

COLEE HAMMOCK

Advances the cross sections identified in the accepted version of the 2021 Las Olas Mobility Vision Plan

EXISTING: SE 13th Ave (looking west)

EXISTING: SE 16th Ave (looking west)

The rendering is intended to visually represent the proposed design.

EXISTING: SE 16th Ave (looking west)

Sidewalk
Width
(7 Ft)

PROPOSED: SE 16th Ave (looking west)

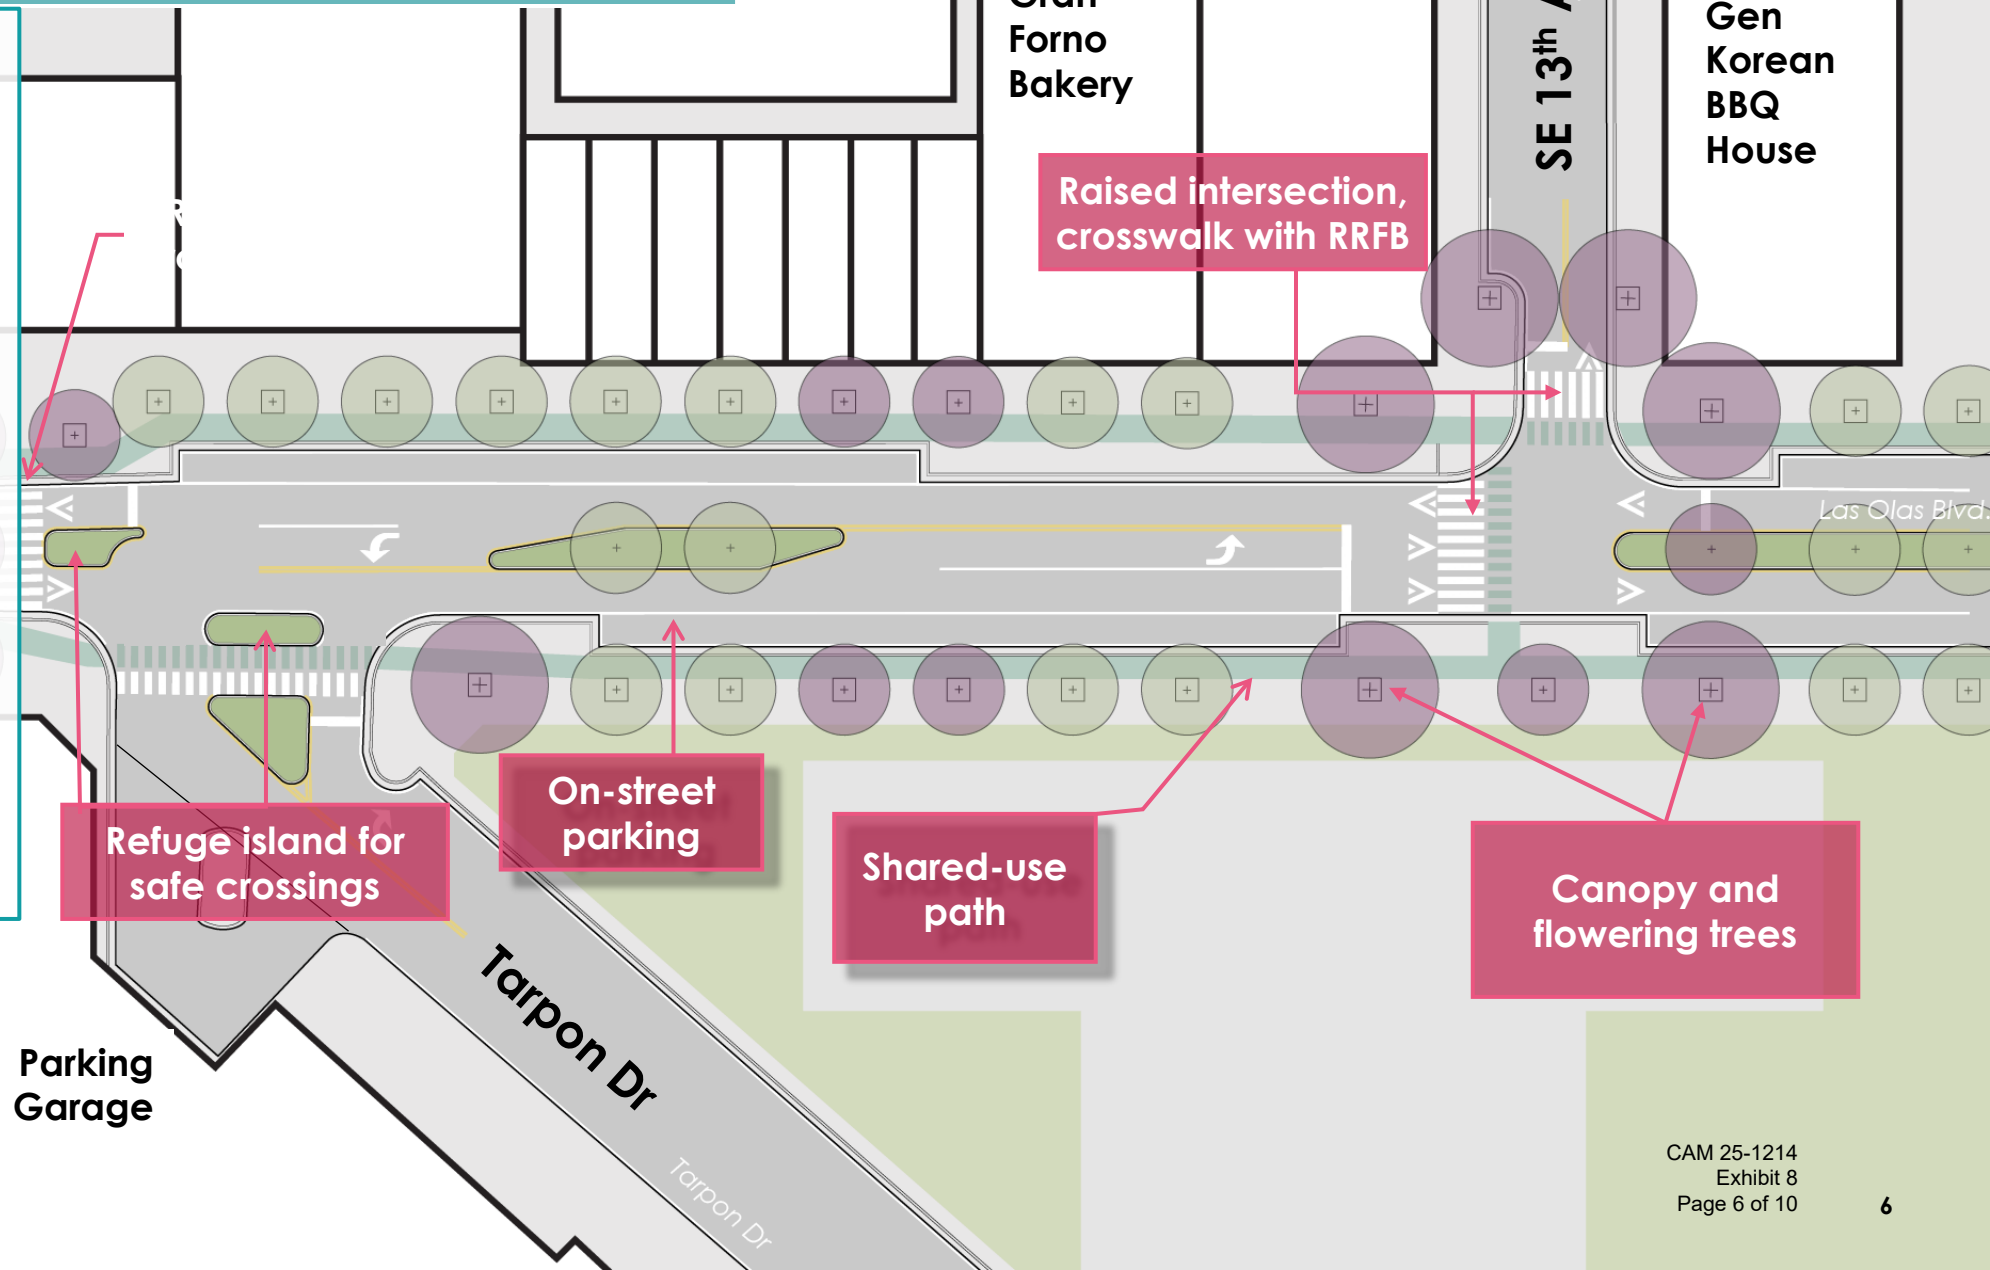

**Shared-
use path
(\approx 17 Ft)**

The rendering is intended to visually represent the proposed design.

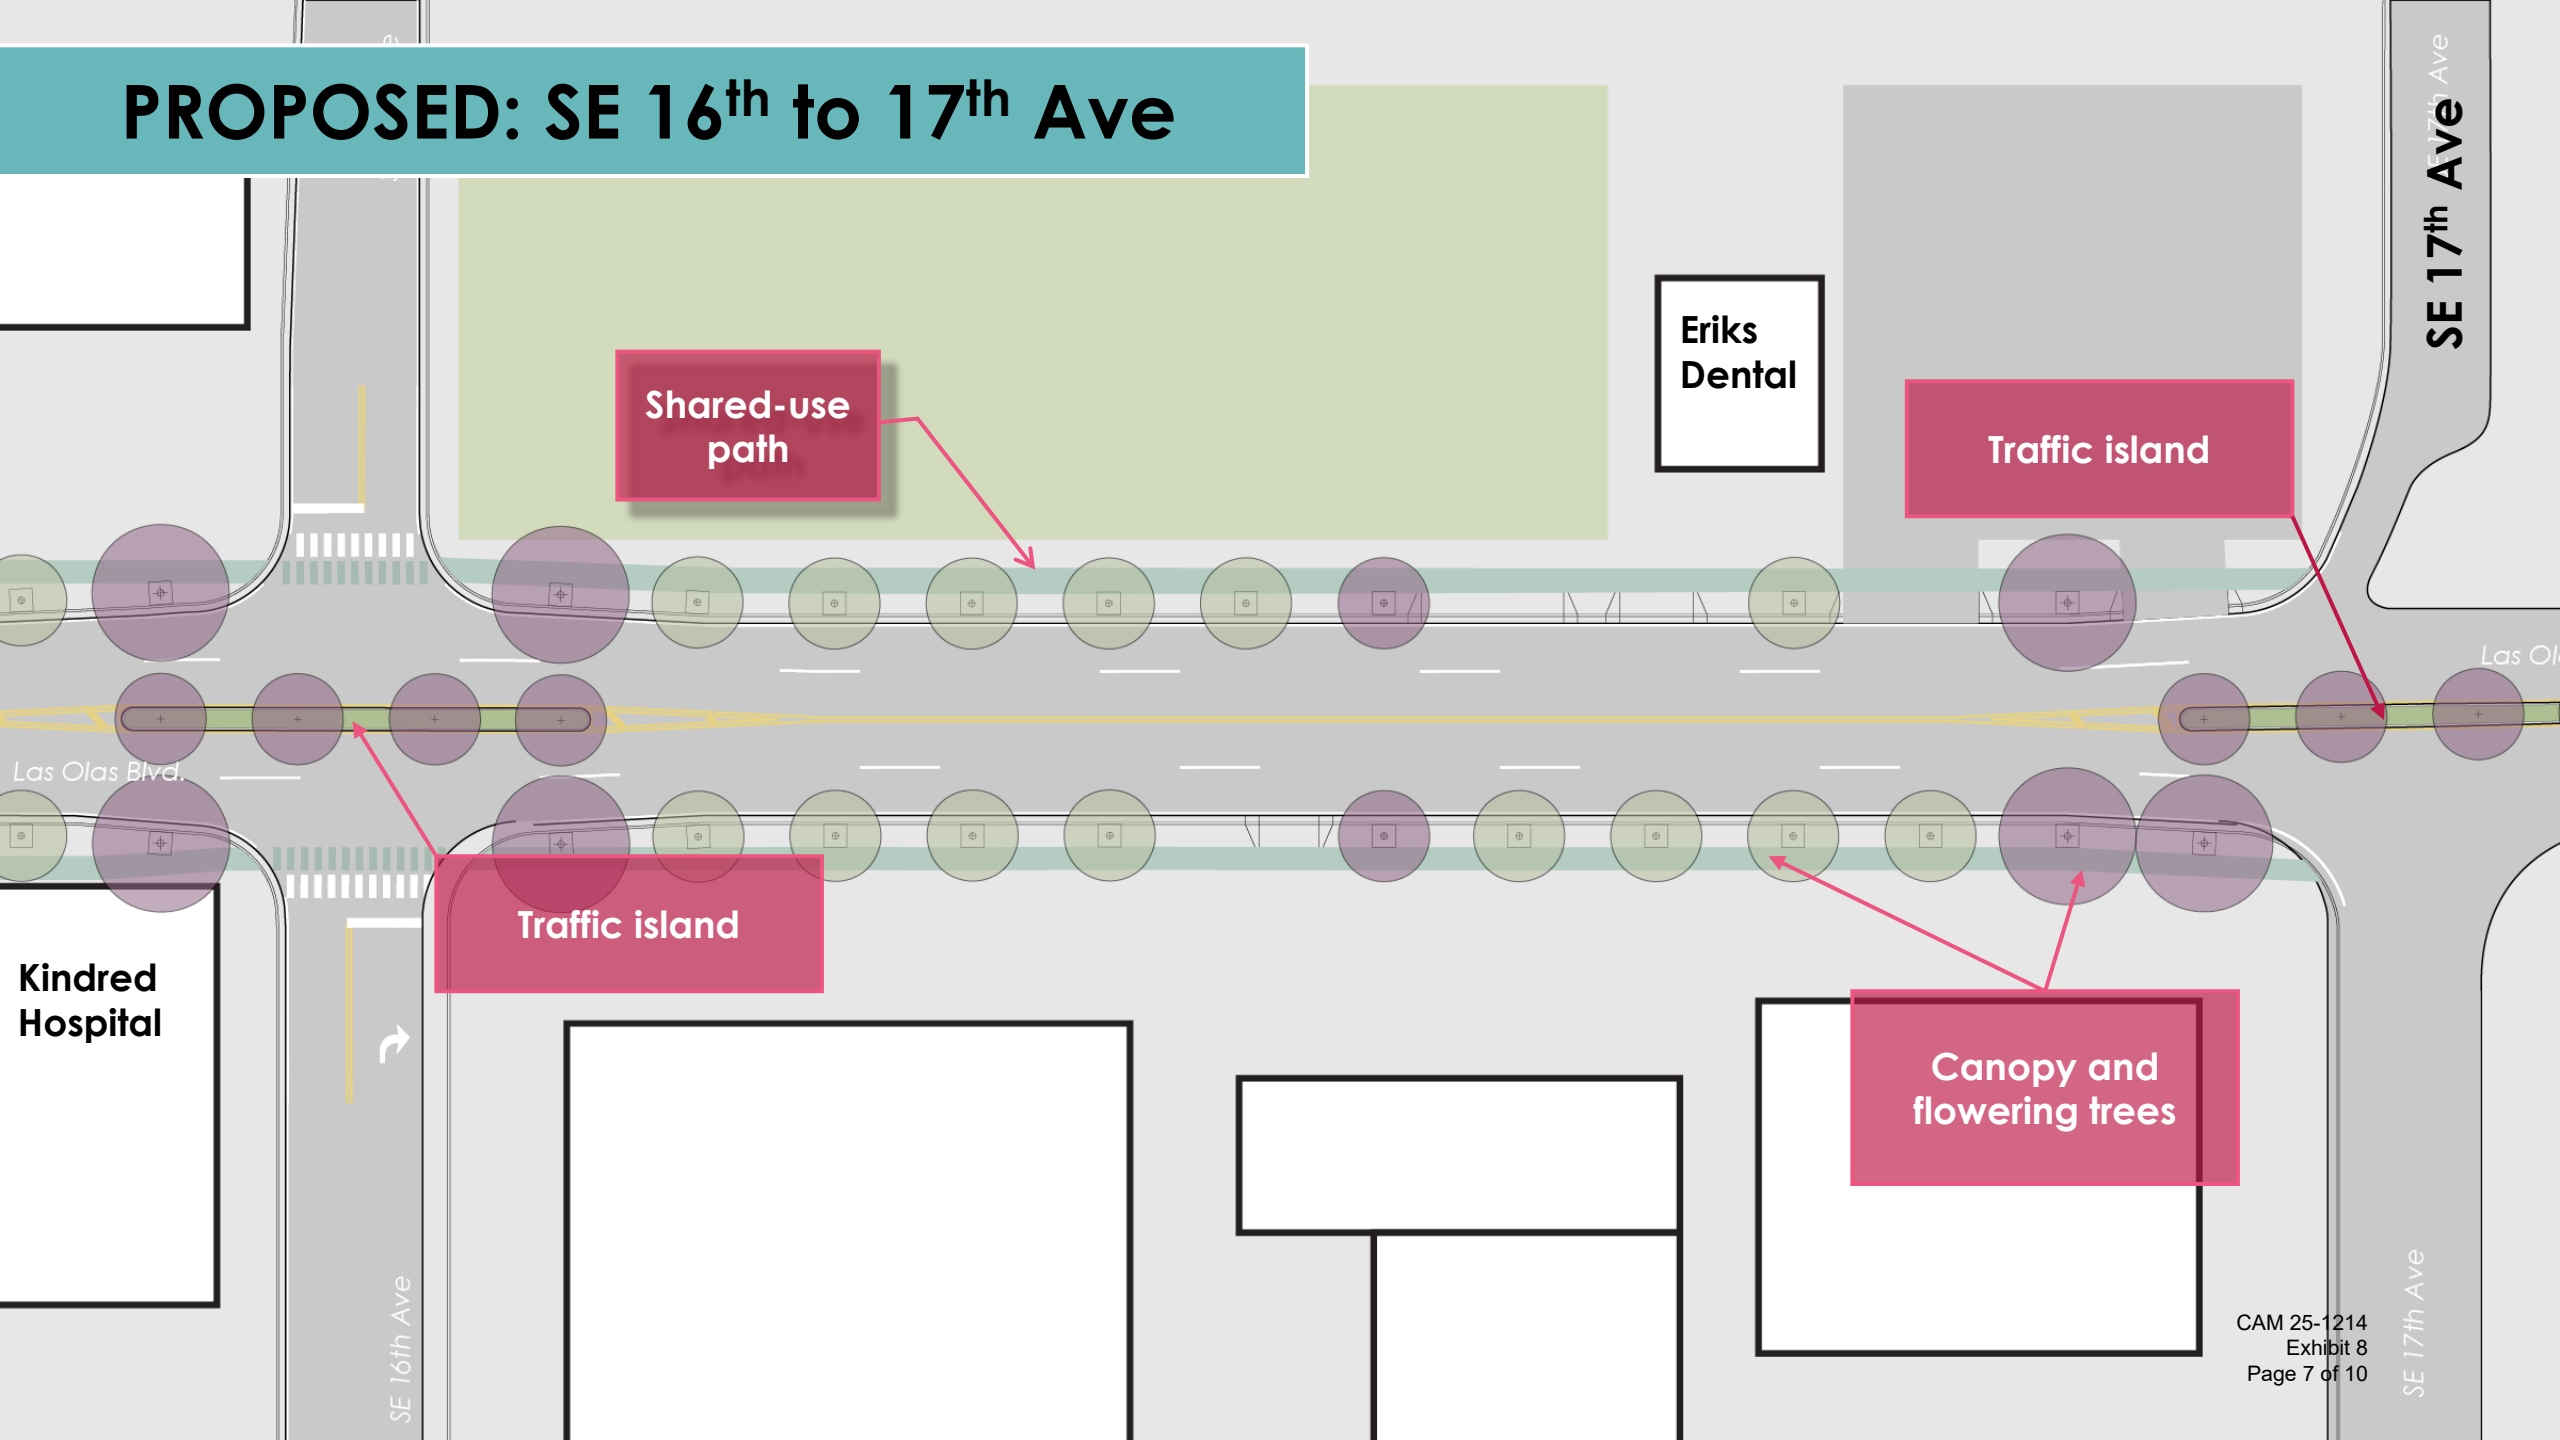

PROPOSED: SE 12th to 13th Ave

COLEE HAMMOCK

- ✓ Approximately nine (9) times more canopy with flowering and shade trees compared to the current conditions;
- ✓ Raised crosswalks near Tarpon Drive (north-south);
- ✓ Raised intersection at SE 13 Avenue;
- ✓ Sidewalk widened to over ten feet (10') for shared use path between SE 11 Avenue and SE 16 Avenue;
- ✓ Continuous on-street parking with thirty-six (36) on-street parking spaces maintained, with an expected loss of three (3) spaces compared to the existing conditions; and
- ✓ Traffic median with trees at SE 16 Avenue and SE 17 Avenue.

PROPOSED: SE 16th to 17th Ave

Livability Improvements

Proposed trees will be at 75% maturity at the time of installation.

	At Installation Approx. canopy diameter	At Maturity Approx. canopy diameter
Large trees	35'	40'
Medium trees	20'	25'
Small trees	15'	18'

Livability Improvements

Proposed trees would have maximum shade potential in 5-8 years after installation

	At Installation Approx. canopy diameter	At Maturity Approx. canopy diameter
Large trees	35'	40'
Medium trees	20'	25'
Small trees	15'	18'
