THIS SERVICE AGREEMENT for Laboratory Field Sampling and Testing Services for the Prospect Lake Clean Water Center ("Agreement"), made and entered into this 14 day of July, 2025, by and between the City of Fort Lauderdale, a Florida municipality ("City"), with its principal address located at 101 NE 3rd Avenue, Suite 2100, Fort Lauderdale, Florida 33301, and Eurofins Environment Testing Southeast, LLC ("Contractor" or "Company"), a Delaware limited liability company authorized to transact business in the state of Florida, with its principal address at 481 Newburyport Avenue, Altamonte Springs, Florida 32701, Phone: (407) 339-5984, Email: Robert.Dempsey@ET.EurofinsUS.com; (individually, "Party," or collectively, "Parties").

- (1) Request for Proposals (RFP) Event No. 399-2 – Laboratory Field Sampling and Testing Services, including any and all exhibits and addenda prepared by the City of Fort Lauderdale, ("RFP" or "Exhibit A");
- (2) The Contractor's response to the RFP, dated February 13, 2025, ("Exhibit B").

All Contract Documents may also be collectively referred to as the "Documents." In the event of any conflict between or among the Documents or any ambiguity or missing specifications or instruction, the following priority is established:

- A. First, this Agreement dated July 14, 2025, and any attachments.
- B. Second, Exhibit A.
- C. Third, Exhibit B.

II. SCOPE

The Contractor shall perform the work under the general direction of the City as set forth in the Contract Documents.

Unless otherwise specified herein, the Contractor shall perform all Work identified in this Agreement including, but not limited to, providing all labor, equipment, materials and

supplies necessary or incidental to provide laboratory field sampling and testing services for the Prospect Lake Clean Water Center for the City of Fort Lauderdale's Public Works Department, in accordance with the terms, conditions and specifications outlined in "Exhibit A." The Parties agree that the Scope of Services is a description of Contractor's obligations and responsibilities, and is deemed to include preliminary considerations and prerequisites, and all labor, materials, equipment, and tasks which are such an inseparable part of the Work described that exclusion would render performance by Contractor impractical, illogical, or unconscionable.

Contractor acknowledges and agrees that the City's Contract Administrator has no authority to make changes that would increase, decrease, or otherwise modify the Scope of Services to be provided under this Agreement. Any change orders to the Scope of Services or amendments to the Contract Documents must be authorized by the City Manager, or designee, and approved by the City Commission whenever required in compliance with the Charter and Code of Ordinances for the City of Fort Lauderdale.

By signing this Agreement, the Contractor represents that it has thoroughly reviewed the documents incorporated into this Agreement by reference and that it accepts the description of the Work and the conditions under which the Work is to be performed.

III. TERM OF AGREEMENT

The Contractor recognizes that TIME IS OF THE ESSENCE. The Work shall commence within **FOURTEEN (14)** calendar days of the date of the Notice to Proceed.

The Work shall be Substantially Completed within **SEVEN HUNDRED (700)** calendar days after the date when the Contract Time commences to run as provided in the Notice to Proceed.

IV. COMPENSATION

The Contractor agrees to provide the services and/or materials as specified at in the Contract Documents at the cost specified in Exhibit B. It is acknowledged and agreed by Contractor that this amount is the maximum payable and constitutes a limitation upon City's obligation to compensate Contractor for Contractor's services related to this Agreement. This maximum amount, however, does not constitute a limitation of any sort upon Contractor's obligation to perform all items of work required by or which can be reasonably inferred from the Scope of Services. Except as otherwise provided in the solicitation, no amount shall be paid to Contractor to reimburse Contractor's expenses.

V. METHOD OF BILLING AND PAYMENT

Contractor may submit proper invoices for compensation no more often than monthly, but only after the services for which the invoices are submitted have been completed. An

original invoice plus one copy are due within fifteen (15) days of the end of the month. Invoices shall designate the nature of the services performed and/or the goods provided.

City shall pay Contractor within forty-five (45) days of receipt of Contractor's proper invoice, as provided in the Florida Local Government Prompt Payment Act, as may be amended or revised.

To be deemed proper, all invoices must comply with the requirements set forth in this Agreement and must be submitted on the form and pursuant to instructions prescribed by the City's Contract Administrator. Payment may be withheld for failure of Contractor to comply with a term, condition, or requirement of this Agreement.

Notwithstanding any provision of this Agreement to the contrary, City may withhold, in whole or in part, payment to the extent necessary to protect itself from loss on account of inadequate or defective work that has not been remedied or resolved in a manner satisfactory to the City's Contract Administrator or failure to comply with this Agreement. The amount withheld shall not be subject to payment of interest by City.

VI. GENERAL CONDITIONS

A. Indemnification

Contractor shall protect and defend at Contractor's expense, counsel being subject to the City's approval, and indemnify and hold harmless the City and the City's officers, employees, volunteers, and agents from and against any and all losses, penalties, fines, damages, settlements, judgments, claims, costs, charges, expenses, or liabilities, including any award of attorney fees and any award of costs, in connection with or arising directly or indirectly out of any act or omission by the Contractor or by any officer, employee, agent, invitee, subcontractor, or sublicensee of the Contractor. The provisions and obligations of this section shall survive the expiration or earlier termination of this Agreement. To the extent considered necessary by the City Manager, any sums due Contractor under this Agreement may be retained by City until all of City's claims for indemnification pursuant to this Agreement have been settled or otherwise resolved, and any amount withheld shall not be subject to payment of interest by City. This section shall survive any cancellation or early termination of this Agreement.

B. Intellectual Property

Contractor shall protect and defend at Contractor's expense, counsel being subject to the City's approval, and indemnify and hold harmless the City from and against any and all losses, penalties, fines, damages, settlements, judgments, claims, costs, charges, royalties, expenses, or liabilities, including any award of attorney fees and any award of costs, in connection with or arising directly or indirectly out of any infringement or allegation of infringement of any patent, copyright, or other intellectual property right in connection with the Contractor's or the City's use of any copyrighted, patented or un-patented invention, process, article, material, or device that is manufactured, provided, or used pursuant to this Agreement. If the Contractor uses any design, device, or materials covered by letters, patent or copyright, it is mutually agreed and

understood without exception that the bid prices shall include all royalties or costs arising from the use of such design, device, or materials in any way involved in the work.

C. Termination for Cause

The City may terminate this Agreement for cause if the Contractor has not corrected the breach within ten (10) days after written notice from the City identifying the breach. The City Manager may also terminate this Agreement upon such notice as the City Manager deems appropriate under the circumstances in the event the City Manager determines that termination is necessary to protect the public health or safety. The Parties agree that if the City erroneously, improperly, or unjustifiably terminates for cause, such termination shall be deemed a termination for convenience, which shall be effective thirty (30) days after such notice of termination for cause is provided.

This Agreement may be terminated for cause for reasons including, but not limited to, Contractor's repeated (whether negligent or intentional) submission for payment of false or incorrect bills or invoices, failure to perform the work to the City's satisfaction; or failure to continuously perform the work in a manner calculated to meet or accomplish the objectives as set forth in this Agreement.

D. Termination for Convenience

The City reserves the right, in its best interest as determined by the City, to cancel this Agreement for convenience by giving written notice to the Contractor at least thirty (30) days prior to the effective date of such cancellation. In the event this Agreement is terminated for convenience, Contractor shall be paid for any services performed to the City's satisfaction pursuant to the Agreement through the termination date specified in the written notice of termination. Contractor acknowledges and agrees that it has received good, valuable, and sufficient consideration from City, the receipt and adequacy of which are hereby acknowledged by Contractor, for City's right to terminate this Agreement for convenience.

Contractor's insurance coverage shall be primary insurance for all applicable policies, in respect to the City's interests for this Agreement. All insurance policies shall be through insurers authorized or eligible to write policies in the State of Florida and possess an A.M. Best rating of A-, VII or better, subject to approval by the City's Risk Manager.

The coverages, limits, and/or endorsements required herein protect the interests of the City, and these coverages, limits, and/or endorsements shall in no way be relied upon by Contractor for assessing the extent or determining appropriate types and limits of coverage to protect Contractor against any loss exposures, whether as a result of this Agreement or otherwise. Violation of this Section shall result in termination of this Agreement and recovery of all monies paid by City pursuant to this Agreement and may result in debarment from City's competitive procurement activities.

L. Independent Contractor

Contractor is an independent contractor under this Agreement. Services provided by Contractor pursuant to this Agreement shall be subject to the supervision of the Contractor. In providing such services, neither Contractor nor Contractor's agents shall act as officers, employees, or agents of City. City does not extend to Contractor or Contractor's agents any authority of any kind to bind City in any respect whatsoever.

M. Inspection and Non-Waiver

Contractor shall permit the representatives of City to inspect and observe the Work at all times.

The failure of the City to insist upon strict performance of any other terms of this Agreement or to exercise any rights conferred by this Agreement shall not be construed by Contractor as a waiver of the City's right to assert or rely on any such terms or rights on any future occasion or as a waiver of any other terms or rights.

N. Assignment and Performance

Neither this Agreement nor any right or interest herein shall be assigned, transferred, or encumbered without the prior written consent of the other Party. In addition, Contractor shall not subcontract any portion of the Work required by this Agreement, except as provided in the Schedule of Subcontractor Participation. Neither Contractor nor any of Contractor's employees shall have or hold any continuing or frequently recurring employment or contractual relationship that is substantially antagonistic or incompatible with Contractor's loyal and conscientious exercise of judgment and care related to Contractor's performance under this Agreement.

Contractor further agrees that none of Contractor's officers or employees shall, during the term of this Agreement, serve as an expert witness against City in any legal or administrative proceeding in which he, she, or Contractor is not a party, unless compelled by court process. Further, Contractor agrees that such persons shall not give sworn testimony or issue a report or writing, as an expression of his or her expert opinion, which is adverse or prejudicial to the interests of City in connection with any such pending or threatened legal or administrative proceeding unless compelled by court process. The limitations of this section shall not preclude Contractor or any persons in any way from representing themselves, including giving expert testimony in support thereof, in any action or in any administrative or legal proceeding.

In the event Contractor is permitted pursuant to this Agreement to utilize subcontractors to perform any services required by this Agreement, Contractor agrees to require such subcontractors, by written contract, to comply with the provisions of this section to the same extent as Contractor.

P. Schedule and Delays

Time is of the essence in this Agreement. By signing, Contractor affirms that it believes the schedule to be reasonable; provided, however, the Parties acknowledge that the schedule might be modified as the City directs.

Q. Materiality and Waiver of Breach

City and Contractor agree that each requirement, duty, and obligation set forth herein was bargained for at arm's-length and is agreed to by the Parties in exchange for quid pro quo, that each is substantial and important to the formation of this Agreement and that each is, therefore, a material term hereof.

City's failure to enforce any provision of this Agreement shall not be deemed a waiver of such provision or modification of this Agreement. A waiver of any breach of a provision of this Agreement shall not be deemed a waiver of any subsequent breach and shall not be construed to be a modification of the terms of this Agreement.

R. Compliance With Laws

Contractor shall comply with all applicable federal, state, and local laws, codes, ordinances, rules, and regulations in performing Contractor's duties, responsibilities, and obligations pursuant to this Agreement.

S. Severance

T. Limitation of Liability

The City desires to enter into this Agreement only if in so doing the City can place a limit on the City's liability for any cause of action for money damages due to an alleged breach by the City of this Agreement, so that its liability for any such breach never exceeds the sum of \$1,000. Contractor hereby expresses its willingness to enter into this Agreement with Contractor's recovery from the City for any damage action for breach of contract or for any action or claim arising from this Agreement to be limited to a maximum amount of \$1,000 less the amount of all funds actually paid by the City to Contractor pursuant to this Agreement.

Accordingly, and notwithstanding any other term or condition of this Agreement, Contractor hereby agrees that the City shall not be liable to Contractor for damages in an amount in excess of \$1,000 which amount shall be reduced by the amount actually paid by the City to Contractor pursuant to this Agreement, for any action for breach of contract or for any action or claim arising out of this Agreement. Nothing contained in this paragraph or elsewhere in this Agreement is in any way intended to be a waiver of the limitation placed upon City's liability as set forth in Section 768.28, Florida Statutes (2024), as may be amended or revised. This section shall survive any cancellation or early termination of this Agreement.

U. Jurisdiction, Venue, Waiver, Waiver of Jury Trial

The Agreement shall be interpreted and construed in accordance with, and governed by, the laws of the state of Florida. The Parties agree that the exclusive venue for any lawsuit arising from, related to, or in connection with this Agreement shall be in the state courts of the Seventeenth Judicial Circuit in and for Broward County, Florida. If any claims arising from, related to, or in connection with this Agreement must be litigated in federal court, the Parties agree that the exclusive venue for any such lawsuit shall be in the United States District Court or United States Bankruptcy Court for the Southern District of Florida. **BY ENTERING INTO THIS AGREEMENT, THE PARTIES HEREBY EXPRESSLY WAIVE ANY AND ALL RIGHTS EITHER PARTY MIGHT HAVE TO A TRIAL BY JURY OF ANY ISSUES RELATED TO THIS AGREEMENT. IF A PARTY FAILS TO WITHDRAW A REQUEST FOR A JURY TRIAL IN A LAWSUIT ARISING OUT OF THIS AGREEMENT AFTER WRITTEN NOTICE BY THE OTHER PARTY OF VIOLATION OF THIS SECTION, THE PARTY MAKING THE REQUEST FOR JURY TRIAL SHALL BE LIABLE FOR THE REASONABLE ATTORNEYS' FEES AND COSTS OF THE OTHER PARTY IN CONTESTING THE REQUEST FOR JURY TRIAL, AND SUCH AMOUNTS SHALL BE AWARDED BY THE COURT IN ADJUDICATING THE MOTION.**

W. Prior Agreements

This document represents the final and complete understanding of the Parties and incorporates or supersedes all prior negotiations, correspondence, conversations, agreements, and understandings applicable to the matters contained herein. The Parties agree that there is no commitment, agreement, or understanding concerning the subject matter of this Agreement that is not contained in this written document. Accordingly, the Parties agree that no deviation from the terms hereof shall be predicated upon any prior representation or agreement, whether oral or written.

X. Payable Interest

Except as required and provided for by the Florida Local Government Prompt Payment Act, City shall not be liable for interest for any reason, whether as prejudgment interest or for any other purpose, and in furtherance thereof Contractor waives, rejects, disclaims and surrenders any and all entitlement it has or may have to receive interest in connection with a dispute or claim based on or related to this Agreement.

Y. Representation of Authority

Each individual executing this Agreement on behalf of a party hereto hereby represents and warrants that he or she is, on the date he or she signs this Agreement, duly authorized by all necessary and appropriate action to execute this Agreement on behalf of such party and does so with full legal authority.

Z. Uncontrollable Circumstances ("Force Majeure")

The City and Contractor will be excused from the performance of their respective obligations under this Agreement when and to the extent that their performance is delayed or prevented by any circumstances beyond their control including, fire, flood, explosion, strikes or other labor disputes, act of God or public emergency, war, riot, civil commotion, malicious damage, act or omission of any governmental authority, delay or failure or shortage of any type of transportation, equipment, or service from a public utility needed for their performance, provided that:

1. The non-performing party gives the other party prompt written notice describing the particulars of the Force Majeure including, but not limited to, the nature of the occurrence and its expected duration, and continues to furnish timely reports with respect thereto during the period of the Force Majeure;
2. The excuse of performance is of no greater scope and of no longer duration than is required by the Force Majeure;
3. No obligations of either party that arose before the Force Majeure causing the excuse of performance are excused as a result of the Force Majeure; and
4. The non-performing party uses its best efforts to remedy its inability to perform. Notwithstanding the above, performance shall not be excused under this Section for a period in excess of two (2) months, provided that in extenuating circumstances, the City may excuse performance for a longer term. Economic hardship of the Contractor will not constitute Force Majeure. The term of the Agreement shall be extended by a period equal to that during which either Party's performance is suspended under this Section.

Supplier	Question	Answer
Eurofins Environment Testing Southeast, LLC	What type of field sampling will be required?	<p>Many of the samples will be used to verify performance of equipment and rapid analysis/results is preferred. Where reliable field analysis is possible (e.g. pH, temperature, conductivity), field analysis can be substituted for laboratory analysis in many instances. If FDEP requires analyses to be conducted in a certified laboratory with methods that are not available in the field, the analyses shall be completed in a lab (examples may include injection well injectate sampling/analysis, sampling related FDEP clearance of the water system, etc.).</p> <p>Collection of samples at multiple locations within the water treatment plant will be required. Equipment and methods shall conform to the standards and requirements of the methods to be used for the sample analysis and any required sampling tools/accessories (e.g. sample containers, stabilizers, controlled storage and handling materials, etc.) shall be furnished by the Supplier.</p>
Eurofins Environment Testing Southeast, LLC	How many days of the week is the anticipated field sampling schedule?	Can be 1-2 days a week or all 7 days a week depending on sampling needs of Contractor. Will vary throughout project.
Eurofins Environment Testing Southeast, LLC	With regards to the type of sampling equipment that will be needed, are samples going to be taken from groundwater wells? There is a link in the bid documents, but the link isn't working for me.	<p>Please use this link:</p> <p>https://www.fortlauderdale.gov/home/showpublisheddocument/80648/638441220235600000</p>
Eurofins Environment Testing Southeast, LLC	Regarding the process for submitting pricing, there appears to be a single line item response. Is that intended to be the Grand Total from F151 of the Attachment A - Analyte List? Should it include the sampling costs and Project Management costs?	The cost proposal page lists one field for "Project Management Services" and one field for "Sampling, Testing, and Reporting". Together, the "Total Bid" amount would include all services listed in the RFP and in the amounts listed on Attachment A - Analyte List.
Eurofins Environment Testing Southeast, LLC	Can you provide a template for the proposal bond and also for the payment and performance bond?	The City does not have a template for the proposal bond. The payment and performance bond template will be given to the awarded vendor.

Supplier	Question	Answer
Advanced Environmental Laboratories, Inc.	For dissolved iron, are samples required to be field filtered or is it acceptable to filter back in the lab? If field filtering is required, who provides the filters?	It is acceptable to filter in the lab.
Advanced Environmental Laboratories, Inc.	Define the test method for sand concentration. Neither sand concentration nor grain size are certified parameters by FDOH. Results will be uncertified.	Our understanding of this EPA method is that it only provides concentration and does not define a particle size distribution. Originally, this had been identified to be Standard Method 2560. Sand concentration is an Annex G parameter as is Sand/soil particle size distribution. I think that we may want to respond that "The test method is Standard Method 2560 or suitable equivalent that will define both concentration and particle size distribution. Uncertified results are acceptable."
Advanced Environmental Laboratories, Inc.	Is "beta photon emitters" (bid item 76) supposed to be "Gross beta" EPA Method 900.0?	Yes.
Advanced Environmental Laboratories, Inc.	Is "alpha/photon emitters" (bid item 75) supposed to be "Gamma photon emitters" EPA Method 901.1?	It is Gross Alpha per EPA Method 900.0. Gamma isn't listed in the primary standards.
Advanced Environmental Laboratories, Inc.	Is radium 226 and 228 (combined) (bid item 82) independent of the radium 226 and radium 228 line items (bid items 81 and 83), or is it calculated from these two analyses?	Calculated from the two analyses is ok.
Advanced Environmental Laboratories, Inc.	Specify which strontium analysis is required for bid item 84? Is this the radioactive isotope Strontium 90?	EPA 200.7.
Advanced Environmental Laboratories, Inc.	Will carbonate and bicarbonate (bid items 69 and 70) be a subset of alkalinity or will they need to be analyzed independently?	A subset of alkalinity is acceptable, as long as we have pH and alkalinity that would let us calculate carbonate, bicarbonate and CO2 if needed.
Advanced Environmental Laboratories, Inc.	Is there a detailed sampling plan for this project so we can estimate the level of effort for onsite sampling? Will all samples be collected from easily accessed taps? Is there groundwater well sampling required? How many days per week on site?	The sampling for the water treatment scope of work would only require sampling from the influent water once inside the plant boundary; any sampling of groundwater wells would be at the city's discretion. Can be 1-2 days a week or all 7 days a week depending on sampling needs of Contractor. Will vary throughout project. All samples will be collected from easily accessed taps.
Eurofins Environment Testing Southeast, LLC	4.2 Contents of the Proposal The City prefers that proposals be no more than 100 pages... Does the 100 page limit include supporting documentation such as Scopes of Accreditation?	The 100-page limit is inclusive of all your documents.

Supplier	Question	Answer
SGS North America Inc.	sampling	The requested sampling does not include testing direct from the raw water wells. In the case of the injection well monitoring well, the sample pumps and tubing will be installed and operational for sampling of the water for the monitoring well.
Eurofins Environment Testing Southeast, LLC	Can you extend the due date by one week to allow for bond/cashier's check to be processed?	Addendum 1 extended the Bid Due Date to 2/18/25.
Eurofins Environment Testing Southeast, LLC	Since the laboratory will be performing sampling, can we providing sampling cost as a line item per hour rate? How should we add that to the pricing table?	The RFP is a lump sum, request for proposal. The cost to complete all services listed, should be included in the final proposed price. support services to the environmental, pharmaceutical, food, agriscience and consumer products industries and to governments.

Eurofins Environment Testing Southeast, LLC has a line of credit with Eurofins and had revenues of \$39 Million in 2023 with positive EBITA and a solid balance sheet. Eurofins Environment Testing Southeast also can receive cash funding from the parent company if required.

Any further information or questions can be directed to the CFO, Ms. Heather Collins Villemaire at 234-214-3978.

Project Management

We propose Ms. Shelby Sharp to serve as the laboratory project manager. Ms. Sharpe has worked in the environmental industry since 2021. She has bachelor's degree in chemistry from the Lindenwood University in Saint Charles, Missouri. Manages, organizes and coordinates with clients and laboratory personnel to successfully complete client specific projects. Manages multiple tasks under high pressure with minimal supervision. Teamwork orientated. Knowledgeable in laboratory testing using standardized SM and EPA methods and NELAP regulations in a variety of matrices.

4.2.4 Approach to Scope of Work

The laboratory understands that the City of Fort Lauderdale, Florida (City) seeks a qualified, experienced and accredited laboratory to provide sampling and testing services in support of the startup of your new Prospect Lake Clean Water Center (PLCWC) water treatment facility.

We propose our Eurofins Orlando laboratory to provide sampling, primary analytical testing, and logistical services. The lab will be supported, as needed, by our network of independent laboratories. And we plan to subcontract Enteric viruses, cryptosporidium, and giardia testing to BCS Laboratories, Inc.

Schedule

The services required by City are routinely provided by our laboratory. We have the equipment, personnel, processes and all necessary resources in place and **are ready to begin work immediately upon award/notice to proceed**. We understand City requires project be completed within 730 days from City Notice to Proceed.

Workflow

Eurofins Orlando has the resources and established systems in place to support City's program. This work fits into our current workflow, and we are ready to begin support immediately upon notification to proceed.

Laboratory Requirements

General

Eurofins Orlando has the infrastructure, personnel, equipment, resources, and management organization necessary to provide services required for the City.

The proposed laboratories hold accreditation and are in good standing with the Florida Department of Health, National Environmental Laboratory Accreditation Program (NELAP). We commit to maintaining appropriate capabilities throughout the duration of this contract.

We understand that any work onsite requires our employees to:

- have a picture badge
- to write and speak English
- and to wear appropriate safety gear (PPE) at all times while on the project

We understand that work may be required off-hours.

The laboratory maintains backup instrumentation and cross-trained personnel, the likelihood of an incident resulting in our inability to provide the required testing services is very low. But should such an event occur, we will work with our network of independent laboratory and 3rd party subcontractors to complete the required testing.

Project Management

Efficient and effective project management is of prime importance to the successful execution of any contract. In our experience, it is the key to building lasting client relationships.

Eurofins approach focuses on the Project Manager (PM). The PM's role is to provide a single point-of-contact communication link between City and Eurofins.

Supported by a team of experienced laboratory managers working together to plan, coordinate, integrate and monitor project activities, our PM's responsibility is to ensure that we meet your technical and contractual requirements and accomplish your analytical goals.

We are most successful when our PM can be involved as a virtual member of your project team; in dialogue from initial contact until data is reported, and available to answer questions or provide additional information after project completion.

Ms. Shelby Sharp is proposed as Eurofins Orlando's lead PM for this project. A trained, experienced backup will be designated if your primary PM is unavailable. In addition, the PM will be supported by the laboratory's management hierarchy, which includes the Laboratory Director, Operations Managers, and Quality Assurance Manager. These positions provide support in

capacity and resource management and ensure the level of quality and customer service that City expects.

Eurofins Project Manager will:

- Respond in a timely manner to all requests
- Provide technical information to assist your field team
- Interface with project personnel, laboratory personnel, and sampling crew to plan and schedule sampling events
- Organize, schedule and/or attend project specific planning calls with your project team as necessary
- Serve as consultant for field efforts to optimize batch sizes, arrange sample shipment and receipt, schedule delivery of bottles and associated materials

Onsite Sampling

Eurofins Orlando will provide sampling services. We will collect samples using approved methodologies, with appropriate collection techniques, preservation, and will fully document as appropriate.

We employ three full time field technicians with combined 30 years of experience. We also have one technician currently in training.

Testing and Reporting

Sample Receipt

When samples arrive at the laboratory, a designated sample custodian

- Inspects the cooler and custody seals
- Examines the contents of the cooler
- Records the cooler temperature
- Inspects all documents to ensure the samples received match the Chain of Custody (COC)

We document any non-conformance, irregularity or compromised sample receipt and notify City immediately. If the cooler's temperature upon arrival exceeds the required or method specified temperature range, we consider the sample receipt compromised. A sample custodian will record the temperature deviation in the project documentation.

Once we check and verify sample(s), we log them into the LIMS (Laboratory Information Management System). LIMS assigns each sample container a unique Sample Identification Number, which is cross-referenced to City's identification number. A sample custodian labels each sample container with its unique barcode for sample identification.

Within one business day of the completed login process, your Project Manager will email City the receipt confirmation and login summary.

If another laboratory, either network or external subcontractor, will be performing some of the analyses, we appropriately package and send out the samples under COC.

Following sample labeling, we place the sample(s) in an access-controlled storage area. We store all samples according to method requirements and in a manner preventing cross contamination or environmental contamination.

Unless specified by method or state regulation, we use a tolerance range of 0-6 degrees Celsius for samples that require cooling. We monitor and document the sample storage temperatures.

Sample Preparation, Analysis

As soon as we complete the sample login, LIMS notifies laboratory personnel of 1) samples that are ready for analysis 2) rush and short holding times so preparation and analysis can begin as soon as possible.

LIMS communicates the login information for each sample batch analysis group to the analyst. This includes identification of appropriate sample preparation, SOPs and extracts clean-up SOPs.

If an analyst encounters any issues during sample analysis, the analyst notifies the Project Manager. Your Project Manager will contact City to discuss, as appropriate. We capture any non-conformances in LIMS, and the quality assurance department tracks them. Your Project Manager monitors the status of the analyses through LIMS and through regular communication with any support laboratories.

Methodology

Eurofins uses the appropriate analytical methods for your analytical needs and requirements. Communication is important to ensure we implement the correct methods. Once we establish method requirements, your project manager will provide this information to laboratory operations and set up your project requirements in our Laboratory Information Management System (LIMS). These mechanisms ensure that we apply the proper analytical methods to your samples.

We perform routine analyses using standard EPA-approved methodology. The routine analytical methods are those currently accepted and approved by the EPA and local regulatory authority. If project or regulatory requirements mandate the use of specific methods, we will only use those methods.

Modification of standard approved methods may be necessary in some cases to provide accurate analyses of particularly complex matrices. EPA allows for this provided the appropriate verification is conducted and it is documented. Eurofins conforms to the requirements.

Eurofins strives to perform only the latest version of each approved method. Eurofins reviews the EPA updated methods and implements them as appropriate.

Data Processing

The analyst executes the first-tier review of all data at the bench level. The analyst is responsible for ensuring that the

- analytical data are correct and complete
- laboratory has followed the appropriate SOPs

- QC results are within acceptable limits.

The group leader/supervisor executes a second-tier technical review.

Upon approval and release of the data, the Eurofins Orlando lab compiles the data and performs a third-tier review for completeness.

Quality Assurance

Eurofins is committed to providing the highest quality data in the environmental testing industry. To ensure that our data meets City's requirements and complies with all regulations, we maintain a quality system that is clear, effective, well communicated and supported at all levels of the organization.

Our quality system is compliant with the TNI Standard, and all proposed laboratories hold NELAP accreditation.

Laboratory Quality Assurance Program

The laboratory has a dedicated Quality Assurance (QA) Manager. The QA Manager is responsible for the establishment, general overview and maintenance of the analytical quality assurance program within the laboratory, including oversight of the QA/QC programs and providing initial quality systems training to all new personnel and annual refresher training for all staff.

Eurofins Orlando maintains a Quality Assurance Manual (QAM) describing the specific Quality System at the laboratory level, including conformance with regulatory requirements in the jurisdiction where the work is performed.

Monthly, management review the quality program to assess the effectiveness of the quality systems. The quality metrics reports contain statistics on defined quality metrics and discuss improvements and weaknesses of the individual laboratory's quality system. The performance and improvement statistics include these key items:

- Client Complaints and Compliments
- Internal and External Audits
- Proficiency Test Studies
- Corrective Actions
- SOP and MDL Completion
- Accreditation Status

Proficiency Testing

All Eurofins laboratories participate semiannually in Proficiency Testing (PT) programs in support of their National Environmental Laboratory Accreditation Conference (NELAC) and State certification requirements. Eurofins laboratories' PT performance scores are routinely in the upper ten percentile.

In addition to the PT program required for NELAC accreditation, Eurofins facilities participate in several PT programs managed by other state agencies, clients, and by Eurofins itself. Private

contractors or government programs such as USACE may submit additional PT samples. These PT samples may be submitted as known performance evaluation tests, or as blind or double-blind samples. Periodic double-blind performance audits are conducted by Eurofins to assess all aspects of laboratory performance, from project management handling of project initiation through analysis, reporting and invoicing.

At a minimum, Performance Tests (PTs) are conducted semi-annually in conformance with the NELAP requirements. Any results determined to be outside the Acceptable range are investigated as non-conformances and resolved. Results of these analyses are made available upon request.

Integrity / Ethics Issues = Stop Work

Within Eurofins, the QA Manager has the final authority to accept or reject data and to stop work in progress in the event that procedures and practices compromise the validity and integrity of analytical data. The QA Manager is available to any employee at the facility to resolve data quality or ethical issues. The QA Manager position remains intentionally independent of laboratory operations holding a reporting relationship to the Quality Director.

Assuring the Quality of Analytical Results

To ensure the validity of our data, we continuously evaluate the quality of the analytical process and the specific data. Eurofins controls the analytical process through a number of measures, which include the requirements of the regulatory programs and their methods:

- Instrument calibration
- Routine process quality control measurements performed as required by the method or regulations to assess precision and accuracy
 - Blanks, various types, check for contamination
 - Laboratory Control Samples (LCS) measure the accuracy of the method in a blank matrix and assesses method performance independent of potential field sample matrix effects in a laboratory batch
 - Control of analytical process with control limits
 - ✓ Matrix Spikes (MS), Matrix Spikes Duplicate (MSD)
 - ✓ Duplicates (DUP)
 - ✓ Surrogates
 - ✓ Internal Standards (IS)
 - ✓ Calibration Verification
- Proficiency Testing (PT) samples with (concentrations unknown to laboratory) are analyzed to help ensure laboratory performance
- Data review
- Internal audits
- Use of certified reference materials
- Multiple levels of review during receiving and analysis to eliminate any errors

Reporting

Eurofins produces data deliverables that are compliant with the respective federal, state and project requirements. Eurofins will provide various types of data reports, based on your project's needs.

Our laboratories provide data results in your selected electronic format directly from our proprietary Laboratory Information Management System (LIMS). The EDD programs extract the data from the same LIMS database libraries as those used to create the final report.

Level II reports include a Case Narrative, Executive Summary, Method and Sample Summaries, Analytical Results by Sample, a QC section with results for the Method Blank, LCS and site-specific Matrix Spike/Spike Duplicates, and Chain-of-Custody documentation. A Level III report includes these items and Calibration curve and Raw Sample Data. A CLP-type or Level IV data packages includes the items listed above and all raw data, including instrument printouts and chromatograms.

Sample results are immediately available on MyEOL®. And we email the data in an electronic file and/or PDF format to the appropriate City contact when the analysis of the sample group is completed.

If you do not have a number, see *How to get a TIN*, later.

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS is giving you this form to provide the

MEMORANDUM

Date: January 23, 2025

To: Violet Fanning

CC: John Wilson

From: Sherry Kissner

Subject: City of Ft. Lauderdale, FL RFP Comment Memo

Eurofins Environment Testing Southeast, LLC ("EETSE") Contracts Department has reviewed the City of Fort Lauderdale FL Request for Proposals for Lab Sampling and Testing Services (Event No. 399) and has the following comments and proposed changes:

General Conditions**5.08 INDEMNITY/HOLD HARMLESS AGREEMENT:**

EETSE believes that indemnification clauses should reflect a fair and equitable allocation of the risk involved in the work. EETSE will not accept liability for a client's negligence. We request the following language be added to this section:

Contractor's duty to indemnify, defend and hold harmless City shall not apply to the extent the injury, loss or damage resulted from the negligent acts or omissions of City and/or City's officers, employees, volunteers and agents.

5.10 TERMINATION FOR CONVENIENCE:

EETSE expects to be compensated for all work properly completed plus any costs incurred as a result of such termination. We request the following be added to this section:

Contractor shall complete all work in progress and shall be paid for all work completed through the date of termination plus all costs incurred even if Contractor does not issue a final or partial report.

5.21 LIMITATION OF LIABILITY:

EETSE cannot accept the potential for unlimited damages in any project as we cannot incorporate the risk of such unforeseeable damages into our prices. We therefore propose the following as a new section:

Contractor's liability for any and all causes of action arising hereunder, whether based in contract, tort, warranty, negligence or otherwise, shall be limited to the lesser amount of compensation for the services performed or \$500,000. All claims, including those for negligence, shall be deemed waived unless suit thereon is filed within one year after Contractor's completion of the services. Under no circumstances, whether arising in contract, tort (including negligence), or otherwise, shall Contractor be responsible for loss of use, loss of profits, or for any special, indirect, incidental or consequential damages occasioned by the services performed or by application or use of the reports prepared.

Signature Authorization

I authorize Robert Dempsey, in his capacity as President for Eurofins Environment Testing Southeast, LLC, a company duly organized and in good standing under the laws of the State of Delaware, to sign bid proposal documents, contracts, etc. on behalf of Eurofins Environment Testing Southeast, LLC.
