**CITY OF FORT LAUDERDALE
City Commission Agenda Memo
REGULAR MEETING**

#25-0158

TO: Honorable Mayor & Members of the
Fort Lauderdale City Commission

FROM: Susan Grant, Acting City Manager

DATE: March 4, 2025

TITLE: Resolution Accepting An Appropriation of Community Development Block Grant Disaster Recovery (CDBG-DR) Funds in the Amount of \$88,051,000 and Authorizing the City Manager to Enter into Agreements, Subject to Compliance with the City's Procurement Policies, Rules and Procedures and Subject to City Commission Approval of the CDBG-DR Action Plan and Processes and Procedures for Administering and Governing the Plan - **(Commission Districts 1, 2, 3 and 4)**

Recommendation

Staff recommends the City Commission approve, by resolution, the acceptance of Community Development Block Grant Disaster Recovery (CDBG-DR) in the amount of Eighty-eight Million Fifty-one Thousand Dollars and Zero Cents (\$88,051,000) and Authorize the City Manager to enter into agreements and execute all documents associated with this funding source including serving as the certifying officer for all environmental reviews, subject to compliance with certain conditions as further set forth in the Resolution.

Background

On January 16, 2025, in volume 90 Number 10 of the Federal Register Notices, it was announced that City of Fort Lauderdale was allocated 88,051,000 in CDBG-DR. The allocation is for unmet needs and mitigation activities under public law 118-158 for disasters occurring in 2023 and 2024. See Exhibit 1.

On April 12, 2023, the City experienced a 1,000-year flood which destroyed property and highlighted the need for mitigation efforts to prevent or lessen the severity of future events.

This allocation of CDBG-DR funding, if accepted by the commission, will provide the needed resources to fully recover from disasters that occurred in 2023-2024 and mitigate against similar future events.

Activates eligible under this grant include but are not limited to:

- Constructing new housing for residents located in a floodplain.

- Buying severely damaged structures and relocating the affected household or business out of harm's way.
- Debris removal (when it is not covered by another source, such as FEMA);
- Rehabilitation of homes or buildings damaged by the disaster.
- Constructing or rehabilitating public facilities or improvements (e.g., streets, neighborhood centers, and water/sewer/drainage systems).
- Costs of environmental reviews and mitigation to offset environmental impacts.
- Code enforcement.
- Homeownership assistance (e.g., down payment assistance, interest rate subsidies, and loan guarantees).
- Public services (generally limited to no more than 15 percent of the grant);
- Helping businesses retain or create jobs.
- Planning (limited to 15 % of the award)
- Administration (limited to 5% of the award).

The next step is for staff to prepare an Administrative Action Plan to assess the administrative funding. In addition to providing funding for City staff to begin administering the grant, administrative funding will allow the City to procure a vendor to conduct a needs assessment, develop a programmatic action plan, develop policies and procedures for general grant compliance, and manage associated activities. The programmatic action plan developed in conjunction with the vendor will be presented to the City Commission for approval.

Resource Impact

Contingent on the acceptance and associated consolidated budget amendment this action will result in a positive fiscal impact on the City in the amount of \$88,051,000.

Updated: March 6, 2025

Purpose

The U.S. Small Business Administration (SBA) provides low-interest, long-term disaster loans to businesses of all sizes, private nonprofit organizations, homeowners and renters following a declared disaster. Through the disaster loan program, SBA has collected certain data which may be useful to states, territories, tribes, and local government jurisdictions and voluntary agencies in developing or updating various plans, including but not limited to response, recovery or mitigation plans and/or identifying a duplication of benefits (DOB) when administering their disaster assistance programs. SBA will share relevant data with states, territories, tribes, and local government jurisdictions and voluntary agencies; however, if the data contains personally identifiable information (PII) a Memorandum of Understanding (MOU) must first be prepared and signed by both SBA and the authorized requesting party. The purpose of the MOU is to avoid duplication of benefits. Certain information may be available without an MOU. [SBA disaster loan information](#) is publicly available.

MOUs are available for parties to avoid duplication of benefits. The following pages include an MOU template (Appendix A) and a menu of commonly requested data fields that SBA may provide (Appendix B). SBA can make the data available to the State or local government in various formats, including excel, portable document format (PDF), and comma-separated values (CSV). The MOU may include only those listed data fields that are relevant to the issuance of a grant, loan, or other benefit under the requestor's program.

Instructions

2. Label your document with the SBA disaster number and the Name of State, Territory, Tribe, or Local Government Jurisdiction, or Voluntary Agency.
3. Submit first draft of MOU to SBA for review (see contact information below). SBA will review draft and make edits, if necessary. If no changes are required, SBA will inform the requesting party that the MOU may be signed by the authorized signing official.
4. Return a signed electronic copy of the MOU draft to SBA. Once received, SBA will review, sign and return a copy of the executed MOU to the requestor for their records.
5. Once the MOU has been signed by both parties, SBA will run the initial request for data and begin providing regular reports per the reporting schedule set by the terms in the MOU.
