RE: RFQ # 946-11366 – A Continuing Contract for Structural Engineering Services

Dear Mr. Archey,

Lakdas/Yohalem Engineering, Inc. is pleased to present this Request for Letter of Interest to offer our structural engineering services to the City of Fort Lauderdale.

Lakdas/Yohalem Engineering, Inc has been practicing structural, marine, and bridge engineering services for many state, county and city agencies in support of high visible and miscellaneous public projects, for the last 44 years in Fort Lauderdale Florida. We have performed similar structural engineering services for various public entities such as:

Services:

- A. New and Renovation of Building Structures: Fire Stations, Community Centers, Libraries, Police Stations, Public Works Maintenance Facilities, and Operational Complexes.
- B. Park Facilities such as Meeting Rooms, Picnic Shelters, Restroom Facilities, Corporate Picnic Pavilions, Beach Lifeguard and Rescue Facilities.
- C. Marinas, Seawalls and Fishing Piers
- D. Highway and Pedestrian Bridges, Culvert structures
- E. 40 Year Certification of existing facilities
- F. Re-roofing, Condition Survey and Design for New Roof Systems
- G. Threshold and Special Inspection services for building and special structures during construction
- H. Structural Condition Surveys of building structures prior to city acquiring
- I. Condition Survey and Renovations of Existing Utility Structures
- J. Value Engineering and Constructability Reviews of Projects Designed by other Consultants
- K. Wind Mitigation of existing building facilities
- L. Hurricane hardening of existing facilities
- M. C.R.A., residential buildings to comply building code requirement

Entities:

- City of Fort Lauderdale
- City of Hollywood
- City of Tamarac
- Four Dept. of Broward County
- City of Lauderhill
- City of Pompano Beach

Lakdas/Yohalem Engineering, Inc. (L.Y.E) is a **certified masonry and threshold inspection engineering firm**. Additionally, we have three professional engineers, three graduate engineers, four certified threshold inspectors, and two AutoCAD operators, in order to effectively handle the conditions surveying, design, and construction phase engineering services, for this contract.

L.Y.E is a Minority Business certified by Broward County School Board and by the State of Florida and CBE firm by Broward County.

Our office and team members Tierra of South Florida, Inc office's are situated less than 7 miles from the City Complex in the City of Fort Lauderdale. LYE has up to date state of the art software with B.I.M. (Revit and Auto Cad) system to provide efficient and detail oriented engineering services, with well experienced technical staff of who are professional engineers as well as with general contractors back ground with extensive experience in South Florida with in-depth knowledge of Florida building code with Broward County requirement.

L.Y.E has performed similar requested structural engineering services in the past for the City of Fort Lauderdale.

We will assure you that Lakdas/Yohalem Engineering, Inc.'s Team will provide you with a good standard of structural, and marine engineering services for the City of Fort Lauderdale, within the established budget, and in a timely manner.

Sincerely,

Lakdas Nanayakkara P.E.

(3) BRIEF DESCRIPTION *(Brief scope, size, cost, etc.)* AND SPECIFIC ROLE Check if project performed with current firm

Project:
Repair and replacement of existing roofing system of 11 buildings at Port Everglades.

Description:
Soon after hurricane Wilma in October 2005, Broward County requested Lakdas/Yohalem Engineering to evaluate the extent of the damage and roof soundness of each building and make recommendations for each building, total of 11 buildings. Establish a construction budget for replacement and repair of each roof. Resulting in roof replacement of a total of 11 buildings. Several roofing systems were considered. The final was a built-up roofing system with torch-down system, since each building is in operation during the entire construction period.

Cost: \$6,700,000.

Scope: Prime consultant design of the entire project and provide full time inspection services during roof replacement of each building.

|--|

Description: The existing pier in Pompano Beach was built with pre-cast concrete driven piles poured in place, concrete bent beams and pre-stress concrete deck slab span between bends leaving 3'-0 wide wood deck between pre-stress concrete deck.

Size: The 684' long 14' wide pier had been repaired a number of times. Lakdas/Yohalem Engineering, Inc. provided engineering services for the restaurant addition, new observation tower addition and major restoration work in 1989.

Cost: \$2 million

Scope: Structural evaluation of the existing pier, preparation of construction documents, design and construction observation. Compiled a structural survey of the pier and complete life cycle cost analysis for restoration against replacement. A structural survey was completed in 2000 and a 2nd phase of construction document preparation was completed in 2001. Restoration work was successfully completed in 2002.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost.)

Project:

Repair and replacement of existing roofing system of 11 buildings at Port Everglades.

Description:

Soon after hurricane Wilma in October 2005, Broward County requested Lakdas/Yohalem Engineering to evaluate the extent of the damage and roof soundness of each building and make recommendations for each building, total of 11 buildings. Establish a construction budget for replacement and repair of each roof. Resulting in roof replacement of a total of 11 buildings. Several roofing systems were considered. The final was a built-up roofing system with torch-down system, since each building is in operation during the entire construction period.

Cost: \$6,700,000.

Scope:

Prime consultant design of the entire project and provide full time inspection services during roof replacement of each building.

H. ADDITIONAL INFORMATION

30. PROVIDE ANY ADDITIONAL INFORMATION REQUESTED BY THE AGENCY. ATTACH ADDITIONAL SHEETS AS NEEDED.

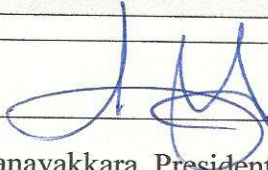

LAKDAS/YOHALEM ENGINEERING, INC., (LYE) is a Structural Engineering firm, which was established in Florida in the late 1960's as Yohalem Engineering, Inc.

1. The firm offers a variety of Structural Engineering services, specializing in commercial, institutional and marina facilities, water and wastewater treatment facilities, water control structures and bridges. The firm also has completed numerous city complexes and participated as City Consultant and Special Inspector for construction design.
2. **Structural Engineering:** Prepare Drawings, Specifications and Contract Documents to satisfy the engineering requirements for commercial, educational, institutional and residential buildings, parks and recreational facilities, city complexes, water and wastewater treatment facilities, water control structures, pumpstations , pipelines and bridges.
3. **Construction Observation/Inspection:** Provide Threshold and Special Inspection and Observations of civil and structural systems under construction.
Mr. Nanayakkara is a Uniform Building Code Inspector certified by the Florida Department of Education. Special Inspector (Threshold Inspector) authorized by the Florida Concrete and Products Association.
4. **Value-Engineering:** Mr. Nanayakkara has participated in several multi-million dollar value-engineering and constructability review projects, design and construction of several projects within a specified budget, which resulted in substantial savings to the Owners.
5. **Small Business Enterprise:** Lakdas/Yohalem Engineering, Inc. is a Small Business certified in Broward, Dade and Palm Beach Counties and by the Florida Department of Management Services.
6. **Insurance:** The firm is fully insured and carries \$2,000,000 in Professional Liability Insurance.

The firm's commitment to success begins with a highly skilled design and construction inspection team. knowledgeable in all aspects of a project from start to finish. Throughout completion of a project, Lakdas/Yohalem, Inc. encourages continuous two-way communication between Owners, Clients and Contractors.

QUALIFICATIONS OF LAKDAS/YOHALEM ENGINEERING, INC.

Lakdas/Yohalem Engineering, Inc. (LYE) is a medium sized professional structural and civil engineering firm that has been in operation in South Florida since 1970 (Broward County). We have provided structural and civil engineering, design and inspection services on a number of high profile projects in the tri-counties, which includes city complexes, institutional buildings, residential properties, water treatment plants, waste water treatment plants, fire stations, police stations, school facilities, libraries, emergency power stations, parks, bridges, marinas, resorts, airports and petroleum facilities.

Our firm has completed over 4,500 projects with over 1800 commercial and public building projects during the past 40 years in the US and on several islands in the Caribbean Basin. We are State Certified Masonry and Threshold Inspectors. Lakdas/Yohalem Engineering, Inc. offers a variety of inspection and engineering services which include: threshold and site inspections, feasibility studies, design, condition survey of structures, restoration damage assessments, value engineering and constructability review.

SERVICES

Our Inspection and Engineering services have been primarily dedicated to:

Inspection

- Threshold and Special inspections services
- Re-roofing
- Constructability review
- Wind mitigation and hurricane hardening
- Life cycle cost analysis
- Value Engineering Services
- Independent damage assessment for insurance claims and settlements.
- 40 year certification of existing buildings for code compliance

Design Services

- New buildings, Marinas and Bridge structures
 - Addition to existing building structures
 - Renovations of existing Buildings, Marinas & Bridge structures
- Buildings:** Police Stations, Libraries, Fire Stations, Picnic Shelters, Maintenance Facilities, and City Complexes**

SIMILAR EXPERIENCE

Our staff has performed similar inspection services for the following entities in recent past:

- | | |
|----------------------------------|---|
| • Village of Bal Harbor | Extended arm of the building department services |
| • Broward County Port Everglades | Design and special Inspections for the past 12 years |
| • Broward County Airport | Design Inspection contract for 6 years (two 3 year terms) |
| • City of Lauderdale | Design and special Inspections |
| • City of Lauderdale Lakes | Design and special Inspections |
| • City of Hollywood | Design and special Inspections |
| • City of Pompano Beach | Design and special Inspections |

L.Y.E is **FDOT** Certified for Category 3.1 for Highway Design and 4.1 & 4.1.2 for Bridge Design services.

Lakdas Nanayakkara, including two of our staff members are professional Engineers as well as state certified general contractors who have in depth knowledge of design, inspection and constructability of building and engineering projects.

EDUCATION:

B.S. Civil Engineering
University of Tennessee, 1977

REGISTRATION:

Florida, Alabama, Kentucky
Special Inspector, **State of Florida #35416**

EXPERIENCE:

Feb. 1994 -
Present

Lakdas/Yohalem Engineering, Inc.

Civil Engineer - Senior Project Engineer

Providing: design, permitting and construction phase engineering services for land development projects, roadway improvements, buildings, bridges, marinas, storm drainage, major water and wastewater projects including water, sewer paving and grading.

Jan. 1985 -
Feb. 1994

City of Pompano, City Engineer

Served as chief design engineer for major water, wastewater, storm drainage and roadway projects. Prepared bids, contract documents and all regulatory submission; oversaw advertisement, bids, contract awards, and construction for major infrastructure projects. Services included resident engineering, change orders and claims negotiations, review and oversight of contractor's schedule and pay requests. Supervised 12 employees, including draftsmen, engineers and inspectors.

June 1979 -
Jan. 1985

Commonwealth of Kentucky, Engineer

Department of Natural Resources

Completed environmental studies for impacts to surface water and groundwater from coal mining. Prepared probable hydrological consequences reports for coal mining operations. Designed retention ponds for controlling runoff from coalmines.

Nov. 1977 -
April 1979

Mothercat, Nigeria, Africa

Supervisory Engineer

Supervised \$50 million annual highway construction program. Provided site development of oil fields prior to drilling. Supervised two engineers and four foremen.

MEMBERSHIPS: American Society of Civil Engineers

EDUCATION: **Post Graduate Diploma in Bridge Engineering**
University of Surrey, England - 1976
B.S. (Honors) Civil Engineering
University of the West Indies, St. Augustine, Trinidad -1971

REGISTRATION Professional Engineer in the State of Florida -1982 #32596
General Contractor in the State of Florida - 1984
Certified Threshold Inspector in the State of Florida -1985

SUMMARY OF EXPERIENCE Mr. Harris has over thirty five years of experience in the design, inspection and construction supervision of bridges, commercial, institutional and residential buildings, water plants, sewage treatment plants, mass transit stations and airport structures.

DETAILED WORK HISTORY

April '08 to Present **LAKDAS/YOHALEM ENGINEERING, INC.**
STRUCTURAL ENGINEERING

Responsibilities Responsible for the design and construction inspection of various structures including residential and commercial buildings, water tanks and sewage treatment plants, as well as supervision of drafting and review and approval of shop and placing drawings.

Apr'07 -Mar '08 **MIAMI-DADE BUILDING DEPARTMENT, Miami, Florida**
STRUCTURAL PLANS PROCESSOR

Responsibilities Providing structural review and approval of various residential and commercial projects in Dade County and meeting with various architects, engineers and owners in order to help resolve any discrepancies that the county found in their structural drawings.

Apr'93 -Apr '07 **MAURICE GRAY ASSOCIATES, INC., Miami, Florida**
STRUCTURAL ENGINEERING COORDINATOR with DADE AVIATION CONSULTANTS, providing Program Management of engineering, architecture, construction and other technical support services to the Dade County Aviation Department. The structures included: airport terminals, concourses, bridges, elevated roadways, cargo buildings, parking garages, vaults and other underground structures, control towers, chiller plants, tunnels, office buildings, hotels and automated people mover structures.

Responsibilities Provide technical expertise to the Planning and Programming Department.

Provide the design consultants with detailed program documents outlining the project scope and design parameters, and the guidelines and governing criteria for the provision of the design services. Provide Q/A reviews of the contract documents for conformance with the Miami-Dade Aviation Department's Design Guidelines, local building codes, FAA regulations,

pertinent engineering codes and good engineering practice. Provide technical expertise to the field staff and the office staff as required. Assist the owner in claim negotiations/construction dispute resolution. Develop and recommend for implementation; procedures, guidelines and forms for Quality Assurance during construction. Review calculations of the A/E or delegated engineer whenever necessary. Perform engineering analysis and design in supporting and assisting the Planning and Estimating departments.

Mar '92 - Jan '93

ACT SERVICES INC., Miami, Florida

PROJECT MANAGER ON THE ADDITION TO AND RENOVATION OF CAROL CITY MIDDLE SCHOOL

Responsibilities:

Management, coordination and supervision of all aspects of the project's construction.

July'85 -Feb'92

President, FITZ A. HARRIS ASSOCIATES, Fort Lauderdale, Florida

Operated Fitz A. Harris Associates, a Consulting Engineering firm.

Responsibilities included management and coordination of all the company's activities such as marketing, client interaction, design, coordination and construction administration of the firm's projects.

Projects included condominiums, office buildings, warehouses, malls, churches and sewage treatment plants. Work included engineering design, threshold building inspection as well as inspection on the Miami Downtown People Mover project (south loop).

Relevant Projects:

Building Projects

- ❖ 2 new stand alone multi-story parking garages
- ❖ 2 multi-story residential buildings with parking garages
- ❖ 2 multi-story commercial buildings with parking garages
- ❖ 3 high schools
- ❖ 2 multi-story hotels and resort projects
- ❖ 2 new fire stations, 2 police and public safety buildings
- ❖ 2 new community centers

Highway Pedestrian Bridge

- ❖ 2 high-way bridge expansion projects
- ❖ 2 passenger loading bridges

Park Facilities

- ❖ 2 park and amusement park facilities

Civil Engineering

- ❖ 2 pump stations, design and detail

EDUCATION

Florida Atlantic University
Bachelor in Architecture

RELATED EXPERIENCE

Skilled designer with strong graphic communication.
Capable to develop a project from conceptual to construction documents.
Ten years of experience in commercial, educational and municipal facilities.
Proficient with: AutoCAD, Architectural Desktop, Accurender, Lightscape, Archicad, and AutoDesk Inventor.
Excellent presentation and model making techniques

EMPLOYMENT

2008- Present **Lakdas / Yohalem Engineering, Inc.** Ft. Lauderdale, Florida
Project Manager
Develop Conceptual drawings and construction documents.

2007-2008 **Bermello- Ajamil & Partners,** Ft. Lauderdale, Florida
Project Designer
Develop schematic documents for:
D7 – D8, a mix use development. Dubai, UAE
7 Zones, a design center. Kuwait
Cruise terminal. South Carolina Port Authority

2005-2007 **The Tamara Peacock Company,** Ft. Lauderdale, Florida
Project Designer
Develop conceptual drawings and construction documents for:
The Village at Marina Mile, a mix use development.
Island Village, a 120 unit's hotel in Ft. Lauderdale
Miramar Christian Center, a 40,000 sq. ft. campus
The Atrium, 150,000 sq. ft. business center.

2002-2005 **Southeast Architects, Inc.** Plantation, Florida
Cad Manager-Job Captain
Develop conceptual drawings and construction documents for:
Salomon Media Center. a 300,000 sq. ft. film and TV studios
Riva Motorsport. A 20,000 sq. ft. Motorcycle retail facility

Certified Masonry Inspector

LAKDAS/YOHALEM ENGINEERING, INC.
CONSULTING ENGINEERS

Project Manager's Experience

Lakdas Nanayakkara, P.E. is the project manager for this project.

He has performed and is currently performing similar types of structural engineering services for a number of municipalities for the last 28 years in Fort Lauderdale, Florida.

Lakdas has been practicing structural engineering services for the last 32 years; also he is a State Certified General Contractor since 1987.

Lakdas has successfully managed to complete over 1800 miscellaneous and high visible structural engineering projects during the last 35 years.

Lakdas views the project as an engineer as well as a contractor. Especially, how to construct the specified project with details and specifications.

Also he views each project in value engineering, point of view to design the project to comply the building code requirement and within schedule and budget.

Lakdas' experience ranges from onsite structural condition survey, compiling reports, cost estimates, conceptual structural design, structural analysis, value engineering and site inspection during construction.

His experience has been recognized by a number of City and County Agencies including the City of Fort Lauderdale.

EDUCATION:

Post Graduate Diploma in Structural Engineering - 1981
Council of National Academic Awards
England, United Kingdom

Bachelor of Science Honors Degree in Civil Engineering
With Structural Engineer Major - 1978
Council of National Academic Awards
England, United Kingdom

Higher National Certificate in Civil Engineering - 1975
Hertfordshire College of Building
England, United Kingdom

PROFESSIONAL ENGINEER REGISTRATIONS:

- Chartered Structural Engineering
London, England – 1981
- Florida #037590
- South Dakota - 4058
- Minnesota - #17947
- Certified Structural Masonry Inspector – 1992
- Certified Threshold Inspector – 1987
- Certified General Contractor – CGC 044303
- Certified Uniform Building Code Inspector - 690

Structural Engineering Expert for Unsafe Structure Board – City of Margate since “ 2001”.

Structural expert witness services over 400 projects for Insurance companies over 60 projects failure analysis and Expert testimony for litigation representation.

EMPLOYMENT:

1987 to present Lakdas / Yohalem Engineering, Inc
Fort Lauderdale, FL 33308

Principal - in charge of structural design and final review of construction documents

1986 - 87 Yohalem Engineering, Inc.
Fort Lauderdale, FL 33308

Principal Associate - structural design, site supervision,
Structural Investigation and reports, liaise with Architects and General
Contractors.

1984- 86 Darg Palanasami and Associates, Inc.
Minneapolis, MN

Project Engineer - Structural design, site supervision, structural investigations and reports, liaise
with Architects and General Contractors

AWARDS:

- *Tamarac City Complex: National Award*
- *Aventura City Complex: State Award*
- *City of Pompano Waste Water Re-Use Facility: State Award*
- *Tamarac Pedestrian Bridge: State Award*
- *2011 Tilt-Up Achievement Award – Tilt-Up Concrete Association*

PATENT LICENSE TO INDUSTRY:

- *Metal stud frame system # US 6980 347 B2*
- *Interlocking masonry wall # US 6550 208 B2*
- *Light gauge metal frame # US 6163 674 B1*

EXPERIENCE:

Thirty-two years of practicing as a Professional Structural Engineer in the following disciplines: building structures, marine and bridge engineering structures for many state, county and city agencies in support of high visible and miscellaneous public projects.

Over 1200 projects were completed in South Florida and the Caribbean Basin during the last 24 years.

Building Projects:

- ❖ 8 new stand alone multi-story parking garages
- ❖ 11 multi-story residential buildings with parking garages
- ❖ 6 multi-story commercial buildings with parking garages
- ❖ 11 cruise terminal facilities
- ❖ 6 high schools, 8 middle schools and 14 elementary schools
- ❖ 11 community college building facilities, 6 special education facilities
- ❖ 18 multi-story hotels and resort projects
- ❖ Structural renovations of 11 parking garages, 21 condominiums
- ❖ 8 new libraries, 8 auditorium and amphitheater
- ❖ 14 new fire stations, 7 police and public safety buildings

Water and Waste Water Treatment and Solid Waste Treatment Plants:

- ❖ 12 water and waste water treatment plants expansion projects
- ❖ 6 solid waste treatment plant renovation and expansion projects
- ❖ 14 water and waste water treatment plant renovation projects

Marinas, Seawalls and Port Facilities:

- ❖ 7 Marinas (Over 100 Slips)
- ❖ 64 Residential, multi-residential, docks and seawalls
- ❖ 8 Toewalls, bulkhead and pier projects

Highway Pedestrian Bridges:

- ❖ 8 new highway bridges ❖ 11 pedestrian bridges ❖ 7 passenger loading bridges
- ❖ 16 high-way bridge expansion projects

Park Facilities:

- ❖ 8 park and amusement park facilities

Value Engineering:

Participated as structural expert for over 31 value-engineering sessions for both FDOT and County's major projects in building, bridges and water and wastewater treatment plants. Our Value-Engineering service has saved:

- Bridge projects over \$4.5 million
- Building projects, saved over \$4.1 million
- Water & Wastewater Treatment Plants, saved over \$4.6 million

Structural Failure Analysis and Expert Witness: Construction Related Litigation

- 12 Commercial projects ❖ 46 Residential projects

Professional Societies:

Institute of Structural Engineers, London, England
American Society of Civil Engineers, American Concrete Institute
Florida Institute of Consulting Engineers, The Masonry Society

Civic Organizations:

Member of Broward County Construction Executive Association
Member of Florida Consulting Engineers

LAKDAS/YOHALEM ENGINEERING, INC.
CONSULTING ENGINEERS

Approach to Scope of Work

Our approach for said projects would be as follows:

Our approach for structural and inspection for miscellaneous and City in house staff design building project would be:

Building Structures, Re-Roofing and Miscellaneous Structure Projects

- Immediate response to request of work, meet with City project manager and establish the criteria for the project, available documents including City project manager's program.
- Prepare fee proposal for our services
- Review the existing construction documents including survey, sounding and geotechnical information.
- Meet all related permitting agencies to establish permit criteria
- Prepare schematic design along with budget cost for City review
- Prepare 50% submittal drawings and compare with established budget
- Complete construction documents and review for code and all related agency permitting requirements and constructability review
- Assist in preparation of bid documents and permitting with project team members, City officials and contractors
- Submit signed and sealed documents to City for permit submittal
- Assist and reply to all comments during bidding
- Assist bid tabulation and select a contractor that meets all City bid document requirements
- Assist with all engineering services required during pre-construction phase, such as, product approval and shop drawing approval
- Provide construction observation during construction and approve contractor's monthly pay request, if necessary
- Final certification of the project including closeout of all related permits; local, state and federal agencies

Our approach for:

- Structural Condition Survey
 - Wind Mitigation
 - Forty Year Certification
-
- Immediate response to request of work, meet with City project manager and establish the criteria for the project, available documents including City project manager's program.
 - Prepare fee proposal for our services
 - Review the existing construction documents including survey, sounding and geotechnical information.
 - Meet all related permitting agencies to establish permit criteria
 - Onsite evaluation of the structure
 - Compile detail report with our findings and suggested corrective work
 - Prepare construction cost proposal for corrective work
 - Complete City agency form for 40 year certification
 - Submit for City review and approval

Business Certification

Lakdas/Yohalem Engineering, Inc.

Is certified under the provisions of
287 and 295.187, Florida Statutes for a period from:

08/30/2013 to 08/30/2015

A handwritten signature in black ink, appearing to read "John P. Miles", is written over a horizontal line.

John P. Miles, Secretary

Florida Department of Management Services
Office of Supplier Diversity

OFFICE OF ECONOMIC AND SMALL BUSINESS DEVELOPMENT

Governmental Center Annex
115 S. Andrews Avenue, Room A680 • Fort Lauderdale, Florida 33301

May 13, 2013

Mr. Lakdas Nanayakkara
LAKDAS/YOHALEM ENGINEERING, INC.
2211 NE 54th Street
Fort Lauderdale, Florida 33308

ANNIVERSARY DATE – Annually, on May 7th

Dear Mr. Nanayakkara:

Broward County is pleased to announce that **Lakdas/Yohalem Engineering, Inc.** has renewed its certification as a **Disadvantaged Business Enterprise [DBE]** in Florida, under a **Unified Certification Program [UCP]** in accordance with 49 CFR, PART 26.

DBE certification continues from your anniversary date, but is contingent upon Lakdas/Yohalem Engineering, Inc. renewing its eligibility annually through this office, Office of Economic and Small Business Development (OESBD). OESBD will notify you in advance of your obligation to provide continuing eligibility documents; however, to assure continued certification is your responsibility. Failure to continue your eligibility will result in immediate action to remove Lakdas/Yohalem Engineering, Inc. as a DBE.

As long as Lakdas/Yohalem Engineering, Inc. is listed in the DBE Directory, it is considered DBE Certified by all Florida UCP Members.

DBE Certification is subject to actions by governmental agencies impacting the disadvantaged status of Lakdas/Yohalem Engineering, Inc.

Lakdas/Yohalem Engineering, Inc. will be listed in Florida's **UCP DBE Directory** which can be accessed via the internet, at <https://www3.dot.state.fl.us/EqualOpportunityOffice/BizNet/mainmenu.asp> or through FDOT's website at www.dot.state.fl.us/equalopportunityoffice and by "clicking" on "BizNet DBE UCP Directory" in the center of the page.

Re: Lakdas/Yohalem Engineering, Inc.

May 13, 2013

DBE certification is **NOT** a guarantee of work, but enables Lakdas/Yohalem Engineering, Inc. to compete for, and perform, contract work on all USDOT Federal Aid (FAA, FTA and FHWA) projects in Florida as a DBE contractor, sub-contractor, consultant, and sub-consultant or material supplier.

If, at any time, there is a material change in Lakdas/Yohalem Engineering, Inc., including, but not limited to, ownership, officers, directors, scope of work being performed, daily operations, affiliations with other businesses or individuals or physical location of Lakdas/Yohalem Engineering, Inc., you must notify OESBD, in writing, without delay. Notification should include supporting documentation. You will receive acknowledgement and confirmation of continued eligibility, if applicable after notification of changes.

Lakdas/Yohalem Engineering, Inc. may compete for, and perform, work on all USDOT Federal Aid projects throughout Florida, receiving DBE credit for work performed in the following area:

NAICS: 541330 Engineering Services

Please feel free to contact OESBD for any questions or concerns pertaining to your DBE certification. Our telephone number is (954) 357-6400; our fax number is (954) 357-5674.

Sincerely,

Chris Atkinson, Assistant Director
Office of Economic and Small Business Development

Mr. Lakdas Nanayakkara
LAKDAS/YOHALEM ENGINEERING, INC.
2211 NE 54th Street
Fort Lauderdale, Florida 33308

Dear Mr. Nanayakkara:

The Broward County Office of Economic and Small Business Development (OESBD) is pleased to award your company certification as a **County Business Enterprise**. Your firm is now eligible to participate in the Office of Economic and Small Business Development programs.

Your CBE and SBE certification is continuous, but is contingent upon your firm verifying annually its eligibility in each of the two programs. Each year, on the anniversary of the date you were awarded certification, you must submit to the Office of Economic and Small Business Development a Personal Net Worth Worksheet, a copy of the previous year's Business Tax Return, copies of the current professional licenses, and County and local business tax receipts. As a courtesy, OESBD will notify you in advance of your obligation to provide the continuing eligibility documents. However, the responsibility to assure continued certification is yours.

To review current Broward County Government bid opportunities visit:
<http://www.broward.org/purchasing/currentsolicitations>. Bid opportunities over \$3,500 will be advertised to vendors via e-mail. Please keep both the Purchasing Division and the Office of Economic and Small Business Development apprised of your current e-mail address.

Your primary certification group is: **Architecture and Engineering Services**. This is also how your listing in our directory will read. You may access your firm's listing by visiting the Office of Economic and Small Business Development Directory, located on the internet at: https://www.broward.org/small_business. Click on "Small Business Directory".

Your firm may compete for, and perform work on Broward County projects in the following areas:

NAICS CODE: 541330, 541340, 541350, 541990

We look forward to working with you to achieve greater opportunities for your business through county procurement.

Sincerely,

Chris Atkinson, Assistant Director
Office of Economic and Small Business Development

Dear Mr. Nanayakkara:

The Florida Department of Transportation has reviewed your application for qualification package and determined that the data submitted is adequate to qualify your firm for the following types of work:

- Group 3 - Highway Design - Roadway
 - 3.1 - Minor Highway Design
- Group 4 - Highway Design - Bridges
 - 4.1 - Minor Bridge Design
 - 4.1.2 - Minor Bridge Design
- Group 10 - Construction Engineering Inspection
 - 10.1 - Roadway Construction Engineering Inspection

Your firm is now qualified to do work for the Department for minor projects only. This level of qualification allows consultants to compete for minor projects with fees estimated at below \$250,000.00.

Should you have any questions, please feel free to contact me at 850/4144485.

Sincerely,

Lorraine E. Odom

Thank you.

Tierra South Florida, Inc. (TSF) is a full service consulting geotechnical engineering, construction materials testing, and inspections firm with capabilities to provide test borings, engineering analyses and reports, AutoCAD and Microstation plan sheets, laboratory soils testing, and construction materials testing. TSF was incorporated in the State of Florida in 2003. Our professional team has been working together since 2000 and is committed to providing quality, responsive service establishing a reputation for sound approaches and professional competence in a wide range of technically demanding areas. Our services also include threshold/special inspection and roofing inspection services. TSF is a certified Disadvantaged Business Enterprise (DBE) and Small Business Enterprise (SBE) with the Florida Department of Transportation. TSF is also a certified Minority Business Enterprise (MBE) with the State of Florida's Office of Supplier Diversity and a certified Community Business Enterprise (CBE) by Broward County.

Our main office is located in West Palm Beach, Florida with operational satellite offices in Fort Lauderdale and Hialeah Gardens, Florida. Our staff includes principal engineers with more than 25 years of experience in geotechnical, construction, laboratory and field materials testing and inspection services. We feature Masters Degree level or higher educational background amongst our Registered Professional Engineers and maintain licenses in the State of Florida.

BASIC SERVICES

Geotechnical Engineering: TSF can provide a complete range of geotechnical engineering services. Our organization helps define the construction and long-term performance risks associated with subsurface conditions. Applications are for all types of buildings, airport facilities, transportation systems, landfills, dams, and other civil and private projects. TSF's geotechnical services include:

- Laboratory testing and analysis
- Subsurface exploration
- Site preparation recommendations
- Soil reinforcement
- Expert witness testimony
- Value engineering
- Pavement evaluations and design
- Deep and shallow foundation analysis and design
- Slope stability analysis
- Corridor studies
- Sinkhole studies

Construction Materials Testing: TSF offers materials engineering, testing and inspection services applicable to the governmental, construction and manufacturing industries. TSF will evaluate and then develop recommendations regarding both existing structures and new construction. During construction, monitoring and quality control services will cover every phase of construction and all materials used. TSF has a fully equipped laboratory and certified technicians that can provide a wide range of material testing and inspection services. Our capabilities with respect to soils, concrete, and asphalt have been approved by the Florida Department of Transportation (FDOT) and certified by Construction Material Engineering Council (CMEC). TSF's construction material testing and inspection services include:

- Soils/aggregates/concrete/masonry/asphalt
- Concrete testing and placement observation
- Asphalt paving monitoring
- MSE wall installation monitoring
- Drilled shaft installation monitoring
- Earthwork testing and observations
- Masonry, grout, and mortar sampling and testing
- Asphalt plant observations and monitoring
- Pre-stressed yard observations
- Pile driving installation monitoring

Building Inspection: TSF also provides building inspection services to public and private clients; our services include:

- Threshold/special inspections
- Roof installation observations
- Welding inspections
- Floor flatness testing
- Non-destructive testing
- Torque testing and inspections
- Fire proofing testing

CAPABILITIES AND EXPERIENCE

TSF's principals have served as geotechnical engineering consultants to a large variety of clients, both public and private, in the course of our experience. These clients include architects, engineers, contractors, developers, utilities, institutions, schools, military, municipalities, and private enterprise covering commercial and residential entities. Our collective project experience is broad based covering: airport construction, pavement design of municipal airports, buildings, highways, bridges, communication towers, dams and levees, sinkhole remediation, ground improvement projects, water supply projects, landfills, slope stabilities analyses, and distressed structure/foundation studies.

PROFESSIONAL EXPERIENCE

As President and Principal Engineer for Tierra South Florida, Inc., Mr. Krishnasamy oversees the geotechnical engineering, construction materials testing, and inspection services operations. Mr. Krishnasamy was the Project Manager for a \$1.2 billion multimedia super corridor project that included universities, commercial buildings, and residential roadways. He was also Principal Geotechnical Engineer for a \$780 million elevated highway, where he established Rock Founding Rationale for deep foundation systems. He was also Principal Geotechnical Engineer for a \$450 million highway that included land reclamation and soil stabilization. Mr. Krishnasamy has been involved in hundreds of projects of diversified complexity consisting of residential, commercial, educational, and wastewater treatment facilities, sports arenas, landfills, airports, roadways and land reclamation.

ABBREVIATED PROJECT EXPERIENCE

SFRC Bascule Bridge Replacement over the New River, Broward County, FL
PD&E Studies for Various Bridges over Las Olas Boulevard, Fort Lauderdale, FL
SE 15th Avenue Bridge Replacement - CEI Services, Fort Lauderdale, FL
FDOT District 4 Unknown Foundations Bridge Scour Evaluation (Andrews Avenue over C-13 Canal Bridge, NE 23 Avenue over Rio Giraldo Canal, NE 26th Terrace over Rio De Sota, Laguna Terrace over Diane River, West Lake Drive over Estelle River, West Lake Drive over Diane River, West Lake Drive over Lucille River, Johnson Street over C-10 Canal, Kings Highway over Belcher Canal), Broward County, FL
Pembroke Road Bridge over I-75, Broward County, FL
FPL Bridge at Port Everglades, Broward County, FL
Pedestrian Bridge at Floranda Road, Oakland Park, FL
NE 27th Terrace Bridge Replacement, Pompano Beach, FL
Improvement of Hiatus Road from Sunrise Boulevard to Oakland Park Boulevard (Roadway and Bridge), Broward County, FL
I-95 Express Lanes in Broward and Miami-Dade Counties (Design-Build)
SW 36th Avenue - Pedestrian Bridge and Sidewalks, Pompano Beach, FL
Passenger Loading Bridge Terminal 2 & 18, Port Everglades, FL
CR-811/Dixie Highway Fly-Over, Broward & Palm Beach Counties, FL
Royal Palm Boulevard Bridge Widening and Pedestrian Bridges, Margate, FL
Design-Build Rehabilitation of West Bridge & Bear Cut Bridge on the Rickenbacker Causeway, Miami-Dade County, FL
Flagler Memorial (SR-A1A) Bascule Bridge Replacement Design-Build, Palm Beach County, FL
SR-80/Southern Blvd - Bascule Bridge, Palm Beach County, FL
Ocean Avenue Bascule Bridge, Palm Beach County, FL
George Bush Boulevard Bascule Bridge, Palm Beach County, FL
SR 80 / Southern Blvd. Bridges Replacement, Palm Beach County, FL
US 41 Reconstruction Design-Build, Collier County, FL
State Road 710 Big John Monahan Bridge (Design Build) from SW Trail Dr. to East of the SR-76 Connector Ramps, Martin County, FL
New Bridge on NW 87th Avenue over Miami Canal, Miami-Dade County, FL
SR 5 / US- 1 Low-level Bridge Replacement (Design-Build), Palm Beach County, FL
Hatton Highway Bridge Over PDD Main Canal 2, Palm Beach County, FL
Caroline Avenue Crossing over L.W.D.D. L-3 Canal Bridge Replacement, Palm Beach County, FL
Pedestrian bridge over the Carol City Canal, Miami Gardens, FL
10th Avenue North and Keller Canal Pedestrian Bridge, Palm Beach County, FL

ARCHITECT - ENGINEER QUALIFICATIONS

PART I - CONTRACT-SPECIFIC QUALIFICATIONS

A. CONTRACT INFORMATION

1. TITLE AND LOCATION *(City and State)*

Bridge Engineering Consulting Services, Fort Lauderdale, Florida

2. PUBLIC NOTICE DATE

3. SOLICITATION OR PROJECT NUMBER

RFQ # 246-11376

B. ARCHITECT-ENGINEER POINT OF CONTACT

4. NAME AND TITLE

Raj Krishnasamy, P.E. , President/ Principal Engineer

5. NAME OF FIRM

TIERRA SOUTH FLORIDA, Inc.

6. TELEPHONE NUMBER

(561) 687-8536

7. FAX NUMBER

(561) 687-8570

8. E-MAIL ADDRESS

E. RESUMES OF KEY PERSONNEL PROPOSED FOR THIS CONTRACT
(Complete one Section E for each key person.)

| | | | |
|---|---|---|-----------------------------------|
| 12. NAME Raj Krishnasamy, P.E. | 13. ROLE IN THIS CONTRACT Principal Geotechnical Engineer | 14. YEARS EXPERIENCE | |
| | | a. TOTAL 25 | b. WITH CURRENT FIRM 13 |
| 15. FIRM NAME AND LOCATION (City and State) TIERRA SOUTH FLORIDA, INC., West Palm Beach, Florida | | | |
| 16. EDUCATION (DEGREE AND SPECIALIZATION) BS Civil Engineering, Christian Brothers University, 1987 MS Civil Engineering, University of Memphis, 1996 | | 17. CURRENT PROFESSIONAL REGISTRATION (STATE AND DISCIPLINE) Professional Engineer, Florida No. 53567 | |
| 18. OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.) American Society of Highway Engineers, Past President, Florida Engineering Society, Past Treasurer Geotechnical Material Engineering Council, Past Chairman | | | |

19. RELEVANT PROJECTS

| | | |
|--|--------------------------------------|------------------------------|
| (1) TITLE AND LOCATION (City and State) SFRC Bascule Bridge over the South Fork of the New River Broward County, Florida | (2) YEAR COMPLETED | |
| | PROFESSIONAL SERVICES 2013 | CONSTRUCTION (If applicable) |
| (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm a. Mr. Krishnasamy was the principal in charge of the geotechnical engineering study for the proposed replacement of about 1.25 miles of South Florida Rail Corridor Bascule Bridge over the New River in Broward County. The project extends from the overpass of Davie Boulevard to the overpass of SR84. Scope of services includes layout, coordination, performing borings on land and water, foundation analysis including piles and drilled shafts, and provided geotechnical recommendations. The proposed bridge structure is very close to the existing structure. Evaluated and analyzed several options including H-piles to brace existing foundation. A part of the proposed track traverses over organic soils. Evaluated various soil improvement options for the proposed track. Provided soil parameters for earth retention options to support the existing track during construction. | | |
| (1) TITLE AND LOCATION (City and State) FDOT District 4 Unknown Foundations Bridge Scour Evaluation Broward County, Florida | (2) YEAR COMPLETED | |
| | PROFESSIONAL SERVICES 2011 | CONSTRUCTION (If applicable) |
| (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm b. Mr. Krishnasamy was the principal in charge of the geotechnical engineering services consisting of estimating pile foundation embedment for 20 bridge structures. Bridges included Andrews Avenue over C-13 Canal Bridge, NE 23 Avenue over Rio Giraldo Canal, NE 26th Terrace over Rio De Sota, Laguna Terrace over Diane River, West Lake Drive over Estelle River, West Lake Drive over Diane River, West Lake Drive over Lucille River, Johnson Street over C-10 Canal, and Kings Highway over Belcher Canal amongst others. | | |
| (1) TITLE AND LOCATION (City and State) Spangler Road Bypass – Geotechnical Engineering Study Port Everglades, Florida | (2) YEAR COMPLETED | |
| | PROFESSIONAL SERVICES 2010 | CONSTRUCTION (If applicable) |
| (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm c. Mr. Krishnasamy was the principal in charge of the geotechnical engineering study for the construction of two bridges over Spangler Road, associated embankments/approach on either side of the bridges, security plaza, and roadway improvements on Eisenhower Boulevard. Field work included 14 Standard Penetration Test (SPT) borings. Provided geotechnical recommendations for bridge to support by a prestressed precast pile foundation system or an Auger Cast-in-Place (ACIP) pile foundation system. Provided design criteria, installation recommendations, and other considerations for both driven piles and ACIP piles so that the appropriate foundation system could be chosen depending on cost and feasibility. Also provided engineering recommendations for embankment/approach design options as well as geotechnical engineering recommendations for on-grade roadway widening. | | |
| (1) TITLE AND LOCATION (City and State) Pembroke Road Bridge over I-75 Broward County, Florida | (2) YEAR COMPLETED | |
| | PROFESSIONAL SERVICES 2011 | CONSTRUCTION (If applicable) |
| (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm d. In 2005, Mr. Krishnasamy completed a Geotechnical Engineering Study, including Roadway Soil Survey, High Fill Embankment Report, and Bridge Foundation Report, for the widening and extension of Pembroke Road which included a new bridge over I-75. Field work consisting of SPT borings, auger borings, pavement cores, and BHP tests. Provided laboratory testing, slope stability analysis, pile capacity analysis, summary of subsurface conditions, and geotechnical discussion of bridge foundation alternatives (i.e. drilled shaft vs. pre-stressed pre-cast square concrete piles), soil suitability, and pavement design considerations. In 2009, provided support services for the CEI, i.e. asphalt plant inspection and laboratory services. In 2011, performed a Geotechnical Engineering Study to assist the design team in evaluating proposed MSE Walls. | | |

| | | |
|---|-------------------------------|-------------------------------------|
| (1) TITLE AND LOCATION <i>(City and State)</i> CR-811/Dixie Highway Fly-Over Broward & Palm Beach Counties, Florida | (2) YEAR COMPLETED | |
| | PROFESSIONAL SERVICES 2012 | CONSTRUCTION <i>(If applicable)</i> |
| e. (3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm | | |
| Mr. Krishnasamy was the principal in charge of the geotechnical engineering study and provided quality control during construction for the new fly-over in Palm Beach & Broward Counties, Florida. Provided geotechnical report with analysis and recommendations for bridge foundation, MSE Wall and roadway soil survey. Also prepared TSP for Surcharge, Settlement Monitoring and Vibration Monitoring. Geotechnical recommendations also included a discussion of soil suitability, groundwater, and other site/construction considerations. During construction TSF provided sampling of soils and concrete for laboratory testing. | | |

E. RESUMES OF KEY PERSONNEL PROPOSED FOR THIS CONTRACT

(Complete one Section E for each key person.)

| | | | |
|---|--|--|----------------------------------|
| 12. NAME Francois Thomas, P.E. | 13. ROLE IN THIS CONTRACT Principal Engineer | 14. YEARS EXPERIENCE | |
| | | a. TOTAL 21 | b. WITH CURRENT FIRM 5 |
| 15. FIRM NAME AND LOCATION <i>(City and State)</i> TIERRA SOUTH FLORIDA, INC., West Palm Beach, Florida | | | |
| 16. EDUCATION <i>(DEGREE AND SPECIALIZATION)</i> MS in Geotechnical Engineering, 1993 BS in Civil Engineering, 1991 | | 17. CURRENT PROFESSIONAL REGISTRATION <i>(STATE AND DISCIPLINE)</i> Professional Engineer, Florida No. 56381 | |
| 18. OTHER PROFESSIONAL QUALIFICATIONS <i>(Publications, Organizations, Training, Awards, etc.)</i> Special Inspector 7021399, Certified Masonry Inspector, and Radiation Safety Officer | | | |

19. RELEVANT PROJECTS

| | | |
|--|--------------------------------------|-------------------------------------|
| (1) TITLE AND LOCATION <i>(City and State)</i> Terminal 4 Improvements Port Everglades, Florida | (2) YEAR COMPLETED | |
| | PROFESSIONAL SERVICES 2013 | CONSTRUCTION <i>(If applicable)</i> |
| (3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm | | |
| a. Mr. Thomas was the Principal Engineer for the geotechnical engineering study for the improvements to Terminal 4. Improvements included 1) interior remodeling, 2) construction of internal roadway and parking lots, 3) installation of two loading bridges dockside, 4) installation of canopies at drop-off areas around Terminal 4, and 5) extending slip #2 by dredging. Additionally, 16-inch-diameter or Auger Cast-in Place (ACIP) piles were being considered to support the bridge structures, and the existing grades in parking areas were to be raised 2 to 4 feet. TSF's field work consisted of 3 Standard Penetration Test (SPT) borings, 10 power augers, and 2 BoreHole Permeability (BHP) tests. Provided recommendations regarding site preparation (stripping, compaction, surcharging vs. biaxial geogrid and geotextile, etc.), trench excavations, trench backfill, foundation design for buildings, foundation design alternatives for canopies (shallow/mat foundations vs. deep foundation/ACIP pile design), passenger loading bridge foundation including ACIP pile design criteria, cofferdam soil parameters, flexible pavement design for parking lot/driveway areas, and other construction considerations. | | |
| (1) TITLE AND LOCATION <i>(City and State)</i> US-1/SR-5 Low Level Bridges Replacement from North of SR 706 at Coastal Way to South of CR A1A (Ocean Boulevard), Jupiter, Florida | (2) YEAR COMPLETED | |
| | PROFESSIONAL SERVICES 2012 | CONSTRUCTION <i>(If applicable)</i> |
| (3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm | | |
| b. Mr. Thomas was the geotechnical engineer for the geotechnical engineering study for the US-1/SR-5 Low Level Bridges Replacement from North of SR 706 at Coastal Way to South of CR A1A (Ocean Boulevard) in Jupiter, Florida. Performed percolation tests and preliminary borings for bridges and walls, to assist with the design-build criteria package. Providing quality control and testing services during construction, including soils and concrete testing. Providing laboratory testing, density log book and QC Manager services for compliance with FDOT and project specifications. Providing vibration monitoring services during sheet, steel, test and production pile driving of the Low Level Bridges. Performed pile capacity analysis for the trestle piles installed for crane support. | | |
| (1) TITLE AND LOCATION <i>(City and State)</i> SR 710 Big John Monahan Bridge Replacement from SW Trail Drive to east of the SR 76 Connector Ramps (Design-Build Project), Martin County, Florida | (2) YEAR COMPLETED | |
| | PROFESSIONAL SERVICES 2013 | CONSTRUCTION <i>(If applicable)</i> |
| (3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm | | |
| c. Mr. Thomas was the geotechnical engineer for the geotechnical study for bridge, walls, roadway, and drainage improvements and provided recommendations. The project includes replacement of the SR-710 Big John Monahan Bridge along with associated roadway improvements from SW Trail Drive to east of the SR 76 Connector Ramps in Martin County, Florida. Also provided laboratory services including proctors, sieve analysis, LBR test, and concrete compressive tests. Provided concrete, soils, and pile driving inspections. Also currently provided vibration monitoring for the CSX railroad tracks during pile driving. | | |
| (1) TITLE AND LOCATION <i>(City and State)</i> Congress Avenue from Lantana Road to South of Melaleuca Lane Palm Beach County, Florida | (2) YEAR COMPLETED | |
| | PROFESSIONAL SERVICES 2012 | CONSTRUCTION <i>(If applicable)</i> |
| (3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm | | |
| d. Mr. Thomas was the principal in charge of the verification testing services for Congress Avenue from Lantana Road to South of Melaleuca Lane. Laboratory testing services consisted of Proctors, LBRs, sieve analysis, carbonate content, concrete compressive strength tests. Also performed asphalt testing in TSF's in-house laboratory which included specific gravity, asphalt content, and asphalt density. Provided FDOT certified inspectors to perform verification testing on soils for embankment, drainage, subgrade, and base; testing on concrete for bridge widening including bents, decks, columns, and drilled shafts; pile driving inspection for bridge; drilled shaft inspection for mast arms; and paving inspector to observe placement of first and second lifts, repairs. The inspector also identified random core locations, assisted with cutting cores and transported to our laboratory for testing. | | |

| | | |
|--|--|-------------------------------------|
| (1) TITLE AND LOCATION <i>(City and State)</i> Caroline Avenue Crossing over L.W.D.D. L-3 Canal Bridge Replacement Palm Beach County, Florida | (2) YEAR COMPLETED | |
| | PROFESSIONAL SERVICES 2011 | CONSTRUCTION <i>(If applicable)</i> |
| e. (3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Mr. Thomas was the geotechnical engineer for the geotechnical study for the installation of pipe culvert over the canal at the intersection of Caroline Avenue and Belvedere Road. Field work included Standard Penetration Test (SPT) borings. Provided summary of subsurface/groundwater conditions. Also provided geotechnical recommendations for site preparation, foundation design, and soil parameters. In 2011 Performed additional BoreHole Permeability (BHP) Tests and provided test results. | <input checked="" type="checkbox"/> Check if project performed with current firm | |

F. EXAMPLE PROJECTS WHICH BEST ILLUSTRATE PROPOSED TEAM'S QUALIFICATIONS FOR THIS CONTRACT
(Present as many projects as requested by the agency, or 10 projects, if not specified. Complete one Section F for each project.)

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT *(Include scope, size, and cost)*

Performed geotechnical engineering study for the bridge widening. The project included constructing French drains on the east and west sides of the bridge. Field work completed included 43 Standard Penetration Test (SPT) borings, 4 BoreHole Permeability (BHP) tests, and rock corings. Performed pile capacity analysis and prepared soil parameters and providing geotechnical engineering recommendations. Additionally performed studies to determine the length and pile capacity of the existing bridge (unknown foundation study).

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT *(Include scope, size, and cost)*

Performed a preliminary geotechnical study to assist the design team in preparing a conceptual design and developing a preferred alternative for proposed improvements. Provided geotechnical report with analysis and recommendations for alternative bridge/tunnel design options, which included: replacement with a movable bridge, replacement with a fixed bridge, replacement with a tunnel, rehabilitation and repair of the existing bridge. Discussed tunnel design and construction requirements, i.e. Tunnel Boring Machine (TBM), open-pit construction at end ramps, and safety factors regarding uplift force due to buoyancy. Discussed utilizing either Pre-stressed Pre-Cast Square Concrete (PPSC) piles or drilled shafts and performed axial analyses.

Performed verification testing on soils for embankment, drainage, subgrade, and base. Performed testing on concrete for bridge widening including bents, decks, columns, and drilled shafts. Provided pile driving inspection for bridge, drilled shaft inspection for mast arms, and paving inspection.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

Provided geotechnical engineering services for the construction of a bridge over the FPL Discharge Canal, associated embankments/approach on either side of the canal, and a roadway that leads south of the bridge to the South Port in Port Everglades, Florida. Field work included Standard Penetration Test (SPT) borings at the proposed bridge end bent locations, in the canal, and for the proposed embankment/approach, auger borings for the proposed roadway, and Borehole Permeability (BHP) tests along the project alignment. Also provided quality control during construction for the new bridge over the FPL Canal Discharge in Port Everglades, Florida. Observed the installation of pre-cast piles for the PDA testing, provided all concrete testing for the bridge construction. Monitored the stabilizing of organic soils (with the use of cement admixtures and mixing) under the proposed bridge approach (2 sides) and performed density testing on embankment, MSE walls, utility backfill, stabilized subgrade, base. Also observed asphalt placement during production, verified mix design for compliance, selected asphalt core locations for testing, monitored placement of prime and tack coats, as well as roller patterns, temperature and thickness during placement.

| 24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT <i>(Include scope, size, and cost)</i> | | |
| <p>The Flagler Memorial Bascule (moveable span) Bridge Replacement Design/Build Project consisted of complete replacement of the existing bridge with a new four-lane divided bridge. The new bridge includes two 12-foot wide travel lanes in each direction, an eight-foot wide shoulder on each side, and a 15.5-foot median. There will also be an eight-foot wide sidewalk on each side. The new bridge will be supported by drilled and poured concrete shafts. Other related improvements include new storm water drainage, new signage and pavement markings, and new traffic signals. The new bridge will also feature four pedestrian outlooks and a new tender house, decorative roadway lighting, and LED lighting beneath the bridge. Performed geotechnical study for the potential replacement of the existing Flagler Memorial Bridge over Intracoastal Water Way in Palm Beach County, Florida. The existing Bascule bridge was supported on precast concrete pile foundation system and the new bridge was to be located just south of the existing bridge. Seawall/bulkhead was to be required at both ends of the proposed new bridge. Field work included Standard Penetration Test (SPT) borings. The SPT borings were drilled using truck and barge mounted CME-45/B-57 drill rigs, and mud rotary procedures. Bridge borings were drilled generally to a depth 100 feet below existing grades/mudline. Provided geotechnical report which identified the general subsurface stratigraphy and provided geotechnical recommendations.</p> | | |

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

Performed a geotechnical engineering study for the proposed replacement of about 1.25 miles of South Florida Rail Corridor Bascule Bridge over the New River in Broward County. The project extends from the overpass of Davie Boulevard to the overpass of SR84. Scope of services includes layout, coordination, performing borings on land and water, foundation analysis including piles and drilled shafts, and provided geotechnical recommendations. The proposed bridge structure is very close to the existing structure. Evaluated and analyzed several options including H-piles to brace existing foundation. A part of the proposed track traverses over organic soils. Evaluated various soil improvement options for the proposed track. Provided soil parameters for earth retention options to support the existing track during construction.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT *(Include scope, size, and cost)*

TSF performed a geotechnical engineering study for the bridge replacement over Canal 2, associated MSE walls, and roadway widening of Hatton Highway to the north and south of the new bridge. The purpose of this study was to provide Geotechnical (i.e. soils and groundwater) input to the design team to assist in evaluation of the merits of the proposed bridge replacement and MSE Walls. Performed a Geotechnical field study that included a total of four (4) Standard Penetration Test (SPT) borings drilled to a depth of 75 feet below the existing grade for the bridge replacement, and a total of six (6) SPT borings drilled to 40 feet deep for the proposed MSE walls. Also obtained soil sampled at the bottom of the canal for scour analysis. Laboratory testing consisted of testing to establish soil properties, including corrosion tests. Performed pile capacity analyses, prepared soil parameters for FV-pier analysis, and conducted global stability and settlement analysis for MSE walls. Provided geotechnical recommendations for bridge foundation as well as MSE walls.

Also provided Roadway Soil Survey Report for the Hatton Highway Bridge Approach Widening. The existing roadway (Hatton Highway) consists of a two-lane rural road facility with mostly grass shoulders. Field work for the roadway widening included 13 auger borings. Also performed limited laboratory testing to establish soil properties. Provided report detailing subsurface conditions/soil strata and groundwater conditions. Also provided geotechnical recommendations for site preparations, removal of organics, excavations, temporary side slopes, pavement design considerations, and on-site soil suitability.

H. ADDITIONAL INFORMATION

30. PROVIDE ANY ADDITIONAL INFORMATION REQUESTED BY THE AGENCY. ATTACH ADDITIONAL SHEETS AS NEEDED.

Company Profile

Tierra South Florida, Inc. is a multi-disciplinary geotechnical, materials engineering and inspection firm, offering professional engineering and associated consulting services to both the public and private sectors. The primary service areas are:

1. Geotechnical Engineering
2. Field and laboratory construction materials engineering inspection and testing
3. Threshold/Special Inspections

The geotechnical and materials engineering services provide clients with the comprehensive range of siting, planning, design, construction and quality control disciplines required for major construction projects.

Mr. Raj Krishnasamy, P.E. qualifies as a minority by Federal Guidelines. Mr. Krishnasamy is a licensed Engineer with 25 years of experience in geotechnical, material engineering and inspection services.

Geotechnical Engineering

Tierra South Florida can provide a complete range of geotechnical engineering services. These services include site assessments, planning, field and laboratory investigations, design specifications and recommendations, quality control, instrumentation and performance studies. Applications are for all types of buildings, airport facilities, transportation systems, landfills, dams, and other civil and private projects. Tierra South Florida's primary market is minority business set aside by City, County, State and Federal agencies.

Construction Materials Engineering and Testing

Tierra South Florida offers materials engineering, testing and inspection services applicable to the governmental, construction and manufacturing industries. Tierra South Florida will evaluate and then develop recommendations regarding both existing structures and new construction. During construction, monitoring and quality control services will cover every phase of construction and all materials used.

Laboratory Facilities

Tierra South Florida operates its own laboratory facilities in order to better meet the needs of its clients. This laboratory provides specialized testing services associated with geotechnical, engineering, and construction materials. Tierra South Florida's laboratory facilities are designed and operated to provide fast, reliable information to assure the meeting of client's needs. The geotechnical operations of Tierra South Florida are supported by state-of-the-art soil testing capabilities. Tierra South Florida has a laboratory for the testing of non-contaminated soils and materials. The trained and certified laboratory staff will routinely perform physical properties testing of soil, rock, concrete, steel, asphalt, and composite building materials. These testing services are performed in support of all project phases, including site investigations and assessments, design, and construction.

Corporate and Project Management Philosophy

The Tierra South Florida organization is committed to minimizing corporate administrative control which allows both branch management and specific technical teams to take correct and timely actions to meet the objectives of their clients. Employees stress quality, responsive services in which they will take a great deal of pride. Client satisfaction with the quality of Tierra South Florida's work, past and future, will result in a large percentage of work to be performed for repeat clients.

Interaction with Regulatory Agencies

Tierra South Florida has an excellent working relationship with the Florida Department of Transportation as well as the South Florida Water Management District. When working within right of way of these agencies, Tierra South Florida will submit an application for request of work permit and obtain the proper authorization prior to proceeding with work. Tierra South Florida will then follow up with a meeting to explain the scope in detail, and notify the agency at completion.

NON-COLLUSION STATEMENT:

By signing this offer, the vendor/contractor certifies that this offer is made independently and free from collusion. Vendor shall disclose below any City of Fort Lauderdale, FL officer or employee, or any relative of any such officer or employee who is an officer or director of, or has a material interest in, the vendor's business, who is in a position to influence this procurement.

Any City of Fort Lauderdale, FL officer or employee who has any input into the writing of specifications or requirements, solicitation of offers, decision to award, evaluation of offers, or any other activity pertinent to this procurement is presumed, for purposes hereof, to be in a position to influence this procurement.

For purposes hereof, a person has a material interest if they directly or indirectly own more than 5 percent of the total assets or capital stock of any business entity, or if they otherwise stand to personally gain if the contract is awarded to this vendor.

In accordance with City of Fort Lauderdale, FL Policy and Standards Manual, 6.10.8.3,

3.3. City employees may not contract with the City through any corporation or business entity in which they or their immediate family members hold a controlling financial interest (e.g. ownership of five (5) percent or more).

3.4. Immediate family members (spouse, parents and children) are also prohibited from contracting with the City subject to the same general rules.

Failure of a vendor to disclose any relationship described herein shall be reason for debarment in accordance with the provisions of the City Procurement Code.

| <u>NAME</u> | <u>RELATIONSHIPS</u> |
|-------------|----------------------|
| N/A | |
| _____ | _____ |
| _____ | _____ |
| | _____ |
| | _____ |

In the event the vendor does not indicate any names, the City shall interpret this to mean that the vendor has indicated that no such relationships exist.
