2. CASE: UDP-T21003

REQUEST: * Amend City of Fort Lauderdale Unified Land Development Regulations (ULDR) Section 47-24, Development Permits and Procedures, Providing for Approval Process for Development Utilizing Flexibility Rules; and Amend Section 47-28, Density and Flexibility Rules, Establishing Intent and Purpose, Amend Definitions, and Amend Applicability

APPLICANT: City of Fort Lauderdale

GENERAL LOCATION: Citywide

CASE PLANNER: Jim Hetzel

Jim Hetzel, Principal Planner, stated that this proposed Text Amendment addresses flex rules, which are tied to the City's and County's Comprehensive Plans and align with County Land Use regulations. Flex allocation can be made in 18 different geographic zones, each of which is monitored by a particular land use that is tied to Fort Lauderdale's Comprehensive Plan.

In 2018, the City unified its flex zones by collapsing them into a single City-wide zone for the allocation of non-residential or commercial flex units. A receiving area including Regional Activity Centers (RACs) and major corridors was designated for the allocation of residential flex units. Both the Planning and Zoning Board (PZB) and the Broward County Planning Council approved this change.

The proposed Amendment is an alignment of the City's Unified Land Development Regulations (ULDR) in relation to flex policy. The two sections before the Board are Section 47-24, the Development Permit and Procedure Table, which states that the approval process and allocation of flex units will occur under the proposed Amendment, and Section 47-28.1, which specifically addresses flex and density. This Section outlines intent and purpose, includes definitions, and provides specific regulations for allocating both residential and commercial flex units.

The Amendment to Section 47-28.1 also includes the allocation of affordable housing units. Mr. Hetzel explained that when flex allocation was designated within the original 18 zones, the allocation included a line item specific to affordable housing units. This line item was retained when the zones were collapsed. The City is also working through a general affordable housing effort, which may provide any minor changes that may need to be made to this section of Code.

There being no questions from the Board at this time, Chair Scott opened the public hearing. As there were no individuals wishing to speak on the Item, the Chair closed the public hearing and brought the discussion back to the Board.

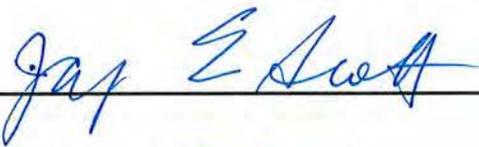

Mr. Shechtman requested that Staff outline the primary changes proposed by the Amendment. Mr. Hetzel explained that most changes are within Section 47-23, which addresses applicability. They bring this Section's language into compliance with current policy regarding allocation of units, and outline a process for affordable housing throughout the City. An applicant must verify with City Staff that the units or commercial flex acreage is available to allocate on the property before an application is submitted to the City.

Other issues related to the unification of flex policy affect the RACs. This Land Use designation was not clear regarding how to allocate flex units. The Amendment adds a new line item about RACs as well as adopted Master Plan areas, such as the Uptown area. These areas do not include RAC Land Use but have Master Plans that have been adopted by the City Commission. The Amendment also includes clarification of the allocation of Social Service Residential Facilities (SSRFs), which are calculated at a density of 0.5/1.

Motion made by Mr. Shechtman, seconded by Ms. McCartney, to approve. In a roll call vote, the **motion** passed 7-0.

There being no further business to come before the Board at this time, the meeting was adjourned at 8:06 p.m.

Any written public comments made 48 hours prior to the meeting regarding items discussed during the proceedings have been attached hereto.
