WHEREAS, the AGENCY by Action on the 20 day of August, 2013, a copy of which is attached hereto and by this reference made a part hereof, desires to enter into this Agreement and authorizes its officers to do so;

NOW THEREFORE, for and in consideration of the mutual benefits to flow each to the other, the parties covenant and agree as follows:

1. The DEPARTMENT has undertaken and obtained the approval of Federal participation for the PROJECT, as more particularly described in Exhibit "A".
2. The AGENCY shall allow the DEPARTMENT and its contractors to enter onto the existing AGENCY property, including easements and property acquired by the DEPARTMENT, to construct this PROJECT.
3. The AGENCY shall continue to maintain the property owned by AGENCY until the DEPARTMENT begins construction of the PROJECT.
4. It is understood and agreed by the parties that upon "final acceptance" by the DEPARTMENT of the PROJECT, (as that term is described in the Standard Specifications for Roadway and Bridge Construction dated 2013, as amended by contract documents), and Notice thereof to the AGENCY, the AGENCY shall be responsible for maintenance of said PROJECT, at its own cost, in accordance with the following Federally and State accepted standards and all costs related thereto: (a) FDOT Plans Preparation Manual (PPM), (b) Florida Green Book dated 2011, as amended (c) Governing standards and specifications: FDOT Design Standards dated 2013, as amended (d) Standard Specifications for Roadway and Bridge Construction dated 2013, as amended by contract documents, and (e) Manual on Uniform Traffic Control Devices (MUTCD), current edition, or as amended. 5. The AGENCY grants herein to the DEPARTMENT all rights necessary to enter and construct the PROJECT.
6. Environmental and Occupancy permitting: If requested by the DEPARTMENT, the AGENCY shall sign as applicant and be responsible for the permits related to the PROJECT. Further the AGENCY shall be in compliance with all permits after the construction is complete. The AGENCY shall execute all documentation required by the permitting agencies in a timely manner to accept transfer of the Project.
7. Utilities: The AGENCY shall cooperate with the DEPARTMENT, to the extent necessary, to accomplish utility relocations for this Project. This shall include, but not be limited to, entering into utility subordination agreements with the affected utility owners, thereby assuming liability for future utility relocations within the AGENCY right of way. This shall also include having the AGENCY require the Utility to relocate or adjust if the utility is there by permit.

8. Unforeseen issues: If unforeseen issues shall arise, the AGENCY shall cooperate with the DEPARTMENT, to the extent necessary, in order to construct the Project including but not limited to executing documents, allowing the DEPARTMENT or its contractor to enter into any real property owned, possessed and controlled by the AGENCY or any other Occupancy right the AGENCY may have.

---

9. The AGENCY shall execute "Local Government Right of Way Certification Statement", attached as Exhibit B, indicating that the PROJECT can be completed within the public right of way, and that no additional right of way is required.

I, the signature below certify and represent that the following interests in land (Right of Way) will NOT be required for the construction of this project:

- Fee Title – land on which a permanent improvement is to be placed and maintained.
- Perpetual Easement – may be used when permanent improvement is to be constructed and maintained on a parcel for which acquisition of fee title is impractical.
- Temporary Easement – used when it is necessary to temporarily occupy a parcel. No improvement that is a permanent part of the transportation facility or that requires maintenance beyond the term of the easement will be constructed on the temporary easement.

The concept plans have been compared to current right of way data and the right of way, as shown, will accommodate the planned construction. The construction activities will be performed in the existing right of way. The contractor will not be required to temporarily enter upon property not owned by the local government executing this statement for the purpose of restoration and harmonization. There are no encroachments within existing right of way that impact the construction project.
