CR-8 [17-0410](#)**Resolution in Support of Florida Department of Transportation Managing the Design and Construction of the Las Olas Boulevard Complete Streets Project**

Mayor Seiler recognized Ed Smoker on behalf of Polo, who spoke in support of this item, giving a brief overview of the history of the plan. He reviewed goals to improve the pedestrian experience in this area of Las Olas Boulevard, providing a walkable community for the additional residents who have moved to the downtown area. Mr. Smoker referred to the plan illustrated in Exhibit 1 of CR-8 Commission Agenda Memo (CAM), noting it will achieve the goal of having fewer vehicles in the area.

In response to Commissioner Trantalis's question, Mr. Smoker stated the number of parking spaces would remain approximately the same, though bulb outs will slightly reduce them to serve the safety needs of pedestrians. Discussions continued on the impact of the new paradigm for the downtown area, security concerns for pedestrians and the reduction of parallel parking impacting businesses along Las Olas Boulevard.

Mayor Seiler recognized, Paul Chettle, 200 S. Birch Road, who spoke in opposition to this item. The three areas of concern Mr. Chettle focused on included the ranking of infrastructure needs in this area, how this project will affect emergency response times, and public multimodal transportation issues.

Mayor Seiler recognized Mike Weymouth on behalf of the Las Olas Company, who spoke in support of this item. Mr. Weymouth clarified the plan is going from 11th Avenue to 6th Avenue. He explained the infrastructure issue, stating the majority of the infrastructure support is located in the back of the buildings on Las Olas Boulevard. Mr. Weymouth commented that the Metropolitan Planning Organization (MPO) may be planning on addressing infrastructure issues related to drainage in the area intersections. He commented on the benefits of the proposed design for pedestrians. Mr. Weymouth also noted the advantages of this being a Public Private Partnership (P-3), stating now is the time to get this accomplished. He commented there would be on-street parking for approximately 100 cars between 6th Avenue and the Himmarshee Canal, noting parking is currently inefficient and confirming ample parking exists.

In response to Commissioner Trantalis's question, City Manager Feldman explained the background for this item. He explained the reason for the associated Commission Agenda Memo stating the project runs from 11th Avenue to Andrews Avenue, rather than 11th Avenue to 6th Avenue. The project for this area is part of FDOT's work with a larger MPO design. Additional discussions continued to clarify aspects of this matter. Commissioner Trantalis commented on other concerns. Mayor Seiler concurred with Commissioner Trantalis's concerns, stating the Resolution is inconsistent with what the Commission has been discussing and needs to be rewritten to reflect intent. The Commission continued discussions and comments on aspects of this issue, noting the need for a study. Observations and discussions continued on the parking issue.

In response to Commissioner Rogers's question, Mr. Weymouth stated he could not confirm the amount of private funding that would be provided. However, this is an opportunity for the industry to work with MPO and City funding to address this area of Las Olas Boulevard, stating it would be a 50-year investment.

In response to Commissioner Roger's question, City Manager Feldman confirmed the root systems of the Black Olive Trees are causing problems to the road and medians. Mayor Seiler requested new City Forester Mark Williams review and provide a report to the Commission on the Black Olive Trees in the median.

Mayor Seiler recognized, Mary Fertig, President of the Idlewyld Improvement Association, who spoke in opposition to this item. She emphasized the need of the Idlewyld Community to travel in and out of their community easily. She confirmed traffic problems throughout the Las Olas Boulevard area, noting the need to address all the effected communities in a fair and equitable manner. Ms. Fertig emphasized the neighborhood's 5-year request to address the 2.5 mile stretch from the Ocean to the Riverfront. The current seven plans for the entire area are not cohesive or reasonably connected. In response to Mayor Seiler's question, Ms. Fertig confirmed she attended the general meeting on this issue, notified via a City email. She recommended all interested parties meet as a group to address all stakeholder concerns and ideas.

Mayor Seiler recognized, Bradley Deckelbaum, 1425 SE 2nd Court, who spoke in support of this item, stating his motivation to move to the area was the mix of residential and commercial. This plan will allow Las Olas Boulevard to thrive, acknowledging the area's need to be pedestrian friendly. Mr. Deckelbaum stated there is plenty of paid parking other than street parking and should be identified for visitors.

In response to Mayor Seiler's question, he commented on the parking issue for residents in the Colee Hammock neighborhood. In response to Commissioner Trantalis's question, Mr. Deckelbaum confirmed the need to address emergency vehicle response times in this area. Mayor Seiler stated portions of Las Olas Boulevard are State owned and parts are County owned and must remain available for emergency vehicles. Further discussion continued on Las Olas Boulevard having adequate access and turning radii for emergency vehicles.

Mayor Seiler recognized Fire Chief Robert Hoecherl who stated he had not had an opportunity to review this plan or technical drawings.

Mayor Seiler acknowledged, Carolann Bartholomey, 3000 Holiday Drive, who confirmed she is against any plan to permanently reduce travel lanes on Las Olas Boulevard. Ms. Bartholomey voiced her concern about the project's impact on emergency vehicle response times, lack of review by the Fire Department, confirming a problem currently exists. She also commented on this plan impacting beach evacuations. She noted traffic was the number one complaint in the recent Neighbor Survey and reducing travel lanes does not serve to improve this issue. Ms. Bartholomey discussed aging infrastructure issues negatively impacting this plan. She questioned if a study was done relating to the additional residential units approved for the area. She also commented on the beauty of the median, bike lanes and parking in this area of Las Olas Boulevard. She requested the Commission reconsider this plan.

Mayor Seiler recognized, Amber Van Buren, Las Olas Merchants Association, who spoke in support of this plan, stating the current conditions are not optimal. In response to Mayor Seiler's question about a shortage of parking, Ms. Van Buren reiterated the previous statements about parking issues, both free and paid. The Las Olas Merchants Association has not taken a formal position on the matter of parking in the Colee Hammock neighborhood.

Mayor Seiler recognized Patricia Roth, 333 Sunset Drive, who suggested a Lincoln Road type walking mall on the weekends as opposed to reducing the current four-lane road to a two-lane road. Ms. Roth confirmed Ms. Fertig's comments, stating the limited opportunities to get in and out of their neighborhood. In response to Commissioner Trantalis's question, Ms. Roth said emergency vehicles could utilize the side streets on weekends.

Mayor Seiler recognized Nancy Thomas, 1924 SE 24th Avenue, who commented on the beauty of the tree canopy, confirming the

congestion on Las Olas Boulevard and is a thoroughfare. The primary issue is safety and encouraged more evaluation. In response to Mayor Seiler's question, Ms. Thomas recalled how she was notified of the neighborhood meeting on this plan. Mayor Seiler stated he would like to see the comments on this issue noted in the Neighbor Survey that was not included in the agenda backup.

Mayor Seiler recognized John William Roth, 333 Sunset Drive, who discussed the hurried pace for this plan and lack of a thorough analysis of the impact. Mr. Roth commented on the absence of fire hydrants on Las Olas Boulevard both at the front and rear of storefronts, questioning if the older buildings have interior sprinklers. This indicates a need to address both above-ground and underground infrastructure issues. He commented on the impact of daily deliveries to Las Olas businesses. He recommended removing items currently impeding pedestrian flow on the Las Olas Boulevard sidewalks.

Mayor Seiler recognized, Kristen Maus, 1778 SE 25th Avenue, who encouraged the Commission to listen to the business owners because they know their needs. She confirmed there is a need to address emergency safety response times and infrastructure under Las Olas Boulevard as well as preserving its character.

Mayor Seiler recognized Dan Lindblade, President, and CEO of the Greater Fort Lauderdale Chamber of Commerce (Chamber), who spoke in support of this item moving forward and submit to FDOT for review and action. He expounded on their support of the proposed changes, encouraging things to move forward promptly.

Mayor Seiler recognized former City Commissioner Charlotte Rodstrom, 66 Nurmi Isles, who commented on the three governmental entities owning portions of Las Olas Boulevard that blend and require a collaborative effort. All stakeholders should collectively meet as a group with the effected communities to ensure consistency for a beautiful Las Olas Boulevard. Ms. Rodstrom recommended working towards this goal. In response to Mayor Seiler's question, Ms. Rodstrom explained how she received notice of the Traffic Plan Meeting.

Mayor Seiler recognized Jacquelyn Scott, 1626 SE 1st Avenue, who spoke in opposition to this item. She stated Colee Hammock and Las Olas Boulevard need to work together, stating the handling of this item has been segmented. Ms. Scott encouraged the Commission to put together a plan that works for all stakeholders, noting the need for checks and balances. Notice of the May 4, 2017 Traffic Study Meeting was discussed.

Mayor Seiler recognized Charles King, 105 N. Victoria Park Road, who spoke in support of this item, stating Las Olas Boulevard and the beach are the two highest profile areas of the City. He confirmed his support of widening the sidewalks and the need to have street parking. He recommended replacing the Black Olive Trees with Live Oak Trees. Mr. King's additional comments focused on alleviating current traffic issues and suggesting this area of Las Olas should be pedestrian friendly.

In response to Mayor Seiler's question, Diana Alarcon stated residents were notified of the public meeting via email blasts through the City as well as being posted on Next Door and Facebook. She stated over 150 people were in attendance, expounding on the feedback and comments received. She stated the majority were for the plan. Ms. Alarcon confirmed she shared feedback and comments from the public with the MPO and FDOT on design element concerns. She requested MPO and FDOT follow the same program analysis for the Tunnel Top Project, coming forth with different design analyses based on the cross-section. The results would be brought back to the community for further discussion and modification in determining the best consensus design plan with which to move forward.

Mayor Seiler expressed his concerns with the design plan, asking if the public comments were part of the public record. Ms. Alarcon confirmed she would provide the Commission with a summary of the discussions and observations from the public. She updated the Commission on those comments and recommendations, expounding on FDOT's design process moving forward with other departments. In response to Mayor Seiler, Ms. Alarcon confirmed FDOT, the Broward MPO and Staff attended the May 4, 2017 meeting. She expounded on the timing for MPO funding and the timeline prior to putting the project out to bid. Ms. Alarcon also discussed alternate routing, including the redesign of SE 15th Avenue.

In response to Vice Mayor Robert's question, Ms. Alarcon stated the current project consists of a Complete Streets initiative and American with Disabilities Act (ADA) plan upgrades. She confirmed both are ready to go to the design phase and confirmed the need for further public input. Vice Mayor Roberts clarified and expounded on the need for further public input on design and analysis of surrounding projects that impact and broadens the entire area. Ms. Alarcon commented on cost estimates and leveraging of funds to address the entire area.

In response to Commissioner Roger's question, Ms. Alarcon

discussed her conversations with MPO regarding bike paths, sharrows and the designated funding. Vice Mayor Roberts confirmed the need for continuity of design as it relates to the numerous sources of financing and must also include coordination with the Las Olas project. He requested implementation of a plan to address coordination, clear communication, and the inclusion of all area stakeholders in the conversation to allow their input on issues and concerns. Ms. Alarcon confirmed the funding available on Las Olas Boulevard from Andrews Avenue to SE 17th Avenue. She stated there is no funding in place for the portion of Las Olas Boulevard from SE 17th Avenue to the bridge. Discussions continued on the timeframes and funding of the projects.

Commissioner Rogers commented that the project fits Vision Zero walkability and economic development, confirming his support and the need to move forward. Commissioner Trantalis said he is prepared to go forward and allow FDOT to coordinate all aspects of the Las Olas Boulevard projects, commenting on the need to refine the design and not jeopardize funding. Commissioner McKinzie concurred with Commissioner Rogers and Commissioner Trantalis on the need to move forward. Vice Mayor Roberts also agreed on the need to move forward, emphasizing his previous comments about stakeholder involvement and the need to address public safety issues. Mayor Seiler commented on the need to move forward and renovate Las Olas Boulevard, giving it a fresh look. He stated concerns over the process, procedures, and giving proper notice to stakeholders. He stated the traffic workshop should have been clear about what is occurring. He confirmed approving this resolution will be for an FDOT Study involving all impacted neighborhoods that must come back to the Commission for review and approval.

In response to Commissioner Trantalis's question, Ms. Alarcon clarified aspects of the design process. Should the Commission move forward, the cross-section will remain as it is currently. City Manager Feldman clarified when this comes back before the Commission at the 30 percent design level, should the Commission not be satisfied that the cross-section and design will work, a decision can be made to not move forward with the remainder of the project. Ms. Alarcon confirmed.

Vice Mayor Roberts introduced this item and was read by title only.

OSR-2 [17-0616](#)

Ordinance Amending the Unified Land Development Regulations by Amending Sections 47-6.11 - List of Permitted and Conditional Uses, Boulevard Business (B-1), Section 47-6.12 - List of Permitted and Conditional Uses, General Business (B-2), Section 47-6.13 - List of Permitted and Conditional Uses, General Business (B-3) and Section 47-20 - Parking and Loading Requirements, and Creating Section 47-18.46 - Medical Cannabis Dispensing Facilities / Case T17002

Mayor Seiler confirmed the State Legislature did not act on this issue and the State Department of Health is currently the entity drafting

rules and regulations on this issue. He stated the City has the ability to limit the number of dispensaries, commenting on the Commission's ability to increase restrictions without limiting access.

Commissioner Trantalis discussed an email received addressing the ability for dispensaries to be resold, recommending attaching rules to prevent marketing of dispensaries. City Manager Feldman noted an upcoming Code Ordinance to address business practices. Assistant City Attorney D'Wayne Spence confirmed.

Mayor Seiler recommended tying this ordinance to population. Commissioner Trantalis recommended 30,000. Commissioner McKinzie concurred. Commissioner Rogers stated the current demand is small and only 75 people currently qualify. Discussions continued on parking limitations for dispensaries. Commissioner Rogers stated one dispensary per 40,000 is adequate.

Mayor Seiler recognized Kristen Maus, 1778 SE 25th Avenue, who recommended the stricter the ordinance, the better. She specifically commented on the odor and air quality referenced in the ordinance. Eric Engmann, Planner - Department of Sustainable Development, commented on the need to address this issue in the Code of Ordinance rather than in the Zoning Ordinance.

Mayor Seiler expressed his concern over the timeframe and the possible inability of the Code Ordinance to be grandfathered. Assistant City Attorney Spence clarified what this ordinance addresses and the importance of adhering to the subject matter of this Ordinance, the zoning issue. In response to Commissioner Rogers question regarding existing smoking restrictions, Assistant City Attorney Spence stated whatever the Commission crafts it must adhere to the constitutional amendment. Further discussions continued on regulating dispensaries and the ability to regulate consumption.

Mayor Seiler recognized Charles King, 105 N. Victoria Park, who stated his support of increased regulation, stating the fewer the better. He asked if the Commission had input from the School Board. Mayor Seiler confirmed the distance from schools is 1,500 feet.

The Commission and Assistant City Attorney Spence discussed how to make modifications to the Zoning Ordinance. The Commission confirmed the following amendments to this Zoning Ordinance:

One medical cannabis dispensing facility per 40,000 residents per U.S. Census Population for the City;

No more than one per City Commission District; and
Correct reference to Child Day Care Facilities

Commissioner Rogers introduced the Ordinance for the Second Reading as amended that was read by title only.

ADOPTED ON SECOND READING AS AMENDED - one medical cannabis dispensing facility per 40,000 residents per U.S. Census Population for the City; no more than one per City Commission District; correct reference to Child Day Care Facilities

A copy of the form must be provided immediately to the other members of the agency, and the form must be read publicly at the next meeting after the form is filed.

DISCLOSURE OF LOCAL OFFICER'S INTEREST

I, Dean J. Trantalis, hereby disclose that on May 16, 20 17 :

(a) A measure came or will come before my agency which (check one or more)

- inured to my special private gain or loss;
- inured to the special gain or loss of my business associate, _____ ;
- inured to the special gain or loss of my relative, _____ ;
- inured to the special gain or loss of _____, by whom I am retained; or
- inured to the special gain or loss of _____, which is the parent subsidiary, or sibling organization or subsidiary of a principal which has retained me.

(b) The measure before my agency and the nature of my conflicting interest in the measure is as follows:

I own a condo in a property that abuts a property on Sunset Drive that in Item R-2 was seeking a waiver of limitation to allow additional dockage. This request had a potential impact on the condo association where I am an owner.

If disclosure of specific information would violate confidentiality or privilege pursuant to law or rules governing attorneys, a public officer, who is also an attorney, may comply with the disclosure requirements of this section by disclosing the nature of the interest in such a way as to provide the public with notice of the conflict.
