RE: Fort Lauderdale Speed and Pedestrian Comprehensive Safety Enforcement
Project Number: PT-14-12-07
DOT Contract Number: ARD07

Dear Mayor Seiler:

Your application to the Florida Department of Transportation for highway safety funds has been approved. We are pleased to make this award in the amount of \$72,759.00 for the purpose of implementing the Fort Lauderdale Speed and Pedestrian Comprehensive Safety Enforcement. A copy of the approved subgrant agreement referenced above is enclosed for your file. All correspondence with the Department should always refer to the project number and the Department's contract number.

The effective date of the subgrant agreement is March 27, 2014, and only those costs incurred on or after that date and before October 1, 2014 are eligible for reimbursement. Your subgrant provides reimbursement of personnel costs. Part V of the subgrant requires that reimbursement requests for subgrants with personnel costs be submitted monthly if paid on a monthly basis and after every two pay periods if paid bi-weekly. You must provide this office with the name(s) of the individual(s) whose salary is being reimbursed under the subgrant, and this office must be notified in writing immediately if personnel changes occur during the subgrant period. If notification is not provided to this office, salary costs will not be reimbursed.

If your subgrant includes equipment costing more than \$1000 per item, the Head of the Implementing Agency must send a letter certifying that none of the equipment replaces existing items. If you are purchasing a piece of equipment that costs more than \$5,000, you must submit a *Non-Expendable Property Accountability Record* for the item with your reimbursement request. If your subgrant includes funding for public awareness materials, you must send samples of the materials for approval prior to purchase.

Please review Part V of the subgrant agreement entitled "Acceptance and Agreement." This section contains the legal conditions of your subgrant.

We look forward to working with you on this project. If you have any questions or need assistance, please contact Pete Cohen at (850) 414-4026, who will be coordinating this activity.

1. Statement of the Problem

Statement of the Problem:

The City of Fort Lauderdale is a bustling South Florida community with over seven miles of publicly accessible beaches and a host of vibrant restaurants and entertainment districts located along our inland riverfront and several of our historic streets. As Broward County's largest city and the sixth largest in the State, Fort Lauderdale is home to a culturally diverse population of approximately 180,000 permanent residents. The City also experiences a daily influx of almost 135,000 workers, which causes our population to swell to over 315,000. And, we serve as primary host for the county's estimated 10 million annual visitors (Ft. Lauderdale Convention & Visitors Bureau).

Our ever increasing permanent population coupled with the daily influx of workers has caused a substantial increase in vehicular and pedestrian traffic within our jurisdictional limits. As one would expect, when the large number of residents and visitors experiencing the City's amenities on foot, are mixed with the large number of vehicles traveling these same routes, the risk of harm to pedestrians is significantly increased. In fact, according to several highly published national studies, both the American Association of Retired Persons (AARP) and Transportation for America cited the Miami-Ft. Lauderdale Metropolitan area as being among the top four "Most Dangerous Cities for Walking" in the Country. These 2007 and 2009 studies indicated that cities such as ours experience the highest share of pedestrian fatalities.

Astoundingly, even though the Miami-Ft. Lauderdale Metro area is only one-fourth as populous as the New York Metro area (which was deemed the most dangerous area for walking) our area's pedestrian fatality rate is only one-half that of the NYC Metro area.

Over the past couple of years, pedestrian safety on Fort Lauderdale streets has been thrust into the spotlight after numerous residents and tourists were killed or seriously injured in several separate, yet highly publicized, incidents. One such incident in March 2010 claimed the life of Carolyn, a 65-year-old Fort Lauderdale resident, and seriously injured her 62-year-old friend as they crossed one of the City's most noted Historic Business District streets. This incident only involved one of the seven pedestrian fatalities that the City experienced during the first four months of 2010. Worse yet those seven fatalities equaled, or closely approximated, the total number of pedestrian fatalities experienced in Fort Lauderdale in each of calendar years 2005, 2007 and 2008 (9, 7 and 8 respectively).

The challenge of maintaining a safe and orderly environment for the vast number of citizens, commuters and tourists who visit Fort Lauderdale on a daily basis can also be measured by increases in the number of traffic citations issued and traffic crashes investigated by the Fort Lauderdale Police Department annually. During the past three years, approximately 30% of the 78,607 traffic crashes in Broward County occurred within the City of Fort Lauderdale. Likewise, approximately 10% of all uniform Traffic Citations issued within Broward County 2008-2010 were issued by the Fort Lauderdale Police Department (FLPD Records Unit and FLHSMV crash & Uniform Traffic Citation Reports). In 2012 alone, our Department generated 9,064 crash reports and issued 56,895 citations.

	2009	2010	2011	2012
Citations Issued	38,012	55,754	58,811	56,895
Traffic Crashes	8,634	8,628	8,974	9,064
Seatbelt Violations	2,116	5,603	5,162	3,973
Fatal Crashes	29	18	15	22

Statistics such as those detailed above, support the City's ranking as 2nd and 10th among the State's 31 most populous cities, respectively, in the numbers of pedestrian and aggressive driving fatalities and injuries that occurred between 2007-2011.

Proposed Solution:

The Fort Lauderdale Police Department's 511 sworn officers are tasked with maintaining a safe and orderly environment for residents and visitors within our 33 square mile jurisdictional boundary. Of those, eight (8) officers and one (1) sergeant are permanently assigned to the FLPD Traffic Motors Unit. This unit's primary responsibilities are traffic enforcement and accident investigation. For this reason, the officers within the FLPD Motors Unit will assume responsibility for implementing the Fort Lauderdale Speed and Pedestrian Comprehensive Safety Enforcement Program.

Our one year project is aimed at increasing compliance with speed and traffic signal laws and regulations related to pedestrian safety through education and enforcement. Under the program, community wide public awareness targeted toward residents and vacationers will be accomplished through strategic placement of public service announcements in various media including radio, TV, print and internet/social media. Printed PSA resources (such as those available through USDOT FHA) will also be provided to approximately 150 business and hotels specifically located within the City's hotel and entertainment districts (A1A and Las Olas Boulevard). In addition, mobile message boards will be strategically deployed throughout the community in conjunction with targeted enhanced monthly enforcement activities and two (2) High Visibility Enforcement (HVE) Activities.

In order to successfully accomplish the public awareness and enhanced enforcement goals and objectives aimed at improving pedestrian safety and reducing incidences of aggressive driving within our jurisdiction, the Fort Lauderdale Police Department is requesting funds to:

- purchase mounted front and rear facing radar units for 3 motorcycles (as some of the FLPD's Motors Unit currently utilize hand held radars);
- support up to 888 hours of overtime salaries, FICA and FLSA expenses related to planned targeted enhanced enforcement, pedestrian and HVE activities and distribution of public awareness/education items; and,
- support the costs of printing public awareness/education items.

As outlined in our proposal, the goals and objectives of the proposed Speed and Pedestrian Comprehensive Safety Enforcement Program directly support two emphasis areas within Florida's Strategic Highway Safety Plan. Within the Aggressive Driving Emphasis Area, our solution supports the Lead "E" of Enforcement. Specifically, our program supports and promotes an effective law enforcement effort to reduce aggressive driving. And within the Vulnerable Road Users/ Bicycles & Pedestrians Emphasis Area, our solution supports the lead "E" of Education. Specifically, our program is aimed at increasing compliance with traffic laws and regulations related to pedestrian safety through education and enforcement.

State clearly and in detail the aims of the project, precisely what will be done, who will be involved, and what is expected to result. Use the following major headings:

1. Statement of the Problem
2. Proposed Solution
3. Objectives
4. Evaluation
5. Milestones (Use form provided)

Start below and use additional pages as necessary.

Objectives:

The primary objectives of the Fort Lauderdale Speed and Pedestrian Comprehensive Safety Enforcement Program are:

To conduct a minimum of 5 speed compliance operations and 1 high visibility enforcement activity in identified areas of high pedestrian traffic and speed compliance by September 30, 2014.

To conduct a minimum of 2 pedestrian enforcement activities in identified areas of high pedestrian traffic and speed compliance by September 30, 2014.

To implement a public information campaign regarding pedestrian safety issues targeting pedestrian behaviors and announcing increased enforcement by September 30, 2014.

To enlist 75 beach area and entertainment district businesses to participate in the public awareness campaign by September 30, 2014.

To reduce crashes, injuries and fatalities as a result of speed and aggressive driving by 3% by September 30, 2014.

To reduce pedestrian involved crashes and fatalities by 3% by September 30, 2014.

Evaluation:

The program will be evaluated through:

Maintenance of monthly statistics regarding the number of speed compliance and enhanced traffic enforcement operations carried out.

Review and comparison of annual traffic fatality statistics.

Documentation of types and frequency of placement of public awareness media/materials within our community.

Documentation of the specific businesses participating in the public awareness campaign.

If, after 60 days from the acceptance of the award, project activity as described herein has not begun, a further statement of implementation delay will be submitted by the subgrantee or its implementing agency to the State Safety Office. The subgrantee agrees that if the letter is not received in the 60 days, the State Safety Office will cancel the project and reobligate the funds to other program areas. The State Safety Office, where warranted by excusable delay, will extend the implementation date of the project past the 60-day period, but only by formal written approval from the State Safety Office.

10. Excusable Delays.

(a) Except with respect to the defaults of subgrantee's or implementing agency's consultants and contractors which shall be attributed to the subgrantee, the subgrantee and its implementing agency shall not be in default by reason of any failure in performance of this agreement in accordance with its terms if such failure arises out of causes beyond the control and without the fault or negligence of the subgrantee or its implementing agency. Such causes are acts of God or of the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, and unusually severe weather, but in every case the failure to perform must be beyond the control and without the fault or negligence of the subgrantee. If the failure to perform is caused by the failure of the subgrantee's or its implementing agency's consultant or contractor to perform or make progress, and if such failure arises out of causes beyond the control of the subgrantee, its implementing agency and its consultant or contractor, and without the fault or negligence of any of them, the subgrantee shall not be deemed to be in default, unless (1) the supplies or services to be furnished by the consultant or contractor were obtainable from other sources, (2) the State Safety Office shall have ordered the subgrantee or its implementing agency in writing to procure such supplies or services from other sources, and (3) the subgrantee or its implementing agency shall have failed to comply reasonably with such order.

(b) Upon request of the subgrantee or its implementing agency, the State Safety Office shall ascertain the facts and content of such failure and, if it shall be determined that any failure to perform was occasioned by any one or more of the said causes, the delivery schedule shall be revised accordingly.

11. Obligation of Subgrant Funds. Subgrant funds may not be obligated prior to the effective date or subsequent to the termination date of the subgrant period. Only project costs incurred on or after the effective date and on or prior to the termination date of the subgrant application are eligible for reimbursement. A cost is incurred when the subgrantee's employee, its implementing agency, or approved contractor or consultant performs the service required or when goods are received by the subgrantee or its implementing agency, notwithstanding the date of order.

12. Performance. In the event of default, noncompliance, or violation of any provision of this agreement by the subgrantee, the implementing agency, the subgrantee's consultant(s) or contractor(s) and supplier(s), the subgrantee agrees that the Department will impose sanctions. Such sanctions include withholding of payments, cancellation, termination, or suspension of the agreement in whole or in part. In such an event, the Department shall notify the subgrantee and its implementing agency of such decision 30 days in advance of the effective date of such sanction. The sanctions imposed by the Department will be based upon the severity of the violation, the ability to remedy, and the effect on the project. The subgrantee shall be paid only for those services satisfactorily performed prior to the effective date of such sanction.

13. Access to Records and Monitoring. The Department, National Highway Traffic Safety Administration (NHTSA), Federal Highway Administration (FHWA), and the Chief Financial Officer and Auditor General of the State of Florida, or any of their duly authorized representatives, shall have access for the purpose of audit and examination of books, documents, papers, and records of the subgrantee and its implementing agency, and to relevant books and records of the subgrantee, its implementing agency, and its consultants and contractors under this agreement, as provided under Applicable Federal Law.

In addition to review of audits conducted in accordance with OMB Circular A-133, as revised, hereby incorporated by reference, monitoring procedures will include, on-site visits by Department staff, limited scope audits as defined by OMB

Circular A-133, as revised, and status checks of subgrant activity via telephone calls from Safety Office staff to subgrantees. By entering into this agreement, the subgrantee and its implementing agency agree to comply and cooperate with monitoring procedures. In the event that a limited scope audit of the subgrantee or its implementing agency is performed, the subgrantee agrees to bring the project into compliance with the subgrant agreement. The subgrantee further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Chief Financial Officer or Auditor General.

The Department shall unilaterally cancel this subgrant if the subgrantee or its implementing agency refuses to allow public access to all documents, papers, letters, or other material subject to the provisions of Chapter 119, F.S., and made or received by the subgrantee or its implementing agency in conjunction with the subgrant.

In determining the Federal awards expended in its fiscal year, the subgrantee shall consider all sources of Federal awards, including Federal funds received from the Department of Transportation. The determination of amounts of Federal awards expended should be in accordance with the guidelines established by OMB Circular A-133, as revised. An audit of the subgrantee conducted by the Auditor General in accordance with the provisions OMB Circular A-133, as revised, will meet the requirements of this part.

In connection with the audit requirements addressed above, the subgrantee shall fulfill the requirements relative to auditee responsibilities as provided in Subpart C of OMB Circular A-133, as revised.

If the subgrantee expends less than \$500,000 in Federal awards in its fiscal year, an audit conducted in accordance with the provisions of OMB Circular A-133, as revised, is not required. In the event that the subgrantee expends less than \$500,000 in Federal awards in its fiscal year and elects to have an audit conducted in accordance with the provisions of OMB Circular A-133, as revised, the cost of the audit must be paid from non-Federal funds.
