

CITY OF FORT LAUDERDALE
City Commission Agenda Memo
CONFERENCE MEETING

#23-0496

TO: Honorable Mayor & Members of the
Fort Lauderdale City Commission

FROM: Greg Chavarria, City Manager

DATE: May 16, 2023

TITLE: Temporary City Hall Relocation Discussion – **(Commission Districts 1, 2,
3 and 4)**

Colliers International (“Colliers”) and City staff will provide an update on temporary City Hall relocation solutions. Colliers has conducted a search for available office space and have identified potential locations that could be used as a temporary City Hall.

As part of our phased approach for continuity of operations, City staff are utilizing currently leased office space in the short term, with plans to move to a temporary City Hall space in the intermediate term, and ultimately to develop a path forward for a new permanent City Hall in the long term. The temporary City Hall space will be critical to ensuring that City services can continue without disruption while we work on the longer-term solution.

At this point, City staff require feedback from the City Commission on the potential temporary City Hall locations that have been identified. The accompanying presentation will include detailed information on each location, available office space, costs, and proximity to City Hall.

Resource Impact

There is no fiscal impact associated with this action.
