**CONSENT AGENDA PUBLIC COMMENT**

Mayor Trantalis explained procedures and details regarding how members of the public could speak on Consent Agenda items.

**CR-1:**

Mayor Trantalis recognized Steve Cook, 708 SW 16th Court. Mr. Cook spoke in opposition to this Agenda item and inquired about the use of non-ad valorem stormwater fees to fund the Cordova Road seawall (seawall), public access and property rights of homeowners adjacent to the seawall.

Laura Reece, Office of Management and Budget Director, explained the seawall was funded from the General Fund. Further comment and discussion ensued.

City Manager Chavarria said Staff would follow-up with Mr. Cook on this topic.

Mayor Trantalis commented on his understanding of the related agreement that the upland property owner can apply to the City for the installation of a dock adjacent to a seawall.

Commissioner Herbst remarked on the public's use and enjoyment of access to seawalls and requested City Manager Chavarria include him on correspondence to Mr. Cook.

City Attorney Boileau confirmed the public's right to access seawalls and the adjacent grass areas.

Resolution Approving the Consolidated Budget Amendment to Fiscal Year 2023 - Appropriation - (Commission Districts 1, 2, 3 and 4)

Commissioner Herbst discussed concerns of Galt Ocean Mile residents regarding the reallocation of funding for the Galt Ocean Mile Beautification Project (Galt Project) to the District 2 State Road A1A Project for pedestrian street lighting (A1A Project) listed on page twenty-five (25) of the backup information.

Commissioner Glassman commented on his perspective and clarified details related to the reallocation of Galt Project funding. The Galt Project is estimated to move forward next year.

City Manager Chavarria explained funding for the Galt Project is not anticipated to be used until 2024. Staff proposes reprioritizing Galt Project funds to the A1A Project versus using funds from the General Fund Balance (Fund Balance). The A1A Project is shovel ready and needs to promptly move forward or risk the loss of \$1,500,000 in grant funding. Funding for the Galt Project would be addressed during Fiscal Year 2024 budget development.

In response to Commissioner Glassman's question regarding future funding for the Galt Project, City Manager Chavarria noted two (2) future budget cycles to prioritize Galt Project funding and commented on related details.

Commissioner Herbst explained that capital funds projects do not lapse and remain dedicated to a project until spent. The Galt Project would need additional funding, and there is no guarantee Galt Project funding would materialize in the future. Commissioner Herbst said he is adamantly opposed to the removal of funding for the Galt Project.

In response to Commissioner Herbst's question, Laura Reece, Office of Management and Budget Director, explained details of the Fund Balance. The amount currently available is \$99,600,000, which is \$34,000,000 above the minimum requirement.

Commissioner Herbst remarked on the ability to accommodate the A1A Project from the Fund Balance without impacting the Galt Project.

Commissioner Glassman reiterated his perspective. Further comment and discussion ensued.

Commissioner Herbst remarked on funding support for the Galt Project from State Representative Chip LaMarca and the need for the City to demonstrate its ability to commit and fund this project. Further comment and discussion ensued.

Commissioner Glassman confirmed his support of the Galt Project and funding it in the future.

In response to Mayor Trantalis' question regarding the \$2,300,000 funding for the Galt Project, City Manager Chavarria remarked on Staff's understanding of details related to funding needs. Once the design becomes available, Staff can provide a better estimate of the total cost.

Mayor Trantalis commented on holding the Galt Project funding for two (2) years until shovel ready and noted that the balance of funds needed has not been committed. Further comment and discussion ensued.

Commissioner Herbst discussed the benefit of reserving current Galt Project funding and determining the balance of subsequent funding needs in the future.

Commissioner Herbst introduced this Resolution as amended, eliminating item K.

Commissioner Glassman inquired about details related to the introduction of this Resolution as amended and remarked on concerns regarding jeopardizing the A1A Project.

Commissioner Herbst explained details related to the practice of bringing budget amendments forward to the Commission on a monthly basis.

Alan Dodd, Public Works Department Director, explained details of the A1A Project's tight timeline, its price guarantee through December 20, 2022, and maximizing use of grant funding.

In response to Commissioner Glassman's question, Mr. Dodd remarked on the importance of having funding in place to award the contract in order to not jeopardize the entire A1A Project associated with Agenda item CP-3. Further comment and discussion ensued on the impact of this Resolution as amended.

**R-2**     [22-1038](#)

Resolution Approving Agreement for Sale of Potable Water between the City of Fort Lauderdale and the Town of Davie - (Commission Districts 1, 2, 3 and 4)

Mayor Trantalis recognized James LaBrie, 1514 NE 20th Street, Poinsettia Heights Civic Association Board Member, and Infrastructure

Task Force Advisory Committee Member. Mr. LaBrie commented on his opposition to this Agenda item. Further comment and discussion ensued.

Susan Grant, Assistant City Manager and Finance Director, explained details related to this Agenda item, which represents the sale of potable water on a wholesale basis to the Town of Davie which is later distributed. Further comment and discussion ensued.

City Attorney Boileau explained this ongoing sale of potable water to the Town of Davie is for the use of a particular finite parcel for approximately forty (40) years. He said the agreement adheres to the need for the City to be consistent with the sale of potable water to other municipalities and expounded on related details. Further comment and discussion ensued regarding language included in Exhibit 2 entitled Agreement for Sale of Portable Water - Town of Davie (Agreement).

In response to Commissioner Sturman's questions, City Attorney Boileau confirmed language included in the Agreement allows the City to request water conservation and commented on related details. Mr. LaBrie confirmed this topic was discussed at the Infrastructure Task Force Advisory Committee (ITFAC) Meeting, which included concerns that future water availability might be a limited resource.

Mr. LaBrie recommended users being charged a surcharge to be more conservative with water use. In response to Commissioner Sturman's question regarding Mr. LaBrie's remarks, City Attorney Boileau explained that the twenty-five percent (25%) surcharge is the maximum the City can implement and is governed by State Statute. He reiterated water surcharges to all municipalities should be consistent. Ms. Grant commented on a wholesale customer rate study done several years ago that resulted in a non-tiered rate. Further comment and discussion ensued.

In response to Commissioner Beasley-Pittman's question, Ms. Grant explained the other municipalities the City has Agreements with include the Town of Davie, City of Wilton Manors, City of Oakland Park, Port Everglades and a portion of the City of Tamarac that is directly served. Ms. Grant remarked on aspects of the Agreement with the City of Oakland Park.

In response to Commissioner Sturman's question regarding the term in the Agreement, "not unreasonably withheld", City Attorney Boileau remarked on its use in different contexts and noted it would need to be evaluated by the Public Works Department.

Mayor Trantalis commented on his understanding of water surcharges to other municipalities and discussed details related to Commission action ensuring future water resources.

Commissioner Herbst remarked on water conservation from a cost perspective as it relates to the take or pay contract for 50,000,000 gallons of water per day planned with IDE/Ridgewood for the Prospect Lake Water Treatment Plant (Project).

Alan Dodd, Public Works Department Director, explained details regarding how the Agreement with IDE/Ridgewood is structured. The City can request up to 50,000,000 gallons of water per day based upon demand. The availability payment to IDE/Ridgewood will be for a plant capable of producing 50,000,000 gallons of water per day (availability payment) not based upon requested amounts of water. Savings is realized if less water is produced as a result of less chemicals and electricity used.

Commissioner Glassman introduced this Resolution which was read by title only.
