Increase the floor area ratio (FAR) from 2 to 3 by the year 2000 and to 4 by 2010 consistent with Policy 1.32.2 of the Future Land Use Element. The FAR will not be applied to individual parcels but to the entire DRAC. Thus, individual parcels may exceed the maximum for nonresidential land use, but maintaining the FAR maximum for the DRAC will assure that the City of Fort Lauderdale can provide services.

Comments:

1. Downtown RAC has direct access to a Tri-County Commuter Rail Station and a Broward County Mass Transit Terminal.
2. Downtown Fort Lauderdale was also designated as a Regional Activity Center in order to encourage intense development and bring residential uses back to the downtown area. In 1997, Downtown districts with different permitted uses and development regulations were adopted to foster redevelopment of this area.
3. Chapter 380.06 (2)(e), Florida Statutes (F.S.), and Chapter 28-24.014(10), Florida Administrative Code (FAC), authorize local governments to designate areas as regional activity centers, hereinafter "Chapter 380 regional activity centers", where the local government seeks to encourage higher intensities of development by increasing the threshold of development size required to undergo State review as a Development of Regional Impact (DRI). Additionally, Policy 2.1.12 of the Strategic Regional Policy Plan for South Florida authorizes the designation of "Regional Development Districts" to implement the provisions of Chapter 380.0651(3) (d) (3) and (3) (g) (2), F.S., which provide for the designation of geographic areas highly suitable for increased (DRI review) threshold intensity.

The designation of a specific area and boundaries as a Chapter 380 regional activity center for the purpose of increasing DRI review thresholds does not change the City of Fort Lauderdale Land Use Plan map designation of any land, nor does it change the uses or intensities of development authorized by the Future Land Use Element of the City's Comprehensive Plan. It only changes the circumstances under which proposed development in the designated area would have to be reviewed through the Chapter 380, F.S., DRI process.

The Downtown-RAC is hereby designated to be a Chapter 380 regional activity center, and, subject to amendment of the Strategic Regional Policy Plan for South Florida by the South Florida Regional Planning Council, as a regional development district (a geographic area specifically designated as highly suitable for increased threshold intensity), for the purpose of increasing DRI thresholds.
