Re: Water Taxi of Fort Lauderdale LLC; "The Landing" Water Taxi Terminal and Restaurant
1001 Seabreeze Boulevard, Fort Lauderdale, Florida

Dear Mayor, Vice Mayor, and Commissioners:

On behalf of Water Taxi of Fort Lauderdale LLC ("Water Taxi"), I am pleased to present this Proposal ("Proposal") to the City of Fort Lauderdale ("City"), pursuant to 255.065, Florida Statutes to construct, operate and maintain a Water Taxi Terminal, including dock master, ticket office and waiting area, and public restaurant and event space herein known as "The Landing." The project will be located on approximately .19 acres of City-owned property located at 1001 Seabreeze Boulevard, Fort Lauderdale, as described in Exhibit "A".

The Landing Description

The Project will be comprised of one four-story building of approximately 8600 square feet. Uses will include the following: first floor dock master and ticket sales, second floor indoor and outdoor waiting area on second floor, third floor indoor and outdoor restaurant, fourth floor indoor and outdoor event space.

Project Principals

The project team has considerable experience and financial ability to develop and successfully operate the Landing Water Taxi terminal and restaurant.

Bill Walker – Principal, CEO, Water Taxi of Fort Lauderdale

Mr. Walker and his team have a proven track record in leading successful ventures in business, the marine industry, and public service. Water Taxi of Fort Lauderdale was purchased in 2007

and has operated with a focus on branding, growth, community, and corporate partnerships. It has become the signature service in the Fort Lauderdale/Hollywood area as a tourist destination and private transportation system. This 150-employee business has excelled in providing preeminent guest services and excellent marine practices, coupled with a proven track record of safety and reliability. Some of Mr. Walker's major initiatives for the Water Taxi have included the following:

- Developed a system with multiple stops that allows local businesses and Water Taxi to provide guests a great experience at various destinations along the waterways.
- Created with management an employee training program on how to be "Ambassadors of Fort Lauderdale".
- Implemented growth in the business through marketing and partnerships with local businesses and government. Some examples are providing direct transportation to relieve traffic and enhance the guest experience for events such as the Air and Sea Show, 4th of July, and the Fort Lauderdale Boat Show.

Mr. Walker operated **Water Transportation Alternatives Inc. d/b/a Boston's Best Cruises** for many years until its recent sale. He developed a high-speed catamaran system that included the first bow loading ADA accessible catamarans. These catamarans had capacities from 200 to 350 guests and were operated for such purposes including the transport of over 400,000 guests per year for the Massachusetts Bay Transportation Authority and the Massachusetts Port Authority, 60,000 guests per year to conduct whale watching at the Stellwagen Bank National Marine Sanctuary, and as sole operator to provide transportation to and from the Boston Harbor Islands National Park.

These experiences transporting guests and providing public services, operating private ventures, along with extensive marketing operations have created excellent brand recognition. financial management, budget preparation, human resources management, government partnerships and implementing marine industries growth that will serve Mr. Walker and his management team very well in developing the Landing project and making it a success for the City of Fort Lauderdale.

Joseph M. Biordi – President, Adache Group Associates

Mr. Biordi leads the development team that has produced an iconic design for the Landing project. Being employed by Adache Group Architects for nearly 30 years, Joe Biordi, has been a principal for over a decade, and currently serves as President of the firm. In leading the company, he has been instrumental in bringing Adache to its current success. After receiving a Bachelor of Architecture from the New York Institute of Technology, Mr. Biordi spent his early career gaining experience and influence from the world-renowned architectural firm Architectonica. Following

that employment, Mr. Biordi brought his creative visions to a reality at Adache with a multitude of high-profile projects in the Americas and abroad. It's his technical and management experience along with the award-winning philosophy at Adache that brings his value to the firm. Mr. Biordi's past experience ranges from residential, high-rise apartments and condominiums to resorts, hotels and commercial and institutional projects in the United States, Latin America, and the Caribbean. His subtle approach to business has made him a popular member of the firm with clients, contractors, and governmental entities alike.

Cannatelli Builders

Cannatelli Builders has over 100 years of combined construction and real estate development experience. Cannatelli has a stellar reputation as a premier luxury construction and real estate developer for residential and commercial properties in South Florida. As owners and developers, the Company also maintains assets that it created, developed, built, and operates. Owners and their projects are treated to unmatched attention to detail that is known as the 'Cannatelli Difference,' because we analyze and understand the demands and concerns of every owner, as well as the public and customers that utilize the commercial properties Cannatelli develops. In carrying out quality construction through comprehensive design and construction management services, Cannatelli has expertise in implementing value engineering to save costs while managing any project from inception to completion. All project and construction managers possess in-depth knowledge of construction and development procedures and methods, and they engage in recurring training sessions to ensure that clients receive outstanding service throughout the construction process.

Water Taxi's Obligations and Payments to City

The following is an outline of Water Taxi's obligations and consideration to City:

- Water Taxi will be responsible to secure financing and pay for 100% of the capital costs of the project, estimated to exceeding Eight Million Dollars (\$8 million).
- Water Taxi will be responsible for 100% of the day-to-day operations costs of the project.
- Water Taxi will be responsible for 100% of the maintenance of the project.
- Water Taxi will make available the event space to City up to five (5) times a year for official City Events at no rental cost to City. City will be responsible for all costs and expenses incurred including food, beverages and/ or service costs to staff any such events.

City Obligations Including Property Interests and Rent Structure Required for the Project

The project requires a 30-year lease from the City of \$1 per year, with Water Taxi having the option to extend such term for an additional term of twenty (20) years.

City of Fort Lauderdale Mayor and Commissioners
