SECTION III - TECHNICAL SPECIFICATIONS/SCOPE OF SERVICES

3.1 General Information/Intent

The City of Fort Lauderdale is seeking a qualified Contractor(s) to remove, transport, stabilize and/or dispose of wastewater biosolids (dewatered) from the G.T. Lohmeyer (GTL) Wastewater Treatment Facility to an approved disposal site as defined by the appropriate United States Environmental Protection Agency (USEPA) and State of Florida Department of Environmental Protection (FDEP) regulations.

The City prefers disposal to an FDEP permitted Residuals Management Facility (RMF) which generates a Class A or Class AA material for use in land application, biofuel production or another approved beneficial reuse of the product. All material shall be disposed of in a manner that complies with all federal, state and local regulations.

The selected Contractor will be fully responsible for the transportation, treatment and final disposal of all materials in compliance with all applicable laws and regulations.

3.1.1 Permits, Tazes, Licenses and Fees

- A. The successful contractor shall at his own expense obtain all necessary permits, pay all license fees and taxes and shall be required to comply with all local ordinances, State and Federal laws, rules and regulations and interlocal agreements that may apply to this contract.
- B. A City of Fort Lauderdale Occupational License is required if Contractor's place of business or office is located within the City limits. Broward County also requires occupational licensure.
- C. Copies of all required licenses may be included with the Contractor's bid and on an annual basis thereafter, or upon request of the City.

3.1.2 Disposal Plan

- A. The Contractor will provide a written plan which will serve to identify the methods that will be utilized to remove, transport, stabilize and dispose of dewatered raw waste-activated biosolids and pretreatment grits, rags and solids.
- B. To ensure the City receives the strongest pricing possible the City reserves the right to secure disposal services directly with a disposal or other processing residuals management facility. Should the City elect to direct volumes to a disposal facility at a later date and the disposal facility's location exceeds 20 driving miles of the Contractor's chosen facility from G.T. Lohmeyer (GTL) Wastewater Treatment, then the City agrees to compensate Contractor for the additional mileage at a rate agreed upon by the Contractor and the City. Such rate shall be a proration of the Contractor's hauling fee (excluding disposal cost) divided by miles to original disposal location.
- C. *(ex. Sludge rate is \$65.00/ton with an actual disposal cost of \$30.00/ton.)*

*\$65.00 sludge fee- \$30.00 disposal = \$35.00 per ton (Contractor hauling fee)
\$35.00/120 miles (shortest driving distance) to original disposal location= \$0.29/mile
25 additional miles to City's disposal location x \$0.29= \$7.25
\$65.00 sludge fee + \$7.25 = NEW rate of \$72.25*

- D. Should the City's awarded disposal location be more than 20 driving miles closer to GTL Wastewater Treatment Plant, the City will receive a reduction in the fee charged by the Contractor by prorating the Contractor's Hauling fee (excluding disposal cost) divided by miles to the original disposal location.

3.1.3 Volumes Sludge / Bio-Solids

- A. Bidder will transport to any FDEP permitted Residuals Management Facility (RMF) which generates Class A or Class AA material for use in land application, biofuel production, etc. or other disposal location as determined by the Contractor and approved by the City. Disposal site must meet requirements as defined by the United States Environmental Protection Agency (USEPA) and Florida Department of Environmental Protection (FDEP).
- B. City reserves the right to request copies of all current FDEP permits for the RMF or disposal facility to be utilized by the Contractor for disposing of or receiving of biosolids generated by the City. Contractor shall require any RMF receiving biosolids produced by the City to enter into an agreement with the City as provided for in Section 62-640.880 F.A.C. <https://www.flrules.org/gateway/RuleNo.asp?id=62-640.880> and City FDEP permit FLA041378 to provide the City with an acknowledgement that the facility has sufficient permitted capacity to receive the biosolids and agrees to operate in accordance with its permits and applicable law.
- C. The operating permit for GTL allows for biosolids to be disposed in a Class I solid waste landfill, in accordance with Chapter 62-701 F.A.C. <https://www.flrules.org/gateway/ChapterHome.asp?Chapter=62-701>
- D. Contractor will be responsible for all operations and maintenance requirements to transport, treat and dispose of biosolids in accordance with Chapter 62-640 F.A.C. <http://www.dep.state.fl.us/legal/Rules/wastewater/62-640.pdf>
- E. And Title 40 CFR Part 503 http://www.ecfr.gov/cgi-bin/text-idx?tpl=/ecfrbrowse/Title40/40cfr503_main_02.tpl. - F. The City will maintain responsibility for operation and maintenance of all "wet end" equipment up to and including the belt filter press and their associated screw conveyors. The City will be responsible for depositing dewatered raw waste-activated biosolids into dump trailers provided by the Contractor for further treatment and disposal after authorized release by the City.
- G. Contractor will be fully responsible for all conveyance of dewatered raw waste-activated biosolids. Normal hauling days are Monday through Friday dependent upon landfill or RFF operations and GTL operational needs. 6. Any violation of weight regulations or traffic laws shall be the sole responsibility of the Contractor, who shall hold the City harmless from any penalty or sanction, civil or criminal, due to any violation.
7. Clean-up of any material spilled or discarded shall be the sole responsibility of the Contractor and shall be conducted at the Contractor's expense, in accordance with all applicable laws and regulations.

If the disabled vehicle cannot be repaired where it sits, it shall first be towed to the disposal site for the proper removal of biosolids. This shall be the sole responsibility of the Contractor and carried out at their expense.
 - c) Contractor shall not cause City dewatering operations to stop for more than one (1) hour for any reason, including but not limited to lack of drivers or empty trailers.
 - d) The City, at its discretion, may provide a staging area for empty trailers at GTL, if the Contractor so desires. The City assumes no liability for any Contractor equipment and all Contractor equipment remains under the responsibility and ownership of the Contractor. The Contractor shall not use City property as a work area to repair or service vehicles or equipment, except as mutually agreed upon by the Contractor and the City. All equipment parked on City property must be properly tarped/covered when not actively being loaded. There is room to accommodate seven (7) trailers at one time.

Hauling and Disposal - Waste Water Treatment Sludge and Bio-Solids

ISSUED: 10/30/24

This addendum is being issued to make the following change(s):

The Specifications and Requirements have been revised. Words in strikethrough are deletions from the existing text and words in bold underline are additions to the existing text (strikethrough removed; underlined bolded is added).

3.1.4 Liquidated Damages

B. Contractor shall ~~receive~~ **be assessed** liquidated damages of \$10,000 per occurrence plus \$350 per hour of lost operations of the City’s dewatering facility. Such deductions will continue until service is properly performed, plant operations resume, or the contract is canceled.
