City of Fort Lauderdale Urban Design and Planning Division
Development Services Department
700 NW 19th Avenue, Fort Lauderdale, FL 33311

**Re: Record Number: UDP-EV24006 - Project and Unified Land Development Codes for
Partial Release of Easement located at 1512 NW 19th Street, Fort Lauderdale, FL 33311**

To Whom it May Concern:

The following answers are given to satisfy the Project and Unified Land Development Code Narratives for the above referenced Development Application.

I. Vacation of Right-of-Way/ Easement. An application for a vacation of an easement shall also be reviewed in accordance with the following criteria:

- a. The easement is no longer needed for public purposes.
- b. All utilities located within the easement have been or will be relocated pursuant to a relocation plan; and the owner of the utility facilities has consented to the vacation; or a portion of the easement area is maintained; or an easement in a different location has been provided by the utility facilities by the owner to the satisfaction of the city; or any combination of same. *All Owners have provided no objection letters to the partial release of the easement in question.*

II. Adequacy Requirements.

- a. Communications Network.

Buildings and Structures do not interfere with city's communication network.

- b. Drainage Facilities.

Existing stormwater management facilities located in the subject property are adequate.

- c. Environmentally Sensitive Lands. *Not applicable.*

- d. Fire Protection.

The Subject Property possess adequate fire protection service to protect people and property in the existing development. The Property possess adequate water supply, fire hydrants, fire apparatus and all necessary facilities will be provided in accordance with the Florida Building Code, South Florida Fire Code and other accepted applicable fire and safety standards.

e. Parks and Open Space. *Not applicable.*

f. Police Protection.

The development will provide improvements which are consistent with Crime Prevention Through Environmental Design (CPTED) to minimize the risk to public safety and assure adequate police protection.

g. Potable Water.

The existing development has been designed to provide adequate areas and easements which are needed for installation and maintenance of potable water system in accordance with city engineering standards, the Florida Building code, and applicable health and environmental regulations.

h. Potable Water Facilities.

i. Sanitary Sewer.

j. Public Schools. *Not applicable.*

k. Solid Waste.

All solid waste will be disposed of in a manner that complies with all governmental requirements.

l. Stormwater.

Adequate stormwater facilities and systems have been installed so that the removal of stormwater will not adversely affect adjacent streets and properties or the public stormwater facilities and systems in accordance with the Florida Building Code, city engineering standards and other accepted applicable engineering standards.

m. Transportation Facilities.

The existing development will not generate over one thousand (1,000) daily trips; nor are more than twenty percent (20%) of the total daily trips anticipated to arrive or depart, or both, within one-half (1/2) hour; nor will the proposed use create varying trip generation each day. The proposed use does not have the potential to place more than twenty percent (20%) of its maximum twenty-four (24) hour trip generation onto the adjacent transportation system within a one-half (1/2) hour period.

Owner will convey property to the public by plat, deed or grant of easement as needed in accordance with the Broward County Trafficways Plan, the city's comprehensive plan, subdivision regulations and accepted applicable traffic engineering standards.

Sidewalks, pedestrian crossing and other pedestrian facilities have been provided to

encourage safe and adequate pedestrian movement on-site and along roadways to adjacent properties and have been installed in accordance with city engineering standards and accepted applicable engineering standards.

Owner will provide any street trees determined by the department.

- n. Wastewater.

Adequate wastewater services will be provided for the needs of the existing development.

The existing development has been designed to provide adequate areas and easements which are needed for the installation and maintenance of a wastewater and disposal system in accordance with applicable health, environmental and engineering regulations and standards. Capital expansion charges for water and sewer facilities, if applicable, shall be paid by the developer in accordance with Resolution 85-265, as it is amended for time to time. Improvements to the wastewater facilities and system have been made in accordance with the city engineering and accepted applicable engineering standards.

- o. Trash Management Requirements. *Not applicable.*
- p. Historic and Archeological Resources. *Not applicable.*
- q. Hurricane Evacuation. *Not applicable.*
