SUBJECT: Vehicle for Hire Application Evaluation – Str84World Productions, LLC (DBA Bumble Bee Bike Tours)

Str84World Productions, LLC (DBA Bumble Bee Bike Tours) has submitted a Vehicle for Hire Application to provide a guided bicycle sightseeing operation in downtown Fort Lauderdale and surrounding neighborhoods. In accordance with Section 27 of the Code of Ordinances of the City of Fort Lauderdale, Police Department staff has evaluated the application and recommend approval if the following conditions are met:

- The maximum group size should be capped at ten, inclusive of the guide, per tour. This will minimize the group's probable throttling effect on vehicular traffic along the proposed route.
- The volume of narrations should not disturb the quietude of nearby businesses or residences.
- Consideration should be given to increasing the participants' visibility by use of additional reflective devices and high visibility reflective vests.

These recommendations in conjunction with the ordinance's requirements should adequately protect the public safety and welfare of all parties.
