

Dear Honorable Mayor and City Commissioners,

As you know the Vintro Hotel is scheduled to come before the City Commission on September 3, 2013 for approval of a Level IV site plan.

The Vintro Hotel is proposed to be a massive glass and white stucco box sitting on a small 12,000 square foot lot in the middle of Alhambra Street, in the Central Beach neighborhood of the City of Ft. Lauderdale.

This project is not a good fit for the neighborhood. It's incompatible with the existing development pattern in the community. It's architecture does not reference its surroundings.

While hotels may be permitted in the neighborhood, the Central Beach Master Plan and the City's land development regulations contemplated resort-style hotels with lush landscaping and wide setbacks creating beautiful vistas and preserving open spaces. The Vintro Hotel, as proposed, would be jammed onto a postage stamp size parcel.

Furthermore, the Vintro Hotel would have detrimental impacts on the functioning of Alhambra Street for existing businesses and residents. The Vintro Hotel does not accommodate its parking and loading on its site, and at high peak times and during special events, the stacking of cars would create a safety hazard and traffic nightmare.

The Central Beach Alliance voted unanimously to oppose this project. The Planning and Zoning Board recommended denial.

Do what's right for the community and vote NO to the Vintro Hotel.

As you know the Vintro Hotel is scheduled to come before the City Commission on September 3, 2013 for approval of a Level IV site plan.

The Vintro Hotel is proposed to be a massive glass and white stucco box sitting on a small 12,000 square foot lot in the middle of Alhambra Street, in the Central Beach neighborhood of the City of Ft. Lauderdale.

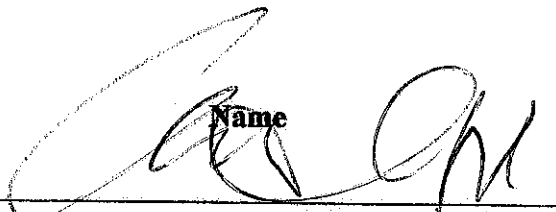

This project is not a good fit for the neighborhood. It's incompatible with the existing development pattern in the community. It's architecture does not reference its surroundings.

While hotels may be permitted in the neighborhood, the Central Beach Master Plan and the City's land development regulations contemplated resort-style hotels with lush landscaping and wide setbacks creating beautiful vistas and preserving open spaces. The Vintro Hotel, as proposed, would be jammed onto a postage stamp size parcel.

Furthermore, the Vintro Hotel would have detrimental impacts on the functioning of Alhambra Street for existing businesses and residents. The Vintro Hotel does not accommodate its parking and loading on its site, and at high peak times and during special events, the stacking of cars would create a safety hazard and traffic nightmare.

The Central Beach Alliance voted unanimously to oppose this project. The Planning and Zoning Board recommended denial.

Do what's right for the community and vote NO to the Vintro Hotel.

The Vintro Hotel, as proposed, would be jammed onto a postage stamp size parcel.

Furthermore, the Vintro Hotel would have detrimental impacts on the functioning of Alhambra Street for existing businesses and residents. The Vintro Hotel does not accommodate its parking and loading on its site, and at high peak times and during special events, the stacking of cars would create a safety hazard and traffic nightmare.

The Central Beach Alliance voted unanimously to oppose this project. The Planning and Zoning Board recommended denial.

Do what's right for the community and vote NO to the Vintro Hotel.

Dear Honorable Mayor and City Commissioners,

As you know the Vintro Hotel is scheduled to come before the City Commission on September 3, 2013 for approval of a Level IV site plan.

The Vintro Hotel is proposed to be a massive glass and white stucco box sitting on a small 12,000 square foot lot in the middle of Alhambra Street, in the Central Beach neighborhood of the City of Ft. Lauderdale.

This project is not a good fit for the neighborhood. It's incompatible with the existing development pattern in the community. It's architecture does not reference its surroundings.

While hotels may be permitted in the neighborhood, the Central Beach Master Plan and the City's land development regulations contemplated resort-style hotels with lush landscaping and wide setbacks creating beautiful vistas and preserving open spaces. The Vintro Hotel, as proposed, would be jammed onto a postage stamp size parcel.

Furthermore, the Vintro Hotel would have detrimental impacts on the functioning of Alhambra Street for existing businesses and residents. The Vintro Hotel does not accommodate its parking and loading on its site, and at high peak times and during special events, the stacking of cars would create a safety hazard and traffic nightmare.

The Central Beach Alliance voted unanimously to oppose this project. The Planning and Zoning Board recommended denial.

Do what's right for the community and vote NO to the Vintro Hotel.

Dear Honorable Mayor and City Commissioners,

As you know the Vintro Hotel is scheduled to come before the City Commission on September 3, 2013 for approval of a Level IV site plan.

The Vintro Hotel is proposed to be a massive glass and white stucco box sitting on a small 12,000 square foot lot in the middle of Alhambra Street, in the Central Beach neighborhood of the City of Ft. Lauderdale.

This project is not a good fit for the neighborhood. It's incompatible with the existing development pattern in the community. It's architecture does not reference its surroundings.

While hotels may be permitted in the neighborhood, the Central Beach Master Plan and the City's land development regulations contemplated resort-style hotels with lush landscaping and wide setbacks creating beautiful vistas and preserving open spaces. The Vintro Hotel, as proposed, would be jammed onto a postage stamp size parcel.

Furthermore, the Vintro Hotel would have detrimental impacts on the functioning of Alhambra Street for existing businesses and residents. The Vintro Hotel does not accommodate its parking and loading on its site, and at high peak times and during special events, the stacking of cars would create a safety hazard and traffic nightmare.

The Central Beach Alliance voted unanimously to oppose this project. The Planning and Zoning Board recommended denial.

Do what's right for the community and vote NO to the Vintro Hotel.

Vintro Hotel Petition Form

5 August, 2013 1:06 PM

3 Attachments, 329 KB

Good Afternoon,

As stated in last week's email from the Central Beach Alliance (CBA), there will be a meeting this Wednesday, August 7th, from 6-8pm at the Casablanca Café, concerned residents are coming together to express their opposition to the proposed Vintro Hotel. The Vintro is coming before the City Commission on September 3, 2013 with plans to build a 164 foot tall hotel, with (mostly) 10 foot setbacks on the 100x120 foot lot next to the Casablanca and the Seasons Condo.

The CBA membership voted unanimously against this project. The Planning & Zoning Board recommended that this project NOT be built. Since then, the developer has had 'get togethers' in order to drum up support. CBA would hope you could stop by this 'get together' to express your opposition. You will be asked to sign a petition/letter opposing this development.

For those of you who cannot attend but are interested in expressing your opposition, I have attached a copy of the petition/letter which the CBA would like you to fill-out and mail the original back to me here at The Versailles. You need to both print your name, as well as sign your name and include your zip code.

Thanks,

Richard Samu

Dear Honorable Mayor and City Commissioners,

As you know the Vintro Hotel is scheduled to come before the City Commission on September 3, 2013 for approval of a Level IV site plan.

The Vintro Hotel is proposed to be a massive glass and white stucco box sitting on a small 12,000 square foot lot in the middle of Alhambra Street, in the Central Beach neighborhood of the City of Ft. Lauderdale.

This project is not a good fit for the neighborhood. It's incompatible with the existing development pattern in the community. It's architecture does not reference its surroundings.

While hotels may be permitted in the neighborhood, the Central Beach Master Plan and the City's land development regulations contemplated resort-style hotels with lush landscaping and wide setbacks creating beautiful vistas and preserving open spaces. The Vintro Hotel, as proposed, would be jammed onto a postage stamp size parcel.

Furthermore, the Vintro Hotel would have detrimental impacts on the functioning of Alhambra Street for existing businesses and residents. The Vintro Hotel does not accommodate its parking and loading on its site, and at high peak times and during special events, the stacking of cars would create a safety hazard and traffic nightmare.

The Central Beach Alliance voted unanimously to oppose this project. The Planning and Zoning Board recommended denial.

Do what's right for the community and vote NO to the Vintro Hotel.

Dear Honorable Mayor and City Commissioners,

As you know the Vintro Hotel is scheduled to come before the City Commission on September 3, 2013 for approval of a Level IV site plan.

The Vintro Hotel is proposed to be a massive glass and white stucco box sitting on a small 12,000 square foot lot in the middle of Alhambra Street, in the Central Beach neighborhood of the City of Ft. Lauderdale.

This project is not a good fit for the neighborhood. It's incompatible with the existing development pattern in the community. It's architecture does not reference its surroundings.

While hotels may be permitted in the neighborhood, the Central Beach Master Plan and the City's land development regulations contemplated resort-style hotels with lush landscaping and wide setbacks creating beautiful vistas and preserving open spaces. The Vintro Hotel, as proposed, would be jammed onto a postage stamp size parcel.

Furthermore, the Vintro Hotel would have detrimental impacts on the functioning of Alhambra Street for existing businesses and residents. The Vintro Hotel does not accommodate its parking and loading on its site, and at high peak times and during special events, the stacking of cars would create a safety hazard and traffic nightmare.

The Central Beach Alliance voted unanimously to oppose this project. The Planning and Zoning Board recommended denial.

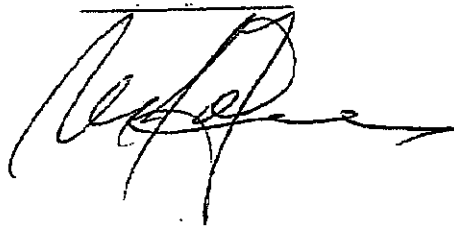

Do what's right for the community and vote NO to the Vintro Hotel.

The Vintro Hotel, as proposed, would be jammed onto a postage stamp size parcel.

Furthermore, the Vintro Hotel would have detrimental impacts on the functioning of Alhambra Street for existing businesses and residents. The Vintro Hotel does not accommodate its parking and loading on its site, and at high peak times and during special events, the stacking of cars would create a safety hazard and traffic nightmare.

The Central Beach Alliance voted unanimously to oppose this project. The Planning and Zoning Board recommended denial.

Do what's right for the community and vote NO to the Vintro Hotel.

Dear Honorable Mayor and City Commissioners,

As you know the Vintro Hotel is scheduled to come before the City Commission on September 3, 2013 for approval of a Level IV site plan.

The Vintro Hotel is proposed to be a massive glass and white stucco box sitting on a small 12,000 square foot lot in the middle of Alhambra Street, in the Central Beach neighborhood of the City of Ft. Lauderdale.

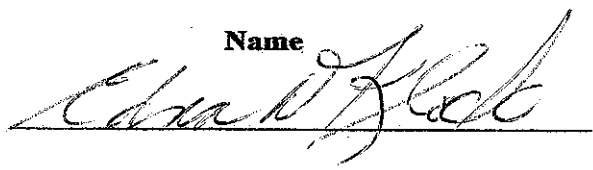

This project is not a good fit for the neighborhood. It's incompatible with the existing development pattern in the community. It's architecture does not reference its surroundings.

While hotels may be permitted in the neighborhood, the Central Beach Master Plan and the City's land development regulations contemplated resort-style hotels with lush landscaping and wide setbacks creating beautiful vistas and preserving open spaces. The Vintro Hotel, as proposed, would be jammed onto a postage stamp size parcel.

Furthermore, the Vintro Hotel would have detrimental impacts on the functioning of Alhambra Street for existing businesses and residents. The Vintro Hotel does not accommodate its parking and loading on its site, and at high peak times and during special events, the stacking of cars would create a safety hazard and traffic nightmare.

The Central Beach Alliance voted unanimously to oppose this project. The Planning and Zoning Board recommended denial.

Do what's right for the community and vote NO to the Vintro Hotel.
