RE: Sole Source Designation—Thomson Reuters Westlaw Edge

Dear Mr. Bangel:

Thomson Reuters is pleased to provide you with information concerning Westlaw. The purpose of this letter is to confirm that Thomson Reuters is the sole source provider for the exclusive content, features, and services listed herein.

West Publishing Corporation, a Thomson Reuters business, is the foremost provider of integrated information solutions to the U.S. legal market and has been providing research materials to the legal and professional community for more than 145 years.

Our newest offering, Westlaw Edge, provides the next generation of legal search, the most advanced citator service, the easiest way to see statutory changes, and integrated litigation analytics, all powered by state-of-the-art artificial intelligence and built upon more than 100 years of editorial enhancements.

Westlaw Edge provides access to the following exclusive features:

- **Quick Check** – Upload up to six documents and Quick Check will produce a report that includes recommendations for highly relevant authority that was not cited, a list of cited authority from within the document(s), and a side-by-side comparison between case quotes and the cited case language on Westlaw Edge.
- **WestSearch Plus**—Find immediate answers to thousands of types of legal questions and dynamically filter your results to only the most relevant resources. Only WestSearch Plus has sophisticated typeahead functionality that produces suggested questions across thousands of legal topics. Westlaw Edge is the only legal research solution that includes a legal search engine built upon editorial assets such as the West Key Number System, Westlaw Headnotes, Notes of Decisions and more to presents responsive text at the top of a result list rather than simply presenting a list with highlighted search terms.

- **KeyCite Overruling Risk**—Instantly know whether a case contains an implicitly invalidated statement of law. Westlaw Edge is the only legal research solution that includes warnings on implicitly overruled or abrogated cases even where the case does not cite to overruled authority. Westlaw Edge leverages state-of-the-art artificial intelligence, built upon more than 100 years of editorial enhancements, to provide significantly more accurate warnings.
- **Compare Capabilities**—Quickly understand how a statute or regulation has changed over time to easily see the most recent changes and compare any two versions instantly. Statutes Compare provides coverage for all statutory content with versions. In addition, Regulations Compare provides coverage for federal regulations as well as state regulations in 43 states plus District of Columbia. Users can download, print, or email the comparison. No other legal research solution provides this statutes compare functionality where a statute has been amended more than once in a single year. Also, only Compare Text enables you to compare text across many different content sets.
- **Litigation Analytics**—View detailed data-driven insights on judges, courts, attorneys, law firms, and case types across most practice areas to develop the best case strategy possible. Superior granularity to filter results by 28 different motion types and even more subtypes, as well as our exclusive, customizable “search within” option to enter your own filter within a filter. Litigation Analytics on Westlaw Edge provides more docket coverage, both federal and state, than any other provider, for the most reliable and targeted insights.

Westlaw also provides legal researchers with access to exclusive resources, proprietary tools, and technology that no other research provider can offer, including:

- **Authoritative content**—With the most trusted primary law resources and leading analytical titles that are cited most often in court—all in one place and always available—researchers have access to all of the relevant information they need to answer a legal question.
- **Attorney-editor enhancements**—For more than a century, our attorney-editors have been analyzing, summarizing, and classifying the law. By developing proprietary innovations like the West Key Number System, KeyCite, headnotes, and Notes of Decisions, we make the content better organized and connected so it’s easier for researchers to find accurate answers quickly.
- **Industry-defining technology**—Our research innovations, such as WestSearch, the award-winning mobile app, Folder Analysis, Research Recommendations, Law Summaries, and Graphical Statutes connect content and our proprietary analysis of the law in unparalleled ways so that legal professionals can conduct research faster and with more accuracy. Advanced, yet intuitive, easy-to-use functionality also helps researchers be more efficient.

EXCLUSIVE CONTENT

- **ALR/AMJUR/CJS**—Authoritative Case Law Annotations, Legal Encyclopedia, and Contemporary Statement of American Law only available on Westlaw to Law Offices with less than 10 attorneys.
- **Complete Florida Jurisprudence with Indexes**
- **Reuters Legal News**
- **Trawicks Florida Practice and Procedure**
- **West’s Florida Practice Series**
- **McQuillin’s The Law of Municipal Corporations**

- **Municipal Legal Forms**
- **West Key Number System**—The West Key Number System is the master classification system of U.S. law and is widely regarded as the cornerstone of effective legal research. It helps users to quickly locate and identify cases with the same or similar legal concepts in any jurisdiction in the U.S.
- **National Reporter System**—Since 1879, West’s National Reporter System has compiled and organized federal and state case law into a cohesive body of law that can be researched within and across jurisdictions. West’s National Reporter System is available exclusively on Westlaw.
- **Editorial Enhancements**—For more than a century, West attorney-editors have been providing editorial enhancements to case law, statutes, and other legal materials, which includes providing the most exhaustive verification and correction process in the legal publishing and information industry. No other research service can match West’s editorial experience.
- **PastStat Locator**— With PastStat Locator, users can view prior versions of sections in USCA, as well as prior versions of statutes for select states. In all jurisdictions, PastStat Locator can rebuild the Table of Contents and show how it existed on a particular date. It can also identify when a statute or amendment has a future activation date, or when a statute or amendment is due to lapse.
- **Graphical Statutes/Interactive Timeline**— Graphical Statutes revolutionizes statute research by charting legislative changes and linking related documents in an easy-to-read display. From a single screen, researchers can easily track changes in the law, locate relevant legislative history materials, read important case law, and check for possible amendments. Graphical Statutes is available for USCA and the statutes for select states.

EXCLUSIVE FEATURES AND SERVICES

- **WestSearch**—WestSearch, a search engine designed specifically for law, incorporates over 140 years of proprietary analysis of the law and exclusive tools such as key numbers, KeyCite, headnotes, notes of decisions, indexes, and secondary sources to deliver relevant documents.
- **Law Summaries**—Westlaw provides specific answers to common types of legal questions by including elements of a cause of action, statutes of limitations and judicially defined terms. Users can click on links to authoritative court decisions and view questions appearing in a type-ahead display, with the answers appearing above the search results.
- **Concurring and Dissenting Opinion Shading**—Instantly know if your search language is in the cases’ main opinion, or rather in the concurrence or dissent.
- **Procedural Posture**—Our attorney editors identify the procedural motions, requests, and objections made in a case, along with the appellate posture of the case, if any.
- **Research Recommendations**—Based upon documents the user has interacted with during their session, Westlaw will recommend additional primary and secondary law as well as Key Numbers.
- **Snapshots**—Westlaw gives snapshots of companies, legal professionals, and popular statutes.
- **Folder Analysis**—Westlaw makes suggestions, identifying the legal issues present through automatic analysis of cases and statutes in a folder. Users can view additional recommended cases and statutes, see a visual representation of issues, and navigate documents by issue.
- **Research Report**— Westlaw assembles professional reports, summarizing research in users’ folders. Users can navigate reports with Table of Contents links, display all notations (including shared notes), and edit notes from the summary screen.

- **Visual Indicators**—Westlaw helps researchers easily determine when they've already viewed or worked with a document. Icons for Already Viewed, Folders, and Notes help researchers to avoid retracing their steps.

Thomson Reuters provides the intelligence, technology, and human expertise you need to find trusted answers in less time. I would be happy to further discuss Westlaw's capabilities with you. If you have any questions concerning this document or require additional information, please do not hesitate to contact me.

Sincerely,

Matt Burch
