Material changes, if any, to the scope of services or the solicitation process will only be transmitted by official written addendum issued by the City and uploaded to the City's on-line strategic sourcing platform as a separate addendum to the RFP. Under no circumstances shall an oral explanation given by any City official, officer, staff, or agent be binding upon the City and should be disregarded. All addenda are a part of the competitive solicitation documents, and each firm will be bound by such addenda. It is the responsibility of each to read and comprehend all addenda issued.

2.3 Changes and Alterations

Proposer may change or withdraw a Proposal at any time prior to Proposal submission deadline; however, no oral modifications will be allowed. Modifications shall not be allowed following the Proposal deadline.

2.4 Proposer's Costs

The City shall not be liable for any costs incurred by Proposers in responding to this RFP.

2.5 Pricing/Delivery

All pricing should be identified on the Cost Proposal page provided in this RFP. No additional costs may be accepted, other than the costs stated on the Cost Proposal page. Failure to use the City's Cost Proposal page and provide costs as requested in this RFP may deem your proposal non-responsive.

2.6 Price Validity

Prices provided in this Request for Proposals (RFP) shall be valid for at least One Hundred and Twenty (120) days from time of RFP opening unless otherwise extended and agreed upon by the City and Bidder/Proposer. Each invoice shall fully detail the related costs and shall specify the status of the particular task or project as of the date of the invoice with regard to the accepted schedule for that task or project. Payment will be made within forty-five (45) days after receipt of an invoice acceptable to the City, in accordance with the Florida Local Government Prompt Payment Act. If, at any time during the contract, the City shall not approve or accept the Contractor's work product, and agreement cannot be reached between the City and the Contractor to resolve the problem to the City's satisfaction, the City shall negotiate with the Contractor on a payment for the work completed and usable to the City. Ignorance of the requirements will not relieve the consultant from liability and obligations under the Contract.

The City also reserves the right to reissue a Request for Proposal.

2.12.2 The City reserves the right to delete any portion of the work at any time without cause, and if such right is exercised by the City, the total fee shall be reduced in the same ratio as the estimated cost of the work deleted bears to the estimated cost of the work originally planned. If work has already been accomplished and approved by the City on any portion of a contract resulting from this RFP, the Successful Proposer shall be paid for the work completed on the basis of the estimated percentage of completion of such portion to the total project cost.

2.12.3 The City may require additional items or services of a similar nature, but not specifically listed in the contract. The Successful Proposer agrees to provide such items or services

and shall provide the City prices on such additional items or services. If the price(s) offered are not acceptable to the City, and the situation cannot be resolved to the satisfaction of the City, the City reserves the right to procure those items or services from other vendors, or to cancel the contract upon giving the Successful Proposer thirty (30) days written notice.

2.12.4 If the Successful Proposer and the City agree on modifications or revisions to the task elements, after the City has approved work to begin on a particular task or project, and a budget has been established for that task or project, the Successful Proposer will submit a revised budget to the City for approval prior to proceeding with the work.

END OF SECTION

SECTION III - TECHNICAL SPECIFICATIONS/SCOPE OF SERVICES

3.1 Project Definition and Objective:

The City of Fort Lauderdale (City) is a rapidly growing municipality in South Florida and is the current county seat of Broward County covering an area of 36.30 square miles with a population of over 180,000. With its pristine beaches and waterways, along with world-class transportation hubs such as the Fort Lauderdale-Hollywood Airport and Port Everglades, the City welcomes millions of visitors per year. The city is constantly seeking solutions to improve mobility for those who live, work, and play in the City.

High-frequency transit is not always within walking distance of where people live and work. In those areas MicroTransit connects people to other transit services, providing first-last mile service. On the other hand, high-frequency fixed route transit service is not always practical due to its cost or lack of ridership along the proposed routes. MicroTransit offers appropriate coverage at a reduced cost as compared to fixed route service. The main goal of this service is to expand the reach of transportation services, particularly in areas that are lacking other reliable transportation options.

3.1.1 The primary objectives of the service are to:

- provide a safe, clean, reliable, and efficient public on demand service throughout the boundaries of the service area(s).
- provide a safe and pleasing passenger experience with capable, qualified, and courteous drivers that will serve as ambassadors. Discourtesy, rudeness, or the use of profanity will not be tolerated and shall be grounds for immediate removal of the offending employee from performing work on this project.
- provide the flexibility to scale operation up or down depending on demand and supply and program metrics/need.
- feature a user-friendly mobile application.
- allow users to get to their destination within the service area without the need to drive, park or even own a personal vehicle.
- have ability to use this service/provider for special events or any other needs; for example, hosting city to a convention or event, emergency transportation during hurricane or flooding type events requiring evacuation/relocation.

3.2 Services to be provided to the City:

3.2.1 SERVICE AREAS

Northwest Community Service Area

To address the shifts in travel patterns and behaviors, long distances between origins and bus stops or destinations, and gaps in sidewalk/pathway infrastructure that currently exists in the Northwest Fort Lauderdale Service area, the City has identified the need to implement a MicroTransit pilot program in this area. The MicroTransit pilot program will help identify short and long-term transportation needs of this community and it will provide an immediate transportation alternative to both residents and visitors alike.

The planned service area for the pilot program will cover Rock Island Community Development, Lake Aire Palm View Homeowners Association, Golden Heights Neighborhood Association, Dillard Park Homeowners Association, Lauderdale Manors Homeowners Association, River Garden Sweeting Estate Homeowners Association, Home Beautiful Park Civic Association, which some areas are a portion of Northwest-

Progresso-Flagler Heights Community Redevelopment Area (CRA), as shown in the attached Exhibit 1.

This pilot program will be fully funded through a grant from the Florida Department of Transportation (FDOT). The pilot is anticipated to last approximately two (2) years, depending on funding and final service plan/associated costs. The City anticipates launching the program with two (2) to three (3) vehicles and scale-up or down depending on need and available funding. The City's goal is to commence this service as soon as possible.

Current Service Areas

The City of Fort Lauderdale is currently providing micro transit services in the Downtown Area (on-demand), Beach area (as a fixed loop service) and Galt Mile (on-demand). More information on the City's current MicroTransit service is available via [LauderGO! Micro Mover | City of Fort Lauderdale, FL](#)
