1. Executive Summary

Key Elements of Our Proposal

Inframark, LLC (Inframark), is pleased to provide to the City of Fort Lauderdale, Fla. (the City), our response to the Water Meter Reading and Related Services Solicitation 12585-325 per the bid documentation. In our proposal, we highlight key elements to our experiences as well as our ability to adequately service your project and meet the goals of the City under this meter reading agreement.

As a longstanding service provider in the State of Florida and a national leader in operations and maintenance (O&M) services throughout the U.S., we feel strongly that our proposed approach will serve the City well per the scope desired. Inframark intends on making a substantial upfront investment within the geographical area to properly serve the obligation the City desires with local commercial leased office space, local personnel new hires, as well as a vehicle fleet suitable for the daily tasks. Key takeaways from our proposal are:

- 40-plus years of operational experience in Florida.
- Read approximately 100,000 meters monthly in 21 states.
- Key personnel and projects in close proximity.
- Adequate resources and personnel dedicated to the project.
- Performance history of 99.2% reading accuracy.
- More than just a meter reading firm.

Inframark takes pride in the fact that we are an industry leader in meter reading services, with a performance history of greater than 99% accuracy.

Supervisory Staff and Key Individuals

Inframark intends to staff this project with the appropriate level of personnel we feel best suited to fulfill the contractual obligation and accuracy requirements. Ideally, our intent is to extend employment to the existing meter reading personnel to maintain consistency and retain institutional knowledge of meter locations, processes, and potential issues that arise while reading each route. The staff performing the meter reading services will be directly supported by our local Area Manager **Ben Griffin**, who is located in Hobe City, Fla. Mr. Griffin will function as the transition manager and oversee the initial operation as well as manage the contract liaison appointed by the City during the partnership.

Mr. Griffin has more than 16 years of experience in operations management across multiple industries, both domestic and international. He has driven success in several key management roles and continues to use his exceptional skills to ensure that our Principles of Pure Partnership™ are followed by all team members. Mr. Griffin started his career in the U.S. Marine Corps and served at the onset of Operation Enduring Freedom in Afghanistan. Upon leaving the Marine Corps in 2003, he quickly transitioned into the

private sector and began his career in the oil and gas pressure pumping industry. During his time in the oil and gas industry Mr. Griffin led a team of 300-plus employees in multiple countries including Argentina, Canada, Colombia, Mexico, Russia, the U.S., and some small projects in the United Arab Emirates. He has an excellent understanding of what it takes to help clients thrive in diverse and challenging marketplaces. Mr. Griffin joined Inframark in 2017 and has been instrumental in helping drive success and overall excellence in Florida. He holds a bachelor's degree in business management.

Additionally, the South Region is supported by Vice President **Larry Malcom**, who is responsible for contract management and the overall performance of the project. Mr. Malcom oversees our Florida projects on a routine basis and would be the individual to resolve any issues that arise during the meter reading partnership.

Larry Malcom

Mr. Malcom is an accomplished professional with more than 35 years in the water and wastewater industry. He is a performance-driven leader with extensive experience in O&M management. Mr. Malcom has implemented and maintained meter reading, customer service and billing systems, supervisory control and data acquisition (SCADA), computerized maintenance management systems (CMMS) and geographic information systems (GIS). He has extensive experience with thorough and effective client reporting and contract administration activities with a focus on partnership, transparency, and complete compliance. Mr. Malcom has successfully managed over \$1.2 billion of municipal and federal water and wastewater operations contracts. He has been recognized for best practices in infrastructure planning, design and finance.

2. Experience and Qualifications

Inframark is the only national infrastructure services company focused solely on the O&M of meter reading water and wastewater systems, management and strengthening of community infrastructure, as well as related services. We are a 100% U.S.-based, privately held company that is financially backed by a private and public equity firm with more than \$33 billion of committed capital. Incorporated in Texas on June 30, 1983, as Severn Trent Environmental Services, Inc., the corporation was restructured in June 2017 and renamed Inframark, LLC, on December 1, 2017.

Our services, which span more than 40 years and include over 400 partners in 21 states, are based on a set of partnership principles that are engrained in every interaction we have with our clients and employees. Our 2,500 hard-working and dedicated professionals ensure that we maintain our reputation as a recognized leader in providing safe, cost-effective operations while ensuring the highest level of service and regulatory compliance.

Florida Experience

Inframark, which is a registered legal entity in Florida, has operated in the Sunshine State for over 40 years. We have approximately 250 employees providing professional services to nearly 1.6 million people through over 200 contracts. Inframark provides a full range of utility services including meter reading, O&M, customer service and billing, plus management services to municipalities, special districts, community associations, and other governmental agencies. Our philosophy fosters community outreach, total quality management, and dedication to maintaining the highest possible water and wastewater quality standards. This enables each customer to reap the benefits of a highly customized and reliable approach and the efficiency gained through competition.

We also have several resources close by to support your facilities in case of emergency or weather-related events. Inframark has several key projects located in the state; personnel and equipment from these locations can be used in emergency situations, or to offer support when required. Several key members of our Operations Solutions Group (OSG) also live in Florida and are available for additional support.

Unmatched Service in the Sunshine State

Inframark has more than 40 years of operating history in Florida, with more than 250 employees providing professional services to nearly 1.6 million people.

Meter Reading Experience

Inframark fully understands the important roles meter reading, billing and customer service play in the overall operation. Inframark's experience positions us well to assist communities in meeting all these needs. Meters will be read by Inframark personnel with clearly marked uniforms and identification according to the client's schedule. Routes are scheduled to optimize efficiency and a hand-held electronic meter reading system is utilized for maximum accuracy and to further enhance efficiency.

Inframark has extensive experience with the use of hand-held devices, which has improved the accuracy of the readings and reduced the time spent reading the meters across the industry. We read nearly 100,000 meters on a monthly basis, serving hundreds of projects across the country. Inframark also has significant experience in meter change-out programs to help localities take advantage of new technology, thus increasing accuracy and efficiency even further. If the City is interested, Inframark can assist and program manage a complete meter change-out program as well as implementation outside of this bid/scope of work.

Environmental Sustainability

Active involvement in the communities we serve allows Inframark to influence sustainability and protect the environment. We have a long history of community involvement in water conservation, stream cleanup, tree planting, watershed, and education programs throughout the company. We meet these goals by providing effective leadership with a commitment to safety, diversity, ethical conduct, positive morale and a commitment to excellence. Inframark has strong programs in place to ensure consistency in systems, procedures and practices. We routinely assess the effectiveness of those programs and continuously improve our standards and expectations. We share lessons learned across our project portfolio to drive continuous improvement.

the City. The Contractor, however, shall not be relieved of liability to the City for damages sustained by the City by reason of any breach of the Agreement by the Contractor, and the City may withhold any payments to the Contractor for the purpose of setoff until such time as the amount of damages due to the City from the Contractor can be determined.

- 5.10 TERMINATION FOR CONVENIENCE:** The City reserves the right, in the City's best interest as determined by the City, to cancel any contract by giving written notice to the Contractor thirty (30) days prior to the effective date of such cancellation.
- 5.11 CANCELLATION FOR UNAPPROPRIATED FUNDS:** The obligation of the City for payment to a Contractor is limited to the availability of funds appropriated in a current fiscal period, and continuation of the contract into a subsequent fiscal period is subject to appropriation of funds, unless otherwise authorized by law.
- 5.12 RECORDS/AUDIT:** The Contractor shall maintain during the term of the contract all books of account, reports and records in accordance with generally accepted accounting practices and standards for records directly related to this contract. The Contractor agrees to make available to the City Auditor or the City Auditor's designee, during normal business hours and in Broward, Miami-Dade or Palm Beach Counties, all books of account, reports, and records relating to this contract. The Contractor shall retain all books of account, reports, and records relating to this contract for the duration of the contract and for three years after the final payment under this Agreement, until all pending audits, investigations or litigation matters relating to the contract are closed, or until expiration of the records retention period prescribed by Florida law or the records retention schedules adopted by the Division of Library and Information Services of the Florida Department of State, whichever is later.
- 5.13 PERMITS, TAXES, LICENSES:** The successful Contractor shall, at his/her/its own expense, obtain all necessary permits, pay all licenses, fees and taxes, required to comply with all local ordinances, state and federal laws, rules and regulations applicable to business to be carried out under this contract.

- 5.15 UNUSUAL CIRCUMSTANCES:** If during a contract term where costs to the City are to remain firm or adjustments are restricted by a percentage or CPI cap, unusual circumstances that could not have been foreseen by either party of the contract occur, and those circumstances significantly affect the Contractor's cost in providing the required prior items or services, then the Contractor may request adjustments to the costs to the City to reflect the changed circumstances. The circumstances must be beyond the control of the Contractor, and the requested adjustments must be fully documented. The City may, after examination, refuse to accept the adjusted costs if they are not properly documented, increases are considered to be excessive, or decreases are considered to be insufficient. In the event the City does not wish to accept the adjusted costs and the matter cannot be resolved to the satisfaction of the City, the City will reserve the following options:
1. The contract can be canceled by the City upon giving thirty (30) days written notice to the Contractor with no penalty to the City or Contractor. The Contractor shall fill all City requirements submitted to the Contractor until the termination date contained in the notice.
 2. The City requires the Contractor to continue to provide the items and services at the firm fixed (non-adjusted) cost until the termination of the contract term then in effect.
 3. If the City, in its interest and in its sole opinion, determines that the Contractor in a capricious manner attempted to use this section of the contract to relieve Contractor of a legitimate obligation under the contract, and no unusual circumstances had occurred, the City reserves the right to take any and all action under law or equity. Such action shall include, but not be limited to, declaring the Contractor in default and disqualifying Contractor from receiving any business from the City for a stated period of time.

If the City does agree to adjusted costs, these adjusted costs shall not be invoiced to the City until the Contractor receives notice in writing signed by a person authorized to bind the City in such matters.

- 5.16 ELIGIBILITY:** If applicable, the Contractor must first register with the Florida Department of State in accordance with Florida Statutes, prior to entering into a contract with the City.
- 5.17 PATENTS AND ROYALTIES:** The Contractor, without exception, shall defend, indemnify, and hold harmless the City and the City's employees, officers, employees, volunteers, and agents from and against liability of any nature and kind, including cost and expenses for or on account of any copyrighted, patented or un-patented invention, process, or article manufactured or used in the performance of the contract, including their use by the City. If the Contractor uses any design, device, or materials covered by letters, patent or copyright, it is mutually agreed and understood without exception that the bid prices shall include any and all royalties or costs arising from the use of such design, device, or materials in any way involved in the work.

- 5.18 **ASSIGNMENT:** Contractor shall not transfer or assign the performance required by this ITB without the prior written consent of the City. Any award issued pursuant to this ITB, and the monies, which may become due hereunder, are not assignable except with the prior written approval of the City Commission or the City Manager or City Manager's designee, depending on original award approval.
- 5.19 **GOVERNING LAW; VENUE:** The Contract shall be governed by and construed in accordance with the laws of the State of Florida. Venue for any lawsuit by either party against the other party or otherwise arising out of the Contract, and for any other legal proceeding, shall be in the courts in and for Broward County, Florida, or in the event of federal jurisdiction, in the Southern District of Florida.
- 5.20 **PUBLIC RECORDS:**
