RFQ No. 936-11270 – An Annual Contract for Architectural Consulting Services

Dear Selection Committee:

CITY OF FT. LAUDERDALE needs an experienced A/E team that specializes in **ARCHITECTURE & ENGINEERING** for Municipal Clients. **WALTERS • ZACKRIA ASSOCIATES, WZA** is the answer to your various project needs. **WZA's 32 YEARS OF SERVING SOUTH FLORIDA** municipalities lends it the vast experience and understanding of scope of work under this RFQ. **WZA** will be an extension of your staff. We understand the scope and the prowess for successful completion. "KNOWLEDGE AND PRECISION, THE ULTIMATE CONFIDENCE BOOSTERS".

WALTERS • ZACKRIA ASSOCIATES PORTFOLIO INCLUDES EXTENSIVE MUNICIPAL FACILITY PLANNING AND DESIGN and ENGINEERING EXPERIENCE. You will benefit from the experience gained through similar multi-project contracts with the following government clients:

- | | | |
|----------------------------|---------------------------|----------------------------|
| • Broward County | • Town of Hillsboro Beach | • City of Sunrise |
| • City of Dania | • City of Coral Springs | • City of Hallandale Beach |
| • City of Coconut Creek | • City of Pompano Beach | • City of Miramar |
| • City of Lauderhill | • City of Boca Raton | • City of Oakland Park |
| • City of North Lauderdale | • City of Margate | • City of Ft. Lauderdale |

Long Key Nature Center

Pompano Beach Community Park

Coconut Creek New Public Works Building

WZA HAS SUCCESSFULLY COMPLETED OVER 400 SOUTH FLORIDA GOVERNMENT PROJECTS! No other firm has a track record of delivering completed projects on time with minimal change orders in this local public bid arena. The quality control of our construction documents and specifications is superior. We do not design buildings for our ego, we design attractive functional buildings that meet the owner's budgets, functional and long term maintenance requirements and blend in with their surroundings. Your staff and City residents will be proud of our project delivery.

**ARCHITECTURAL FIRM WITH LONGEST SAME
OWNERSHIP IN CITY OF FT. LAUDERDALE
32 YEARS !**

Please turn the page for WZA's answers to your concerns and needs.....

CITY OF FT. LAUDERDALE EXPERIENCE & KNOWLEDGE

As a lifelong Ft. Lauderdale native, Robert Walters AIA knows the City's past, present and future. Mr. Walters has been involved with the City facilities since a teenager as his father worked with the Ft. Lauderdale Utilities Department. Robert Walters has served on several City Advisory Boards including most recently the Sustainability Board.

The firm has provided Architecture/Engineering Services for over 4 decades.

City of Ft. Lauderdale Projects

• Bryan House Building System Analysis	- 2013
• Architect on Holiday Park Renovation	- 2004

Renovation/Hardening*

ROOFING/BUILDING ENVELOPE SPECIALIST

It is our policy to protect our client's investment. We make inspections of existing roofs to determine the feasibility of repair versus replacement. Our experience and unbiased viewpoint produce solutions to roof problems that are less costly and more efficient.

The roofing industry has been experiencing a period of tremendous change with the influx of new roofing materials, and code changes made after Hurricane Andrew. Our hands-on experience with roofing, and waterproofing systems application, and the knowledge gained from the investigation of roofing, and waterproofing system failure enables us to provide you the most up-to-date information.

Rooftop equipment will be reviewed for code compliance. New stands and attachments will be provided.

CITY OF FT. LAUDERDALE APPROVALS

WZA is familiar with FT. LAUDERDALE's approval process and your staff. Our past experience will enable us to proceed with these approvals in an effective manner.

The firm of WALTERS • ZACKRIA ASSOCIATES will coordinate all of the necessary approvals, ordinances, consulting engineering firms, space planning and interior design services. It is our goal to make the building process as simple as possible to the user so that your daily business obligations are not disturbed. The project schedules and budgets are set up in the initial schematic design phase and adhered to throughout the project. We will help establish a streamline project management system with one project representative.

WZA possesses BIM project support experience and project status reporting

LOCATION

Located in DOWNTOWN FT. LAUDERDALE, our office is 3 minutes away. WZA has previously worked on over a dozen City projects and are very familiar with the City of Ft. Lauderdale.

M/WBE PARTICIPATION

WZA is a certified CBE with Broward County Office of Economic and Small Business Development. **WZA will provide over 30% M/WBE participation.** Our Civil Engineering Sub-consultant, **Abaco Engineering, is an M/WBE certified company.**

TIME AND BUDGET

Utilizing consulting cost estimation firms throughout the design phase and incorporating add/deduct alternates; you will receive a project on budget and on time! The firm's 2012 and 2013 projects were bid within 2% of construction budgets. Our quality controlled construction documents system minimizes change orders.

LIABILITY INSURANCE

The firm maintains a professional errors and omissions liability policy of \$2,000,000.00. The firm has no outstanding claims. After selection, certifications will be provided.

Yes the **WALTERS • ZACKRIA ASSOCIATES** Team will provide these credentials and more! Located in downtown Ft. Lauderdale

AVAILABILITY, FAMILIARITY, AND RESPONSIBILTILITY WILL BE COMBINED IN ONE PACKAGE...**THE WALTERS • ZACKRIA ASSOCIATES TEAM.**

Very truly yours,

Robert S. Walters, A.I.A.
Vice President

ROBERT S. WALTERS, AIA

POSITION: PRINCIPAL ARCHITECT – VICE PRESIDENT

EDUCATION: 1979, Masters of Architecture - Clemson University –
Thesis: Stadium Design
1978, Urban School of Design - Genoa, Italy
1977, Bachelor of Science, Architecture - Clemson University
2004, Certified CPTED Training

**PROFESSIONAL
REGISTRATION:** 1981, Registered Architect: Florida
1982, NCARB - National Registration
1982, Certified General Contractor

**PROFESSIONAL
AFFILIATION:** American Institute of Architects
Fort Lauderdale Chamber of Commerce
National Historical Society
Leadership Broward Alumni
Construction Association of South Florida
City of Fort Lauderdale Code Enforcement Board - Past Member
School Board of Broward County - Consultant Selection Committee
Board of Trustee - First Presbyterian Church

EXPERIENCE: Mr. Walters founded the firm in 1981 and has since been principal architect and architect of record for over 1,000 projects. Leading the design team, his duties include building program phase, schematic design phase, design development phase, quality control of all construction documents, and review of construction administration phase. Mr. Walters' hands-on management concept starts with the design of every project, and terminates with the final punch list during the construction administration phase.

As a licensed general contractor, all construction documents are reviewed with a contractor's view; Construction costs and data reports are utilized throughout each phase of the project to assure the building owner that all budget constraints are met.

Experience 5/99 – Present:
ABACO Engineering Inc., 5997 NW73rd Ct., Parkland, Florida
Founder and President of the company, responsible for marketing, design, permitting, inspection and construction project management of all in-house civil engineering projects. In this position consistent communication and coordination with the clients (i.e., various consulting firms, architects, and governmental agencies) are ongoing in order to provide highest level of quality. Projects range from roadway design, construction engineering, administration, inspection and traffic engineering to site planning for several government buildings and parks.

9/10 – 6/12:
City of Parkland, 6600 University Drive, Parkland, Florida.
Assistant Public Works Director and City Engineer, responsible for management of the City's Engineering Division, including Development Review, Capital Improvement Projects and Consultant management. Responsibilities also included addressing day-to-day engineering issues and review of future traffic studies for future development projects. As the Assistant Public Works Director I oversaw the day to day operation of Streets, Stormwater, Landscaping and Facilities Divisions.

12/97 – 7/99:
City of Tamarac, 6011 Nob Hill Road, Tamarac, Florida.
City Engineer, responsible for management of the City's Engineering Division, including Development Review, Traffic Engineering, Stormwater Engineering, Stormwater Maintenance and Street Maintenance Divisions. Responsibilities also included addressing day-to-day traffic engineering issues and analysis and review of future traffic studies for future development projects. Additional responsibilities included managing a four million dollar roadway construction project and overseeing the implementation of the City's seventeen million dollar Citywide Street Improvement Project

Experience (Continued)

12/95 - 12/97:

City of Hollywood, 2600 Hollywood Blvd, Hollywood, Florida.

Assistant City Engineer and Acting City Engineer responsible for management of the Development Administration Department's Engineering Division. Tasked with implementation of the City's multi-million dollar Capital Improvement Program as well as addressing all traffic related concerns for the City and responding to citizens' traffic engineering related complaints and concerns.

8/94 - 12/95:

City of Tumwater, 555 Israel Road, Tumwater, Washington.

City Engineer responsible for administration, coordination and management of the City's Engineering Department, establishment of the Department budget, design and project management of all capital improvement projects including design and construction of traffic signals and monitoring of consultant contracts, review of development projects and preparation of federal and state grant applications for new projects.

6/90 - 7/94:

City of Lacey, 420 College Street SE, Lacey, Washington.

Public Works Design Manager responsible for supervision of Department's engineers and technicians, project management of all in-house and consultant projects including conducting traffic studies, implementation of a signal synchronization project, administration of right of way acquisition and Utility Local Improvement Districts, review of all development projects in addition to administration of various project grants and loans.

10/89 - 2/90:

Blum Schumacher & Assoc., 2444 NE 1st Blvd. Gainesville, Florida. **Civil Engineer** responsible for the firm's civil engineering projects including traffic engineering, roadway and drainage design as well as feasibility studies for future construction.

5/86 - 10/89:

Texas Department of Transportation, 7901 North I-35, Austin, Texas.

Special Design Engineer, responsible for design of various roadway widening projects. (5/86 to 4/88)

Construction Project Manager, responsible for inspection, construction project administration and management of highway projects. (4/88 to 10/89)

Professional Experience

May 2003 – Present

ABACO ENGINEERING, INC.

10100 W Sample Rd, Suite 334, Coral Springs, FL 33067

Project Engineer. Responsible for paving, grading, drainage and utility design of engineering projects.

- ❖ The following is a list of a few of these projects:
 - ❖ Broward County Miramar Pinelands Nature Center
 - ❖ Broward County Long Key Nature Center
 - ❖ Wilton Manors City Hall
 - ❖ Broward County Tradewinds Park Maintenance Building
 - ❖ Broward County Tree Top Park Maintenance Building
 - ❖ Wilton Manors Richardson Park

December 1998 - Present

CITY OF HOLLYWOOD, DEPARTMENT OF DESIGN AND CONSTRUCTION MANAGEMENT

2717 Van Buren Street, Hollywood, Florida.

Civil Engineer. Responsible for the design, permitting and construction of engineering projects.

- ❖ Construction Manager for Hollywood Boulevard Gateway Streetscape, a \$3.6 million drainage, electrical, street lighting, brick paver sidewalk, signalization, landscaping and irrigation improvement.
- ❖ Construction Manager for Young Circle Streetscape and Site II, a \$2.5 million drainage, electrical, street lighting, brick paver sidewalk, signalization, landscaping and irrigation improvement.
- ❖ Polk Street and Tyler Street, a \$4.2 million major drainage and road reconstruction in low line area, electrical, street lighting.
- ❖ Project Manager for Arthur Street Widening, design and installation of aluminum sheet piling to prevent erosion, paving and drainage, sidewalk.
- ❖ Construction Manager for Jefferson Park restroom renovation and John William Park new restroom building, Keating Park restroom renovation.
- ❖ Project Manager for Attucks Middle School Sport Field Lighting, Stanley Goldman Park walkway restoration, new playground installation, picnic shelter, nature signs, and several miscellaneous projects.
- ❖ Design Engineer for Hollywood Boulevard Gateway Streetscape Phase II, a \$4.5 million drainage, electrical, street lighting, brick paver sidewalk, signalization, landscaping and irrigation improvement.

May 1997 - December 1998

MILLER LEGG AND ASSOCIATES, INC.

1800 N. Douglas Road, Pembroke Pines, Florida.

Project Engineer. Responsible for the design, drafting, permitting of engineering projects.

- ❖ Westpoint Industrial Park, 160-acre land developments project in the City of Tamarac, 2,800 LF of Hiatus Road north of Commercial Boulevard, drainage master plan, and sanitary sewer master plan and water master plan.
- ❖ Cameron Palms and Miramar Commons, land development projects in the Town of Davie and City of Miramar, sanitary sewer, water mains, force mains, paving and drainage.

October 1995 - April 1997

CIVIL CADD ENGINEERING, INC.

1011 Ives Dairy Road, Miami, Florida.

Project Engineer. Responsible for the design, drafting, permitting of engineering projects for Miami-Dade County and Broward County governments.

- ❖ SW 137th Avenue from 152nd street to 184th street, Miami, Florida, reconstruction and widening of the existing two-lane highway, paving and drainage, coordination with other consultants such as electrical, street lighting, signalization and utility companies.
- ❖ NW 17th Avenue from 103rd Street to 135th Street, Miami, Florida, reconstruction and widening of the two-lane residential street.
- ❖ Copans Road, Pompano Beach, Florida, a 2-mile roadway project consisting in reconstructing and widening of a four-lane highway, paving and drainage system.

May 1994 - October 1995

BERMELLO, AJAMIL and PARTNERS, INC.

2601 South Bayshore Drive, Miami, Florida.

Project Engineer. Responsible for the design, drafting and permitting of engineering projects.

- ❖ International Corporate Park at NW 107th Avenue and NW 19th Street, Miami, Florida, 300-acre land development project. Drainage, sanitary sewer and water master plans, 9,000 LF of roadway and water mains, 3,000 feet of sanitary force mains and gravity mains, lift station, paving, drainage, signage and pavement marking.
- ❖ Redondo and Brassfield, Homestead, Florida, two neighborhood improvements projects for City of Homestead, water mains, gravity mains, force mains, lift stations, paving and drainage.
- ❖ Homestead Motor Sport complex, Homestead, Florida.

PAUL WEINBERG

RLA | Principal

Paul Weinberg is a multitalented designer and team leader who has been based in South Florida since 2000; during this time he has worked on a variety of significant public sector projects including urban parks, plazas, streetscapes and waterfront projects that provide meaning and purpose to the community. He has a unique understanding of how to create immersive and memorable public spaces that strengthen civic identity bring vitality to the larger area. Paul often works with artists and other consultants with innovative skills to create transcendent spaces; he is committed to a team-based approach that delivers creative, thought-provoking solutions tailored to the distinct character of each project.

PROFESSIONAL EXPERIENCE:

Mr. Wohlfarth, P.E. is the Director of the Engineering Department which includes professional and technical personnel. He also has overall responsibility for the Special Inspection, Construction Materials Testing and Geotechnical Engineering Divisions where he directs training, quality system review and personnel evaluations. His responsibilities include report review, signing and sealing geotechnical engineering, structural inspection and laboratory testing reports for the company, providing contract negotiation and administration, budget estimating and project management.

Mr. Wohlfarth has 25 years of experience (20 with NE) in various aspects of geotechnical engineering which include determining feasibility of site development, foundation design analysis and recommendations, providing engineering evaluation for bridge and roadway construction, pavement design for roadways, roadway subgrade stabilization by geotextiles and other means, design of shoring systems for utility trenches and other deep excavations, dewatering methodology for trench and other excavations and backfill procedures, setting up and monitoring pile load tests, and providing value engineering for foundations.

Mr. Wohlfarth served as Project Engineer for the FDOT Broward Boulevard/ I-95 fly over ramps and access improvements to the Tri-Rail system, which included three new bridges. Additional project experience includes being the Project Engineer for the FDOT roadway widening and Turnpike improvements at Tamiami Trail. This particular project included three new bridges and over three miles of roadway improvements.

Mr. Wohlfarth served as the Project Engineer for numerous helical pier projects. He helped provide recommendations supporting portions of the Crate and Barrel building at Gulfstream Park in Hallandale Beach Florida. The main structure was being supported upon shallow foundations, however helical piers were warranted when the building footprint extended beyond initial demucking limits at the structure location. This recommendation allowed the project to be constructed on time without the need of additional demucking.

He currently serves as the Principal-in-Charge/Senior Project Manager for our qualification based continuing contract with Palm Beach and Broward County.

STEVEN M. WATTS, PSM
AWN DESIGN & CONSULTING GROUP, INC.

EDUCATION:

BSLS, Purdue University, 1984

PROFESSIONAL REGISTRATION:

Florida PSM No. 4588

QUALIFICATIONS:

Mr. Watts is President of AWN Design & Consulting Group, Inc. (AWN) specializing in surveying and mapping, land acquisition, computer mapping, land information/geographic information systems (LIS/GIS) and facilities management. As Principal Surveyor of AWN he is responsible and involved in all aspects of the company's surveying and mapping projects.

Prior to incorporating AWN in April, 2003, he was Vice President and Director of Surveying for Williams, Hatfield and Stoner, Inc. (WHS) having been an employee of WHS since 1984 upon graduation from Purdue University (BSLS-Lambda Sigma: Land Surveying Honorary). Having spent his entire professional surveying career working in Florida, he is extremely knowledgeable of the rules, requirements and specifications for completing large scale surveying and mapping projects in the South Florida area.

Mr. Watts has also been the Principle Surveyor for The Las Olas Company and their land holdings within the environs of the City of Fort Lauderdale, preparing boundary, topographic and design surveys for the various acquisitions, design projects, etc., for over ten years.

EXPERIENCE:

General Surveying & Mapping Services – City of Pompano Beach

Boundary & Topographic Surveys: Community Park, Canal Point Park; Legal Descriptions: Avondale Fishing Piers; Topographic Surveys: Pompano Beach Air Park; Taxiway "N" – Pavement Widening, Runway 15 – Runway Protection Zone, Magnetic Heading, Runways 6-24, 15-33 and 10-28.

General Surveying & Mapping Services – City of North Lauderdale

Boundary and Topographic Surveys, As-Built Surveys, Legal Descriptions, City Limit Determinations and General Surveying Services for the City of North Lauderdale. Additional responsibilities include project surveyor for the topographic survey of the municipal complex, GIS, water control district and utility mapping, Hampton Pines Park and Silver Lakes Middle School ball field renovation.

General Surveying & Mapping Services – City of Coral Springs

Boundary and Topographic Surveys, As-Built Surveys, Legal Descriptions, Design Surveys, Construction Stakeout, and General Surveying Services for the City of Coral Springs

1800 N. Douglas Road, Pembroke Pines, Florida.

Project Engineer. Responsible for the design, drafting, permitting of engineering projects.

- ❖ Westpoint Industrial Park, 160-acre land developments project in the City of Tamarac, 2,800 LF of Hiatus Road north of Commercial Boulevard, drainage master plan, and sanitary sewer master plan and water master plan.
- ❖ Cameron Palms and Miramar Commons, land development projects in the Town of Davie and City of Miramar, sanitary sewer, water mains, force mains, paving and drainage.

October 1995 - April 1997

CIVIL CADD ENGINEERING, INC.

1011 Ives Dairy Road, Miami, Florida.

Project Engineer. Responsible for the design, drafting, permitting of engineering projects for Miami-Dade County and Broward County governments.

- ❖ SW 137th Avenue from 152nd street to 184th street, Miami, Florida, reconstruction and widening of the existing two-lane highway, paving and drainage, coordination with other consultants such as electrical, street lighting, signalization and utility companies.
- ❖ NW 17th Avenue from 103rd Street to 135th Street, Miami, Florida, reconstruction and widening of the two-lane residential street.
- ❖ Copans Road, Pompano Beach, Florida, a 2-mile roadway project consisting in reconstructing and widening of a four-lane highway, paving and drainage system.

May 1994 - October 1995

BERMELLO, AJAMIL and PARTNERS, INC.

2601 South Bayshore Drive, Miami, Florida.

Project Engineer. Responsible for the design, drafting and permitting of engineering projects.

- ❖ International Corporate Park at NW 107th Avenue and NW 19th Street, Miami, Florida, 300-acre land development project. Drainage, sanitary sewer and water master plans, 9,000 LF of roadway and water mains, 3,000 feet of sanitary force mains and gravity mains, lift station, paving, drainage, signage and pavement marking.
- ❖ Redondo and Brassfield, Homestead, Florida, two neighborhood improvements projects for City of Homestead, water mains, gravity mains, force mains, lift stations, paving and drainage.
- ❖ Homestead Motor Sport complex, Homestead, Florida.

Professional Credentials

Registered Civil Engineer in the State of Florida February 1999

Florida International University - Bachelor of Science in Civil Engineering conferred April 1994

Professional Associations

American Society of Civil Engineer

PAUL WEINBERG

RLA | Principal

Paul Weinberg is a multitalented designer and team leader who has been based in South Florida since 2000; during this time he has worked on a variety of significant public sector projects including urban parks, plazas, streetscapes and waterfront projects that provide meaning and purpose to the community. He has a unique understanding of how to create immersive and memorable public spaces that strengthen civic identity bring vitality to the larger area. Paul often works with artists and other consultants with innovative skills to create transcendent spaces; he is committed to a team-based approach that delivers creative, thought-provoking solutions tailored to the distinct character of each project.

PROFESSIONAL EXPERIENCE:

Mr. Wohlfarth, P.E. is the Director of the Engineering Department which includes professional and technical personnel. He also has overall responsibility for the Special Inspection, Construction Materials Testing and Geotechnical Engineering Divisions where he directs training, quality system review and personnel evaluations. His responsibilities include report review, signing and sealing geotechnical engineering, structural inspection and laboratory testing reports for the company, providing contract negotiation and administration, budget estimating and project management.

Mr. Wohlfarth has 25 years of experience (20 with NE) in various aspects of geotechnical engineering which include determining feasibility of site development, foundation design analysis and recommendations, providing engineering evaluation for bridge and roadway construction, pavement design for roadways, roadway subgrade stabilization by geotextiles and other means, design of shoring systems for utility trenches and other deep excavations, dewatering methodology for trench and other excavations and backfill procedures, setting up and monitoring pile load tests, and providing value engineering for foundations.

Mr. Wohlfarth served as Project Engineer for the FDOT Broward Boulevard/ I-95 fly over ramps and access improvements to the Tri-Rail system, which included three new bridges. Additional project experience includes being the Project Engineer for the FDOT roadway widening and Turnpike improvements at Tamiami Trail. This particular project included three new bridges and over three miles of roadway improvements.

Mr. Wohlfarth served as the Project Engineer for numerous helical pier projects. He helped provide recommendations supporting portions of the Crate and Barrel building at Gulfstream Park in Hallandale Beach Florida. The main structure was being supported upon shallow foundations, however helical piers were warranted when the building footprint extended beyond initial demucking limits at the structure location. This recommendation allowed the project to be constructed on time without the need of additional demucking.

He currently serves as the Principal-in-Charge/Senior Project Manager for our qualification based continuing contract with Palm Beach and Broward County.

STEVEN M. WATTS, PSM
AWN DESIGN & CONSULTING GROUP, INC.

EDUCATION:

BSLS, Purdue University, 1984

PROFESSIONAL REGISTRATION:

Florida PSM No. 4588

QUALIFICATIONS:

Mr. Watts is President of AWN Design & Consulting Group, Inc. (AWN) specializing in surveying and mapping, land acquisition, computer mapping, land information/geographic information systems (LIS/GIS) and facilities management. As Principal Surveyor of AWN he is responsible and involved in all aspects of the company's surveying and mapping projects.

Prior to incorporating AWN in April, 2003, he was Vice President and Director of Surveying for Williams, Hatfield and Stoner, Inc. (WHS) having been an employee of WHS since 1984 upon graduation from Purdue University (BSLS-Lambda Sigma: Land Surveying Honorary). Having spent his entire professional surveying career working in Florida, he is extremely knowledgeable of the rules, requirements and specifications for completing large scale surveying and mapping projects in the South Florida area.

Mr. Watts has also been the Principle Surveyor for The Las Olas Company and their land holdings within the environs of the City of Fort Lauderdale, preparing boundary, topographic and design surveys for the various acquisitions, design projects, etc., for over ten years.

EXPERIENCE:

General Surveying & Mapping Services – City of Pompano Beach

Boundary & Topographic Surveys: Community Park, Canal Point Park; Legal Descriptions: Avondale Fishing Piers; Topographic Surveys: Pompano Beach Air Park; Taxiway "N" – Pavement Widening, Runway 15 – Runway Protection Zone, Magnetic Heading, Runways 6-24, 15-33 and 10-28.

General Surveying & Mapping Services – City of North Lauderdale

Boundary and Topographic Surveys, As-Built Surveys, Legal Descriptions, City Limit Determinations and General Surveying Services for the City of North Lauderdale. Additional responsibilities include project surveyor for the topographic survey of the municipal complex, GIS, water control district and utility mapping, Hampton Pines Park and Silver Lakes Middle School ball field renovation.

General Surveying & Mapping Services – City of Coral Springs

Boundary and Topographic Surveys, As-Built Surveys, Legal Descriptions, Design Surveys, Construction Stakeout, and General Surveying Services for the City of Coral Springs

WALTERS ZACKRIA ARCHITECTS PROJECT EXPERIENCE:

Architectural\Engineering Design Surveys:

- **Quite Waters Park, Deerfield Beach, FL**
- **Sunrise Aquatics Center, Sunrise, FL**
- **Sunrise Public Works Complex, Sunrise, FL**
- **Tradewinds Park, Coconut Creek, FL**
- **Canal Point Park, Pompano beach, FL**
- **CB Smith Park, Pembroke Pines, FL**
- **Public Works\Facility Management Compound, Coconut Creek, FL**
- **Utility Division Complex, Coral Springs, FL**
- **Easterlin Park, Oakland Park, FL**
- **Highlands Park, Pompano Beach, FL**
- **Markham Park, Sunrise, FL,**
- **Miramar Wastewater Treatment Plant, Miramar, FL**
- **Mullins Park, Coral Springs, FL**
- **Community Park, Pompano Beach, FL**

APPROACH TO SCOPE OF WORK

6

UNDERSTANDING THE PROJECT AND PROJECT REQUIREMENTS

As a leader of a highly qualified and responsive team of design professionals, Walters Zackria Associates and its team of highly qualified consultants will provide the City of Fort Lauderdale with Architectural Consulting Professional Services on an annual contract basis.

WZA has been providing many Municipalities with Architectural and Engineering services on various projects for the past thirty years. We thoroughly understand the needs and have the solutions to make each project a success.

WZA and our Consultants' staff of design and engineering experts can readily provide professional services for the following project types:

- **Space Planning**
- **Programming**
- **Specifications**
- **Architectural Design**
- **Contract Administration**
- **Cost Estimating, Planning and Scheduling**
- **Architectural 3D Rendering and Animation Services**
- **Interior Design**
- **Landscape Architecture**
- **ADA Analysis and Design**
- **Sustainable Design**
- **Building Performance Analysis**
- **Historical Preservation**
- **LEED Design**
- **Structural Design**
- **Mechanical, Electrical, Plumbing Design**

We have tremendous knowledge and experience working on similar projects for various local municipalities for almost 30 years. Best way to demonstrate the firm's capabilities on continuing services contracts is by providing a brief sampling of similar projects successfully completed by WZA for Broward County and various local municipalities:

CITY OF DELRAY BEACH EXPERIENCE

CITY OF DELRAY BEACH – MILLER PARK COMPLEX - 2009

5,500 S.F. Three New Buildings on 23 Acre Site. Two-Story Concession and Meeting Room Building, One- Story Concession Building and One-Story Storage Facility.

CITY OF DELRAY BEACH – SEACREST SOCCER COMPLEX - 2008

2,000 S.F. One-Story Concession and Restroom Building for 8.5 Acre Park

CITY OF DELRAY BEACH – WESTERN COMMUNITY CENTER – (NOT BUILT)- 2007

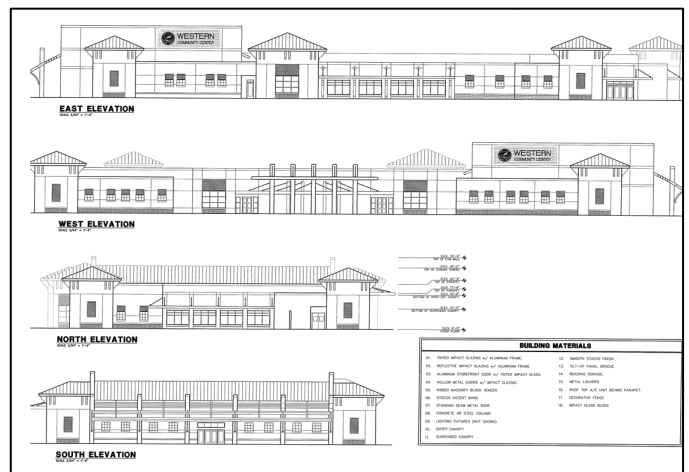

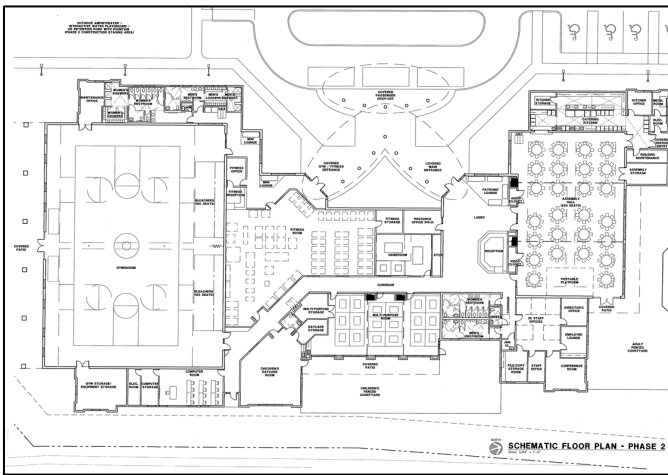

6 Acre Site Masterplan for New Community Center & Passive Park
34,500 S.F. Community Center with Assembly, Offices, Fitness & Gymnasium

CITY OF DELRAY BEACH - FIRE ADMINISTRATION BUILDING - 1994

Design for Fire Administration Offices, Emergency Operation Center, and Fire Station – 55,000 sq. ft.

CITY OF DELRAY BEACH - FIRE STATION - 1992

Design for Fire Station Renovation and Addition

Western Community Center

Seacrest Soccer Complex

City of Pompano Beach (1996 to 2012):

City Golf Course Renovations, Golf Course Maintenance Bldg, Golf Course Masterplan, Civic Center Masterplan, Community Park Masterplan, Avondale Park Master Plan, Canal Point Park Masterplan, Hunters Manor Park Master Plan, Water Treatment Plant Renovations, Public Works Building B Office Renovations, Public Works Storage Building, and Herb Skolnick Community Center.

Broward County Parks and Recreation – A/E Owner’s Representative on 2000 bond projects (2002 to 2007):

Long Key Natural Area	CB Smith Park	Markham Park
Parking Lot Redesign Irrigation System Replacement Street Light Replacement Wetland Creation Native Landscaping Restoration Exotic Vegetation Removal Site Masterplan for future Nature Center and Maintenance Building Baez Residence – Historical House Restoration (Won State Award!!!)	(3) Pedestrian Bridge Structural and Architectural teardown and rebuild. Meeting Cabin Structural and Architectural Repairs Velodrome Track Concrete Restoration and Surface Repairs Asphalt Pavement Repairs (5) Lift Station Teardown and Rebuild Park Boundary Fence Replacement Exotic Vegetation Removal Pavilion Re-Roofing –20 buildings CB Smith Entrance Roadway, sidewalk – over ½ mile of pavement	Playground Replacement (2) New Restroom Buildings Pavilion Re-Roofing – three phases 30 buildings New Dog Park Camp Ground – sewer system installation for 120 campsites with new sewer main and lateral connections. Pavement Repairs. Camp Ground – Exotic Vegetation Removal and Replacement Landscaping – over 60 acres. Lift Station Renovations
Brian Piccolo Park	Vista View Park	
Irrigation System Replacement Street Light Replacement Cricket Shelter Roof Renovations	New Parking lots over Existing Landfill New Walkways	

Broward County Parks and Recreation – A/E Miscellaneous Services – County Wide (2006 to 2012):

- Snake Warrior Island – Nature Center and Pavilion
- Deerfield Island Park – Permitting for new boat docks and sea wall in the Intracoastal waterway
- Roosevelt Gardens Park – Community Center, Playground, Landscaping and Irrigation
- Miramar Pinelands Natural Area - Nature Center, Pavilion, Restroom, Gatehouse, and Playground
- Hollywood North Beach Park – Carpenter House – Historical Restoration of (3) structures on the beach
- Anne Kolb Nature Center - Roof Evaluation after Hurricane Wilma
- Hollywood North Beach Park – Loggerhead Restroom Evaluation after Hurricane Wilma
- Various Restrooms – 5 new restrooms in Markham, Sunview, and Tradewinds Park
- CB Smith Park - Marina Building – Repair damage from Hurricane Wilma
- Anne Kolb Re-roofing – Replace roof over (5) structures, over 60,000 sf of metal roofing.
- Delevoe Park – New Fire Alarm
- Miscellaneous Electrical Design -Various Parks: Fern Forest, Markham, Tradewinds, Vista View, Sunview
- Tradewinds Park Electrical Study – Review FPL transformer loading at
- Miscellaneous Civil Engineering – CB Smith, Markham, Tradewinds, TY Park
- TY Park Slavin Bldg - Electrical Design with new building service and lighting
- Fern Forest Park - Structural Evaluation
- VGBA Pool Renovations - CB Smith, Markham, Central Broward, TY Park
- Markham Park - New Playground
- Lafayette Hart Park - New Playground
- Easterlin Park – New Administration Building
- Tradewinds Park – New Administration Building
- Deerfield Island Park - Fire Line service design to new boat docks
- Quiet Waters Park – Elec. Distribution Centers
- Helwig Natural Area - Parking lot, Playground, Landscaping and Irrigation
- TY Park - Aquatic Playground Replacement
- Markham Park – New Maintenance Building
- Markham Park - (8) ADA Restrooms Renovations
- Hollywood North Beach Park – Shelter & Restroom
- Brian Piccolo Park – (5) ADA Restrooms Renovations
- Long Key Natural Area – 40 Acre Wetland Mitigation
- CB Smith Park - Flume Slide

City of Coconut Creek – A/E Miscellaneous Services – County Wide (1999 to 2012):

- Recreation Center Addition – 7,500sf Fitness Center
- Hosford Park Maintenance Building
- Police Department – Roof Evaluation after Hurricane Wilma
- Police Department – Roof Enclosures
- Police Department – 911 Dispatch Renovations
- Police Department – 911 Office Renovations
- Fire Department – Station 50 and 94 – Wind Hardening Study for FEMA Grant
- Fire Department – Station 50 and 94 – Wind Hardening Construction Documents
- Public Works Department – Administration Building - Wind Hardening Study for FEMA Grant
- Public Works Department – Administration Building - Wind Hardening Construction Documents
- Public Works Department – Fleet Building - Wind Hardening Study for FEMA Grant
- Public Works Department – Fleet Building - Wind Hardening Construction Documents
- Public Works Department – New Administration Building - Construction Documents

City of Coral Springs – A/E Miscellaneous Services – County Wide (1999 to 2012):

- Mullins Park Teen Center
- Mullins Park Meeting Building
- Aquatic Center – Various Renovations and Additions
- Water Treatment Plant - Administration Building – Construction Documents for Wind Hardening
- Water Treatment Plant - Administration Building – Construction Documents for 2-story Addition
- Police Department – Ballistic Lobby Separation
- Police Department – Emergency Power Generator Replacement
- Police Department – Cooling Tower Replacement
- Police Department - Electrical Service Study
- Police Department - Interior Office Renovations
- Center For The Arts – Lighting Design for Outdoor Mural
- Center For The Arts – Dressing Room Renovations
- Historical Covered Bridge – Study and Renovation Documents
- Westside Maintenance Compound – Roof Replacement
- City Hall South – Mechanical Replacement
- City Hall North – Interior Office Renovations
- Tennis Center – Mechanical Replacement
- Tennis Center – Drainage Improvements
- Charter School – Electrical Service Study
- Many others between 1987 to 1998

We will work closely with City Commission, City staff, and others to develop and implement projects, as required. We can phase projects to allow continual use and occupancy for the City during the construction phase. WZA will develop a phasing plan with construction access, routing, and construction barriers to allow construction to proceed and allow simultaneous partial use. If staff relocation is required, WZA can provide plans and specifications for temporary office facilities for City staff as part of the bid documents.

WZA and our Consultants will provide the City of Fort Lauderdale with a unique blend of experience in architectural design, engineering, finance, project management, and construction administration. Through the coordination of dedicated professional consultants working under the direction of WZA staff, your projects will be developed carefully and skillfully from the planning process through implementation.

SCOPE OF WORK

TECHNICAL APPROACH AND METHODOLOGY

Task 1 – Existing Facilities Analysis

WZA and its Consultants will review the existing City facilities and functions to develop a baseline analysis of existing conditions.

Task 2 – Needs Assessment

WZA will meet with City Commission, City staff, and others to document current and future needs for the projects. WZA will distribute Questionnaire and Survey to obtain input from various stakeholders, as required. Small renovation projects may not require this, whereas larger project master planning studies may require extensive meetings and consultation.

As part of the Needs Assessment process, the WZA team will interview key City personnel to gather additional information, specific insight, and special needs.

Task 3 – Site Analysis

WZA and its Consultants will review the proposed project site for ingress, egress, parking, vehicular movement, security, access control, green space, existing trees, existing grading, any environmentally sensitive conditions, protected species habitat, utility services, etc.

WZA will send staff to measure existing buildings or project sites to review existing conditions and to prepare CAD as-builts.

If a current Site Survey is not available, WZA can hire a surveyor prepare a Site Survey on behalf of the owner. If a Geotechnical Report is not available, WZA can order a Geotechnical Report on behalf of the owner.

Task 4 – Programming

Based on the review of the existing condition, staff questionnaire and interviews, WZA team will prepare a space program. This program will define function and size of each space. In additional, relationships and adjacencies will be outlined. Equipment and finishes for each space will be listed. Specialized equipment and / or special finishes will be highlighted.

Small renovation projects may not require this step, whereas larger projects will require detailed programming studies and may require extensive meetings and consultation.

Task 5 – Masterplan Development

WZA will update the existing master plan to incorporate the proposed renovations and modifications, site ingress and egress, public and staff parking areas, vehicular movement, security and access control, disposition of existing trees, and proposed landscape areas, etc.

Task 6 – Sustainability

WZA will review the USGBC LEED design rating criteria with City staff and affirm the level LEED performance desired (Certified, Silver, Gold, or Platinum). WZA will review various options available to achieve the desired goal. Alternate systems and technologies will be discussed, including on-site power generation, energy efficient lighting, etc.

Task 7 – Schematic Designs

Based on the review of the existing condition, staff questionnaire and interviews, space program, LEED goals, and project budget, WZA will prepare schematic design drawings for the project. These drawings will provide a concept for the project.

Task 8 – Outline Specifications

WZA will prepare outline specifications for major materials and services to be provided as part of the project. The Outline specifications will set minimum quality standards

Task 9 – Design Development and Construction Documents

WZA will incorporate the Site Survey, Geotechnical Report, Site Masterplan Schematic Design Drawings, Outline Specification, and all supporting criteria to develop the Project Construction and Bid Documents.

WZA will submit the drawings and specification submittals to the City at 50% and 100% Construction Document levels for review and approval.

Task 10 – Project Cost Estimating

WZA will prepare a probable budget estimate for the project. Probable budget estimate will provide the City with a breakdown of costs for various items and budgetary allowances for hard and soft costs.

Task 12 – Permitting

WZA will submit for and obtain all necessary permits, including but not limited to Building Department, Broward County EPD, SFWMD, FDEP, etc. Depending on the scope of the project, FAA approvals may also be required.

Task 12 – Post Design Support

WZA will provide technical support to the City during the bid and award phase, during the bidder evaluation process, and after the successful contractor has been selected, and through the final completion of the project.

WZA will provide full construction administration services throughout the construction phase by attending regularly scheduled meetings, review on-site construction, coordinate with Owner's Fixtures, Furnishings, and Equipment suppliers and the Contractor.

COMMITMENT

WZA will meet with City staff and gather all necessary information to complete the tasks outlined under the Scope of Work section. WZA will work closely with City staff to ensure implementation of the project goals and successful final completion of the project.

METHODOLOGY

Here are some critical aspects of WZA's work methodology.

The first aspect is to develop and facilitate a framework to involve all stakeholders within a project team. The framework involves constant communication and cooperation between all parties. We provide the hub for all the spokes on the project team, include WZA staff, City staff, Engineering Consultants, Specialty Consultants, Owner's Vendors and Suppliers, Contractor and his Design Professionals, Building Officials and all other individuals involved in the project.

Second is to have rigorous Quality Assurance and Quality Control Standards for the firm and for the project.

Third is to hire and engage highly qualified individuals and field experts to perform the necessary tasks.

Fourth is to provide the resources and flexibility to the working individuals so they can provide the best results for the City and for the project.

CODES

WZA staff is very familiar with the current building codes. In fact, one of the firm Principal Architects, Abbas Zackria, recently served as the Chairman on the Broward County Board of Rules and Appeals, an agency responsible for certifying all building officials and inspectors, and hearing code appeals in Broward County.

PERMITTING

WZA is very familiar with the Permitting Process in Broward County in its various municipalities. We submit for and obtain all required regulatory agency approvals, including Building Department, Zoning Department, Engineering, Broward County Traffic Engineering, South Florida Water Management District, Broward County Water and Sewer, Broward County Surface Management, Broward County Tree Section, Broward County Elevator Section, Broward County Health Department, etc.

In addition, WZA has experience in obtaining specialty permits or approvals for various projects from the following agencies or regulatory bodies:

- **Development Review Committee**
- **Architectural Appearance Committee**
- **Community Appearance Board**
- **Planning and Zoning Board**
- **US Army Corps of Engineers**
- **Florida Inland Navigation District**
- **Florida Department of Environmental Protection**
- **Federal Aviation Administration**
- **Florida Historical Commission**
- **Local Historical Committee**
- **Broward County Historical Commission**

BUDGET

WZA produces construction cost estimates using our database of current construction costs for similar municipal facilities. WZA's cost estimates are very detailed and accurate.

Currently, this database includes projects publicly bid over the past 10 years. We have project that go out to bid almost on a monthly basis. As the latest prices come in, we update our database to stay current with the market conditions.

We supplement pricing knowledge by utilizing our strong relationships with local general contractors and subcontractors to verify project costs and to provide the owner with another level of cost and budget control prior to the project going to bid.

PROJECT SCHEDULE CONTROL, COST CONTROL, AND QUALITY CONTROL

Listed below is a brief summary, in an outline bullet format, that describes WZA's schedule control methods for the (1) Design Phase and (2) the Construction Phase of project development for a typical project.

1) Schedule Control During Design / Pre-Construction Phase

- Specific target dates for both completion dates and critical path dates are pre-determined by the City's project schedule or occupancy date.
- Hitting the necessary dates starts with coordination between WZA and City staff in which milestone dates and a completion date are set.
- We do a thorough walk through of the construction site, and review all as-built documents to minimize potential conflicts.
- The Design Team creates a CPM schedule with early start and finish dates for each design phase.
- Bi-weekly Design meetings are held to keep the project on track.
- Civil Engineering and Landscaping Construction Documents are completed early for long lead environmental permitting submittals while the other disciplines complete building systems coordination.
- Meetings are scheduled with the building department to review the project scope and expedite the permitting process.
- Architect and Engineers begin to address comments prior to the release of the entire package. In a "best case" scenario, within a day of when we receive the plans back from the plans reviewers their comments have already been addressed and the plans are immediately back into the building department for the final review.

2) Schedule Control During Construction Phase

- Once the permit is issued, the construction CPM schedule is revised to track all critical tasks and advanced as necessary to ensure early project completion.
- Weekly Construction meetings are held to keep the project on track.
- The Schedule of Values supplements the monitoring of the schedule each month by raising red flags as indicated by the percentage of completion billings on the Schedule.
- The weekly meetings and the monthly billing review give the team represented by the Contractor, the Owner, and the Architect time to identify and address issues that could negatively impact the Team's ability to complete the job on time and on budget.
- The WZA actively participates in the creation, enforcement and modification (when necessary) of the project schedule while maintaining milestone dates.

Listed below is a brief summary, in an outline bullet format, that describes WZA's cost control methods for the (1) Design Phase and (2) the Construction Phase of project development for a typical project.

1) Cost Control During Design Phase

- WZA produces pre-construction budgets using our database of current construction costs for similar municipal facilities
- Currently, this database includes projects bid out in the past 10 years. We have project that go out to bid almost on a monthly basis. As the latest prices come in, we update our database to stay current with the market conditions.
- We supplement square foot pricing by meeting one on one with players to clearly establish scope of work, brainstorm on potential issues, and emphasize our client's expectations for this project.
- We perform thorough walk through of the construction site, and review all as-built documents to minimize potential conflicts.
- We evaluate the overall project and adjust the construction programming to gain efficiencies and save expenses.
- We work closely with the Design Team to reduce overall project cost.
- We coordinate phased construction to meet City's Annual or Project budget and timeline requirements.
- We provide Deduct Alternate Bid Items in the Construction Documents maintain cost control.
- WZA provides Value Engineering services to extend the client's budget.
- WZA provides concise detailing to reduce cost and construction time.

2) Cost Control During Construction Phase

- Since most projects are hard bid, the project cost is known at the start of construction.
- WZA produces a superior set of construction documents that ensure the owner gets what is specified and so there are no change orders to increase the project bid cost.

Listed below is a brief summary, in an outline bullet format, that describes WZA's quality control methods for the (1) Design Phase and (2) the Construction Phase of project development for a typical project.

1) Quality Control During Design / Pre-Construction Phase

- WZA's Project Manager and the company's principals work closely with the Design Team to ensure that the Construction Documents meet the City's intended project scope.
- We do an early thorough walk through of the the construction site, and review all as-built documents to minimize potential conflicts and unnecessary costs for field modifications.
- Construction Documents are reviewed by the entire team at 30%, 60%, 90%, and at 100% stages.
- WZA's 28 years of public bid construction projects had resulted in a quality control program that is second to none. Not only are the firm principals directly involved in the design and the construction document generation, they also review the sets with a keen eye for potential conflicts.
- WZA uses an AIA Document Checklist to ensure each project meets the highest quality standards.

- A full set of specifications, based on the Construction Specifications Institute format, is generated for the project. All products, techniques, materials, warranties, and basis of quality are defined.
- As a testament to our standards, WZA has Zero Errors and Omissions Insurance Claims in 28 years.

2) Quality Control During Construction Phase

Specific responsibilities include:

- The quality of the finished product we achieve together starts with comprehensive, high quality Construction Documents. This component is assured by WZA and the strong team of Consultants.
- The construction team, specifically the CM, PM, and Superintendent ensure that the proper level of Quality Control of all subcontracted and self-performed work is maintained. They coordinate the performance of all required inspections and testing, and have the authority to stop all work when it is determined to either be unsafe, defective or not to the proper standards of quality.
- The design team and the construction team have direct responsibility to review all shop drawings and specification submittals to ensure compliance with design drawings. Accurate and timely delivery and review of these documents is mandatory to ensure on time supply of the required materials and equipment necessary for success of the project.
- Quality Control is the responsibility of everyone on this Team, collectively and individually.
- WZA pursues a quality job through its long-term relationships with proven contractors that have for years or even decades shown qualities of both character and craftsmanship. These contractors have proven job after job that the client's expectations and needs come first.
- WZA looks at not just on price but on many factors including the life cycle of products being considered, and emphasis on quality.
- Though out the job, quality is stressed daily and in weekly jobsite meetings. An ultimate goal of the Team is "quality is job #1".

CURRENT WORKLOAD

Please see current workload chart included in this submittal. Essentially, most of the major project we are working on are near final completion or have recently been completed. We have smaller miscellaneous services contracts which provide constant source of work from various municipalities. We have the staff ready, available, and capable to provide the necessary services for this project.

MAJOR PROJECTS	CURRENT STATUS	WORK TO BE PERFORMED
City of Miramar Police Headquarters Design / Build Criteria Package	Bidding	Construction Administration To be completed 8/2015
City of Pompano Beach Misc. Services Contract – 2011 Highlands Park Restroom	Construction	Construction Administration To be completed 2/2014
Broward County Aviation Division Maintenance Building	Construction	Construction Administration To be completed 9/2014
City of Sunrise Miscellaneous Services 2010 contract Public Works Compound Demolition	Construction	Construction Administration
City of Coral Springs Water Plant Administration Bldg Renovation	Construction	Construction Administration To be completed 9/2014
Broward County Parks and Recreation - Miscellaneous Services 2005 contract	Firm has completed 95% of a Five -year contract. 41 Work Authorizations	Multiple Projects are in Construction Phase. Projects completed in 2014.
Broward County Parks and Recreation - Miscellaneous Services 2011 contract	Firm has completed 80% of a New Five -year contract. 20 Work Authorizations	Multiple Projects are in Design, Permitting, and Construction Phases
City of Boca Raton Miscellaneous Services 2012 contract Red Reef Park	On-Hold	Bid Permitting Construction Administration

May 22, 2013

Mr. George San Juan
DELTA G CONSULTING ENGINEERS, INC.
707 NE 3rd Avenue, #200
Fort Lauderdale, Florida 33304

ANNIVERSARY DATE – Annually, on June 14th

Dear Mr. San Juan

Broward County is pleased to announce that **Delta G Consulting Engineers, Inc.** has renewed its certification as a **Disadvantaged Business Enterprise [DBE]** in Florida, under a **Unified Certification Program [UCP]** in accordance with 49 CFR, PART 26.

DBE certification continues from your anniversary date, but is contingent upon Delta G Consulting Engineers, Inc. renewing its eligibility annually through this office, Office of Economic and Small Business Development (OESBD). OESBD will notify you in advance of your obligation to provide continuing eligibility documents; however, to assure continued certification is your responsibility. Failure to continue your eligibility will result in immediate action to remove Delta G Consulting Engineers, Inc. as a DBE.

As long as Delta G Consulting Engineers, Inc. is listed in the DBE Directory, it is considered DBE Certified by all Florida UCP Members.

DBE Certification is subject to actions by governmental agencies impacting the disadvantaged status of Delta G Consulting Engineers, Inc.

Delta G Consulting Engineers, Inc. will be listed in Florida's **UCP DBE Directory** which can be accessed via the internet, at

<https://www3.dot.state.fl.us/EqualOpportunityOffice/BizNet/mainmenu.asp> or through FDOT's website at www.dot.state.fl.us/equalopportunityoffice and by "clicking" on "BizNet DBE UCP Directory" in the center of the page.

Re: Delta G Consulting Engineers, Inc.

May 22, 2013

DBE certification is **NOT** a guarantee of work, but enables Delta G Consulting Engineers, Inc. to compete for, and perform, contract work on all USDOT Federal Aid (FAA, FTA and FHWA) projects in Florida as a DBE contractor, sub-contractor, consultant, and sub-consultant or material supplier.

If, at any time, there is a material change in Delta G Consulting Engineers, Inc., including, but not limited to, ownership, officers, directors, scope of work being performed, daily operations, affiliations with other businesses or individuals or physical location of Delta G Consulting Engineers, Inc., you must notify OESBD, in writing, without delay. Notification should include supporting documentation. You will receive acknowledgement and confirmation of continued eligibility, if applicable after notification of changes.

Delta G Consulting Engineers, Inc. may compete for, and perform, work on all USDOT Federal Aid projects throughout Florida, receiving DBE credit for work performed in the following area:

NAICS: 541330 Engineering Services

Please feel free to contact OESBD for any questions or concerns pertaining to your DBE certification. Our telephone number is (954) 357-6400; our fax number is (954) 357-5674.

Sincerely,

Chris Atkinson, Assistant Director
Office of Economic and Small Business Development

Boynton Beach, FL 33426

CERT. NO: 14476

Approval Date: 04/30/2012 - CBE Tier 2

Expiration Date: 04/30/2015

ANNUAL ANNIVERSARY: 04/30/2013

Dear Mr. Iossi:

Small Business Development (SBD), a division of Sustainability, Planning and Economic Enhancement Department (SPEED) has completed the review of your application and attachments submitted for certification. Your firm is officially certified as a Community Business Enterprise (CBE) in accordance with section 2-10.4.01 of the Code of Miami Dade County.

This certification is valid for three years provided there are no changes rendering your firm ineligible for certification. You are required to submit a "Continuing Eligibility Affidavit" annually with specific supporting documents on or before your Anniversary Date as listed above. You will be notified in advance of your firm's Anniversary Date. Failure to comply with the said responsibilities may result in immediate action to decertify your firm. Every three years you will receive a full recertification review that may include an onsite investigation; SBD will also notify you accordingly.

If at any time during the certification period, there is a material change in your firm, including, but not limited to ownership, officers, Director, scope of work being performed, daily operations, affiliations with other business (es) or physical location of the firm, you must notify this office in writing within (30) days. Notification should include supporting documentation. You will receive timely instructions from this office as to how you should proceed, if necessary.

Your company is certified in the following categories as listed below, affording you the opportunity to bid and participate on contracts with small business measures. Please note that the categories listed are very general and are used only to assist our customers in searching the directory for certified firms to meet contract needs. The directory for all certified firms can be accessed on the Miami-Dade County SPEED website <http://www.miamidade.gov/sba>.

Thank you for doing business with Miami Dade County.

Sincerely,

Sher McGriff, Director
Business Opportunity Support Services
Small Business Development Division
Sustainability, Planning and Economic Enhancement Department

SOUTH FLORIDA WATER MANAGEMENT DISTRICT

REGISTERED VENDOR NO.: 101910

October 24, 2011

CERTIFICATION EXPIRATION DATE
October 24, 2014

Mr. Richard G. Iossi
President
Nutting Engineers of Florida Inc
1310 Neptune Drive
Boynton Beach, Florida 33426

Dear Mr. Iossi:

Congratulations, the South Florida Water Management District (District) has certified your firm as a Small Business Enterprise (SBE). This certification is valid for three (3) years and may only be applied when business is conducted in the following area(s):

Professional Engineering Services

Your submittal of bids or proposals to supply other products or services outside of the specialty area(s) noted above will not count toward SBE participation. If you require certification in other specialty areas, please contact the Procurement Bureau, SBE Section, for additional information.

Renewal is required every three (3) years and should be requested a minimum of 45 days prior to the above expiration date.

If any changes occur within your company during the certification period such as ownership, affiliate company status, address, telephone number, licensing status, gross revenue, or any information that relates to your SBE Certification status, you must notify this office in writing immediately. It is imperative that we maintain current information on your company at all times. **FAILURE TO REPORT CHANGES MAY RESULT IN DECERTIFICATION.**

Certification is not a guarantee that your firm will receive work, nor an assurance that your firm will remain in the District's vendor database.

We look forward to a mutually beneficial working relationship.

Sincerely,

A handwritten signature in cursive script that reads "Colleen M. Robbs".

JOINT VENTURES

11

JOINT VENTURES

Walters Zackria Associates, PLLC – is not involved in a joint venture.

Any firm(s) involved in a joint venture in its Proposal will be evaluated individually, as each firm of the joint venture would have to stand on its own merits.

SUBCONSULTANTS

12

CITY OF FORT LAUDERDALE

RFQ NO. 936-11270 AN ANNUAL CONTRACT FOR ARCHITECTURAL CONSULTANT SERVICES

Key Personnel

Prime

Walters • Zackria Associates, PLLC (WZA) – Architecture. Walters • Zackria Associates is a full service, CBE, architectural firm serving South Florida for more than 32 years. **Robert S. Walters AIA** and **Abbas H. Zackria, CSI CDT LEED AP**, will lead the WZA design team composed of two principal architects two project managers and two CADD draftpersons, and specialized consultants listed below. This team of personnel has worked together for many years and functions in a well-organized manner.

Mr. Walters is Architect of Record for more than 1,000 Broward County projects. Services will include feasibility studies, existing facility review and as-built documentation, site and building programming, conceptual design, site master planning and development, space planning, design development, construction documents, design and bid specifications, cost estimating, renderings, permitting, bid review, and contract administration.

Walters • Zackria Associates is a County Business Enterprise. Our certification has been included for your review.

Subconsultants

To serve you better, we have added four specialty subconsultants to our team.

Walters Zackria Associates, PLLC / Mark Scala, PE – Structural Engineering – will assist in the structural system design. Mark's 40 years of South Florida experience includes expertise in all structural systems. Mark Scala has previous experience with the Broward County Board of Rules and Appeals as Chief Code Compliance Officer as Structural Engineer. He reviewed projects submitted to Broward's 30 building departments for structural accuracy on both the plans and in the calculations and municipal structures.

Delta G. Consulting Engineers, Inc. – Mechanical, Electrical & Plumbing, Fire Protection – Delta G is a DBE and CBE certified Mechanical and Electrical Engineering Consulting firm. Since 1992, Delta G Consulting Engineers has been providing the mechanical and electrical engineering design services various municipalities and private clients. Delta G has worked with WZA on over three dozen municipal projects.

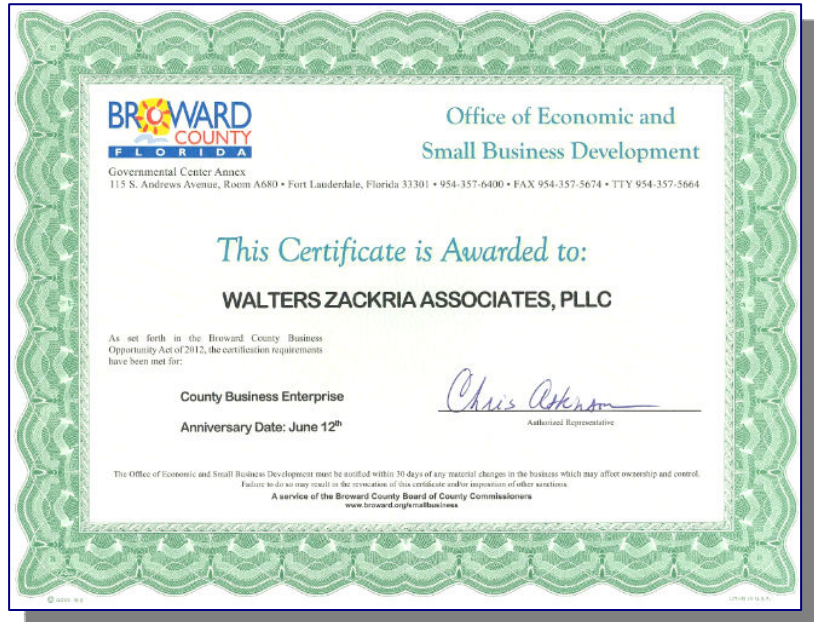

Abaco Engineering, Inc. – Civil – Tasks will include traffic circulation, site drainage, paving and grading, and site utility design. Abaco Engineering is familiar with local development ordinances and has experience with obtaining Civil Engineering permits from local municipalities and local water management district. Abaco Engineering has provided civil engineering services for Southwest Community Center, Coconut Creek Recreational Complex, C. B. Smith Park, Vista View Park and Long Key Natural Area among other projects.

TBG Partners –Landscape Architecture - Founded more than 27 years ago and staffed by more than 100 dedicated professionals, TBG Partners is a landscape architecture and planning firm that works on diverse projects at all scales around the world. Driven by a commitment to excellence and innovative design, TBG has enjoyed sustained growth and development over the years, with offices in Fort Lauderdale, Austin, Dallas, Houston, San Antonio and Tulsa. The Fort Lauderdale office is led by Managing Principal Paul Weinberg, who has been living and working throughout South Florida on significant projects for more than 14 years.

Nutting Engineers of Florida, Inc. – Geotechnical Engineering and Testing - Nutting Engineers has been serving South and Central Florida since 1967. Their experience includes site explorations, material sample analysis, and recommendations for site feasibility on runways, building foundations, roadways, and earth retaining structures. The laboratories are accredited by AASHTO, CMEC, FDOT, and ASTM. Mr. Richard C. Wohlfarth, P.E. will lead all geotechnical testing tasks.

Office location responsible for this project:

NON-COLLUSION STATEMENT

13

NON-COLLUSION STATEMENT:

By signing this offer, the vendor/contractor certifies that this offer is made independently and *free* from collusion. Vendor shall disclose below any City of Fort Lauderdale, FL officer or employee, or any relative of any such officer or employee who is an officer or director of, or has a material interest in, the vendor's business, who is in a position to influence this procurement.

Any City of Fort Lauderdale, FL officer or employee who has any input into the writing of specifications or requirements, solicitation of offers, decision to award, evaluation of offers, or any other activity pertinent to this procurement is presumed, for purposes hereof, to be in a position to influence this procurement.

For purposes hereof, a person has a material interest if they directly or indirectly own more than 5 percent of the total assets or capital stock of any business entity, or if they otherwise stand to personally gain if the contract is awarded to this vendor.

In accordance with City of Fort Lauderdale, FL Policy and Standards Manual, 6.10.8.3,

3.3. City employees may not contract with the City through any corporation or business entity in which they or their immediate family members hold a controlling financial interest (e.g. ownership of five (5) percent or more).

3.4. Immediate family members (spouse, parents and children) are also prohibited from contracting with the City subject to the same general rules.

Failure of a vendor to disclose any relationship described herein shall be reason for debarment in accordance with the provisions of the City Procurement Code.

<u>NAME</u>	<u>RELATIONSHIPS</u>
NOT APPLICABLE	

In the event the vendor does not indicate any names, the City shall interpret this to mean that the vendor has indicated that no such relationships exist.
