M-11 13-1210 ASSIGNMENT, DELEGATION AND RELEASE AGREEMENT AS TO THE INTERLOCAL AGREEMENT PROVIDING FOR DISTRIBUTION OF THE PROCEEDS ACCORDING TO FLORIDA EMERGENCY TELEPHONE ACT - Broward County

Vice-Mayor Roberts said he requested M-11, M-12 and M-13 be removed from the Consent Agenda because he has concerns about funding and accountability issues. A lot of the specifics have not been fleshed out and there are significant costs associated, some with unidentified sources of funding. He added that the language on closes unit response should be fine-tuned so the City does not get in a situation where it does not have the resources to respond locally because it has extended a service to another jurisdiction. Control in this area will be important moving forward.

The City Manager said all the entities in the county will have to establish protocols on the closest unit response issue. It is his opinion that battalion chiefs ought to be instructed that if deploying a unit outside the City would compromise the City's service delivery, they decline dispatch. There are releases in this item as well as M-12 and M-13 indicating that past issues are resolved going forward.

Commissioner Rogers pointed out a typographical error for correction in Exhibit 1, paragraph 6.

Motion made by Vice-Mayor Roberts and seconded by Commissioner Trantalis to approve the item as recommended.

APPROVED

Aye: 5 - Mayor Seiler, Vice-Mayor Roberts, Commissioner Trantalis, Commissioner DuBose and Commissioner Rogers

M-12 13-1212 AGREEMENT FOR PARTICIPATION IN CONSOLIDATED REGIONAL E-911 COMMUNICATIONS SYSTEM - Broward County

Please see comments under M-11 above.

J. Scott Bayne, 309 SW 26 St., said professional firefighters are concerned with consolidated dispatch because it will make the City of Fort Lauderdale a donor city. He elaborated on problems with how the closest unit response is anticipated to function. Fort Lauderdale citizens pay for local services, not for its employees to donate those services to other jurisdictions. Fort Lauderdale has protocols and EMS treatments that other cities do not provide. The firefighters are opposed to this item.

Vice-Mayor Roberts said he believes protocols related to EMS in particular would be subject to approval by the contract with the City's medical director. Bayne noted that other cities operate under different protocols. Vice-Mayor Roberts indicated the City would strive to have its standard protocols applied when responding in Fort Lauderdale.

Commissioner Trantalis inquired how the City is responding to resistance on the matter from first responders.

The City Manager commented that change is not easy. What the City is experiencing is common for areas that are regionalizing and the end result is a successful unified system. This is not the first step to a regionalized firefighting system. A regionalized firefighting system is clearly not on the table. It is important for the City to maintain a fire rescue system with a high level of service for the citizens and visitors. The City's medical director represents jurisdictions that make up about 80 percent of the firefighting personnel in Broward County, so there should not be a concern about protocols not being followed. Issues with working with other jurisdictions should be handled by training and drills. As Fort Lauderdale is the last municipality to come into the system, many issues will be resolved beforehand.

Motion made by Commissioner Trantalis and seconded by Commissioner DuBose to approve the item as recommended.

CONSENT RESOLUTION

**CR-1 13-1224 RYAN WHITE CARE ACT - Urging Florida Representatives and
Senators of U.S. Congress to reauthorize Ryan White Care Act with
strategic changes to reduce HIV infections and improve access to care**

Joey Wynn, chair of the South Florida AIDS Network, said those in the HIV community support the Ryan White Care Act and favor reauthorization. The problem is timing because the strategy for obtaining reauthorization can be different for different people. Time should be allowed for local stakeholders to weigh in and buy in.

Jasmin Shirley, vice-president of Community Health Services at Broward Health, agreed with Wynn. The Affordable Care Act could impact and prompt changes to the Ryan White Care Act, and those measures should be considered before adopting the resolution. There are multiple parts to it. She suggested a workshop so people in the local area can understand what is going to happen. The resolution should say that the City Commission supports the full continuation of funding for the Ryan White Care Act, which is different than reauthorization. She is concerned with continuity of services. Some discussion ensued as to the City's participation beyond adoption of the resolution at this point in time. Commissioner DuBose said he did not understand the urgency since major changes would be

coming October 1. He preferred to reconsider the resolution when the new healthcare act has been implemented. He was not ready to vote today. Shirley explained there is no sunset, therefore funding could be continued until Congress addresses the matter.

Michael Rajner, P.O. Box 2133, provided information for the record. He is an HIV/AIDS patient who accesses some of his medication through the Ryan White Care Act. The Ryan White Care Act will continue as long as Congress agrees to fund it. The resolution was drafted by the AIDS Healthcare Foundation and is not representative of local stakeholders. The act allows people to access life-saving medication when all other alternatives fail or refuse treatment. More input is needed from stakeholders. Broward County leads the nation in HIV infection because it fails to have the right leadership to facilitate dialogue on critically important issues. Fort Lauderdale is a stakeholder in the Housing Opportunities for Persons with AIDS (HOPWA) program countywide. The impact of a 6 percent funding cut in that program should be the Commission's priority.

Jason King, legislative affairs manager for the AIDS Healthcare Foundation, believed the resolution is not controversial but rather a request for programmatic reprioritization that would better address the HIV/AIDS epidemic. He provided statistics about local HIV diagnoses. The Foundation has scheduled a town hall meeting for stakeholders. He urged the Commission to adopt the resolution. He pointed out conflicts in the opposition's comments.

Michael Kahane, 2309 DeSota Drive, said he is an employee of the AIDS Health Care Foundation and spoke in support of the resolution which simply encourages debate to take place at the congressional level. The Foundation is the largest provider of HIV services in the county. The resolution language has been provided to all of the Foundation's patients. There have not been any objections.

There was no one else wishing to speak.

Commissioner Trantalis said he wants to ensure the Commission is engaged in the process of reauthorizing the Ryan White Care Act. He does not think the resolution is controversial. While debate is merited, a deadline exists at the end of the month. The concern is that the Affordable Healthcare Act has been rejected by the State of Florida and services will not be provided. It has been suggested that the Ryan White Care Act may be an alternative. The resolution is simply a suggestion for further discussion that would take place at the national level. Commissioner DuBose noted that several concerns were raised about the timing of the resolution and added that he agrees the Commission should take a position in support of local HIV/AIDS residents. He took issue with some comments made by King about other speakers in that they deal with this daily. He suggested deferring the item until his concerns about the resolution, not the act, can be addressed. Mayor Seiler suggested Commissioners DuBose and Trantalis work with the City Attorney on language.

Motion made by Commissioner Trantalis and seconded by Vice-Mayor Roberts to defer the item to September 17, 2013.

PURCHASING AGENDA

PUR-1 13-1005 ONE-YEAR CONTRACT FOR MOTOR REWIND SERVICES in the estimated amount of \$180,710 from Kaman Industrial Technologies Corporation d/b/a Florida Bearings - ITB 433-11240

Harold Johnson, representing Condo Electric Motor Repair, spoke in objection to the contract award and provided a document package for the record. The City Attorney advised that a formal protest was not filed. Kirk Buffington, Deputy Director of Finance, clarified that Johnson attempted to file a formal protest but it was not done so in a timely manner and no fee was submitted, as required by ordinance. He later clarified that the check for the protest fee was received after the protest period. The fee is non-refundable regardless of whether it is timely. Johnson said he was not provided correct information about the timeline for submitting a protest. A check was submitted to Procurement Services and it has been cashed. A copy is in the document package. He objected to the award despite several errors in the tabulation. The award is on a group basis and not by item. Item 116 was removed from the award. Condo Electric's bid was 20 percent above the normal rate. The award recommendation is 50 percent more than the normal rate.

Alan Rooks of Florida Bearings explained that Item 116 is provided if there is an emergency and has nothing to do with the total value of the bid. Florida Bearings is Fort Lauderdale-based including its employees. Florida Bearings was the lowest bidder.

Jason Nasiatka of Florida Bearings said that typically prior to the bid submittal date there is a period of time during which vendors can ask questions regarding the bid. He does not believe in this case any questions were asked, meaning that the bid package was acceptable. He asked the Commission to award to the low bidder, Florida Bearings.

Johnson provided more detail of what occurred once the bids were opened for Commissioner DuBose. The buyer directed him to the ordinance on July 22 and told him he had five days to file a protest, but the five days had already elapsed. Buffington noted that the bid protest procedure is provided in the City's general terms of the bid documents. Johnson continued his dispute, saying the bid

recommendation was not posted on the City website. There was discussion related to what is posted on the City website, the protest timeline and other City websites used for bids. Johnson understood a protest could not be filed until there was a posting.

In response to Commissioner DuBose, Bob McKenney of Procurement Services explained there was an initial spam problem with receipt of emails. Jose Espinola of Condo Electric, said when they previously tried to do business with the City in 2008, he and Johnson were misled in that Procurement Services had told their sales representatives that Condo Electric was the lowest bidder. They found out later that a typographical error in their bid documents prompted the City to reject the bid.

Commissioner DuBose explained that there is information available about the bidding process and procedures. An avenue was afforded to Condo Electric. The only thing that concerned him is that Condo Electric's protest fee check was deposited even though he was outside the protest deadline. He favored upholding staff recommendation.

Motion made by Commissioner Trantalis and seconded by Vice-Mayor Roberts to approve the item as recommended.

PUR-6 13-1102 ONE-YEAR CONTRACT EXTENSION FOR FLEET MANAGEMENT AND MAINTENANCE SERVICES in the not to exceed amount of \$5,415,258 with First Vehicle Services, Inc.

Charles King, 105 N. Victoria Park Road, questioned the expense of the purchase including the take-home policy for police officers. He suggested dashboard cameras in police vehicles. In response to Commissioner Trantalis, the City Manager discussed warranties on fleet items. He clarified that the contract covers things like preventative maintenance, in addition to broken mirrors and minor repairs that can be done without taking the vehicle to a body shop. In response to Commissioner Rogers, he said there could be an opportunity to include trolley repair in this contract but he was not sure whether it could be amended later or if a separate request for proposals would be needed.

Vice-Mayor Roberts said the contract will enhance efficiency for the entire fleet. He advised that police officers pay for their own fuel through payroll deduction. This is currently being reviewed for potential further refinement.

Motion made by Vice-Mayor Roberts and seconded by Commissioner DuBose to approve the item as recommended.

CITIZEN PRESENTATIONS

CIT-1 13-1216 SADLER JAMES - Inspector General Report regarding Aquatic Complex - Recreational Design & Construction

James cited a report from the Broward Office of the Inspector General alleging misconduct by the City of Fort Lauderdale in award of the contract for the design and construction of the Aquatic Complex. He concluded that the City used taxpayer money to replace private enterprise. He also questioned why the City is continuing with this contract.

CIT-2 13-1066 CHRISTINE TIMMON - Racism and Immigration and Establishing Immigration Offices

Timmon provided a handout on Congressional Investigation of Hispanic Hate Groups that was made a part of the record. She said elected officials are attempting to bring in residents from other countries and she has requested a constitutional investigation.

CIT-3 13-1217 LARRY GIERER - City of Oakland Park Ordinance - United Way of Broward County Commission on Substance Abuse Board of Governors

Mayor Seiler recognized Gierer as a former mayor and commissioner and thanked him for his leadership.

Gierer said he wanted to promote a City of Oakland Park ordinance requiring mandatory training to businesses that sell alcohol after midnight. He shared a brief history about the evolution of the ordinance and reviewed potential losses attributed to alcohol. He urged the Commission to consider adopting a similar ordinance.

Later in the meeting (CIT-5), Commissioner Rogers asked the City Manager to look at the ordinance.

CIT-4 13-1218 DENNIS ULMER - Remembering 9/11

Ulmer outlined the September 11, 2001, terrorist attacks. America always triumphs over evil. Those who died in the attacks are heroes, as well as those who responded to assist. He thanked the families of those who lost their lives in the attacks and urged the public to remember them. He invited the public to a ceremony at the Fire and Safety Museum on September 11 at 9:30 a.m.

CIT-5 13-1219 CHARLES KING - Lack of Training and Professionalism Among Security Guards and Bouncers in the City's Bars

King referenced a beach brawl at Dirty Blondes Sports Bar that he said exposed what goes on in this city. He alluded to a videotaped attack that involved bar bouncers and the public. The responding City police officers have a conflict of interest because they work security at many of the beach bars. He was concerned about the lack of concern on the part of the bar owner. He questioned how off-duty detail works.

Commissioner Trantalis referenced a conversation from the last conference meeting during when the Commission discussed performance standards for personnel employed at bars in the city. At that time, the City Manager was directed to provide recommendations related to the matter. Vice-Mayor Roberts said that police response also was discussed. He believed there was no detail at this establishment at the time, but rather detail working at the Elbo Room responded to the incident.

RESOLUTIONS**R-1 13-1214 FIVE-YEAR COMMUNITY INVESTMENT PLAN AS AMENDED FOR 2014-2018**

Commissioner Rogers questioned whether funds could be found to beef up the line item on repair and maintenance. The City Manager said he believes the City will have more capacity in the coming years to boost that area. This year's budget has additional funds slated for repair, including increases in landscape maintenance and street repaving. Commissioner Rogers referred to emergency repairs that have been approved to emphasize he did not wish to address maintenance in that way. He also referred to the number of FTE's and thought this may be an area to use. The City Manager advised that a facilities study RFP has been issued.

Mayor Seiler opened the floor for public comment.

Dirk Lowry, president of Lauderdale Isles Civic Improvement Association, said he represents 750 homeowners who are concerned about dredging in the canals. Commissioner Rogers said he attended an Association meeting. He believes this is a serious concern. There has not been any dredging in several years. Mr. Lowry advised that the last dredging was in 2002.

Geoff Raines, member of the Lauderdale Isles Water Management District Board of Governors, spoke in protest to the lack of funds allocated for dredging of their canals. City surveying and engineering work has determined that nine of the canals in Lauderdale Isles require dredging. They were told that Lauderdale Isles was at the top of the list for next dredging cycle. The City's canal cleaning crew has been downsized. If dredging is delayed too much longer the surveying and engineering work may become outdated. Annual dredging should be part of maintaining the City's infrastructure.

In response to Mayor Seiler, the City Manager advised that this work is among some \$25 million of requested unfunded public works items. Commissioner Rogers said he would like to explore using stormwater funds for canal dredging. The City Manager believed that would be an eligible funding source, but those funds are available for other items requested by the Commission. Commissioner Rogers asked about an objective way of prioritizing dredging. He was concerned about the fact that some homeowners do not have clearance for their boats. The City Manager advised that there is about \$540,000 in the CIP for dredging. Staff could look at reprioritizing. The City Manager said staff is in the preliminary stages of determining how much linear footage exists and could potentially develop annual assessments on a five- or seven-year cycle for dredging. Commissioner Rogers asked that the City Manager to look at the prioritization and funding dredging to a higher level before the next meeting. Bill Gray, a member of the Lauderdale Isles Civic Improvement Assoc., said tons of sand were dumped in the canals recently during sewer work. While dredging was a prior need, it is now critical. He provided photographs taken between August and October of 2011 for the record.

There was no one else wishing to speak.

Commissioner Trantalis introduced the resolution, which was read by title only.

The item was deferred until after Item PH-4.

PUBLIC HEARINGS

PH-1 13-1209 QUASI-JUDICIAL - DE NOVO HEARING - BROWARD COUNTY COURTHOUSE PHASE TWO - PARKING GARAGE WING - SITE PLAN LEVEL II DEVELOPMENT PERMIT - Case 48-R-11

Anyone wishing to speak must be sworn in. Commission will announce any site visits, communications or expert opinions received and make them part of the record.

Members of the Commission announced with whom they had spoken and/or site visits made concerning this matter.

Commissioner Rogers said he wanted to approve the item with two conditions: that the garage be available to the public after hours for a reasonable price and archaeological precautionary measures be taken similar to those required for South Side School and Hardy Park. Mayor Seiler opened the floor for public comment. Steve Hammond with the Broward County Public Works Department said while this parking garage is not slated for after-hours public parking, he would take the request back to County officials for consideration. He understood the garage further south is contemplated to be open to the public. He spoke to the county archaeologist in preparation for tonight's meeting and confirmed there are no significant issues related to this site. He believed a letter was provided in their application package, but offered to provide additional documentation if the Commission would like. Mayor Seiler said he does not foresee there being any archaeological relics on the site and does not support that condition. He does support the condition related to public parking as long as security issues can be resolved. He requested that the motion be amended to requiring public parking after hours provided security issues are resolved. Commissioner Rogers agreed to Mayor Seiler's suggestions but he would like an updated letter from the County confirming why an archaeological study on the site is not warranted.

The motion was amended to include two conditions: that public parking be available after courthouse hours and an updated letter from the County regarding the archaeological study be provided. Hammond noted that their discussions with the Broward Sheriff's Office have precluded this garage from being made available to the public although the garage to the south is a great candidate for public access. Mayor Seiler wanted both garages to be available to the public.

There being no other individuals wishing to speak on this matter, a **motion** was made by Commissioner Rogers and seconded by Commissioner Trantalis to close the public hearing. Roll call showed: AYES: Commissioner Trantalis, Commissioner DuBose, Commissioner Rogers, Vice Mayor Roberts, and Mayor Seiler. NAYS: None.

Commissioner Rogers introduced the resolution, which was read by title only.

PH-3 13-1105**RESOLUTION - FISCAL YEAR 2014 - INCREASING WATER, WASTEWATER USER AND STORMWATER MANAGEMENT PROGRAM RATES, TAPPING CHARGES, SPRINKLING METER CHARGES, PRIVATE FIRE SERVICE PROTECTION CHARGES AND SERVICE AVAILABILITY CHARGES BY FIVE PERCENT**

Revision - See Memorandum 13-1105

Mayor Seiler opened the floor for public comment.

There being no individuals wishing to speak on this matter, a **motion** was made by Commissioner Trantalis and seconded by Vice-Mayor Roberts to close the public hearing. Roll call showed: AYES: Vice-Mayor Roberts, Commissioner Trantalis, Commissioner DuBose, Commissioner Rogers and Mayor Seiler. NAYS: None.

In response to Commissioner DuBose, the City Manager explained the intent is an annual automatic 5 percent increase provided in the ordinance based on the rate study results. There is a provision preventing the collection of too much revenue based on a five-point test conducted each April for the previous September 30. In such event, customers would receive a refund. He elaborated on the history of rate studies dating back to just before this Commission was seated. The reserve is quite close to 120 days of operating costs. Stormwater maintenance has been increased about \$300,000 annually. The intent is to have a regular storm drain cleaning schedule. Commissioner DuBose

was concerned that even though there is an annual rate increase, the service level is not being raised. The City Manager advised that expenses are increasing each year to just provide the same level of service. He went on to clarify that there are two different utilities: 1) water and sewer where the five-point test is applied and 2) stormwater. There are three charges: water, sewer and stormwater. The increases amount to 92 cents for water, \$1.55 for sanitary sewer and 19 cents for stormwater.

The City Manager also responded to Commissioner Rogers' questions concerning bond indebtedness and acknowledged Vice-Mayor Roberts' comment about infrastructure repairs. He elaborated on what will need to be addressed with respect to stormwater once the technical advisory board finishes its analysis. Ultimately, the City will need to consider dividing the utility into one for the coast and one for the mainland. The forecasting model to be used this evening relates to the general fund and the return on investment coming from the utilities as well as reimbursement for general fund costs in the utilities. The return on investment is about \$14.8 million from water and sewer and \$3 million plus from the central regional plant annually. Vice-Mayor Roberts pointed out that decisions relating to stormwater management service level improvements are separate from this issue which is ongoing.

It was noted for the record that the stormwater residential customer rate increase is 19 cents. Mayor Seiler asked that backup documents be amended which was subsequently accomplished by a revision to Memorandum 13-1105.

Commissioner Trantalis introduced the resolution, which was read by title only.

**PH-4 13-1078 RESOLUTIONS - CITY OF FORT LAUDERDALE FISCAL YEAR 2014
PROPOSED MILLAGE RATE (4.1193) AND TENTATIVE BUDGET
Revision - See Memorandum 13-191**

The City Clerk announced a revision to this item reflected in Memorandum 13-191 which is attached to these minutes.

Mayor Seiler announced that this is the first of two public hearings to be held as required by law on the millage rate and budget for fiscal year 2014. He opened the hearing and noted its purpose. The City Manager explained that the Fiscal Year 2014 tentative budget includes maintaining the current millage rate of 4.1193 and increasing the annual fire assessment to \$225 per single-family residential unit. He added that the current millage is a 4.17 increase over the rollback rate.

He outlined the premises on which the budget was based and increases that are proposed to maintain the same level of service. He discussed changes that have been made to the tentative budget for Fiscal Year 2014.

Mayor Seiler opened the floor for public comment.

Dennis Ulmer, 1007 NW 11 Place, said he thinks resiliency preparation is critical in light of flooding and storm damage. He noted that he attended a budget advisory meeting on August 26 and believes that a 1-cent sales tax in Broward County should be explored. He also said in the future the City needs to replace the City Hall building and police department building.

Steve Holt and Cindi Watts spoke on behalf of the board of directors and staff at Family Central. Holt thanked commissioners for the support they've provided in the past. Family Central has made a request for \$49,000 that can be used to serve about 3,000 children in Fort Lauderdale.

Stephanie Pollard, director of grants and government relations at 2-1-1 Broward, explained the function of her agency and said it has a request filed with the City for \$35,000. Mayor Seiler said the City budgeted an allocation at the same funding level as last year.

Charles King, 105 N. Victoria Park Road, said the City has not had a balanced budget since 2005 and has wasted a lot of money over the years. He reviewed some expenditures which he thought were wasteful. Mayor Seiler corrected him on some inaccuracies.

There being no other individuals wishing to speak on this matter, a **motion** was made by Vice-Mayor Roberts and seconded by Commissioner Trantalis to close the public hearing. Roll call showed: AYES: Vice-Mayor Roberts, Commissioner Trantalis, Commissioner DuBose, Commissioner Rogers and Mayor Seiler. NAYS: None.

In response to an inquiry from Commissioner Trantalis, the City Manager said his office is continuing conversations with the police department to try to make changes to their compensation packages. He said he has not heard back regarding pension information for the fire department so did not have anything new to report on that. He said even if agreements could be reached with police and fire, it could not be included in the budget until the next fiscal year.

Commissioner Trantalis said he is seeking some savings that can be recovered so the City does not have to raise the fire assessment fee. He is concerned that the Commission is proceeding with a level of spending on police and fire compensation packages that consultants have deemed unsustainable.

Commissioners discussed their positions on whether allowing police officers to have take-home vehicles is an expense that could be reduced.

Commissioner Trantalis said he recommends readjusting compensation packages in order to reduce the budget by \$12 million, which would allow for the Commission to not raise the fire assessment fee. Mayor Seiler said that would violate collective bargaining and referenced the City Manager's previous statement that new compensation packages could not be included in the budget until the next fiscal year.

Commissioner DuBose said he, too, has concerns about the fire assessment and believes it is a tax.

Budget Manager Emilie Smith clarified some details of the budget. Commissioner DuBose stated that the Commission made a policy decision on the level where they wanted to keep the reserves, and the consultants' model shows the reserves with an excess of \$4.6 million. The City Manager said if the Commission wants to use reserves to get down to that figure set by policy, it should be for a one-time expenditure, not an ongoing budget item.

Commissioners discussed options for lowering the fire assessment fee.

Commissioner Rogers reviewed the priority list for canal dredging and said because there is an excess in the reserve fund, he would like some of it to go to the Community Investment Plan for repairs and maintenance.

Vice-Mayor Roberts said he is comfortable with the City Manager's proposal for this year and noted that the advisory boards have provided their recommendations.

Vice-Mayor Roberts introduced the resolution approving the proposed budget, which was read by title only.

Mayor Seiler opened the floor for public comment.

Charles King, 105 N. Victoria Park Road, said the ordinance appears to give more weight to local firms. He suggested a way to keep more money in the community would be to have a residency requirement for new City employees.

There being no other individuals wishing to speak on this matter, a **motion** was made by Commissioner Trantalis and seconded by Commissioner DuBose to close the public hearing. Commissioner Rogers said he had a question from the public about whether this would be developed under the Unified Land Development Regulations (ULDR) with a separate fee. Jenni Morejon, Deputy Director of Sustainable Development, said all of the criteria, including the fee, will carry over from the pilot program. Commissioner Rogers asked that the program be publicized on the City's website.

Commissioners discussed how complaints about sign placement were addressed.

Commissioners discussed whether, since the ordinance was designed to help small business owners, it was appropriate to assess an annual \$95 fee. Commissioner Trantalis suggested assessing an initial \$95 fee and charging \$25 for subsequent years. Mayor Seiler asked staff to come back with a recommendation on fees.

Commissioner Rogers introduced the ordinance, which was read by title only.
