**Background**

Parcel D in the Airport Industrial Park contains areas identified with both Natural Resource Area (NRA) and wetlands. Due to these designations, Environmental Resource Permits and Licenses from Broward County Environmental Protection and Growth Management Department and the South Florida Water Management District were required to allow for development of this parcel. These permits and licenses were obtained on December 21, 2007. Clearing and mitigation activities on the parcel began in October 2011 and were completed in December 2011.

In accordance with the requirements of the Broward County Environmental Protection and Growth Management Department (BCEPGMD) Environmental Resource License No. DF03-1116 and the South Florida Water Management District (SFWMD) Broward County Specific Conditions, a time zero report and quarterly monitoring reports are required for a period of five (5) years for the monitoring of the above Parcel D. A time-zero report and quarterly monitoring reports were provided to the above permitting agencies during the first year. These reports were reviewed and accepted by the agencies.

The Scope of Services in Task Order 13 include engineering services for the preparation of quarterly monitoring reports for years two through year five, as well as contractor coordination and project close-out services.
