewer Fund, Regional Wastewater System Fund

On February 18, 2003, the City Commission adopted Resolution 03-29, which constitutes the master bond resolution for the City's water and sewer revenue bonds. On January 23, 2018, the City Commission adopted a resolution and issued a fifth series in the amount of \$200,000,000 for the purpose of funding projects from the comprehensive utilities strategic master plan. At that time, an associated Budget Amendment Resolution was approved based upon estimates. The actual interest payment for FY 2018 was determined to be \$4,077,744, which is \$298,836 lower than the original estimate of \$4,373,580. The actual proceeds and debt issuance expenses associated with the bond were \$478,983 higher than the original estimate.

This request is to amend the operating budget to appropriately account for the distribution of the actual bond proceeds, the actual interest payment, and debt issuance expense based upon the final project list.

Staff recommends that the City Commission amend the Operating Budget in the amount of \$3,738,821 to apportion bond proceeds based upon the actual bond transaction and \$478,983 to apportion the cost of debt issuance based upon the actual bond expense.

C. Appropriation of Fund Balance – Water and Sewer Master Plan 2017 Fund, Water and Sewer Regional Master Plan 2017 Fund, Water & Sewer General Capital Projects Fund, Regional Wastewater System – Appropriation of Water and Sewer Bond Funds and Projects – \$200,000,000

To finance a portion of the costs of improving and upgrading the City's Water and Sewer System, the City issued Water and Sewer Revenue Bonds in the amount of \$200,000,000.

Specific capital projects to be funded from the bond proceeds and projects that are eligible for reimbursement are now being brought to the Commission for approval. Based upon the reimbursement resolution, \$10,271,251 was spent in the Water & Sewer General Capital Projects Fund (454) and \$1,588,874 in the Regional Wastewater System Fund (451) from September 8, 2017 to March 13, 2018.

In addition to the reimbursement above, \$82,776,860 will be appropriated to specific project accounts for Central Regional Wastewater System Bond Funded projects and \$105,363,015 to specific accounts for projects related to the City's Water and Sewer System.

Staff recommends that the City Commission amend the FY 2018 Community Investment Plan in the amount of \$200,000,000 for the appropriation of water and sewer bond projects into specific project accounts.
