Exhibit B

1. Prior to recordation and the proposed vacation taking effect, the applicant shall provide to the City a 14-foot cross access easement for the benefit of the public for pedestrians, bicyclists, and other non-motorized modes of transportation within said ROW and record the appropriate documents to memorialize same. Should the existing site layout be reconfigured or property redeveloped in the future and a proposal submitted to alter the currently approved site plan, a more appropriate placement of said easement may be determined and agreed upon to continue to provide mid-block access through the property from Sunrise Boulevard south, depending on site layout and design of a proposed redevelopment plan. As a last alternative the right-angle connection from Sunrise Boulevard to 7th Avenue, as identified by the Planning and Zoning Board, could be established as part of the easement to complete the connection.
2. Any utilities required to be removed, replaced or relocated, shall be done so at the applicant's expense, and as approved by the City Engineer. All improvements constructed within the easement shall conform to City engineering standards;
3. The vacating ordinance shall be in full force and effect on the date a certificate, executed by the City Engineer, is recorded in the public records of Broward County, Florida. This certificate shall state that all conditions of the vacation have been met. A copy of the recorded certificate must be provided to the City.
