WATERWAYS ASSISTANCE PROGRAM
APPLICATION PACKAGE
Part 2. Attachment E

The following attachments E-1 through E-6, in addition to the requirements of items 7 through 9 of the application checklist, constitute your formal application.

**SUBMIT THE APPLICATION INFORMATION IN
THE ORDER LISTED ON THE CHECKLIST.**

Applications must be received by the District by 4:30 p.m. on March 30, 2026.

Application Submission:

Electronic copies (2 separate attachments per instructions):

Attachment 1: Items 1-9, and Attachment 2: Items 10-12

Electronic submission via email to:

CKelley@aicw.org

(pdf file size 15MB or less)

Application must be received by the deadline, no exceptions.

Attachment E - Applicant Tips Sheet

(Mistakes Common to the application process and how to avoid them)

SCHEDULING

The new application is available by January each year, and District funding is available AFTER October 1st of each year. Applicants should plan their schedule to avoid commonly missed deadlines: Application due -- 30th of March; Property control/Technical sufficiency items -- 18th of May, Permits -- 21st of September. (Staff suggestion: Begin to secure property control and permits PRIOR to applying for funding.)

PROPERTY CONTROL VERIFICATION

Please have your attorney complete and sign the form in the application verifying applicant property control. In the case of leases or management agreements, please forward a copy to the District well in advance of the deadline to verify consistency with our program rules. (Staff suggestion: Resolve this requirement outside the application "window".)

PROJECT COSTS ELIGIBILITY

Please note the eligible project costs in Rule Section 66B-2.008, F.A.C. If you are not sure about an item's eligibility, ask! Note: Any ineligible cost, including in-house project management and administration, is also not eligible for an applicant's match. Make sure you have delineated your required minimum cost-share on the project cost estimate. (Staff suggestion: If you have questions about the eligibility of an item, work up a mock cost-sheet and send it to our office well before the deadline.)

COST-SHARE

Although the applicant must provide a minimum of 50% of the total project costs (25% for eligible public navigation dredging), there is no specific requirement to split each item. (Staff suggestion: You may want to organize project elements in a certain manner for easier accounting.)

PRE-AGREEMENT EXPENSES

Rule 66B-2.005(3), F.A.C. requires any activity in the submitted project cost estimate occurring PRIOR to October 1st to be considered as pre-agreement expenses. The Board's past philosophy has been to fund only those projects that require District funding assistance to be completed. It is best to avoid pre-agreement expenses if possible. Note: Pre-agreement expenses must be limited to 50% or less of the total project costs, and they are eligible for only ½ of the original District funding. (Example: A project with a total cost of \$200,000 is Board-approved for one-half construction PRIOR to October 1st. In this case, District funding will be limited as follows: Only 50% of the \$100,000 project cost prior to October 1st is eligible as project expenses (i.e. \$50,000). Then only ½ of the eligible project expenses (\$50,000) are eligible for District funding assistance (i.e. \$25,000).

SUBMITTED MATERIALS & JUNE PRESENTATION

The Board must review and evaluate every application and each year we receive about 90 applications for consideration. The final product for the Board's review is two 8-1/2" x 11" spiral-bound notebooks containing the essential information for the application. NOTE: Make sure your final submitted material is the same material you will be presenting to the Board at our June meeting. This will avoid confusion and strengthen your presentation. (Staff suggestion: Limit the submitted materials to the requested information, in the required format and make sure it is consistent with your June presentation. Do not submit additional material at the June presentation!)

ELECTRONIC SUBMISSIONS

Grant applications are ONLY being accepted by email. Grant applications shall be submitted via email as two (2) pdf attachments (15mb max size and see attachment instructions on the next page). Make sure to label your pdf attachments with the applicant and project title. You will receive a confirmation email letting you know that your application has been received. Email your completed application to CKelley@aicw.org

Applications must be received by the District by 4:30 p.m. on March 30, 2026.

Project Summary: Maximum 200 Words

The Aquatic Peninsula located at 501 Seabreeze Blvd, Fort Lauderdale, FL 33316 has undergone improvements over the past 5 years through the City of Fort Lauderdale. This property is managed and operated by the City of Fort Lauderdale. There is a Deed Restriction that specifies use for public municipal purposes and also states that the International Swimming Hall of Fame (ISHOF) must reside on the peninsula and fulfill their purpose & operations on the property.

The intent of this application is to request funding for the proposed West Promenade that will be located on the perimeter of the newly proposed ISHOF Project West Building. Intent is that the West Promenade will have access to the proposed elevated promenade to help connect Seabreeze Blvd/A1A and the West end of the peninsula to the future Public Dock. This connection will serve for public pedestrian access.

These improvements would benefit the general public as well as the future improvements for the International Swimming Hall of Fame. The West Promenade is intended to be constructed over the next 2 years once permits are obtained, which are currently in progress with the City of Fort Lauderdale Building Department.

1. Priority Category:

- a) Choose one priority category of this project from the application instructions based upon the predominant cost of the project elements.

11

- b) Explain how the project fits into this priority category

This project includes the West portion of the public pedestrian promenade along the intracoastal waterway at the Aquatic Peninsula. This portion of the promenade would provide a pedestrian walkway along the intracoastal for the public and also provide connectivity between A1A/Seabreeze Blvd, as well as to the future proposed Public Water Dock.

- c) Explain how the project relates to the District's Waterways and the mission of the Florida Inland Navigation District.

The improvements of the Public Promenade would allow for public pedestrian access along the waterway of the peninsula and proposed West Building to continue around the North of the property and connect to A1A & Seabreeze Blvd. This would also support connectivity to the future proposed Public Dock that is anticipated to be design and constructed at the intracoastal side of the Aquatic Peninsula.

2. Ownership of Project Site:

Own ☒ Leased ☐ Other ☐

If leased or other, please describe lease or terms and conditions:

3. Has the District previously provided assistance funding to this project or site?

Yes ☒ No ☐

4. If yes, please list the project name, number and funding amount received:

International Swimming Hall of Fame (ISHOF) Phase 1 Public Dock & Promenade Design
International Swimming Hall of Fame (ISHOF) Phase 2 Seawall Construction

5. What is the current level of public access in terms of the number of boat ramps, boat slips and trailer parking spaces, linear feet of boardwalk (etc.) if applicable?

Property is located at the Aquatic Peninsula in Fort Lauderdale Beach, please refer to site plans. Property is accessible for the public vehicles and pedestrians via Seabreeze Blvd / A1A. There are no boat ramps, boat slips or boardwalk directly attached or accessible to the property currently.

6. How many additional ramps, slips, parking spaces or other access features will be added by this project, and what is the approximate number of registered vessels estimated to use the constructed project?

This current phase of improvements is intended to support the construction of the West portion of the proposed Public Promenade.

7. Public Usage & Benefits:

- a) What public access or navigational benefit to the District's waterways will result from this project? How will this project enhance public access to the District's waterways, and what specific navigational benefits will it provide to the community?

The proposed improvements will allow for integration of access from the project's proposed Public Water Dock for public transportation access via the waterway and tie into the elevated promenade for pedestrian access to the Barrier Island. This will create additional means of access as well as simpler pedestrian access that is more enjoyable and safer to the public.

- b) What is the current demand for public access or navigation facilities in the area, and how does this project address unmet needs or improve upon existing facilities?

This has been evaluated by way of the traffic study and will be further analyzed. Intent of the West Public Promenade is to promote pedestrian access to the site and improve the safety of the public by separating the Vehicular from Pedestrian Traffic.

- c) How does the project fit within regional or local maritime management plans, public access initiatives, or comprehensive plans, and how does it contribute to broader public usage goals?

See above response to item 7(a).

- d) Has the local Sponsor implemented or plans to implement any boating access, speed zone, commercial access or other restrictive use in the area of this site?

See above responses.

8. Fees & Maintenance:

Are there any fees associated with the use of this facility?

Yes ☐

No ☒

If answered Yes:

a) List or provide a fee schedule.

The City of Fort Lauderdale supervises and manages the property currently. There are no fees and/or maintenance data available specifically at the moment. During the planning of operations of the facility, it will be determined what required maintenance will be required and who will be responsible for this maintenance.

b) Provide a listing of the fees charged by similar facilities, public and private, in the project area.

See above response to item 8(a).

c) Pursuant to Rule 66B-2.004(11), if there are any fees, please explain how these fees are tracked and what they are used for.

See above response to item 8(a).

d) Clearly demonstrate how the project will continue to be maintained and funded after initial funding is completed.

See above response to item 8(a).

9. Please list all Environmental Resource Permits required for this project:

Agency	Y/N	Date Applied	Date Received
Water Management District	Y	10/28/25	In Progress
Dept of Environmental Protection	Y	10/1/25	10/29/25
USACE	N	N/A	N/A

10. a) Construction

This question is to be answered only if this application is for a **Construction** project.

In the summary box at the bottom of this page, please address each of the bullet points listed below to maximize your score for this competitive grant application.

PERMITTING:

- Have all required environmental permits been applied for? (USACE, DEP and WMD) If permits are NOT required, explain why not.
- Detail any significant impediments that may have been identified that would potentially delay the timely issuance of the required permits.
- For Phase I design, permitting, and engineering projects, please provide a general cost estimate for the future Phase II construction work.

CONSTRUCTION TECHNIQUES:

- What is the design life of the project and proposed materials?
- What considerations, if any, have been made for storm surge and hurricane impacts in the design and life span of this project?

Construction Project: Maximum 200 Words (Address all bullet points above)

PERMITTING

- The only environmental permit needed is the FDEP permit, which has been obtained and included in Attachment 2 of this application. This approval is part of the proposed West Building FDEP application. Construction of the West Public Promenade will be on land and not go beyond the property line of the peninsula, therefore a USACE permit is not required. WMD Modification letter to be obtained.
- Coordination with FPL is underway that as their power to the barrier island enters the peninsula under the intracoastal. We have been meeting with FPL on a weekly basis to progress their design in order to coordinate the proposed improvements for this area.
- This application is for Construction only.

CONSTRUCTION TECHNIQUES

- Design life of the proposed improvements is anticipated to be approximately 30 - 50 years. The materials to be utilized include structural soil, pavers, concrete curbs and landscaping.
- The proposed improvements to the existing Seawall that are under construction now, include an increase in elevation to the existing seawall cap based on the current base flood elevations. This will contribute to shoreline stabilization and protecting the proposed improvements being proposed at the Aquatic Peninsula, including the West Public Promenade that is being requested as part of this application.

10. b) Environmental Education

This question is to be answered only if this application is for an **Environmental Education** project.

In the summary box at the bottom of this page, please address each of the bullet points listed below to maximize your score for this competitive grant application.

DILIGENCE:

- Who is the primary target audience or user group for the project and how were they identified?
- How have the needs of the target audience been evaluated and met?
- How many people will the program serve on an annual basis? What will be the measurable results?
- Describe the materials and project deliverables to be produced by this project.
- Describe the plan for dissemination of the materials produced through the project,

EXPERIENCE & QUALIFICATIONS:

- Please briefly describe the qualifications of the program administrator(s), including prior experience, and areas of expertise.
- What previous projects of this nature have been completed by the program manager?

PROJECT GOALS:

- What are the long-term goals of this project as it relates to the ICW?
- What is the expected duration/frequency of this program?

Environmental Education Project: Maximum 400 Words (Address all bullet points above)

10. c) Law Enforcement and Boating Safety Projects

This question is to be answered **only** if this application is for **Law Enforcement and Boating Safety** projects.

In the summary box at the bottom of this page, please address each of the bullet points listed below to maximize your score for this competitive grant application.

WATERWAY RELATIONSHIP:

- Describe how the project will enhance boating access, safety, or enforcement efforts on the waterway, and address the identified needs or benefits for public safety.

EXPERIENCE & QUALIFICATIONS:

- List the personnel tasked with the implementation of this project, their qualifications, previous training and experience.

DELIVERABLES:

- Describe the project deliverables and why this particular law enforcement vessel, equipment or facility improvements was selected or are necessary.

AREA OF COVERAGE

- What is the range or area of coverage for this project?

Law Enforcement and Boating Safety Project: Maximum 200 Words (Address all bullet points above)

10. d) Inlet or Public Navigation

This question is to be answered **only** if this application is for an **Inlet or Public Navigation** dredging project.

In the summary box at the bottom of this page, please address each of the bullet points listed below to maximize your score for this competitive grant application.

WATERWAY RELATIONSHIP:

- Will the project inhibit sediment inflow into, or reduce the dredging frequency of the Intracoastal Waterway channel?
- How does the project directly benefit the Intracoastal Waterway channel?
- Identify any long-term sedimentation problems and briefly discuss any methods or activities that will address these issues.

PUBLIC ACCESS

- Describe in brief detail how the project will enhance public access to or from the Intracoastal Waterway? List the upstream publicly accessible facilities with improved access because of this project.

BENEFICIAL PROJECT ELEMENTS:

- Describe any economic benefits to be realized by implementing this project.

PROJECT MAINTENANCE:

- When was this area last dredged? What is the expected frequency of future dredging? Where will the dredged material be relocated to?

Inlet or Public Navigation Project: Maximum 200 Words (Address all bullet points above)

10. e) Beach Renourishment

This question is to be answered **only** if this application is for a **Beach Renourishment** project.

In the summary box at the bottom of this page, please address each of the bullet points listed below to maximize your score for this competitive grant application.

WATERWAY RELATIONSHIP:

- Describe how the District and other navigation interests will benefit from the implementation of this project.

VIABILITY:

- Is the project site defined as critically eroded area by a statewide beach management plan?
- Cite the quantifiable rate of erosion in this area.
- Is the project an important component of an overall beach management effort?

PUBLIC BENEFITS:

- Are there quantifiable public benefits demonstrated by the project?
- Is there adequate public access to the project area? Please describe location and amount.

PROJECT FUNDING:

- Describe any assistance funding from other sources.
- Clarify the availability of long-term funding for this project.

Beach Renourishment Project: Maximum 200 Words (Address all bullet points above)

11. Disaster Relief

This question is to be answered **only** if this application is for repairs/construction of waterways facilities damaged by a declared natural disaster.

In the summary box at the bottom of this page, please address each of the bullet points listed below to maximize your score for this competitive grant application.

STORM DAMAGE EVALUATION:

- List the State of Emergency declaration order or proclamation & the name and date of the storm/event. [Pursuant to State of emergency declared under Chapter 252, F.S.]
- Describe the extent of the damage that was caused due to the storm/event and any Construction/Resiliency Improvements planned for the project.
- What is the current status of your FEMA paperwork for the project?

PROJECT FUNDING:

- Describe the other funding mechanisms and financial assistance that will be applied to defray the reconstruction costs or damage repair

Disaster Relief Project: Maximum 200 Words (Address all bullet points above)

Your Self-Certification is based solely on the information you provided under this process, and applies only to the statutes and rules in effect when your certification was completed. The certification is effective only for the specific project proposed, and only if the project is constructed, operated, and maintained in conformance with all the terms, conditions, and limitations stated in the Self-Certification Process. In addition, any substantial modifications in your plans should be submitted to the Department for review, as changes may result in a permit being required.

Completion of the Self-Certification constitutes your authorization for Department personnel to enter the property for purposes of inspecting for compliance.

This Self-Certification Process does not relieve you from the responsibility of obtaining other permits or authorizations from other agencies (federal, state, Water Management District, county, or local) that may be required for the project. Failure to obtain all applicable authorizations prior to construction of the project may result in enforcement.

If you have any questions concerning this process, please contact Southeast District by e-mail at SED_Permitting@FloridaDEP.gov.

Sincerely,
Florida Department of Environmental Protection
