PROJECT DESCRIPTION

The applicant is proposing to rezone 22,499 square feet of land (0.516 acres) located at 728 NW 3rd Street, 204 and 216 NW 8th Avenue from Residential Multifamily Mid-Rise/Medium-High Density (RMM-25) District to Northwest Regional Activity Center – Mixed Use West (NWRAC-MUw) District. The parcels have an underlying land use designation of Northwest Regional Activity Center (NWRAC). The parcels are also located within the Northwest-Progresso-Flagler Heights Community Redevelopment Area. The request to rezone the properties is intended to unify the block with the same NWRAC-MUw zoning district that the eastern portion of the block is currently zoned. No site plan has been submitted at this time.

The location map is included as **Exhibit 1**. The application, applicant's responses to criteria, and sketch and legal description are provided as **Exhibit 2**.

REVIEW CRITERIA

Pursuant to ULDR Section 47-24.4, Rezoning, an application for a rezoning shall be reviewed in accordance with the following criteria:

1. The zoning district proposed is consistent with the City's Comprehensive Plan.

Rezoning the Property to NWRAC-MUw is consistent with the underlying future land use designation of Northwest Regional Activity Center. Please refer to the Comprehensive Plan Consistency section herein for additional information.

2. The changes anticipated by the proposed rezoning will not adversely impact the character of development in or near the area under consideration.

The proposed rezoning of the parcels to NWRAC-MUw will not adversely impact the character of development in or near the area under consideration. The Property is surrounded by properties zoned RMM-25 to the west and NWRAC-MUw to the north, east and south. The Northwest-Progresso-Flagler Heights Redevelopment Plan promotes the renovation of existing structures with new infill development to help support local commerce and community revitalization. Rezoning of properties to NWRAC-MUw is in alignment with the goal of supporting redevelopment opportunities and is consistent with the vision outlined in the Northwest RAC Design Guidelines Plan.

3. The character of the area proposed is suitable for the uses permitted in the proposed zoning district and is compatible with surrounding districts and uses.

The proposed zoning district is intended to promote and enhance the existing mix of uses and character of the area. The NWRAC area generally includes a higher intensity of uses along the corridors which transition to lower densities and intensities of the surrounding neighborhood. The rezoning of the Property to NWRAC-MUw is compatible with the existing and proposed mix of uses along NW 7th Avenue. The parcels are surrounded by properties zoned RMM-25 to the west and NWRAC-MUw to the north, east and south. The proposed rezoning of the parcels expands the NWRAC-MUw mixed use zoning westward, consistent with the underlying NWRAC land use. Further, pursuant to ULDR Section 47-13.29, future developments are required to meet the Northwest Regional Activity Center Design Standards, which include but are not limited to building orientation, architectural requirements, open space, vehicular and pedestrian access, building materials, active ground floor uses and facades. Additional standards for parking facilities, landscaping, signage, and streetscapes will also be applied during the development review process at the time of site plan application to further ensure neighborhood compatibility.

For a detailed list of uses, refer to ULDR Section 47-5.19, List of Permitted and Conditional uses, Residential Multifamily Mid Rise/ Medium High RMM-25 District and ULDR Section 47-13.10, List of Permitted and Conditional uses, Northwest Regional Activity Center-Mixed Use west (NWRAC-MUw).
