### Problem Identification

Operation Trend Buster 2 will provide the Fort Lauderdale Police Department (FLPD) the opportunity to build upon the foundation already set in place by our current program, Operation Trend Buster. Trend Buster 2 will give us the option to tactically adjust our effort to combat the ever changing and emerging trends related to increased usage of marijuana by middle and high school students as well as the sale/consumption of alcohol based energy drinks. In addition, Trend Buster 2 will transition from tobacco based compliance checks, to a component that will counter/address the emerging retail "Black Market" sale of synthetic cannabinoid substances such as "K2" and "Spice". Packaged similarly to marijuana and smoked, synthetic cannabinoid mimics the look and side effects of marijuana and is an illegal substance.

As documented within the April 2011 Broward Report, presented by James N. Hall of the South Florida Drug Observatory, NSU, there is a continuing increase in the use of marijuana by Broward County middle and high school students. The report cited a 2010 student survey on marijuana use in which 4.3% of middle school students and 15.3% of high school students admitted to current use (past 30-days). This trend among both age groups in Broward County has seen a steady increase since 2006 and mirrors that of a national trend which shows increased marijuana usage by these same age groups. The survey also noted that students within these age groups were more likely to have smoked marijuana in the previous 30-days than smoked cigarettes during the same time frame. A 2012 Broward Briefing (Volume V, Issue 6) by the Center for the Study and Prevention of Substance Abuse, revealed that marijuana surpassed alcohol in the number of juvenile criminal drug charges and addiction treatment admissions for Broward County. From July 2010 to June 2011, there were 1,112 juvenile criminal charges for marijuana offenses or 72% of the total alcohol and drug charges for those under 18 years of age. Marijuana also outnumbered all other substances as the primary drug for publicly-funded addiction treatment admissions for both adults and youth in Broward County during the first six months of 2011. Youth under 18 years of age accounted for 399 marijuana primary admissions or 61% of the 650 marijuana cases for all ages during the survey period.

Alcohol use by Broward County middle and high school students has been trending slightly downward, however the 2010 Youth Substance Abuse Survey noted that alcohol still remains the most commonly used drug among Broward County students (with overall prevalence rates of 52.0% for lifetime use and 25.9% for past 30-day use). Although not listed within the above-mentioned trend reports, the most current emerging trend related to alcohol abuse by underage persons is believed to be linked to the retail market's flavored energy drinks containing caffeine and a high volume of alcohol. These products are packaged in colorful cans and are sold in multiple fruit flavors. In addition to high levels of caffeine and taurine, each 23.5 oz can contains 12% alcohol which is equal to about three beers. These ingredients, when combined, can increase heart rate and blood pressure and may come with serious health risks. The

## Section 2: Project Overview

marketing strategies being utilized to sell these alcoholic energy drinks are cans packaged with vibrant colors and snazzy lettering to appeal to younger consumers. The alcohol percentage is often hidden in the fine print. Retail sellers often mistake these products identified as: Four Loko, Four Maxed, Spikes & Joose, as non-alcoholic energy drinks and sell them to minors without realizing that they are in fact products containing alcohol. According to a Wake Forest University School of Medicine study published in 2010, college students who mix alcohol with caffeine are more likely to suffer alcohol-related injuries than students who drink alcohol only. The study also reports that mixing alcohol with energy drinks encourages binge drinking.

Additionally, the economic burden resulting from underage substance abuse, placed upon the residence of Broward County and the State of Florida is staggering in both dollars and negative societal issues. Although limited to underage alcohol use, a trend report from the July 2009 Florida Substance Abuse Epidemiology Workgroup, found that underage drinking is a persistent public health problem that continues to generate significant costs to society from alcohol-related consequences such as: criminal activity/behavior, anti-social behavior, academic difficulties, risky sexual behavior, health problems, unintentional injuries, and traffic crashes. Florida faces a particularly tough challenge in this regard as Florida youth have higher than the national average rates of alcohol use. This same report also quantified the overall financial burden the underage drinking trend has placed on the State of Florida. The most recent analysis of information from a 2009 report titled "Economic Costs of Underage Drinking in Florida" showed that the total estimated cost of underage drinking in the State of Florida was \$3.073 billion. This state-wide total translates into an approximate cost of:

\$165 per Florida resident  
\$627 per youth under the age of 21  
\$1,818 per youth 14-20 years of age

These costs were the result of approximately 180 youth deaths and 71,602 injuries combined with other events directly attributed to underage alcohol use. The highest percentage of dollar costs were related to motor vehicle crashes at \$642.7 million, followed by \$316.3 million for property crimes. The geographical distribution of the costs of underage drinking provides information on the areas in the state in where the consequences are most highly concentrated. Six counties accounted for more than half of the total estimated cost in Florida. These counties are: Miami-Dade, Broward, Orange, Palm Beach, Hillsborough and Duval. The economic costs to Broward County alone, from the above-listed totals, amounted to \$258,700,000\* (\*2007 dollars). Statistics such as these substantiate the need to enhance/develop enforcement and training based components within Trend Buster 2 that address not only alcohol, but the use and availability of marijuana and synthetic cannabinoids that are made available to underage persons.

As part of Broward County, the City of Fort Lauderdale is striving to create an environment that discourages the use and availability of alcohol and illegal substances to underage persons. To that extent, the FLPD has retained Detective Spodnick as a reserve Police Officer, assigned to the Special Investigations Division with full arrest powers. He is tasked with developing and implementing responses to ongoing and newly identified underage substance abuse trends within the City. Resources required to maintain this proactive approach and address those emerging trends are very limited. Budget

## Section 2: Project Overview

reductions and competing initiatives continue to impact the FLPD's ability to fund projects such as this.

### Project Summary (Scope of Work)

Operation Trend Buster 2 will implement an enforcement based, comprehensive strategy to: (1) combat purchase and possession of marijuana adjacent to middle and high schools; (2) address the retail sale/delivery of illegal synthetic cannabinoid products; and, (3) address emerging trends related to caffeinated energy drinks containing alcohol that are being sold to underage persons.

The outcomes by the end of the project are:

- 1) the middle/high school surveillance operations will result in a cumulative total of 30 arrests;
- 2) 80% of clerks will have increased their knowledge of identifying false or altered forms of identification;
- 3) 90% of targeted alcohol retailers / vendors will be found in compliance as measured by compliance checks;
- 4) 60% of informational flyers will remain posted in targeted vendor locations.

In order to accomplish the above, a multi-faceted approach will be utilized that includes vendor awareness programs, enforcement-based undercover compliance checks and marijuana sale(s) surveillance operations. The compliance check operations will target the retail vendors who are making energy drinks that contain alcohol available for sale to persons under twenty-one years of age and investigation of vendors who sell illegal cannabinoid products.

The vendor awareness component will begin with hand-delivered letters to 120 selected alcohol retailers by December 1, 2012. These letters will inform the vendors of pending underage alcohol compliance checks and the need for compliance on their part. Additionally, these letters will contain the address for the FLPD's web page and associated links that will enable visitors to obtain up to date information regarding underage substance abuse, related emerging trends, contact information for reporting suspected alcohol/tobacco violations and links to the Drug Free Broward web site. A survey will be formulated and administered to the same vendors to assess their knowledge/store policy on the type, if any, of vendor awareness training provided to employees by the business at the time of employment. A post-survey letter will be administered to the vendors found to be lacking basic knowledge or tools to assist with identifying potential underage customers, including corrective suggestions to the recipient vendors.

Vendors will be asked to post a FLPD developed flyer which will inform store clerks and patrons of the illegality of the sale/purchase of alcohol containing energy drinks by minors. Two (2) informational ads/press releases will also run in the City's largest newspaper, the South Florida Sun Sentinel, informing all vendors about compliance with underage tobacco and drinking laws and contain a link to the FLPD's web page. The advertisements will run on strategic dates throughout the year.

The primary emphasis of Trend Buster 2 will be directed toward abating emerging trends associated with underage substance abuse. One such identifiable trend is the purchase/use of caffeinated energy drinks containing alcohol. These products, similarly

# Application for Funding Assistance

Florida Department of Law Enforcement  
Justice Assistance Grant - County-wide

packaged to the non-alcohol energy drink, are most often sold by retail vendors without age verification of the purchaser. Operation Trend Buster 2 will utilize the services of investigative aides to assist with investigating these alcohol violations. These "investigative aides" will be utilized during the undercover compliance checks at retail alcohol selling locations throughout the City. A total of ten (10) alcohol compliance checks will be conducted in each of the City's three police districts every quarter, for a total of thirty (30) checks per quarter. This will yield a total of 120 checks during the grant period. It is estimated that about 96 hours of overtime and 48 reserve rate hours will be required to conduct these checks.

Trend Buster 2 will also focus on the "underground/black market" selling of illegal synthetic cannabinoid products. These products are suspected of being sold at non-chain retail convenience store/gas station type locations within the City. Investigative aides will assist with identifying the retail locations who sell these illegal products. It is anticipated that the same number of synthetic cannabinoid checks will be conducted as alcohol compliance checks noted above.

The compliance checks listed above have multiple functions. The first is compliance through enforcement. The second function is to recognize those vendors who are continually compliant with the underage laws. This recognition will be done in the form of a framed certificate presented to the alcohol retailers who are found compliant during the undercover checks. It is anticipated that about 105 certificates will be distributed by the Special Investigations Division.

Trend Buster 2 will afford the opportunity to enhance our ongoing efforts under Operation Trend Buster to address the continued increasing trend of marijuana usage by middle and high school students. Operation Trend Buster provided for a total of twenty-four (24) surveillance/enforcement operations during its grant period. That operational amount limited the number of schools selected for the surveillance/enforcement operations. Trend Buster 2 will allow for an increase in the number of surveillance/enforcement operations to a total of thirty-six (36) for the duration of the grant period which is a 50% increase in operations.

As part of this component, marijuana purchase/sale surveillances will be conducted at locations that have been identified as off-campus student gathering locations adjacent to the respective middle or high school. The City has over ten (10) middle and high schools within its geographical boundaries. Surveillance teams will consist of three (3) officers, in unmarked police vehicles, will monitor the gatherings and attempt to identify any seller/supplier of illegal drugs at the locations. The surveillance team, based upon the observed activity, will make the determination to either take immediate action or, if warranted, seek to identify the supply source location of the illegal substance and disrupt the supply chain at its source. The surveillance operations are fluid and require adaptive changes by the surveillance teams based upon the facts and events as they transpire. It is anticipated that there will be three (3) separate marijuana surveillance/enforcement operations each month, with nine (9) operations taking place per quarter. This will yield thirty-six (36) surveillance operations during the course of the grant. It is estimated that 288 hours of overtime and 144 reserve rate hours will be required to conduct this component.

Trend Buster 2 will also target three specifically identified underage alcohol party sites within the City. The first "site" is the Riverfront Entertainment Complex. This area has the largest concentration of alcohol-serving establishments within Fort Lauderdale and is a

# Application for Funding Assistance

Florida Department of Law Enforcement  
Justice Assistance Grant - County-wide

known gathering place for minors during nighttime hours. The second site is Fort Lauderdale Beach during the Spring Break period. This multi-week event draws thousands of college students from around the country as well as local school students.

The third "site" involves monitoring underground parties that are being advertised on the website "facebook.com" and on high school Internet web blogs. These websites specifically invite underage peers to local parties at public and private venues where they can consume large amounts of alcohol. The officers who will be responsible for conducting the enforcement actions and the compliance checks have experience and training with conducting such operations. In fact, the lead officer who will be assigned to administer Operation Trend Buster 2, if funded, has more than thirty-one (31) years of experience in enforcing the underage drinking laws in Fort Lauderdale.

Emergency communications activities include the purchase of Interoperable Communications Equipment and technologies such as voice-over-internet protocol bridging or gateway devices, or equipment to support the build out of wireless broadband networks in the 700 MHz public safety band under the Federal Communications Commission (FCC) Waiver Order. SAFECOM guidance can be found at [www.safecomprogram.gov/library/lists/library/DispForm.aspx?ID=334](http://www.safecomprogram.gov/library/lists/library/DispForm.aspx?ID=334).

Subgrant recipients Grantees interested in developing a public safety broadband network in the 700 MHz band in their jurisdictions must adhere to the technical standards set forth in the FCC Waiver Order, or any succeeding FCC orders, rules, or regulations pertaining to broadband operations in the 700 MHz public safety band. The subgrant recipient shall also ensure projects support the Statewide Communication Interoperability Plan (SCIP) and are fully coordinated with the full-time Statewide Interoperability Coordinator (SWIC). If any future regulatory requirement (from the FCC or other governmental entity) results in a material technical or financial change in the project, the recipient should submit associated documentation, and other material, as applicable, for review by the SWIC to ensure coordination. Subgrant recipients must provide a listing of all communications equipment purchased with grant award funding (plus the quantity purchased of each item) to FDLE once items are procured during any periodic programmatic progress reports.

**67. Bulletproof Vests**

Subgrant recipients that wish to purchase vests with JAG funds **must certify** that law enforcement agencies receiving vests have a written "mandatory wear" policy in effect. This policy must be in place for at least all uniformed officers before funding can be used by the agency for vests. There are no requirements regarding the nature of the policy other than it being a mandatory wear policy for all uniformed officers while on duty. FAQs related to the mandatory wear policy and certifications can be found at [www.bja.gov/Funding/JAGFAQ.pdf](http://www.bja.gov/Funding/JAGFAQ.pdf).

JAG funds may be used to purchase bulletproof vests for an agency, but may not be used as the 50% match for purposes of the Bulletproof Vest Partnership (BVP) program.

Bulletproof vests purchased with JAG funds may be purchased at any threat level, make, or model from any distributor or manufacturer, as long as the vests have been tested and found to comply with applicable National Institute of Justice ballistic or stab standards. In addition, bulletproof vests purchased must be American-made. The latest NIJ standard information can be found at: [www.nij.gov/topics/technology/body-armor/safety-initiative.htm](http://www.nij.gov/topics/technology/body-armor/safety-initiative.htm).

**68. BJA or FDLE Sponsored Events**

The subgrant recipient agrees to participate in BJA- or FDLE-sponsored training events, technical assistance events, or conference held by FDLE or BJA or their designees, upon FDLE's or BJA's request.

**69. Expenses Related to Conferences, Meetings, Trainings, and Other Events**

The subgrant recipient agrees to comply with all applicable laws, regulations, policies, and guidance (including specific cost limits, prior approval and reporting requirements, where applicable) governing the use of federal funds for expenses related to conferences, meetings, trainings, and other events, including the provision of food and/or beverages at such events, and costs of attendance at such events. Information on pertinent laws, regulations, policies, and guidance is available at [www.ojp.gov/funding/confcost.htm](http://www.ojp.gov/funding/confcost.htm).
