

**CITY OF FORT LAUDERDALE
City Commission Agenda Memo
REGULAR MEETING**

#13-1212

TO: Honorable Mayor & Members of the
Fort Lauderdale City Commission

FROM: Lee Feldman, ICMA-CM, City Manager

DATE: September 3, 2013

TITLE: Agreement with Broward County for Participation in the Consolidated
Regional E-911 Communications System

Recommendation

It is recommended that the City Commission approve a motion authorizing the proper City officials to enter into an Agreement with Broward County providing for Participation in the Consolidated Regional E-911 Communications System.

Background

Currently, the City of Fort Lauderdale operates its own 911 dispatch services for all police, fire, emergency medical services and other appropriate first responders. Broward County is establishing a Consolidated Regional E911 Communications System and at this time, the City of Fort Lauderdale has agreed to take action to migrate to the County's Computer Aided Dispatch System (CAD) communication platform.

In order to participate in the System, the County requires each municipality to enter into this Agreement for Participation in the Consolidated Regional E-911 Communications System (Exhibit 1) as well as an Assignment, Delegation, and Release Agreement (Exhibit 1 to CAM 12-1210), and Regional Interlocal Agreement (Exhibit 1 to CAM 13-1211).

Exhibit 2 is a staff committee report summarizing the outstanding issues related to the agreements.

Resource Impact

There is no current year fiscal impact, however there will be costs in future years that are still being determined.

Related CAM: 13-1210 and 13-1211
