OPEN ACCESS PLUS

'As the incumbent administrator of City of For Lauderdale benefit plan, Cigna's preference would be to continue to operate under the inforce Agreement and incorporate any new provisions if necessary.

AGREEMENT FOR SINGLE SOURCE MANAGED CARE THIRD-PARTY ADMINISTRATOR

THIS AGREEMENT, effective the 1st day of October, 2011, by and between the City of Fort Lauderdale, a Florida municipality, ("City"), whose address is 100 North Andrews Avenue, Fort Lauderdale, FL 33301-1016, and Connecticut General Life Insurance Company, a Connecticut corporation authorized to transact business in the State of Florida, ("Contractor" or "Company"), whose address and phone number are 900 Cottage Grove Road, Hartford, CT, 06152, Phone: 860-226-7501, for the term specified herein,

NOW THEREFORE, for and in consideration of the mutual promises and covenants set forth herein and other good and valuable consideration, the City and the Contractor covenant and agree as follows:

WITNESSETH:

I. DOCUMENTS

The following documents (collectively "Contract Documents") are hereby incorporated into and made part of this Agreement:

(1) Request for Proposal 115-10759, Single Source Managed Care Third-Party Administrator, including any and all addenda, prepared by the City of Fort Lauderdale, ("RFP") (or "Exhibit A").

(2) Response to the RFP, dated June 23, 2011 ("Exhibit B").

(3) Administrative Services Agreement ("Exhibit C")

All Contract Documents may also be collectively referred to as the "Documents." In the event of any conflict between or among the Documents or any ambiguity or missing specifications or instruction, the following priority is established:

1. Specific direction from the City Manager (or designee)
2. Exhibit C
3. This Agreement dated October 1, 2011 and any attachments.
4. Exhibit A
5. Exhibit B

II. SCOPE

The Contractor shall perform the Work under the general direction of the City as set forth in the Contract Documents.

Unless otherwise specified herein, the Contractor shall perform all Work identified in this Agreement. The parties agree that the scope of services is a description of Contractor's obligations and responsibilities, and is deemed to include preliminary considerations and prerequisites, and all labor, materials, equipment, and tasks which are such an inseparable part of the work described that exclusion would render performance by Contractor impractical, illogical, or unconscionable.

Contractor acknowledges and agrees that the City's Contract Administrator has no authority to make changes that would increase, decrease, or otherwise modify the Scope of Services to be provided under this Agreement.

By signing this Agreement, the Contractor represents that it thoroughly reviewed the documents incorporated into this Agreement by reference and that it accepts the description of the Work and the conditions under which the Work is to be performed.

III. TERM OF AGREEMENT

The initial contract period shall commence on October 1, 2011 and shall end on December 31, 2014. In the event the term of this Agreement extends beyond the end of any fiscal year of City, to wit, September 30, the continuation of this Agreement beyond the end of such fiscal year shall be subject to both the appropriation and the availability of funds.

IV. COMPENSATION

The Contractor agrees to provide the services and/or materials as specified in the Contract Documents at the cost specified in Exhibit B. It is acknowledged and agreed by Contractor that this amount is the maximum payable and constitutes a limitation upon City's obligation to compensate Contractor for Contractor's services related to this Agreement. This maximum amount, however, does not constitute a limitation of any sort upon Contractor's obligation to perform all items of work required by or which can be reasonably inferred from the Scope of Services. Except as otherwise provided in the solicitation, no amount shall be paid to Contractor to reimburse Contractor's expenses.

V. METHOD OF BILLING AND PAYMENT

Contractor may submit invoices for compensation no more often than monthly, but only after the services for which the invoices are submitted have been completed. An original invoice plus one copy are due within fifteen (15) days of the end of the month except the final invoice which must be received no later than sixty (60) days after this Agreement expires. Invoices shall designate the nature of the services performed and/or the goods provided.

City shall pay Contractor within forty-five (45) days of receipt of Contractor's proper invoice, as provided in the Florida Local Government Prompt Payment Act.

To be deemed proper, all invoices must comply with the requirements set forth in this Agreement and must be submitted on the form and pursuant to instructions prescribed by the City's Contract Administrator. Payment may be withheld for failure of Contractor to comply with a term, condition, or requirement of this Agreement.

Notwithstanding any provision of this Agreement to the contrary, City may withhold, in whole or in part, payment to the extent necessary to protect itself from loss on account of inadequate or defective work that has not been remedied or resolved in a manner satisfactory to the City's Contract Administrator or failure to comply with this Agreement. The amount withheld shall not be subject to payment of interest by City.

VI. GENERAL CONDITIONS

A. Indemnification

Contractor shall protect and defend at Contractor's expense, counsel being subject to the City's approval, and indemnify and hold harmless the City and the City's officers, employees, volunteers, and agents from and against any and all losses, penalties, fines, damages, settlements, judgments, claims, costs, charges, expenses, or liabilities, including any award of attorney fees and any award of costs, in connection with or arising directly or indirectly out of any act or omission by the Contractor or by any officer, employee, agent, invitee, subcontractor, or sublicensee of the Contractor. The provisions and obligations of this section shall survive the expiration or earlier termination of this Agreement. To the extent considered necessary by the City Manager, any sums due Contractor under this Agreement may be retained by City until all of City's claims for indemnification pursuant to this Agreement have been settled or otherwise resolved, and any amount withheld shall not be subject to payment of interest by City.

B. Intellectual Property

Contractor shall protect and defend at Contractor's expense, counsel being subject to the City's approval, and indemnify and hold harmless the City from and against any and all losses, penalties, fines, damages, settlements, judgments, claims, costs, charges, royalties, expenses, or liabilities, including any award of attorney fees and any award of costs, in connection with or arising directly or indirectly out of any infringement or allegation of infringement of any patent, copyright, or other intellectual property right in connection with the Contractor's or the City's use of any copyrighted, patented or un-patented invention, process, article, material, or device that is manufactured, provided, or used pursuant to this Agreement. If the Contractor uses any design, device, or materials covered by letters, patent or copyright, it is mutually agreed and understood without exception that the bid prices shall include all royalties or costs arising from the use of such design, device, or materials in any way involved in the work.

C. Termination for Cause

The aggrieved party may terminate this Agreement for cause if the party in breach has not corrected the breach within ten (10) days after written notice from the aggrieved party identifying the breach. The City Manager may also terminate this Agreement upon such notice as the City Manager deems appropriate under the circumstances in the event the City Manager determines that termination is necessary to protect the public health or safety. The parties agree that if the City erroneously, improperly or unjustifiably terminates for cause, such termination shall be deemed a termination for convenience, which shall be effective thirty (30) days after such notice of termination for cause is provided.

This Agreement may be terminated for cause for reasons including, but not limited to, Contractor's repeated (whether negligent or intentional) submission for payment of false or incorrect bills or invoices, failure to perform the Work to the City's satisfaction; or failure to continuously perform the work in a manner calculated to meet or accomplish the objectives as set forth in this Agreement.

D. Termination for Convenience

The City reserves the right, in its best interest as determined by the City, to cancel this contract for convenience by giving written notice to the Contractor at least thirty (30) days prior to the effective date of such cancellation. In the event this Agreement is terminated for convenience,

Contractor shall be paid for any services performed to the City's satisfaction pursuant to the Agreement through the termination date specified in the written notice of termination. Contractor acknowledges and agrees that he/she/it has received good, valuable and sufficient consideration from City, the receipt and adequacy of which are hereby acknowledged by Contractor, for City's right to terminate this Agreement for convenience.

E. Cancellation for Unappropriated Funds

The City reserves the right, in its best interest as determined by the City, to cancel this contract for unappropriated funds or unavailability of funds by giving written notice to the Contractor at least thirty (30) days prior to the effective date of such cancellation. The obligation of the City for payment to a Contractor is limited to the availability of funds appropriated in a current fiscal period, and continuation of the contract into a subsequent fiscal period is subject to appropriation of funds, unless otherwise provided by law.

F. Insurance

The Contractor shall furnish proof of insurance requirements as indicated below. The coverage is to remain in force at all times during the contract period. The following minimum insurance coverage is required. The commercial general liability insurance policy shall name the City of Fort Lauderdale, a Florida municipality, as an "additional insured." This MUST be written in the description section of the insurance certificate, even if there is a check-off box on the insurance certificate. Any costs for adding the City as "additional insured" shall be at the Contractor's expense.

The City of Fort Lauderdale shall be given notice 10 days prior to cancellation or modification of any required insurance. The insurance provided shall be endorsed or amended to comply with this notice requirement. In the event that the insurer is unable to accommodate, it shall be the responsibility of the Contractor to provide the proper notice. Such notification will be in writing by registered mail, return receipt requested and addressed to the Procurement Services Division.

The Contractor's insurance must be provided by an A.M. Best's "A-" rated or better insurance company authorized to issue insurance policies in the State of Florida, subject to approval by the City's Risk Manager. Any exclusions or provisions in the insurance maintained by the contractor that excludes coverage for work contemplated in this solicitation shall be deemed unacceptable, and shall be considered breach of contract.

Workers' Compensation and Employers' Liability Insurance

Limits: Workers' Compensation – Per Chapter 440, Florida Statutes
Employers' Liability - $500,000

Any firm performing work for or on behalf of the City of Fort Lauderdale must provide Workers' Compensation insurance. Exceptions and exemptions can only be made, by the City's Risk Manager, if they are in accordance with Florida Statutes.

Commercial General Liability Insurance

Covering premises-operations, products-completed operations, independent contractors and contractual liability.

Limits: Combined single limit bodily injury/property damage $1,000,000.

This coverage must include, but not limited to:

a. Coverage for the liability assumed by the contractor under the indemnity provision of the contract.
b. Coverage for Premises/Operations
c. Products/Completed Operations
d. Broad Form Contractual Liability
e. Independent Contractors

Automobile Liability Insurance

Covering all owned, hired and non-owned automobile equipment.

Limits: Bodily injury	$250,000 each person, $500,000 each occurrence
Property damage	$100,000 each occurrence

Professional Liability (Errors & Omissions)

Consultants

Limits:	$2,000,000 per occurrence

Insurance for Electronic Data Theft

The successful contractor will need to provide proof that they maintain insurance coverage in an amount of not less than $2,000,000 specifically for cyber related crimes relating to the transmission of Protected Health Information over their website that can include but are not limited to criminal activity involving the information technology infrastructure, including illegal access (unauthorized access), illegal interception (by technical means of non-public transmissions of computer data to, from or within a computer system), data interference (unauthorized damaging, deletion, deterioration, alteration or suppression of computer data), systems interference (interfering with the functioning of a computer system by inputting, transmitting, damaging, deleting, deteriorating, altering or suppressing computer data), misuse of devices, forgery (ID theft), and electronic fraud.

Limits:	$2,000,000 per occurrence

Certificate holder should be addressed as follows:

City of Fort Lauderdale
Procurement Services Division
100 N. Andrews Avenue, Room 619
Fort Lauderdale, FL 33301

G. Environmental, Health and Safety

Contractor shall place the highest priority on health and safety and shall maintain a safe working environment during performance of the Work. Contractor shall comply, and shall secure compliance by its employees, agents, and subcontractors, with all applicable environmental, health, safety and security laws and regulations, and performance conditions in this Agreement. Compliance with such requirements shall represent the minimum standard required of Contractor. Contractor shall be responsible for examining all requirements and determine whether additional or more stringent environmental, health, safety and security provisions are required for the Work. Contractor agrees to utilize protective devices as required by applicable laws, regulations, and any industry or Contractor's health and safety plans and regulations, and to pay the costs and expenses thereof, and warrants that all such persons shall be fit and qualified to carry out the Work.

H. Standard of Care

Contractor represents that he/she/it is qualified to perform the Work, that Contractor and his/her/its subcontractors possess current, valid state and/or local licenses to perform the Work, and that their services shall be performed in a manner consistent with that level of care and skill ordinarily exercised by other qualified contractors under similar circumstances.

I. Rights in Documents and Work

Any and all reports, photographs, surveys, and other data and documents provided or created in connection with this Agreement are and shall remain the property of City; and Contractor disclaims any copyright in such materials. In the event of and upon termination of this Agreement, any reports, photographs, surveys, and other data and documents prepared by Contractor, whether finished or unfinished, shall become the property of City and shall be delivered by Contractor to the City's Contract Administrator within seven (7) days of termination of this Agreement by either party. Any compensation due to Contractor shall be withheld until Contractor delivers all documents to the City as provided herein.

J. Audit Right and Retention of Records

City shall have the right to audit the books, records, and accounts of Contractor that are related to this Agreement. Contractor shall keep such books, records, and accounts as may be necessary in order to record complete and correct entries related to this Agreement. All books, records, and accounts of Contractor shall be kept in written form, or in a form capable of conversion into written form within a reasonable time, and upon request to do so, Contractor shall make same available at no cost to City in written form.

Contractor shall preserve and make available, at reasonable times for examination and audit by City, all financial records, supporting documents, statistical records, and any other documents pertinent to this Agreement for the required retention period of the Florida public records law, Chapter 119, Florida Statutes, as may be amended from time to time, if applicable, or, if the Florida Public Records Act is not applicable, for a minimum period of three (3) years after termination of this Agreement. If any audit has been initiated and audit findings have not been resolved at the end of the retention period or three (3) years, whichever is longer, the books, records, and accounts shall be retained until resolution of the audit findings. If the Florida public records law is determined by City to be applicable to Contractor, Contractor shall comply with all requirements thereof; however, Contractor shall violate no confidentiality or non-disclosure requirement of either federal or state law. Any incomplete or incorrect entry in such books,

records, and accounts shall be a basis for City's disallowance and recovery of any payment upon such entry.

The Contractor shall maintain during the term of the contract all books of account, reports and records in accordance with generally accepted accounting practices and standards for records directly related to this contract.

K. Public Entity Crime Act

Contractor represents that the execution of this Agreement will not violate the Public Entity Crime Act, Section 287.133, Florida Statutes, as may be amended from time to time, which essentially provides that a person or affiliate who is a contractor, consultant, or other provider and who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid on a contract to provide any goods or services to City, may not submit a bid on a contract with City for the construction or repair of a public building or public work, may not submit bids on leases of real property to City, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with City, and may not transact any business with City in excess of the threshold amount provided in Section 287.017, Florida Statutes, as may be amended from time to time, for category two purchases for a period of 36 months from the date of being placed on the convicted vendor list. Violation of this section shall result in termination of this Agreement and recovery of all monies paid by City pursuant to this Agreement, and may result in debarment from City's competitive procurement activities.

L. Independent Contractor

Contractor is an independent contractor under this Agreement. Services provided by Contractor pursuant to this Agreement shall be subject to the supervision of the Contractor. In providing such services, neither Contractor nor Contractor's agents shall act as officers, employees, or agents of City. No partnership, joint venture, or other joint relationship is created hereby. City does not extend to Contractor or Contractor's agents any authority of any kind to bind City in any respect whatsoever.

M. Inspection and Non-Waiver

Contractor shall permit the representatives of CITY to inspect and observe the Work at all times.

The failure of the City to insist upon strict performance of any other terms of this Agreement or to exercise any rights conferred by this Agreement shall not be construed by Contractor as a waiver of the City's right to assert or rely on any such terms or rights on any future occasion or as a waiver of any other terms or rights.

N. Assignment and Performance

Neither this Agreement nor any right or interest herein shall be assigned, transferred, or encumbered without the written consent of the other party. City may terminate this Agreement, effective immediately, if there is any assignment, or attempted assignment, transfer, or encumbrance, by Contractor of this Agreement or any right or interest herein without City's written consent.

Contractor represents that each person who will render services pursuant to this Agreement is duly qualified to perform such services by all appropriate governmental authorities, where

required, and that each such person is reasonably experienced and skilled in the area(s) for which he or she will render his or her services.
Contractor shall perform Contractor's duties, obligations, and services under this Agreement in a skillful and respectable manner. The quality of Contractor's performance and all interim and final product(s) provided to or on behalf of City shall be comparable to the best local and national standards.

In the event Contractor engages any subcontractor in the performance of this Agreement, Contractor shall ensure that all of Contractor's subcontractors perform in accordance with the terms and conditions of this Agreement. Contractor shall be fully responsible for all of Contractor's subcontractors' performance, and liable for any of Contractor's subcontractors' non-performance and all of Contractor's subcontractors' acts and omissions. Contractor shall defend at Contractor's expense, counsel being subject to City's approval or disapproval, and indemnify and hold City and City's officers, employees, and agents harmless from and against any claim, lawsuit, third party action, fine, penalty, settlement, or judgment, including any award of attorney fees and any award of costs, by or in favor of any of Contractor's subcontractors for payment for work performed for City by any of such subcontractors, and from and against any claim, lawsuit, third party action, fine, penalty, settlement, or judgment, including any award of attorney fees and any award of costs, occasioned by or arising out of any act or omission by any of Contractor 's subcontractors or by any of Contractor's subcontractors' officers, agents, or employees.

O. Conflicts

Neither Contractor nor any of Contractor's employees shall have or hold any continuing or frequently recurring employment or contractual relationship that is substantially antagonistic or incompatible with Contractor's loyal and conscientious exercise of judgment and care related to Contractor's performance under this Agreement.

Contractor further agrees that none of Contractor's officers or employees shall, during the term of this Agreement, serve as an expert witness against City in any legal or administrative proceeding in which he, she, or Contractor is not a party, unless compelled by court process. Further, Contractor agrees that such persons shall not give sworn testimony or issue a report or writing, as an expression of his or her expert opinion, which is adverse or prejudicial to the interests of City in connection with any such pending or threatened legal or administrative proceeding unless compelled by court process. The limitations of this section shall not preclude Contractor or any persons in any way from representing themselves, including giving expert testimony in support thereof, in any action or in any administrative or legal proceeding.

P. Schedule and Delays

Time is of the essence in this Agreement. By signing, Contractor affirms that it believes the schedule to be reasonable; provided, however, the parties acknowledge that the schedule might be modified as the City directs.

Q. Materiality and Waiver of Breach

City and Contractor agree that each requirement, duty, and obligation set forth herein was bargained for at arm's-length and is agreed to by the parties in exchange for *quid pro quo*, that each is substantial and important to the formation of this Agreement and that each is, therefore, a material term hereof.

City's failure to enforce any provision of this Agreement shall not be deemed a waiver of such provision or modification of this Agreement. A waiver of any breach of a provision of this Agreement shall not be deemed a waiver of any subsequent breach and shall not be construed to be a modification of the terms of this Agreement.

R. Compliance With Laws

Contractor shall comply with all applicable federal, state, and local laws, codes, ordinances, rules, and regulations in performing Contractor's duties, responsibilities, and obligations pursuant to this Agreement.

S. Severance

In the event a portion of this Agreement is found by a court of competent jurisdiction to be invalid or unenforceable, the provisions not having been found by a court of competent jurisdiction to be invalid or unenforceable shall continue to be effective.

T. Limitation of Liability

The City desires to enter into this Agreement only if in so doing the City can place a limit on the City's liability for any cause of action for money damages due to an alleged breach by the City of this Agreement, so that its liability for any such breach never exceeds the sum of $1,000. Contractor hereby expresses its willingness to enter into this Agreement with Contractor's recovery from the City for any damage action for breach of contract or for any action or claim arising from this Agreement to be limited to a maximum amount of $1,000 less the amount of all funds actually paid by the City to Contractor pursuant to this Agreement.

Accordingly, and notwithstanding any other term or condition of this Agreement, Contractor hereby agrees that the City shall not be liable to Contractor for damages in an amount in excess of $1,000 which amount shall be reduced by the amount actually paid by the City to Contractor pursuant to this Agreement, for any action for breach of contract or for any action or claim arising out of this Agreement. Nothing contained in this paragraph or elsewhere in this Agreement is in any way intended to be a waiver of the limitation placed upon City's liability as set forth in Article 768.28, Florida Statutes.

U. Jurisdiction, Venue, Waiver, Waiver of Jury Trial

This Agreement shall be interpreted and construed in accordance with and governed by the laws of the State of Florida. Venue for any lawsuit by either party against the other party or otherwise arising out of this Agreement, and for any other legal proceeding, shall be in the Seventeenth Judicial Circuit in and for Broward County, Florida, or in the event of federal jurisdiction, in the Southern District of Florida, Fort Lauderdale Division.

V. Amendments

No modification, amendment, or alteration in the terms or conditions contained herein shall be effective unless contained in a written document prepared with the same or similar formality as this Agreement and executed by the Mayor-Commissioner and/or City Manager, as determined by City Charter and Ordinances, and Contractor or others delegated authority to or otherwise authorized to execute same on their behalf.

W. Prior Agreements

This document represents the final and complete understanding of the parties and incorporates or supersedes all prior negotiations, correspondence, conversations, agreements, and understandings applicable to the matters contained herein. The parties agree that there is no commitment, agreement, or understanding concerning the subject matter of this Agreement that is not contained in this written document. Accordingly, the parties agree that no deviation from the terms hereof shall be predicated upon any prior representation or agreement, whether oral or written.

X. Payable Interest

Except as required and provided for by the Florida Local Government Prompt Payment Act, City shall not be liable for interest for any reason, whether as prejudgment interest or for any other purpose, and in furtherance thereof Contractor waives, rejects, disclaims and surrenders any and all entitlement it has or may have to receive interest in connection with a dispute or claim based on or related to this Agreement.

Y. Representation of Authority

Each individual executing this Agreement on behalf of a party hereto hereby represents and warrants that he or she is, on the date he or she signs this Agreement, duly authorized by all necessary and appropriate action to execute this Agreement on behalf of such party and does so with full legal authority.

Z. Uncontrollable Circumstances ("Force Majeure")

The City and Contractor will be excused from the performance of their respective obligations under this agreement when and to the extent that their performance is delayed or prevented by any circumstances beyond their control including, fire, flood, explosion, strikes or other labor disputes, act of God or public emergency, war, riot, civil commotion, malicious damage, act or omission of any governmental authority, delay or failure or shortage of any type of transportation, equipment, or service from a public utility needed for their performance, provided that:

A. The non performing party gives the other party prompt written notice describing the particulars of the Force Majeure including, but not limited to, the nature of the occurrence and its expected duration, and continues to furnish timely reports with respect thereto during the period of the Force Majeure;

B. The excuse of performance is of no greater scope and of no longer duration than is required by the Force Majeure;

C. No obligations of either party that arose before the Force Majeure causing the excuse of performance are excused as a result of the Force Majeure; and

D. The non-performing party uses its best efforts to remedy its inability to perform. Notwithstanding the above, performance shall not be excused under this Section for a period in excess of two (2) months, provided that in extenuating circumstances, the City may excuse performance for a longer term. Economic hardship of the Contractor will not constitute Force Majeure. The term of the agreement shall be extended by a period equal to that during which either party's performance is suspended under this Section.

AA. Scrutinized Companies

Subject to Odebrecht Construction, Inc., v. Prasad, 876 F.Supp.2d 1305 (S.D. Fla. 2012), affirmed, Odebrecht Construction, Inc., v. Secretary, Florida Department of Transportation, 715 F.3d 1268 (11th Cir. 2013), this Section applies to any contract for goods or services of $1 million or more:

> The Contractor certifies that it is not on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List and that it does not have business operations in Cuba or Syria as provided in section 287.135, Florida Statutes (2013), as may be amended or revised. The City may terminate this Contract at the City's option if the Contractor is found to have submitted a false certification as provided under subsection (5) of section 287.135, Florida Statutes (2013), as may be amended or revised, or been placed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List or has been engaged in business operations in Cuba or Syria, as defined in Section 287.135, Florida Statutes (2013), as may be amended or revised.

BB. Public Records

Contractor shall:

> (a) Keep and maintain public records that ordinarily and necessarily would be required by the City in order to perform the service.
>
> (b) Provide the public with access to public records on the same terms and conditions that the City would provide the records and at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes (2013), as may be amended or revised, or as otherwise provided by law.
>
> (c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law.
>
> (d) Meet all requirements for retaining public records and transfer, at no cost, to the City, all public records in possession of the contractor upon termination of this contract and destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. All records stored electronically must be provided to the City in a format that is compatible with the information technology systems of the City.

IN WITNESS WHEREOF, the City and the Contractor execute this Contract as follows:

As the incumbent administrator of the City of Fort Lauderdale's benefit plan, Cigna's preference would be to continue to operate under the inforce Business Associate Agreement and incorporate any new provisions if necessary.

BUSINESS ASSOCIATE AGREEMENT

This Agreement is made and entered into this 3rd day of November, 2014, by and between the City of Fort Lauderdale, a Florida municipality (hereinafter referred to as the "Covered Entity" or "City") and Connecticut General Life Insurance Company, a Connecticut corporation authorized to transact business in the State of Florida (hereinafter referred to as "Business Associate").

WHEREAS, the Covered Entity and the Business Associate have established a business relationship in which Business Associate, acting for or on behalf of Covered Entity, receives Protected Health Information as defined by the Health Insurance Portability and Accountability Act of 1996 ("Act"); and

WHEREAS, the Covered Entity and the Business Associate desire to comply with the requirements of the Act's Privacy Rule as further set out below.

NOW, THEREFORE, in consideration of the mutual covenants, promises and agreements set forth herein, the Covered Entity and the Business Associate agree as follows:

1. Definitions

a. Terms used, but not otherwise defined, in this Agreement shall have the same meaning as those terms in the Privacy and Security Rules ("Privacy Rule"), as codified in 45 Code of Federal Regulations Parts 160 through 164, as may be amended.

2. Obligations and Activities of Business Associate

a. Business Associate agrees to not use or disclose Protected Health Information other than as permitted or required by the Agreement or as Required by Law.

b. Business Associate agrees to use appropriate safeguards to prevent use or disclosure of the Protected Health Information other than as provided for by this Agreement.

c. Business Associate agrees to mitigate, to the extent practicable, any harmful effect that is known to Business Associate of a use or disclosure of Protected Health Information by Business Associate in violation of the requirements of this Agreement.

d. Business Associate agrees to report to Covered Entity any use or disclosure of the Protected Health Information not provided for by this Agreement of which it becomes aware.

e. Business Associate agrees to ensure that any agent or subcontractor, to whom it provides Protected Health Information received from, or created or received by Business Associate on behalf of Covered Entity, agrees to the same restrictions and conditions that apply through this Agreement to Business Associate with respect to such information.

f. Business Associate agrees to provide access, at the request of an Individual or Covered Entity, and in a reasonable time and manner, to Protected Health Information in a Designated Record Set, to an Individual in order to meet the requirements under 45 C.F.R. § 164.524, if the Business Associate has Protected Health Information in a Designated Record Set.

g. Business Associate agrees to make any amendment(s) to Protected Health Information in a Designated Record Set that the Covered Entity directs or agrees to pursuant to 45 C.F.R. § 164.526 at the request of Covered Entity or an Individual, in a reasonable time and manner, if Business Associate has Protected Health Information in a Designated Record Set, or take other measures as necessary to satisfy Covered Entity's obligations under 45 C.F.R. 164.526..

h. Business Associate agrees to make internal practices, books, and records, including policies and procedures and Protected Health Information, relating to the use and disclosure of Protected Health

Information received from, or created or received by Business Associate on behalf of, Covered Entity available to the Covered Entity, or to the Secretary, in a reasonable time and manner or as designated by the Secretary, for purposes of the Secretary determining Covered Entity's compliance with the Privacy Rule.

i. Business Associate agrees to document such disclosures of Protected Health Information and information related to such disclosures as would be required for Covered Entity to respond to a request by an Individual for an accounting of disclosures of Protected Health Information in accordance with 45 C.F.R. § 164.528.

j. Business Associate agrees to provide to an Individual, within thirty (30) days of receipt of a written request from the Covered Entity or an Individual, information collected in accordance with Section 2.i of this Agreement, to respond to a request by an Individual for an accounting of disclosures of Protected Health Information in accordance with 45 C.F.R. § 164.528.

k. Sections 164.308, 164.310, 164.312, and 164.316 of Title 45, Code of Federal Regulations, shall apply to Business Associate in the same manner that such sections apply to Covered Entity.

l. Business Associate shall comply with the privacy, security, and security breach notification provisions applicable to a business associate pursuant to Subtitle D of the Health Information Technology for Economic and Clinical Health Act which is Title XIII of Division A of the American Recovery and Reinvestment Act of 2009 (Public Law 111-5), 42 U.S.C.A. §17921 *et seq.* (2013), as may be amended or revised, ("HITECH"), any regulations promulgated thereunder, and any amendments to the Privacy Rule, all of which are hereby incorporated herein by reference.

For purposes of discovery and reporting of Breaches, Business Associate is not the agent of the Plan or the Employer (as "agent" is defined under common law). Business Associate will investigate Breaches, assess their impact under applicable state and federal law, including HITECH, and make a recommendation to the Plan as to whether notification is required pursuant to 45 C.F.R. §§164.404-408 and/or applicable state breach notification laws. With the Plan's prior approval, Business Associate will issue notices to such individuals, state and federal agencies - including the Department of Health and Human Services, and/or the media as the Plan is required to notify pursuant to, and in accordance with the requirements of Applicable Law (including 45 C.F.R. §§164.404-408). Business Associate will pay the costs of issuing notices required by law and other remediation and mitigation which, in Business Associate's discretion, are appropriate and necessary to address the Breach. Business Associate will not be required to issue notifications that are not mandated by Applicable Law. Business Associate shall provide the Plan with information necessary for the Plan to fulfill its obligation to report Breaches affecting fewer than 500 Individuals to the Secretary as required by C.F.R. §164.408(c).

3. Permitted Uses and Disclosures by Business Associate

a. Except as otherwise limited in this Agreement, Business Associate may use or disclose Protected Health Information to perform functions, activities, or services for, or on behalf of, Covered Entity as specified in the Agreement for Single Source Managed Care Third- Party Administrator, No. 115-10759, between the City of Fort Lauderdale and the Business Associate ("Original Contract"), provided that such use or disclosure would not violate the Privacy Rule if done by Covered Entity or the minimum necessary policies and procedures of the Covered Entity.

4. Specific Use and Disclosure Provisions

a. Except as otherwise limited in this Agreement, Business Associate may use Protected Health Information for the proper management and administration of the Business Associate or to carry out the legal responsibilities of the Business Associate.

b. Except as otherwise limited in this Agreement, Business Associate may disclose

Protected Health Information for the proper management and administration of the Business Associate or to carry out the legal responsibilities of the Business Associate, provided that disclosures are Required By Law, or Business Associate obtains reasonable assurances from the person to whom the information is disclosed that it will remain confidential and used or further disclosed only as Required By Law or for the purpose for which it was disclosed to the person, and the person notifies the Business Associate of any instances of which it is aware in which the confidentiality of the information has been breached.

c. Except as otherwise limited in this Agreement, Business Associate may use Protected Health Information to provide Data Aggregation services to Covered Entity as permitted by 45 C.F.R. § 164.504(e)(2)(i)(B).

d. Business Associate may use Protected Health Information to report violations of law to appropriate Federal and State authorities, consistent with 45 C.F.R. § 164.502(j)(1).

e. Business Associate may use Protected Health Information to deidentify the information in accordance with 45 C.F.R. 164.514(a)-(c).

f. Business Associate may use Protected Health Information as required by law.

g. Business Associate agrees to make uses and disclosures and requests for Protected Health Information consistent with Business Associate's minimum necessary policies and procedures.

h. Business Associate may not use or disclose Protected Health Information in a manner that would violate Subpart E of 45 C.F.R. Part 164 if done by Covered Entity, except for the specific uses and disclosures set forth above.

5. Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any limitation(s) in the notice of privacy practices of Covered Entity in accordance with 45 C.F.R. § 164.520, to the extent that such limitation may affect Business Associate's use or disclosure of Protected Health Information.

b. Covered Entity shall notify Business Associate of any changes in, or revocation of, permission by an Individual to use or disclose Protected Health Information, to the extent that such changes may affect Business Associate's use or disclosure of Protected Health Information.

c. Covered Entity shall notify Business Associate of any restriction on the use or disclosure of Protected Health Information that Covered Entity has agreed to or is required to abide by under 45 C.F.R. § 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of Protected Health Information.

6. Permissible Requests by Covered Entity

a. Covered Entity shall not request Business Associate to use or disclose Protected Health Information in any manner that would not be permissible under Subpart E of 45 C.F.R. Part 164if done by Covered Entity, except that Business Associate may use or disclose Protected Health Information for data aggregation or management and administrative activities of Business Associate if required by the terms of the Original Contract.

7. Term and Termination

a. The Term of this Agreement shall be effective as of the effective date of the Original Contract, and shall terminate when the Original Contract terminates. Upon termination, all of the Protected Health Information provided by Covered Entity to Business Associate, or created or received by Business Associate on behalf of Covered Entity, shall be destroyed or returned to Covered Entity, or, if it is infeasible to return or destroy Protected Health Information, or if it is illegal to destroy Protected Health Information, the protections are extended to such information, in accordance with the termination provisions in this Section.

b. Upon either party's knowledge of a material breach by the other party, the nonbreaching party shall either:

1. Provide an opportunity of at least thirty (30) days for the breaching party to cure the breach or end the violation and terminate this Agreement and the Original Contract if the breaching party does not cure the breach or end the violation within the time specified by the nonbreaching party;

2. Immediately terminate this Agreement and the Original Contract if the breaching party has breached a material term of this Agreement and cure is not possible; or

3. If neither termination nor cure is feasible, the nonbreaching party shall report the violation to the Secretary.

c. Effect of Termination

1. Except as provided in paragraph (2) of this section, upon termination of this Agreement, for any reason, Business Associate shall return, or destroy, except as prohibited by the Florida public records law, all Protected Health Information received from Covered Entity, or created or received by Business Associate on behalf of Covered Entity. This provision shall apply to Protected Health Information that is in the possession of subcontractors or agents of Business Associate. Business Associate shall retain no copies of the Protected Health Information

2. In the event that Business Associate's return or destruction of the Protected Health Information would be infeasible or illegal, Business Associate shall extend the protections of this Agreement to such Protected Health Information and limit further uses and disclosures of such Protected Health Information to those purposes that make the return or destruction infeasible or illegal, for so long as Business Associate maintains such Protected Health Information. Upon written request from the Covered Entity, Business Associate shall provide to Covered Entity notification of the conditions that make return or destruction infeasible or illegal. At all times Business Associate shall comply with the Florida public records law and exemptions therefrom, and applicable Florida records retention requirements.

8. Miscellaneous

a. A reference in this Agreement to a section in the Privacy Rule means the section as in effect or as amended or revised.

b. The Parties agree to take such action as is necessary to amend this Agreement from time to time as is necessary for Covered Entity or Business Associate to comply with the requirements of the Privacy Rule and the Health Insurance Portability and Accountability Act of 1996, Pub. L. No. 104-191. If the parties are unable to reach agreement regarding an amendment to this Agreement, either Business Associate or Covered Entity may terminate this Agreement upon ninety (90) days written notice to the other party.

c. The respective rights and obligations of Business Associate under Sections 7(c)(1) and 7(c)(2) of this Agreement shall survive the termination of this Agreement.

d. Any ambiguity in this Agreement shall be resolved to permit Covered Entity to comply with the Privacy Rule.

e. Business Associate shall indemnify, hold harmless, and defend at Business Associate's expense, counsel being subject to Covered Entity's approval, the Covered Entity, and the Covered Entity's officers and employees (collectively "indemnitees"), against any and all claims, actions, lawsuits, damages, losses, liabilities, judgments, fines, penalties, costs, and expenses incurred by any of the indemnitees arising out of or in connection with Business Associate's or any of Business Associate's officers', employees', agents', or subcontractors' breach of this Agreement or any act or omission by Business Associate or by any of Business Associate's officers, employees, agents, or subcontractors, including Business Associate's failure to perform any of its obligations under the Privacy Rule. Business Associate shall pay any and all expenses, fines, judgments,

and penalties, including court costs and attorney fees, which may be imposed upon any of the indemnitees resulting from or arising out of Business Associate's or any of Business Associate's officers', employees', agents', or subcontractors' breach of this Agreement or other act or omission.

f. Venue for any lawsuit or any other legal proceedings brought by either party against the other party or otherwise arising out of this Agreement, shall be in Broward County, Florida, or, in the event of federal jurisdiction, in the United States District Court for the Southern District of Florida, with appellate jurisdiction in the respective corresponding appellate tribunals.

g. Notwithstanding anything contained in this Agreement to the contrary, except as otherwise provided by federal law, Business Associate shall:

(1) Keep and maintain public records that ordinarily and necessarily would be required by Covered Entity in order to perform the Services.

(2) Provide the public with access to public records on the same terms and conditions that Covered Entity would provide the records and at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes (2013), as may be amended or revised, or as otherwise provided by law.

(3) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law.

(4) Meet all requirements for retaining public records and transfer, at no cost, to Covered Entity, all public records in possession of Business Associate upon termination of this contract and destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. All records stored electronically must be provided to Covered Entity in a format that is compatible with Covered Entity's information technology systems.

Connecticut General Life Insurance Company
Standard Business Associate Processes and Procedures

These Standard Business Associate Processes and Procedures apply to each self-funded group health plan ("Plan") of an entity ("Plan Sponsor") that has entered or will enter into an Administrative Services Only Agreement, Flexible Spending Account or Reimbursement Accounts Administrative Services Agreement and/or Continuation Coverage Services Agreement (collectively, as applicable, the "Administrative Services Agreement") with Connecticut General Life Insurance Company ("Connecticut General"). The Plan and Connecticut General are parties to a Business Associate Agreement/Privacy Addendum. Unless otherwise defined, capitalized terms have the meaning provided therein, or if not defined in such agreement, as defined in 45 C.F.R. parts 142, 160, 162 and 164 ("HIPAA"), also known as the HIPAA Standards for Electronic Transactions, the HIPAA Security Standards, and the HIPAA Privacy Rule and/or the Health Information Technology for Economic and Clinical Health Act, which was included in the American Recovery and Reinvestment Act of 2009 (P.L. 111-5 ("ARRA")).

Section 1. Access to PHI. When an Individual requests access to PHI contained in a Designated Record Set and such request is made directly to the Plan or Plan Sponsor, the Plan shall forward the request to Connecticut General within five (5) business days of such receipt. Upon receipt of such request from the Plan, or upon receipt of such a request directly from an Individual, Connecticut General shall make such PHI available directly to the Individual within the time and manner required in 45 C.F.R. §164.524. The Plan delegates to Connecticut General the duty to determine, on behalf of the Plan, whether to deny access to PHI requested by an Individual and the duty to provide any required notices and review in accordance with the HIPAA Privacy Rule.

Section 2. Availability of PHI for Amendment.

(a) When an Individual requests amendment to PHI contained in a Designated Record Set, and such request is made directly to the Plan or Plan Sponsor, within five (5) business days of such receipt, the Plan shall forward such request to Connecticut General for handling, except that the Plan shall retain and handle all such requests to the extent that they pertain to Individually Identifiable Health Information (such as enrollment information) originated by the Plan, Plan Sponsor, or the Plan's other business associates. Connecticut General shall respond to such forwarded requests as well as to any such requests that it receives directly from Individuals as required by 45 C.F.R. §164.526, except that Connecticut General shall forward to the Plan for handling any requests for amendment of PHI originated by the Plan, Plan Sponsor, or the Plan's other business associates.

(b) With respect to those requests handled by Connecticut General under subparagraph (a) above, the Plan delegates to Connecticut General the duty to determine, on behalf of the Plan, whether to deny a request for amendment of PHI and the duty to provide any required notices and review as well as, in the case of its determination to grant such a request, the duty to make any amendments in accordance with the terms of the Privacy Rule. In all other instances, the Plan retains all responsibility for handling such requests, including any denials, in accordance with the HIPAA Privacy Rule.

(c) Whenever Connecticut General is notified by the Plan that the Plan has agreed to make an amendment pursuant to a request that it handles under subparagraph (a) above, Connecticut General shall incorporate any such amendments in accordance with 45 C.F.R. §164.526.

(d)

Section 3. Accounting of Disclosures. When an Individual requests an accounting of disclosures of PHI held by Connecticut General directly to the Plan or Plan Sponsor, the Plan shall within five (5) business days of such receipt forward the request to Connecticut General to handle. Connecticut General shall handle such requests, and any such requests for an accounting of disclosures received directly from Individuals, in the time and manner as required in 45 C.F.R. §164.528.

Section 4. Requests for Privacy Protection. Connecticut General shall handle Individuals' requests made to it for privacy protection for PHI in Connecticut General's possession pursuant to the requirements of 45 C.F.R. §164.522. The Plan shall forward to Connecticut General to handle any such requests the Plan receives from Individuals that affect PHI held by Connecticut General.

Section 5. General Provisions Regarding Requests. Connecticut General may require that requests pursuant to Sections 1 through 4 above be made in writing and may create forms for use by Individuals in making such requests. When responding to an Individual's request as provided above, Connecticut General may inform the Individual that there may be other "protected health information" created or maintained by the Plan and/or the Plan's other business associates and not included in the Connecticut General's response. Connecticut General shall not be responsible for performing any duties described in the Business Associate Agreement with respect to any such other "protected health information." In carrying out its duties set forth herein, Connecticut General may establish such additional procedures and processes for requests from Individuals as permitted by the Privacy Rule.

Section 6. Disclosure of PHI to the Plan Sponsor. To the extent that the fulfillment of Connecticut General's obligations under the Administrative Services Agreement requires Connecticut General to disclose or provide access to PHI to Plan Sponsor or any person under the control of Plan Sponsor (including third parties), Connecticut General shall make such disclosure of or provide such access to PHI only as follows:

(i) Connecticut General shall disclose Summary Health Information to any employee or other person under the control of Plan Sponsor (including third parties) upon the Plan Sponsor's written request for the purpose of obtaining premium bids for the provision of health insurance or HMO coverage for the Plan or modifying, amending or terminating the Plan; and

(ii) If the Plan elects to provide PHI to the Plan Sponsor, Connecticut General shall disclose or make available PHI, other than Summary Health Information, at the written direction of the Plan to only those employees or other persons identified in the Plan documents and under the control of Plan Sponsor solely for the purpose of carrying out the Plan administration functions that Plan Sponsor performs for the Plan. Such employees or other persons (including third parties) will be identified by the Plan in writing (by name, title, or other appropriate designation) to Connecticut General as a

condition of disclosure of PHI pursuant to this Section 6(ii). The Plan may modify such list from time to time by written notice to Connecticut General.

Section 7. Disclosures of PHI to Third Parties. Upon the Plan's written request, Connecticut General will provide PHI to certain designated third parties who assist in administering the Plan and who are authorized by the Plan to receive such information solely for the purpose of assisting in carrying out Plan administration functions ("Designated Third Parties"). Such parties may include, but are not limited to, third-party administrators, consultants, brokers, auditors, successor administrators or insurers, and stop-loss carriers. As a condition to providing PHI to a Designated Third Party, Connecticut General may require that the Plan have a business associate agreement (within the meaning of the Privacy Rule) with such Designated Third Party.

IN WITNESS WHEREOF, the Covered Entity and the Business Associate execute this Business Associate Agreement as follows:

The following is a listing by state of the pharmacy chains participating in the Cigna National Pharmacy Network. In addition to the chains shown here, Cigna has contracted with a number of independent pharmacies and participating dispensing physicians of Allscripts Healthcare Solutions, Inc. in each state. Please call Cigna at the toll-free number on your ID card, or visit our website at myCigna.com for more information.

Medications delivered to your home

Cigna Home Delivery Pharmacy is especially for people who take prescription medications on a regular basis (including specialty medications). It offers:

- Up to a three-month supply of medications in one order
- Delivery of your medication to your home at no additional charge
- 24/7 access to pharmacists to help with any questions you may have
- Helpful reminder services and coaching available

It's easy to get started! Just call **1.800.835.3784** and we will help you take care of the rest

Preventive prescription drug option

Preventive medications are those prescribed to prevent the occurrence of a disease or condition for those with risk factors, such as high blood pressure, high cholesterol, diabetes, asthma, osteoporosis, heart attack and stroke, or to prevent the recurrence of the disease or condition for those individuals who have recovered. Preventive medications do not include medications used to treat an existing illness, injury or condition.

For some pharmacy plans that require you to pay a certain amount toward your medications before the plan coverage begins, preventive medications may be covered before you reach that amount. However, to be sure, you should read your enrollment information to see how preventive medications are covered based on your specific plan. A list of all covered preventive medications is also available on **Cigna.com**. Preventive medications are identified by a "PM" symbol within the drug list search.

CONNECTICUT SECRETARY OF THE STATE

1. NAME OF INSURANCE COMPANY:

Alta Health & Life Insurance Company

2. CHARTER HISTORY OF CORPORATION (including date and place of incorporation, name change information and information regarding change of domicile state):

The corporation was originally incorporated on May 2, 1963 as "Orange State Life Insurance Company" under the laws of the State of Florida. On June 15, 1982, the corporation's name was changed to "Home Life Financial Assurance Corporation." On August 1, 1994, the corporation transferred its state of domicile from the State of Florida to the State of Ohio. On March 21, 1996, the corporation changed its corporate name to "Anthem Health & Life Insurance Company" and it transferred its state of domicile from the State of Ohio to the State of Indiana. On July 19, 1999, the corporation's name was changed to "Alta Health & Life Insurance Company."

3. APPROVALS:

The corporation's redomestication to Connecticut was approved by the Insurance Commissioner of the State of

Indiana
(State from which corporation is redomesticating)

The corporation's redomestication was approved by the Insurance Commissioner of the State of Connecticut as demonstrated by such Commissioner's Certificate of Approval included herewith.

(Please reference an 8 1/2 X 11 attachment if additional space is needed)

CONNECTICUT SECRETARY OF THE STATE

AMENDED AND RESTATED ARTICLES OF INCORPORATION

OF

ALTA HEALTH AND LIFE INSURANCE COMPANY

SECTION 1. The new name of the corporation shall be CIGNA Health and Life Insurance Company.

SECTION 2. In accordance with Connecticut General Statutes Section 38a-58a, the corporation shall adopt the State of Connecticut as its corporate domicile and shall be subject to the authority and jurisdiction of the State of Connecticut, with all the powers granted by the general statutes, as now enacted or hereafter amended, to corporations formed under the Connecticut Business Corporation Act. The corporation shall be a continuation of the body corporate incorporated in the State of Florida on May 2, 1963. The corporation shall continue to use May 2, 1963 as the date of incorporation.

SECTION 3. The business of the corporation shall be life insurance, endowments, annuities, accident insurance, health insurance and any other business or type of business which any other corporation now or hereafter chartered by Connecticut and empowered to do a health or life insurance business may now or hereafter lawfully do. The corporation is specifically empowered to accept and to cede reinsurance and retrocession of any such risks or hazards. The corporation may exercise such powers outside of Connecticut to the extent permitted by the laws of the particular jurisdiction. Policies or other contracts may be issued stipulated to be with or without participation in profits and with or without a seal.

SECTION 4. The corporation shall be authorized to issue 2,000,000 shares of common stock with a par value of two dollars ($2) per share. The capital stock of the corporation shall be transferable in accordance with the bylaws and a transfer agent may be employed.

SECTION 5. The annual meeting of the shareholders of the corporation shall be held at such time and place as may be determined from time to time either by or in accordance with the bylaws. If the corporation shall fail to hold its annual meeting at the time specified for the meeting in any year or shall fail to elect directors thereat, the corporation shall not be dissolved nor shall its rights be impaired thereby, but a special meeting of the shareholders shall he called; and at such meeting directors to fill the places of the directors whose terms shall have expired may be elected and any other proper business may be transacted. At all meetings of the shareholders each shareholder shall be entitled to vote in person or by an attorney duly authorized by a written proxy, and each share of stock represented at the meeting shall be entitled to one vote.

SECTION 6. The corporation's principal place of business shall be at 900 Cottage Grove Road, Bloomfield, Connecticut 06152, or at some other place within the State of Connecticut, and the corporation may establish and maintain other offices and agencies in other locations within or without the State. The property and affairs of the corporation shall be managed under the direction of a board of directors. The directors shall have concurrent power with the stockholders to make, alter, amend, change, add to or repeal the bylaws of the corporation. The number of directors of the corporation shall be as from time to time fixed by, or in the manner provided in, the by-laws of the corporation. Directors will be elected by a plurality of the votes cast at each annual meeting of shareholders of the corporation and each director so elected shall hold office until the next annual meeting of shareholders of the corporation or until such director's successor is duly elected and qualified, or until such director's earlier death, resignation or removal. If any vacancy occurs in the board of directors, such vacancy may be filled by a majority of the remaining directors, whether or not such directors constitute a quorum, for the unexpired portion of the term, and if the number of directors is increased by vote of the board of directors between meetings of shareholders, the additional directors may be chosen by the board of directors for terms expiring with the next annual meeting thereafter. Unless the bylaws provide for a lesser or greater quorum as may be permitted by law, a majority of the authorized number of directors, as fixed by the board of directors from time to time, shall constitute a quorum.

SECTION 7. Connecticut General Life Insurance Company shall be the corporation's registered agent. The registered agent's address is 900 Cottage Grove Road, Bloomfield, Connecticut 06152.

SECTION 8. The personal liability of a person who is or was a director of the corporation to the corporation or its shareholders for monetary damages for breach of duty as a director shall be limited to the amount of compensation received by the director for serving the corporation during the year of the violation if such breach did not (a) involve a knowing and culpable violation of law by the director, (b) enable the director or an associate, as defined in Section 33-840 of the Connecticut Business Corporation Act as in effect on the effective date hereof or as it may be amended from time to time (the "Act"), to receive an improper personal economic gain, (c) show a lack of good faith and a conscious disregard for the duty of the director to the corporation under circumstances in which the director was aware that his conduct or omission created an unjustifiable risk of serious injury to the corporation, (d) constitute a sustained and unexcused pattern of inattention that amounted to an abdication of the director's duty to the corporation, or (e) create liability under Section 33-757 of the Act. Any lawful repeal or modification of this Section 8 or the adoption of any provision inconsistent herewith by the board of directors and the shareholders of the corporation shall not, with respect to a person who is or was a director, adversely affect any limitation of liability, right or protection existing at or prior to the effective date of such repeal, modification or adoption of a provision inconsistent herewith. The limitation of liability of any person who is or was a director provided for in this Section 8 shall not be exclusive of any other limitation or elimination of liability contained in, or which may be provided to any such person under, Connecticut law as in effect on the effective date hereof or as thereafter amended.

SECTION 9. The corporation may indemnify or advance expenses to a person who is or was a director, officer, employee or agent of the corporation, or who is or was serving at the corporation's request as a director, officer, partner, trustee, employee or agent of another corporation, a partnership, joint venture, trust, an employee benefit plan or other entity, to the extent permitted under Connecticut law as in effect on the effective date hereof or as thereafter amended, including, without limitation, pursuant to Section 33-636(b)(5) of the Act, for liability of any such person for any actions taken, or any failure to take any actions, except for conduct as set out in items (a) through (e) of Section 8, above. The corporation shall indemnify or advance expenses to any such person to the extent required by the bylaws of the corporation, as amended from time to time.

ARTICLES OF INCORPORATION AND REDOMESTICATION

OF

ANTHEM HEALTH & LIFE INSURANCE COMPANY

PREAMBLE

The undersigned corporation desires to transfer its corporate domicile from the State of Ohio to the State of Indiana pursuant to the approval of the Indiana Commissioner of Insurance and to be recognized as a corporation from its original date of incorporation of May 2, 1963 in the State of Florida.

The undersigned corporation was incorporated on May 2, 1963 under the laws of the State of Florida under the name Orange State Life Insurance Company. On June 15, 1982, the corporation's name was changed to Home Life Financial Assurance Corporation. On August 1, 1994, the corporation transferred its corporate domicile from the State of Florida to the State of Ohio.

These Articles of Incorporation and Redomestication supersede the existing Articles of Incorporation of Home Life Financial Assurance Corporation.

ARTICLE A

NAME OF THE CORPORATION

The name of the corporation is

ANTHEM HEALTH & LIFE INSURANCE COMPANY

ARTICLE B

PRINCIPAL OFFICE

The address of the Corporation's principal office in the State of Indiana is 120 Monument Circle, Indianapolis, Indiana 46204. The name of its registered agent at such address is Sandra Miller.

ARTICLE C

PURPOSES

The Corporation is organized under the Indiana Insurance Law, Chapter 162 of the Acts of 1935, as amended, and the purposes for which it is organized are:

Certification Number: 2010011365565

The Indiana Secretary of State filing office certifies that this copy is on file in this office.

RESTATED ARTICLES OF INCORPORATION
OF
ALTA HEALTH & LIFE INSURANCE COMPANY

PREAMBLE

The Corporation was originally incorporated on May 2, 1963 under the laws of the State of Florida as Orange State Life Insurance Company. On June 15, 1982, the Corporation's name was changed to Home Life Financial Assurance Corporation. On August 1, 1994, the Corporation transferred its corporate domicile from the State of Florida to the State of Ohio. On March 21, 1996, the Corporation's name was changed to Anthem Health & Life Insurance Company and its corporate domicile was transferred from the State of Ohio to the State of Indiana.

These Restated Articles of Incorporation supersede the existing Articles of Incorporation and Redomestication of Anthem Health & Life Insurance Company.

ARTICLE A

NAME OF THE CORPORATION

The name of the Corporation is ALTA HEALTH & LIFE INSURANCE COMPANY.

ARTICLE B

PRINCIPAL OFFICE

The address of the Corporation's principal office in the State of Indiana is 10401 North Meridian Street, Suite 350, Indianapolis, Indiana 46290.

ARTICLE C

PURPOSES

The Corporation is organized under the Indiana Insurance Law, Chapter 162 of the Acts of 1935, as amended, and the purposes for which it is organized are:

> To insure the lives of persons and to make every insurance appertaining thereto or connected therewith including insurance against permanent mental or physical disability resulting from accident or disease, or against accidental death combined with a policy for life insurance and to grant, purchase or dispose of annuities.

The Indiana Secretary of State filing office certifies that this copy is on file in this office.

SECRETARY OF THE STATE
CONNECTICUT SECRETARY OF THE STATE

To insure against bodily injury or death by accident and against disablement resulting from sickness and every insurance appertaining thereto.

All to the extent permitted and authorized by the Department of Insurance.

ARTICLE D

TERM OF EXISTENCE

The term for which the Corporation shall continue is perpetual.

ARTICLE E

SHARES

The total number of shares which the Corporation has authority to issue is 2,000,000 shares of common stock with a par value of $2.00 each, for total authorized capital of $4,000,000.

ARTICLE F

PAID-IN CAPITAL

The amount of paid-in capital is $2,520,000.

ARTICLE G

PLAN OF BUSINESS

The business of the Corporation shall be conducted on the legal reserve stock plan.

ARTICLE H

DIRECTORS AND OFFICERS

RE: Name Change of Anthem Health & Life Insurance Company
To Alta Health & Life Insurance Company
NAIC No: 67369

To Whom It May Concern:

Pursuant to instructions from the Department of Insurance in connection with the above name change, enclosed please find the following:

1. Completed application for amendment;
2. Certificate of Compliance from the State of Indiana; and
3. Check for $25 filing fee and check for $8.75 for certified copy.

It is my understanding that once you have approved the name change, you will issue a Certificate of Good Standing. We will then submit it to the Department of Insurance in support of our request for a new Certificate of Authority in the name of Alta Health & Life Insurance Company.

Kindly contact me should you have any questions concerning this matter.

Sincerely,

Audrey Davidson Cunningham

RESTATED ARTICLES OF INCORPORATION

OF

ALTA HEALTH & LIFE INSURANCE COMPANY

APPROVED
AND
FILED
IND. SECRETARY OF STATE

PREAMBLE

The Corporation was originally incorporated on May 2, 1963 under the laws of the State of Florida as Orange State Life Insurance Company. On June 15, 1982, the Corporation's name was changed to Home Life Financial Assurance Corporation. On August 1, 1994, the Corporation transferred its corporate domicile from the State of Florida to the State of Ohio. On March 21, 1996, the Corporation's name was changed to Anthem Health & Life Insurance Company and its corporate domicile was transferred from the State of Ohio to the State of Indiana.

These Restated Articles of Incorporation supersede the existing Articles of Incorporation and Redomestication of Anthem Health & Life Insurance Company.

ARTICLE A

NAME OF THE CORPORATION

The name of the Corporation is ALTA HEALTH & LIFE INSURANCE COMPANY.

ARTICLE B

PRINCIPAL OFFICE

The address of the Corporation's principal office in the State of Indiana is 10401 North Meridian Street, Suite 350, Indianapolis, Indiana 46290.

ARTICLE C

PURPOSES

The Corporation is organized under the Indiana Insurance Law, Chapter 162 of the Acts of 1935, as amended, and the purposes for which it is organized are:

> To insure the lives of persons and to make every insurance appertaining thereto or connected therewith including insurance against permanent mental or physical disability resulting from accident or disease, or against accidental death combined with a policy for life insurance and to grant, purchase or dispose of annuities.

To insure against bodily injury or death by accident and against disablement resulting from sickness and every insurance appertaining thereto.

All to the extent permitted and authorized by the Department of Insurance.

ARTICLE D

TERM OF EXISTENCE

The term for which the Corporation shall continue is perpetual.

ARTICLE E

SHARES

The total number of shares which the Corporation has authority to issue is 2,000,000 shares of common stock with a par value of $2.00 each, for total authorized capital of $4,000,000.

ARTICLE F

PAID-IN CAPITAL

The amount of paid-in capital is $2,520,000.

ARTICLE G

PLAN OF BUSINESS

The business of the Corporation shall be conducted on the legal reserve stock plan.

ARTICLE H

DIRECTORS AND OFFICERS

The following are the names and addresses of the directors of the Corporation who have been elected to serve until the next annual meeting of shareholders, or until their successors are elected and qualified:

Director's Name	Address
Mitchell T.G. Graye	8515 E. Orchard Road Englewood, Colorado 80111
William T. McCallum	8515 E. Orchard Road Englewood, Colorado 80111

Director's Name	Address
Steve H. Miller	8505 E. Orchard Road Englewood, Colorado 80111
James D. Motz	8505 E. Orchard Road Englewood, Colorado 80111
Michael R. Quigley	10401 N. Meridian Street, Suite 350 Indianapolis, Indiana 46290
Martin Rosenbaum	8505 E. Orchard Road Englewood, Colorado 80111
James A. White	1 Centennial Avenue Piscataway, New Jersey 08854

The following are the names, positions and addresses of the principal officers of the Corporation who have been elected to serve until the next annual meeting of directors, or until their successors are elected and qualified:

Officer's Name	Position Held	Address
William T. McCallum	Chairman of the Board	8515 E. Orchard Road Englewood, Colorado 80111
James D. Motz	Vice Chairman and Chief Executive Officer	8505 E. Orchard Road Englewood, Colorado 80111
James A. White	President	1 Centennial Avenue Piscataway, New Jersey 08854
Mitchell T.G. Graye	Executive Vice President and Chief Financial Officer	8515 E. Orchard Road Englewood, Colorado 80111
John T. Hughes	Senior Vice President and Chief Investment Officer	8515 E. Orchard Road, Englewood, Colorado 80111
D.Craig Lennox	Senior Vice President, General Counsel and Secretary	8515 E. Orchard Road, Englewood, Colorado 80111
Glen R. Derback	Vice President and Treasurer	8515 E. Orchard Road, Englewood, Colorado 80111
James L. McCallen	Vice President and Actuary	8515 E. Orchard Road, Englewood, Colorado 80111

ARTICLE I

PROVISIONS FOR REGULATION OF BUSINESS AND CONDUCT OF AFFAIRS OF CORPORATION

Section I.1. The Corporation shall have the right to engage in all lines of activity allied with or incidental to the purposes for which it is formed, not forbidden by the laws of the State of Indiana, and shall have the capacity to act, the authority and all of the general rights, privileges and powers referred to in Section 80 of Chapter 162 of the Acts of 1935, as amended.

Section I.2. The number of Directors of the Corporation shall not be less than five nor more than twenty-one, the exact number of Directors to be determined, from time to time, in such manner as the By-Laws may prescribe.

ARTICLE J

MANNER OF ADOPTION AND VOTE

Section J.1. Action by Directors On June 15, 1999, a resolution was adopted by the Board of Directors of the Corporation proposing to the sole shareholder of the Corporation that the provisions and terms of its Articles of Incorporation and Redomestication be amended so as to read as set forth in these Restated Articles of Incorporation.

Section J.2. Action by Sole Shareholder On June 15, 1999, a resolution was adopted by the sole shareholder of the Corporation, adopting these Restated Articles of Incorporation.

Section J.3. Compliance with Legal Requirements The manner of the adoption of the Restated Articles of Incorporation, and the vote by which it was adopted, constitute full legal compliance with the provisions of the Indiana Insurance Law, the Articles of Incorporation and Redomestication and the By-Laws of the Corporation.

ARTICLE K

The Corporation reserves the right to amend, alter, change or repeal any provision contained in these Restated Articles of Incorporation in the manner now or hereinafter prescribed herein and by the laws of the State of Indiana, and all rights conferred upon stockholders herein are granted subject to this reservation.

J.D. Motz
Vice Chairman and
Chief Executive Officer

D.C. Lennox
Senior Vice President,
General Counsel and Secretary

Subscribed and sworn before me this 25th day of June, 1999.

Notary Public

My commission expires April 9, 2000.

CASE NO.: 08496-94-C-SSM

An Application for Order of Domestication of **HOME LIFE FINANCIAL ASSURANCE CORPORATION**, a domestic insurer

_____/

ORDER OF DOMESTICATION
PURSUANT TO SECTIONS 628.525 and
628.530, FLORIDA STATUTES

THIS CAUSE came to be considered upon a filing by **HOME LIFE FINANCIAL ASSURANCE CORPORATION**, a domestic insurer with the Department of Insurance on or about July 22, 1994 and an Consent Order approving the Acquisition of the domestic insurer by **CMIC Holding Company**, an Ohio Corporation dated June 29, 1993. Paragraph 4 of the Consent Order provided in essence that **HOME LIFE FINANCIAL ASSURANCE CORPORATION** shall redomesticate to another state within 12 months after final entry of the Consent Order. **HOME LIFE FINANCIAL ASSURANCE CORPORATION** now desires to domesticate to Ohio pursuant to Sections 628.525 and 628.530, Florida Statutes. The Ohio Department of Insurance On July 22, 1994 entered an Order approving the domestication of said insurer to Ohio. After a complete review of the entire record, and upon consideration thereof and being otherwise fully advised in the premises, the Treasurer and Insurance Commissioner, as head of the Department of Insurance, finds as follows:

Recycled Paper

Affirmative Action/ Equal Opportunity Employer

1. The Treasurer and Insurance Commissioner, as head of the Department of Insurance, has jurisdiction over the subject matter and of the parties herein.

2. **HOME LIFE FINANCIAL ASSURANCE CORPORATION**, a domestic insurer, is admitted to Ohio as a foreign insurer.

3. The transfer of domicile is in the best interests of the policyholders of this state.

IT IS THEREFORE ORDERED:

1. The application for an order of domestication of **HOME LIFE FINANCIAL ASSURANCE CORPORATION**, a domestic insurer, to the State of Ohio, be and the same is hereby approved; and

2. **HOME LIFE FINANCIAL ASSURANCE CORPORATION** is hereby authorized, to transact business as a foreign insurer in the State of Florida.

DONE AND ORDERED at Tallahassee, Florida, this 31st day of August, 1994.

BANKING, FUNDING AND PAYMENT OF CLAIMS

a. **The Contractor shall establish a benefit plan account ("Account") with a bank agreed upon between City and Contractor. Such bank must be a Qualified Public Depository. The account shall be in the name of the City for the exclusive use of the City's plan. An initial imprest balance in the amount of $100,000 will be deposited into the Account no later than xx/xx/xx. Should it become necessary to increase the imprest amount, the City will agree to do so based on satisfactory evidence from the Contractor of insufficient funds. The Account shall be funded monthly by the City based on an average monthly claims balance. . The City will issue payments via wire transfer. The Contractor shall provide a monthly reconciliation. Any interest earned in the Account shall be accrued to the City and any banking fees will be charged to the Account.**

   The City of Fort Lauderdale has an established bank account and process with Cigna and such account and processes shall remain in effect as per our banking arrangement.

b. **Contractor, on behalf of the City, shall issue checks from the Account for Medical and Pharmacy Plan benefits and-related expensed in the amount Contractor determines to be proper under the Medical and Pharmacy Program and/or under the Agreement.**

   Agreed.

c. **In the event that sufficient funds are not available in the account to pay all Medical Plan benefits and Medical Plan-related expenses when due, then Contractor shall notify the City accordingly.**

   Agreed.

d. **In the event Contractor pays any person less than the amount to which he or she is entitled under the Medical Program, Contractor will promptly adjust the underpayment by drawing the additional funds from the City's Account. In the event Contractor overpays any person entitled to benefits under the Medical Program, or pays benefits to any person not entitled to them, Contractor shall take all reasonable steps to recover the overpayment and credit the Account accordingly; however, Contractor shall not be required to initiate court proceedings to recover any overpayment resulted from acts or omissions of the City, its officers, directors, or employees.**

   Confirmed. We determine underpayments through a variety of means, including predisbursement audits, random or stratified audits, and through customer service. Upon identification of an underpayment, we send the claim to the appropriate claim processing area, where the additional services are paid. We address underpayments as soon as we identify them.

   If a payment or processing error results in the overpayment of services for any reason, Cigna and/or a contracted third-party recovery vendor make every reasonable effort (short of initiating court proceedings) to recover the amount overpaid from the payee. The average time to recover a newly listed overpayment is 90-120 days.

   The overpayment recovery threshold for cases, regardless of funding, is $50.

   We accept responsibility for errors and overdrafts in processing claims, if they occur as a result of our employees' gross negligence or intentional wrongdoing in administering Fort Lauderdale's plan.

In the event Cigna overpays a claim for Plan Benefits or pays Plan Benefits to the wrong party, it shall take all reasonable steps to recover the overpayments; however, Cigna shall not be required to initiate court, mediation, arbitration or other administrative proceedings to recover any overpayment. Cigna shall not be responsible for reimbursing any unrecovered payments of Plan Benefits unless made as a result of its gross negligence or intentional wrongdoing.

e. Following termination of this Agreement, the City shall remain liable for payment of all Plan benefits or fees due any provider or entity for services rendered prior to termination. City shall reimburse Contractor to the extent Contractor makes any such payment. In no event shall any payment of Medical and Pharmacy Plan benefits or fees by Contractor be construed to oblige Contractor to assume any liability of the City for the payment of such benefits or fees. This provision shall survive the termination of the Agreement.

Agreed.

Highly Utilized Medications - Calendar Year 2015

The following is a list of medications utilized by City members ranked by number of prescriptions. Indicate your company's formulary tier for each listed medication and note if prior authorization or step therapy required. Include this form in Tab VII of the proposal and as an Excel file in standard format. Do not change the sort order of the list.

Brand Name	Minor Group	NDC Number	Formulary Tier	Prior Authorization	Step Therapy

6.5 Public Entity Crimes

NOTE: Proposer, by submitting a proposal attests they have not been placed on the convicted vendor list.

A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a proposal on a contract to provide any goods or services to a public entity, may not submit a proposal on a contract with a public entity for the construction or repair of a public building or public work, may not submit proposals on leases of real property to a public entity, may not be awarded or perform work as a Contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, Florida Statutes, for Category Two for a period of 36 months from the date of being placed on the convicted vendor list.

The Proposer must disclose if the company has been placed on the convicted vendor list. Label this Response to Section 6.5 and include in Tab VII of the proposal.

This is not applicable, as Cigna is not on the convicted vendor list.

6.15 Grievance and Appeal Procedure

Proposers must provide a description of the grievance and appeal procedure to be conducted on behalf of the City's health plan. Label this information Response to Section 6.15 and include in Tab VII of the proposal.

Appeal Procedure

To help ensure we provide quality service, we allow our Customer service advocates (CSA) to resolve a wide range of issues upon initial contact with members or health care professionals.

If we cannot resolve the issue quickly, the member can initiate a formal internal appeals process by phone, or in writing, up to 180 days from the date of last determination, or a shorter period if specified by the plan. Health care professionals must initiate appeal requests in writing.

We conduct preservice and postservice medical reviews within 30 calendar days following the receipt of the appeal. We conduct postservice administrative reviews within 60 calendar days following the receipt of the appeal. In each case, a member may request a one-time extension of not more than 15 days. We conduct expedited appeals within 72 hours of the receipt of the appeal.

Reviewers making appeal determinations are selected to ensure that neither they themselves, nor their managers, were involved in the original decision.

Cigna offers a single-level internal process that addresses appeals concerning initial medical necessity determinations and coverage determinations. The process meets NCQA, ERISA, URAC, and/or state regulatory requirements, as well as our own internal empowerment program guidelines. Processes are in place to meet the Patient Protection and Affordable Care Act (PPACA) requirements. Cigna may change this process as needed to meet any additional state requirements. For example, we are able to accommodate a two-level appeals process when required by state regulations.

A health care professional who is not a doctor, including a pharmacist or nurse, may make approval decisions on medical necessity appeals. Only doctors can make denial decisions for medical appeals. Nonclinical staff can resolve administrative appeals.

We communicate decisions for expedited appeals verbally on the day of the decision, and send written follow up within two business days.

We communicate other appeal denial decisions (denials or overturns) in writing, either via letter or with the explanation of payment (EOP)/EOB, within two business days of the determination.

We make adjustments within 15 calendar days of the decision, unless the plan is state mandated and has different requirements.

An external review by an independent organization of medical necessity decisions is available depending upon plan coverage, funding arrangement, and state regulations.

Copyright 2016

Grievance

If we cannot resolve an issue through the internal appeals process, members may opt for an independent external review. For grandfathered plans, external reviews are available to members for medical appeals following the completion of the internal appeals process. For nongrandfathered plans, external reviews are available to members for medical necessity denials and administrative denials involving medical judgment following the completion of the internal appeals process.

We notify members of their right to contact the appropriate state insurance department, if covered under an insured plan.

Our regulatory service inquiry team resolves insurance department complaints within 20 business days, or within the turnaround guidelines determined by the state.

6.21 Information Regarding the Company

In order to evaluate the ability of the Proposer to perform the services requested, information about each firm must be provided to determine the firm's ability to meet all of the requirements as stated in this RFP. Provide a brief summary of the corporate/company history of the firm, which should include the number of years the firm has administered self-funded group health plans in Florida (minimum of five (5) years required). Label this Response to 6.21 and include in Tab VII of the proposal.

Cigna and its predecessor companies have a long history of supporting Americans' health care needs. Both Connecticut General Life Insurance Company (CGLIC) and Insurance Company of North America (INA), which merged in 1982 to form Cigna, were among the first major health service companies to introduce health care cost-containment and management programs, as well as to explore the development of HMOs.

In 1980, INA acquired the Ross-Loos Medical Group of Los Angeles, California. Established in 1929, Ross-Loos was the nation's first HMO. Throughout the 1980s, Cigna continued to develop managed care plans and coverage. With the acquisition of Equicor in 1990, Cigna became the largest investor-owned managed care organization in the country and continues to have strong enrollment levels.

In 1984, Cigna began offering a PPO plan in Miami, Florida, and a POS plan in late 1986 in several locations. The standard group health indemnity plan, including major medical, as well as hospital and surgical coverage, was first introduced in 1954.

We have been licensed in the state of Florida to transact business since February 17, 1964.

6.25 Service Performance Guarantees Agreement

Proposers must agree to the service performance agreement allowing for liquidated damages for non-conformance to identified standards and the details for this agreement including liquidated damages as noted in Section 4.12. Provide your company's understanding and acceptance of these terms, label this Response to Section 6.25 and include in Tab VII of your proposal.

Agreed.

6.26 Utilization Review

Provide a brief description of each utilization review component outlined below. This should include a description of services, an explanation of how they work, time frame and turn-around time. If your UR program does not include one of the components, please provide a statement to this effect.

Our Personal Health Solutions (PHS) medical management programs are at the center of our innovative approach to health care coverage. They consist of several fully integrated, complementary services delivered by qualified professionals. These services unite to positively impact cost and quality outcomes in the short and long term.

A. Pre-admission authorization

Precertification helps ensure that planned admissions, treatments, or procedures are medically necessary. It also verifies that upcoming treatments are covered under the member's health plan, and appropriate to the member's condition. The goal of our precertification process is to help members receive cost-effective coverage for evidence-based, high-quality medical care.

We require prior notification of any elective nonobstetrical inpatient admissions. We require notification as soon as reasonably possible from the responsible party following an urgent/emergent admission. After we receive notification we are able to determine coverage and medical necessity/appropriateness of a stay/procedure.

After we confirm that a requested service meets medical necessity guidelines, we approve coverage of the service. If a precertification nurse cannot confirm that a requested service meets medical necessity guidelines, the nurse refers the case to a medical director for review. When clients choose the Personal Health Solutions Plus (PHS+) model, we also review certain outpatient procedures for medical necessity.

We conduct a rigorous clinical and financial analysis semiannually to determine which procedures we will review to establish medical necessity. This review focuses on procedures that present the greatest opportunity to positively affect costs and outcomes. Throughout the process, we review medical literature and consider feedback from clients, doctors, and members. We also review ROI, doctor satisfaction, and medical cost impact at this time. When our program data shows that we are not adding value through a certain process, we will change or eliminate the process. This may include discontinuing medical necessity reviews for procedures associated with very few coverage denials. Our formal and disciplined approach weighs administrative review costs against coverage denial cost savings. It also includes analysis of appeal overturns. Based upon these data, we move our resources to activities that deliver more meaningful results.

The following time frames apply to coverage requests from doctors, health care facilities, and other health care professionals:

- Urgent Preservice (Prospective) - within 72 hours of receipt of request

- Nonurgent Preservice (Prospective) - within 10 calendar days of receipt of request

Turnaround standards for requests to review or approve coverage for health care services may be dictated by state or other governmental requirements, by certification standards, and/or by Cigna's internal quality standards, in that order. When a precertification nurse cannot approve coverage for requests that require medical necessity review, he or she forwards the request to a board-certified medical director. The medical director completes the review the same business day for any urgent situation, and within one or two business days for prospective or retrospective requests. We measure the timeline from the initial receipt of the request to notification of the coverage determination to the member.

These time frames apply to coverage requests from doctors, hospitals, and other health care professionals in the network, and those who are not part of that network. The timelines assume that reasonably necessary clinical information has been submitted with the review request.

B. Continued stay review

During an inpatient stay, we conduct inpatient case management (concurrent stay review) according to the time frames of the client's selected medical management model. The inpatient case management process dedicates nurses to various in-network health care facilities to foster relationships between our nurses and hospital staff. This helps our inpatient case managers understand the hospital and the behavior patterns of its associated doctors and health care professionals. Our nurses partner with the hospitals' utilization review departments to monitor hospitalized members, assess the appropriateness of admission and length of stay, and track any delays in care. The dedicated nurses work proactively with their facilities to gather the necessary information and address any questions that arise. The nurses may also work directly with the member and the member's doctor.

We screen all hospital admissions with our Pre*Vue predictive modeling tool. This tool helps identify hospitalized members for possible post-discharge case management referral— before members are discharged. The screening is based on factors that include diagnosis, anticipated length of stay, and previous admission history. This screening assesses the probability that a member will be readmitted to the hospital, and allows our case managers or other health advocates to outreach appropriately to help avoid preventable readmissions. Case managers willingly help members and their families understand and comply with their treatment plan.

The following time frames apply to coverage requests from doctors, health care facilities, and other health care professionals:

- Urgent Concurrent Review - within 24 hours of receipt of request
- Nonurgent Concurrent Review - within 72 hours of receipt of request

Turnaround standards for requests to review or approve coverage for health care services may be dictated by state or other governmental requirements, by certification standards, and/or by Cigna's internal quality standards, in that order. When a precertification nurse cannot approve coverage for requests

that require medical necessity review, he or she forwards the request to a board-certified medical director. The medical director completes the review the same business day for any urgent situation, and within one or two business days for prospective or retrospective requests. We measure the timeline from the initial receipt of the request to notification of the coverage determination to the member.

These time frames apply to coverage requests from doctors, hospitals, and other health care professionals in the network, and those who are not part of that network. The timelines assume that reasonably necessary clinical information has been submitted with the review request.

C. Retrospective utilization review

Retrospective review requires a thorough review of the medical records. Cases that meet level of care and medical necessity guidelines receive authorization. We send an automatically generated letter to the requesting health care professional and member. We send a request to reprocess and pay the claim, if there is one on file.

Cases that do not clearly meet medical necessity criteria go through an interactive process between the clinical appeals review team and a medical director to determine whether they will authorize any portion of the stay. The appeals department issues adverse determination letters, as appropriate.

In addition to this medical necessity review, clinicians evaluate the need for referral to intensive case management or other services, and address quality-of-care issues, as necessary.

The following time frame applies to coverage requests from doctors, health care facilities, and other health care professionals:

- Postservice (Retrospective Review) - within 30 calendar days

Turnaround standards for requests to review or approve coverage for health care services may be dictated by state or other governmental requirements, by certification standards, and/or by Cigna's internal quality standards, in that order. When a precertification nurse cannot approve coverage for requests that require medical necessity review, he or she forwards the request to a board-certified medical director. The medical director completes the review the same business day for any urgent situation, and within one or two business days for prospective or retrospective requests. We measure the timeline from the initial receipt of the request to notification of the coverage determination to the member.

These time frames apply to coverage requests from doctors, hospitals, and other health care professionals in the network, and those who are not part of that network. The timelines assume that reasonably necessary clinical information has been submitted with the review request.

D. Discharge planning

Our medical management models include inpatient case management services. A primary goal of the inpatient case manager is to help facilitate the successful discharge of members from the inpatient setting. Planning for discharge early in the treatment process facilitates a smoother transition from an acute level of care to a less intensive setting or home, and helps ensure that the member receives appropriate care postdischarge. Through discharge planning, postdischarge needs, and services can be identified and coordinated before the member returns home.

The inpatient case manager's assessment to assist in coordinating discharge may include review of the following items or needs:

- member status
- care settings/environment
- DME
- home health care
- rehabilitation/physical therapy
- nursing services
- member and family education
- medication, including medical injectables

Working with the member's doctor and hospital staff, the inpatient case manager helps create a discharge plan that identifies the services, equipment or medications required, the level of care appropriate as the next step, and identification of needed services. Active discussion between the inpatient case manager, member and family members, and the member's doctor, helps to ensure successful execution of the discharge plan.

The condition for which hospitalization is required and whether or not it was a planned or an emergent hospitalization are determining factors as to when discharge planning begins. When we perform precertification for a scheduled hospitalization, discharge planning can actually begin before the hospital admission. If precertification does not take place regardless of the reason, a Cigna inpatient case manager begins discharge planning during the first clinical review of the hospital stay. Inpatient case managers update discharge plans based upon each member's unique condition and needs throughout the hospital stay.

Early planning helps members make a smoother transition from the hospital to a less intensive setting and receive appropriate care after discharge.

E. Outpatient utilization review

We maintain a standard list of outpatient services and supplies that require precertification of coverage under the PHS+ medical management model. This list is continually reviewed and updated as we receive new data and research. We focus our clinical review resources where they will have the most impact on improving quality outcomes and reducing costs.

The outpatient services and procedures that generally require medical necessity review include:

- procedures that may be considered cosmetic in nature
- experimental and or investigational procedures

- high-dollar services that may be associated with over utilization or inappropriate utilization
- advanced imaging services (e.g., CT, PET scans, MRI, nuclear cardiology)
- certain injectable medications
- home health care
- DME
- external prosthetics
- outpatient radiation therapy services

We also review certain services or procedures delivered on an outpatient basis that would require review if they were delivered on an inpatient basis. For example, we may review bariatric surgeries for medical necessity regardless of the procedure setting. We also review certain musculoskeletal procedures performed on an outpatient or inpatient basis.

Factors we consider when deciding which outpatient supplies and services to include on the precertification list include:

- potential for over utilization
- specific plan exclusions that may apply
- the opportunity for channeling to preferred vendors
- the opportunity for potential case management
- the overall coverage plan cost savings opportunity.

We post our current review list and any changes to our health care professional website.

Under a contractual agreement, MedSolutions, Inc. d/b/a eviCore healthcare provides radiology facility credentialing, utilization management services, and network management services of specific outpatient procedures. Through this arrangement, eviCore healthcare provides the precertification of MRIs, CT scans, PET scans, and nuclear cardiology services for the clients who select the PHS+ medical management model. This process helps Cigna members receive high-quality, clinically appropriate, and safe services.

Our arrangement with eviCore healthcare provides our clients and members with the following benefits:

- a network of radiology facilities credentialed according to NCQA standards
- clinical guidelines that align with Cigna's coverage guidelines and are based on American College of Radiology Appropriateness criteria and the American Academy of Neurology for brain and spine scans
- the ability to schedule appointments with contracted facilities at the time of precertification
- flexible reporting capabilities
- turnaround times that meet current URAC standards

For other outpatient services, the following time frames apply to coverage requests from doctors, health care facilities, other health care professionals, and members as applicable:

- Urgent Preservice (Prospective) - within 72 hours of receipt of request

- Nonurgent Preservice (Prospective) - within 10 calendar days of receipt of request

Turnaround standards for requests to review or approve coverage for health care services may be dictated by state or other governmental requirements, by certification standards, and/or by Cigna's internal quality standards, in that order. When a precertification nurse cannot approve coverage for requests that require medical necessity review, he or she forwards the request to a board-certified medical director. The medical director completes the review the same business day for any urgent situation, and within one or two business days for prospective or retrospective requests. We measure the timeline from the initial receipt of the request to notification of the coverage determination to the member.

These time frames apply to coverage requests from doctors, hospitals, and other health care professionals in the network, and those who are not part of that network. The timelines assume that reasonably necessary clinical information has been submitted with the review request.

F. Medical case management

In today's challenging times, medical costs continue to rise. Our core medical management solutions are at the center of our innovative approach to health care coverage.

Cigna analyzed our medical management programs, and used this data to build two medical models that focus our clinical resources where they are likely to have the highest impact on improving quality outcomes and reducing costs. We offer two core medical management models: PHS)+and PHS.

Both of our core medical management models:

- hold doctors and other health care professionals in our network responsible and liable for notification and precertification requirements
- support prospective, member-centric care facilitation through better education and coaching
- take a personalized approach to understanding our members' health care needs
- focus clinical resources and programs where they can have the greatest impact
- support members in making informed health care decisions
- leverage Cigna's broad spectrum of health care-related services through integrated clinical/administrative information
- are available to our clients independent of their covered services and plan selections
- are continually reviewed and improved to reflect recent medical developments, and maximize their efficiency and effectiveness

Our available medical management models and their components are listed below.

PHS+

Our recommended model, PHS+, includes the following components:

- **Precertification and Medical Necessity Review of Inpatient Admissions** - This helps ensure that planned admissions, treatments, or procedures are medically necessary. It also verifies that upcoming treatments are covered under the member's health plan, and appropriate to the member's condition.
- **Enhanced Continued Stay Review/Inpatient Case Management** - Beginning early on during the hospitalization, the inpatient case managers assess admissions for the potential to affect outcomes, based on diagnosis, health care professional, and options for alternative levels of care within the network. We focus on earlier intervention because we know that this can improve recovery and member outcomes, and help members to return to work sooner.
- **Outpatient Procedure Precertification** - Based on a list of outpatient procedures and services associated with potential overutilization. This aspect of the model allows us to channel members to preferred vendors. It also grants us the ability to refer members into our case management programs, earlier.

PHS+ helps ensure that members receive coverage for the most appropriate inpatient and outpatient services. This enhanced model allows clients to keep pace with technology advancements as inpatient services are transitioned to outpatient settings, by reviewing certain procedures and treatments for medical necessity and cost savings opportunities. Common examples include bariatric surgery, certain lumbar fusions, and knee reconstruction. PHS+ also enables earlier integration of case management services, allowing us to immediately identify the need for additional assistance to help members improve their health and productivity.

The following time frames apply to coverage requests from doctors, health care facilities, and other health care professionals:

- Urgent Preservice (Prospective) - within 72 hours of receipt of request
- Urgent Concurrent Review - within 24 hours of receipt of request
- Nonurgent Preservice (Prospective) - within 10 calendar days of receipt of request
- Nonurgent Concurrent Review - within 72 hours of receipt of request
- Postservice (Retrospective Review) - within 30 calendar days

Turnaround standards for requests to review or approve coverage for health care services may be dictated by state or other governmental requirements, by certification standards, and/or by Cigna's internal quality standards, in that order. When a precertification nurse cannot approve coverage for requests that require medical necessity review, he or she forwards the request to a board-certified medical director. The medical director completes the review the same business day for any urgent situation, and within one or two business days for prospective or retrospective requests. We measure the timeline from the initial receipt of the request to notification of the coverage determination to the member.

These time frames apply to coverage requests from doctors, hospitals, and other health care professionals in the network, and those who are not part of that network. The timelines assume that reasonably necessary clinical information has been submitted with the review request.

G. Psychiatry/substance abuse review

We require precertification of surgical procedures based on a list of outpatient procedures and services associated with potential overutilization. This aspect of the PHS+ medical management model proposed to the City allows us to channel members to preferred vendors. It also grants us the ability to refer members into our case management programs, earlier.

In addition, Cigna has contracted with MedSolutions, Inc. d/b/a eviCore healthcare to provide utilization management services for specific musculoskeletal procedures, including certain pain management and major joint surgeries. Examples of the pain management procedures are epidural steroid injections, facet joint injections, and spinal cord stimulators. Examples of the surgical procedures include arthroscopic and open knee surgeries, hip surgeries, and shoulder surgeries.

We require doctors, hospitals, and other health care professionals to contact eviCore healthcare to precertify their requests by phone, fax, or online. eviCore healthcare makes the medical necessity determinations for requested services. Our directly contracted network of health care professionals continues to perform these approved services in both inpatient and outpatient settings.

The information below reflects turnaround time for reviews related to inpatient levels of care.

Turnaround Time	
During Initial Call	80-85% receive a communication decision in real time during the initial call
Within 24 Hours	Of the remaining 15-20%, 100% occur within 24 hours
Within 48 Hours or More	0% occur within more than 48 hours

H. Diagnostic X-ray and lab/ advanced imaging authorizations

Cigna owns and administers the majority of its core medical management programs. Staff aligned by function and geography administer our core medical management services, including utilization review, inpatient case management, acute advocacy, and case management.

Cigna has a contracted vendor relationship with Hinduja Global Solutions in the Philippines. Hinduja Global Solutions provides clinical intake services for some of our clients. In addition, a number of Cigna precertification nurses who conduct medical necessity reviews are based in the Philippines. These nurses are U.S.-licensed RNs. Job requirements are the same as those of onshore positions. Hinduja Global Solutions is URAC accredited.

We perform utilization review for the majority of our outpatient services. The following vendors assist us in the precertification of the following select services:

- **MedSolutions, Inc. d/b/a eviCore healthcare** - This vendor provides limited radiology utilization management services for the majority of Cignaclients including, but are not limited to, MRI, CT, and PET scans. This partnership helps ensure that our members receive high-quality, clinically appropriate, and safe services. eviCore healthcare also provides utilization management services for diagnostic cardiac services, including stress echocardiograms and diagnostic heart catheterizations. As of January 2016, eviCore healthcare also provides utilization management services for specific musculoskeletal procedures, including certain pain management and major joint surgeries. Examples of applicable pain management procedures are epidural steroid injections, facet joint injections, and spinal cord stimulators. Examples of applicable surgical procedures include arthroscopic and open knee surgeries, hip surgeries, and shoulder surgeries.
- **CareCore National, LLC d/b/a eviCore healthcare** - This company administers the precertification process for select outpatient radiation therapy services performed in either a health care professional or facility setting, such as a doctor's office, outpatient facility, or ambulatory surgical center. Our directly contracted network of health care professionals continues to perform these approved radiation oncology services.
- **CareCentrixSM** - This vendor provides select sleep management services. Health care professionals must precertify sleep testing CPT® and HCPCS procedure codes. They contact CareCentrix with their requests by phone, fax, or online. CareCentrix determines the medical necessity of the request and makes place-of-service determinations for sleep testing services. These sleep management services include a member engagement program called Cigna Therapy Adherence, designed to improve the overall quality of sleep services and compliance with continuous positive airway pressure (CPAP) treatment for obstructive sleep apnea. CareCentrix also provides precertification services for home health care services and provides access to its nationwide network of home health care professionals.

We complete utilization management decisions and notifications for MRIs, CT scans, and PET scans as soon as possible and within the required certification periods noted below:

- complete urgent prospective approvals and denials within 72 hours of the request; provide notification verbally to the requesting health care professional, and in writing to the health care professional and member
- complete concurrent/urgent requests within 24 hours of receipt of the request
- complete nonurgent prospective requests within 10 calendar days (typically strive to complete within 5 business days) of the request;

provide notification in writing to the requesting health care professional and member
- complete retrospective requests within 30 calendar days

The turnaround time and decision notification processes employed by vendors, such as MedSolutions, Inc. d/b/a eviCore healthcare, are compliant with certification and regulatory standards.

I. Surgical procedure authorization

We require precertification of surgical procedures based on a list of outpatient procedures and services associated with potential overutilization. This aspect of the PHS+ medical management model proposed to the City allows us to channel members to preferred vendors. It also grants us the ability to refer members into our case management programs, earlier.

In addition, Cigna has contracted with MedSolutions, Inc. d/b/a eviCore healthcare to provide utilization management services for specific musculoskeletal procedures, including certain pain management and major joint surgeries. Examples of the pain management procedures are epidural steroid injections, facet joint injections, and spinal cord stimulators. Examples of the surgical procedures include arthroscopic and open knee surgeries, hip surgeries, and shoulder surgeries.

We require doctors, hospitals, and other health care professionals to contact eviCore healthcare to precertify their requests by phone, fax, or online. eviCore healthcare makes the medical necessity determinations for requested services. Our directly contracted network of health care professionals continues to perform these approved services in both inpatient and outpatient settings.

J. Physical Therapy medical necessity determination

Providing medical necessity review for physical therapy is dependent upon whether we have implemented vendor relationships to do this work in the states where a client's employees live. In these states, the contracted vendor reviews claims after the fifth visit to determine medical necessity. The process is the same for both in-network and out-of-network health care professionals. The timelines comply with NCQA and URAC requirements. We do not approve additional visits beyond the plan maximums. For the states in which we do not provide medical necessity review, we administer claims only according to plan coverage limitations.

Label this information Response to Section 6.26 and include in Tab VII of the proposal.

6.27 Disease Management/Health Promotion

Proposer must provide a description of all disease management programs that will be offered as part of this proposal and any associated cost for this program. This information should include:

- **Specific services and interventions of the program.**
- **Staffing resources as well as frequency and availability of these services.**
- **Description of the approach to managing each of the disease states.**
- **Description of the enrollment process for the disease management programs.**
- **•Description of any incentives your company uses to encourage participation in the programs.**
- **Description of the type and frequency of reporting your company uses to track, analyze and assess disease management program cost savings.**

Label this information Response to Section 6.27 and include in Tab VII of the proposal.

Cigna will partner with the City's onsite clinic, Marathon Health, by facilitating a warm transfer of employees where Cigna can outreach to employees who may benefit from Cigna's disease management program, Your Health First®. This partnership will help to improve the health and wellness of the City's employees.

Cigna's innovative Your Health First® chronic condition coaching model takes a broad approach to helping members manage chronic health conditions. Your Health First addresses the health of the whole person, rather than focusing on a single disease that triggers participation. Supported by evidence-based medical guidelines and influential behavioral techniques, our health advocates help members manage every aspect of their personal health, including adherence to medications, understanding and managing risk factors, maintaining up-to-date screenings, and more.

Your Health First uses proactive outreach to address the most prevalent conditions: heart disease, coronary artery disease, angina, congestive heart failure (CHF), acute myocardial infarction, peripheral arterial disease, asthma, COPD (emphysema and bronchitis), diabetes (types 1 and 2), metabolic syndrome/weight complications, osteoarthritis, low back pain, anxiety, bipolar disorder, and depression. We also support inbound calls and comorbid conditions through this model, regardless of the condition.

In addition to coaching for chronic conditions and in support of working with the whole person, Your Health First coaching for members identified with chronic conditions includes health and wellness coaching, treatment decision support, gaps in care coaching, lifestyle management coaching, and preadmission and post-discharge outreach for hospitalized members.

Our program-dedicated health advocates focus on each person's unique health needs, preferences, and goals. The health advocate's one-on-one approach helps create stronger relationships, establishes trust, and drives higher engagement. Combining clinical expertise, evidence-based practices, and extensive experience, our multidisciplinary health advocates manage health to start behavior change. Specifically, they help members:

- recognize worsening symptoms and know when to see a doctor
- establish questions to discuss with their doctors
- understand the importance of following doctors' orders
- develop healthy habits related to nutrition, sleep, exercise, weight, tobacco, and stress
- prepare for hospital admissions or recovery after hospital stays
- make educated decisions about treatment options

We have been successful in providing our clients with more than $2 saved for every $1 invested in services to address chronic conditions.

BID/PROPOSAL CERTIFICATION

Please Note: All fields below must be completed. If the field does not apply to you, please note N/A in that field.

If you are a foreign corporation, you may be required to obtain a certificate of authority from the department of state, in accordance with Florida Statute §607.1501 (visit http://www.dos.state.fl.us/).

Non-Collusion Statement

By signing this offer, the vendor/contractor certifies that this offer is made independently and *free* from collusion. Vendor shall disclose below any City of Fort Lauderdale, FL officer or employee, or any relative of any such officer or employee who is an officer or director of, or has a material interest in, the vendor's business, who is in a position to influence this procurement.

Any City of Fort Lauderdale, FL officer or employee who has any input into the writing of specifications or requirements, solicitation of offers, decision to award, evaluation of offers, or any other activity pertinent to this procurement is presumed, for purposes hereof, to be in a position to influence this procurement.

For purposes hereof, a person has a material interest if they directly or indirectly own more than 5 percent of the total assets or capital stock of any business entity, or if they otherwise stand to personally gain if the contract is awarded to this vendor.

In accordance with City of Fort Lauderdale, FL Policy and Standards Manual, 6.10.8.3,

3.3. City employees may not contract with the City through any corporation or business entity in which they or their immediate family members hold a controlling financial interest (e.g. ownership of five (5) percent or more).

3.4. Immediate family members (spouse, parents and children) are also prohibited from contracting with the City subject to the same general rules.

Failure of a vendor to disclose any relationship described herein shall be reason for debarment in accordance with the provisions of the City Procurement Code.

NAME	**RELATIONSHIPS**
_____	_____
_____	_____
	_____
	_____

In the event the vendor does not indicate any names, the City shall interpret this to mean that the vendor has indicated that no such relationships exist.

Include this form in **Tab VIII** of your proposal.

CONTRACT PAYMENT METHOD BY P-CARD

THIS FORM MUST BY SUBMITTED WITH YOUR RESPONSE

The City of Fort Lauderdale has implemented a Procurement Card (P-Card) program which changes how payments are remitted to its vendors. The City has transitioned from traditional paper checks to payment by credit card via MasterCard or Visa. This allows you as a vendor of the City of Fort Lauderdale to receive your payment fast and safely. No more waiting for checks to be printed and mailed.

Payments will be made utilizing the City's P-Card (MasterCard or Visa). Accordingly, firms must presently have the ability to accept credit card payment or take whatever steps necessary to implement acceptance of a credit card before the commencement of a contract.

Please indicate which credit card payment you prefer:

We have provided clarifying responses to certain RFP provisions below.

Single Source TPA, Pharmacy Benefit Management and Employee Assistance Program RFP#565-11755

SECTION 2 – SPECIAL TERMS AND CONDITIONS

2.18 Subcontractors

2.18.1 If the Proposer proposes to use subcontractors in the course of providing these services to the City, this information shall be a part of the bid response. Such information shall be subject to review, acceptance and approval of the City, prior to any contract award.

Cigna serves as the sole provider of services requested in this proposal; however, we have established relationships with subcontractors to enhance our offerings to our clients. These subcontractor arrangements are in place to service Cigna's broader [our entire] book-of-business and have not been specifically contracted to provide the services requested in this proposal. Cigna will hold subcontractors and subsidiaries to the same standards of care as it is held to. Where a specific subcontractor is requested by the City, the City has the right to approve such subcontractor.

2.18.3 Proposer shall require all of its subcontractors to provide the required insurance coverage as well as any other coverage that the Proposer may consider necessary, and any deficiency in the coverage or policy limits of said subcontractors will be the sole responsibility of the Proposer.

Cigna requires its subcontractors to carry appropriate levels of insurance coverage, based upon factors such as contract value and financial exposure. In some instances, Cigna may waive various insurance requirements due to the exposure and the scope of the contract. When such exceptions are made, Cigna will attempt to insulate its risk with insurance coverage under its existing policies. Furthermore, Cigna may have to contractually respond to any acts, errors, omissions or negligence of its subcontractors pursuant to the contract's indemnification obligations. As a result, Cigna is unable to guarantee the coverage of its subcontractors, or purchase insurance coverage on behalf of its subcontractors. Cigna Corporate Risk Management encourages all business units to request and review Certificates of Insurance from its subcontractors to ensure contractual compliance.

2.19 Insurance Requirements

2.19.2 The City of Fort Lauderdale shall be given notice 10 days prior to cancellation or modification of any stipulated insurance. The insurance provided shall be endorsed or amended to comply with this notice requirement. In the event that the insurer is unable to accommodate, it shall be the responsibility of the Proposer to provide the proper notice. Such notification will be in writing by registered mail, return receipt requested and addressed to the Procurement Services Division.

Cigna will endeavor to notify the City 10 days prior to cancellation or modification of policies.

Cigna and its subsidiaries and affiliates engage in numerous contractual relations with varying contractual requirements. Our insurers are unable to unilaterally administer the 30-day notice of cancellation requirement on a blanket basis.

Cigna's insurance premiums, on every insurance program, are paid in full at policy inception, thereby eliminating any chance of policy cancellation because of nonpayment of premiums. Cigna is a Fortune 125 organization and maintains R&C insurance coverage to comply with various statutory requirements. Over the course of 20 consecutive years, no insurance policies have been cancelled because of nonpayment of insurance premiums.

2.21 Uncontrollable Circumstances ("Force Majeure")

2.21.4 The non performing party uses its best efforts to remedy its inability to perform. Notwithstanding the above, performance shall not be excused under this Section for a period in excess of two (2) months, provided that in extenuating circumstances, the City may excuse performance for a longer term. Economic hardship of the Proposer will not constitute Force Majeure. The term of the agreement shall be extended by a period equal to that during which either party's performance is suspended under this Section.

Agreed; however, nothing herein relieves the City's obligation to fund the claims bank account or pay fees or premiums beyond the grace period.

2.25 Audits

The City may request an audit of medical and pharmacy claims in order to determine if the re-pricing information submitted to the City in their proposal is being followed. The City may use an independent third party auditor, provided that they adhere to the treatment of confidential information defined in the RFP under State of Florida statutes, Health Insurance Portability and Accountability Act (HIPAA) and the Health Information Technology for Economic and Clinical Health. (HITECH) Act

We permit claim audits in accordance with the following terms: Upon 45 days' advance, written request, documents relating only to claims administration services shall be made available to the City for its audit or inspection. The City will designate, with Cigna's consent, an independent, third-party auditor to conduct the audit. In addition, the City and Cigna will agree upon the date for the audit during regular business hours at Cigna's office(s). The City may review payment documents relating to a random, statistically valid sample of 225 claims paid. If the audit identifies any claim adjustments, any such adjustments will be made in accordance with this agreement, and based on actual claims reviewed, and not upon statistical projections or extrapolations. Such audits shall be conducted pursuant to the terms of Cigna's claim audit agreement executed by every party. The agreement forms must be signed before each audit.

In addition, the City may conduct one such audit every two plan years (but not within 18 months of a previous audit).

No audit shall review claims paid more than two years before the date of the audit. Our standard provision is to allow an audit up to one year after termination.

There will be no charge for Cigna's costs related to the audit; however, the City will remain responsible for its auditor's costs.

Subject to availability, we provide conference rooms for onsite auditors at one of three sites (Denison, Texas; Bourbonnais, Illinois; or Chattanooga, Tennessee). We provide space for the auditors and the computers they will need to access our claim system(s). Standard audits typically take about a week to conduct.

In addition, the successful Proposer must agree to full disclosure of all pharmacy administrative fees, planned and actual discounts, dispensing fees and other administrative fees for the purpose of auditing claims to ensure compliance with the pricing guarantees and provisions contained in the proposal. Refer to the current Administrative Services Only (ASO) Pharmacy Benefit Manager (PBM) agreement for acceptable conditions.
Confirmed.

We permit claim audits in accordance with the following terms: Upon 45 days' advance, written request, documents relating only to claims administration services shall be made available to the City for its audit or inspection. The City will designate, with Cigna's consent, an independent, third-party auditor to conduct the audit. In addition, the City and Cigna will agree upon the date for the audit during regular business hours at Cigna's office(s). A Comprehensive Approach to Continued Health and Wellness Engagement for City of Fort Lauderdale

Cigna and the City of Fort Lauderdale have the insights to develop and execute the next generation of health improvement. Our broad suite of health and well-being programs coupled with expert consultation allows us to work with you to design easy-to-implement solutions targeted to your organization. No cookie-cutter, off-the-shelf approach, we take the time to understand your organization's objectives for health and well-being, your culture, top health risks, challenges and budget in order to create a distinctive and highly effective program to improve well-being and lower health costs.

Cigna will provide an online portal, incentive administration, biometric screenings option, a gamified health assessment, online health challenges, health information line and enhanced reporting. Cigna will enable a continuous experience for the City of Fort Lauderdale by beginning today what we will do tomorrow. Our multi-year health and wellness engagement plan (Exhibit) will focus on:

- ***Better Decisions*** – guiding individuals to make smarter, value-based decisions about their health and their health spending
- ***Better Engagement*** – motivating and inspiring individuals to actively use health improvement programs and services
- ***Better Health*** - measurably reducing your top modifiable health risks, hypertension, cholesterol and diabetes, across your population for total health improvement and to lower costs

By targeting these three areas, we will help you achieve an optimal Culture of Well-Being.

Proven Results

With a comprehensive well-being solutions strategy in place Cigna clients have seen strong results year over year:

- Higher engagement rates for health assessments, biometric screenings and preventive care position clients to realize financial savings through a healthier, more informed population
- Identifying participants' health status is a key first step in motivating individuals to take the right actions to achieve meaningful and lasting healthy behavior changes

The following is an example of a municipality client who partnered with Cigna to build a comprehensive Well-Being strategy.

Over 3 years they achieved:

- 89% health assessment (average) completion rate
- 89% wellness (average) engagement rate which includes telephonic coaching, online modules, age appropriate preventive exams, flu shots, health improvement seminars, onsite weight watchers, smoking cessation and department specific programs
- Have an award winning wellness program
- Attained a -0.6% trend over 10 quarters.

Well-Being is more than promoting physical wellness. It's about helping people reach their total health potential – mind and body. It's about motivating and inspiring people to take action to feel their best and perform their best – at every stage of life and every stage of health.

Well-Being Solutions Approach

How do we do it?

First, we identify and share insights so opportunities and challenges are clear.

Second, we guide and connect to tested and proven best-practice solutions to create of culture of engagement versus a culture of participation.

And, third, we inspire and sustain personal accountability to improve health by creating motivation, rewards, and excitement.

Achieving Results

Your Cigna Well-Being Account Team

Your Culture of Well-Being influences every part of your organization: from recruitment and retention to morale to productivity and your bottom line. By supporting all of the positive influences – and repairing the negatives – your organization, your employees, your brand and your investment will reap countless rewards in the short – and long-term. We work hard to get your Culture of Well-Being as healthy as possible.

Cigna will deploy a dedicated onsite health and wellness team consisting of an Onsite Wellness Coordinator to support the City of Fort Lauderdale in improving their Culture of Well-Being. In collaboration the City of Fort Lauderdale's wellness coordinator and Cigna Client Engagement Manager will assist the City of Fort Lauderdale with their overall health and wellness engagement plan by specifically: (1) promoting a wellness culture aimed at helping people stay healthy, (2) modifying and changing behaviors that are putting health at risk, and (3) increasing access to quality care. This team will support the City of Fort Lauderdale in the refinement and execution of your wellness program. Our partnership will allow us to assess current conditions, understand your goals, recommend actions to achieve your goals, and evaluate results.

Creating a Customized Communication Plan

Ongoing multi-modality touch points throughout the year will assist in raising awareness of the tools and resources available to the City of Fort Lauderdale.

- myCigna.com tools and resources
    - Provider network
    - Urgent care education
    - Online lifestyle management programs
- Leverage Cigna's suite of Health Advocacy Programs
    - Chronic Conditions Management
    - Lifestyle Management Program
- Health and Wellness tips
    - Cigna's VitaMin materials
        - Newsletter
        - E-Card
        - Recipe
    - Health Observances

Achieving Engagement

To make change sustainable and achieve your desired engagement goals and cost savings, you must provide individuals with motivation throughout the process.

There are 3 key motivational influencers that help drive behavior change:

- *Environment*al (e.g. offering healthy food in cafeterias/vending machines);
- *External* (e.g. providing rewards for joining a weight loss or fitness program); and
- *Internal* (e.g. coaching to help people uncover their personal reasons/motivation to lose weight)

When all 3 influencers are working together, you will see the greatest behavior change.

Providing incentives – a key external influencer – can significantly enhance the effectiveness of environmental and internal influencers and help achieve behavior change and health improvement.

Cigna has provided the option to assist with incentive administration to the City of Fort Lauderdale Management Incentive Program utilizing Cigna's Motivate*Me* incentive program. The Motivate*Me* incentive program will provide a tool for the City to track management team engagement and identify those who have earned their rewards.

Cigna case studies, as well as external research, reflect that clients who offer incentives increased engagement in activities that help members know their health risks and take actions to improve health, such as completing health assessments, getting biometric screenings, and accessing our health coaching programs. Members who complete a biometric screening increase the likelihood of identifying disease at an early stage and getting referred into the right programs and solutions. Engagement in health care coaching helps members improve their health—reducing medical claims, loss of productivity, and disability.

Health and wellness goal activities that are available include:

- health assessment completion
- client-defined physical activity
- biometric screenings
- biometric outcomes--BMI, BP, glucose, LDL, total cholesterol
- phone-based coaching
- online coaching programs
- general weight management or health management
- Centers of Excellence and specialty pharmacy steerage goals
- claim-verified preventive care
    - annual preventive exam
    - mammography
    - cervical cancer screening
    - colonoscopy
    - flu shots
- custom goal capabilities

Multi-Year Engagement Goals

Cigna will outline multi-year engagement goals to help the City of Fort Lauderdale achieve cost savings from your employee health improvement program.

Health Improvement Fund

For the City of Fort Lauderdale, we are pleased to offer $87,000 for wellness fund for each of the contract years. The Health Improvement Fund is to help set the foundation for driving behavior change and

empowering employees to make better choices leading toward a culture of well-being. The health improvement fund can be used to fund the following wellness activities, for example:

- Health Education related on-site classes
- Health awareness communications
- Health seminar speakers
- Activity and challenge programs related to wellness
- Non-monetary awards for wellness program participation

Wellness Initiatives with minority vendors at City of Fort Lauderdale

In order to increase wellness activities for the employees at the City of Fort Lauderdale, Cigna is also offering up to four (4) blood pressure kiosks to the City of Fort Lauderdale**.** The kiosks will be place in key locations so that employees can increase health awareness and monitor blood pressure. Incorporating the kiosks at the major locations, providing educations and training to employees will close the technology gap and increase engagement in health and wellness activities.

Well-Being Dashboard

Cigna will review your results with you at the end of each plan year and provide a high-level year over year dashboard.

The Well-Being Dashboard will summarize:
• Participation Demographics
• Biometric Results
• Ranked Health Risks
• Health Coaching Engagement
• Preventive Care
• Better Decisions
• Incentive Participation

We have provided clarifying responses to certain RFP provisions below.

City of Fort Lauderdale General Conditions

PART I BIDDER PROPOSAL PAGE(S) CONDITIONS:

1.11 SCRUTINIZED COMPANIES

This Section applies to any contract for goods or services of $1 million or more:

The Contractor certifies that it is not on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List and that it does not have business operations in Cuba or Syria as provided in section 287.135, Florida Statutes (2011), as may be amended or revised. The City may terminate this Contract at the City's option if the Contractor is found to have submitted a false certification as provided under subsection (5) of section 287.135, Florida Statutes (2011), as may be amended or revised, or been placed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List or has engaged in business operations in Cuba or Syria, as defined in Section 287.135, Florida Statutes (2011), as may be amended or revised.

We do not have any business operations in Sudan or Iran. However, please be advised that we lawfully provide health insurance coverage to multinational employers for their expatriates and family members around the world, some of whom are on temporary assignments in Office of Foreign Assets Control (OFAC) Sanctioned countries. Please note that our coverage and related services are provided in accordance with applicable laws, including a Private Letter we received from OFAC which specifically authorizes our health insurance coverage.

1.12 DEBARRED OR SUSPENDED BIDDERS OR PROPOSERS

The bidder or proposer certifies, by submission of a response to this solicitation, that neither it nor its principals and subcontractors are presently debarred or suspended by any Federal department or agency.

Cigna certifies, to the best of its knowledge and belief, that neither Cigna nor its principals or subcontractors, are presently debarred, or suspended from covered transactions for the services contemplated under this proposal by any federal department or agency.

PART III BIDDING AND AWARD PROCEDURES:

3.06 APPROVED EQUAL: When the technical specifications call for a brand name, manufacturer, make, model, or vendor catalog number with acceptance of APPROVED EQUAL, it shall be for the purpose of establishing a level of quality and features desired and acceptable to the City. In such cases, the City will be receptive to any unit that would be considered by qualified City personnel as an approved equal. In that the specified make and model represent a level of quality and features desired by the City, the Bidder must state clearly in the bid any variance from those specifications. It is the Bidder's responsibility to

provide adequate information, in the bid, to enable the City to ensure that the bid meets the required criteria. If adequate information is not submitted with the bid, it may be rejected. The City will be the sole judge in determining if the item bid qualifies as an approved equal.
Agreed as applicable to the administrative services contemplated in this proposal.

3.12 USE OF OTHER GOVERNMENTAL CONTRACTS: The City reserves the right to reject any part or all of any bids received and utilize other available governmental contracts, if such action is in its best interest.
This proposal is prepared solely and specifically for the City. If other jurisdictions request services from Cigna, we will be happy to respond to their RFP's and discuss separate agreements with them.

PART IV BONDS AND INSURANCE

4.02 INSURANCE: If the Contractor is required to go on to City property to perform work or services as a result of ITB award, the Contractor shall assume full responsibility and expense to obtain all necessary insurance as required by City or specified in Special Conditions.

The Contractor shall provide to the Procurement Services Division original certificates of coverage and receive notification of approval of those certificates by the City's Risk Manager prior to engaging in any activities under this contract. The Contractors insurance is subject to the approval of the City's Risk Manager. The certificates must list the City as an ADDITIONAL INSURED for General Liability Insurance, and shall have no less than thirty (30) days written notice of cancellation or material change. Further modification of the insurance requirements may be made at the sole discretion of the City's Risk Manager if circumstances change or adequate protection of the City is not presented. Bidder, by submitting the bid, agrees to abide by such modifications.
Cigna will endeavor to notify the City 30 days prior to cancellation or modification of policies.

Cigna and its subsidiaries and affiliates engage in numerous contractual relations with varying contractual requirements. Our insurers are unable to unilaterally administer the 30-day notice of cancellation requirement on a blanket basis.

Cigna's insurance premiums, on every insurance program, are paid in full at policy inception, thereby eliminating any chance of policy cancellation because of nonpayment of premiums. Cigna is a Fortune 125 organization and maintains R&C insurance coverage to comply with various statutory requirements. Over the course of 20 consecutive years, no insurance policies have been cancelled because of nonpayment of insurance premiums.

PART V PURCHASE ORDER AND CONTRACT TERMS:

5.08 INDEMNITY/HOLD HARMLESS AGREEMENT: The Contractor agrees to protect, defend, indemnify, and hold harmless the City of Fort Lauderdale and its officers, employees and agents from and against any and all losses, penalties, damages, settlements, claims, costs, charges for other expenses, or liabilities of every and any kind including attorney's fees, in connection with or arising directly or indirectly out of the work agreed to or performed by Contractor under the terms of any agreement that may arise due to the bidding process. Without limiting the foregoing, any and all such claims, suits, or other actions relating to personal injury, death, damage to property, defects in materials or workmanship, actual or alleged violations of any applicable Statute, ordinance, administrative order, rule or regulation, or decree of any court shall be included in the indemnity hereunder.

Contractor shall protect and defend at Contractor's expense, counsel being subject to the City's approval, and indemnity and hold harmless the City and the City's officers, employees, volunteers, and agents from and against any and all losses, penalties, fines, damages, settlements, judgments, claims, costs, charges, expenses, or liabilities, including any award of attorney fees and any award of costs, in connection with or arising directly or indirectly out of any act or omission by the Contractor or by any officer, employee, agent, invitee, subcontractor, or sublicensee of the Contractor. The provisions and obligations of this section shall survive the expiration or earlier termination of this Agreement. To the extent considered necessary by the City Manager, any sums due Contractor under this Agreement may be retained by City until all of City's claims for indemnification pursuant to this Agreement have been settled or otherwise resolved, and any amount withheld shall not be subject to payment of interest by City.

5.12 RECORDS/AUDIT: The Contractor shall maintain during the term of the contract all books of account, reports and records in accordance with generally accepted accounting practices and standards for records directly related to this contract. The Contractor agrees to make available to the City Auditor or designee, during normal business hours and in Broward, Miami-Dade or Palm Beach Counties, all books of account, reports and records relating to this contract should be retained for the duration of the contract and for three years after the final payment under this Agreement, or until all pending audits, investigations or litigation matters relating to the contract are closed, whichever is later.

Agreed; however, please reference our current negotiated and executed agreement which details parameters surrounding audits.

CITY OF FORT LAUDERDALE

Well Being Solution for City of Fort Lauderdale
Total Population
2017

Together, all the way.®

Cigna®

City of Fort Lauderdale
Proposed Well-Being Strategy
Year 1 GOALS AND OBJECTIVES

	Objectives
Goal 1 **Increase health awareness**	Launch a Health Assessment and Biometric Screening campaign • Achieve 90% participation in both milestones Onsite biometrics screenings campaigns - Onsite-based screenings reduces time away from work - Convenient for staff to comply with screening requirement
Goal 2 **Increase Health and Wellness Events Onsite**	• Onsite Lifestyle Management Classes including Hypertension, Cholesterol, Weight Management (Cigna)
Goal 3 **Implement a robust reward and communication campaign to create compliance and awareness of the City of Fort Lauderdale Wellness program**	Create and execute the reward program Launch a communication campaign to educate employees/family including: • Mayor kick-off letter • Quarterly wellness newsletter mailer: Creative Services and Printing • City of Fort Lauderdale wellness intranet site • Calendar integration with staff development and other City of Fort Lauderdale meetings
Goal 4 **Improve Plan Utilization**	• Execute targeted mailer to high ER utilizers • Preventive Care Campaign to increase compliance among members with chronic disease diagnosis • Increase preventive care compliance among all services including adult well visits -Pull baseline and progress reports to track success
Goal 5 **Increase healthy lifestyle behaviors**	• Communicate/educate on Your Health First (chronic disease management) • Communicate/educate on Lifestyle Management Programs --Pull engagement reports to track participation

City of Fort Lauderdale
Year 1 Well-Being Program Summary

Better Health			
	Action	**Target**	**2017 Communication**
1	Health Assessment	Achieve 90% participation	January: home mailer (Wellness Newsletter) February –April: e-cards, posters, intranet July: home mailer (Wellness Newsletter) to announce campaign August-October: e-card, flyer, intranet,
2	Biometric Screening Campaign (onsite & PCP)	Achieve 50% participation	
3	Onsite events & seminars	Participation goal of 20-30 employees per session	
4	Onsite Lifestyle Management Classes	Participation goal of 30 employees per session	

Better Decisions			
	Action	**Target**	**Communication**
1	Urgent Care Centers	Decrease inappropriate ER usage	March: City of Fort Lauderdale wide posters, targeted home mailer
2	Preventive Care and Adult Well Visits	Hypertension, Cholesterol, colon cancer screening	October: targeted home mailer

Better Engagement			
	Action	**Target**	**Communication**
1	Your Health First	Obtain baseline metric	July and January: home mailer E-cards, flyers
2	Lifestyle Management Programs	Obtain baseline metric	

City of Fort Lauderdale
Proposed Well-Being Strategy
Year 2 GOALS AND OBJECTIVES

	Objectives
Goal 1 **Increase health awareness**	• Health Assessment and Biometric Screening Campaign • Achieve 5% increase year over year in both events
0Goal 2 **Increase Health and Wellness Events Onsite**	• Identify locations for onsite activities/events • Obtain participation and completion data • Achieve 5% increase year over year

Goal 3
Refine and execute the reward and communication campaign focused on the improved plan utilization
	• Update annual reward and communication plan for the year that includes:
	  • The City of Fort Lauderdale Wellness Intranet page
	  • Customized targeted communication
	  • Incentive program announcement, incentive reminder

Goal 4 **Improve Plan Utilization**	• Increase Urgent Care Center over prior year • Increase completion of Adult Well visits • Pull baseline and progress reports to track success
Goal 5 **Increase healthy lifestyle behaviors**	• Achieve 3% increase in ongoing engagement for Your Health First • Promote the Lifestyle Management Programs • Pull engagement reports to track participation • Decrease percent of Health Assessment respondents in the High and Medium risk category • Increase percent of Health Assessment respondents in the Low risk category

City of Fort Lauderdale
Year 2 Well-Being Program Summary

Better Health			
	Action	**Target**	**Communication**
1	Health Assessment	Achieve 5% increase year over year	January: home mailer (Wellness Newsletter) February –April: e-cards, posters, intranet July: home mailer (Wellness Newsletter) to announce campaign August-October: e-card, flyer, intranet,
2	Biometric Screening Campaign (onsite & PCP)	Achieve 5% increase year over year	
3	Onsite events & seminars	Increase total seminar participation by each 10% year	
4	Onsite Lifestyle Management Classes	Expand program to two additional locations	

Better Decisions			
	Action	**Target**	**Communication**
1	Urgent Care Centers	Decrease inappropriate ER usage	March: District wide posters, targeted home mailer
2	Preventive Care and Adult Well Visits	Realize a decrease in non-compliance among Hypertension, Cholesterol, Colon Cancer Screening by 5%	October: targeted home mailer

Better Engagement			
	Action	**Target**	**Communication**
1	Your Health First	Increase ongoing engagement by 5% each year	July and January: home mailer E-cards, flyers
2	Lifestyle Management Programs	Increase ongoing engagement by 5% each year

Section IV	**Cigna HealthCare's Control Objectives and Related Controls and Independent Service Auditor's Tests of Controls and Results of Tests**	33
Section V	**Other Information Provided by Cigna HealthCare**	76

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified.

REPORT OF INDEPENDENT SERVICE AUDITORS

To the Management of Cigna Corporation:

Scope

We have examined Cigna HealthCare's description of its Administrative Services Only (ASO) and Minimum Premium Plans claims administration system for processing user entities' transactions on the PROCLAIM, PowerMHS, FACETS, and Dentacom applications throughout the period October 1, 2014 to September 30, 2015 (the "description") and the suitability of the design and operating effectiveness of Cigna HealthCare's controls to achieve the related control objectives stated in the description.

The description indicates that certain control objectives specified in the description can be achieved only if complementary user entity controls contemplated in the design of Cigna HealthCare's controls are suitably designed and operating effectively, along with related controls at the service organization. We have not evaluated the suitability of the design or operating effectiveness of such complementary user entity controls.

Cigna HealthCare uses subservice organizations to process and perform quality reviews of case structure information; image, process and perform reviews of manual eligibility information; process automated eligibility information; receive, open, image, index, key and transcribe claim data for manually submitted claims; load practitioner demographic and reimbursement (fee schedule tie) information; perform medical claim re-pricing; process claims; and function as designated program banks. The description in Section III includes only the controls and related control objectives of Cigna HealthCare and excludes the control objectives and related controls of the subservice organizations. Our examination did not extend to controls over the following subservice organization activities: process and perform quality reviews of case structure information; image, process and perform reviews of manual eligibility information; process automated eligibility information; receive, open, image, index, key and transcribe claim data for manually submitted claims; load practitioner demographic and reimbursement (fee schedule tie) information; perform medical claim re-pricing; process claims; and function as designated program banks. We have not evaluated the suitability of design or operating effectiveness of such subservice organizations controls.

Service organization's responsibilities

In Section II, Cigna HealthCare has provided an assertion about the fairness of the presentation of the description and suitability of the design and operating effectiveness of the controls to achieve the related control objectives stated in the description. Cigna Healthcare is responsible for preparing the description and for the assertion, including the completeness, accuracy, and method of presentation of the description and the assertion, providing the services covered by the description, specifying the control objectives and stating them in the description, identifying the risks that threaten the achievement of the control objectives, selecting the criteria, and designing, implementing, and documenting controls that are suitably designed and operating effectively to achieve the related control objectives stated in the description.

PricewaterhouseCoopers LLP, 185 Asylum Street, Suite 2400, Hartford, CT 06103
T: (860) 241 7000, F: (860) 241 7590, www.pwc.com/us

Service auditor's responsibilities

Our responsibility is to express an opinion on the fairness of the presentation of the description and on the suitability of the design and operating effectiveness of the controls to achieve the related control objectives stated in the description, based on our examination. We conducted our examination in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform our examination to obtain reasonable assurance about whether, in all material respects, the description is fairly presented and the controls were suitably designed and operating effectively to achieve the related control objectives stated in the description throughout the period October 1, 2014 to September 30, 2015.

An examination of a description of a service organization's system and the suitability of the design and operating effectiveness of the service organization's controls to achieve the related control objectives stated in the description involves performing procedures to obtain evidence about the fairness of the presentation of the description and the suitability of the design and operating effectiveness of those controls to achieve the related control objectives stated in the description. Our procedures included assessing the risks that the description is not fairly presented and that the controls were not suitably designed or operating effectively to achieve the related control objectives stated in the description. Our procedures also included testing the operating effectiveness of those controls that we consider necessary to provide reasonable assurance that the related control objectives stated in the description were achieved. An examination engagement of this type also includes evaluating the overall presentation of the description and the suitability of the control objectives stated therein, and the suitability of the criteria specified by the service organization and described in management's assertion in Section II. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Inherent limitations

Because of their nature, controls at a service organization may not prevent, or detect and correct, all errors or omissions in processing or reporting transactions. Also, the projection to the future of any evaluation of the fairness of the presentation of the description, or conclusions about the suitability of the design or operating effectiveness of the controls to achieve the related control objectives is subject to the risk that controls at a service organization may become inadequate or fail.

Other information provided by the service organization

The information included in Section V, "Other Information Provided by Cigna HealthCare", is presented by management of Cigna HealthCare to provide additional information and is not a part of Cigna HealthCare's description of its Administrative Services Only (ASO) and Minimum Premium Plans claims administration system made available to user entities during the period October 1, 2014 to September 30, 2015. Information about Cigna HealthCare's remote access security, business continuity planning, claim overpayment identification and recovery workflow, program to ensure customer information is kept private and secure, communication with customers, and management's response to exceptions noted has not been subjected to the procedures applied in the examination of the description of the Administrative Services Only (ASO) and Minimum Premium Plans claims administration system and of the suitability of the design and operating effectiveness of controls to achieve the related control objectives stated in the description of the Administrative Services Only (ASO) and Minimum Premium Plans claims administration system and accordingly, we express no opinion on it.

Opinion

In our opinion, in all material respects, based on the criteria described in Cigna HealthCare's assertion in Section II,

a. The description fairly presents the Administrative Services Only (ASO) and Minimum Premium Plans claims administration system that was designed and implemented throughout the period October 1, 2014 to September 30, 2015.

b. The controls related to the control objectives of Cigna HealthCare stated in the description were suitably designed to provide reasonable assurance that the control objectives would be achieved if the controls operated effectively throughout the period October 1, 2014 to September 30, 2015 and user entities applied the complementary user entity controls contemplated in the design of Cigna HealthCare's controls throughout the period October 1, 2014 to September 30, 2015.

c. The controls of Cigna HealthCare tested, which together with the complementary user entity controls referred to in the scope section of this report, if operating effectively, were those necessary to provide reasonable assurance that the control objectives stated in the description were achieved, operated effectively throughout the period October 1, 2014 to September 30, 2015.

Description of tests of controls

The specific controls tested and the nature, timing, and results of those tests are listed in Section IV.

Intended users and purpose

This report, including the description of tests of controls and results thereof in Section IV, is intended solely for the information and use of Cigna HealthCare, user entities of Cigna HealthCare's Administrative Services Only (ASO) and Minimum Premium Plans claims administration system during some or all of the period October 1, 2014 to September 30, 2015, and the independent auditors of such user entities, who have a sufficient understanding to consider it, along with other information including information about controls implemented by user entities themselves, when assessing the risks of material misstatements of user entities' financial statements. This report is not intended to be and should not be used by anyone other than these specified parties. If report recipients are not user entities that have contracted for services with Cigna HealthCare for the period specified above or their independent auditors (herein referred to as a "non-specified user") and have obtained this report, or have access to it, use of this report is the non-specified user's sole responsibility and at the non-specified user's sole and exclusive risk. Non-specified users may not rely on this report and do not acquire any rights against PricewaterhouseCoopers LLP as a result of such access. Further, PricewaterhouseCoopers LLP does not assume any duties or obligations to any non-specified user who obtains this report and/or has access to it.

PricewaterhouseCoopers LLP

November 25, 2015

CIGNA HEALTHCARE'S ASSERTION

We have prepared the description of Cigna HealthCare's Administrative Services Only and Minimum Premium Plans claims administration systems system for processing user entities' transactions on the PROCLAIM, PowerMHS, FACETS, and Dentacom applications (the "description") for user entities of the system during some or all of the period October 1, 2014 to September 30, 2015, and their user auditors who have a sufficient understanding to consider it, along with other information, including information about controls implemented by user entities of the system themselves, when assessing the risks of material misstatement of user entities' financial statements. We confirm, to the best of our knowledge and belief, that:

a. The description fairly presents the Administrative Services Only and Minimum Premium Plans claims administration systems made available to user entities of the systems during some or all of the period October 1, 2014 to September 30, 2015 for processing their health benefits elections. The description indicates that certain control objectives specified in the description can be achieved only if complementary user entity controls contemplated in the design of Cigna HealthCare's controls are suitably designed and operating effectively, along with related controls at Cigna HealthCare. Cigna HealthCare uses service organizations to process and perform quality reviews of case structure information; image, process and perform reviews of manual eligibility information; process automated eligibility information; receive, open, image, index, key and transcribe claim data for manually submitted claims; load practitioner demographic and reimbursement (fee schedule tie) information; perform medical claim re-pricing; process claims; and function as designated program banks. The description includes only the control objectives and related controls of Cigna HealthCare and excludes the control objectives and related controls of the subservice organizations used to process perform quality reviews of case structure information; image, process and perform reviews of manual eligibility information; process automated eligibility information; receive, open, image, index, key and transcribe claim data for manually submitted claims; load practitioner demographic and reimbursement (fee schedule tie) information; perform medical claim re-pricing; process claims; and function as designated program banks. The criteria we used in making this assertion were that the description:

   i. Presents how the system made available to user entities of the system was designed and implemented to process relevant transactions, including, if applicable:

      (1) The types of services provided, including, as appropriate, the classes of transactions processed.

      (2) The procedures, within both automated and manual systems, by which services are provided, including as appropriate, procedures by which transactions are initiated, authorized, recorded, processed, corrected as necessary, and transferred to the reports and other information prepared for user entities of the system.

      (3) The related accounting records, supporting information, and specific accounts that are used to initiate, authorize, record, process, and report transactions; this includes the correction of incorrect information and how information is transferred to the reports presented to user entities of the system.

(4) How the system captures and addresses significant events and conditions, other than transactions.

(5) The process used to prepare reports or other information provided to user entities of the system.

(6) Specified control objectives and controls designed to achieve those objectives including, as applicable, complementary user entity controls contemplated in the design of the service organization's controls.

(7) Other aspects of our control environment, risk assessment process, information and communication systems (including the related business processes), control activities, and monitoring controls that are relevant to processing and reporting transactions of user entities of the system.

ii. Does not omit or distort information relevant to the scope of the Administrative Services Only (ASO) and Minimum Premium Plans claims administration system, while acknowledging that the description is prepared to meet the common needs of a broad range of user entities of the system and the independent auditors of those user entities, and may not, therefore, include every aspect of the Administrative Services Only (ASO) and Minimum Premium Plans claims administration systems that each individual user entity of the system and its auditor may consider important in its own particular environment.

b. The description includes relevant details of changes to the service organization's system during the period covered by the description when the description covers a period of time.

c. The controls related to the control objectives stated in the description, which together with the complementary user entity controls referred to above, if operating effectively, were suitably designed and operated effectively throughout the period October 1, 2014 to September 30, 2015 to achieve those control objectives. The criteria we used in making this assertion were that:

i. The risks that threaten the achievement of the control objectives stated in the description have been identified by the service organization;

ii. The controls identified in the description would, if operating as described, provide reasonable assurance that those risks would not prevent the control objectives stated in the description from being achieved; and

iii. The controls were consistently applied as designed, including whether manual controls were applied by individuals who have the appropriate competence and authority.

DESCRIPTION OF CIGNA HEALTHCARE'S ADMINISTRATIVE SERVICES ONLY AND MINIMUM PREMIUM PLANS SYSTEM

Overview of Operations

Cigna HealthCare is a business unit of Cigna Corporation (Cigna), which together with its subsidiaries constitutes one of the largest investor owned health care and related benefits organizations in the United States. Although Cigna HealthCare is not an insurance company, its subsidiaries offer and provide a wide range of health care products and services (medical, pharmacy, behavioral health, clinical information management, dental and vision benefits, and case and disease management) and group disability, life, and accident insurance. Cigna also provides life, accident, health, and expatriate employee benefits insurance coverage in selected international markets, primarily in Asia, Europe and Africa.

Cigna also has certain inactive businesses, including a run-off retirement operation and a run-off reinsurance operation.

Cigna HealthCare offers a broad portfolio of group medical and specialty health care products and services. Cigna HealthCare provides group indemnity coverages, primarily medical and dental, through alternative funding programs under which the client assumes all or a portion of the responsibility for funding claims, with Cigna HealthCare providing combinations of administrative and claim processing services and insurance for a fee or premium charge.

This report has been prepared to provide information on Cigna HealthCare's controls which may be relevant in assessing the internal control relevant to financial reporting over Minimum Premium or Administrative Services Only (ASO) plans processed on the PROCLAIM, PowerMHS (PMHS), and Dentacom systems and in addition, the ASO medical plans and dental products processed on the FACETS claim system. For Minimum Premium clients, Cigna HealthCare provides claim processing and administrative services to group employee benefit insurance plans. The Minimum Premium arrangement allows the client to assume direct funding responsibility for claims up to a predetermined maximum monthly level called the trigger point. Cigna HealthCare assumes responsibility for funding any claims in excess of the trigger point. Under ASO plans, Cigna HealthCare provides claim processing and administrative services to clients who choose to self-insure their employee benefit plans. In ASO arrangements, the client retains the liability for funding all claims.

The Minimum Premium and ASO programs of Cigna HealthCare described above are underwritten by Connecticut General Life Insurance Company (CGLIC) or Cigna Health and Life Insurance Company (CHLIC), indirect wholly-owned subsidiaries of Cigna Corporation.

PowerMHS, PROCLAIM and FACETS claim systems support Cigna HealthCare's medical product portfolio. The Dentacom and FACETS claim systems support Cigna HealthCare's dental product portfolio.

The following products are serviced on the PowerMHS claim system:

- HMO, Network, HMO Open Access (OA), Network OA, HMO Point of Service (POS), Network POS, HMO POS OA, and Network POS OA.

The following products are serviced on the PROCLAIM claim system:

- OA Plus In-Network, Exclusive Provider Organization (EPO), OA Plus, Preferred Provider Organization (PPO), and Indemnity.

The following products are serviced on the FACETS claim system:

- OA Plus In-Network, Exclusive Provider Organization (EPO), OA Plus, Preferred Provider Organization (PPO), and Indemnity. Dental PPO and Dental Indemnity.

The following products are serviced on Dentacom:

- Dental PPO and Dental Indemnity.

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities with Cigna HealthCare ASO or Minimum Premium programs processed on the PROCLAIM, PowerMHS, FACETS or Dentacom systems. To the extent that individual employee benefit plans require independent audits, the report is also for the use of management and independent accountants (user auditors) of individual employee benefit plans. This report covers the process from the time claims are received by PROCLAIM, PowerMHS, FACETS and Dentacom.

Relevant Aspects of the Control Environment, Risk Assessment Process, Information and Communication Systems, and Monitoring Controls

Cigna HealthCare has defined Internal Controls based upon the "COSO" framework (Committee of Sponsoring Organizations of the Treadway Commission). The COSO framework adopted by Cigna HealthCare is used in design and analysis of internal controls and for presentation in this report. Cigna HealthCare's COSO internal control environment consists of five interrelated components. These components are:

- **Control Environment** – The control environment sets the tone for the organization, influencing the control consciousness of its people.
- **Control Activities** – Policies and procedures are established and implemented to help ensure the risk responses are effectively carried out.
- **Risk Assessment** – Internal and external events affecting the achievement of an entity's objectives must be identified. Risks are analyzed, considering likelihood and impact, as a basis for determining how they should be managed. Risks are assessed on an inherent and a residual basis.
- **Monitoring** – The entirety of the enterprise risk organization is monitored and modifications made as necessary. Monitoring is accomplished through ongoing management activities, separate evaluations or both.
- **Information and Communication** – Relevant information is identified, captured, and communicated in a form and timeframe that enable people to carry out their responsibilities. Effective communication also occurs in a broader sense, flowing down, across, and up the entity.

Control Environment

The control environment sets the tone of the healthcare organization, contributing a major influence on the day-to-day work habits of its people. It is the foundation for all other components of internal control, providing regimentation, discipline, and structure.

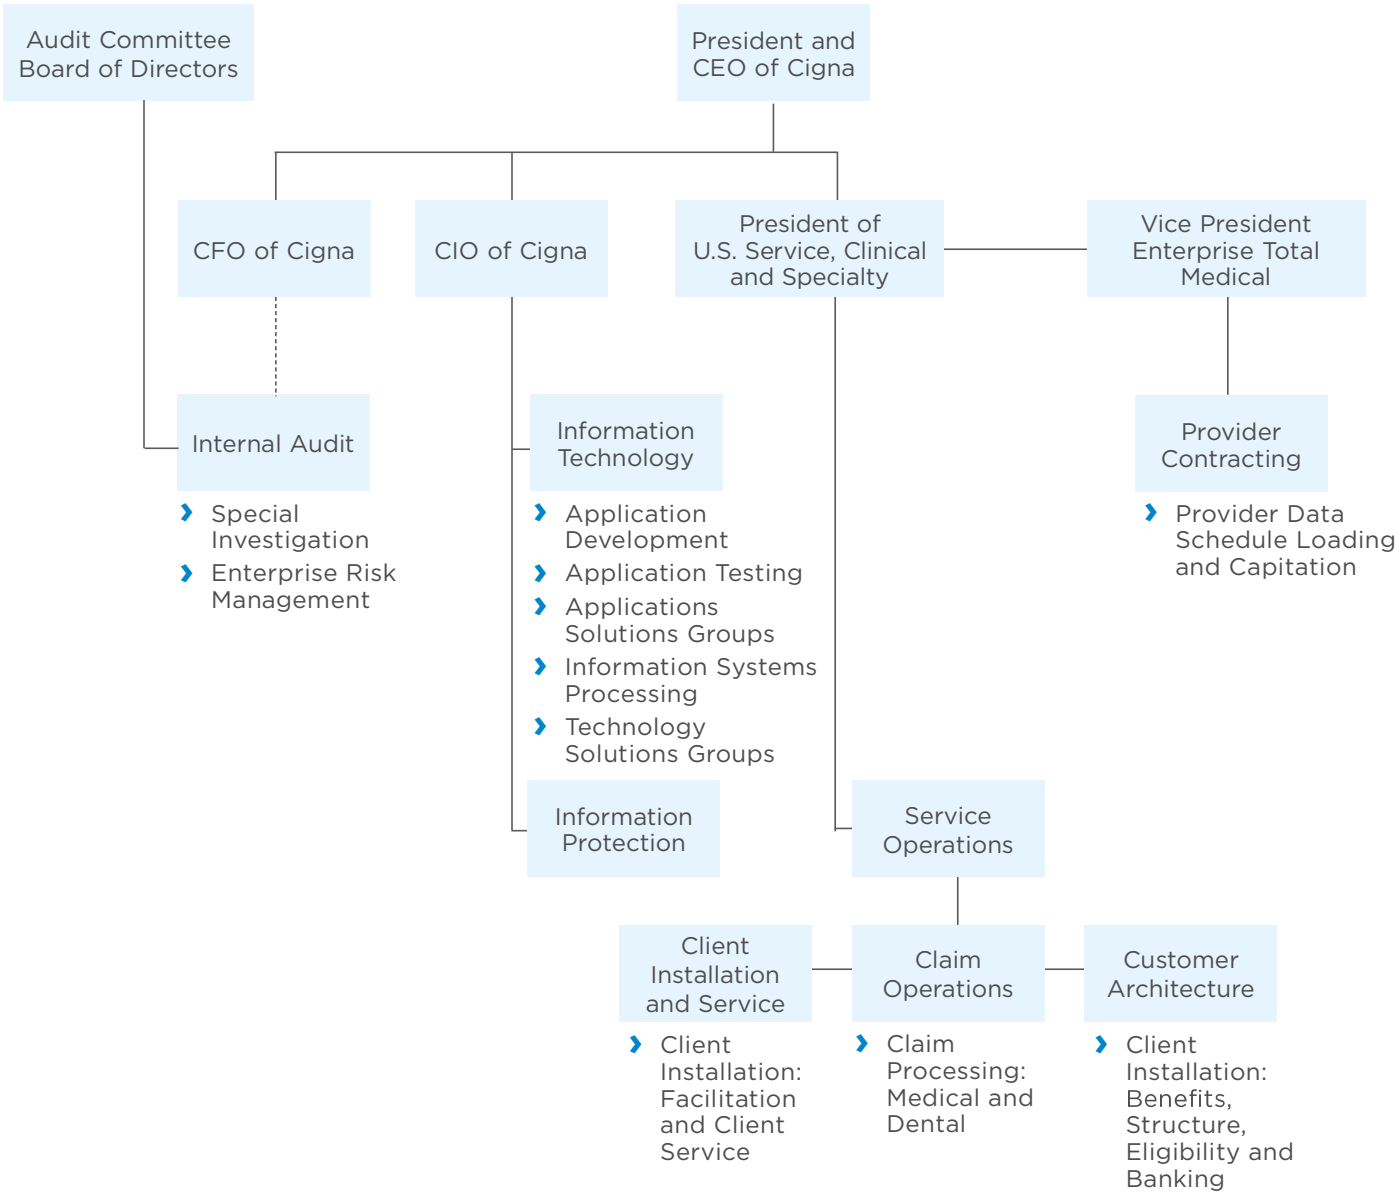
The control environment has a pervasive influence on the way business activities are structured, objectives are established, and risks are assessed. It also influences control activities and monitoring procedures. The control environment is influenced by an entity's managerial culture. Effectively controlled entities strive to have competent people, instill an enterprise-wide attitude of integrity and control consciousness and set a positive "tone at the top." These entities establish appropriate policies and procedures which foster shared values and teamwork in pursuit of the organization's objectives.

Organization

Set forth in Figure A is the organization chart for Cigna HealthCare for areas that are addressed within this report.

The Cigna HealthCare organizational structure is designed along functional lines. Each functional area is responsible for specific transaction processing or administrative services. The organizational structure is designed to provide adequate segregation of duties as well as clearly defined areas of responsibility relating to the control environment components. The controls established in each functional area are critical to the administration of ASO and Minimum Premium business.

FIGURE A
ORGANIZATION CHART FOR AREAS COVERED WITHIN THIS REPORT



These functions are:

- **Case Installation – General, Structure, and Benefits**

  Production Services' Case Installation Unit compiles client benefit decisions, structure, and rate information and then loads all data into Cigna HealthCare systems. When an account has been structured, banking arrangements can then be implemented and claims can be paid.

- **Case Installation – Eligibility Enrollment and Updating**

  Production Services' Eligibility Unit maintains client eligibility files that are used to determine the existence of valid coverage during the claim payment process.

- **Claim – Provider Data Loading**

  Cigna HealthCare personnel are responsible for provider and facility contract negotiation and finalizing contracting within Cigna HealthCare's standards. The finalized contract terms are then loaded into Cigna HealthCare's systems.

- **Claim – Payment**

  Service Operations' Claim personnel support the adjudication of claims.

- **Claim – Capitation**

  For ASO and Minimum Premium clients with capitation arrangements, Network Operations supports the payment of providers on a contracted rate per customer for an agreed upon population of membership. Based on the rate, providers are required to furnish certain required care as defined under contract for the population regardless of cost.

- **Financial Services – Banking**

  Production Services' Financial Services Unit facilitates the setup of client owned bank accounts with the program bank, oversees program bank account funding, monitors trigger point liabilities for clients with Minimum Premium arrangements, and performs monthly reconciliations of transactions processed through ASO and Minimum Premium clients' individual program bank accounts.

- **Information Technology**

  Cigna HealthCare's Information Technology (IT) unit provides centralized IT support to meet Cigna HealthCare's strategic objectives including supporting Cigna HealthCare systems. IT is responsible for application development and maintenance, infrastructure delivery, architecture, design, program management, computer operations, and information protection.

Other Considerations

There are two key elements related to Cigna HealthCare corporate governance and corporate ethics (available for review on Cigna.com).

- **Board Independence** – All but one director on Cigna Corporation's Board of Directors are independent, non-employee directors. Additionally, only independent directors serve on the Audit Committee, Finance Committee, Corporate Governance Committee, and People Resources Committee, which oversees executive compensation.

- **Code of Ethics and Compliance** – Cigna has adopted a Code of Ethics and Principles of Conduct ("Code") which includes related policies. The Code is a part of a comprehensive compliance program intended to promote an ethical and compliant culture, and to prevent and detect illegal, improper, and unethical conduct by Cigna and its subsidiaries. The Code is an important part of the internal control structure and helps promote effective business controls. The Code applies to directors, officers, employees and agents of Cigna and its subsidiaries throughout the world. Annually, all directors, officers, employees and agents of Cigna are required to affirm their compliance with the Code. Violations of the Code are subject to disciplinary action up to and including termination.

  In addition, Cigna is subject to regulation and supervision by the insurance department of the states in which it is licensed. Accordingly, Cigna is required to file periodic financial statements and reports with the state insurance departments and is subject to periodic examinations by the regulators.

Cigna also maintains insurance coverage against various major risks, including errors and omissions, as well as other general liability and employment

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

insurance as required by law. Coverage is maintained at levels that management considers reasonable, given the size and scope of Cigna's operations, and is provided by insurance companies that Cigna's management believes are financially sound.

Control Activities

Cigna HealthCare has formal management information and reporting controls in place to enable management to monitor the results of its operations on an ongoing basis. These processes provide information which allows management to adequately monitor and control the claim processing services performed for Cigna HealthCare's customers.

Results are monitored and measured through various self-assessment programs against established standards and communicated to management in a timely manner for corrective action when necessary.

- **Controls Related to Personnel**

  Cigna HealthCare has formal hiring practices designed to ensure that new employees are qualified for their job responsibilities. Minimum education and experience requirements are established for each position. Candidates are evaluated against predetermined qualifications by department management and a Cigna HealthCare Human Resources Talent Consultant. Cigna HealthCare also performs background investigations of potential employees that include review of criminal records and verification of education and employment information provided by the applicant.

  Personnel are trained through seminars, in-house courses, and supervised on the job training. Certain positions require completion of specific training. For example, claim processors are trained annually on fraud detection and prevention. Department managers are responsible for ongoing training and development necessary to ensure personnel are properly qualified to execute their responsibilities.

  Formal performance reviews are conducted on an annual basis. Employees are evaluated on objective criteria based on performance. An overall rating is assigned to each employee. Appropriate performance management action, up to and including termination, is taken for employees who do not meet the stated job objectives.

Risk Assessment

Enterprise Risk Management (ERM) provides a framework to identify, assess and manage potential risks and opportunities, allowing Cigna leaders enterprise wide to make more informed management decisions. The Chief Risk Officer oversees the ERM Framework facilitating and coordinating the process of identifying, reviewing and ranking risks; assigning, tracking and monitoring of risks; and, reporting status to the Senior Risk Committee and the Board's Audit Committee.

ERM works closely with the business and or functional areas, the ERM Convergence Group and the Senior Risk Committee. Working concurrently with each of these areas and committees enables the horizontal and vertical flow of information necessary to aggregate risk information on an enterprise level. ERM maintains a consolidated view of risk information to enable the functional areas to work with the businesses in an integrated and efficient manner when addressing issues and ensure the necessary flow of information between all key constituents. Assigning business owners to each risk ensures accountability during the mitigation process.

Monitoring

Cigna HealthCare management and supervisory employees monitor performance quality and control operations as a normal part of their activities. Cigna HealthCare has implemented a series of "key indicator" controls that measure the results of various transaction processing. Deficiencies noted from ongoing monitoring procedures are communicated to management personnel and process improvements are implemented when necessary. Key indicators include:

- **Internal Audit**

  The Internal Audit department is led by the General Auditor (GA) who reports to the Audit Committee of the Board of Directors. The GA is responsible for managing enterprise risk management, internal audit, and special investigations functions. Cigna operations are monitored by the Internal Audit department. During the performance of its audits, Internal Audit evaluates the soundness, adequacy, and application of accounting, financial, and other operating controls; ascertains the extent

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

of compliance with established policies, plans, procedures, and laws & regulations to which the company is subject; verifies the accuracy and propriety of transactions processes; and ascertains the reliability of management information developed within the organization.

Formal reports of audit findings are provided to management after each audit, and significant findings are summarized and reported quarterly to the Audit Committee of the Board of Directors.

- **Quality Assurance Department**

  In addition to the work performed by Internal Audit, Cigna HealthCare's Quality Assurance (QA) Department performs a formal program of audits by its own independent staff. The results of these audits are summarized and reported to various levels of Cigna HealthCare's management, including senior management.

- **Case Installation – Structure & Benefits**

  - **ePro Quality Inspection:** To ensure quality and completeness of the data within Electronic Profile (ePro), the case repository system, an independent team performs a comprehensive inspection of new and renewing Regional and National accounts. The inspection is performed to standards that are documented within Cigna HealthCare's policy & procedures manual. Management tracks and monitors the completeness, timeliness, and results of these inspections. Errors noted during the inspections are required to be fixed until 100% accuracy is obtained. Errors are monitored with corrective action implemented if necessary.
  - **Structure Quality Audits:** To ensure the quality of the data loaded into CDB (Client Database) by Production Services, an independent team performs a quality audit (QA). The procedures for the QA are documented within the department. New and renewing (with changes to structure) accounts are sent through the Structure QA. The Structure QA compares CDB reports against ePro to ensure that structure is accurate and complete. Errors noted during the inspections are required to be fixed until 100% accuracy is obtained. Errors are monitored with corrective action implemented if necessary.
  - **Monitoring of the Structure Quality Audits Performed by Subservice Organization:** To ensure the quality of data loaded into CDB by the subservice organization, Production Services performs a quality audit (QA) on a random sample of accounts on a weekly basis. Reports on the accuracy of Structure Quality Audits performed by the subservice organization are distributed to management monthly. Management submits an action plan if results are below standard.
  - **Test of Benefits:** After benefits are loaded into the claim engines, an independent team performs a multi-step quality test. The procedures for the test are documented within the department. Benefit Testing is performed on new and renewal accounts with significant plan changes for Regional, National and Select accounts meeting testing criteria. The Benefit Testing Team reconciles benefits in the claim engines to ePro source documentation and also performs systematic tests on benefit packages to determine if claims will pay accurately. This testing is performed in a "testing environment" within the claim engines. Any errors identified require remediation, and accounts are retested after required changes are made. The systematic test must pay 100% of claims accurately before testing is considered complete. Documentation of the testing process is maintained for future reference and is forwarded when required to downstream areas.
  - **FACETS Plan Audits:** To ensure accurate case and customer installation by the Plan Services group, the Quality Assurance department performs a quality audit. The procedures for the audit are documented within the Quality Assurance department processing manuals. All new plans and amendments are subject to audit by the Quality Assurance department. Audits compare the Case Installation Tool (CIT) data and enrollment against the FACETS system to ensure that the plan structure and customer data is accurate and complete. Errors noted during the audit are required to be corrected by the processors. Results of the audits are reported to management for purposes of identifying processing issues and effecting required corrective actions.

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

- **Manual and Automated Eligibility**
  - **Cigna HealthCare Monitors Subservice Organization Accuracy and Timeliness of Input of Eligibility Data:** Manual enrollment forms and employer provided customer files sent to the subservice organization for processing are monitored by Cigna HealthCare's eligibility management. Reports on quality and turnaround time are distributed to management on a weekly and monthly basis. Management submits an action plan if monthly results are below standard.
  - **The Wellness Dashboard Monitors Fallout of Eligibility between CDB & the Central Eligibility Database (CED) and CED & the Claim Engines:**
    - The Wellness Dashboard contains the Active in Term Structure report.
    - The Active w/Term structure report contains customers who are active in the eligibility system (CED) however the structure (Account/Branch/Benefit Option/Network) they are loaded in is terminated in CDB.
    - This report is produced twice per week to ensure customer eligibility and structure is consistent and valid.

    Fallout from each interface is reported and monitored in the Wellness Dashboard. Management tracks fallout through aging, investigates fallout, and ensures errors are corrected.
- **Claim Provider Data Loading**
  - **Medical Only – An Independent Team within Network Operations Audits a Selection of Facility/Ancillary Fee and Demographic and Practitioner/Association Fee and Demographic Records for Accuracy:** A selection of facility/ancillary fee and demographic and practitioner/association fee and demographic records loaded are subject to audit. The main purpose of the quality audit (QA) is to monitor accuracy of data setup, submission, and processing. Results are reported to management to identify processing issues and implement required corrective actions.
  - **Dental Only – Quality Assurance Personnel Perform Reviews of Data Loaded for Provider Demographics:** Quality assurance personnel perform reviews of provider demographic data loaded to Dentacom to determine whether provider demographic data was loaded completely and accurately. Errors identified from the reviews are reported for correction and tracked for the development of quality improvement opportunities.
- **Claim Processing & Capitation**
  - **An Independent Quality Team Performs a Process-Wide Audit To Determine Claim Payment Accuracy:** The QA team performs claim audits using a statistically valid sample to monitor claim payment accuracy and timeliness of claim related processes. These reviews provide a process-wide assessment of the organization's ability to accurately process claims. The results of this control activity provide management with information to diagnose problems, prioritize corrective actions, and implement changes to improve the overall quality of the corresponding claim processing operations.
- **Banking**
  - **Monthly Reconciliation of Cigna HealthCare's Issuance and Repository Processing System (CHIRPS) to Program Bank Activity for PROCLAIM, PowerMHS and Dentacom plans:** Issued, reversed, and stopped check information is reconciled monthly via an automated matching process of Cigna HealthCare and the program bank's check issuance, reversal, and stop information generating an out-of-balance report. Out-of-balance conditions are researched by an account analyst and reported to the client advising how they will be resolved and corrected. These key indicator controls are periodically reviewed by the appropriate level of management, and action is taken as necessary. Depending on the nature of the findings, they are referred to increasingly higher levels of management for review.

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

Information and Communication

Cigna HealthCare has management information systems in place to assist management in monitoring the results of its operations on an ongoing basis, as well as process daily claim transactions. These systems provide information, which allows management to adequately monitor and control its group, customer and claims processing services.

Description of Transaction Processing

Functional Area: Case Installation – General

Case Installation is the process that "puts a case on Cigna HealthCare's books" as well as ensures plan revisions to existing cases are properly reflected within Cigna HealthCare's systems. These processes entail verifying and entering into Cigna HealthCare's databases information related to an account, such as benefit plan specification, account structure, eligibility, and agreed upon rates. Case Installation is led by Cigna HealthCare's Customer Advocacy and Production Services.

The first step in the Case Installation process is inputting new and renewal cases into a Cigna HealthCare tracking tool. This tool is used to track accounts throughout the entire Case Installation process. Line personnel monitor reports daily to ensure all tasks associated with the implementation are on track and are responsible for escalating any issues to management. Management reviews system generated reports of actual results on a weekly basis.

Cigna HealthCare's policies & procedures require a representative of Cigna HealthCare to have a meeting with the client post-sale to validate the case structure, product selection, and sold benefits (referred to as the Customer Interface Session). This meeting occurs on new and renewing cases with significant benefit or structure changes. Once approved by the client, the plan information is loaded into either ePro (applicable to PROCLAIM and PowerMHS medical benefits, structure, and dental benefits and rates), CIT (applicable to Facets), or the LCAP (applicable to dental structure.)

ePro, CIT, and LCAP are used to document the requirements of the case. When a draft of the ePro, CIT and LCAP is completed, an "Expert Team Meeting" is held. The Expert Team Meeting provides a forum for impacted departments within Cigna HealthCare to proactively identify and address potential barriers to implementation and review, verify, and finalize all account details. The following is a limited listing of those areas that are expected to attend: Sales, Structure, Benefits, ID Card, Stop loss, Plan Automation, Contracts, and Specialty Companies. These experts are required to review ePro, CIT or LCAP to ensure that the case can be properly loaded into downstream systems (i.e., claim engines, CDB, Benefit Access, Facets Eligibility). After the Expert Team reviews and approves the ePro, LCAP or CIT for accuracy, the ePro, LCAP or CIT data is authorized and released.

To ensure the quality and completeness of the data within ePro or CIT, an independent team performs a comprehensive inspection of new and renewing Regional and National accounts, or Select market accounts for Facets. The inspection is performed to standards that are documented within Cigna HealthCare's policy & procedures manual. Management tracks and monitors the completeness, timeliness, and results of the inspections. Errors noted during the inspections are required to be fixed until 100% accuracy is obtained. Errors are monitored with corrective action implemented if necessary.

Functional Area: Case Installation – Structure and Benefits

STRUCTURE

The following is applicable to PowerMHS, PROCLAIM, and Dentacom:

After the ePro and LCAP are released, the structure related information is loaded into the Client Database (CDB) by Cigna HealthCare Production Services or a subservice organization. Medical and dental structures are maintained within CDB and LCAP, respectively. Prior to releasing CDB into production, an "ePro to CDB Fallout Report" must be generated for medical benefits. This report compares key fields in ePro to CDB. Exceptions are required to be remediated prior to CDBs being released.

After CDB is released, an interface occurs between CDB and the claim systems. Any fallout of the interface is monitored and resolved timely. This interface along with other interfaces must occur in order to have claims adjudicated within the claim systems.

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

To ensure the quality of the data loaded into CDB, an independent team performs a quality audit (referred to as the Structure QA). The Structure QA compares CDB reports against ePro or LCAP to ensure that structure is accurate and complete. New and renewal cases (with changes to structure) are sent through the Structure QA. Exceptions noted in the Structure QA are remediated. Management reviews the exception reports for both the number and type of errors found to determine root causes and implement corrective actions if necessary.

BENEFITS

The following only relates to PowerMHS and PROCLAIM:

The Benefit Summary contains a listing of the benefits that the client has contracted with Cigna HealthCare to provide. To ensure the quality and completeness of the benefit data within ePro, which is the source of benefit data to the claim engines, an independent team performs a comprehensive audit of Benefit Summary data to ePro data. Any errors identified require remediation, and the ePro data is not released until the case is re-audited after the required changes are made.

When the ePro data is released, the benefit related information is manually loaded into each claim system. To ensure quality of the benefits loaded into each claim system, cases that are either new or renewals with significant benefit changes go through the "Benefit Testing Process." The Benefit Testing Team reconciles benefits in claim engines to ePro source documentation and also performs systematic tests on benefit packages to ensure that claims will pay accurately. This testing is performed in a test environment within the claim engines. Errors identified are required to be remediated. When the testing results show that 100% of claims would pay accurately, the testing is complete and sign-off is received.

The following only relates to FACETS:

The Business Rules Configuration (BRC) team is responsible for the global core configuration of new and updated product features and claims payment rules within FACETS, in support of Business Processing.

The Business Product Configuration (BPC) team is also responsible for group-specific configuration of plan level benefits to formulate a benefit Product component on the FACETS System. This is done by locating and assembling all required product elements or components so that claims process according to the contract. This includes new business, amendments and ongoing support as benefits change. Emphasis is placed on delivering an accurate product within a timely manner.

BPC analysts are responsible for completing initial entry of plan level benefit information as well as changes to such information. Internal policies and procedures regarding plan level benefit coding and timeliness are followed to conduct both processes. New group benefit information as well as user organization-generated benefit changes are coded by the BPC Analysts, based on plan specific benefit information included in the plan's online application or Case Installation Tool (CIT). The Quality Assurance department performs a 100% online, field-by-field audit of each new group and complex amendment. Complex amendments are changes to existing groups that are extensive, with significant updates to the design of the build, including changes to the service payment rules. As with the analysts, the auditors use the plan's signed benefit documents in the online application or CIT as the source document for conducting the audit. Any benefit coding update that modifies a service payment rule is considered complex. Non-complex changes, or simple amendments, include updates to Broker information, telephone number updates, address changes, benefit summary description updates and other administrative adjustment that does not alter claim payment coding. Audits of a sample of approximately 10% of simple amendments processed in a month are also performed to verify the amendment should not have been subject to the field- by-field audit, indicating the amendment was complex, not simple. Those amendments identified as having been incorrectly processed as simple amendments are sent back for the full, field-by-field audit.

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

The following only relates to Dentacom:

Benefit information is loaded manually into Dentacom. 108/109 reports identify any discrepancies with the manual loads. They are reviewed daily by staff to ensure updates generate successfully.

To ensure the quality and completeness of dental benefit information loaded into the Dentacom system for claim payment, an independent team performs a Benefit Load Audit in accordance with the procedures documented within the department. All new accounts and a randomized sample of existing accounts are subject to the audit. These accounts are tracked in a database and require a Dental Audit sign-off for tracking completeness of the account installation. The database is monitored daily to ensure these accounts are received for audit. Dental auditors compare benefits loaded in Dentacom to ePro. Any disjoints identified are entered into the Quality Assurance database and forwarded to the Dentacom analysts for review and correction until 100% accuracy is obtained. Checks are performed to ensure corrections are accurately processed.

Functional Area: Case Installation – Eligibility Enrollment and Updating

The following is applicable to PowerMHS, PROCLAIM, and Dentacom:

GENERAL

Eligibility is part of the Case Installation process and is led by Cigna HealthCare's Production Services' Process Owner. The client decides the eligibility criteria (manual, automated, or self-loading) at the time of sale or renewal and provides Cigna HealthCare with a list of eligible insureds through submission of a manual form, by automated information (i.e., electronic data interchange) or updates via the web. The client initiates updates to their insured and dependents' files. These updates generally result from changes in family status, terminations, or new hires. Eligibility information is maintained in Cigna HealthCare's Central Eligibility Database (CED).

LOADING OF MANUAL ELIGIBILITY

Cigna HealthCare's manual enrollment processing is performed by a subservice organization. Cigna HealthCare's clients directly send the manual enrollments and updates to the vendor for processing. Upon receipt, the forms are imaged, indexed, keyed, and quality reviewed by vendor personnel. Forms sent to the vendor are monitored by Cigna HealthCare's Eligibility Management. Reports on turnaround time and quality are reviewed by management on a weekly and monthly basis. Electronic notification is given to the appropriate Eligibility Account Specialist on documents containing missing information for updating or outreach to the client. Eligibility Account Specialists advise the vendor of correctable errors and request clients to provide clarification for items that cannot be corrected with existing information.

LOADING OF AUTOMATED ELIGIBILITY

Clients send electronic files to Cigna HealthCare where they are logged and tracked throughout the eligibility update process. Cigna HealthCare accesses the client's eligibility table to initiate the update process in a test mode. An edit cycle in the test mode highlights potential problems such as a significant number of records failing to properly update. After the results of the test are reviewed and approved, the actual update is initiated. Output is reviewed the following day by the subservice organization. The subservice organization manually re-inputs correctable errors and requests the client to provide clarification for items that cannot be corrected with existing information. Reports on turnaround time and quality are reviewed by management on a weekly and monthly basis.

THE WELLNESS DASHBOARD – ELIGIBILITY FALLOUT

After structure is loaded into CDB, CDB interfaces four times daily with CED via the iBus application. After eligibility information is loaded into CED, CED interfaces four times daily with the claim engines via the iBus application. The iBus application is a mechanism for transferring data from one system to another. There are three types of fallout generated from these interfaces: CDB to CED, CED to iBus,

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

and iBus to claim engines. All fallout is captured on the Wellness Dashboard and is monitored and resolved by the Eligibility Account Specialists within Production Services.

The following is applicable to FACETS:

GENERAL

Eligibility data entry is performed by Eligibility Specialists, Electronic File Submissions and by Cigna HealthCare's user organizations. Additionally, many clients submit eligibility data files, which are electronically loaded. Audits are conducted by the Quality Assurance department and are as follows: approximately 70% of updates (i.e., demographic information) across the Eligibility Specialists are audited monthly; 100% of new group and amendments are audited. All errors, except requests received for changes, adds, terminations, etc. after the new group has been loaded or open enrollment has closed (manual), are corrected prior to release of data into the FACETS claims system. Manual errors are corrected after release of data into the FACETS claims system.

Eligibility Specialists have the ability to enter data directly into FACETS or via Client Resource Portal. Security access for updates is controlled in FACETS by security profiles. Eligibility Specialists review information for completeness and accuracy by confirming that critical data fields have been provided on enrollment forms.

User organizations also have the ability to load and update eligibility data via the Client Resource Portal (CRP). Any data that cannot be loaded from the CRP into FACETS causes a failed back end Kick Out Report to be generated on a daily basis. Kick Out Reports are resolved on a daily basis and a 5% audit of that work is audited by the Eligibility Audit Team.

Cigna HealthCare Monitors Subservice Organization Accuracy and Timeliness of Input of Eligibility Data: Manual enrollment forms and employer provided customer files sent to the subservice organization for processing are monitored by Cigna HealthCare's eligibility management. Reports on quality and turnaround time are distributed to management on a weekly and monthly basis. Management submits an action plan if monthly results are below standard.

CLIENT RESOURCE PORTAL (CRP)

Cigna HealthCare provides user organizations with access to an internet-based tool called CRP, which allows plan administrators and their brokers the ability to manage employee benefits online for eligibility within FACETS. The eligibility section for CRP is available online, except during routine updates scheduled daily from 8 pm to 3 am MST and every other Saturday.

OTHER CRP FUNCTIONALITY

Other functionality includes:

- Viewing and downloading the current and prior Summary Plan Descriptions and Benefit Summaries.
- Creating and downloading Custom Provider Directories.
- Ordering replacement ID cards.

CRP ACCESS

A user organization interested in using CRP submits a request to Plan Services that is input into the Case Installation Tool (CIT), or a written request is submitted to the Security Administration team. Users requesting access must have signed and submitted the HIPAA documentation, including a signed Privacy Agreement. The CRP Support Team completes a checklist of administrative tasks for each user organization. After loading the user organization information, the CRP Support Team sends the user an e-mail stating that the user ID and password have been established. Also, a secure email is sent to the user with the user ID and temporary password. Upon initial login, the user is prompted and required to change their password. Each user is required to have his/her own ID and password. User organizations only have access to their specific policy information.

CRP security is controlled via the Secure Administrator security database that is authenticated back to CRP. User organizations may opt to allow their brokers to have access to CRP in order for brokers to facilitate plan management or eligibility management

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

activities. Brokers are provided access to cases for which they are the active Broker of Record. The HIPAA documents must be in place prior to granting access. The same ID and password process described above is followed for brokers. Internal employee access is granted to CRP as required by job function; areas such as Plan Services, Sales and Underwriting require CRP access in order to manage user organization accounts. A unique user ID and password is required for access.

User organizations, brokers and employees can reset a forgotten password by contacting the CRP Helpline. The CRP Helpline Service Representative authenticates the user and resets his/her password. The CRP Support team audits 5% of incoming calls, which are tracked in a call tracking system, to help ensure that requests for password reset are for valid and active users. Password and security requirements are enforced centrally within the CRP application, including configuration to monitor for external users (user organizations, vendors, and brokers) who have not actively logged into their CRP account in the past 90 days for automated disablement.

The CRP Support Team receives a weekly report from the HR system indicating internal personnel who have terminated employment. This report is acted upon weekly, and employee access is removed for terminated employees. External user CRP access is revoked either through the 90-day automatic disablement process, or from notification of the user organization of necessary access removal to Plan Services that is input into the Case Installation Tool (CIT), or a written request is submitted to the Security Administration team.

ANNUAL VERIFICATION OF CONTINUED ACCESS TO THE CLIENT RESOURCE PORTAL (CRP)

On an annual basis, the CRP Support Unit receives, from the CRP IT Team, a list of Cigna employees with active CRP access. The CRP Support Unit requests that managers with direct reports who have access to the Client Resource Portal application provide written verification that the employee(s) still requires access to CRP. The CRP support team disables access to CRP for any user whose continued access is not verified by his/her manager. After disabling CRP access for employees who no longer require the CRP application, the CRP Support Unit requests, from the CRP IT Team, an updated list of Cigna employees with active CRP access. The new list is reviewed to ensure that all employees whose access was disabled are no longer reflected as active CRP users.

Functional Area: Claim – Provider Data Loading

The following only relates to Medical Provider Facility/Ancillary and Practitioner/ Association Contracts:

MEDICAL PROVIDER CONTRACTING

Provider contracting is led by Cigna HealthCare's Provider Process Owner and supported by a Network Management team that develops contracting policy and standards and contract templates. Contracting personnel located within the various market sites are responsible for hospital/ancillary and physician contract negotiations. Contracts must be negotiated and built in compliance with Cigna's contracting policies and standards using contract templates as established by Network Management. In order to ensure compliance, Cigna utilizes an electronic contract management system, Emptoris. The contracting policies and standards are built into Emptoris, and changes made to standard templates during negotiations generate review and approval processes requiring contract review by Contract Management staff. In addition, new or renewal medical provider contracts meeting defined medical spend thresholds require planning and review by Contracting Management prior to contract proposal presentation to the provider in order to ensure that they are established in accordance with Cigna HealthCare financial standards.

MEDICAL PROVIDER DATA PROCESSING

Provider data processing refers to the loading of signed contract/agreement terms into Cigna HealthCare systems to support claim payment accuracy. Provider data processing is performed by Network Operations and a subservice organization. Network Operations monitors provider data processing metrics to help ensure adherence to Cigna HealthCare processing standards.

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

Tracking tools are utilized to track and identify the stage/status for facility/ancillary and practitioner/association contract loading. Network Operations monitors provider data processing metrics on a weekly, and monthly basis to prioritize work and promote adherence to Cigna HealthCare processing guidelines related to timeliness.

There are three major systems where medical provider data is loaded: Central Provider File (CPF), Fee Schedule System (FSS) and the Stand Alone Network Pricer (SANP).

- CPF is the primary source of provider data for Cigna HealthCare. It houses provider demographics, networks, credentialing, and provider directory information. It is the primary source of provider demographic, network, and contract line data for PowerMHS, PROCLAIM and FACETS.
- FSS is the single source of reimbursement data for PowerMHS and PROCLAIM. It is the database which provides an electronic medium to load practitioner fee schedules to all claim engines and facility/ancillary schedules to PowerMHS and PROCLAIM.
- SANP is the single source of reimbursement data for FACETS. It is the application used to create and maintain facility/ancillary fee schedules and pricing rate sheets. In addition, SANP rate sheets are used for pricing some Inpatient and Outpatient Proclaim and PowerMHS claims submitted on UB. These claims are priced using SANP rate sheets but administered in the Proclaim and PowerMHS claim systems.

To ensure quality of the Practitioner/Association demographic data loaded into CPF, an independent team audits a selection of Practitioner/Association demographic records for accuracy (also known as Process Health Audit). The procedures for the audit are documented within the department's policy & procedures. The main purpose of the Quality Audit (QA) is to monitor accuracy of data set-up and validate that the transaction meets expected outcome. The results of the independent audit are reported to Operations management for purposes of identifying issues and implementing required corrective actions.

To ensure the quality of the Practitioner/Association fee schedule data loaded into FSS, an independent team performs quality audits. The procedures for the audit are documented within the department. Practitioner/Association loads are sent through audit after fee schedule data is loaded. Errors noted during the inspections are required to be fixed, and root cause analysis of the reason for the errors is noted and monitored with corrective action implemented if needed.

To ensure quality of the Facility/Ancillary data loaded, an independent team performs several quality audits. The procedures for these audits are documented within the department's policy & procedures web site. Audits are performed for a selection of fee schedule and demographic data. Errors noted during the audits are required to be fixed, and root cause analysis of the reason for the errors is noted and monitored with corrective action implemented if needed.

Within the FACETS claim system, changes to provider data are made daily via an automatic feed process called Repeatable Conversion. Provider to FACETS Integration (XPF) failures are caused when data does not successfully flow into the FACETS file layout. XPF failures are tracked and reports are created and sent to the FACETS Informatica Group and Provider Data Management (PDM) department. The PDM department is responsible for correcting errors. All updates to provider data are applied to the CPF system by Contract Implementation. Updates are then migrated to the FACETS system via the Repeatable Conversion process described above.

To ensure individuals with the authority to pay claims do not have the authority to update and change provider information, payment authority has been removed from all profiles that have provider update access and claim payment access.

An independent team has responsibility for post implementation audits of the data setup/entry process for provider and facility contracts. The key goals of the processes are:

- Facilitating actionable root cause analysis of provider error trends and sharing information with Network Operations and Senior Management
- Providing matrix partners with information

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

(audit data, root cause analysis, etc.) that will identify specific areas of opportunity to improve service quality

- Recommending specific actions to mitigate risks and improve service quality to Service Operations Leaders, Network Operations Leaders, and HealthCare Senior Management.

The following relates only to Dental Provider Facility/ Ancillary Contracts:

DENTAL PROVIDER CONTRACTING

Dental provider contracting is performed by Cigna HealthCare Dental's Network Management area. Cigna HealthCare Dental's provider contracts/agreements are established with individual providers. Contracting personnel located within the various market sites are responsible for contract negotiation and preparation of all necessary documentation required for provider data processing. Contracts are prepared in compliance with contracting standards and policies established by the Network Management area.

DENTAL PROVIDER DATA PROCESSING

Provider data processing refers to the loading of dental contract terms and demographic data into the Webster system to support claim payment accuracy. Webster is the single source of reimbursement data for Dentacom. An automated tool is used to upload dental fee schedule amounts. The use of the automated tool eliminates the risk of manual errors when loading new or updated fee schedule information.

The Credentialing Unit enters provider data into Webster. Tracking tools are utilized to track and identify the stage/status of dental provider contract loading. Network Management and Credentialing monitor provider data processing on a daily, weekly, and monthly basis to prioritize work and promote adherence to Cigna HealthCare Dental guidelines. To ensure the accuracy of the provider data loaded into Webster, a Quality Assurance Analyst performs a review of new (or modified) contracts for completeness and accuracy. Results are captured in an error tracking database and reported for correction and the development of quality improvement opportunities.

Functional Area: Claim – Payment

The following is applicable to PowerMHS, PROCLAIM, FACETS and Dentacom:

The HealthCare Claim Organization reports to the Production Services Senior Director. The Call Center organization reports to the Call Center Senior Director. Each of Cigna HealthCare's field service centers includes both claim and call operations. The centers are managed by a Claim Director who reports to the Core Claims Senior Director and a Call Director who reports to the Call Center Senior Director. Each center is divided into National and Regional business teams made up of Claim and Call Service Managers and, respectively, Claim Processors and Customer Service Associates.

Once a provider renders services to a customer, the provider submits a claim via an industry-standard universal billing form either manually or electronically.

Claim Intake:

On a weekly basis, a trend analysis is created and sent to management. This analysis identifies acceptance and rejection rates of claims by date outside of normal activity from the Claim Intake Gateway. In the case of an abnormal acceptance or rejection rate, a root cause analysis is performed and presented to management. The analysis and remediation activity (if applicable) is stored for later review. The Controls and balancing report summarizes the flow of claims from the trading partner to the claims systems. Weekly, the report is reviewed for balancing issues between the Claim Intake Gateway and Claim Engines greater than 10 claims after 72 hours. When balancing issues are identified, a ticket is created and maintained until the ticket is closed indicating remediation. Claim systems reviewed in this report are Dentacom, PMHS, Facets, and Proclaim.

AUTO AND MANUAL ADJUDICATION

Auto-adjudication is a process by which the claim systems automatically calculate benefits and finalize claim payment based on pre-defined criteria and internal system logic using contract rates or other appropriate rates determined by a subservice organization. If a claim does not auto-adjudicate, it is pended to be processed manually. Approximately 74% of PowerMHS, 78% of PROCLAIM, 82% of FACETS and 81% of Dentacom claims are auto-adjudicated.

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

Claims that are not auto-adjudicated are routed to claim processors by Cigna HealthCare's workflow application system that electronically tracks and routes information pertaining to pended claims and correspondence. The application provides electronic notification and access to the image of the paper claim and related correspondence if applicable. Claim processors can not process claims above preauthorized limits. Claims are routed to processors with the proper authority for review. Claim processors enter the claim number into the system, and the claim information automatically populates the appropriate fields. The processor determines why the claim could not be auto-adjudicated, validates and resolves the pended claim code(s), and adjudicates the claim or requests necessary additional information. In addition to its own claim processors, Cigna HealthCare uses two subservice organizations which process claims on Cigna HealthCare's systems. The organizations' processors are subject to the same quality standards as Cigna HealthCare's own claim processors. These subservice organizations apply the same processing standards, which Cigna Healthcare's own claim processors adhere to, related to the completeness and accuracy of claims processing, timely processing of outstanding claims and restricted access to claim systems.

MONITORING OF CLAIM INVENTORY

The inventory of claims received but unprocessed or in pended status is reviewed by management on a daily, weekly, and monthly basis to prioritize work and promote adherence to Cigna HealthCare's Dental and Medical claim processing standards. Key metrics for compliance to Cigna HealthCare's claim processing timeliness standards are reviewed by various levels of management.

QUALITY AUDIT FOR ADJUDICATED CLAIMS

Cigna HealthCare has several claim audit processes in place to ensure the accuracy of claim payment. These audit processes are performed by an internal independent quality team and are for both autoadjudicated and manual claims.

- **High Dollar Prepayment Reviews**

  (PowerMHS, PROCLAIM and FACETS Manually Adjudicated Claims)

  High dollar prepayment reviews are performed on claims with expected payments in excess of $250 thousand. Management tracks and monitors the completeness, timeliness and results of these reviews. Process discrepancies noted during the review are required to be fixed. Root cause analysis of the reason for the discrepancies is noted for towards corrective action if needed. Claims exceeding a payment threshold of $250 thousand are processed by experienced, dedicated Claim Processors and are formally reviewed and approved by a panel of experts from various business areas of the organization prior to release.

- **FACETS Focused Audit**

  It is necessary for FACETS claim processors to load a provider in FACETS in order to process a claim that issues payment to the customer. In order to ensure that appropriate oversight exists for these payments, Cigna Healthcare management performs a monthly focused audit to verify that claims $5,000 or greater paid to a customer were processed appropriately, in accordance with guidelines and processes. Errors identified from the audit are corrected. Procedural errors are communicated to the claim processor for quality assurance purposes.

- **An Independent Quality Team Performs a Process Wide Audit to Determine Claim Payment Accuracy**

  (PowerMHS, PROCLAIM and FACETS Manually & Auto-Adjudicated Claims)

  Continually, the QA team performs claim audits using a statistically valid sample to monitor claim payment accuracy and timeliness of claim related processes. These reviews provide a processwide assessment of the organization's ability to accurately process claims. The results of this control activity provide management with information to diagnose problems, prioritize corrective actions, and implement changes to improve the overall quality of the corresponding claim processing operations.

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

- **An Independent Quality Team Performs an Audit to Determine Claim Accuracy (Dentacom)**

  An independent quality audit team performs claims audits using a random-stratified sample of claims processed on the Dentacom platform to determine office-level claims payment accuracy.

Segregation of Duties

User access between the Claim, Provider and Eligibility functions is monitored to ensure that users do not maintain conflicting access rights that may represent a Segregation of Duties risk. On a monthly basis, user access for Proclaim, Dentacom, PMHS, CED, CPF, Facets, and Webster (Dentacom Provider) applications are automatically assessed against pre-defined Segregation of Duties rule sets to evaluate if user access conflicts exist. Relevant Segregation of Duties rule sets include, but are not limited to:

- Claim Payment vs. Eligibility Maintenance
- Claim Payment vs. Provider Maintenance

Identified conflicts are tracked through resolution via user access modifications/deletions to eliminate conflict or through an approved exception.

Management performs a claim payment and eligibility/provider activity review every 45 days to ensure that individuals are not making eligibility or provider updates and subsequently making inappropriate payments for the same customers or providers. Claim processors also do not have access to the checks issued for claim payments. Claim checks are produced in and distributed from a central location that is separate from the claim field office.

Fraud Investigation

Cigna HealthCare actively educates customers, providers, and the public on how health care fraud can raise the cost of health care benefits for everyone. Cigna HealthCare's Internal Audit Department Special Investigations Unit (SIU) is responsible for minimizing Cigna HealthCare's risk to health care fraud. SIU partners with Cigna HealthCare's Service Operations (claim centers) and others to help identify suspicious claims, stop payments to fraudulent providers, and punish wrongdoers. SIU also works with state and federal law enforcement and regulatory agencies and other insurance companies to detect, prevent, and prosecute health care fraud. SIU includes trained professionals with expertise in investigations, health care, nursing, law enforcement, and accounting. Cigna HealthCare seeks the support of customers, providers, and the general public to limit health care fraud. SIU administers a HealthCare fraud awareness program. This program consists of:

- Ongoing communication between the SIU and Service Operations
- Annual required fraud training for key HealthCare personnel
- On-line fraud job aids
- Fraud prevention and detection procedures manual
- Fraud hotline (toll free number and email) that can be used by Cigna HealthCare employees
- External reference on Cigna.com to the fraud hotline for the general public to report potential fraud.

Functional Area: Claim – Capitation

The following is applicable to PowerMHS Only:

Capitation is a reimbursement arrangement in which providers are paid a contracted rate per customer for an agreed upon population of membership. Based on the rate, providers are required to furnish whatever care is required for the population regardless of cost. Capitated arrangements put the providers at risk in terms of managing care. Capitation payments are processed on PowerMHS only. Capitation is led by Cigna HealthCare's Capitation Unit within Network Operations.

Capitation information is loaded directly into the capitation module of PowerMHS. Access to this module is limited to the Capitation Unit and is covered by Cigna HealthCare Role Based Access Controls (RBAC).

The key functions performed by the Capitation Unit are:

- **Provider Rate Loading and Updating:** Upon notification from the Provider Contracting Unit, the Capitation Unit manually loads provider capitation rates into the Capitation module of PowerMHS.

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

- **Benefit Loading and Updating:** The Capitation Unit is responsible for updating benefit package information in the Capitation module of PowerMHS resulting from the addition of new benefit packages or updates to existing benefit packages.
- **Capitation Payment Processing:** This is a production process executed in PowerMHS that calculates and feeds capitation payment information to the Banking Unit for ASO client check processing. The key controls that ensure information used to calculate capitation charges is complete and accurate are:
  - Rates are provided to the Capitation Unit by the Provider Contracting Unit and are not loaded until proper authorization is obtained. Authorization is obtained from either the Regional Contracting Manager for existing contracts or by the execution of a new contract for new rate loads or changes not covered by a previous contract. Capitation rate loads are validated by the Capitation Setup Team. Capitation rate loads are monitored by Capitation Management.
  - Capitation monthly payment processing is systematically generated. Output is then reviewed, balanced, and authorized for release by Capitation Unit Management.
  - Capitation payments are subject to selection for the process-wide audit to determine claim payment accuracy.

Functional Area: Financial Services – Banking

The following is applicable to PowerMHS, PROCLAIM, and Dentacom:

Cigna HealthCare's ASO Banking Unit administers banking arrangements for clients in conjunction with two program banks. ASO Banking facilitates the activities between the client and the program bank which enables the client to open a client owned bank account at the program bank. The client may select any bank to fund the program account.

Claim payments are issued, voided, stopped, or refunded through the various claim systems for clients during the claim adjudication process. Each day the claim systems send payments that were issued, voided, stopped or refunded on the previous business day to Cigna HealthCare's Issuance and Repository Processing System (CHIRPS). Also, the Individual Stop Loss System feeds refund information to CHIRPS three times a week. CHIRPS extracts data from these files and creates separate files for each program bank containing the issuance, void, and stop information. On a daily basis, files are transmitted to the program banks containing date, dollar amount, and the serial number of checks or Electronic Funds Transfer (EFTs) issued as well as a client-exclusive Cigna HealthCare account number which is also associated with the client's bank account number at the program bank. When checks are cashed and presented to the program bank, they are paid through a central disbursement account. The client's bank account is charged only when the paid check information matches the program bank's information in the listing of issued checks. EFT transaction information, which includes date, dollar amount, and the client's Cigna HealthCare account number, is transmitted to the program bank in accordance with a pre-established transmission schedule. The client's bank account is debited for the EFT transactions based upon association of the client's Cigna HealthCare account number to the client's bank account number.

The program bank provides information to the client on the total dollar amount of transactions processed (primarily checks, EFT transactions, and capitation) on the client's bank account for a specific period of time. The client makes reimbursements directly to the bank program account for the net dollar amount of the transactions.

Cigna HealthCare requires an initial deposit or imprest balance to ensure adequate funds are on deposit at all times to cover checks cleared for non-same day funded banking arrangements. The imprest balance is determined by the funding arrangement and funding frequency selected by the client and is calculated based on the expected average dollar amount of claim transactions to be processed through the bank account for a specified number of days. It is a noncompensating and non-interest bearing balance. The client is advised of the imprest amount and deposits the money directly into the client bank account at the program bank. On an ongoing basis, the program bank requests funds from the client's local bank or makes funding information electronically available to the client for the aggregate amount of

checks/EFT transactions that cleared during the prior day, week or month. Based on the program bank's request or at the direction of the client, the client's local bank funds the client's program bank account via 1031 Fed Wire or ACH (Automated Clearing House) transfer the same day to immediately restore the account to the imprest balance.

For Minimum Premium clients, the client has a liability to fund the payment of incurred claims up to a predetermined aggregate limit referred to as the "trigger point." The client's accumulated liability, which consists of the trigger point less claims issued plus/minus any adjustments for stopped or reversed checks and refunds, is updated on a regular basis and tracked on a minimum premium worksheet. Cigna HealthCare is responsible for funding claims in excess of the trigger point. The system produces a trigger notice identifying when total paid claims exceed a client's trigger point. The notice is forwarded to the Underwriting area for consideration and approval of trigger funding (reimbursement to the client's account by Cigna HealthCare for amounts in excess of the trigger point). Amounts in excess of the trigger point are the contractual liability of Cigna HealthCare but may be funded by the client if they so choose. Monthly, all minimum premium clients receive from Cigna HealthCare the "Minimum Premium Summary Worksheet." This worksheet details the trigger point, claim activity, and any claims Cigna HealthCare paid in excess of the trigger point as requested by the client.

Monthly, client bank statements are reconciled to ASO Banking Unit records automatically by the system. Reconciling items detected by the system generate a case level fallout report. This report is reviewed by the analyst, and all reconciling items are researched and resolved. Managers or their designees track to ensure that all accounts are reconciled and all issues resolved. Clients are mailed or provided electronic access to the final reconciliation shortly after Cigna HealthCare's receipt of the bank statement.

Claim and Stop Loss Refunds are transferred to clients via the CHIRPS Automated Refund process. Funds are moved by an ACH transfer, wire, or check. An ACH transfer occurs through an automated file, the details of which are reviewed by management. Wire and check transfers require management signatures.

Functional Area: Information Technology

GENERAL INFORMATION TECHNOLOGY ORGANIZATIONAL STRUCTURE

Overview

The IT department is responsible for application development and maintenance, infrastructure delivery, architectural design, program management, computer operations, and information protection. Program reviews and code promotions are managed by Cigna HealthCare. Below is a brief description of the three IT departments which support Cigna HealthCare's business functions.

Technology Solution Group

The applications are managed by three Technology Solution Groups (TSGs) **(IT Management Solutions; Consumer Health Engagement; Specialty Solutions)**. The TSGs are responsible for delivering and supporting applications, including program changes and application development, which empower our business partners and help drive the achievement of Cigna's business goals.

Cigna Information Protection

Cigna Information Protection (CIP) group is responsible for establishing information security controls as well as monitoring compliance. CIP has a centralized security administration department known as Security Operations, which is independent of the technical support and processing services organizations. Access administration and security rule writing for the in-scope applications and CA-ACF/2, iSeries and Windows platforms are performed under the direction of this group to ensure proper implementation.

Cigna HealthCare Data Processing Center

Cigna HealthCare's data center hosts the processing environment for all in-scope applications. The data center processing facilities are supported by the IT operations department.

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

BUSINESS APPLICATION SYSTEMS OVERVIEW

Please see below for each of the in-scope application's corresponding system/business process, operating system and database that each application resides on.

Application	System/Business Process	Operating System	Database
Dentacom	System used for claim payments for Indemnity and PPO dental products, and is used to pay claims for approximately 95% of Cigna HealthCare's dental Indemnity and PPO clients.	Mainframe	DB2
FACETS	System used for integrated benefits administration and Medical and Dental claims processing.	Distributed	Oracle
Proclaim	System used for processing medical and dental Indemnity and PPO claims for both Legacy and End-State accounts.	Mainframe	IMS and DB2
PowerMHS	System used to manage claims for employer groups with employees participating in multi-health plans across the country. This system supports the Commercial HMO products.	Midrange	DB2
Stop Loss System	System used to administer claim payment reimbursements for ISL (Individual Stop Loss) and EPB (Experience Protection Benefit) Stop Loss products.	Mainframe	DB2
CHIRPS	System used to store payments and claim data for Cigna claim system workflow.	Mainframe	DB2
Standalone Network Pricer	System used to administer contract management and pricing for Cigna claim system workflow.	Mainframe	DB2
Fee Schedule System	System used as a single interface for loading provider reimbursement data into all claim systems.	Mainframe	DB2
Central Provider File	System used for Provider data maintenance.	Mainframe	DB2
Central Eligibility Database	System is used for the source of the Eligibility information.	Mainframe	DB2
Webster	System is used to support Cigna Dental's DHMO business, Network Management for the DHMO, Indemnity, DPPO and ancillary products (e.g. DSA – Network leasing), and the Fully Insured Private Label Vision business.	Midrange	Oracle
Client Database	System is used as the book of record for client structure. CDB is a VB 6.0 front end client connected to the mainframe server to access data. The tool is used to maintain the client's product and branch selections.	Mainframe	DB2
HTM (Health Transaction Manager) EDI 5010 Gateway	The system is used to provide the following functionality: Process inbound transactions from external partners; Generate outbound transactions to external partners; Validation of inbound/outbound transmissions and transactions; Transformation to/from EDI and proprietary formats	Distributed	Oracle

Cigna HealthCare's processing applications are Cigna-owned and maintained by Cigna IT organizations working directly with business areas and subservice organizations (i.e., contractors and service providers). FACETS is a Commercial Off the Shelf (COTS) application developed by the TriZetto Corporation. TriZetto owns the code and provides patches, maintenance updates, and upgrades to the code as needed. TriZetto provides warranty and support services for the FACETS application. Furthermore, for any vendor provided code changes, the defined change management process is performed by Cigna Healthcare prior to updating the production instance of the application. Downstream applications and extensions to the FACETS database tables are developed and owned by Cigna HealthCare. The description below applies to Cigna HealthCare's processing applications that are listed in the above grid.

GENERAL IT PROCESSING CONTROLS

Cigna HealthCare has developed and distributed a corporate Information Security Policy (the Policy) to its employees. The Policy outlines the importance of information security and establishes the roles, responsibilities, and accountabilities for managing this valuable asset. The Policy is broken down into sixteen sections. Two major areas of emphasis are:

- **Data Classification**

  Information owners classify their information as public, proprietary, restricted or highly sensitive. Access to and use of Cigna HealthCare processing environments is restricted to appropriately identified, validated and authorized persons on a need-to-know basis.

- **Software Security**

  Only software and applications that are Cigna HealthCare developed or obtained from management approved sources are permitted in the Cigna HealthCare processing environments. Use of illegal copies of licensed software is strictly prohibited.

SECURITY ACCESS CONTROLS

Cigna HealthCare evaluates its security administration processes on an ongoing basis. Cigna HealthCare has implemented a number of controls that will help information owners and managers more effectively manage and enforce information security policies. Cigna HealthCare has developed consistent corporate-wide procedures for the division security administrators.

- **Role Based Access Control**

  Cigna HealthCare is committed to maintaining proper security to safeguard its clients' information and protect sensitive information. Access to information is granted through the Role Based Access Control (RBAC) process. RBAC has been designed to control the access an individual staff member has to Cigna HealthCare's information systems based on the functions the staff member performs in his or her job.

  All RBAC requests utilize Cigna HealthCare's internal Access Management System which provides a single entry point for requesting, adding or deleting access.

  RBAC roles are defined by the business to meet business requirements and have a Primary and Backup Business Role Owner.

  Applications are linked to RBAC roles which are pre-approved by the Role Owner and Application Owner. Application Teams specify any special instructions required. The Access Management System routes RBAC role requests to the appropriate application teams through the problem management system and ensures manager approval is obtained and retained. RBAC roles provide:

  — Operating system access

  — Application level access

  — Email account (primary mailbox)

  — Global group membership for the network.

  For all in-scope applications, access is definable to different job functions (e.g., claim payment) and to the activities that can be performed (e.g., add and change data, or inquiry only). Guidelines exist to address standard setup issues and to define what constitutes a security violation. In addition, there are standardized draft authority guidelines for claim paying personnel.

  Claim handling subservice organizations perform their functions on Cigna-owned and configured hardware/software. There is no dial up access or remote access for these subcontractors; any logon to perform their function can only be done through a dedicated domain within Cigna HealthCare's network.

- **Provisioning Access**

  For all systems, requests for access to all RBAC roles may be submitted by any employee or contractor via the Access Management System. Upon receiving the request for access, the Access Management System will automatically route a request ticket to the Cigna manager of the employee or contractor who access is being requested for. The manager is responsible for reviewing the access requested and ensuring that it is in-line with that employee's or contractor's job responsibilities. Once the manager has confirmed that the access requested is appropriate, they will note their approval within the Access Management

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

ticket. Upon manager approval, the Access Management system will send requests to all relevant system administrators with instructions detailing access to be provisioned. The system administrators will then provision access per the instructions received.

For the Facets application, access can also be requested by any employee or contractor via a request through the CSC Online Help Desk system. The CSC Online Help Desk system will then route the request to the Facets application access administrator. The administrator will then identify the manager of the user who access is being requested for and obtain email approval from that manager. Upon receipt of manager approval, the administrator will provision access within the system.

For the SANP application, access can also be requested by any employee or contractor via a request through the CSC Online Help Desk system. The CSC Online Help Desk system will then route the request to the SANP application access administrator. If read-only access is requested, access will be provisioned by the administrator. If update access is requested, the administrator will then identify the manager of the user who access is being requested for and obtain email approval from that manager. Upon receipt of manager approval, the administrator will provision update access within the system.

For the CED application, access can also be requested by any employee or contractor via a request through the CSC Online Help Desk system. The CSC Online Help Desk system will then route the request to the CED application access administrator. The administrator will then identify the manager of the user who access is being requested for and obtain email approval from that manager. Upon receipt of manager approval, the administrator will provision access within the system.

For the CPF application, access can also be requested by any employee or contractor via a request through the CSC Online Help Desk system. The CSC Online Help Desk system will then route the request to the CPF application access administrator. The administrator will then identify the manager of the user who access is being requested for and obtain email approval from that manager. Upon receipt of manager approval, the administrator will provision access within the system.

- **Termination of Access**

  For the Dentacom, Facets, Proclaim, PowerMHS, Stop Loss System, CHIRPS, Stand Alone Network Pricer, Fee Schedule System, Central Provider File, Central Eligibility Database, Client Database, and HTM EDI 5010 Gateway applications, employee termination information from HR and contractor termination information from PIN is fed into the IBM Tivoli Identify Management tool daily to automatically disable network accounts for terminated users. Additionally, termination information is fed to the Access Management tool on a daily basis. 15 days after the employee or contractor termination date, the Access Management tool will automatically revoke access to applications.

  For the Webster application, employee termination information from HR and contractor termination information from PIN is fed into the IBM Tivoli Identify Management tool daily to automatically disable network accounts for terminated users. Additionally, termination information is fed to the Access Management tool on a daily basis. 15 days after termination notifications are sent to the application administration team to remove the associated platform, application and database access in a timely manner past the termination or expiration date.

- **Transfers**

  Effective 12/20/2014, following a transfer or change in job responsibility, the new employee's manager will receive an automated email instructing them to recertify the employee's current system access. The employee's manager will then review the employee's access and approve the current access or request modifications to that access. If the manager does not perform the review within 5 business days of the employee's transfer, the employee's access will be reset to the basic role.

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

Access Reviews

Managers of all in-scope applications utilize the Access Management System tool to perform semi-annual user access reviews for their application to help ensure user access levels remain appropriate based on job functions. This review ensures the user's role or sub-role provides the appropriate access to applications. Any role or sub-role removal highlighted through these certifications will result in the submission of an Access Management removal request by CIP Access Management and Governance. In addition to the review of user access at the application level, for all in-scope applications with the exception of Webster, users with the ability to request and implement batch schedule changes are also reviewed as part of the semi-annual review within the access management system. For the Webster application, a review of users with the ability to request and implement batch schedule changes is reviewed quarterly for appropriateness

Powerful IDs

F$recall is a utility which provides expanded rights to authorized users, allowing them to troubleshoot and correct data problems in the mainframe environment. The F$recall utility is used by exception only for mainframe applications. Access to F$recall is supported by CIP and is granted through the standard request process. CIP provides a monthly report to all managers whose staff have used F$recall. Each manager must provide sign-off that the activity performed while using the tool was appropriate. Management failure to review the monthly usage report and provide sign-off to CIP will result in removal of the user's F$recall access.

Use of the QSECOFR and TECHADV ID's (which are generic privileged ID's) are used to troubleshoot and correct any identified data problems, promote code as necessary through the test environments, and build test environments as needed. The access and intended use of the ID are recorded. Anomalies are reviewed by a resource independent of the function in a timely manner. Exceptions are immediately escalated to management for follow up and resolution.

Expanded Rights

CIP requires management to validate user access to expanded privileges on the midrange and mainframe platforms on a quarterly basis (with the exception of Webster), while also requiring management to review user access to expanded privileges on the distributed platform on a semi-annual basis. For all applications with the exception of PowerMHS, users and their database privileges for "modification access" are reviewed to validate that the user privileges are appropriate and limited to authorized personnel. For all applications with the exception of Webster and HTM 5010 Gateway, user database accounts with expanded rights and logged activity is reviewed to validate for any unauthorized activity, and ensure any exceptions to usage were investigated accordingly.

Passwords

CA-ACF/2 (Mainframe) enforces passwords to be eight characters in length, including a numeric value, and changed every 30-60 days for privileged levels and 90 days for general users. CA-ACF/2 will terminate a user session after three invalid attempts and suspend user IDs after five invalid attempts. The system also maintains a history of the last six passwords used. Passwords are masked during the signon process.

iSeries (Midrange) enforces passwords to be six to eight characters in length and changed every 60 days. Privileged accounts assigned to Systems personnel have their iSeries passwords set to expire every 60 days, whereas the Customer Support Center (CSC) accounts are set to expire every 90 days. iSeries maintains a history of the last six passwords used. Passwords are masked during the signon process.

Windows (Distributed) enforces passwords to be eight characters in length and changed every 90 days. Windows suspends user IDs after five invalid attempts and maintains password history of the last six passwords used. Passwords are masked during the signon process. Prior to accessing FACETS, users must sign on to the Citrix server with their Cigna LAN ID and password. For PowerMHS HTM Gateway and

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

Webster applications, passwords are configured in where minimum password length is 8 characters, complexity is enabled, user IDs after suspended after five invalid attempts, and passwords are changed every 90 days. If password configurations are not in-line with the above, an approved CIP exception and (RP) Remediation Plan is required and registered.

CENTRALIZED APPLICATION DEVELOPMENT AND MAINTENANCE CONTROLS

Cigna HealthCare's processing applications' functionality is based upon specified business requirements.

Cigna HealthCare utilizes separate test and production libraries and restricts access to the production libraries. The ability to access the system in order to update the production libraries for approved changes is only available when the Cigna HealthCare data owner grants approval.

Cigna HealthCare has formal procedures for systems development and maintenance. The major steps in developing or revising an application include:

- The request from the business owner is reviewed by the responsible IT manager and assigned to a Project Lead who determines the time frame (Release) in which the application changes can be accommodated.
- The target Release date is communicated to the Business Test Lead who confirms that testing can be accommodated in the time frame.
- The business owner communicates the target date to the Intake team to note in the log for non-blanket project work. The project development and testing then proceeds according to the defined Cigna HealthCare Release Milestones.
- The Project Lead assigns the request to a programmer or analyst who identifies the programs affected by the request and how changes should be made. The assigned programmer secures a test version of the production code, makes the necessary changes, and tests them in the Development Test Environment. After successful testing the code is moved into the appropriate test environment for the business user to perform appropriate Systems and Acceptance Testing procedures.
- After successful Systems and Acceptance Testing, code for "major" Releases (i.e., code changes which may affect other applications) is moved into the Release End-to-End Testing Environment for integrated business user testing from "end to end."
- When the Release End-to-End Testing is successfully accomplished the code is moved into the Production Environment. IT Operations personnel are responsible for code migration from the test environment to production.
- The previous production version of the source code is retained for back-out purposes if needed.
- The level of program testing for each in-scope application change is defined by Cigna HealthCare Integrated Testing standards. Exceptions are approved by the application manager and the business lead.
- The source code for the programming team is stored in a library within the Aldon (iSeries), Endevor (Mainframe), and Harvest (Distributed) tools, with access limited to the programming staff. Once a program has been modified, there is an updated file on tape or audit log that captures all changes made to the program and identifies which programmer made the changes.
- Final approval to migrate code to production is granted by a Change Manager from the Infrastructure Services Group (ISG)-Change Management team. Approval to migrate program code changes in emergency situations are also approved by the ISG-Change Management team.
- Once a program change is approved for production installation, the program is installed into the production environment through the source code move up process by an individual who is independent of the programming function
- The business area and the programming staff are in communication throughout the development process. When the project is complete, the Intake Log is updated to reflect completion.

PHYSICAL ACCESS CONTROLS

Cigna HealthCare business applications are located and processed in Cigna HealthCare's Data Center. The physical security of the Data Center is overseen by 24-hour guards equipped with monitoring

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

devices. Access into and throughout the building is restricted to a limited number of people through a combination of individually issued access badges, individually issued personal identification numbers, and biometric finger print readers. Residents of the Data Center require management approval for entry access through the Permanent Badge Request form. A Short Term Badge Request form is used for short term assignments (no longer than 30 days) which require management approval. Distribution of security badges is controlled by authorized personnel and is also limited to a small number of individuals. Access privileges into the building are reviewed monthly by senior leaders and modifications are made as necessary. The IT Senior Director or Technical Support Director performs a comprehensive monthly review of all individuals with data center access to ensure that access is appropriate and is limited to authorized individuals. Upon notification from Data Center management, any employee no longer needing access, whether through termination or transfer, is removed from the badge system database by authorized security personnel. Visitors are required to sign in at the Security Desk and are escorted into the facility by a Cigna Resident of the Data Center. The Data Center is a fully hardened site and is equipped with fire detection and suppression equipment, access control, security, and environmental monitoring systems as well as an Uninterruptible Power Supply (UPS). The UPS system is an alternative power supply that uses diesel generators.

COMPUTER OPERATIONS CONTROLS

Production processing is standardized and is under the control of automated scheduling/ batch submission products. A separate production control group within IT Operations is responsible for maintaining the automated scheduling/batch submission products.

The Enterprise System Platform (ESP) scheduling tool is used for all in-scope applications with the exception of the Webster application for batch scheduling and monitoring of job completion or failure. ESP requires authorization for access, which follows the standard Access Management System process controlled by RBAC. Access to the ESP job scheduling tool is restricted to appropriate personnel. A review is done semi-annually to ensure user access privileges and use of assigned ID levels is appropriate based on an employee's job function. The UC4 scheduling tool is used for Webster application batch scheduling and monitoring of job completion or failure. Quarterly, a recertification of users with the ability to request and implement batch schedule changes is performed to ensure user access to the UC4 scheduling tool is appropriate.

The submission of production batch processing requests is processed through the Batch Management Request System (BMRS), a web-based tool. BMRS is the intake tool used by Production Control and Operations for requests associated with production batch schedule changes, new production batch schedules, production code move-ups, and run/ execute batch jobs. Logging into the system authenticates each ID through Lightweight Directory Access Protocol (LDAP). Application support technicians are called "Submitters" and are authorized to submit requests. "Batch Workload Managers" in IT Operations are authorized to implement the requests, using the ESP processing tool. Users are assigned to one role and require approval of their access by their Cigna supervisor or manager.

For Webster application, the submission of production batch processing requests is processed through SharePoint by an authorized application submitter. The production batch processing requests are implemented by list of authorized implementers in UC4. If the request is raised by any unauthorized submitter, it is rejected by the approver.

The integrated Incident and Problem Management processes are supported by the Service Manager system. Impairments of service and requests for new service are registered as interactions in the Service Manager system. Outages not resolved at first level are escalated to Incidents for assignment groups to work to restore service as quickly as possible. Root cause analysis for any priority incident can be registered as a Problem and worked until root cause or known error is identified.

The Operating System software implementation and updates are governed by the change management process and require a statement of testing and change management approval prior to production implementation. The ISG-Change Management team approval is required for changes to System Software

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

resources (e.g., configuration file changes) prior to production implementation. Emergency changes are approved by the ISG-Change Management team post implementation.

Software changes that impact Operations follow the standard change management process which requires IT testing, and if needed business testing/review before changes are moved into production. Once moved into production, the development staff hands off the new process to operations staff along with the appropriate documentation and any training needed on how to run the new job.

DATA BACKUP CONTROLS

Backups of Cigna Healthcare applications' production data are scheduled within the production scheduling tools. The primary backup strategy is data replication which occurs through a secured network transport. If portable media is required, it is sent in an unmarked vehicle by trusted bonded carriers.

For Standalone Network Pricer application, tape backups of critical data and programs, as identified by data owners, are performed periodically and in accordance with a defined back-up strategy with the help of TSM and ESP tools.

For Dentacom, Proclaim, Stop Loss System, CHIRPS, Fee Schedule System, ePro, Central Provider File, Central Eligibility Database and Client Database mainframe applications, replication of critical data and programs, as identified by data owners, is performed by SRDFA utility. Devices are configured in VMAX for replicating data between Windsor and Lithia Springs data centers as a batch.

For FACETS, PowerMHS, HTM (Health Transaction Manager) EDI 5010 Gateway and Webster applications, replication of critical data and programs, as identified by data owners, are performed periodically and in accordance with a defined replication strategy by the EMC team with the help of SRDFA tools.

The backup process for either critical information or disaster recovery purposes is completed in accordance with the application/data owner requirements. Data retention periods are determined by the application/data owner. Media storage is secured in the Data Center in a separate, badge accessed room with state-of-the-art fire detection and suppression systems.

Subservice Organizations

Cigna HealthCare uses industry recognized subservice organizations to achieve operating efficiency and to obtain specific expertise. Cigna HealthCare periodically reviews the quality of the subservice organization's performance. Before contracting with a subservice organization, Cigna HealthCare conducts an External Service Provider assessment which includes information security, privacy, and physical security considerations as well as operational process reviews. Physical inspections of vendor locations are performed to ensure rigorous physical and logical controls are in place. Typical site reviews include evaluation of topics such as capacity and performance planning, change management processes, operation level agreements and compliance, functional roles and responsibilities, and business contingency planning. The vendor's Information Security policies are required to be in compliance with Cigna's Information Protection Policy prior to implementation, and follow up visits are performed to ensure proper information protection controls remain in place. In addition, stringent contractual obligations requiring adherence to all applicable U.S. state and federal laws and regulations, with enforcement and termination rights in the event of non-compliance, are included in each vendor agreement. Periodic service level and management meetings are held to ensure obligations are being met.

While the subservice organization controls and related control objectives are not included in this report, Cigna HealthCare periodically performs quality audits on these subservice organizations. Reports on quality and turnaround time are reviewed by Cigna HealthCare's management.

The following are the principal subservice organization functions used by Cigna HealthCare:

- **Structure and Eligibility Processing:** Cigna HealthCare has contracted with Accenture to provide Customer Eligibility and Employer Group Account Set-Up processing services. Accenture resources reconcile Cigna invoices to Employer Group invoice payment and remittance advice, update customer eligibility changes into Cigna's system, and support the set up and maintenance of client account and benefits specifications in Cigna's systems. Accenture performs these

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

functions in accordance with Cigna standard operating procedures.

- **Manually Submitted Claims:** Cigna HealthCare has contracted with Xerox to transcribe manual claim data and appeals into a standard electronic format. Xerox is responsible for receiving, opening, imaging, indexing, and keying claim and appeal information.
- **Provider Data Loading:** Cigna HealthCare has contracted with Accenture and Cognizant to load and maintain Facility/Ancillary and Practitioner/Association demographic and reimbursement fee schedule linking information. Accenture and Cognizant perform these functions in accordance with Cigna standard operating procedures.
- **Medical Claim Repricing:** Cigna HealthCare has contracted with MultiPlan to determine appropriate prices for some submitted services. The goal of this program is to obtain the best rate for services.
- **Claim Processing:** Cigna HealthCare has contracted with Accenture (PowerMHS, PROCLAIM and FACETS) and Concentrix (PROCLAIM), to provide claim processing services. Accenture and Concentrix resources receive and process claims which were either not able to be auto-adjudicated or received as correspondence from a healthcare professional. Claims are processed according to Cigna standard operating procedures. Application Access Control restrictions are systematically applied to ensure that these contracted processors do not have access to claims for restricted accounts.
- **Banking:** Cigna HealthCare has contracted with two financial institutions, JP Morgan Chase and Citibank, as designated program banks. All clients have the option of using either one of these banks. With respect to services provided by Accenture to Cigna in the US, Accenture and/or its affiliates and/or their personnel are not licensed, certified and/or registered in any jurisdiction as a debt collector, accounting, clinical, medical, insurance or similar professional or professional entity. In jurisdictions where such licensure, certification or registration is required, Accenture does not provide those services for Cigna.

The description in Section IV includes only the controls and control objectives of Cigna HealthCare and excludes the control objectives and controls of subservice organizations stated above. The examination does not extend to controls performed by these subservice organizations.

Complementary User Entity Controls

Cigna HealthCare's processing of health benefits elections over Administrative Services Only and Minimum Premium Plans systems were designed with the assumption that certain controls would be placed in operation by the user entities. In certain situations, the application of specified controls at a user organization is necessary to achieve certain control objectives included in this report. The following complementary user entity control considerations presented should not be regarded as a comprehensive list of all controls that should be employed by user organizations. There may be additional controls that would be appropriate for the processing of user transactions that are not identified in this report. This section describes some of the controls that should be in operation at user entities to complement the controls at Cigna HealthCare. User auditors should determine whether user entities have established controls relating to the following activities:

- Determine which plan provisions are required and notify Cigna HealthCare of the specifics of the selected plan. (Relevant control objective: 1)
- Review binding agreements and notify Cigna HealthCare of any discrepancies before returning the signed agreement. (Relevant control objective: 1)
- Review the Benefit Summary exhibit and notify Cigna HealthCare of any discrepancies. (Relevant control objective: 1)
- Notify, review, and authorize additions or updates to plan provisions on a timely basis. (Relevant control objective: 1)
- Distribute plan and benefit information to employees so they can provide Cigna HealthCare with adequate documentation to process claims accurately, completely, and on a timely basis. (Relevant control objective: 5)
- Provide complete and accurate eligibility information to Cigna HealthCare on a timely basis. (Relevant control objective: 3)

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

- Review all eligibility related communications from Cigna HealthCare and provide required information to resolve all fallout. (Relevant control objective: 3)
- Develop appropriate controls to secure confidential information on a need-to-know basis. (Relevant control objectives: 1, 2, 3, 5, 8, 9, 10, 12 and 14)
- Communicate problems reported by customers to Cigna HealthCare on a timely basis. (Relevant control objectives: 1, 2, 3 and 5)
- Provide and maintain sufficient controls to physically and logically protect system resources used to access Cigna HealthCare systems. (Relevant control objectives: 3, 12, 13 and 14)
- Review banking reconciliation packages sent by Cigna HealthCare containing paid claim, reversal, and voided check data and inform Cigna HealthCare of any discrepancies. (Relevant control objective: 9)
- Review net issued claim data included in the banking reconciliation packages and compare to Advise financial lag reports and notify Cigna HealthCare of any discrepancies in form. (Relevant control objective: 9)
- Review "Minimum Premium Summary Worksheet" (if applicable) that details the trigger point, claim activity, and any claims Cigna paid in excess of the trigger point and inform Cigna HealthCare of any discrepancies. (Relevant control objective: 10)
- Maintain authorized personnel lists, keep them up to date, and communicate changes to Cigna HealthCare. (Relevant control objectives: 1, 2, 3 and 5)
- Review and monitor new client set-ups and account maintenance activity and communicate discrepancies to Cigna HealthCare. (Relevant control objective: 8)
- Monitor and review claim submissions and corresponding payments. (Relevant control objective: 5)

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

CIGNA HEALTHCARE'S CONTROL OBJECTIVES AND RELATED CONTROLS AND INDEPENDENT SERVICE AUDITOR'S TESTS OF CONTROLS AND RESULTS OF TESTS

I. Overview

This report is intended to provide Cigna HealthCare's user organizations and user auditors with information about Cigna HealthCare's description of its Administrative Services Only and Minimum Premium Plans system for processing user entities' health benefits elections, and also to provide the user organizations and user auditors with information about the design and operating effectiveness of the controls that were tested. This report, when combined with an understanding and assessment of the internal controls at user organizations, is intended to assist user auditors in (1) planning the audit of user organizations' financial statements and in (2) assessing control risk for assertions in user organizations' financial statements that may be affected by controls at Cigna HealthCare.

Our testing of Cigna HealthCare's controls was restricted to the control objectives and the related control activities listed in Section IV of this report and was not extended to procedures that may be in effect at user organizations or subservice organizations. If certain complementary user entity controls are not in place at user organizations, Cigna HealthCare's controls may not compensate for the resulting weaknesses.

II. Control Environment Components

The control environment represents the collective effect of various components in establishing and enhancing the effectiveness of specific controls and mitigating identified risks. In addition to testing the design and operating effectiveness of the control activities in Section IV of this report, our review also included tests of and consideration of the relevant components of Cigna HealthCare's control environment pertaining to select claims adjudication activities processed on the PROCLAIM, PMHS, FACETS and/or Dentacom applications that include:

- Cigna HealthCare's organizational structure and segregation of duties;
- Management control methods; and
- Personnel policies and practices.

Our tests of the control environment included the following procedures to the extent we considered necessary to address management's selected claims adjudication assertions:

- Obtaining an understanding of Cigna HealthCare's organizational structure, including the segregation of duties, policy statements and personnel policies.
- Discussions with management, operations, administrative, and other personnel who are responsible for developing/ensuring adherence to, and applying controls.
- Observations of personnel in the performance of their assigned duties.

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

III. Description of Tests of Operating Effectiveness

Use of Internal Audit

a) Cigna Healthcare (CHC) SOC1 Report

Members of internal audit performed tests of controls for the following control objectives:

1. Controls provide reasonable assurance that access to data and programs is limited to properly authorized and appropriate users.
2. Controls provide reasonable assurance that program changes are authorized, tested, and properly implemented and changes to system software resources are authorized, tested and properly implemented.
3. Controls provide reasonable assurance that batch processing is appropriately updated, scheduled, and monitored by authorized personnel, and information is properly backed up and stored off-site.

The tests performed by members of the internal audit included inquiry of relevant parties who performed the control activities, observation of the control being performed at different times during the examination period, and inspection of the documentation for a sample of transactions. No exceptions were noted by members of internal audit. We tested the work of members of internal audit, which included reperformance of internal audit's testing for a sample of control activities, and we also noted no exceptions.

Also included in this section is the following information provided by the service auditor:

- A description of the tests performed by the service auditor to determine whether the service organization's controls were operating with sufficient effectiveness to achieve specific control objectives. The service auditor determined the nature, timing, and extent of the testing performed.
- The results of service auditor's tests of controls are included in this section of the report and are briefly described below:

Tests	Description
Inquiry (Corroboration)	Inquired of appropriate Cigna HealthCare personnel. Inquiries seeking relevant information or representation from Cigna HealthCare personnel were conducted to obtain, among other factors: › Knowledge and additional information regarding the control, policy or procedure; and › Corroborating evidence of the control, policy or procedure. As inquiries were performed for all controls, the test was not listed individually for every control shown in Section IV.
Observation	Observed the application or existence of specific controls as represented.
Inspection/ Examination	Inspected documents and records indicating performance of the control. This may include: › Examination of source documentation and authorizations to verify propriety. › Examination of documents or records for evidence of performance, such as existence of initials or signatures. › Examination of Cigna HealthCare documentation. Additionally, observation and inspection procedures were performed relating to the system generated reports listed below to assess the completeness and accuracy (reliability) of the information utilized in the performance of our testing of the control activities.
Reperformance	Reperformed the control or processing to ensure the accuracy of its operation, including obtaining evidence of the mathematical accuracy and correct processing of transactions by recomputing the application computation.

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

Control Objectives	**Control Activities**	**Testing Performed**	**Results of Tests**
Case Installation – General			
1) Controls provide reasonable assurance that client plan provisions for new and renewal cases, as well as subsequent plan revisions, are properly authorized and set up in a complete, accurate, and timely manner.	1. **Client Validation Meeting:** Cigna HealthCare's policy and procedures require a representative of Cigna HealthCare to have a meeting with the client post sale to validate the case structure and sold benefits. This meeting occurs on new and renewing cases with significant benefit or structure changes. After this meeting, once approved by the client, the plan information is loaded into ePro or Legacy Customer Account Profile (LCAP).	Inspected documentation related to a sample of new and renewing cases to verify that a client validation meeting was held with the client post sale to validate case structure and benefits sold.	No exceptions noted.
	2. **Global Tracking Tool:** Each new and renewing account (with changes) is set up within a tracking tool to be monitored throughout the Case Installation process. The case is monitored within the appropriate tracking tool to ensure required tasks are completed within the predetermined deadline.	Inspected a sample of tracking tool calendars related to new and renewing accounts to verify that required tasks were completed within the predetermined deadline.	No exceptions noted.
	3. **Excluding Dentacom Structure ePro Quality Inspection:** To ensure quality and completeness of the data within ePro, an independent team performs a comprehensive inspection of new and renewing Regional and National accounts. The inspection is performed to standards that are documented within Cigna HealthCare's policy & procedures manual. Management tracks and monitors the completeness, timeliness, and results of these inspections. Errors noted during the inspections are required to be fixed until 100% accuracy is obtained. Errors are monitored with corrective action implemented if necessary.	Inspected a sample of new and renewing Regional and National accounts to ensure an ePro quality inspection was performed and that errors identified during the ePro quality inspection were corrected.	No exceptions noted.

Control Objectives	**Control Activities**	**Testing Performed**	**Results of Tests**
Case Installation – General *(continued)*			
1) Controls provide reasonable assurance that client plan provisions for new and renewal cases, as well as subsequent plan revisions, are properly authorized and set up in a complete, accurate, and timely manner. *(continued)*	4. New FACETS group additions and amendments to plan level benefit master files must be requested and authorized by Plan Services and completed by BPC Analysts. Request and authorization for the change is documented in the plan's completed online application (CIT).	Inspected completed plan applications for a sample of new group and complex amendments to plan level benefit master files to determine that the change was authorized and originated with Plan Services via CIT Summary.	No exceptions noted.
	5. The QA Audit Team performs a field-by-field audit of completed plan set-up information coded within the FACETS system for each new group and complex amendments. Auditors verify plan set-up information coded in the FACETS system against the plan's CIT. Any errors identified require remediation and accounts are re-audited after required changes are made. All errors re-audited must reflect accurate results before the audit is considered complete.	Inspected a sample of completed audit results of the field-by-field audits to determine that plan set-up information coded in the FACETS system reconciled against the plan's CIT and verify the audit was completed timely. For audits that resulted in errors that have a potential impact on claim payments, inspected the error description document to determine that the errors have been communicated to the claims processors and that the identified errors were corrected and resolved.	No exceptions noted.
	6. The QA Audit Team performs a review for a sample of simple amendments to verify the amendment was not subject to a field-by-field audit. Actions are taken to ensure an audit is conducted on any account identified as having been logged incorrectly as a simple amendment.	Inspected a sample of QA Team simple amendments to verify that the audit was complete and any errors identified during the audits that have a potential impact on claim payments were corrected.	No exceptions noted.

Control Objectives	**Control Activities**	**Testing Performed**	**Results of Tests**
Case Installation – Structure and Benefits			
2) Controls provide reasonable assurance that client plan structure for new and renewal cases are authorized, set up completely and accurately on the systems to facilitate the proper payment of claims and the implementation of the proper funding arrangement type.	1. **Structure Quality Audits (QA):** To ensure the quality of the data loaded into CDB (Client Database) by Production Services, an independent team performs a quality audit. The procedures for the QA are documented within the department. New and renewing (with changes to structure) accounts are sent through the Structure QA. The Structure QA compares CDB reports against ePro to ensure that structure is accurate and complete. Errors noted during the inspections are required to be fixed until 100% accuracy is obtained. Errors are monitored with corrective action implemented if necessary.	Inspected a sample of new and renewing accounts to ensure a structure quality audit was performed and that errors identified during the audit were corrected.	No exceptions noted.
	2. **Cigna HealthCare Monitors the Accuracy of Structure Quality Audits (QA) Performed by the Subservice Organization:** To ensure the quality of data loaded into CDB by the subservice organization, Production Services performs a QA on a random sample of accounts on a weekly basis. Reports on the accuracy of Structure Quality Audits performed by the subservice organization are distributed to management monthly. Management submits an action plan if results are below standard.	Inspected a sample of the monthly reports reviewed by management as evidence that statistics regarding the accuracy of Structure Quality Audits completed by the subservice organization are monitored and if results are below standards an action plan is submitted.	No exceptions noted.
	3. **Interface of CDB to Claim Systems:** CDB interfaces nightly with the PowerMHS and Proclaim systems. CDB interfaces nightly with the Dentacom system to feed structure information. Fallout is monitored and resolved.	Inspected a sample of errors from the reports outlining fallout from the CDB to PowerMHS, PROCLAIM, and Dentacom system interfaces as evidence the fallout reports are created and errors were resolved.	No exceptions noted.

CAM #16-0901

Control Objectives	**Control Activities**	**Testing Performed**	**Results of Tests**
Case Installation – Structure and Benefits *(continued)*			
2) Controls provide reasonable assurance that client plan structure for new and renewal cases are authorized, set up completely and accurately on the systems to facilitate the proper payment of claims and the implementation of the proper funding arrangement type. *(continued)*	4. **PowerMHS, PROCLAIM Only:** Test of Benefits: After benefits are loaded into the claim engines, an independent team performs a multi-step quality test. The procedures for the test are documented within the department. Benefit testing is performed on new and renewal accounts with significant plan changes for Regional, National and Select accounts meeting testing criteria. The Benefits Testing Team reconciles benefits in claim engines to source documentation (ePro) and also that claims will pay accurately. This testing is performed in a "testing environment" within the claim engines. Any errors identified require remediation and accounts are retested after required changes are made. The testing must pay 100% of claims accurately before testing is considered complete.	Inspected a sample of new and renewing accounts to verify that benefits testing was performed and errors were identified and corrected before testing was complete.	No exceptions noted.
	5. **Dentacom Only:** Dentacom Benefit Load Audit: To ensure the quality and completeness of dental benefit information loaded into Dentacom for claim payment, an independent team performs a Benefit Load audit in accordance with the procedures documented within the department. All new accounts and a randomized sample of existing accounts are subject to audit. These accounts are tracked in a database and require a Dental Audit sign-off for tracking completeness of the account installation. The database is monitored daily to ensure these accounts are received for audit. Dental auditors compare benefits loaded in Dentacom to ePro. Any disjoints identified are entered into the Quality Assurance database and forwarded to the Dentacom analysts for review and correction until 100% accuracy is obtained. Checks are performed to ensure corrections are accurately processed.	Inspected a sample of Dentacom quality audits as evidence the audits are performed and errors were communicated and resolved.	No exceptions noted.

Case Installation – Structure and Benefits *(continued)*			
2) Controls provide reasonable assurance that client plan structure for new and renewal cases are authorized, set up completely and accurately on the systems to facilitate the proper payment of claims and the implementation of the proper funding arrangement type. *(continued)*	6. **Dentacom Only:** Benefit information is loaded manually into Dentacom. Daily 108/109 reports identify any discrepancies with the manual loading process which are reviewed by staff to ensure updates generate successfully.	Inspected a sample of discrepancies noted on the Dentacom benefit load fallout reports as evidence the the fallout reports are created and errors were resolved.	Exception noted: For 1 of 50 benefit load fallout transactions selected for testing, evidence of resolution was not available.
Case Installation – Eligibility Enrollment and Updating			
3) Controls provide reasonable assurance that eligibility enrollments, updates, and terminations are properly authorized and processed timely and accurately.	1. **Automated Eligibility:** Client Provides Source of Eligibility Data: For client accounts processed by Cigna HealthCare using automated methods, computer tapes, disks, electronic data transmissions (EDT), or electronic data interchange (EDI), the eligibility enrollment information is received from the client or client-contracted third party vendors.	Observed, for a selected account, an Eligibility Account Specialist access the account's history as evidence that eligibility enrollment information is received from the client or client-contracted third party vendor.	No exceptions noted.
	2. **Client Self Loading:** Password Protected Access to Site Used to Self-Load Eligibility Data: Clients who have received appropriate approval input their eligibility changes through Cigna HealthCare's password protected on-line Employee Enrollment and Maintenance Tool.	Observed an Eligibility Account Specialist access the on-line Employee Enrollment and Maintenance Tool and noted evidence that access is password protected.	No exceptions noted.

Case Installation – Eligibility Enrollment and Updating *(continued)*			
3) Controls provide reasonable assurance that eligibility enrollments, updates, and terminations are properly authorized and processed timely and accurately. *(continued)*	3. **Applicable to Manual and Automated Eligibility:** Employer provided customer files sent to the subservice organization for processing are monitored by Cigna HealthCare's Eligibility Management. Reports on quality and turnaround time are distributed to management on a weekly and monthly basis. Management submits an action plan if monthly results are below standard.	Inspected a sample of monthly reports reviewed by management as evidence that statistics regarding the accuracy and timeliness of enrollment changes processed by the subservice organization are monitored and key trends, common errors and action plans are discussed with the subservice organization.	No exceptions noted.
	4. **Manual Eligibility:** Tracking Tool is Used to Monitor Timeliness of Loading Data: Manual enrollment forms sent to Cigna HealthCare for processing are logged in upon receipt and tracked through the process via tracking tool calendars until resolution of any fallout by Cigna HealthCare.	Observed that an automated tool is used to track the timeliness of eligibility loading data.	No exceptions noted.
	5. **Automated Eligibility:** Tracking Tool is Used to Monitor Timeliness of Loading Data: Employer provided customer files sent to Cigna HealthCare for processing are logged in upon receipt, and the data loading process is tracked until resolution of any fallout.	Inspected a sample of employer provided customer files to verify that eligibility data received by Cigna HealthCare was logged in upon receipt and the data loading process was monitored for accuracy and timeliness.	No exceptions noted.
	6. **Automated Eligibility:** Error Report is System Generated for Fallout: An error report is produced identifying insured or dependents that did not properly feed into the system from the client's eligibility file. Cigna HealthCare's Eligibility Account Specialists research the items in the error report and manually re-input correctable errors from the automated file. Any remaining error items are sent back to the client for further research.	Inspected a sample of errors from the fallout reports as evidence that the reports are generated and errors are researched and resolved.	No exceptions noted.

Case Installation – Eligibility Enrollment and Updating *(continued)*			
3) Controls provide reasonable assurance that eligibility enrollments, updates, and terminations are properly authorized and processed timely and accurately. *(continued)*	7. **Automated Eligibility:** Check and Balance: For automated eligibility clients that only submit an add/change file with each automated submission, Cigna HealthCare requires that the client send Cigna HealthCare a full eligibility file if able. Cigna HealthCare runs the full file against CED and will research and communicate any fallout to the client, who is responsible for adjusting the data and re-submitting the file to Cigna HealthCare.	Inspected file upload compare against CED for a sample of clients to determine that complete eligibility information was submitted to Cigna periodically and fallout was researched and communicated to the client.	No exceptions noted.
	8. **Applicable to Manual and Automated Eligibility:** CED Has Edits to Support Accuracy of Data: Eligibility information entered into CED is subject to system edits, such as specific alpha and numeric field edits and incomplete information edits.	Observed an Eligibility Account Specialist input incorrect or incomplete information in alpha and numeric fields to evidence that CED has edits to support the accuracy of the data. Examples of information entered included a customer's coordination of benefits using incomplete alpha characters. For all attempted updates, an error message was displayed and the system would not allow the update.	No exceptions noted.

Control Objectives	**Control Activities**	**Testing Performed**	**Results of Tests**
Case Installation – Eligibility Enrollment and Updating *(continued)*			
3) Controls provide reasonable assurance that eligibility enrollments, updates, and terminations are properly authorized and processed timely and accurately. *(continued)*	9. **Applicable to Manual and Automated Eligibility:** The Wellness Dashboard Monitors Fallout of Eligibility Between CDB and CED and CED and Claim Engines: › The Wellness Dashboard contains the Active in Term Structure report. › The Active w/Term structure report contains who are active in the eligibility system (CED) however the structure (Account/Branch/ Benefit Option/Network) they are loaded in is terminated in CDB. › This report is produced twice per week to ensure client eligibility and structure is consistent and valid Fallout from each interface is reported and monitored in the Wellness Dashboard. Management tracks through aging, investigates fallout, and ensures errors are corrected.	Inspected a sample of error reports posted on the Wellness Dashboard as evidence that the reports were generated. Further, selected a sample of errors listed on the reports and obtained CED system support to determine that the errors were researched and resolved.	No exceptions noted.
	10. Requests for changes to FACETS eligibility data, including enrollments, are authorized by the client and the requests are tracked within OnBase and completed by Eligibility Specialists.	Inspected a sample of eligibility data change requests submitted to Eligibility on behalf of the client to verify that the requests was authorized by the client, tracked in OnBase and completed by the Eligibility Specialist.	No exceptions noted.
	11. Eligibility auditors perform an audit of a sample of eligibility updates. Errors identified are communicated and corrective actions are taken.	Inspected completed audit information for a sample of eligibility update audits to verify that the eligibility Auditor performed a review. For audits that resulted in errors with a potential impact to claim payments, verified that errors have been resolved and corrected.	No exceptions noted.

CAM #16-0901

Control Objectives	**Control Activities**	**Testing Performed**	**Results of Tests**
Case Installation – Eligibility Enrollment and Updating *(continued)*			
3) Controls provide reasonable assurance that eligibility enrollments, updates, and terminations are properly authorized and processed timely and accurately. *(continued)*	12. Eligibility requests are captured in the OnBase ticketing system. OnBase tickets are not closed until the request is resolved. Outstanding eligibility requests are monitored by management to ensure that requests are completed in a timely manner.	Observed and reviewed the existence of OnBase monitoring reports to verify that management monitors outstanding eligibility requests through to timely completion.	No exceptions noted.
	13. Employer provided customer data sent to Cigna HealthCare for processing via the Cigna gateway site and then are transferred to FACETS are processed in a timely manner for any fallout via a kick out report and portal edits.	Observed the existence of the failed back-end tracking report and corresponding resolution ticket for the employer provided customer data that was processing via the portal to verify that the data was tracked through to resolution and that all fallouts have been resolved.	No exceptions noted.
	14. Data Error Reports, resulting from Employer Electronic files uploaded to FACETS, are logged upon receipt in the OnBase ticketing system. Fall-out identified in these reports is processed by the Eligibility team and tracked through resolution.	Observed the existence of data error tracking reports relating to failed Employer Electronic file uploads for two consecutive periods to verify that failures are logged upon receipt, tracked via a fallout error task monitoring report by the Eligibility team, and resolved as evidenced though the fall off from the subsequent reports.	No exceptions noted.
	15. Internal access to the Client Resource Portal (CRP) is restricted to personnel commensurate with job responsibilities. In order for internal employees to gain access to the CRP, each account request is required to have an authorized approval. Managers or User Access Submitter (UAS) are required to give approval for all employees requesting access.	Inspected completed user access request forms for a sample of new internal users added to CRP to determine that appropriate approvals were provided prior to account creation.	No exceptions noted.

Control Objectives	**Control Activities**	**Testing Performed**	**Results of Tests**
Case Installation – Eligibility Enrollment and Updating *(continued)*			
3) Controls provide reasonable assurance that eligibility enrollments, updates, and terminations are properly authorized and processed timely and accurately. *(continued)*	16. Upon receipt of the termination reports, the CRP support teams disable terminated user's access to CRP on a weekly basis.	Inspected a full list of terminated employees against the CRP active user access listing to determine whether terminated employees had retained access to the CRP application after their termination date.	Exception noted: For 12 of 52 weekly termination report reviews selected for testing, the review was completed; however, the report did not include the complete population of terminated users to be reviewed. As a result, 18 terminated users of the full population of 2,993 terminated users (including users that had access to CRP and other applications in and out of the scope of this report) did not have their CRP access disabled.

CAM #16-0901
Exhibit 3

Control Objectives	**Control Activities**	**Testing Performed**	**Results of Tests**
Case Installation – Eligibility Enrollment and Updating *(continued)*			
3) Controls provide reasonable assurance that eligibility enrollments, updates, and terminations are properly authorized and processed timely and accurately. *(continued)*	17. External access to CRP is granted through an active user ID and valid password. Only authorized user organizations (i.e. plan administrators, broker, and vendors) are set up in the CRP. User organizations are required to provide authorization prior to a new organization being set up in CRP as identified in the plan's completed online application (CIT). Access is granted at the group level or a sub-group specific level. Access level can be set for update or reporting.	Inspected the users' access request information for a sample of new external CRP accounts to verify that the access request was appropriately approved prior to account creation.	No exceptions noted.
	18. **Annual verification of continued access to the Client Resource Portal (CRP):** On an annual basis, the CRP Support Unit receives a list of current Cigna employees with active CRP access, and coordinates a recertification of access with managers of each user. The CRP support team disables access to CRP for any user whose continued access is not verified by their manager or the user is terminated and no longer requires access to CRP.	Inspect the annual internal CRP user access review for a sample of instances to verify the reviews were completed in a timely manner by appropriate personnel, including for management follow-ups.	No exceptions noted.

Control Objectives	**Control Activities**	**Testing Performed**	**Results of Tests**
Claim – Provider Data Loading			
4) Controls provide reasonable assurance that provider data additions and updates are properly authorized and setup completely, accurately and timely.	1. **Medical Only:** Largest Provider Contracts Require Review by National Contracting Management: The facilities, deemed A or B as indicated by medical spend per the Levels of Authority Grid, newly effected and renewing facility provider contracts are submitted and reviewed/approved by National Contracting management prior to executing the contracts, in order to ensure that they are established in accordance with Cigna HealthCare contracting standards. Contracts are formally reviewed to determine whether they have been appropriately authorized prior to finalization.	Inspected a sample of new and renewing facility provider contracts deemed A or B to evidence that the contracts were reviewed by National Contracting management to ensure they were established in accordance with Cigna HealthCare contracting standards and had been appropriately authorized prior to finalization.	No exceptions noted.
	2. **Medical Only:** Automated Tracking Tools are Used to Monitor Timeliness of Loading Data: Tracking Tools are utilized to track and identify the stage/status for facility and ancillary fee schedule and demographic loading. Network Operations monitors provider data processing metrics on a weekly basis to prioritize work and promote adherence to Cigna HealthCare processing guidelines related to timeliness.	Inspected a sample of National FA Metric Reports to ensure that metrics are tracked, communicated to the Network Operations team and if the metric was not met, ensured the detailed LBED report was distributed to the Network Operations team for corrective action.	No exceptions noted.
	3. **Medical Only:** Automated Tracking Tools are Used to Monitor Timeliness of Loading Data: Tracking Tools are utilized to track and identify the stage/status for practitioner and association fee schedule loading. Network Operations monitors provider data processing metrics on a monthly basis to prioritize work and promote adherence to Cigna HealthCare processing guidelines related to timeliness.	Inspected a sample of the National PFS Metrics reports to ensure that metrics are tracked, communicated to the Network Operations team, and if the metric was not met ensured the detailed LBED report was distributed to the Network Operations team for corrective action.	No exceptions noted.

Control Objectives	**Control Activities**	**Testing Performed**	**Results of Tests**
Claim – Provider Data Loading *(continued)*			
4) Controls provide reasonable assurance that provider data additions and updates are properly authorized and setup completely, accurately and timely. *(continued)*	4. **Medical Only:** To ensure the quality and accuracy of Facility/ Ancillary data loaded, an independent team within Network Operations performs an audit of loads completed by Cigna. The procedures for the audit are documented within the department's policy and procedures web site. Audits are performed on 100% of fee schedule data loaded (adds/rate updates). Errors noted during the audits are required to be fixed and root cause analysis on the reason for the error are noted and monitored, with corrective action implemented if needed.	Inspected a sample of facility/ancillary fee schedule loads to ensure that quality audits were performed, results were documented and communicated to management, and errors identified were corrected.	No exceptions noted.
	5. **Medical Only:** To ensure the quality and accuracy of Facility/ Ancillary network ties and demographic records loaded are subject to a selection for audit by an independent team within Network Operations. The procedures for the audit are documented within the department's policy and procedures web site. Errors noted during the audits are required to be fixed and root cause analysis on the reason for the error are noted and monitored, with corrective action implemented if needed.	Inspected a sample of facility/ancillary fee schedule and demographic audits to ensure that that quality audits were performed and errors identified were corrected.	No exceptions noted.
	6. **Medical Only:** To Ensure Quality of the Practitioner/Association Fee Schedule Loaded an Independent Team Performs Quality Audits: The procedures for the audit are documented within the department. Audits are performed for a selection of fee schedule data. Errors noted during the inspections are required to be fixed, and root causes analysis of the reason for the error is noted and monitored with corrective action implemented if needed.	Inspected a sample of practitioner/association fee schedule loads to determine whether the quality audits were performed, results were documented and communicated to management, and errors identified were corrected.	No exceptions noted.

Claim – Provider Data Loading *(continued)*			
4) Controls provide reasonable assurance that provider data additions and updates are properly authorized and setup completely, accurately and timely. *(continued)*	7. **Medical Only:** To ensure the quality and accuracy of Facility/ Ancillary data loaded by the subservice organization, an Independent team within Network Operations audits a selection of loads completed and audited by the subservice organization. This audit includes fee schedules, fee and network ties, and demographic records. The procedures for the audit are documented within the department's policies and procedures. Errors noted during the audits are required to be fixed and root cause analysis on the reason for the error are noted and monitored, with corrective action implemented if needed.	Inspected a sample of facility/ancillary demographic audits as evidence to determine whether they were performed, results are documented and communicated to management, and errors identified were corrected.	No exceptions noted.
	8. **Medical Only:** An Independent team within Network Operations Audits a Selection of Practitioner/ Association Demographic Records for Accuracy (also known as Process Health Audit): The procedures for the audit are documented within the department's policy and procedures. Practitioner/association demographic records loaded are subject to selection for audit. The main purpose of the Quality Audit (QA) is to monitor accuracy of data setup, submission, and processing and report the results of the independent QA to management for purposes of identifying processing issues and effecting required corrective actions.	Inspected a sample of practitioner/association demographic audits as evidence to determine whether they are performed, results are documented, and errors identified were corrected.	No exceptions noted.
	9. **Medical Only:** Edits Within The Systems Support Data Accuracy: Facility/ancillary/fee schedule and demographic data and practitioner/association fee schedule data is subject to system edits contained within FSS, SANP, and CPF.	Observed a Contract Implementation Manager load incomplete data in FSS, SANP and CPF as evidence the system prompts the Contract Implementation Manager with the appropriate error message.	No exceptions noted.

Control Objectives	**Control Activities**	**Testing Performed**	**Results of Tests**
Claim – Provider Data Loading *(continued)*			
4) Controls provide reasonable assurance that provider data additions and updates are properly authorized and setup completely, accurately and timely. *(continued)*	10. **Dental Only:** Tracking Tools Are Used to Track and Identify the Stage/Status of Provider Demographic and Fee Schedule Loading for new dental PPO provider contracts. Reports are generated and saved for review by management	Inspected a sample of monthly metric documents to determine whether status of new dental PPO provider contract loads were being tracked and reported to management, and whether evidence of an action plan was available if metric was not met for a given month.	No exceptions noted.
	11. **Dental Only:** Quality Assurance Personnel Perform Reviews of Data Loaded for Provider Demographics: Quality Assurance personnel perform reviews of provider demographic data loaded to determine whether provider demographic data was loaded completely and accurately. Errors identified from the reviews are reported for correction and tracked for the development of quality improvement opportunities.	Inspected a sample of provider demographic audits as evidence that audits were performed, errors are documented, and errors identified were corrected.	No exceptions noted.
	12. Dental fee schedules are received by the Dental Economics Unit (DEU) from the dental networks. The Dental fee schedules are then loaded using an automated tool to ensure data is loaded completely and accurately.	Inspected a sample of PPO Fee Schedules loaded to iProvider by the Dental Economics Unit evidencing that the request was processed and approved.	No exceptions noted.
	13. The Provider Information Management Operations (PIMS Ops) and Provider Data Management (PDM) departments monitor provider data updates to prioritize work and adhere to timeliness guidelines.	Observed the eTQS workspace and one sample workflow task from the Daily Inventory report generated for a day during the period to verify that the status of provider updates are included on the report. Additionally, inspected the PIMS Ops reporting and metrics site and observed two sample consecutive period reports used to track open tasks to verify that the status of provider update work are included on the reports, tracked and monitored by management for timeliness, and resolved as evidenced through the fall off from the subsequent reports.	No exceptions noted.

Control Objectives	**Control Activities**	**Testing Performed**	**Results of Tests**
Claim – Provider Data Loading *(continued)*			
4) Controls provide reasonable assurance that provider data additions and updates are properly authorized and setup completely, accurately and timely. *(continued)*	14. For adds and changes to provider data not initiated through a claim, the PDM group receive requests from the provider or an approved agent to change the provider's FACETS information. Request must be documented on an ATC or Profile Form within the Provider Change Tracking Tool and include documentation of authorization through evidence that the request originated with the provider.	Inspected completed task ACT or profile forms for a sample of provider data changes to determine that the requests originated from the provider and were approved prior to upload into PDM.	No exceptions noted.
	15. Integrated Health Care Professional (HCP) data updates are an automated load from CPF to FACETS. Any fallout during this transfer is tracked on the Repeatable Event Failures report and is resolved by the Provider Network Integration (PNI) team.	Observed the Repeatable Events Failures report generated for two consecutive periods to determine that the batch process is operating effectively, and fallouts from the CPF transfer are identified on the report and resolved by the PNI team for one fallout instance.	No exceptions noted.
	16. Dentacom Manually and Auto-Adjudicated Claims An independent quality audit team performs claims audits using a random-stratified sample of claims processed on the Dentacom platform to determine office-level claims payment accuracy. The results of this control activity provide management with information to diagnose problems, prioritize corrective actions, and implement changes to improve the overall quality.	Observed a quality auditor perform a claim audit and document results to provide management with information to diagnose problems, prioritize corrective actions, and implement changes to improve the overall quality.	No exceptions noted.
		Reperformed a sample of claim audits and reviewed evidence that the audits were performed, results of claim audits are tracked and monitored by management, and errors identified during the claim audits were corrected.	No exceptions noted.

CAM #16-0901
Exhibit 3
Page 909 of 1015

Control Objectives	**Control Activities**	**Testing Performed**	**Results of Tests**
Claim – Payment			
5) Controls provide reasonable assurance that claim payments are properly authorized, complete, accurate and timely.	1. On a weekly basis, a trend analysis is created and sent to management. This analysis identifies acceptance and rejection rates of claims by date outside of normal activity from the Claim Intake Gateway. In the case of an abnormal acceptance or rejection rate, a root cause analysis is performed and presented to management. The analysis and remediation activity (if applicable) is stored for later review.	Inspected a sample of management reports as evidence that claim rejections are monitored by Cigna and that results are reviewed in detail on a weekly basis to ensure quality goals are met.	No exceptions noted.
	2. Eligibility is verified through a nine step process. This process compares the data on the record (found in IBOR) coming into the Claim Intake Gateway to the eligibility files. The 9 step comparisons are on SSN, Last Name, effective date vs. date of service, canceled account, benefits options indicators, Commerical/ Medicom, Date of service to cancel date, split claim logic, and multiple record logic for each claim engine for processing. Once there has been a match on eligibility, a 277 acknowledgement is generated and returned multiple times throughout the day to the submitter indicating claim's acceptance or rejection status.	Observed the automated reconciliation process claim data on the record coming into the Claim Intake Gateway to the eligibility file and observed proof of receipt in the form of a claim acknowledgement sent back to the provider indicating success or failure of claim eligibility.	No exceptions noted.
	3. The Controls and Balancing report summarizes the flow of claims from the trading partner to the claims systems. Weekly, the report is reviewed for balancing issues between the Claim Intake Gateway and Claim Engines greater than 10 claims after 72 hours. When balancing issues are identified, a ticket is created and maintained until the ticket is closed indicating remediation. Claim systems reviewed in this report are Dentacom, PMHS, Facets, and Proclaim.	Inspected a sample of management reports as evidence that the flow of claims from trading partner to the claims systems is monitored by Cigna and that results are reviewed in detail on a weekly basis to ensure quality goals are met.	No exceptions noted.

CAM #16-0901

Control Objectives	**Control Activities**	**Testing Performed**	**Results of Tests**
Claim – Payment *(continued)*			
5) Controls provide reasonable assurance that claim payments are properly authorized, complete, accurate and timely. *(continued)*	4. An automated Reconciliation takes place at every step of the claim data transmission to the EDI Claim Intake Gateway, SI and then to the claim engines. It is conducted by a software called Unitech. The reconciliation is based upon total records received matching total records to be transmitted and processed. This reconciliation is done at the batch level and at the individual claim record level. If records are out of balance the job abends and a programmer is required to remediate. The process of handling abends are documented in the departments' policy and procedures.	Observed the automated reconciliation balance total records received to total records to be transmitted and processed for a sample of claim engine Unitech mainframe batch jobs and observed a programmer remediate an abended job to ensure completeness of the claim intake process.	No exceptions noted.
	5. Provider/Facility on Submitted Claim Must Reconcile to Data in Cigna HealthCare's Systems: The provider's address, license, and/or tax identification number included in submitted claim documentation must match information in the medical provider database (CPF) or dental provider database. If the information does not match, then the claim will be researched; and if no supporting information is available, the claim would be denied.	Observed a claim processor processing a claim to verify that provider information on the submitted claim form agrees to CPF or the dental provider information before adjudicating the claim.	No exceptions noted.
		Reperformed the reconciliation of provider information such as an address, license, and/or tax identification number on a submitted claim form to data in CPF or the dental provider database for a sample of processed claims.	No exceptions noted.
	6. Patient Information on a Submitted Claim Must Reconcile to Data in Cigna HealthCare's Eligibility Systems: A claimant's eligibility information as shown on the claim form such as a name, social security number, and employer is compared to the information in CED prior to processing a claim payment. If the information does not match, then the claim will be researched; and if no supporting information is available, the claim would be denied.	Observed a Claim Processor comparing claimant eligibility information such as name, social security number, and employer to the information in CED prior to processing a claim payment.	No exceptions noted.
		Reperformed the reconciliation of claimant eligibility information such as name, social security number, and employer on a submitted claim form to data in CED for a sample of processed claims.	No exceptions noted.

Control Objectives	**Control Activities**	**Testing Performed**	**Results of Tests**
Claim – Payment *(continued)*			
5) Controls provide reasonable assurance that claim payments are properly authorized, complete, accurate and timely. *(continued)*	7. Manually Submitted Claims: Cigna HealthCare Monitors Subservice Organization Transcription of Claims: Cigna requires high quality and monitors quality on a daily and weekly basis. Audits are performed by supplier and by Cigna with goals that must be met. Individuals involved in Front End Services and Data Capture are held accountable at all stages of the processing of Cigna documents. Results are reviewed in detail on a weekly and monthly basis and are addressed immediately.	Inspected a sample of management reports as evidence that manual claims sent to the subservice organization for transcription are monitored and audited by Cigna and that results are reviewed in detail on a weekly and monthly basis to ensure that quality goals are met.	No exceptions noted.
	8. Related to Both Auto and Manually Adjudicated Claims: Management Monitors the Aging of the Claim Inventory on an Ongoing Basis: The inventory of claims received but unprocessed is prepared and reviewed by management on a daily, weekly, and monthly basis to prioritize work and promote adherence to Cigna Dental and Medical processing standards. Key metrics for compliance to Cigna HealthCare's claim processing timeliness standards are reviewed at various levels of management.	Inspected a sample of PowerMHS, PROCLAIM, and Dentacom management reports as evidence that management monitors the aging of the claim inventory on a daily, weekly, and monthly basis.	No exceptions noted.
	9. On a monthly basis, FACETS Claims Status reports and WIP reports are reviewed and signed off by the Claim Manager to ensure claims are being processed and paid on a timely basis. Variances of 10% or greater to their targeted projections are escalated and documented. If the FACETS Daily Claims Turn Around Time (TAT) Report indicates that the metric for all claims paid within 30 days is less than 98%, Claim Managers review the claims that are >30 days old. Investigation is documented.	Inspected completed Claims Status reports and WIP reports for a sample of months to determine whether monthly reviews were performed and that variances of 10% or greater were escalated and documented. Additionally, inspected completed sign-off sheets and Action Steps for a sample of monthly reviews to determine whether Claim Managers investigated claims that are greater than 30 days old.	No exceptions noted.

Control Objectives	**Control Activities**	**Testing Performed**	**Results of Tests**
Claim – Payment *(continued)*			
5) Controls provide reasonable assurance that claim payments are properly authorized, complete, accurate and timely. *(continued)*	10. Pended Claims are Monitored by Management: Claims that are in a pended status are monitored by dental or medical claim managers. Reports are reviewed on a daily, weekly, and monthly basis.	Inspected a sample of PowerMHS, PROCLAIM, and Dentacom pended claim reports to ensure the status of the claims were tracked by management.	No exceptions noted.
		Inspected a sample of PowerMHS, PROCLAIM, and Dentacom pended claims as evidence pended claims were processed in accordance with guidelines related to timeliness.	No exceptions noted.
	11. All Claim Systems have Edits that Support the Proper Payment of Claims: Examples of key edits included within each claim system are: identifying payments for services not covered, claim payments exceeding the maximum reimbursable charges allowed, and duplicate payments. The systems will pend the claim for review (or display a warning/error message); the processor then reviews the current claim and/or history to determine if the claim payment is appropriate.	Observed a Claim Processor review key warning/ error messages such as payments for services not covered, claim payments exceeding the maximum reimbursable charges allowed, and duplicate payments for a sample of claims on PROCLAIM, PowerMHS, and Dentacom, and observed the Processor review the claims and/or history to determine if the claim payment is appropriate.	No exceptions noted.
	12. Automatic edits are performed by the Auto-Adjudication system within FACETS during the processing of electronic claims to help ensure the accuracy and validity of claims data.	Observed the existence of automatic edit checks for a sample of common adjudication types by entering a claim with data that would trigger an automated edit check to determine that edit checks are activated in the FACETS and Claims Extend systems.	No exceptions noted.
	13. **PowerMHS, PROCLAIM and FACETS Manually Adjudicated Claims** Claim Processors Can Not Process Claims Above a Pre-Authorized Limit: Claim payment authorization limit is established based on the job experience level of the individual in each position. The claim systems automatically pends claims which exceed the authorization limit, and the claim is routed to a processor with a higher authority for review prior to claim payment.	Inspected, for PowerMHS, PROCLAIM and FACETS, a listing of claim processing personnel to verify that authorization limits were established for the Claim Processors.	No exceptions noted.

Claim – Payment *(continued)*			
5) Controls provide reasonable assurance that claim payments are properly authorized, complete, accurate and timely. *(continued)*	14. **PowerMHS, PROCLAIM and FACETS** High Dollar Prepayment Review: Claims processed at a payment authority level of $250 thousand and greater are subject to a high dollar prepayment review. Management tracks and monitors the completeness, timeliness, and results of these reviews. Results of the review drive payment outcome and corrective action feedback.	Inspected a sample of high dollar prepayment audits and reviewed evidence that the audits were performed, results were documented, amounts billed and paid for the claim agreed and any errors identified were corrected prior to payment.	No exceptions noted.
	15. **PowerMHS, PROCLAIM and FACETS Manually and Auto-Adjudicated Claims** An Independent Quality Team Performs a Process-Wide Audit to Determine Claim Payment Accuracy: Continually, the QA team performs claim audits using a statistically valid sample to monitor claim payment accuracy and timeliness of claim related processes. These reviews provide a process wide assessment of the organization's ability to accurately process claims. The results of this control activity provide management with information to diagnose problems, prioritize corrective actions, and implement changes to improve the overall quality of the corresponding claim processing operations.	Observed a Quality Auditor perform a process-wide audit and document results to provide management with information to diagnose problems, prioritize corrective actions, and implement changes.	No exceptions noted.
		For PowerMHS and PROCLAIM, reperformed a sample of claim audits to determine whether audits are performed and results are documented and used to provide management with information to diagnose problems, prioritize corrective actions, and implement changes.	No exceptions noted.
		For FACETS, reperformed the audit by inspecting information for a sample of claims to verify that adjudicated claim audits were performed by the QA Auditors/Reviewers. For audits that resulted in errors with an impact on the potential payment of claims, reperformed the control by inspecting FACETS system screens to verify that the errors identified during the audit were monitored, corrected and resolved.	No exceptions noted.

Control Objectives	**Control Activities**	**Testing Performed**	**Results of Tests**
Claim – Payment *(continued)*			
5) Controls provide reasonable assurance that claim payments are properly authorized, complete, accurate and timely. *(continued)*	16. On a monthly basis, a focused audit is performed to verify unassigned claims that were processed with payment of $5,000 or more to a customer are being processed appropriately in accordance with guidelines and processes.	Inspected the completed monthly focused audit reports for a sample months to determine that a focused audit of unassigned claims was performed.	No exceptions noted.
	17. Dentacom Manually and Auto-Adjudicated Claims An independent quality audit team performs claims audits using a random-stratified sample of claims processed on the Dentacom platform to determine office-level claims payment accuracy. The results of this control activity provide management with information to diagnose problems, prioritize corrective actions, and implement changes to improve the overall quality.	Observed a Quality Auditor perform a claim audit and document results to provide management with information to diagnose problems, prioritize corrective actions, and implement changes to improve the overall quality.	No exceptions noted.
		Reperformed a sample of claim audits and reviewed evidence that the audits were performed, results of claim audits are tracked and monitored by management, and errors identified during the claim audits were corrected.	No exceptions noted.
	18. Fraud Awareness Program: The Special Investigations Unit (SIU) of the Internal Audit Department administers a HealthCare fraud awareness program. The fraud awareness program consists of: › Ongoing communication between SIU and Service Operations › Annual required fraud training for key HealthCare personnel › On-line fraud job aids › On-line fraud prevention and detection procedures manual › A fraud hotline (both 1-800 # & email) that can be used by Cigna HealthCare employees and the general public › External reference on Cigna.com to the fraud hotline for the general public to report potential fraud.	Observed that the fraud hotline and email address exist by calling the fraud help desk and emailing the fraud inbox.	No exceptions noted.
		Inspected documentation as evidence that there are on-line fraud job aids, fraud prevention and detection procedure manuals, and on-going communications from SIU to Service Operations.	No exceptions noted.

CAM #16-0901
Exhibit 3
Page 915 of 1015

Control Objectives	**Control Activities**	**Testing Performed**	**Results of Tests**
Claim – Payment *(continued)*			
6) Controls provide reasonable assurance that proper segregation of duties exist between the claim, eligibility and provider units.	1. Segregation of Duties between Claim, Provider and Eligibility functions is enforced through monitoring of user access rights. Users with claim processing access privileges are not allowed to concurrently maintain provider and eligibility maintenance privileges.	Inspected monthly access reviews completed by management for users with claim payment authority and the ability to change eligibility or provider information to validate that update access is limited to properly authorized personnel. Inspected that those users identified by management as having inappropriate access by management were subsequently remediated.	No exceptions noted.
	2. Every 45 days, management performs a review of the activities performed by individuals that have been assigned payment authority and the ability to update eligibility or provider information, to determine whether the activity performed was appropriate.	Inspected monthly activity reviews completed by management to determine if activity performed by those individuals who had been assigned claim payment authority and had the ability to update eligibility or provider information was appropriate.	No exceptions noted.
	3. Printing and Mailing of Claim Checks Is Done Centrally and Not at a Claim Processing Facility: Claim checks are produced in and distributed from a central location that is separate from the claim field office.	Inspected a sample of claim payments to ensure that printing and mailing of claim checks occurred in a central location that was separate from the claim field offices.	No exceptions noted.
Claim – Capitation: Power MHS Only			
7) Controls provide reasonable assurance that capitation payments are properly authorized and capitation charges are complete, accurate and are made for eligible customers.	1. **Capitation Rates Are Not Loaded Until Proper Authorization is Received:** Rates are provided to the Capitation Unit by the Provider Contracting unit and are not loaded until proper authorization is obtained. Authorization is obtained from either the Regional Contracting Manager for existing contracts or by the execution of a new contract for new rate loads or changes not covered by a previous contract. Capitation rate loads are validated by the Capitation Setup Team. Capitation rate loads are monitored by Capitation Management.	Inspected the Capitation Job Log which tracks capitation rate loads from setup through completion as evidence that capitation rate loads are monitored by Capitation Management. Inspected a sample of provider contracting requests, subsequent capitation loads, and emails as evidence the request was authorized, the load was processed as requested, and the rates were verified.	No exceptions noted.

CAM #16-0901

Control Objectives	**Control Activities**	**Testing Performed**	**Results of Tests**
Claim – Capitation: Power MHS Only *(continued)*			
7) Controls provide reasonable assurance that capitation payments are properly authorized and capitation charges are complete, accurate and are made for eligible customers. *(continued)*	2. **All New Benefit Packages (BP) and Changes to Benefit Packages are Validated by the Capitation Unit Prior to Loading Into PowerMHS:** Benefit Package updates are provided to the Capitation Unit by a weekly feed from Benefit Builder. BP loads are validated by the Capitation Setup Team. BP Load metrics are monitored by Capitation Management.	Inspected the error tracking report, a sample of weekly benefit package results, and system screen prints, as evidence that benefit package updates are loaded completely and that errors identified during the load are monitored and resolved by Capitation Management.	No exceptions noted.
	3. **Review of Membership Data Prior to Capitation Disbursement:** At least two times per month, a precapitation run is performed to produce a customer fallout report, which identifies errors due to structure or duplicate subscriber/ customer records. The fallout report is researched and items are resolved.	Inspected a sample of fallout reports as evidence that the report is produced at least two times per month. Inspected a sample of errors from the fallout reports, the Capitation Management action plan, and the new error log aging research file as evidence that fallout items from the report are tracked, monitored, researched, reported to management and resolved.	No exceptions noted.
	4. **Review of Provider Data Prior to Capitation Disbursement:** At least two times per month, the pre-capitation run produces a provider fallout report, which identifies errors related to provider data (i.e., rates, terminations, etc.). The fallout report is researched and items are resolved.	Inspected a sample of fallout reports as evidence that the report is produced at least two times per month.	No exceptions noted.
		Inspected a sample of emails circulated to Capitation Management, the fallout report, the New Error Log, and the Aging Research File as evidence that fallout items from the report are being monitored, researched, reported to Capitation Management, and resolved.	No exceptions noted.
	5. **Prior to Disbursements, Payments are Reviewed for Reasonableness:** Capitation monthly payment processing is systematically generated. Output is then reviewed, balanced, and authorized for release by Capitation Management.	Inspected a sample of capitation balancing reports as evidence that the paid amounts are reviewed, balanced, and authorized for release by Capitation Management.	No exceptions noted.

Control Objectives	**Control Activities**	**Testing Performed**	**Results of Tests**
Claim – Capitation: Power MHS Only *(continued)*			
7) Controls provide reasonable assurance that capitation payments are properly authorized and capitation charges are complete, accurate and are made for eligible customers. *(continued)*	6. **Capitation Payments are Subject to Audits Performed by An Independent Quality Team To Determine Claim Accuracy:** Continually, the Quality Assurance (QA) team performs claim audits using a statistically valid sample to monitor claim payment accuracy and timeliness of claim related processes. These reviews provide a process-wide assessment of the organization's ability to accurately process claims. The results of this control activity provide management with information to diagnose problems, prioritize corrective actions, and implement changes to improve the overall quality of the corresponding claim processing operations.	Observed a Quality Auditor perform a process-wide audit and document results to provide management with information to diagnose problems, prioritize corrective actions, and implement changes.	No exceptions noted.
		Reperformed a sample of claim audits as evidence that audits are performed and results are documented and used to provide management with information to diagnose problems, prioritize corrective actions, and implement changes.	No exceptions noted.
Financial Services – Banking			
8) Controls provide reasonable assurance that new client set-up and account maintenance for client bank accounts are established and maintained completely and accurately.	1. **New Account Set-up** For a New Account, CHIRPS, Imprest and Case information is reviewed by the quality audit team to ensure completeness and accuracy.	Inspected Quality Audit checklists for a sample of new accounts to determine whether quality audits were performed and findings were researched and resolved for new accounts.	No exceptions noted.
	2. The expenditure imprest bank accounts' funding levels and the corresponding calculations are reviewed at least annually by the ASO Banking team for reasonableness. Changes to imprest funding levels are communicated to the client and client's bank.	Inspected the Imprest calculation review template for a sample of accounts as evidence that expenditure imprest bank accounts and corresponding calculations are quality reviewed annually.	No exceptions noted.
	3. The ASO Banking Team has an internal database to track outstanding account setup. Management monitors this database to ensure that all accounts are updated timely.	Inspected samples of communications to the ASO Banking Team to determine whether management monitors the internal database, and whether management tracks outstanding account set-up and maintenance items.	No exceptions noted.

Control Objectives	**Control Activities**	**Testing Performed**	**Results of Tests**
Financial Services – Banking *(continued)*			
9) Controls provide reasonable assurance that financial transactions are recorded completely, accurately, and timely in the client bank accounts.	1. **Interface of Claim Engines to Banking System (CHIRPS):** Claim Engines feed CHIRPS with details of prior days check issuance, reversals and stops. Transactions affecting client bank accounts arise from claims that have been processed and approved on the claim system. (Capitation is included for PowerMHS). These discrepancies are researched and resolved by both CHIRPS and the corresponding source systems IT teams on a timely basis, to ensure that banking transactions are processed completely, accurately and timely.	Inspected a sample of daily fallout reports as evidence that PowerMHS, PROCLAIM, and Dentacom fed CHIRPS completely with the details of prior day's check issuance, reversals, and stops. If a discrepancy was noted, inspected that it was resolved timely.	No exceptions noted.
	2. **Daily Transfer of Information from CHIRPS to Program Banks:** Check issuance information processed in the Customer Service Claim Centers is transmitted daily to the program bank from Cigna claim engines via electronic information transmission. The ASO Banking Team also notifies the program bank by email transmission of the total number and dollar amount of claim checks issued that should be on the electronic information transmission for that day. The program bank matches this information to the actual information received on the electronic information transmission and notifies Cigna of any discrepancies. These discrepancies are researched and resolved by Cigna on a timely basis.	Inspected a sample of daily control reports as evidence that the total number and dollar amount of claim checks are transmitted from CHIRPS to the appropriate program banks on a daily basis.	No exceptions noted.

Control Objectives	**Control Activities**	**Testing Performed**	**Results of Tests**
Financial Services – Banking *(continued)*			
9) Controls provide reasonable assurance that financial transactions are recorded completely, accurately, and timely in the client bank accounts. *(continued)*	3. **Monthly Reconciliation of CHIRPS to Program Bank Activity:** Issued, reversed, and stopped check information is reconciled monthly via an automated matching process of Cigna and the program bank's check issuance, reversal, and stop information generating an out-of-balance report. To ensure that accounts are accurate, Out-of-balance conditions are researched by an account analyst and reported to the customer advising how it will be resolved and corrected. Clients are mailed or have electronic access to a copy of the account reconciliation package, bank account statement produced by the program bank, an ASO/Minimum Premium worksheet, and an issued or paid check register.	Reperformed a sample of monthly ASO/ Minimum Premium worksheets and Bank Proof of Outstanding forms to determine whether the total issuance, reversal, and stop payments amounts reconciled. For any accounts where an out-of-balance condition existed, inspected evidence that a Proof of Reconcilement was completed.	No exceptions noted.
	4. **Cigna Claim Engines feed refund transactions to CHIRPS:** Three times weekly, the total refundable amount is transferred to the client via a check mailed directly to the client or through an EFT transaction (an ACH/Automated Clearing House) to the client's bank account.	Inspected a sample of CHIRPS refund transactions as evidence that the aggregate amount of client refunds was authorized by FSU and processed by the bank.	No exceptions noted.
	5. **The Stop Loss System Feeds Refund Information to CHIRPS:** The Stop Loss system feeds Individual Stop Loss and Experience Protection Benefits (EPB) refund transactions to CHIRPS, which updates the Trigger Point System. Three times weekly, the total refundable amount from the Stop Loss System from the previous cycle is transferred to the client via the CHIRPS automated refund process issuing either a check mailed directly to the customer or through an EFT transaction to the client's bank account.	Inspected a sample of client accounts with individual stop loss refund activity to determine whether the refund transactions were processed within CHIRPS and completely and accurately remitted to the client bank accounts.	No exceptions noted.

Control Objectives	**Control Activities**	**Testing Performed**	**Results of Tests**
Financial Services – Banking *(continued)*			
10) Controls provide reasonable assurance that Minimum Premium clients' accumulated liability is accurately and completely reported with timely identification of triggered accounts.	1. **Monthly Underwriting Reviews Minimum Premium Summary Worksheet for Reasonableness:** Trigger points are calculated based on a standard formula that is determined annually by Underwriting. The number of insureds is a factor within the trigger point formula that would cause the trigger point to change during the year. Monthly, Underwriting reviews the summary worksheet for each minimum premium account to evaluate whether the current trigger point appears reasonable based on the approved formula and expected eligibility level for the case.	Inspected a sample of Minimum Premium accounts to determine whether the trigger point was updated monthly by Underwriting and was completely and accurately reflected in the Minimum Premium Summary Worksheet.	No exceptions noted.
	2. **Monthly Minimum Premium Customers Receives from Cigna HealthCare the "Minimum Premium summary Worksheet":** This worksheet details the Trigger Point, Claim Activity and any claims Cigna HealthCare paid in excess of the trigger point as requested by the client.	Inspected a sample of triggered accounts to determine whether claim and bank account liability accuracy checks were performed by the Operations Analyst and authorized by Underwriting prior to funding the client account.	No exceptions noted.
	3. The ASO Banking Team receives and reviews formal Authorization from Underwriting Prior to Providing Funding for Triggered Minimum Premium Accounts and any discrepancies are researched and resolved by Cigna HealthCare on a timely basis.	Inspected a sample of triggered accounts to determine whether an authorization was obtained by FSU from Underwriting prior to funding the client account.	No exceptions noted.

Information Technology			
11) Controls provide reasonable assurance that access to data and programs is limited to properly authorized and appropriate users.	1. Employee and contractor termination information from HR is fed into Aveksa, CIGNA's provisioning tool, to automatically disable network and application access for terminated users. (IT control reference: SA1)	Inspected HPSM tickets for a sample of terminated employees and consultants to determine whether terminated employees who previously had access to in-scope applications had application access disabled within 33 days of termination.	No exceptions noted.
		Inspected current active user listings for a sample of terminated employees and contractors to determine whether had access had been removed.	No exceptions noted.
		Inspected system screenshots for a sample of terminated employees and contractors to determine whether access was removed from the active directory.	No exceptions noted.
	2. Employee termination information from HR and contractor termination information from PIN is fed into CIGNA's provisioning tool daily to automatically disable network accounts for terminated users. Notifications are sent to the application teams to remove the associated platform, application and database access in a timely manner past the termination or expiration date. (IT control reference: SA1-Webster)	Inspected HPSM tickets for a sample of terminated employees and consultants to determine whether terminated employees who previously had access to Webster had application access disabled within 33 days of termination.	No exceptions noted.
		Inspected current Webster active user listing for a sample of terminated employees and contractors to determine whether had access had been removed.	No exceptions noted.
		Inspected system screenshots for a sample of terminated employees and contractors to determine whether access was removed from the active directory.	No exceptions noted.

11) Controls provide reasonable assurance that access to data and programs is limited to properly authorized and appropriate users. *(continued)*	9. On a periodic basis, management reviews expanded rights for the mainframe operating platform and validates that special privileges are limited to authorized personnel. (IT control reference: SA5 - Mainframe)	Inspected evidence of management review for a sample of quarters to determine whether management performed the reviews and validated the existing CA-ACF/2, special privileged users with access to production resources.	No exceptions noted.
		Inspected a sample of managers' requests to modify or remove special privileged user's access based on the quarterly access reviews for the mainframe environment to determine whether end user CA/ACF-2 special privileges was updated appropriately upon completion of the quarterly review.	No exceptions noted.
	10. For all applications with the exception of the Webster Application, on a periodic basis, management reviews expanded rights for the iSeries operating platform and validates that special privileges are limited to authorized personnel. (IT control reference: SA5 - iSeries)	Inspected evidence of management review for a sample of quarters to determine whether management performed the review and validated the existing iSeries special privileged users with access to production resources.	No exceptions noted.
		Inspected access removal tickets for a sample of manager requests resulting from the semi-annual review to determine that a ticket was created to remove users with end user iSeries access	No exceptions noted.
	11. On a periodic basis, management reviews expanded rights for the Distributed operating platform and validates that special privileges are limited to authorized personnel. (IT control reference: SA5 - Distributed)	Inspected evidence of management review for a sample semi-annual review to determine whether management performed the review and validated the existing distributed special privileged users with access to production resources.	No exceptions noted.
		Inspected access removal tickets for a sample of manager requests resulting from the semi-annual review to determine that a ticket was created to remove users with end user distributed access.	No exceptions noted.

11) Controls provide reasonable assurance that access to data and programs is limited to properly authorized and appropriate users. *(continued)*	12. The F$recall Activity Report is generated by IT Operations. CIP Security Operations sends the report to the managers of the F$recall users on a monthly basis. The manager reviews the report and provides sign-off on the appropriate usage of F$recall by their employees. F$recall access will be removed in the event a manager fails to respond within 30 days of their initial notification. If the 30th day falls on a weekend or a holiday, the manager will have until the end of the next business day to complete. (IT control reference: SA6)	Inspected F$recall Activity Reports generated by IT Operations for a sample of months to determine whether an independent manager review of F$recall activity was performed.	No exceptions noted.
	13. For all applications with the exception of PMHS, management performs a semi-annual review of users and their database privileges for "modification access" for DB2 and Oracle and SQL and UDB environments to validate that the user privileges are appropriate and limited to authorize personnel. (IT control reference: SA11)	Inspected evidence of management review for a sample semi-annual review to determine that a review of users and their database privileges for "modification access" for DB2, Oracle, SQL and UDB environments was performed to validate that access to production resources were appropriate	No exceptions noted.
		Inspected access removal tickets for a sample of manager requests resulting from the semi-annual review to determine that a ticket was created to remove users with access to the DB2, Oracle, SQL and UDB database environments.	No exceptions noted.
	14. For all applications with the exception of Webster and HTM 5010 Gateway, management performs a monthly review of users and their database privileges for "modification access" to ensure all activity was appropriate. (IT control reference: SA12)	Inspected evidence of management review for a sample of months to determine that a review of users and their database privileges for "modification access" was performed to ensure all activity was appropriate.	No exceptions noted.
	15. Effective 12/20/2014, Management reviews user access following a transfer or change in job responsibility (i.e., change in job role and change in manager) and validates application privileges are appropriate. (IT control reference: SA13)	Inspected screenshot evidence for a sample of recertification of user access following a manager change and change in job responsibilities to determine whether the access recertification was completed by the new manager within 15 days of manager change and change in job responsibilities.	No exceptions noted.

11) Controls provide reasonable assurance that access to data and programs is limited to properly authorized and appropriate users. *(continued)*	16. Management reviews and validates application passwords are configured in accordance with Cigna Information Protection (CIP) policy, or an approved CIP exception is registered. (IT control reference: SA14 - ACF2)	Inspected the Mainframe ACF2 application passwords configurations to determine whether Mainframe ACF2 passwords are configured in accordance with Cigna Information Protection (CIP) policy.	No exceptions noted.
	17. Management reviews and validates application passwords are configured in accordance with Cigna Information Protection (CIP) policy, or an approved CIP exception is registered. (IT control reference: SA14 - PowerMHS)	Inspected the PMHS application passwords configurations to determine whether PMHS passwords are configured in accordance with Cigna Information Protection (CIP) policy.	No exceptions noted.
	18. Management reviews and validates application passwords are configured in accordance with Cigna Information Protection (CIP) policy, or an approved CIP exception is registered. (IT control reference: SA14 - HTM 5010 Gateway)	Inspected the HTM Gateway application passwords configurations to determine whether HTM Gateway passwords are configured in accordance with Cigna Information Protection (CIP) policy.	No exceptions noted.
	19. Management reviews and validates application passwords are configured in accordance with Cigna Information Protection (CIP) policy, or an approved CIP exception is registered. (IT control reference: SA14 - Webster)	Inspected the Webster application passwords configurations to determine whether Webster application passwords are configured in accordance with Cigna Information Protection (CIP) policy.	No exceptions noted.
	20. Activity associated with the use of advanced authority IDs, including generic accounts, on the iSeries operating platform is captured through an automated reporting process. Output from this process is reviewed on a timely basis and exceptions are escalated to management. (IT control reference: SA9 – iSeries)	Inspected iSeries generic account activity reviews for a sample of weeks to determine that a review was completed by an appropriate individual in a timely manner.	No exceptions noted.

Control Objectives	**Control Activities**	**Testing Performed**	**Results of Tests**
Information Technology *(continued)*			
12) Controls provide reasonable assurance that program changes are authorized, tested, and properly implemented, and changes to system software resources are authorized, tested, and properly implemented.	1. Prior to moving an operating system change or an application code changes to production, Change Advisory Board approvals are obtained via HPSM ticket. For emergency changes the required approvals are obtained after the application code change has been moved into production. (IT control reference: CM1)	Inspected Service Manager tickets for a sample of program changes to determine whether the ISG-Change Management Team approval was obtained prior to the application code changes being migrated to production, and that approval to migrate the application code changes in an emergency situation was granted by the ISG-Change Management Team.	No exceptions noted.
	2. Application code changes are installed into production by Migrators. Migrators are independent of programming and is logically restricted from the programming function. Code modification is limited to developers in development environment. (IT control reference: CM2 - HTM 5010 Gateway)	Inspected a listing of all individuals who have the ability to develop code and a listing of all individuals who have the ability to migrate code into production for the HTM 5010 Gateway application to determine that the individuals with migration capabilities are logically restricted and independent from the programming function.	No exceptions noted.
	3. Application code changes are installed into production by &TECHSERV, &MANAGER, &PRDCTL, and &TECHADV user class, which are restricted to authorized Technical Services staff. Users in the &TECHSERV, &MANAGER, &PRDCTL, and &TECHADV user class is independent of programming and is logically restricted from the programming function. Code modification is limited to users with the &DEVELOPER, &DEVLEAD, &ENTDEV, and &TECHADV user class. (IT control reference: CM2 - PMHS)	Inspected a listing of all individuals who have the ability to develop code and a listing of all individuals who have the ability to migrate code into production for the PMHS application to determine that the individuals with migration capabilities are logically restricted and independent from the programming function.	No exceptions noted.

Information Technology *(continued)*			
12) Controls provide reasonable assurance that program changes are authorized, tested, and properly implemented, and changes to system software resources are authorized, tested, and properly implemented. *(continued)*	4. Application code changes are installed into production by an authorized group of individuals who have access to Approvers group. Users in the Approvers group is independent of programming and is logically restricted from the programming function. Code modification is limited to users within the APPDEV group. (IT control reference: CM2 - Endevor)	Inspected a listing of all individuals who have the ability to develop code and a listing of all individuals who have the ability to migrate code into production for the Dentacom, Proclaim, Stoploss, CHRIPS, FSS, CPF, CED and CED applications to determine that the individuals with migration capabilities are logically restricted and independent from the programming function.	No exceptions noted.
	5. Application code changes are installed into production by the administrators group on Facets server. Administrators are independent of programming and is logically restricted from the programming function. Users belonging to the "G_CW_ITS-GWHIS-Facets_Staging-CH" & "G_CW_SEGMENT_CM_CH" global groups can edit code in the development stage. (IT control reference: CM2 - Facets and SANP)	Inspected a listing of all individuals who have the ability to develop code and a listing of all individuals who have the ability to migrate code into production for the FACETS and SANP applications to determine that the individuals with migration capabilities are logically restricted and independent from the programming function.	No exceptions noted.
	6. Application code changes are installed into production by DBA Implementers. DBA's are independent of programming and is logically restricted from the programming function. Code modification is limited to Developers in development environment. (IT control reference: CM2 - Webster)	Inspected a listing of all individuals who have the ability to develop code and a listing of all individuals who have the ability to migrate code into production for the Webster application to determine that the individuals with migration capabilities are logically restricted and independent from the programming function.	No exceptions noted.
	7. Operating system changes and/or application code changes are tested prior to being moved to production to determine whether systems and business specifications have been satisfied and all relevant testing results are available for all the HPSM changes. (IT control reference: CT1)	Inspected testing documentation for a sample of program changes to determine that testing was performed by the UAT/QA team, prior to program changes being migrated to production.	No exceptions noted.
	8. Testing sign-off is provided by the systems and/or business areas in HPSM System to ascertain that systems and business specifications have been satisfied prior to application code changes being migrated to production. (IT control reference: CT2)	Inspected HPSM tickets for a sample of program changes selected for detailed testing to determine that appropriate sign-off from the developer, User, and/or QA were obtained prior to program changes being migrated to production.	No exceptions noted.

Information Technology *(continued)*			
13) Controls provide reasonable assurance that physical access to the data center is restricted to authorized and appropriate personnel.	1. The computer and related peripherals are located in a separate area within the Data Center and are protected by an electronic security badge system and biometrics, which restrict access to authorized individuals. Entrances to the Data Center and computer room are monitored by security officers 24 hours a day, 7 days a week. Visitors are required to sign in at the front desk and are issued visitor badges. Visitors are not allowed access without an authorized escort. (IT control reference: PS1)	Observed the process of using card readers and fingerprint scan biometric readers at the Data Center, which restricts access to authorized employees and visitors. Observed that visitors were escorted into the Data Center. Observed two guards at security station screening nonresident visitors, and whether to gain entrance to the Data Center an individual had to pass two stages of security doors each protected by badge readers with personal passwords and a security guard.	No exceptions noted.
	2. Data center access requests are submitted through a Permanent Badge Request Form. Access is granted based on job requirements. The ID badge is activated upon approval. (IT control reference: PS2)	Inspected permanent badge request forms fora sample of Cigna employees, consultants and visitors with access to the Data Center to determine that the access level was approved by the employee's manager and the Data Center Site Manager prior to processing the request.	No exceptions noted.
	3. Monthly, the Infrastructure Operations Senior Director reviews for propriety the comprehensive Cardholder List of all individuals with data center access to ensure that access is appropriate and is limited to authorized individuals. (IT control reference: PS5)	Inspected data center access review for asample of months to determine that the Infrastructure Operations Senior Director performed a review and that access was appropriate and limited to authorized individuals, and that any requested modifications were made.	No exceptions noted.
	4. Physical access to the data center is removed timely for those individuals who no longer require access to the facility. (IT control reference: PS6)	Inspected Cigna and Vendor termination reports for a sample of days to determine that terminated users were no longer active within the Data Center active badge listing.	No exceptions noted.

Information Technology *(continued)*			
14) Controls provide reasonable assurance that batch processing is appropriately updated, scheduled, and monitored by authorized personnel, and information is properly backed up and stored offsite.	1. New Production batch job schedule and change requests are sent by the Submitters, an authorized group of individuals, via the Batch Management Request System tool to the Batch Operations Services for processing. (IT control reference: PEM1)	Inspected change request documentation for a sample of batch job change requests to determine that the production batch job schedule change requests were sent by Submitters, an authorized group of individuals, via the BMRS tool to the OCC for processing.	No exceptions noted.
		Inspected change request documentation for a sample of batch job change requests to determine that job requests were processed and completed by an authorized submitter and Implementer.	No exceptions noted.
		Inspected a system generated list of Submitters and Implementers, to determine that segregation of duties existed between those permitted to submit changes and those permitted to implement batch job changes.	No exceptions noted.
	2. New Production batch job schedule and change requests are sent by the Submitters, an authorized group of individuals, via Sharepoint to the Operations Command Center for processing. (IT control reference: PEM1 - Webster)	Inspected change request documentation for a sample of batch job change requests to determine that production batch job schedule change requests were sent by Submitters, an authorized group of individuals, via the Sharepoint tool to the OCC for processing. Inspected that the job requests were processed and completed by an authorized Implementer, a group independent of the Submitters.	No exceptions noted.
	3. ESP tool is used on the Mainframe, Midrange, and Distributed platforms to manage the batch scheduling environment 24x7. (IT control reference: PEM3)	Observed the ESP tool to determine, that an automated scheduling software tool, was used to control batch job processing by the OCC team at the Data Center.	No exceptions noted.
		Inspected HPSM tickets for a sample of failed ESP batch jobs to determine that failed batch jobs were researched and re-run successfully.	No exceptions noted.

14) Controls provide reasonable assurance that batch processing is appropriately updated, scheduled, and monitored by authorized personnel, and information is properly backed up and stored offsite. *(continued)*	4. Robot is used on the Midrange platform to manage the batch scheduling environment 24x7. (IT control reference: PEM3 - PowerMHS)	Observed the Robot tool to determine that an automated scheduling software tool was used to control batch job processing.	No exceptions noted.
		Inspected HPSM tickets for a sample of failed Robot batch jobs to determine that failed batch jobs were researched and re-run successfully.	No exceptions noted.
	5. UC4 is used on the Midrange and Distributed platforms to manage the batch scheduling environment 24x7. (IT control reference: PEM3 - Webster)	Observed the UC4 tool to determine that an automated scheduling software tool was used to control batch job processing.	No exceptions noted.
		Inspected UC4 screen prints for a sample of failed UC4 jobs to determine that failed batch jobs were re-run successfully.	No exceptions noted.
	6. Production Control Team reviews access to batch management toolsets (UC4) quarterly for the Midrange and Distributed platforms to determine whether access is restricted to authorized individuals. (IT control reference: PEM4 - Webster)	Inspected UC4 user access reviews a sample of quarters to determine that access was reviewed by management and restricted to authorized individuals, and that any access changes noted as part of the review were subsequently made within the system.	No exceptions noted.
	7. Replication of Mainframe applications are performed by SRDFA utility. Devices are configured in VMAX for replicating data between Windsor and Lithia Springs data centers as a batch. (IT control reference: PS3 - Mainframe)	Inspected evidence within the VMAX tool for a sample days to determine that back-ups occurred successfully, and that errors were researched and resolved.	No exceptions noted.

OTHER INFORMATION PROVIDED BY CIGNA HEALTHCARE

This section includes additional information about Cigna HealthCare's control environment and is not part of Cigna HealthCare's description of its ASO and Minimum Premium Plans claims administration system.

A. Remote Access Security

B. Business Continuity Planning

C. Cigna HealthCare's Claim Overpayment Identification & Recovery Workflow

D. Cigna HealthCare's Program to Ensure Customer Information Is Kept Private and Secure

E. Communication With Customers

F. Management's Response to Exceptions

A. Remote Access Security

Remote access to Cigna system resources is conducted through the Virtual Private Network (VPN). The VPN allows authorized users to connect to Cigna's network from outside a Cigna office using a remote computer and an internet connection. Eligible employees are required to submit a request through the Access Management System for manager approval to be able to connect to Cigna's network remotely. Approved users are also asked to complete a Remote Worker Online Training Course and adhere to Cigna's Information Protection policy. Once a connection has been made through VPN and the user has been authenticated through Windows, CA-ACF2, and iSeries security software, users may obtain access to production resources and information.

B. Business Continuity Planning

Cigna HealthCare has a Business Continuity Planning (BCP) program that establishes and documents procedures designed to respond to a wide array of incidents. The program addresses data recovery, work group recovery, and crisis management. Cigna HealthCare's BCP program uses dedicated BCP certified personnel and supporting technology to recover critical business operations in the event of unexpected disruptions.

Cigna HealthCare's critical applications run in "hardened sites", which are protected by an emergency generator and Uninterrupted Power Supply (UPS). Data Center recovery plans are in place with the objective to fully recover all critical infrastructure and applications. Recovery plans for critical business processes are tested routinely and include end-user groups as part of the testing protocol to evaluate restored systems. Manual workaround procedures are followed until systems are restored.

Cigna HealthCare has made a major commitment of personnel to establish and maintain its business continuity program. Certain personnel have been pre-assigned to recovery teams who can travel to the disaster site quickly and possess all the required expertise in recovery. The majority of Cigna HealthCare sites around the country also designate specific personnel to participate in business continuity planning and assure that local recovery needs are met.

As a key part of business continuity planning, Cigna HealthCare annually prioritizes its various business functions using a Business Impact Analysis (BIA). The BIA is used to update the business requirements and ensure that a recovery strategy of each functional area which is integrated into a corporate-wide recovery strategy. The strategies outline where critical operations will be recovered, how critical operations will be recovered, and what equipment is needed to recover the operations. In addition, Cigna HealthCare has set Recovery Time Objectives (RTOs) for each line of its business. All recovery plans are maintained in an enterprise-wide, webbased disaster management system that is available through the Internet with appropriate security. These site recovery plans are tested at initial set-up and retested on a regular basis.

In the event of a disaster, Cigna HealthCare has a pre-established Corporate Crisis team which will meet in the Corporate Command Center. This center is staffed with key staff who can respond to business needs at the time of disaster. This allows for centralized decision making. In addition to the

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

Corporate Command Center, all of our locations have a designated crisis management team and Command Center for "front-line" attention to the situation. Command Center staff participates in regular mockdisaster exercises. Both command centers allow for representation from the business, IT, Security, Human Resources, Communications (internal and external), Corporate Risk, Behavioral Health and Real Estate.

Cigna HealthCare employs five methods of recovery. These are:

- **Rerouting business functions.** All of Cigna HealthCare's call inquiry centers have load balancing capabilities that allow calls to be rerouted in the event of heavy volume or closings brought about by weather, as well as emergencies. Similar processes exist for our subservice organizations.
- **Use of independent vendor "hot sites."** Cigna HealthCare maintains a "hot-site" contract with recognized third party recovery vendors for alternative workstations for Cigna HealthCare personnel to enable immediate recovery of our critical business operations.
- **Mobile recovery.** High volume call centers have the "Mobile Recovery" process available. This provides office space/equipment and encrypted satellite communication for voice and data. These mobile offices can be set up in less than 72 hours. They are self-contained and come with their own power source. Moreover, this solution can be used in conjunction with load balancing to bring about an even more robust recovery. This solution is tested annually with "live" calls and data.
- **Use of independent industry leading recovery vendors.** Cigna HealthCare maintains contracts with a recognized third party recovery vendor for mainframe, mid-range, and server processors with requisite amounts of DASD storage and front-end processors to back up its data center. Cigna's corporate multi-nodal network has dedicated connections to these recovery vendors to provide for prompt network recovery.
- **Work at home.** Cigna HealthCare has staff that work from home on a full-time basis. In addition, many Cigna HealthCare personnel utilize work at home technology on a part-time/casual basis. As a result, at the time of a disaster these staff can work from home, utilizing VPN connectivity into data centers. Because these are pre-positioned, personnel can begin work immediately at the time of disaster.

As part of its overall commitment to BCP, Cigna HealthCare tests recovery plans on a regular basis. All offices are required to test call tree notification systems annually. Each unique recovery solution also must be tested annually. By following these processes and procedures, Cigna HealthCare's Business Continuity Plan can ensure all means necessary are taken to maintain service to its customers, clients, and providers throughout a wide range of adverse circumstances.

C. Cigna HealthCare's Claim Overpayment Identification & Recovery Workflow

Cigna HealthCare takes several internal actions to locate, review, and recover overpayments from providers. Overpayments are identified through a variety of ways, including Vendor Relationships, an In-house Overpayment Identification Unit, an Intake Process, and an Overpayment Project Workflow.

- **Vendor Relationships.** Automated queries (edits) are run against claim extracts on the vendor systems in order to identify potential overpaid dollars.
- **In-house Overpayment Identification Unit.** Selected Cigna HealthCare employees are assigned to research and identify overpayment opportunities by working with various internal matrix partners and with vendor relationships.
- **Intake Process.** Often, overpayments are identified through means other than vendors or internal processes. Inquiries that are received via call and correspondence are researched and referred to one of Cigna's recovery vendors.
- **Overpayment Project Workflow.** Samples of claims are audited for overpayment opportunities. If significant opportunity is identified, a project work plan is completed and either sent to one of Cigna's overpayment recovery vendors or kept within the overpayment unit for a full validation and collection. All Dental claim overpayments are sent to an overpayment recovery vendor.

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

Once the overpayment dollars have been collected internally or via an overpayment recovery vendor, the following takes place:

- Reimbursements to Cigna HealthCare are sent to Cigna HealthCare's Claim Overpayment Recovery Unit (COR). The COR Unit processes all refunds into the claim system at the customer level.
- Cigna HealthCare then reimburses ASO clients' bank accounts as appropriate.

D. Cigna HealthCare's Program to Ensure Customer Information is Kept Private and Secure

As medical identity theft is a growing problem, Cigna HealthCare is concerned with assuring that its customers' protected health information is kept private and secure. In an effort to proactively protect its customers' information from medical identity theft, the following activities have been implemented:

- **Unique Identifier:** Cigna HealthCare has begun using a unique 9 digit alphanumeric identifier on ID cards and other customer correspondence as a replacement for the customer's social security number. This change decreases the likelihood that an individual's identity can be stolen and has also allowed for another unique verification point which increases the safeguarding of a customer's information throughout service access points.
- **Verification of the Credentials of Individual Seeking Service or Accessing Information:** At every entry point of its service channels and for the submission of claims, Cigna HealthCare requires at least three to four unique credentials before actions can occur. Cigna HealthCare requires the name, unique identifier and/or social security number, and date of birth of the individual, for instance, to access its customer service area. If any of those elements are incorrect, Cigna HealthCare does not allow access to the information. In addition, Cigna HealthCare asks for more unique credentials depending upon the information being sought by the individual and the service entry point at Cigna. Having multiple unique verification points within its service entry points allows for appropriate verification of an individual's identify and decreases possible medical identity theft.
- **Management of Potential Medical Identity Theft Incidents:** If Cigna HealthCare is made aware of a potential medical identity theft, the Cigna HealthCare Privacy Office completes a full investigation of the incident. If the investigation uncovers fraudulent behavior, Cigna's Internal Fraud Unit is alerted for further review and potential action.
- **Privacy and Information Protection Programs:** Cigna has implemented a comprehensive privacy and information protection program to protect the privacy and security of the information Cigna HealthCare maintains on individuals. Information is at the heart of Cigna's business – personal, identity based, and business sensitive. It is Cigna's job to ensure availability and protect the integrity and confidentiality of its information. Compliance with all federal and state laws that govern the use of information is important to Cigna. Cigna does this through:
  - Resources aligned to information and privacy protection including dedicated security and privacy professionals
  - Compliance officers and legal review of all federal and state specific laws and implementation throughout its business units
  - Technology monitoring and safeguards, including designing and engineering security solutions, granting access to information based on a "need to know" basis, and monitoring of computing networks
  - An information protection culture of employee responsibility to ensure that everyone knows and does the right things to protect customer information
  - Measuring where there are gaps and taking corrective actions
  - A business continuity plan to keep the business up and running in the event of a disruption.

E. Communication With Customers

Cigna HealthCare has implemented various methods of communication to ensure that appropriate Cigna HealthCare employees understand their roles and responsibilities related to the controls that support the administration of ASO and Minimum Premium

business. These methods include orientation and training programs for newly hired employees, periodic meetings summarizing significant events and changes during the period, and the use of electronic mail messages to communicate timesensitive messages and information. In addition, managers hold periodic staff meetings as appropriate.

Cigna HealthCare also has various methods of communication with user organizations. Methods of communication used by Cigna HealthCare include product and service related training seminars, periodic bulletins & newsletters, and a dedicated liaison (also known as an Account Manager) who maintains contact with a designated user representative to inform him of new issues and developments. User organizations are also encouraged to communicate questions and problems to their Account Managers.

In addition, Cigna HealthCare Call Center personnel provide ongoing communication with customers. The Customer Support Group maintains records of problems reported by customers and problems/ incidents noted during processing and monitors such items until they are resolved.

F. Management's Response to Exceptions Noted Within Control Objectives 2, 3 and 11

- **For Control Activity 2.6**

  Exception Noted: For 1 of 50 benefit load fallout transactions selected for testing, evidence of resolution was not available.

  Cigna Management Response:

  The noted exception was reviewed and corrected. Additional controls were put in place to monitor benefit loading fallout including an enhanced management reporting process, designed to identify and track any accounts that remain on the fallout report more than five business days. Management works with the staff to ensure that any discrepancies are addressed and resolved appropriately and continuously monitor remediation progress through this enhanced reporting.

- **For Control Activity 3.16**

  Exception Noted: For 12 of 52 weekly termination report reviews selected for testing, the review was completed; however, the report did not include the complete population of terminated users to be reviewed. As a result, 18 terminated users of the full population of 2,993 terminated users (including users that had access to CRP and other applications in and out of the scope of this report) did not have their CRP access disabled.

  Cigna Management Response:

  Management confirmed that the 18 terminated employee accounts did not utilize the Client Resource Portal (CRP) application after termination. Management had increased frequency of reporting to daily to ensure that all terminations are reported for both future and past termination dates. Management has attested that no users have access to the CRP website that should not via compensating control 3.18 that ensures Cigna managers with direct reports with access to the CPR application provide written verification that their employee(s) still require access. The CRP team will disable access to CRP for any user whose continued access is not verified by their manager.

- **For Control Activity 11.8**

  Exception Noted: For the 1 semi-annual user access review selected for testing, the review was completed and update access modifications were identified for 300 users; however, access modifications were not processed timely for 16 of the 300 users identified as requiring an access modification as a result of the review.

  Cigna Management Response:

  Management identified and self-reported an IT control exception during IT General Control workflow testing performed in Q3 2015 which revealed that access update tickets were not created in connection with User Access Certifications for the period of April 22, 2015 to June 15, 2015, resulting in changes in access privileges not being processed timely. Management performed a root cause analysis and determined that an operational deficiency transpired when the User Access Certification was generated within the Access Management

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

system. Due to manual error, the option to automatically submit access update tickets was not selected. As such, the User Access Certification was performed as expected however the subsequent changes to user access were not performed timely. A corresponding impact assessment was performed and the assessment identified that users had update access to in-scope applications. Furthermore, as part of the impact assessment performed, it was identified that the subsequent changes were associated with enhancements to current access and not the result of user terminations. For each identified user, Management immediately created access requests to update user access. Management resolved the manager certification conflict through a process improvement; whereby, an IT control checklist with the steps needed to accurately build and process the User Access Certifications to completion has been put in place as of 9/18/2015. Two designated individuals are required to review each User Access Certification submission prior to certification launch. Additionally, an auto generated dashboard inclusive of the tickets initiated from the User Access Certification has been put in place as of 9/18/2015, to ensure user access update tickets are auto generated for all User Access Certifications.

This report is intended solely for use by the management of Cigna HealthCare, its user entities, and the independent auditors of its user entities, and is not intended and should not be used by anyone other than these specified parties.

City of Fort Lauderdale
Procurement Services Division
AnnDebra Diaz, Senior Procurement Specialist
100 N. Andrews Avenue, #619
Fort Lauderdale, Fl. 33301

RE: RFP #565-11755, Single Source TPA, Pharmacy Benefit Management and Employee Assistance Program

Dear Ms. Diaz:

On behalf of Cigna, thank you for the opportunity to participate in the competitive bid process for City of Fort Lauderdale's Single Source TPA, Pharmacy Benefit Management and Employee Assistance Program. We have organized our proposal around the required business elements noted in Section 6.1 of the RFP.

We are confident in our ability to service the continued needs of the City of Fort Lauderdale as we have been offering health plans to America's local governments and school districts for more than half a century. In the State of Florida, we provide benefit programs to a total of 63 Government and Education clients.

Highlights of our proposed programs and financials are below and meet or exceed the requirements described in the RFP.

- Includes a 4 month Medical ASO Fee credit for the Medical/Rx proposal. Based on current enrollment, this is worth $239,200.
- Provided Stop Loss, although not requested in RFP, and included a fee credit which will increase to 6 months, valued at $358,800 total credit, if Cigna retains Medical, Rx and Stop Loss coverage for 1/1/17.
- $87,000 Wellness Fund, each year for the life of the contract. Unused dollars will be allowed to be rollover.
- Dedicated full time onsite Wellness Coordinator
- National, seamless network for all plans. Open Access Plus (OAP) HRA for the POS and Open Access Plus In-network (OAPIN) for the HMO.
- Quest and LabCorp both participate in Cigna's OAP/OAPIN network
- Clinical and Wellness Programs included in our fees to assist City of Fort Lauderdale in improving health include: Your Health First, Health Advisor, Personal Health Solution Plus (PHS+), Lifestyle Management (which includes Smoking Cessation, Stress Management and Weight Management).
- MD Live Tele Health
- Approval of the City's use of the P-Card

We deliver a specialized concierge, customer service experience to support the unique needs of a diverse population like that of City of Fort Lauderdale. Our customer service team is available 24/7/365 to answer questions and provide support to City of Fort Lauderdale's employees, dependents and retirees. Additionally, our local government customers are supported by a dedicated customer service team that is specialized in servicing the unique needs of local government customers. The team receives quarterly training on the specific needs of local government and in addition to being trained on the details of your benefit plan. The dedicated team has a 30 second

average speed of answer compared to the standard 45 seconds of our standard model, and provides additional services specialized to clients.

Rising medical costs and an abundance of new (sometimes conflicting) medical information have caused clients to lean more heavily on Cigna for better benefit solutions and greater strategic thinking. If City of Fort Lauderdale wants to continue to develop its culture of health, then Cigna is the company that is best equipped with the resources and focus to drive better health outcomes, a high level of employee satisfaction, and ultimately deliver long-term savings.

Sincerely,

Scott E. Evelyn
Vice President (CHLIC)

CIGNA HEALTH AND LIFE INSURANCE COMPANY
CIGNA BEHAVIORAL HEALTH, INC.

SECRETARY'S CERTIFICATE

I, Susan M. Metrow, an Assistant Secretary of Cigna Health and Life Insurance Company and Cigna Behavioral Health, Inc. (the "Companies"), do hereby represent and certify that the following resolution was adopted by the Board of Directors of each of the Companies by Unanimous Consent dated May 31, 2011 and December 30, 2011 respectively, and such resolution remains in full force and effect as of the date hereof, not having been amended, modified or rescinded since the date of its adoption:

REQUEST FOR PROPOSAL SIGNATURE AUTHORITY

RESOLVED: That any officer of the Company or person holding the title of General Manager for the Company and or its subsidiaries or affiliates are hereby authorized to enter into and sign requests for proposal responses provided on behalf of the Company.

It is hereby further certified that Scott E. Evelyn serves as a General Manager for the Companies or for the subsidiaries and affiliates of the Companies.

It is hereby further certified that Scott E. Evelyn was elected as a Vice President of Cigna Health and Life Insurance Company on September 20, 2010.

IN WITNESS WHEREOF, I have hereunto set my hand this 26th day of May, 2016.

Susan M. Metrow
Assistant Secretary

RE: RFP #565-11755, Single Source TPA, Pharmacy Benefit Management and Employee Assistance Program

Dear Ms. Diaz:

On behalf of Cigna, thank you for the opportunity to participate in the competitive bid process for City of Fort Lauderdale's Single Source TPA, Pharmacy Benefit Management and Employee Assistance Program. We have organized our proposal around the required business elements noted in Section 6.1 of the RFP.

We are confident in our ability to service the continued needs of the City of Fort Lauderdale as we have been offering health plans to America's local governments and school districts for more than half a century. In the State of Florida, we provide benefit programs to a total of 63 Government and Education clients.

Highlights of our proposed programs and financials are below and meet or exceed the requirements described in the RFP.

- Includes a 4 month Medical ASO Fee credit for the Medical/Rx proposal. Based on current enrollment, this is worth $239,200.
- Provided Stop Loss, although not requested in RFP, and included a fee credit which will increase to 6 months, valued at $358,800 total credit, if Cigna retains Medical, Rx and Stop Loss coverage for 1/1/17.
- $87,000 Wellness Fund, each year for the life of the contract. Unused dollars will be allowed to be rollover.
- Dedicated full time onsite Wellness Coordinator
- National, seamless network for all plans. Open Access Plus (OAP) HRA for the POS and Open Access Plus In-network (OAPIN) for the HMO.
- Quest and LabCorp both participate in Cigna's OAP/OAPIN network
- Clinical and Wellness Programs included in our fees to assist City of Fort Lauderdale in improving health include: Your Health First, Health Advisor, Personal Health Solution Plus (PHS+), Lifestyle Management (which includes Smoking Cessation, Stress Management and Weight Management).
- MD Live Tele Health
- Approval of the City's use of the P-Card

We deliver a specialized concierge, customer service experience to support the unique needs of a diverse population like that of City of Fort Lauderdale. Our customer service team is available 24/7/365 to answer questions and provide support to City of Fort Lauderdale's employees, dependents and retirees. Additionally, our local government customers are supported by a dedicated customer service team that is specialized in servicing the unique needs of local government customers. The team receives quarterly training on the specific needs of local government and in addition to being trained on the details of your benefit plan. The dedicated team has a 30 second

average speed of answer compared to the standard 45 seconds of our standard model, and provides additional services specialized to clients.

Rising medical costs and an abundance of new (sometimes conflicting) medical information have caused clients to lean more heavily on Cigna for better benefit solutions and greater strategic thinking. If City of Fort Lauderdale wants to continue to develop its culture of health, then Cigna is the company that is best equipped with the resources and focus to drive better health outcomes, a high level of employee satisfaction, and ultimately deliver long-term savings.

Sincerely,

Scott E. Evelyn
Vice President (CHLIC)

CIGNA HEALTH AND LIFE INSURANCE COMPANY
CIGNA BEHAVIORAL HEALTH, INC.

SECRETARY'S CERTIFICATE

I, Susan M. Metrow, an Assistant Secretary of Cigna Health and Life Insurance Company and Cigna Behavioral Health, Inc. (the "Companies"), do hereby represent and certify that the following resolution was adopted by the Board of Directors of each of the Companies by Unanimous Consent dated May 31, 2011 and December 30, 2011 respectively, and such resolution remains in full force and effect as of the date hereof, not having been amended, modified or rescinded since the date of its adoption:

REQUEST FOR PROPOSAL SIGNATURE AUTHORITY

RESOLVED: That any officer of the Company or person holding the title of General Manager for the Company and or its subsidiaries or affiliates are hereby authorized to enter into and sign requests for proposal responses provided on behalf of the Company.

It is hereby further certified that Scott E. Evelyn serves as a General Manager for the Companies or for the subsidiaries and affiliates of the Companies.

It is hereby further certified that Scott E. Evelyn was elected as a Vice President of Cigna Health and Life Insurance Company on September 20, 2010.

IN WITNESS WHEREOF, I have hereunto set my hand this 26th day of May, 2016.

Susan M. Metrow
Assistant Secretary

Fully-Insured EAP Premium Form

It is preferred that these fees be inclusive of all costs. If additional fees apply for any proposed services, detailed pricing and explanation of the service should be listed in Tab II of your proposal. Please provide these fees on a **per employee per month basis**. Proposers are requested to provide a minimum of a three-year rate guarantee. Any pricing conditions should also be provided in this cost page.

Mr. Michael Naftaniel
City of Ft. Lauderdale
100 N. Andrews Avenue
3rd Floor
Fort Lauderdale, Fl 33301

Re: City of Ft. Lauderdale EAP Renewal

Dear Mr. Naftaniel,

Cigna Behavioral Health, Inc. ("Cigna") and City of Ft. Lauderdale have partnered together for a successful Employee Assistance Program ("EAP") over the past several years. We are pleased to continue providing this program to City of Ft. Lauderdale and we appreciate this opportunity to continue our partnership with you.

Employee Assistance Program

The below EAP renewal information is for the 36 month period beginning January 1, 2017 through December 31, 2019.

Rates/Fees

Product	*Current Fee	*Renewal Fee	Rate Change	Employer Service Hours
Employee Assistance Program Full Service STC 1-10	$2.24 PEPM*	$2.24 PEPM	No change	2 hours per 1000 employees or 5 actual hours per contract year

**per employee per month*

Cigna will not revise the rate during the 36 month period from the renewal date, assuming all other financial assumptions remain constant. It assumes an employee count of 2,400 and includes 5 employer service hours per contract year to be used for critical incident responses, manager training, and on-site wellness seminars. Should you exceed 5 employer service hours per 12-month period, you may purchase additional hours on a fee-for-service basis.

This renewal for your Cigna EAP program continues to provide unlimited telephonic consultations, unlimited access to full service work life resources and up to 10 face to face visits per presenting issue at no charge to all employees and their household members, management consultation and referral services.

Cigna will continue to provide EAP services for City of Ft. Lauderdale pursuant to the terms of your EAP agreement with Cigna ("Agreement"). This signed renewal letter will serve to amend the Agreement. Please have an officer of City of Ft. Lauderdale sign to indicate acceptance of the

above rate. Retain a copy of the renewal letter for your files, and return the signed original to me at the following address:

Cigna
Attn: John Coolican
1571 Sawgrass Corporate Parkway
Suite 140
Or by e-mail
John.coolican@cigna.com

If a signature is not obtained within 30 days prior to the effective date of this renewal notice, Cigna will deem the renewal accepted as presented. The renewal letter and receipt confirmation will serve as the contract amendment. Cigna will continue to provide services for participants pursuant to the terms of the Agreement, as amended.

If you have any questions about the information in this letter, please contact me at as soon as possible.

Thank you for the opportunity to continue to serve you and your employees.

Sincerely,

John Coolican
Sr. Client Manager

(1) Tertiary care hospital counts are not tracked separately. As an alternative, Cigna Center of Excellence hospital counts have been provided. Tertiary care typically refers to a major hospital that offers a full complement of services including pediatrics, general medicine, general surgery and psychiatry. These facilities typically have invested in the most advanced evidence-based technologies, and have staff experienced in their use. They are often, but not always, teaching hospitals.

While most hospitals provide tertiary services, through our Centers of Excellence (COE) programs we recognize the hospitals that have achieved the highest score for Patient Outcomes and Cost Efficiency for a particular procedure/condition. An overview of our COE programs has been provided below:

Organ Transplant - Centers of Excellence

Nationally recognized Cigna LifeSOURCE Transplant Network® is a network of high-quality transplant facilities and support services for quality delivery of highly specialized procedures and care for transplant patients. It provides access to over 165 in-network transplant centers nationwide, offering more than 800 individual organ transplant programs.

Hospital - Centers of Excellence

Cigna's Center of Excellence program provides quality and outcome scores for hospitals to assist members in making informed health care decisions. The program rates hospitals on 27 inpatient surgical procedures and one outpatient procedure for cost efficiency and quality. We designate facilities that have achieved the quality marks as Centers of Excellence. We base the quality ratings on public hospital data and patient safety standards from Leapfrog® and from CMS.

Include this form in **Tab III** of your proposal.

6.29 Acknowledgement of Compliance or Non-Compliance

Provide a summary of any RFP specifications, requirements, terms, conditions and provisions that the Proposer will not conform to. This summary should include a justification and an alternative to the Sections(s) that are not acceptable. If the proposal being submitted is in compliance with all RFP specifications, requirements, terms, conditions and provisions, the Proposer should acknowledge compliance to all Sections. Label this Response to Section 6.29 and include in Tab V of the proposal.

We acknowledge compliance to all Sections.

Table of Contents

Title Page/Cover Sheet

Tab I Benefits

Tab II Administration Cost
- A. TPA Administrative Pricing Form (Attachment 1)
- B. Fully-Insured EAP Premium Form
- C. Pharmacy Benefit Management Fees (Attachment 3)
- D. Capitation Rate

Tab III Network Forms and Geo Access Report
- A. Network Summary (Attachment 4)
- B. Specific Provider Network (Attachment 5)
- C. GeoAccess Reports

Tab IV Responses to Questionnaire
- A. Questionnaire (Attachment 12)

Tab V Deviations to Other Specifications
- A. Response to Section 6.29

Tab VI References

Tab VII Other Information and Documentation
- A. Proposers Identification (Attachment 8)
- B. Proposers Warranty (Attachment 9)
- C. No Bid form (Attachment 10)
- D. Highly utilized, high cost medication Form, Response to Section 6.14 (Attachment 11)
- E. Certification of Accuracy of Claims Re-pricing
- F. Addendum Acknowledgement
- G. Response to Section 6.5
- H. Response to Section 6.13
- I. Response to Section 6.14
- J. Response to Section 6.15
- K. Response to Section 6.16
- L. Response to Section 6.18
- M. Response to Section 6.19
- N. Response to Section 6.21
- O. Response to Section 6.22
- P. Response to Section 6.23
- Q. Response to Section 6.24
- R. Response to Section 6.25
- S. Response to Section 6.26
- T. Response to Section 6.27
- U. Response to Section 6.28

Tab VIII Required Forms and Required Documents
- A. Proposal Certification (Attachment 7)
- B. Non-collusion Statement (Attachment 13)
- C. Contract Payment Method – Administrative Fees Only
- D. Sample Insurance Certificate (provided by Proposer)
- E. Business License

Exhibits
- A. SOC1 Report
- B. Wellness Plans
- C. Implementation Plan
- D. Responses to RFP
