CIT-1 PROVIDED BY
KENNETH CHURCHILL

FORT LAUDERDALE CITY COMMISSION RESOLUTION

THIS RESOLUTION REQUESTS; ONE ACRE OF LAND TO BE OWNED BY 25 HOMELESS AMERICAN VETERANS, LIVING IN 25 TENTS LAWFULLY, WITH ONE GARDEN; AS A SOCIAL EXPERIMENT; OF HOMELESS LAND OWNERSHIP.

PEOPLE HAVE BEEN REPLACED BY MACHINES. MILLIONS ARE HOMELESS. DUE TO WORLDWIDE OVERPOPULATION, IT MAY BE REASONABLE TO PRESUME, THAT THE HUMAN POPULATION WILL ALWAYS BE LARGER, THAN THE TOTAL NUMBER OF BUILDINGS THAT HOUSE PEOPLE. FROM HERE ON; THE TOTAL NUMBER OF PEOPLE THAT NEED VACANCIES, WILL ALWAYS EXCEED THE NUMBER OF EXISTING VACANCIES. BEING FORCED TO LIVE WITHOUT SHELTER CAUSES THE NATURAL CONSEQUENCE OF UN-NATURAL DEATH. THE HOMELESS ARE SURVIVING SOMEWHERE ON THE LAND ANYWAY. IT IS THE RESPONSIBILITY OF SOCIETY TO ORGANIZE THIS BASIC FACT OF LIFE. THE CITY OF FORT LAUDERDALE, FINDS ITSELF IN ABUNDANT WEALTH AND CAN EASILY AFFORD TO GIVE; HOMELESS AMERICAN VETERANS ONE ACRE OF LAND. ALL CITIES AND TOWNS OF THE UNITED STATES WOULD BE FREE TO EMULATE THIS MUNICIPAL MODEL; IT CAN EASILY EVOLVE INTO A VIABLE ECONOMIC DEVELOPMENT, OVER TIME. RECENTLY, THE CITY OF LAS CRUCIS, NEW MEXICO, CHANGED ITS CITY ORDANANCES TO CREATE THE FIRST LAWFUL TENT CITY IN THE HISTORY OF THE UNITED STATES, CREATED BY AN ACT OF GOVERNMENT; BUT EVEN THERE, THE HOMELESS DO NOT OWN THE LAND.

NATIONALLY, AMERICAN HOMELESS LAND MODEL WOULD CREATE, ONE HOMELESS LAND RESERVATION FOR EACH COUNTY OF THE UNITED STATES; WHERE HOMELESS FAMILIES AND INDIVIDUALS COULD CROSS THE AMERICAN GRID, IN SEARCH OF ECONOMIC OPPURTUNITY.

**NEW YORK STATE SENATE
INTRODUCER'S MEMORANDUM IN SUPPORT
Submitted in accordance with Senate Rule VI, Sec. 1**

**(X) Memo on original bill
() Memo on amended bill**

**SENATE BILL #: S.
SENATE SPONSOR(S):**

ASSEMBLY BILL #: A.

ASSEMBLY SPONSOR (S):

TITLE: Homeless Land Reservation. The homeless will own the land in common by deed, using a non-profit corp. Each reservation will be between one and four soccer fields in size, one for each county, determined by the catchments of area population.

PURPOSE: To preserve the lives of homeless people from untimely, unnecessary un-required death and for the accrument of resources in order to survive the elements.

SUMMARY OF PROVISIONS: Each county in N.Y.S. shall have one homeless land reservation wih administrative codes suspended (not void), in order to preserve life, and to re-organize lives with direction, hope and community. The State will not mandate persons to Homeless Land Reservations (HLR).

EXISTING LAW: There is none.

JUSTIFICATION: HLR's are intended to ease the burden of eminent death, human suffering and social detachment.

LEGISLATIVE HISTORY: There is none.

FISCAL IMPLICATIONS: The State will not provide money or resources. The State will only apportion land. The homeless must pay a tax to N.Y.S., an amount in proportion to their income.

LOCAL FISCAL IMPLICATIONS: Locations must not affect the public visually or socially. Land near a county dump, close to a bus stop, is recommended.

EFFECTIVE DATE:

INTRODUCTION

1. Due to worldwide overpopulation, it may be reasonable to presume, that from here on; the human population will always exceed the number of buildings that house people.
2. The number of people in need of vacancies will always be larger than the total number of vacancies.
3. Overpopulation is compounded by enclosure of the land," saying," the people may not use the land to erect shelter because the land is in enclosure.
4. Any person that erects shelter on enclosed land is in violation of the law.
5. Enclosure of the land provided labor to industrial cities since 1634, as a constant economic institution, by forcing people off of the land into the cities to run machines.
6. The industrial revolution is over in the western world.
7. People have now been replaced by machines and have been forced into technological unemployment; or cannot meet the demands of highly specialized forms of modern employment.
8. Large populations of American People have been displaced and exist on the land in violation of the law.
9. 13 million American Families are in default of mortgage and may soon spill out onto the land.
10. Not one square foot of land has been dedicated to help displaced and homeless persons and families, yet they all exist on the land.
11. If homeless un-housed people exist on the land then it is the responsibility of society to organize this basic fact of life.
12. The land is our largest sustainable asset and an operational plan is offered here, in two forms.
13. The Municipal Model.
14. The National Model.

THE NATIONAL MODEL

The national model would be a 21st century economic institution and a civil defense system for homeless people; intended to balance enclosure with to day reality. Each county of the United States would have one homeless land reservation owned by homeless people in common. The State will not mandate persons to land reservations. Homeless families and individuals could then cross the America Grid, in search of economic opportunity and would not be considered trespassers in their own country. Each small reservation may or may not evolve into an economic development; a new small town or new village or hamlet. In this manner we attempt to re-homestead our people. About 2,500 county reservations in the United States, will have the potential to evolve into 2,500 new towns. The supplies will follow the people. Jobs would be created for craftsmen as reservations become towns. (if the model works.) County homeless reservations should be within reach of county dumps to exploit recycled materials. Our Nation began with tents and lean-to's and fire pits which became village's towns and cities.

County reservations should be mandated by Federal Law. Municipal reservations should be made by free choice of the various Municipalities.

THE MUNICIPAL MODEL

Each municipality is free to convert municipal land to private ownership for economic development, (Kelo V. City of New London Ct.) In Woodstock, N.Y. we have petitioned the town board on behalf of homeless American Veterans; asking for one acre of land to be owned by 25 veterans, living in twenty five tents, with one garden. If the Woodstock homeless land ownership social experiment works; it can then be evaluated by the New York State Legislature. At interview with former, New York State Senator, Cecilia Thactyk. The former Senator said, "a model at the local level would be required foundation for the State legislature to consider state wide county homeless reservations. If homeless land ownership social experiment succeeds in Woodstock, or elsewhere in Ulster County; then it can be emulated by any municipality in the United States, as a national civil defense system for homeless American Veterans. Some part of a homeless population of 115 thousand American Veterans can be served by humanity, to make better the circumstances of their lives.

CONCLUSION

1. Being forced to live without shelter causes the natural consequence of un-natural death.
2. The national policy of the United States, in regard to homeless people is passive euthanasia.
3. It is time to use our land to help our people survive.
4. Thank you for your kind consideration of this life and death matter.

KENNETH CHURCHILL
