Re: Case Number :UDP- SP21002

To whom it may concern,

This letter represent a written report for documentation of public participation meeting for proposed Self - Storage Development at 1800 W State Road 84 (Case # UDP- SP21002), which took place on July 7th at 5:00pm. Property owners and neighborhood associations within 300 ft of property at 1800 W State Road 84, Fort Lauderdale FL 33311 were notified about the meeting via regular mail notice regarding our application request for site plan Level IV review and a rezone of a triangular portion of the property currently zoned Residential Multifamily Mid Rise (RMM25) on the south side of the property approximately 4,880 SF (0.10 ac) to Community Business (CB) district from City of Fort Lauderdale, FL, as required per City code.

The meeting occurred at 1800 W State Road 84, Fort Lauderdale FL 33311 , site location . The total number of participants included six people, including the applicant Mario Martines and his assistant Davina Bean. The purpose of the meeting was to receive input from the neighbors regarding the proposed development. The presentation material included five 24"x36" boards which included a site plan, three color elevations rendering with colors and materials and a zoning map with the area to be rezoned. Copies of the presentation is included with this report and well as the sign in sheet.

The first neighbor on the list of attendees Mr. William Porter is our neighbor to the east, who attended the meeting to learn how to proceed with his lot and further construction as he has a larger area on his lot to rezone. The next two individuals on the list Mr. Tom Turnberville and Mr. Chick W. were with the Edgewood Association . They asked about the elevations, landscape, and drive. I personally showed them what we were going to do. They liked the fact that the building was towards the front and we had left a large area in the back for our green space. They mentioned they liked the design and would be much better than what is there now. The last person on the list Ms. Melba asked about the building as well. I reviewed everything with her. At first she was concerned about the highway noise. After reviewing the landscape plans and how this would help with that she was ok with it. She said with the height of the building and landscape that would certainly reduce the noise. There were no further comments.

Please don't hesitate to contact me at 305-345-8611.

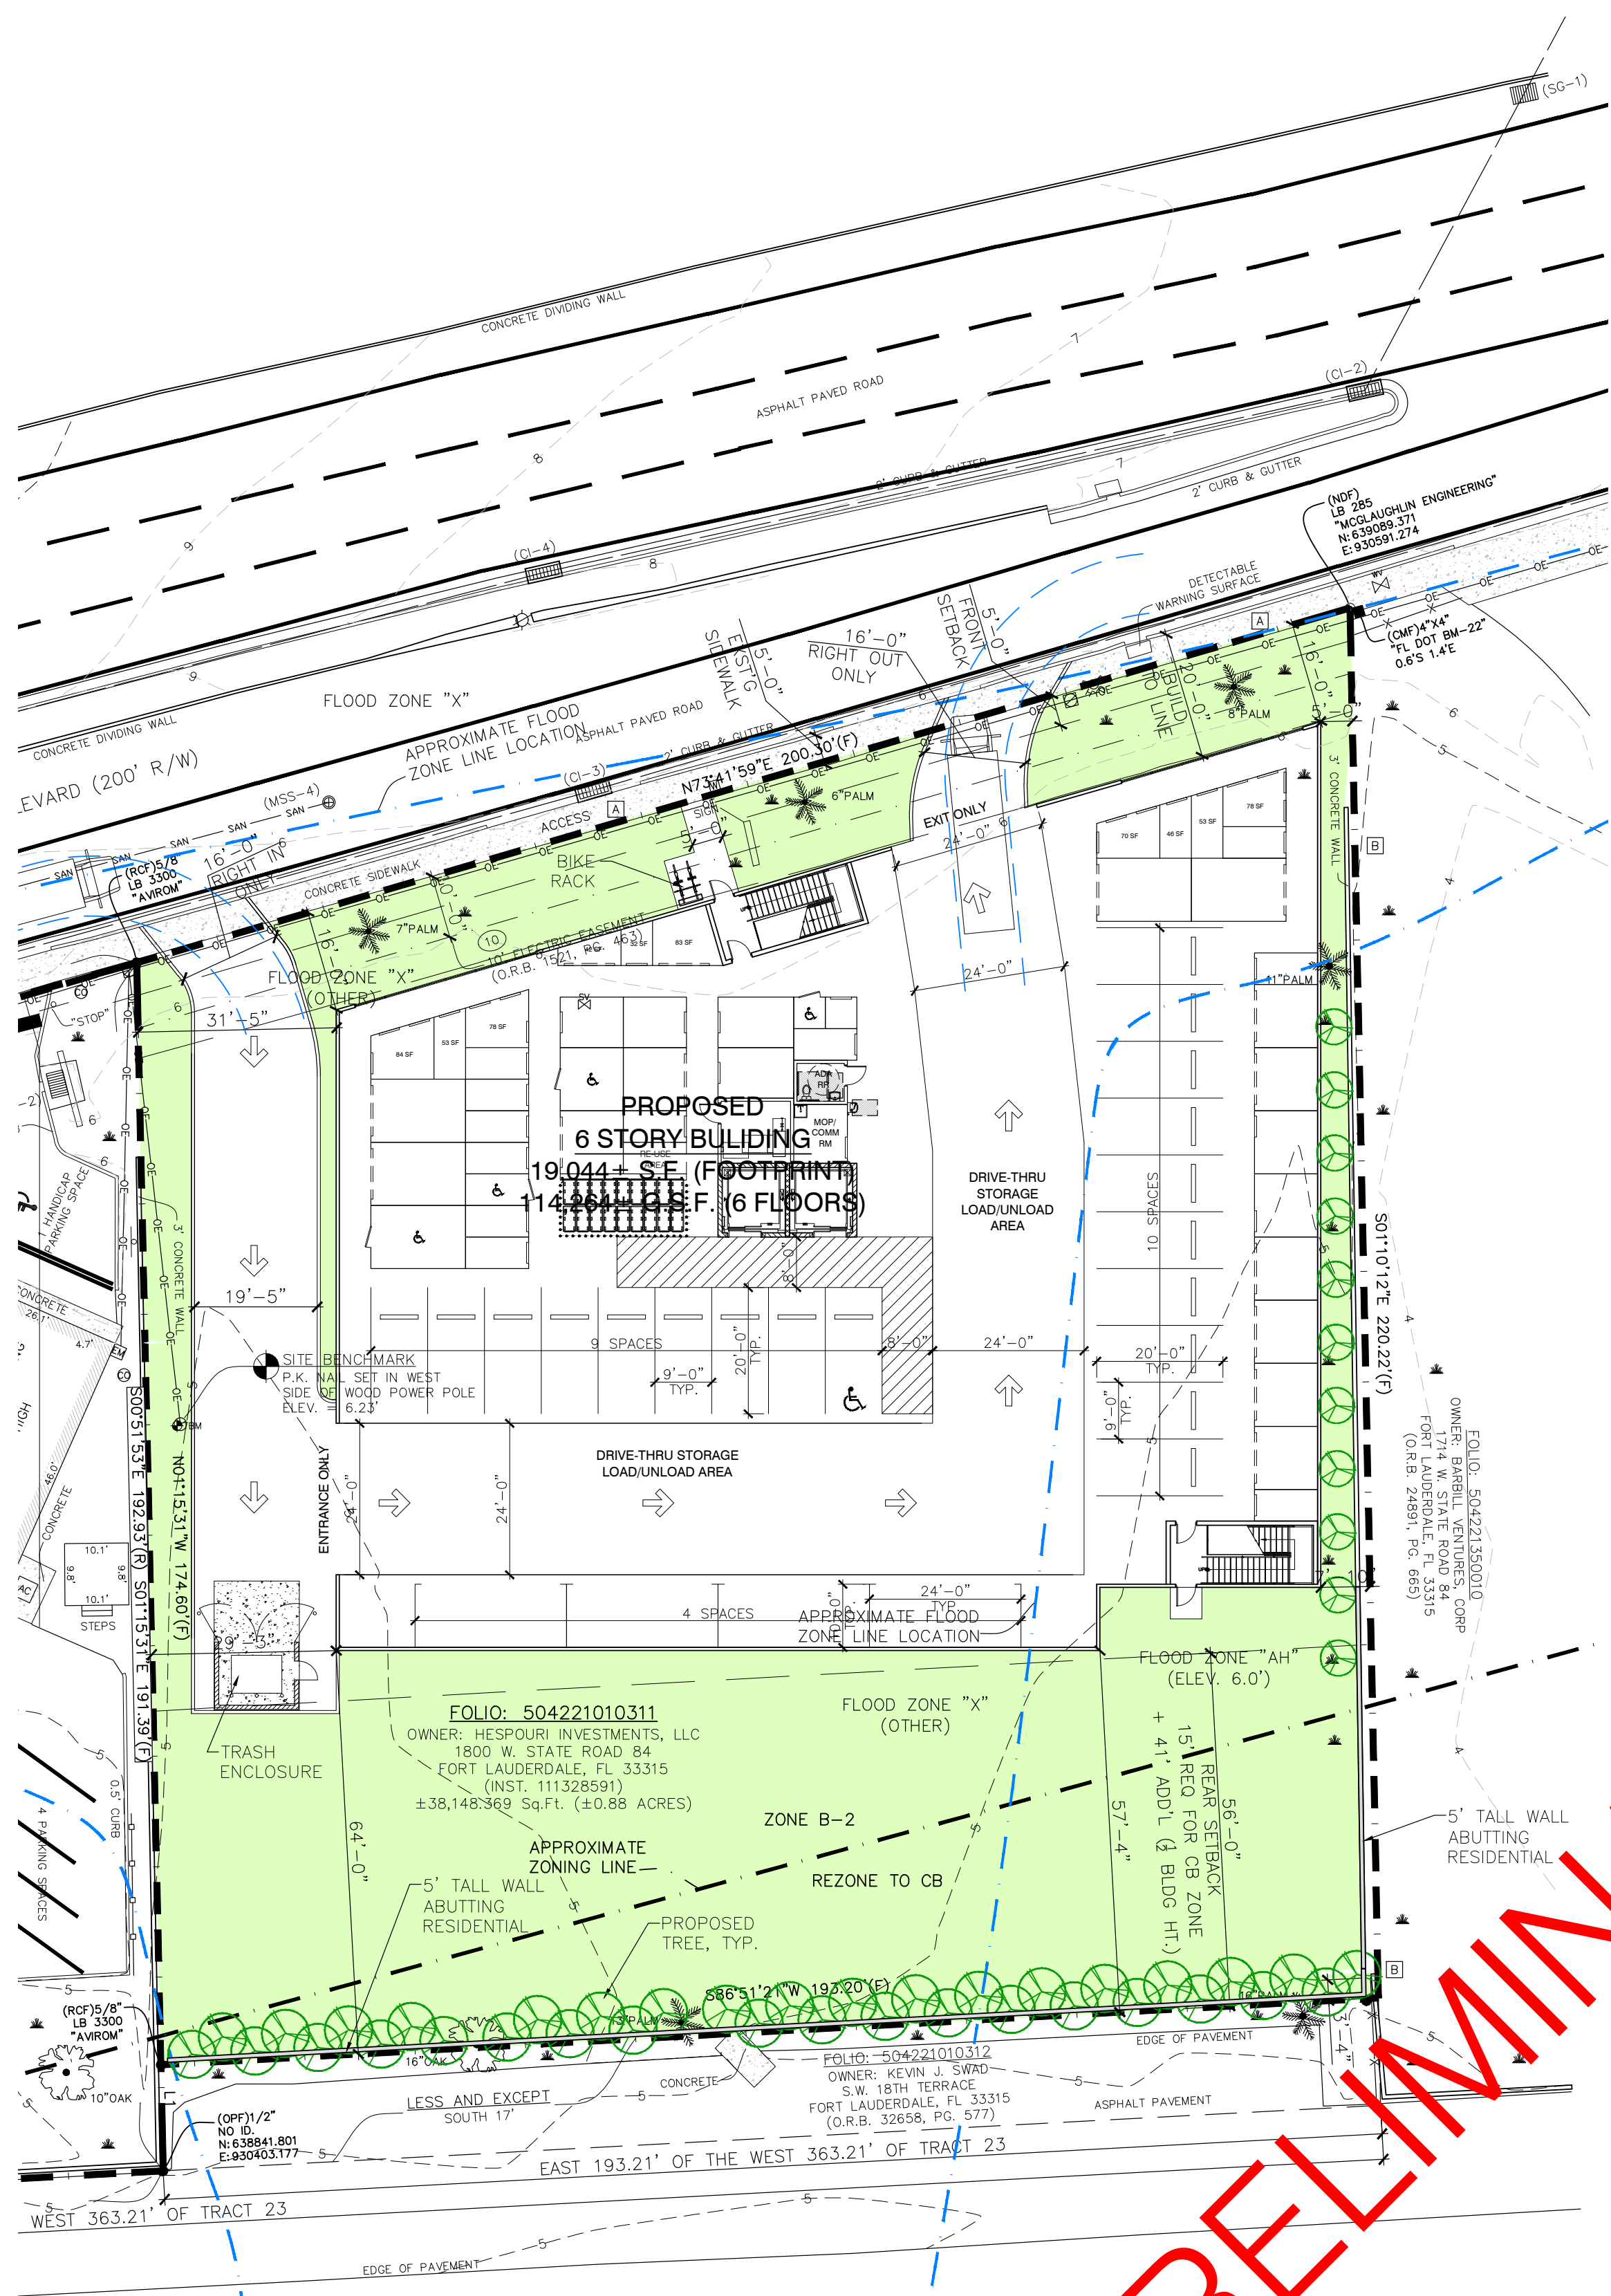

Sincerely,

Mario Martinez
