

# Preserving the Historic Sistrunk Community

PH-7  
DEC 17, 2014

I, the undersigned stakeholder in the Historic Sistrunk Community fully support the proposed zoning changes as presented in the Northwest Regional Activity Center-Mixed Use (NWRAC-MU) Draft identified and outlined in Exhibit 4 Case #s T14012 ULDR Text Amendment and 3Z13 Rezoning.

PROVIDED BY  
SONYA BURROWS

As a stakeholder in the community, I am excited to see the much needed redevelopment and revitalization of my community continue in a manner and direction that maintains the historic and cultural integrity of the community.

Additionally I appreciate city staff in the Department of Sustainable Development for listening and responding to the concerns and voices of our community particularly as respects the recommended height of new construction that will allow for medium density on or near Sistrunk Blvd west of NW 7<sup>th</sup> Avenue. While the zoning amendments as proposed will not satisfy the density desires for all developers and private ventures the recommended medium density is sufficient to spur the needed economic redevelopment of our community without destroying the fabric of it. Four national / regional retail chains have been attracted to and found homes in our community thus far namely: Bank of America, Save-A-Lot, Family Dollar, and Jimmy John's. As our community launches its new branding campaign I believe that more retail ventures will find a home on Sistrunk Blvd as well. We applaud the city's desire as expressed in the Urban Design & Planning Division goal to focus on enhancing the quality of life and improving livability in the City of Fort Lauderdale, by encouraging and directing orderly growth and promoting well-designed development and redevelopment through sound planning principles, and we hope that this focus is one that would be applied equitably throughout the city. We have a rich history of commerce along the Sistrunk Corridor; we are proud of it and we want to both revitalize the commerce and preserve our history and heritage.

Nathaniel C Boyd  
(Signature)

respectfully urge you to support the proposed

zoning amendments as proposed in the document stated above.

# Preserving the Historic Sistrunk Community

I, the undersigned stakeholder in the Historic Sistrunk Community fully support the proposed zoning changes as presented in the Northwest Regional Activity Center-Mixed Use (NWRAC-MU) Draft identified and outlined in Exhibit 4 Case #s T14012 ULDR Text Amendment and 3Z13 Rezoning.

As a stakeholder in the community, I am excited to see the much needed redevelopment and revitalization of my community continue in a manner and direction that maintains the historic and cultural integrity of the community.

Additionally I appreciate city staff in the Department of Sustainable Development for listening and responding to the concerns and voices of our community particularly as respects the recommended height of new construction that will allow for medium density on or near Sistrunk Blvd west of NW 7<sup>th</sup> Avenue. While the zoning amendments as proposed will not satisfy the density desires for all developers and private ventures the recommended medium density is sufficient to spur the needed economic redevelopment of our community without destroying the fabric of it. Four national / regional retail chains have been attracted to and found homes in our community thus far namely: Bank of America, Save-A-Lot, Family Dollar, and Jimmy John's. As our community launches its new branding campaign I believe that more retail ventures will find a home on Sistrunk Blvd as well. We applaud the city's desire as expressed in the Urban Design & Planning Division goal to focus on enhancing the quality of life and improving livability in the City of Fort Lauderdale, by encouraging and directing orderly growth and promoting well-designed development and redevelopment through sound planning principles, and we hope that this focus is one that would be applied equitably throughout the city. We have a rich history of commerce along the Sistrunk Corridor; we are proud of it and we want to both revitalize the commerce and preserve our history and heritage.

11111 10<sup>th</sup> St

I, the undersigned stakeholder, am writing to express my support for the rezoning changes as presented in the Northwest Regional Activity Center (NWRAC-MU) Draft identified and outlined in Exhibit 4 Case #s T14012 ULDR Text Amendment and 3Z13 Rezoning.

As a stakeholder in the community, I am excited to see the much needed redevelopment and revitalization of my community continue in a manner and direction that maintains the historic and cultural integrity of the community.

Additionally I appreciate city staff in the Department of Sustainable Development for listening and responding to the concerns and voices of our community in particularly as respects the recommended height of new construction that will allow for medium density on or near Sistrunk Blvd west of NW 7<sup>th</sup> Avenue. While the zoning amendments as proposed will not satisfy the density desires for all developers and private ventures the recommended medium density is sufficient to spur the needed economic redevelopment of our community without destroying the fabric of it. Four national / regional retail chains have been attracted to and found homes in our community thus far namely: Bank of America, Save-A-Lot, Family Dollar, and Jimmy John's. As our community launches its new branding campaign I believe that more retail ventures will find a home on Sistrunk Blvd as well. We applaud the city's desire as expressed in the Urban Design & Planning Division goal to focus on enhancing the quality of life and improving livability in the City of Fort Lauderdale, by encouraging and directing orderly growth and promoting well-designed development and redevelopment through sound planning principles, and we hope that this focus is one that would be applied equitably throughout the city. We have a rich history of commerce along the Sistrunk Corridor; we are proud of it and we want to both revitalize the commerce and preserve our history and heritage.

Charles B. Adderley Jr., respectfully urge you to support the proposed zoning amendments as proposed in the document stated above. Date: 11-4-14

I, the undersigned stakeholder in the Historic Sistrunk Community fully support the proposed zoning changes as presented in the Northwest Regional Activity Center-Mixed Use (NWRAC-MU) Draft Identified and outlined in Exhibit 4 Case #s T14012 ULDR Text Amendment and 3Z13 Rezoning.

As a stakeholder in the community, I am excited to see the much needed redevelopment and revitalization of my community continue in a manner and direction that maintains the historic and cultural integrity of the community.

Additionally I appreciate city staff in the Department of Sustainable Development for listening and responding to the concerns and voices of our community in particularly as respects the recommended height of new construction that will allow for medium density on or near Sistrunk Blvd west of NW 7<sup>th</sup> Avenue. While the zoning amendments as proposed will not satisfy the density desires for all developers and private ventures the recommended medium density is sufficient to spur the needed economic redevelopment of our community without destroying the fabric of it. Four national / regional retail chains have been attracted to and found homes in our community thus far namely: Bank of America, Save-A-Lot, Family Dollar, and Jimmy John's. As our community launches its new branding campaign I believe that more retail ventures will find a home on Sistrunk Blvd as well. We applaud the city's desire as expressed in the Urban Design & Planning Division goal to focus on enhancing the quality of life and improving livability in the City of Fort Lauderdale, by encouraging and directing orderly growth and promoting well-designed development and redevelopment through sound planning principles, and we hope that this focus is one that would be applied equitably throughout the city. We have a rich history of commerce along the Sistrunk Corridor; we are proud of it and we want to both revitalize the commerce and preserve our history and heritage.

I  \_\_\_\_\_, respectfully urge you to support the proposed zoning amendments as proposed in the document stated above. Date: 11/11/14

I, the undersigned stakeholder in the Historic Sistrunk Community fully support the proposed zoning changes as presented in the Northwest Regional Activity Center-Mixed Use (NWRAC-MU) Draft identified and outlined in Exhibit 4 Case #s T14012 ULDR Text Amendment and 3Z13 Rezoning.

As a stakeholder in the community, I am excited to see the much needed redevelopment and revitalization of my community continue in a manner and direction that maintains the historic and cultural integrity of the community.

Additionally I appreciate city staff in the Department of Sustainable Development for listening and responding to the concerns and voices of our community in particularly as respects the recommended height of new construction that will allow for medium density on or near Sistrunk Blvd west of NW 7<sup>th</sup> Avenue. While the zoning amendments as proposed will not satisfy the density desires for all developers and private ventures the recommended medium density is sufficient to spur the needed economic redevelopment of our community without destroying the fabric of it. Four national / regional retail chains have been attracted to and found homes in our community thus far namely: Bank of America, Save-A-Lot, Family Dollar, and Jimmy John's. As our community launches its new branding campaign I believe that more retail ventures will find a home on Sistrunk Blvd as well. We applaud the city's desire as expressed in the Urban Design & Planning Division goal to focus on enhancing the quality of life and improving livability in the City of Fort Lauderdale, by encouraging and directing orderly growth and promoting well-designed development and redevelopment through sound planning principles, and we hope that this focus is one that would be applied equitably throughout the city. We have a rich history of commerce along the Sistrunk Corridor; we are proud of it and we want to both revitalize the commerce and preserve our history and heritage.

I Diane Chance Wilson, respectfully urge you to support the proposed zoning amendments as proposed in the document stated above. Date: 11/11/14

As a stakeholder in the community, I am excited to see the much needed redevelopment and revitalization of my community continue in a manner and direction that maintains the historic and cultural integrity of the community.

Additionally I appreciate city staff in the Department of Sustainable Development for listening and responding to the concerns and voices of our community in particularly as respects the recommended height of new construction that will allow for medium density on or near Sistrunk Blvd west of NW 7<sup>th</sup> Avenue. While the zoning amendments as proposed will not satisfy the density desires for all developers and private ventures the recommended medium density is sufficient to spur the needed economic redevelopment of our community without destroying the fabric of it. Four national / regional retail chains have been attracted to and found homes in our community thus far namely: Bank of America, Save-A-Lot, Family Dollar, and Jimmy John's. As our community launches its new branding campaign I believe that more retail ventures will find a home on Sistrunk Blvd as well. We applaud the city's desire as expressed in the Urban Design & Planning Division goal to focus on enhancing the quality of life and improving livability in the City of Fort Lauderdale, by encouraging and directing orderly growth and promoting well-designed development and redevelopment through sound planning principles, and we hope that this focus is one that would be applied equitably throughout the city. We have a rich history of commerce along the Sistrunk Corridor; we are proud of it and we want to both revitalize the commerce and preserve our history and heritage.

I, , respectfully urge you to support the proposed zoning amendments as proposed in the document stated above. Date: \_\_\_\_\_

Additionally I appreciate city staff in the Department of Sustainable Development for listening and responding to the concerns and voices of our community in particularly as respects the recommended height of new construction that will allow for medium density on or near Sistrunk Blvd west of NW 7<sup>th</sup> Avenue. While the zoning amendments as proposed will not satisfy the density desires for all developers and private ventures the recommended medium density is sufficient to spur the needed economic redevelopment of our community without destroying the fabric of it. Four national / regional retail chains have been attracted to and found homes in our community thus far namely: Bank of America, Save-A-Lot, Family Dollar, and Jimmy John's. As our community launches its new branding campaign I believe that more retail ventures will find a home on Sistrunk Blvd as well. We applaud the city's desire as expressed in the Urban Design & Planning Division goal to focus on enhancing the quality of life and improving livability in the City of Fort Lauderdale, by encouraging and directing orderly growth and promoting well-designed development and redevelopment through sound planning principles, and we hope that this focus is one that would be applied equitably throughout the city. We have a rich history of commerce along the Sistrunk Corridor; we are proud of it and we want to both revitalize the commerce and preserve our history and heritage.

I Anthony R. Thompson, respectfully urge you to support the proposed zoning amendments as proposed in the document stated above. Date: 11-10-2014

As a stakeholder in the community, I am excited to see the much needed redevelopment and revitalization of my community continue in a manner and direction that maintains the historic and cultural integrity of the community.

Additionally I appreciate city staff in the Department of Sustainable Development for listening and responding to the concerns and voices of our community particularly as respects the recommended height of new construction that will allow for medium density on or near Sistrunk Blvd west of NW 7<sup>th</sup> Avenue. While the zoning amendments as proposed will not satisfy the density desires for all developers and private ventures the recommended medium density is sufficient to spur the needed economic redevelopment of our community without destroying the fabric of it. Four national / regional retail chains have been attracted to and found homes in our community thus far namely: Bank of America, Save-A-Lot, Family Dollar, and Jimmy John's. As our community launches its new branding campaign I believe that more retail ventures will find a home on Sistrunk Blvd as well. We applaud the city's desire as expressed in the Urban Design & Planning Division goal to focus on enhancing the quality of life and improving livability in the City of Fort Lauderdale, by encouraging and directing orderly growth and promoting well-designed development and redevelopment through sound planning principles, and we hope that this focus is one that would be applied equitably throughout the city. We have a rich history of commerce along the Sistrunk Corridor; we are proud of it and we want to both revitalize the commerce and preserve our history and heritage.

I James R. Hayes (Signature), respectfully urge you to support the proposed zoning amendments as proposed in the document stated above. Date: 12/16/14

I, the undersigned stakeholder in the Historic Sistrunk Community fully support the proposed zoning changes as presented in the Northwest Regional Activity Center-Mixed Use (NWRAC-MU) Draft identified and outlined in Exhibit 4 Case #s T14012 ULDR Text Amendment and 3Z13 Rezoning.

As a stakeholder in the community, I am excited to see the much needed redevelopment and revitalization of my community continue in a manner and direction that maintains the historic and cultural integrity of the community.

Additionally I appreciate city staff in the Department of Sustainable Development for listening and responding to the concerns and voices of our community in particularly as respects the recommended height of new construction that will allow for medium density on or near Sistrunk Blvd west of NW 7<sup>th</sup> Avenue. While the zoning amendments as proposed will not satisfy the density desires for all developers and private ventures the recommended medium density is sufficient to spur the needed economic redevelopment of our community without destroying the fabric of it. Four national / regional retail chains have been attracted to and found homes in our community thus far namely: Bank of America, Save-A-Lot, Family Dollar, and Jimmy John's. As our community launches its new branding campaign I believe that more retail ventures will find a home on Sistrunk Blvd as well. We applaud the city's desire as expressed in the Urban Design & Planning Division goal to focus on enhancing the quality of life and improving livability in the City of Fort Lauderdale, by encouraging and directing orderly growth and promoting well-designed development and redevelopment through sound planning principles, and we hope that this focus is one that would be applied equitably throughout the city. We have a rich history of commerce along the Sistrunk Corridor; we are proud of it and we want to both revitalize the commerce and preserve our history and heritage.

I, Trudy Love, respectfully urge you to support the proposed zoning amendments as proposed in the document stated above. Date: 11/11/14

# Preserving the Historic Sistrunk Community

I, the undersigned stakeholder in the Historic Sistrunk Community fully support the proposed zoning changes as presented in the Northwest Regional Activity Center-Mixed Use (NWRAC-MU) Draft identified and outlined in Exhibit 4 Case #s T14012 ULDR Text Amendment and 3Z13 Rezoning.

As a stakeholder in the community, I am excited to see the much needed redevelopment and revitalization of my community continue in a manner and direction that maintains the historic and cultural integrity of the community.

Additionally I appreciate city staff in the Department of Sustainable Development for listening and responding to the concerns and voices of our community particularly as respects the recommended height of new construction that will allow for medium density on or near Sistrunk Blvd west of NW 7<sup>th</sup> Avenue. While the zoning amendments as proposed will not satisfy the density desires for all developers and private ventures the recommended medium density is sufficient to spur the needed economic redevelopment of our community without destroying the fabric of it. Four national / regional retail chains have been attracted to and found homes in our community thus far namely: Bank of America, Save-A-Lot, Family Dollar, and Jimmy John's. As our community launches its new branding campaign I believe that more retail ventures will find a home on Sistrunk Blvd as well. We applaud the city's desire as expressed in the Urban Design & Planning Division goal to focus on enhancing the quality of life and improving livability in the City of Fort Lauderdale, by encouraging and directing orderly growth and promoting well-designed development and redevelopment through sound planning principles, and we hope that this focus is one that would be applied equitably throughout the city. We have a rich history of commerce along the Sistrunk Corridor; we are proud of it and we want to both revitalize the commerce and preserve our history and heritage.

Yolanda Francis, respectfully urge you to support the proposed zoning amendments as proposed in the document stated above. Date: 12/12/14

# Preserving the Historic Sistrunk Community

I, the undersigned stakeholder in the Historic Sistrunk Community fully support the proposed zoning changes as presented in the Northwest Regional Activity Center-Mixed Use (NWRAC-MU) Draft identified and outlined in Exhibit 4 Case #s T14012 ULDR Text Amendment and 3Z13 Rezoning.

As a stakeholder in the community, I am excited to see the much needed redevelopment and revitalization of my community continue in a manner and direction that maintains the historic and cultural integrity of the community.

Additionally I appreciate city staff in the Department of Sustainable Development for listening and responding to the concerns and voices of our community in particularly as respects the recommended height of new construction that will allow for medium density on or near Sistrunk Blvd west of NW 7<sup>th</sup> Avenue. While the zoning amendments as proposed will not satisfy the density desires for all developers and private ventures the recommended medium density is sufficient to spur the needed economic redevelopment of our community without destroying the fabric of it. Four national / regional retail chains have been attracted to and found homes in our community thus far namely: Bank of America, Save-A-Lot, Family Dollar, and Jimmy John's. As our community launches its new branding campaign I believe that more retail ventures will find a home on Sistrunk Blvd as well. We applaud the city's desire as expressed in the Urban Design & Planning Division goal to focus on enhancing the quality of life and improving livability in the City of Fort Lauderdale, by encouraging and directing orderly growth and promoting well-designed development and redevelopment through sound planning principles, and we hope that this focus is one that would be applied equitably throughout the city. We have a rich history of commerce along the Sistrunk Corridor; we are proud of it and we want to both revitalize the commerce and preserve our history and heritage.

I Larhonda Ware, respectfully urge you to support the proposed zoning amendments as proposed in the document stated above. Date: 11/7/11

# Preserving the Historic Sistrunk Community

I, the undersigned stakeholder in the Historic Sistrunk Community fully support the proposed zoning changes as presented in the Northwest Regional Activity Center-Mixed Use (NWRAC-MU) Draft identified and outlined in Exhibit 4 Case #s T14012 ULDR Text Amendment and 3Z13 Rezoning.

As a stakeholder in the community, I am excited to see the much needed redevelopment and revitalization of my community continue in a manner and direction that maintains the historic and cultural integrity of the community.

Additionally I appreciate city staff in the Department of Sustainable Development for listening and responding to the concerns and voices of our community in particularly as respects the recommended height of new construction that will allow for medium density on or near Sistrunk Blvd west of NW 7<sup>th</sup> Avenue. While the zoning amendments as proposed will not satisfy the density desires for all developers and private ventures the recommended medium density is sufficient to spur the needed economic redevelopment of our community without destroying the fabric of it. Four national / regional retail chains have been attracted to and found homes in our community thus far namely: Bank of America, Save-A-Lot, Family Dollar, and Jimmy John's. As our community launches its new branding campaign I believe that more retail ventures will find a home on Sistrunk Blvd as well. We applaud the city's desire as expressed in the Urban Design & Planning Division goal to focus on enhancing the quality of life and improving livability in the City of Fort Lauderdale, by encouraging and directing orderly growth and promoting well-designed development and redevelopment through sound planning principles, and we hope that this focus is one that would be applied equitably throughout the city. We have a rich history of commerce along the Sistrunk Corridor; we are proud of it and we want to both revitalize the commerce and preserve our history and heritage.

I Augustine McDaniel, respectfully urge you to support the proposed zoning amendments as proposed in the document stated above. Date: 11/18/2014

# Preserving the Historic Sistrunk Community

I, the undersigned stakeholder in the Historic Sistrunk Community fully support the proposed zoning changes as presented in the Northwest Regional Activity Center-Mixed Use (NWRAC-MU) Draft identified and outlined in Exhibit 4 Case #s T14012 ULDR Text Amendment and 3Z13 Rezoning.

As a stakeholder in the community, I am excited to see the much needed redevelopment and revitalization of my community continue in a manner and direction that maintains the historic and cultural integrity of the community.

Additionally I appreciate city staff in the Department of Sustainable Development for listening and responding to the concerns and voices of our community in particularly as respects the recommended height of new construction that will allow for medium density on or near Sistrunk Blvd west of NW 7<sup>th</sup> Avenue. While the zoning amendments as proposed will not satisfy the density desires for all developers and private ventures the recommended medium density is sufficient to spur the needed economic redevelopment of our community without destroying the fabric of it. Four national / regional retail chains have been attracted to and found homes in our community thus far namely: Bank of America, Save-A-Lot, Family Dollar, and Jimmy John's. As our community launches its new branding campaign I believe that more retail ventures will find a home on Sistrunk Blvd as well. We applaud the city's desire as expressed in the Urban Design & Planning Division goal to focus on enhancing the quality of life and improving livability in the City of Fort Lauderdale, by encouraging and directing orderly growth and promoting well-designed development and redevelopment through sound planning principles, and we hope that this focus is one that would be applied equitably throughout the city. We have a rich history of commerce along the Sistrunk Corridor; we are proud of it and we want to both revitalize the commerce and preserve our history and heritage.

I, Jessie Ruth Miller, respectfully urge you to support the proposed zoning amendments as proposed in the document stated above. Date: 11/12/2014

# Preserving the Historic Sistrunk Community

I, the undersigned stakeholder in the Historic Sistrunk Community fully support the proposed zoning changes as presented in the Northwest Regional Activity Center-Mixed Use (NWRAC-MU) Draft identified and outlined in Exhibit 4 Case #s T14012 ULDR Text Amendment and 3Z13 Rezoning.

As a stakeholder in the community, I am excited to see the much needed redevelopment and revitalization of my community continue in a manner and direction that maintains the historic and cultural integrity of the community.

Additionally I appreciate city staff in the Department of Sustainable Development for listening and responding to the concerns and voices of our community in particularly as respects the recommended height of new construction that will allow for medium density on or near Sistrunk Blvd west of NW 7<sup>th</sup> Avenue. While the zoning amendments as proposed will not satisfy the density desires for all developers and private ventures the recommended medium density is sufficient to spur the needed economic redevelopment of our community without destroying the fabric of it. Four national / regional retail chains have been attracted to and found homes in our community thus far namely: Bank of America, Save-A-Lot, Family Dollar, and Jimmy John's. As our community launches its new branding campaign I believe that more retail ventures will find a home on Sistrunk Blvd as well. We applaud the city's desire as expressed in the Urban Design & Planning Division goal to focus on enhancing the quality of life and improving livability in the City of Fort Lauderdale, by encouraging and directing orderly growth and promoting well-designed development and redevelopment through sound planning principles, and we hope that this focus is one that would be applied equitably throughout the city. We have a rich history of commerce along the Sistrunk Corridor; we are proud of it and we want to both revitalize the commerce and preserve our history and heritage.

I, Elizabeth D Henry, respectfully urge you to support the proposed zoning amendments as proposed in the document stated above. Date: 11-02-14

# Preserving the Historic Sistrunk Community

I, the undersigned stakeholder in the Historic Sistrunk Community fully support the proposed zoning changes as presented in the Northwest Regional Activity Center-Mixed Use (NWRAC-MU) Draft identified and outlined in Exhibit 4 Case #s T14012 ULDR Text Amendment and 3Z13 Rezoning.

As a stakeholder in the community, I am excited to see the much needed redevelopment and revitalization of my community continue in a manner and direction that maintains the historic and cultural integrity of the community.

Additionally I appreciate city staff in the Department of Sustainable Development for listening and responding to the concerns and voices of our community in particularly as respects the recommended height of new construction that will allow for medium density on or near Sistrunk Blvd west of NW 7<sup>th</sup> Avenue. While the zoning amendments as proposed will not satisfy the density desires for all developers and private ventures the recommended medium density is sufficient to spur the needed economic redevelopment of our community without destroying the fabric of it. Four national / regional retail chains have been attracted to and found homes in our community thus far namely: Bank of America, Save-A-Lot, Family Dollar, and Jimmy John's. As our community launches its new branding campaign I believe that more retail ventures will find a home on Sistrunk Blvd as well. We applaud the city's desire as expressed in the Urban Design & Planning Division goal to focus on enhancing the quality of life and improving livability in the City of Fort Lauderdale, by encouraging and directing orderly growth and promoting well-designed development and redevelopment through sound planning principles, and we hope that this focus is one that would be applied equitably throughout the city. We have a rich history of commerce along the Sistrunk Corridor; we are proud of it and we want to both revitalize the commerce and preserve our history and heritage.

I Shawn Peterson, respectfully urge you to support the proposed zoning amendments as proposed in the document stated above. Date: 11-15-14

# Preserving the Historic Sistrunk Community

I, the undersigned stakeholder in the Historic Sistrunk Community fully support the proposed zoning changes as presented in the Northwest Regional Activity Center-Mixed Use (NWRAC-MU) Draft identified and outlined in Exhibit 4 Case #s T14012 ULDR Text Amendment and 3Z13 Rezoning.

As a stakeholder in the community, I am excited to see the much needed redevelopment and revitalization of my community continue in a manner and direction that maintains the historic and cultural integrity of the community.

Additionally I appreciate city staff in the Department of Sustainable Development for listening and responding to the concerns and voices of our community in particularly as respects the recommended height of new construction that will allow for medium density on or near Sistrunk Blvd west of NW 7<sup>th</sup> Avenue. While the zoning amendments as proposed will not satisfy the density desires for all developers and private ventures the recommended medium density is sufficient to spur the needed economic redevelopment of our community without destroying the fabric of it. Four national / regional retail chains have been attracted to and found homes in our community thus far namely: Bank of America, Save-A-Lot, Family Dollar, and Jimmy John's. As our community launches its new branding campaign I believe that more retail ventures will find a home on Sistrunk Blvd as well. We applaud the city's desire as expressed in the Urban Design & Planning Division goal to focus on enhancing the quality of life and improving livability in the City of Fort Lauderdale, by encouraging and directing orderly growth and promoting well-designed development and redevelopment through sound planning principles, and we hope that this focus is one that would be applied equitably throughout the city. We have a rich history of commerce along the Sistrunk Corridor; we are proud of it and we want to both revitalize the commerce and preserve our history and heritage.

I, Wilma J. Nyacirwhe, respectfully urge you to support the proposed zoning amendments as proposed in the document stated above. Date: 11-12-14
