The budget for the project was approved on CAM #20-0088 on March 3, 2020. The RFP went to bid, and the quotes received were more than the estimated amount that was approved for the irrigation automated system in January 2020.

Sun Eagle General Contractors Corporation won the bid at an estimated amount of \$625,000. On July 9, 2020, the Cemetery Board approved the bid in an amount not to exceed \$625,000, including the increase of \$175,000 in expenses to upgrade the irrigation system. The City will pay the expenses as services are rendered and will be reimbursed from the Cemetery Perpetual Care Trust fund.

Funding is available for this purpose within the Cemetery Perpetual Care Fund Balance.

Staff recommends that the City Commission amend the FY 2021 – FY 2025 Community Investment Plan (CIP) in the amount of \$175,000 for the Irrigation Upgrade Sunset Memorial Gardens Project. There is an associated CAM #20-0581.

The Fort Lauderdale Beach parking lot is currently being used for major events as a staging area and as an entry point for tractor trailers to get to the beach. The Beach Improvement District (BID) requested improvements to the parking lot and beach area to help in the execution of beach events in this area. The total estimated cost of the project totals \$750,000. Of that amount, \$500,000 was transferred in FY 2019, leaving a remaining balance to fund the project of \$250,000 by FY 2021. The total funding for the parking lot improvement will be funded by the BID.

The parking lot improvements include:

- A new curb cut on Seabreeze Boulevard for semi-trucks to enter the parking lot
- Median cuts in the parking lot for tractor trailers to make turns and enter the beach area
- A cut-through in the center landscape island to decrease the event staging area which also maximizes public parking space
- Water/sewer/powerline extension to the events' beach area

A transfer of BID funds to the Fort Lauderdale Beach Parking Lots Improvement Project is recommended to fund the improvements identified above.

Staff recommends that the City Commission amend the FY 2021 Operating Budget and FY 2021 – FY 2025 Community Investment Plan (CIP) in the amount of \$250,000 for the funding of the Fort Lauderdale Beach Parking Lots Improvements Project.

Transportation and Mobility

O. Transfer between Operating Budgets and Addition of 3 Full-Time Positions to the City’s Personnel Complement – General Fund – Transportation and Mobility Planning Services - \$453,966

In order to meet the needs and requests from our neighbors for transportation planning services, the Transportation and Mobility Department is requesting to add three positions as follows: two (2) Urban Planner II’s and one (1) Urban Planner III. Currently there is only one staff person dedicated to transportation planning for the entire City, this resource alone cannot meet the level of service and attention required for each District. Each of the requested positions will be assigned a City Commission district in order to provide dedicated transportation planning services in the City.

Funding is available within the Other General Government Operating Budget for the purpose of funding the requested positions to design, manage, and advance transportation surtax projects. There will be an estimated annual, on-going cost of \$441,966 and one-time startup cost consisting of computers and associated applications of \$12,000.

Staff recommends that the City Commission amend the FY 2021 Operating Budget and the Personnel Complement in the amount of \$453,966 for the addition of three positions to facilitate Transportation and Mobility Planning Services.
