B. Appropriation from Fund Balance – Water and Sewer - Operations Fund – Oakland Park Surcharge Write off - \$ 2,923,000

The City of Fort Lauderdale has sold potable water to the City of Oakland Park since 1963. The original agreement was amended in 1965 and again in 1988, with a new 30-year agreement entered into in 1993, which expires in 2023. In October 2019, the City of Fort Lauderdale changed its rate structure and included a 25% surcharge to master meter consumers receiving water outside the corporate limits. The provision was not included in the existing Oakland Park agreement and Oakland Park requested that the surcharge be held in abeyance until a new agreement was reached. The new agreement was reached effective October 1, 2022, with a surcharge of 3.125%; effective October 1, 2023, a surcharge of 6.25%; effective October 1, 2024, a surcharge of 9.375%; and effective October 1, 2025, a surcharge of 12.5%. Surcharges for the three-year period of FY 2020, FY 2021, and FY 2022 totaling approximately \$2,923,000 are recommended for write-off in the Water and Sewer Fund. This item is contingent upon the approval of CAM #22-0792.

D. Appropriation of Grant Funds – Grant Fund – Florida Inland Navigation District (FIND) Small Scale Derelict Removal Grant - \$7,312

The Florida Inland Navigation District (FIND) administers the Waterway Assistance Program (WAP) program. FIND provides funding assistance to local governments within the District to provide public access to area waterways through boat ramps and floating docks.

A 30’ steel sailing vessel was salvaged and disposed of from the Intra Coastal Waterway north of the Las Olas Marina. The City of Fort Lauderdale Police Marine Unit deemed the vessel abandoned and authorized the City to remove the vessel. On February 23, 2022, Matt’s Marine removed the derelict vessel for the City at a cost of \$9,750.

The Florida Inland Navigation District Small Scale Derelict Vessel Removal Program will fund up to 75%, or in this case \$7,312 of the costs needed to salvage and properly dispose of this abandoned vessel. The remaining costs of \$2,438 to remove the vessel will be funded by a Broward County Boating Improvement Derelict Vessel Removal Grant which was awarded to the City in 2019.

Staff recommends that the City Commission amend the FY 2022 Budget by amending the appropriate accounts in the amount of \$7,312 for the Florida Inland Navigation District (FIND) Grant. This item is contingent upon the approval of the grant acceptance CAM #22-0752.

H. Appropriation of Grant Funds – Grant Fund – FY23 Enhanced Marine Law Enforcement Grant - \$184,104

In January 2022, the City applied to Broward County for \$147,256 in funding through the Enhanced Marine Law Enforcement Grant (EMLEG) Program. The purpose of the EMLEG Grant Program is to improve boating safety in Broward County by enhancing or supplementing marine law enforcement activities and improving boating safety education. In July 2022, the City was awarded a total of \$184,104 in EMLEG funding for FY 2022 - FY 2023. The City will use the awarded grant funds to continue “Operation Venice of America” by providing up to 3,696 hours of peak time waterway law enforcement patrols and marine law enforcement training. The period of performance is October 1, 2022 – September 30, 2023.

Although the EMLEG grant program has a reimbursement rate of \$49 per hour, the grant does not cover 100% of the cost of the department’s overtime patrols. Subject to adoption of the FY 2022 – FY 2023 budget, sufficient overtime funding will be available in the Police Department overtime budget to cover the difference, which is estimated at approximately \$117,295.59.

Staff recommends that the City Commission amend the FY 2022 Budget by amending the appropriate accounts in the amount of \$184,000 for the FY 2023 Enhanced Marine Law Enforcement Grant Program. This item is contingent upon the approval of the grant acceptance CAM #22-0745.

I. Appropriation of Grant Funds and Fund Balance – Airport – Operations Fund – Runway 9-27 Pavement Rehabilitation Project – \$ 93,747

Runway 9-27 is currently weighted at a Pavement Condition Index (“PCI”) value of 75. The 2015 Florida Department of Transportation (FDOT) pavement evaluation report recommended Runway 9-27 be milled and overlaid with P-401 asphalt in the short term. Design for the pavement rehabilitation of Runway 9-27 includes survey work, design for construction plans and development of engineering technical specifications. The adjacent taxiway intersections will also be milled and re-surfaced as part of this project. New striping will be applied after the paving has been completed.

Based on the estimated design cost of \$500,000, FDOT is providing a Public Transportation Grant in the amount of \$25,000 for up to 5% of the projected costs. Staff recommends that the City Commission amend the FY 2022 Operating Budget in the amount of \$93,747 for engineering fees and project management costs. This item is contingent upon approval of the grant acceptance CAM #22-0736.

J. Appropriation of Grant Funds and Fund Balance – Airport – Operations Fund - Runway 13-31 Pavement Sealing Project – \$ 496,480

Runway 13-31 is currently in good condition with an area weighted Pavement Condition Index (“PCI”) value of 89. Based on Statewide Airfield Pavement Management Program, pavement in PCI range between 86-100 is recommended for sealing of the pavement to extend the current pavement life and reduce the need for pavement milling and re-surfacing. Design for the pavement sealing of Runway 13-31 includes but is not limited to consultant and design fees, the survey and geotechnical costs, joint construction, associated taxiway connectors, pavement markings and striping, recalculation of PCI, equipment, labor and incidentals required to complete the project.

Based on the estimated design cost of \$464,000 FDOT is providing a Public Transportation Grant Agreement in the amount of \$371,200 for up to 80% of the projected costs. Staff recommends that the City Commission amend the FY 2022 Operating Budget in the amount of \$92,800 and an additional \$32,480 for engineering fees and project management costs. This item is contingent upon approval of the grant acceptance CAM #22-0818.

Transportation and Mobility

L. Transfer from Escrow Account to Capital Improvement Project – General Fund – River Oaks Traffic Improvements – \$75,000

In 2006, the applicant for DRC Case #76-R-05 provided a \$75,000 contribution for neighborhood transportation and traffic modifications. The funding has not been expended to date and River Oaks Civic Association, Inc., has requested that the City mitigate transportation concerns related to traffic coming and going to the marinas. In August 2022, the Transportation and Mobility Department created Project #12788.331-River Oaks Traffic Improvements to address their concerns and is requesting that these subsidiary account funds be deposited into the project.

Staff recommends the City Commission amend the FY 2022 Operating Budget by amending the appropriate accounts for the River Oaks Traffic Improvements in the amount of \$75,000.
