TITLE: Quasi-Judicial/Public Hearing/Resolution granting a Waiver of Limitations
for Shawn and Jennifer Benyo / 704 NE 20th Avenue via ULDR Sections D
and E.

Recommendation

It is recommended that the City Commission adopt a Resolution granting a Waiver of Limitations for the installation of nine triple pile clusters for Shawn and Jennifer Benyo at 704 NE 20th Avenue.

Background

The applicant is seeking a Resolution granting a Waiver of Limitations (a waiver to allow a dock, mooring structure, or boat lift to extend beyond the maximum distance as defined by City Code) of the Unified Land and Development Regulations (ULDR) Sec. 47-19.3 D for the installation of 9 triple pile clusters extending a maximum of 166.9 feet from the property line into the Middle River. Exhibit 3 is the revised (transposed dock/piling locations) marine survey which was submitted and approved at the Marine Advisory Board meeting of December 5, 2013. It represents the same maximum distances sought in the original waiver application, with the docks and pilings transposed from north to south, as well as one additional mooring pile cluster. Although there is not a fee associated with obtaining a Waiver of Limitations, an application fee in the amount of \$300.00 is required. The applicant's narrative indicates the piling clusters are necessary for safely mooring vessels as well as the extraordinary width of the waterway at this location.

In a voice vote, the Marine Advisory Board recommended approval of the application unanimously (12:0) (see Exhibit 5) (St. George Guardabassi abstained from voting).

Resource Impact

There is no fiscal impact associated with this action.
