1. Provide a signed and sealed boundary and topographic survey showing all above ground improvements, utilities, rights of way dimensions and all easements. This survey shall be based on a Standard Title Commitment issued by a title insurer licensed to do business in Florida or an Opinion of Title issued by an attorney admitted to the Florida Bar.
 - a. Per the DRC Vacation Application, provide a current certified boundary survey (within last 6 months) that is signed and sealed.
 - b. Verify the northern limits of the right-of-way to be vacated (adjacent to the Tarpon River).
2. Critical elements of City's water and sewer infrastructure are located within the right-of-way, particularly the SE 4th Avenue ROW Vacation Area, including 30-inch diameter transmission water main and sewer pump station PS A-16. The applicant must provide a Letter of No Objection from the City's Public Works Department for the vacation of the right-of-way in question and address the issue of relocation of critical utilities infrastructure. Please contact City's Public Works Department staff, Igor Vassiliev, P.E. at ivassiliev@fortlauderdale.gov or 954-828-5862 for additional coordination.
3. 4. Provide copy of latest corresponding Site Plan, so that it can be reviewed for consistency. Confirm that limits of proposed Right-of-way vacation are consistent with Site Plan.
5. Submit a stamped copy of the surveyor's sketch and legal description to the City's Surveyor for his review and approval of the Easement to be considered for vacation. A copy of the recorded certificate is to be provided to the City upon recordation. The City Engineer's certificate shall also state that all existing facilities located within the vacated right-of-way have been relocated or abandoned to the satisfaction of the respective utility owners. Please note that prior to Engineer certificate being executed, letters from the City's Public Works Department and franchise utilities indicating relocation/ removal of their facilities and any easement requirements have been completed/ recorded to their satisfaction shall be provided to the City Engineer or designee.
 - a. Please be advised that additional Easements may need to be dedicated to the City resulting from the Vacation of Rights-of-Way approval process, including Utility Easement(s) that allow the City perpetual maintenance access to existing public sewer, storm drain, and water infrastructure, and Access Easement(s) that mitigate an otherwise dead-end Alley condition.
