City's failure to enforce any provision of this Agreement shall not be deemed a waiver of such provision or modification of this Agreement. A waiver of any breach of a provision of this Agreement shall not be deemed a waiver of any subsequent breach and shall not be construed to be a modification of the terms of this Agreement.

## Question and Answers for Bid #12412-803 - Curbside Recycling Collection Services

### Overall Bid Questions

#### Question 1

2.53 - Please confirm there is only 1 - 3% adjustment per 3 year renewal period; ie: 1% per year? (Submitted: Jun 17, 2020 12:41:18 PM EDT)

#### Answer

- In reference to section 2.35, there will be an automatic 3% increase at the beginning of each 3-year renewal term. (Answered: Jun 17, 2020 3:18:45 PM EDT)

#### Question 2

3.4 M. Is it a correct assumption, every year, on the anniversary of the contract (3 times per contract term, 9 times if all renewals are exercised), the contractor must pay \$26,612.40 will be paid to the City as a "maintenance/replacement" cost for carts? (Submitted: Jun 17, 2020 12:48:18 PM EDT)

#### Answer

- Correct (Answered: Jun 17, 2020 3:18:45 PM EDT)

#### Question 3

3.5 E. During special events will early start time be granted if streets will be blocked off? (Submitted: Jun 17, 2020 12:50:52 PM EDT)

#### Answer

- Generally special event deliveries are coordinated the day before the event whenever possible. If a special event is planned within 250 feet of residential and does not allow for placement the morning of the event, or prior afternoon, staff can provide written approval to deliver prior to 7am to accommodate operational needs. (Answered: Jun 17, 2020 3:18:45 PM EDT)

#### Question 4

3.6 Are current routes on file with the City and available to bidders? (Submitted: Jun 17, 2020 12:52:27 PM EDT)

#### Answer

- No (Answered: Jun 17, 2020 3:18:45 PM EDT)

#### Question 5

3.7 F. If the routes are recorded and show a location does not have a cart out by 7:00 a.m. the Contractor is still held accountable for no fault of their own, and needs to service the location that day? If this is correct what is the purpose of having rules and regulations? (Submitted: Jun 17, 2020 12:55:10 PM EDT)

#### Answer

- If a customer calls and reports a missed service, a missed pick-up is entered into the system the day following the scheduled collection day. If called in the same day as scheduled collections, it is entered as an inquiry. Either way, recovery is required by the vendor. When a stop is reported as not out by the vendor, the vendor is not charged with a missed pick up but is still required to collect the customer if the customer calls reporting no collection.

(Answered: Jun 17, 2020 3:18:45 PM EDT)

#### Question 6

3.7 H. Please confirm the Route Supervisor is to be a Dedicated Route Supervisor solely for this contract and not crossing for a dual role from solid or yard waste operations routes. (Submitted: Jun 17, 2020 12:57:09 PM EDT)

#### Answer

- Confirmed. Supervisor should be dedicated to recycling collections only. (Answered: Jun 17, 2020 3:18:45 PM EDT)

#### Question 7

3.10 Please confirm the \$10,000 fee is to be paid at the end of each year within the 3 year term or once per year term at the end. (Submitted: Jun 17, 2020 12:59:50 PM EDT)

#### Answer

- Payment is to be made each year no later than the anniversary date of the contract.

For example, if the contract is effective June 1st, 2020 the first payment would be due no later than May 31st, 2021 and each year during the contract duration. (Answered: Jun 17, 2020 3:18:45 PM EDT)

#### Question 8

3.14 D Why is the Contractor held liable for contamination the driver cannot see in emptying a cart with an ASL and contamination being in the cart? It seems that should be the Cities responsibility in education. (Submitted: Jun 17, 2020 1:07:14 PM EDT)

#### Answer

- The City wishes to partner with an experienced company that shares its commitment to sustainability, of which recycling is a key component. While a driver may not be able to identify all contaminants contained within a cart, a driver can identify visibly contaminated carts containing plastic bags, construction materials, yard waste and other materials. (Answered: Jun 17, 2020 3:18:45 PM EDT)

#### Question 9

3.14 E. If the dump site changes and still is in Broward County but is all the way at the South end, such as Reuters, with time, traffic, route times for completion, additional trucks may need to be added which is an additional cost the contractor, how can there not be any discussion regarding an adjustment of charges?

This is a huge risk to the contractor. (Submitted: Jun 17, 2020 1:13:32 PM EDT)

#### Answer

- Please refer to the VARIANCES section of the Bid/Proposal Certification page. (Answered: Jun 17, 2020 3:18:45 PM EDT)

#### Question 10

Would the city consider extending the bid due date? Three week is a short turn around. (Submitted: Jun 17, 2020 2:34:09 PM EDT)

#### Answer

- See Addendum 1. Date extended to July 14, 2020. (Answered: Jun 18, 2020 12:57:36 PM EDT)

**Question 11**

When does the processing facility's contract expire? (Submitted: Jun 18, 2020 9:08:10 AM EDT)

**Answer**

- 1/31/21 with 2 one-year options for renewal. The City does plan to renew for another year. (Answered: Jun 18, 2020 1:12:21 PM EDT)

**Question 12**

How many times was the current hauler charged for contaminated loads and what was the tonnage? (Submitted: Jun 18, 2020 9:40:02 AM EDT)

**Answer**

- The current contractor has not been charged for a contaminated load during their contract with the City. (Answered: Jun 18, 2020 1:12:21 PM EDT)

**Question 13**

3.7 D. What happens if this is a continued action with no increase of service? It may become a domino effect with more and more residents leaving materials next to the cart. This will take the driver even longer to finish a route which makes the contractor cost higher with no additional charges to the city. This seems to be a problem with more online ordering and especially during covid19. Is there a point where we actually just leave the material on the sides so the customer is forced to order an extra cart? (Submitted: Jun 18, 2020 10:03:31 AM EDT)

**Answer**

- Should the driver or route supervisor indicate that a resident is repetitively generating more materials that the cart can contain, contractor should escalate to the City for an inspection and further action up to and including an additional cart. (Answered: Jun 18, 2020 1:12:21 PM EDT)

**Question 14**

3.14 D How often did this happen, what were the cost involved, and the tonnage? (Submitted: Jun 18, 2020 10:13:20 AM EDT)

**Answer**

- The current contractor has not been charged for a contaminated load during their contract with the City. (Answered: Jun 18, 2020 1:12:21 PM EDT)

**Question 15**

Section 3.6 and 3.23 allows route and schedule changes due to approval from the City. Can the bidder submit an alternative bid based on route changes? (Submitted: Jun 18, 2020 2:09:41 PM EDT)

**Answer**

- No. Routing must be coordinated with other services such as garbage cart and bulk collection and cannot be independent of both. With City approval we allow for route changes during the contract term which guarantees us the opportunity to ensure that coordination. (Answered: Jun 18, 2020 3:32:11 PM EDT)

**Question 16**

Can the City share the current recycling processing agreement? (Submitted: Jun 18, 2020 2:10:04 PM EDT)

### Question 17

Is the data base of service addresses available in a Geo Coded Digital File or Flat File with addresses & Zip Codes? (Submitted: Jun 19, 2020 3:27:52 PM EDT)

### Answer

- Yes (Answered: Jun 19, 2020 4:15:03 PM EDT)

### Question 18

Would the City consider changing the allowed increase from 1 - 3% increase per 3 year period ( 1% per year) after the initial 3 yr. term to:

Maximum of 3% per year following the CPI of Solid Waste & Sewer Workers after the first initial 3 year?

Any prudent operator recognizes that a 1% per year increase will not allow the contractor to keep up with inflation and the cost of providing the service the City expects especially with keeping experienced drivers/employees and providing competitive salaries/benefits.

This yearly adjustment would save the City money rather than a Contractor factoring the required cost increases into pricing up front as with the 1st 3 yr. term, this would be extended through 6 additional years. (Submitted: Jun 21, 2020 9:15:29 AM EDT)

### Answer

- No (Answered: Jun 22, 2020 9:49:21 AM EDT)

### Question 19

In Bid Section II Special Terms and Conditions Section 2.23.1 Bid Security Amount is define as 5% of the total proposed amount. Will the City clarify:

Is the 5% calculated on just one year of the annual total proposed revenue amount? Or

Is the 5% calculated on a total combined three years revenue amount?combined? (Submitted: Jun 21, 2020 2:11:50 PM EDT)

### Answer

- The solicitation requests an annual amount for the service on an estimated 460,644 units. Bid Security shall be five percent (5%) of that total proposed amount. (Answered: Jun 22, 2020 9:49:21 AM EDT)

### Question 20

In Bid Section 2.24.1 The Payment and Performance Bond amount is define as 100% of the total proposed amount. Will the City clarify:

-Must The proposer must provide two bonds? One Performance Bond and One Payment Bond?

-Is the performance bond amount calculated on 100% of one year of annual total proposed revenue amount? Or is it calculated on a total of the three-year contract term total proposed amount combined?

-Is the payment bond amount calculated on 100% of one year of annual total proposed amount? Or is it calculated on a total of the three-year contract term total proposed amount combined? **(Submitted: Jun 21, 2020 2:13:33 PM EDT)**

#### Answer

- Payment and Performance Bond is one bond provided annually and calculated based on 100% of total proposed annual revenue amount. **(Answered: Jun 22, 2020 9:49:21 AM EDT)**

#### Answer

- The business and operational plan should at minimum include the bidder's information related to 2.17 (Minimum Qualifications), 2.22 (Subcontractors), 3.16 (Management) and 3.18 (Equipment) along with any other operational information relevant to the bidder's success should they be awarded the contract. This would include equipment lists and specifications, resumes of leadership and supervisory staff, etc. **(Answered: Jun 23, 2020 2:43:40 PM EDT)**

Re: Question(s) on Bid 12412-803 - Curbside Recycling Collection Services have been answered by City of Fort Lauderdale, FL.

Questions:

1. What amount is Gold Metal paying per ton at Deerfield Beach Recycling Center?
2. Do we have to take Recyclable Materials to the Deerfield Beach Processing Facility?

3. Could the successful take recyclables materials to Wheelabrator, where they wouldn't have a problem with curbside cart contamination and the City would be able to use those tons for electricity generation? Contamination is a major concern Haulers which could have major financial consequences for rejected contaminated truck loads. Haulers take big risks, even though their drivers can't see what's inside the recycling cart.

4. What is the current price each resident pays monthly recycling services?

5. Page 8, section 2.13 No Exclusive Contract

Bidder agrees and understands that the contract shall not be construed as an exclusive arrangement and further agrees that the City may, at any time, secure similar or identical services from another vendor at the City's sole option.

With the high cost of Capital needed for trucks to service this contract, in excess of \$4 million for this Contract, would the City consider removing this section this section in its entirety? Having basically a month to month contract concerns haulers regarding investing in such funds in risky endeavors. **(Submitted: Jun 24, 2020 1:00:42 PM EDT)**

#### Answer

- 1. Gold Medal does not pay for processing or disposal fees.
- 2. Yes, unless otherwise approved by the City.
- 3. No
- 4. Residents pay a monthly sanitation fee on their utility bill for all services provided. Recycling is not broken out.
- 5. No **(Answered: Jun 24, 2020 2:08:01 PM EDT)**

10. Page 25 Section 3.7 N. What is considered large amounts of cardboard? **(Submitted: Jun 24, 2020 5:06:22 PM EDT)**

#### Answer

- 24.1: This is standard legal language included in all bid documents. Please note that any request to take on additional work that is not reasonable or becomes an undue burden would be excluded.
- 24.2: This is standard legal language included in all bid documents. An unlikely reduction or elimination of service would result in prorated contractor's fees commensurate with the estimated cost of that work.
- 24.3: No
- 24.4: The link to Municode 3.2 (A) refers to the Essential Municipal Services licensure requirement in 3.2 (C) and includes all other required local, state and federal license requirements including, but not limited to, Business Tax License, FDOT permits, etc.
- 24.5: Please see 3.14- the City will direct its recyclables to the appropriate recycling processor but reserves the

right to require Contractor to procure a processing vendor.

24.6: Yes, the City provides this list to its awarded vendor and updates it periodically to reflect additions and deletions to the list.

24.7: Generally, arrangements are made to stage carts at another location in coordination with the hauler and the residents.

24.8: Typically, the City performs its own audits however, from time to time, it is necessary to engage GPS technology on collection trucks, to request contractor assistance for areas serviced on Saturdays, etc. These are normally focused by Homeowner Association, to provide meaningful and actionable data. The expectation is 4 such audits to be performed each calendar year.

24.9: The City hosts and attends a number of events each year where it may be appropriate to promote recycling. These include presentations to local schools, festivals and like events. Contractors would provide manpower and truck with City carts, should that be requested, to educate the public on recycling and anti-contamination. The expectation would be 4 to 6 such events annually.

24.10: This intended to reflect unusual homeowner events, specifically moving boxes. **(Answered: Jun 25, 2020 11:33:38 AM EDT)**

15. Page 30 Section 3.16-13. What other duties is required by the supervisor?

16. Page 33 Section 3.21. Will the city be responsible for costs of the Public information brochures? **(Submitted: Jun 24, 2020 5:06:57 PM EDT)**

### Answer

- 25.11: These would be small convenience centers strategically placed throughout the City. The contractor would provide the equipment and service containers provided but would not require staffing for the convenience centers.

25.12: Generally, presentations and other special events would be between 4 and 6 per calendar year. Contractor would provide containers and service for any clean-up events and would be limited to collection of recyclables only.

25.13: Contractor would be eligible. City staff would confirm with Contractor in writing prior to activities taking place.

25.14: The City

25.15: This is meant to cover any tasks otherwise not listed such as collecting cart tags from the City, providing reports like cart inventory counts, performing site visits when issues arise, etc.

# Implementation and Operation Plan

## Implementation of Services

Upon award of the contract Coastal, will work with designated City officials as well as the current service provider, to confirm a transition timeline to include the hiring of drivers and delivery of equipment. The following plan will be in place as the basis to be reviewed and modified as necessary by Coastal and the City.

### Transition Plan

Coastal has taken the information received by the City and combined it with our own historical data compiled from cities we currently service. We have driven the routes the City's contractor is currently servicing. This information allowed us to assign the correct number of trucks as well as choose the correct vehicle to safely service the residential collection.

By using the number of homes and combining them with street maps and traffic patterns, we were able to calculate the overall service time.

Steps to be taken based on evaluation of above data:

### Assign Field Supervisor

- Gerardo Cardona, Broward Operations Manager will be the main contact person for Fort Lauderdale.
- Gerardo will immediately begin training a dedicated Route Manager/Field Supervisor in advance of the contract start date to take for the Fort Lauderdale contract. This Field Manager will be exclusive to Fort Lauderdale.

## Trucks

Coastal will secure the necessary trucks through multiple vendors if necessary, to guarantee on-time delivery. Due to the short window between award and start of the contract, as well as any other issues that may arise due to the pandemic, Coastal has developed a contingency plan if there is a delay in delivery. In the event of a delay, we have secured a commitment from both Premier Truck Sales and Rentals and RDK Trucks to provide the necessary rental units. Both vendors assured Coastal that they have the equipment needed to service the City of Fort Lauderdale. All equipment will be ordered upon Contract approval by the City Commission.

Each truck is thoroughly inspected at the beginning and end of each shift using a detailed checklist known as a VCR (Vehicle Condition Report). Each item is inspected and where needed, repairs and maintenance are performed. The VCR reports are then completed and documented, with copies to appropriate Managers for monitoring. All vehicles are equipped with a state of the art tablet for constant communication along with a Global Positioning System (GPS) so that all trucks' locations can be tracked at all times. This equipment is also inspected daily to ensure optimum system performance.

# Customer Service

## Customer Service Plan

Coastal Waste & Recycling understands how vital the service we provide is to the health and welfare of each Fort Lauderdale resident. Our number one priority is timely and efficient collection for every resident, and commercial customer. With that goal in mind, we are focused on providing personal hands on attention to your residents from the initial contact to the completion of the job.

Every call that comes into our operation is answered by a live operator. We do not use the automated phone systems that have become customary with public waste companies. All of the employees at this Coastal location that answer the phone will be able to assist any concerns, requests and issues from City of Fort Lauderdale. There are all English speaking and two are bilingual. Coastal Waste & Recycling has six specialized Customer Service Representatives available 6 days a week.

Our Broward County call center is under the direct supervision of Kristen Stock, Director, Operations Applications. She is responsible for staffing, hiring, training, and coaching our customer service staff. Kristen has over 28 years in operations and customer call center management in the waste industry. Our customer service associate's complete extensive, ongoing customer service training.

Every associate spends time in our recycling facilities and on the customer routes with our drivers to receive firsthand experience of the day to day operation. They are completely familiar with our collection and processing operations.

Coastal Waste & Recycling places great importance on the highest quality of customer service in regard to polite, courteous and expedient response at all times. We aim not to simply meet the quality standards expected by the City of Fort Lauderdale, but rather to exceed those quality criteria in everything we do.

Our goal is to provide “0” complaint service at all times, although we understand there will be customer calls and inquiries during the transition. We will handle all calls in a professional and courteous manner with pride that we have the opportunity to assist every resident in the City of Fort Lauderdale.

Coastal Waste & Recycling utilizes the TRUX Haul-IT software. TRUX Haul-IT is a complete operational, financial solution for waste and recycling haulers. The software package provides comprehensive routing, dispatch, scheduling, billing, collection and sales reporting tools.

#### Customer Service Procedures Managing Inquiries

- All customer calls will be documented and logged into the Customer Issues Module of the TRUX Software.
- All customer calls will be addressed by day’s end and an action plan to resolve the inquiry, if needed.
- Supervisor action will be initiated immediately, with site-visits if needed. Appropriate service response will ensue. The legitimacy of concerns, if any, will be noted.
- Trux software communicates with the Supervisor on “real time” ensuring immediate response.
- Customer Service call statistics are constantly reviewed and monitored.

- Daily and monthly recaps will be prepared, analyzed and monitored for increased and effective customer service response. Improvement procedures will be enacted at every step of the process.
- Our GPS / Tablet technology will enable optimum efficiency in customer service response as the City, Managers, Customer Service Personnel, etc. can locate any driver and/or supervisor at any time. Our GPS tracking system will ensure the finest in quality assurance.
- All Customer Service personnel will have constant contact supervisors for immediate communication and customer issue resolution.

### Quality Control Program

Coastal Waste & Recycling knows that the quality control program is the driver for service quality in this contract. Coastal Waste & Recycling will develop a comprehensive program of inspections and monitoring actions to assure a “self-correcting” contract. The first step to ensuring a self-correcting contract is to ensure that the quality control program approved at the beginning of the contract provides the measures needed to lead the Coastal Waste & Recycling to success.

Quality Control Plan will include, but is not limited to, the following:

- Inspection procedures (to include checklists used by Coastal Waste & Recycling) identifying the items, frequency, conformance indicators and actions taken if non-conformance is found, covering all the service requirements of this contract.
- Means of identifying and resolving problems
- Roles and responsibilities of Coastal Waste & Recycling and the City.

Specific Quality Control Functions:

1. A plan that identifies all assignments (hours) for each pickup, and which falls within the time frame and days specified in the contract.
2. A schedule for all pickups by dates and areas and equipment to be used. This schedule will be kept current and updated at all times.
3. A system for identifying and correcting deficiencies in the quality of services before the level of performance becomes unacceptable and/or City inspectors point out the deficiencies.
4. An inspection system covering all the service requirements of the contract. A checklist used in inspecting contract performance throughout the length of the contract.
5. A file of all inspections conducted by Coastal Waste & Recycling and any corrective action taken.
6. Labor practices, to include hiring's, retention and rewards, and substitutions.
7. Security and Safety compliance with OSHA and Compliance with EPA and other Environmental Agencies guidelines.

In the Matter of an  
Application for Permit by:

Coastal Waste & Recycling of Broward County, LLC  
1700 NW 33 ST  
Pompano Beach, FL 33064

Attention: Brendon J. Pantano, CEO

**EPGMD License Number:** SW-WP02974-16-02  
**FDEP Permit Number:** 0349621-002-SO  
**WACS I.D. Number:** 103196

Enclosed is Permit Number 0349621-002-SO to continue operation of Coastal Waste & Recycling of Broward County, LLC, issued pursuant to section 403.061 (14) and 403.707, Florida Statutes.

This action is final and effective on the date filed with the Clerk of the Department unless a petition for an administrative hearing is filed in accordance with sections 120.569 and 120.57 of the Florida Statutes before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth below.

A person whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative hearing in accordance with sections 120.569 and 120.57 of the Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Broward County Environmental Engineering and Permitting Division (EPPD), One North University Drive, Plantation, Florida 33324.

Petitions by the applicant or any of the parties listed below must be filed within fourteen days of receipt of this written notice. Petitions filed by other persons must be filed within fourteen days of publication of the notice or receipt of the written notice, whichever occurs first. Under Section 120.60(3), F.A.C., however, any person who asked the Department for notice of agency action may file a petition within fourteen days of receipt of such notice, regardless of the date of publication. The petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention (in a proceeding initiated by another party) will be only at the discretion of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

A petition that disputes the material facts on which the Department's action is based must contain the following information

(a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Department File Number and the county in which the project is proposed;

(b) A statement of how and when each petitioner received notice of the Department's action or proposed action;

(c) A statement of how each petitioner's substantial interests are or will be affected by the Department's action or proposed action;

(d) A statement of all material facts disputed by petitioner or a statement that there are no disputed facts;

(e) A statement of the ultimate facts alleged, including a statement of the specific facts which the petitioner contends warrant reversal or modification of the Department's action or proposed action;

(f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the Department's action or proposed action; and

(g) A statement of the relief sought by the petitioner, stating precisely the action the petitioner wants the Department to take with respect to the Department's action or proposed action.

A petition that does not dispute the material facts on which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice.

Persons whose substantial interests will be affected by any such final decision of the Department have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

In accordance with Section 120.573 of the Florida Statutes, the Department advises that mediation is not available in this case under the provision of that statutes. This does not prevent any interested parties from agreeing to other forms of alternate dispute resolution.

Any party to this order has the right to seek judicial review of it under Section 120.68, F.S., by filing a notice of appeal under Rule 9.110, Florida Rules of Appellate Procedure, with the clerk of the Department in the Office of General Counsel, Mail Station 35, 3900 Commonwealth Boulevard, Tallahassee, Florida 32399-3000, and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate district court of appeal. The notice of appeal must be filed within thirty days after this order is filed with the clerk of the Department.

Should you have any questions, please contact Alex Erlenbach of this office, telephone number (954)519-1402.
