Good evening city commissioners, mayor, vice mayor, staff members and audience. I am an owner in the Seasons Condominium. Thank you so much for listening to my request. My neighbors and I are extremely concerned that you are considering the construction of the Vintro Hotel in an area already overwhelmed by delivery trucks and tractor trailers blocking lanes and making noise during day and night and exposing pedestrians and drivers to major injuries, not to mention the dimensions: 100 x 120 foot!!

Currently my neighbors and I can not sleep due to the noise by delivery trucks in Seville Street.

Right now we have major parking problems in the area. I can not imagine what will happen in the future.

- I am in shock of the tactic to have Mr. Trantalis. My apologies to you.

- Pedestrians will be at more risk at all times. Responsible growth is one thing, but to approve the construction of the Vintro Hotel at the expense of the well-being and health of residents and visitors of our beloved City of Fort Lauderdale is a non-sense. Please remember this was rejected by your Planning and Zoning Commission. I witnessed the voting recommendation. As law abiding residents and voters of Fort Lauderdale, my neighbors and I will watch your decision very carefully. I am respectfully requesting that you vote no to approve the construction of the Vintro Hotel. Thank you. God Bless the City of Fort Lauderdale.
