Workload of the Firm

Southern Underground Industries, Inc. presently has several projects in various stages of construction. The company does not anticipate that the scope of this design-build project will cause any hardships that are not normal occurrences for the construction industry. We are presently active in attempting to secure additional work for the company. The nature of this project of this will fit well with our current workload.

We presently do not have any design build projects underway. Southern is always looking forward to projects of this type. We have spoken with the major consultants and presently do not have any active design build projects.

The construction industry of today faces challenges related issues beyond our control. We like many others spent times checking on submittals, deliveries more than in the past to avoid slippages and delays in the deliveries of materials and equipment.

(Please review Section 6 for ongoing work)

Relevant Experience

PROJECT NAME	OWNER	CONTACT INFORMATION	CONTRACT	DESCRIPTION OF WORK	Completion Date	Job Summary
Force Main Air Release Valve Replacement	Pinellas County 22211 U.S. 19 N. Bldg 16 Clearwater, FL, 33765	Joe Boggs 727- 464-8880 jboggs@co.pinellas.fl.us	\$1,246,716.50	The work to be performed is comprised of the removal of existing air release valve (ARV) assemblies located in below grade manholes and the installation of above grade air release valve assemblies at six (6) sites on existing force mains.	22-May	Sewer Force Main ARV
Sample Road Recharge Line	BROWARD COUNTY BOARD OF COUNTY COMMISSIONERS	Vilma Melendez 954-237-7850 vmelendez@broward.org	\$1,083,941.00	The WORK of this Contract comprises the construction of the infrastructure site WORK for the Broward County Water & Wastewater Services (BCWWS) Project No. 6012 103824. The WORK will include but not be limited to installation of a new forty-two (42) inch diameter High Density Polyethylene (HDPE) interconnecting storm drain by directional drilling, coupled with a sleeved thirty-six (36) inch diameter Reinforced Concrete Pipe (RCP) under a railway crossing by jack and bore method, and installation of control structures and outfalls at each end.	Ongoing	HDD, Jack and Bore
Replacement of Hallandale Beach Force Main and Large User Meter Lum-07	City of Hollywood 2600 Hollywood Blvd Hollywood, FL, 33020	Feng Jiang 954-921-3930 Fjiang@hollywoodfl.org	\$1,974,652.44	The project consists of a force main replacement and large user meter (LUM-07) site improvements project: replacement of the existing Large User Meter LUM-07, air release valve, electrical components, vaults and site, also abandonment of approximately 4,900 LF of existing FM and construction of approximately 3,800 linear feet of 16- inch PVC force main via open cut and 500 linear feet of 20- inch HDPE force main via HDD from LUM-07, located on the south side of Pembroke Rd. and S. 18th Ct., to an existing 30-inch diameter force main connection located at the intersection of S. 15th Ave. and the alley between Rodman St. and Funston St.	Ongoing	HDD, Sewer forcemain installation, Installation and demo of exisiting Large User Meter 07

ANNUAL CONSTRUCTION OF GENERAL STORMWATER INFRASTRUCTURE	City of Fort Lauderdale 100 N Andrews Ave Fort Lauderdale, FL 33301	Sayd Hussain 954- 828-5678 Shussain@fortlauderdale.gov	\$1,285,714.29	This project is located throughout the City of Fort Lauderdale. The work to be accomplished under this contract includes, but is not limited to, the construction and installation of various storm water infrastructure consisting of: catch basins, storm water manholes, piping, exfiltration trenches, tidal valves, swales regrades, retention area, pipe lining, pervious pavements and repair of the aforementioned.	Ongoing	Drainage
District 3A Step Area 3A-N	BROWARD COUNTY BOARD OF COUNTY COMMISSIONERS	George Lopez 954-831-0919 galopez@broward.org	\$1,488,108.57	Work consists the construction of approximately three thousand two hundred and fifty feet (3,250') of eight-inch (8") gravity sanitary sewer main, fifteen (15) maintenance access structures, one (1) pump station, one thousand three hundred feet (1,300') of six-inch (6") force main to the existing Stirling Road force main, one (1) air release valve and structure, and associated service lines and cleanouts. Furthermore, the scope of work in this project involves milling of pavement, restoration of the roadways, and landscaping. The work also includes renovations to a monument sign including but not limited to the lighting, lettering, and additional landscape. The Project has the potential to eliminate approximately thirty-six (36) septic tanks from the existing single-family residential neighborhood on SW 33rd Avenue and SW 32 Terrace in Hollywood.	Ongoing	Gravity Sewer Main Installation, New pump Station Install
Digiorgio Sanitary Sewer Design	Fort Pierce Utility Authority	James Carnes III, P.E. (772) 466-1600 jcarnes@fpua.com	\$1,875,387.00	The Work (Project) consists of furnishing all labor, material and equipment for the construction of approximately 5,850 lineal feet of 8-inch diameter SDR-26 PVC gravity sewer main; twenty-two (22) sanitary manholes; fifteen (15) sanitary sewer services; six-hundred forty (640) lineal feet of 8-inch PVC force main; one-hundred twenty (120) lineal feet of 12- inch diameter jack and bore; one (1) central lift station; sanitary connection to FPUA's existing sanitary tranmission system; restoration and miscellaneous appurtenances.	Ongoing	Gravity Sewer Main Installation, New pump Station Install

SRF Wastewater Interconnection With City of Eustis for City of Umatilla, Florida	City of Umatilla 1 South Central Umatilla, FL, 32784	Aaron Mercer, MPA, AICP (352) 669-1539 amercer@umatillafl.org	\$6,656,377.52	The work includes the furnishing of all labor, materials, and equipment for the project construction as follows: The Project consists of constructing approximately one triplex submersible pump station with two 50 HP and one 10 HP pumps with VFDs; one duplex submersible pump station with two 15 HP pumps with VFDs; static screening structure; conversion of existing glass-fused steel reclaimed storage tank to a flow equalization tank with 60 HP submersible aerator and drain control structure; chemical feed and storage facilities; electrical with emergency generator; SCADA/telemetry system; yard piping, sitework 32,900 LF of 12" and 16" PVC force main via conventional installation and directional drill; 670 LF 18" Gravity Sewer; metering/sampling station; valves and fittings; associated restoration; and traffic control.	Ongoing	HDD of New Forcemain, Gravity Sewer Main Installation, New Pump Station Install Demo of Existing
Annual Sewer Repair	City of Fort Lauderdale 949 N.W. 38th Street Fort Lauderdale, FL 33309	Terrance Bray 954-696-0166 Tbray@fortlauderdale.com	\$9,035,742.17	Work order contract consisting of furnishing all labor, materials and equipment for emergency construction services for the replacement of the following water and wastewater utilities: Gravity Sanitary Sewer Pipe (4" - 36") at varing depths and manholes; Water main (4" - 36") at varing depths and associated fittings, valves, and FHs; Roadway milling and restoration. Recently completed in December 2020, 3400 LF of 8" Gravity Sanitary Sewer main within residential roadways along with associated road restoration.	Ongoing	Gravity Sewer Repair, Force Main Repair, Water Main Repair
Emergency Replacement of 120 LF of 16-inch DIP along the Venetian Causeway	City of Miami Beach 451 Dade Boulevard Miami Beach, FL, 33139	Mariana Evora 305-673-7000 MarianaEvora@miamibeachfl.gov	\$322,983.34	The work consisted of demoing 120 LF of 16" Ductile Iron water main and pipe hangars on the side of the Venetian Causeway bridge, and replacing it with 120 LF of 20" HDPE and new pipe hangars. This was an emergency work order by the City of Miami Beach.	Feb-22	Water Main Demo and Replacement on a bridge
Deerfield Beach Lift Station #25	City of Deerfield Beach 200 Goolsby Blvd Deerfield Beach, FL, 33442	Priscilla Cygielnik 954-616-7046 Pcgielnik@deerfield-beach.com	\$412,000.00	The Work consisted of construction of a new 20' wastewater lift station and demolition of the existing station. Installation of a new forcemain to exisitng forcemain in service.	Jan-22	New Pump Station Install, Demo Exisiting Pump Station

B-22 Pumping Station Replacement	City of Fort Lauderdale 100 N Andrews Ave Fort Lauderdale, FL 33301	Daniel Fisher 954-828-5850 Dfisher@fortlauderdale.gov	\$457,641.00	B-22 PS was a duplex station equipped with centrifugal pumps in a dry well configuration, it was demoed and removed. The station was at the end of its useful life and was replaced with a prefabricated submersible package odorless station. 200 LF of HDPE 4-inch force main was installed to replace the existing Cast Iron force main.	Mar-22	New Pump Station Install, Demo Exisiting Pump Station
Neighborhood Road Program Year 1- District 2 15th, 16th, 17th, & 18th Avenue North	City Of Lake Worth Water Utilities Administration 301 College Street Lake Worth, FL 33461	Giles Rhodes 561-586-1640 grhoads@LakeWorth.org	\$4,339,626.20	Construction of Roadway Potable Water and Sanitary Sewer Improvements. Complete roadway restoration in a residential neighborhood.	Oct-18	Road Restoration
WTP Finished Water Meter	City of Tamarac 6011 Nob Hill Road Tamarac, FL, 33321	Earl Henry 954- 597-3758 Earl.Henry@tamarac.org	\$432,010.00	The project consists of removing and replacing existing underground yard piping, installing new magnetic flow meters, access vault and bypass piping and modifying the existing fluoride injection point. The project also includes connecting the new flow meters to the plants existing SCADA system and replacing a monitoring well.	Apr-22	Remove and Replace Flow Meter
Transmission Main Project	City of Longwood 175 Warren Avenue Longwood, Florida 32750	Jeremy P. Jardell P.E. (321) 332-1097 jjardell@bfaenvironmental.com	\$3,722,162.40	Construction of approximately 17,270 linear feet of 16-inch wastewater force main connecting the City of Longwood's Wildmere Lift Station force main to the City of Altamonte Springs sanitary sewer system via open cut method. Installation of 30" steel casing via Jack and Bore underneath railroad tracks. Installation of 7,420 LF 16-inch forcemain via directional drill method. Rehabilitation of Sanitary Manholes utilizing a lining system.	Nov-18	Directional Drilling, Lining
Lincoln Park Water Main Improvements	City of Arcadia 23 North Polk Avenue Arcadia, FL 34266	Julie L. Karleskint, PE 941-960-4983 jkarleskint@hazenandsawyer.com	\$1,686,156.00	Installation of 8,631 LF of potable water system including services using open cut methods, slip lining of 1759 LF of gravity sewer and reinstallation of services, directional drill of 1,425 LF HDPE pipe under drainage culverts, open cut installation of 5101 LF PVC sanitary sewer, reconnection and replacement of services, and replacement of 25 manholes along with patching of asphalt, milling and resurfacing of asphalt services, and complete installation of a new roadway.	Mar-21	Slip Lining, Culverts, Road Restoration and Pavement Patching

Jenada Isles Utility Improvement Project	City of Wilton Manors 2020 Wilton Drive Wilton Manors, FL, 33069	David Archaki darchacki@wiltonmanors.com 954-390-2190	\$1,119,717.50	The project includes the repacement of approximately 4,000 linear feet of water main along with the replacement of existing water services, water meters, water meter boxes, valves, and fire hydrants within the project limits along with all necessary restoration. The water main replacement shall be completed by primarily using pre- chlorinated pipe bursting construction methods along with a limited sement to be replaced using horizontal directional drill construction methods. The project also includes the replacement of approximately 400 linear feet of sanitary force main and associated valves and connections, which shall be installed using horizontal directional drilling construction methods.	Dec-21	Pipe Bursting, Directional Drilling, Water Main Installation
Boggy Creek-Narcoossee Road Water Main Extension	Tohopekaliga Water Authority 951 Martin Luther King Blvd 3rd Floor Kissimmee, FL 34741	Edwin Matos, P.E (407)-944-5000 Ematos@tohowater.com	\$3,539,097.00	Constructed approximately 4,540 linear feet of 24-inch D.I.P. potable water main and approximately 5,400 linear feet of 30-inch PE (DR-11) potable water main via directional bore methods. The project includes various connections to existing infrastructure, existing asphalt roadway open cut and repairs, extensive maintenance of traffic and the usual appurtenances.	Mar-21	Directional Drilling, Water Main Installation
Pump Station 016\Park Blvd Force Main to South Cross Bayou Replacement	Pinellas County Board of Commissioners 400 S. Ft. Harrison Ave Clearwater, FL 33756	Ray Gambling (727) 464-8879 rgambling@pinellascounty.org	\$15,278,275.00	Installation of 3400 LF 42" HDPE via directional drill underneath major roadways, intersection, culverts and large waterways. Installation of 4,850 LF 36"Ductile Iron Forcemain via open cut methodology. Project includes patching of major roadways and milling and paving of major roadways.	Sep-21	Culverts, Major Roadway patching.
McMullen Booth Road and SR 580 Water Main Improvements	Pinellas County Board Of Commissioners 400 S. FT. Harrison Ave Clearwater, FL 33756	Dale Laird, P.M. (727)464-8883 dlaird@pinellascounty.org	\$1,255,203.00	Procure and install approximately 3,000 linear feet of 16- inch parallel water main from North of County's Valve 30JS- WV3003 to McMullen Booth Road and SR 580 intersection to the south and approximately 30-ft of 12-inch parallel water main at the intersection of McMullen Booth Road and SR 580. The pipe was installed using open cut and horizontal direction drilling.	Nov-19	Road Restoration major roadway, MOT in DOT ROW
E-3, E-4 AND G-9 WASTEWATER PUMP STATION IMPROVEMENTS	TOWN OF PALM BEACH 951 Okeechobee Road, Suite D, West Palm Beach, FL 33401	Jason Debrincat, P.E (561 290 0956) jdebrincat@TownOfPalmBeach.com	\$1,190,050.00	Performed wastewater pump station improvements for Town of Palm Beach lift stations E-3, E-4 and G-9. Scope consisted of complete rehabilitation of the pumping sewer system including wetwells structures, valve vaults, installation of new mechanical piping, use of bypass pumps, installation of new electrical control panels and instrumentation, odor control, telemetry/RTU system, interior coating of the wetwell structures and general restoration.	Mar-20	Coastal, low lying, tidally influenced areas. Hard Rocky Surface Conditons. Narrow ROW and Congestion.

East Water Treatment Plant Renovations Raw Water & Concentrate Main, City of Miramar	City of Miramar Utilities Department, 13900 Pembroke Rd, Miramar, Florida, 33027	Eric Francois 954-544-0631 jafrancis@miramarfl.gov	\$2,137,169.00	This Design-Build project included the installation of seven directional drill of 14" and 18" HDPE totaling 5,000 LF and open cut installation of 5,520 LF of 10" to 24" PVC pipe for the raw water main and reject main needed to connect this WTP to the new wells drills by Wharton-Smith (Prime Contractor).	May-20	Directional Drilling
Emergency Water Main Repair on Venetian Causeway Bridge East of Dilido Island	City of Miami Beach Public Works Department - 451 Dade Boulevard Miami Beach, FL 33139	Lys Desir Jr 305-673-7083 LysDesir@miamibeachfl.gov	\$247,550.00	Emergency Replacement of 180 LF of 16-inch Cast Iron with 20-inch HDPE pipe and 20 LF of 16-inch Cast Iron with Ductile Iron on a bridge.	Mar-19	Coastal, low lying, tidally influenced areas. High Water Table.
Emergency Replacement of 180 LF of 20" WM on the South East Side of the MacArthur Causeway Bridge	City of Miami Beach Public Works Department - 451 Dade Boulevard Miami Beach, FL 33139	Eugene Egemba, P.E. (305)-673-7080 EugeneEgemba@miamibeachfl.gov	\$599,830.00	Replacement of 180 LF of 20-inch Water Main attacehd to the south side of the MacArthur Bridge deck.	Sep-19	Coastal, low lying, tidally influenced areas. High Water Table.
Emergency Repair of the 8-inch Force Main under the LaGorce Bridge	City of Miami Beach Public Works Department - 451 Dade Boulevard Miami Beach, FL 33139	Eugene Egemba, P.E. City of Lighthouse Point Charles Schramm, Jr., Public Works Director | (954) 943-6500 24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

This project is generally located within the City of Lighthouse Point on N.E. 51st Street from NE 22nd Avenue, east to NE 24th Avenue.

Our services were for the design and construction management for a neighborhood drainage improvement project comprised of upgrading the existing drainage facilities and roadway resurfacing within the area. The project included the removal of the existing drainage system and the installation of approximately 1600 LF of 15" and 18" A-2000 drainage pipe. nine drainage inlets with aprons, two connections to an existing drainage system, slip lining a portion of this existing system, the construction of a swale/retention area (2740 square yards) to account for water quality, sodding, milling and resurfacing (2000 square vards), tree removal, pavement markings and corresponding signage. The total construction cost was \$414,000.

Winningham & Fradley, Inc. was responsible for the design, permitting, bidding, construction, inspection and certification services for this project.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANC	E TO THIS CONTRACT (Include scope, size, and	i cost)			

Plantation Gardens is generally located between Sunrise Boulevard and West Broward Boulevard (north-south) and between the Florida Turnpike and Holloway Canal (east-west), just east of NW 65th Avenue.

This \$2.7 million project consisted of approximately 30,650 feet of new 6-inch, 8-inch and 12-inch diameter water mains and appurtenances for approximately 400 residential homes in the Plantation Gardens area. New fire hydrants and water services for domestic and irrigation services were provided for the existing homes. Old mains were abandoned and grouted. Public roadways, private driveways, including pavement markings & corresponding signage, sidewalks, curbs & gutters, irrigation and landscaping were restored resulting from the construction efforts. WFI was responsible for the design (including design and as-built surveying), permitting, bidding, construction, inspection and certification services.

Project was completed in 2015 and was under budget.

The NE 27th Avenue & NE 28th Street Drainage Improvement project is generally located within the city owned right-of-way along NE 27th Avenue, between NE 28th Street and NE 24th Street. This residential neighborhood drainage improvement project was comprised of upgrading the existing drainage facilities and roadway resurfacing in the area. The project's total cost was \$955,000, which included a new drainage backbone for the area comprised of 2,355 feet of 15 & 18 inch A-2000 drainage pipe, four connections to the existing drainage system, 25 catch basins with concrete aprons, one manhole, the removal of the existing drainage system (19 inlets, 2,050 feet of pipe), repair and replacement of the existing asphalt and impacted driveways, construction of a swale system to account for water quality (6,100 square yards) & sodding, milling and resurfacing of 7,535 square yards of existing pavement, reconstruction and regrading of a portion of roadway 150 feet in length, and removal and replacement of 1,125 feet of 5 feet concrete sidewalk. A detailed grading plan was prepared to improve runoff conveyance and meet the required retention within the new swale system. Pavement and traffic signage plans were prepared. Winningham & Fradley, Inc. was responsible for the design, permitting, construction, inspection and certification services for this project. The project was completed on schedule and on budget in October of 2016.

Plantation Sewer Lift Station #103 Replacement - Plantation, Florida	CONSTRUCTION (If applicable)			
	2018	2020		
23. PROJECT OWNER'S INFORMA	TION			

a. PROJECT OWNER	b. POINT OF CONTACT NAME	c. POINT OF CONTACT TELEPHONE NUMBER
City of Plantation	Daniel Pollio, Assistant Utilities Director	(954) 797-2209

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

Sewer Lift Station #103 is generally located between Sunrise Boulevard and West Broward Boulevard (north-south) and between the Florida Turnpike and State Road 7 (east-west), on the east side of NW 47th Terrace, just north of NW 6th Court, within the Breezeswept Park Estates Community.

This estimated \$953,000 project consists of converting an old City "can-type" station into a new submersible station. The original intent was to include two submersible pumps together with one additional back-up diesel pump to replace the existing generator. Since the City determined that the existing generator was sufficient, the additional diesel powered pump alternative was abandoned. Included is a new 12 feet diameter wet well, with 8-inch discharge, 2-50 horsepower pumps with 3-phase electric motors, separate valve vault box, new telemetry, electrical control panel and all appurtenances. The design flow is approximately 1400 gallons per minute (GPM). A new 12-inch forcemain was designed from the valve box to connect to the existing forcemain at the site. A new manhole is to be constructed over an existing 18-inch gravity main, re-routing the sewer flow to the new wet well. Approximately 200 feet of existing 12-inch, 15-inch and 18-inch gravity main will be lined for this project. This project also includes a separate demolition & dewatering plan to ensure that the existing conditions demand sewer flow is uninterrupted while the new station is being constructed. The existing large vault structure, including sidewalks and stairs will remain after construction is complete.

Winningham & Fradley, Inc. was responsible for the design, surveying, bidding, and permitting for this project. The project is now underway and our construction & inspection services are in progress.

The design & permitting phase was completed in December of 2018. The bidding was completed in 2019 and the construction began in late 2019. The project is currently on budget and we expect completion in late summer of 2020, so as we can coordinate project close-out, prepare as-builts and perform our certification services.

City of Plantation Daniel Pollio, Assistant Utilities Director (954)797-2209 24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

Consultant review of Utility Infrastructure Projects from private developers.

Designed and prepared construction drawings for Neighborhood water and wastewater rehabilitation projects.

Designed and prepared construction drawings for sewer pumping (lift) stations that were in need of

replacement/rehabilitation. Developed maps, master water and sewer plans, phasing plans, exhibits, aerials, etc. as requested. Developed General water and sewer system technical specifications, details and manuals (including sewer pumping stations, manhole rehabilitation and sewer main lining, lift station generators). Completed and adopted the City of Plantation's "Water and Wastewater Utility Specifications and Details Manual" for public use in February 2019 as old manual was outdated. Performed Master Planning for water and sewer systems. Performed surveying, permitting, bidding, construction management, inspection and certification services, and project closeout for all City water and wastewater construction projects. General tasks included cost estimating, bid documents and specifications, assistance with Federal Loan documents, including conducting field interviews, prepare as-builts, construction scheduling, prepare and review certified pay requests, shop drawing reviews, review and monitor pollution prevention, monitor critical path testing elements and review and prepare inspection reports, and field coordination.

Numerous detailed projects and their scopes, sizes & costs are provided within "our experience" section of this proposal.

Our contract began in 2006 and we are currently working on two small projects and one sewer lift station rehabilitation project that is in the construction phase. The lift station project is expected to be completed in the third quarter of 2020 and its construction cost is estimated at \$947,000. The first small project is in the construction phase. It includes minor civil engineering modifications to an existing city owned museum. Total construction cost is estimated at \$75,000. This project is expected to be completed in July of 2020. The second project is a surface water management modeling analysis with accompanying report for the City's Central Water Treatment Plant. Project cost is approximately \$100,000.00. This report and the City's in house design plans to permit constructed site facilities and future site build-out are currently in the permitting phase. Our expected completion date for our services relating to this project is May 2020.

Lanzo Construction	Project M	anager/Project Coordinator	1983-1990

Lanzo Construction Project Manager/Project Coordinator 1983—1990 Detroit, Michigan / Orlando, Florida / Pompano Beach, Florida

Engineering contracting company specializing in complete site development, underground electrical duct banks, and water/wastewater/drainage collection systems. Began operations in 1990 with revenues under One Million Dollars. Built business to achieve average annual revenues in excess of \$12,000,000 with thirty-five employees, fielding five work crews. Successfully completed hundreds of projects for various municipalities and private corporations throughout South Florida the following represent a partial list.

Project Partners include:

- City of Ft. Lauderdale, Florida
 Florida Power & Light
 - WCI

• Palm Beach, Florida

- Hollywood, Florida
- · Parkland, Florida

- Macomb County Dept. of Roads
- City of Troy MI

Selected Projects:

• MDWASD Shenandoah Area (Phase B) Design Build The work consists of constructing approximately 46,000 feet of 8" ductile iron pipe water main, performing water meter conversions for approximately 650 individual residences. The water meter conversion includes relocating the existing water meter from the rear of the property to the front of the property.

MICHAEL GREEN

Hollywood, FL • Contact: (954) 303-8341 green2ma@yahoo.com; michaelg@southernundergroundindustries.com

QUALIFICATIONS:

With over 15 years of professional experience gained from working on diverse heavy construction projects (from underground infrastructure to water and wastewater treatment plant construction), I have a clear understanding of what it takes to deliver success to clients and am more than capable of providing the necessary services to do so. Passion for the building industry, multitasking abilities, and organizational skills allow me to coordinate subcontractors, progress meetings, material procurement, estimate and prepare cost proposals, document control, prepare and update progress schedules utilizing construction scheduling software, prepare cost forecasts, process shop drawings, RFIs, and issue subcontracts and purchase orders in an efficient manner that meets the needs of clients.

EDUCATION:

Master of International Construction Management, December 2012, University of Florida Bachelor of Science in Business Administration, April 2007, Nova Southeastern University

PROFESSIONAL EXPERIENCE:

2019 - Present: SOUTHERN UNDERGROUND INDUSTRIES, INC. (Pompano Beach, FL) Project Manager

Oversee all aspects of assigned projects from initial buy-out to final closeout, issuing purchase orders, subcontracts, shop drawing review, scheduling, payment requisitions, Owner/Engineer communication, project change order negotiations.

2010 - 2019: LANZO CONSTRUCTION CO. (Deerfield Beach, FL) Project Manager

Started as an assistant estimator for 1 year until transitioning into Project Manager; Assisted in preparing bids and developing standard procedures for bidding and file management and for soliciting subcontractors and vendors; Oversee all aspects of assigned projects from initial buy-out to final closeout; issuing purchase orders, subcontracts, shop drawing review, scheduling, payment requisitions, Owner/Engineer communication, project change order negotiations.

2006 - 2010: INTRASTATE CONSTRUCTION CORP. (Davie, FL) Field Engineer

Started as a laborer and used experience and education as a catalyst to become a field engineer / assistant project manager. Participated in all aspects of projects from estimating to close-out (final lien releases & retainage release); Estimating and preparing bid documents; Develop baseline project schedules; Coordinate subcontractors and progress meetings; Jobsite recordkeeping (shop drawings, RFIs, quality control testing, material orders, change orders); Assist with monthly pay applications using AIA Document G702; Assist field supervisors interpreting drawings, specs, RFIs, or any other questions from the Owner/Architect/Engineer; Company bought out by Lanzo Construction in October 2010.

2003 - 2006: RIC-MAN INTERNATIONAL, INC. (Pompano Beach, FL) General Construction Labor

Worked as a general laborer on main line, restoration, and service/testing crews garnering significant field experience in underground utility and infrastructure construction and the use of heavy equipment.

NOTABLE PROJECTS:

• Broward County Regional Sewer Air Release Valve Replacement \$1,549,905; Installing new ARVs and structures throughout the County • City of Ft. Lauderdale Annual Sewer Repairs and Replacement \$9,035,742; Various sized gravity sewer and manhole replacement

Anthony Marini Lighthouse Point, FL • Contact: (954) 547-9252 anthonymarini1992@gmail.com

QUALIFICATIONS:

With over 6 years of professional experience gained from working on diverse heavy construction projects (from underground infrastructure to water and wastewater treatment plant construction), I have a clear understanding of what it takes to deliver success to clients and am more than capable of providing the necessary services to do so. Passion for the building industry, multitasking abilities, and organizational skills allow me to coordinate subcontractors, progress meetings, material procurement, estimate and prepare cost proposals, document control, prepare and update progress schedules utilizing construction scheduling software, prepare cost forecasts, process shop drawings, RFIs, and issue subcontracts and purchase orders in an efficient manner that meets the needs of clients.

EDUCATION:

Bachelor's degree in Environmental Engineering, August 2015, University of Central Florida

PROFESSIONAL EXPERIENCE:

2021-Current: Southern Underground Industries (Pompano Beach, FL) Project Manager

Overseeing all of the Maintenance contracts in Broward and Dade County. Assisting with the estimating division helping procure quotes and subcontracts. Assisting in all aspects of assigned projects from initial buy-out to final closeout, issuing subcontracts, scheduling, payment requisitions, Owner/Engineer communication, project change order negotiations. Verifying field quantities, preparing monthly pay estimate, coordinating subcontractors.

2018 - 2020: LANZO CONSTRUCTION CO. (Deerfield Beach, FL) Field Superintendent

Oversaw the daily construction activities at the work site. Responsible for the overall progress of the project as well as the scheduling of workers and the delivery of equipment and materials. Assisted in all aspects of assigned projects from initial buyout to final closeout, issuing subcontracts, scheduling, payment requisitions, Owner/Engineer communication, project change order negotiations. Verifying field quantities, preparing monthly pay estimate, coordinating subcontractors.

2015 - 2018: LANZO CONSTRUCTION CO. (Deerfield Beach, FL) Project Engineer

Started as a laborer and used experience and education as a catalyst to become a Project engineer / assistant project manager. Participated in all aspects of projects from estimating to close-out (final lien releases & retainage release); Estimating and preparing bid documents; Develop baseline project schedules; Coordinate subcontractors and progress meetings; Jobsite recordkeeping (shop drawings, RFIs, quality control testing, material orders, change orders); Assist with monthly pay applications using AIA Document G702; Assist field supervisors interpreting drawings, specs, RFIs, or any other questions from the Owner/Architect/Engineer.

NOTABLE COMPLETED PROJECTS:

• Miami Dade Water and Sewer Dept; Donut Hole Design Build \$8,265,000; 35,000 LF of water main upgrades

• Miami Dade Water and Sewer Dept; Shenandoah Phase B Design Build \$14,340,888; 46,000 LF of water main and sanitary sewer

• Delray Beach; New Reclaimed water installation 8,000LF, 5000 LF of water main and sanitary sewer \$4,310,000

• North Miami Beach Norwood-Oeffler WTP VOC Removal \$6,483,076; misc. plant process piping and electrical upgrades and retrofits

• Coral Springs Improvements District WTP and WWTP Improvements \$18,155,000; new RO filtration systems and process piping

CIVIC INVOLVEMENT

Past Chairman of the City of Lighthouse Point Planning and Zoning Board

PROFESSIONAL EXPERIENCE

1980 to Present: President and Principal, Winningham and Fradley, Inc.

Duties include the direction of a wide range of engineering projects including the design of additions to a water treatment plant, analysis of wastewater transmission systems, comprehensive drainage studies, design of roadways, the site engineering design of major residential and commercial developments, all phases of civil site development engineering, and is the City Engineer for the City of Lighthouse Point.

1976 to 1980: Chief Civil Engineer and Surveyor, Broome & Farina, Inc.

Duties included supervision of the firm's surveying department, assistant city engineer to the City of Dania, and design engineer for all phases of site development.

1971 to 1976: Surveyor, Winningham & Lively, Inc.

Duties included all phases of land surveying work associated with site development. This work was performed full and part time while attending school.

Mr. Winningham's experience includes:

- Design of major water distribution and sewage collection transmission systems for a local utility company.
- Design of sewage pumping stations.

- Design of water treatment plant modifications.
- Design of major and minor roadways.
- Design of water distribution, sewage collection, paving, grading, and drainage systems for new and existing residential, commercial, and industrial developments.
- Design of fluoride treatment system water treatment plant modifications.
- Design of site development for the cities of Lighthouse Point and Dania City Hall.
- Storm water data collection and management studies, reports, and neighborhood CIP projects and systems design.
- Site planning for single and multi-family developments.
- Feasibility and environmental studies and reports.
- Inspections for water, sewer, roadway, and drainage improvements.
- Land and right-of-way surveying.
- Right-of-way map and legal description preparations.
- Review of development plans submitted to the City of Lighthouse Point by other engineers.
- Assistance in the preparation of city ordinances and developer agreements.
- Assistance in matters concerning citizen complaints regarding drainage, roads, and other engineering matters.
- Implementation of a surveying management system.
- Coordination of survey crews.
- Checking of survey work.
- Master planning for Water Distribution Sewage Collection/Transmission and Drainage Systems.

Senior Engineer, Vice President, and Principal

PROFESSIONAL AFFILIATIONS

American Society of Civil Engineers, Life Member Florida Engineering Society National Society of Professional Engineers United States Committee on Irrigation and Drainage Florida Stormwater Association American Concrete Institute American Society for Testing and Materials Florida Society of Surveyors and Mappers

PROFESSIONAL EXPERIENCE

1980 to Present: Senior Engineer, Vice President, and Principal, Winningham & Fradley, Inc.

Duties include the coordination and supervision of the engineering and administrative staff, civil engineering design, preparation of engineering studies and reports, field inspections, subdivision planning, surveying, liaison with clients and governmental agencies, development of computer programs and systems, training of engineering personnel, testimony as an expert witness, and District Engineer for a local Drainage District.

1973 to 1980: Design Engineer, Broome & Farina, Inc.

Duties included complete site development design, roadway design, design supervision of others assigned to projects, liaison with clients and governmental agencies, internal administration relative to all projects through their completion, including the construction phase, coordination and preparation of plats, field inspection and surveying, and the company's introduction to and use of computers for engineering and surveying.

1972 to 1973: Engineering Technician, Dade County Public Works Department

Duties included work as one of only two field operators for the Water Control District and as a roadman on a survey crew.

Mr. Fradley's experience includes:

- Design of major and minor roadways.
- Design of simple span bridges.
- Design water distribution, sewage collection, paving, grading, and drainage systems for new and existing residential, commercial, and industrial developments.
- Water distribution system network analysis for a nine square mile service area and assistance, as a special consultant, for a 20 square mile area.
- Storm water management studies, data collection, modeling and reports, and systems design.
- Site planning for single and multi-family developments.
- Structural design of four story practice fire tower and other minor structures.
- Feasibility and environmental studies and reports, including evaluation of waterways, and neighborhood CIP projects and costs.
- Coordination of all platting including survey supervision, calculations, presentations, and recordation.
- Development of computer programs for network analysis, storm water management, hydraulics, pump station design, surveying, and many other minor civil engineering applications.
- Management and implementation of company's computer and network system.
- Review and permitting of drainage designs submitted by other consultants, in the capacity of the Drainage District Engineer and City's Consultant.
- Modifications to a Drainage District's Amended Plan of Reclamation and master drainage study.
- Development of technical component of the Policies and Procedures for Regulatory Agency.
- Right-of-way map and legal description preparations.
- Inspections for water, sewer, roadway, drainage, and bridge improvements.
- Preparation of legal descriptions for parcels, right-of-ways, and easements.
- Preparation of developer's agreements and contribution in aid of construction calculations.
- Coordination of work on and checking of right-of-way maps.
- The monitoring of water and rainfall levels throughout Dade County.
- The operation of salinity dams and water control structures in Dade County.
- Surveying for the Dade County Water Control District.

EDUCATION

B.S. Civil Engineering

Georgia Institute of Technology, Savannah, Georgia 2006

Licensing & Certifications

Licensed Professional Engineer No. 81229, Florida Board of Professional Engineers Leadership in Energy and Environmental Design Accredited Professional (LEED AP): BD+C and ND, Green Building Certification, Inc.

Advanced Certified Stormwater Inspector, National Stormwater Center, Florida - NPDES Number 3704 Qualified Stormwater Management Inspector, National Stormwater Center, Florida - NPDES Number 47562

Professional Affiliations

American Society of Civil Engineers (ASCE), American Concrete Institute (ACI), National Society of Professional Engineers (NSPE), American Water Works Association (AWWA), ASTM International, Florida Engineering Society (FES), and Florida Association of Veteran-Owned Businesses (FAVOB).

U.S. Army, 5 years Active Duty, Honorable Discharge

PROFESSIONAL EXPERIENCE

2021 to present: Senior Engineer, Winningham & Fradley, Inc.

2013 to 2021: Owner/President, Pell Engineering, LLC.

2006 to 2013: Engineer Intern, Winningham & Fradley, Inc.

Ms. Pell's duties include leading project teams, implementing the latest in technology, and maintaining high company standards.

The following is a comprehensive list of specific tasks performed:

- Oversee Office Staff
- Project Management: Commercial, Residential, Industrial, Municipal
- Re-zoning
- Site Investigation & Due Diligence Consulting
- Site Planning
- Preliminary Engineering & Final Design
- General Consulting
- Engineer's Cost Estimates
- Bid Evaluation
- Construction Inspection
- Shop Drawings Review & Approval
- Construction Administration

- Consultant / Contractor / Materials Testing Coordination
- Contract / Project Close-Out Certifications
- Contractor Selection
- Erosion & Sedimentation Control
- Lift station design & Pump Selection
- Concrete slab design
- Project Proposals
- Value Engineering
- Project coordination with other land development design team sectors: Landscaping, Surveying, Platting, Site Lighting, Tree Identification and Forest Management, Wetlands & Environmental, Geotechnical, Land Use, Transportation Engineering, Marine, Mechanical, Plumbing, Electrical, etc.
- Design calculations including pipe sizing, dewatering, exfiltration, grading, surface runoff, fire flow analysis, and gravity sewer flows
- Permit Applications Federal, State, County, City
- Correspond and coordinate with Federal, State, county agencies, municipalities, water management districts throughout the state of Florida.
- Project Engineer Plantation Acres Improvement District (PAID), Plantation, Florida.

Project Methodology and Approach

The basic approach to achieving success for this renovation/replacement project is for the Team to up front both plan and schedule the tasks necessary to develop a sound project direction. Because of the shortages of construction materials and the longer than usual delivery times it is paramount to have all the tasks clearly defined. We believe the experience of our members will help accomplish this develop goal.

Tasks

- Team meeting to develop tasks
- Assign team members to complete tasks
- Site investigation to establish conditions
- · Meet with owner to firm up project goals
- Design and Development of the projects
- Establish the approved materials of construction
- Layout the work for the project
- Work with vendors and subcontractors to confirm their requirements
- Finish design and engineering
- Meet with owner for project approval
- Obtain the necessary permits and approvals
- Release materials for delivery
- Mobilization the site for construction activities
- Install the MOT
- Install the water lines and test the systems
- Cut, cap, abandon and grout existing lines
- Patch roadwork and provide full lane restoration
- Install road marking
- Clean site and demobilize

NON-COLLUSION STATEMENT:

By signing this offer, the vendor/contractor certifies that this offer is made independently and *free* from collusion. Vendor shall disclose below any City of Fort Lauderdale, FL officer or employee, or any relative of any such officer or employee who is an officer or director of, or has a material interest in, the vendor's business, who is in a position to influence this procurement.

Any City of Fort Lauderdale, FL officer or employee who has any input into the writing of specifications or requirements, solicitation of offers, decision to award, evaluation of offers, or any other activity pertinent to this procurement is presumed, for purposes hereof, to be in a position to influence this procurement.

For purposes hereof, a person has a material interest if they directly or indirectly own more than 5 percent of the total assets or capital stock of any business entity, or if they otherwise stand to personally gain if the contract is awarded to this vendor.

In accordance with City of Fort Lauderdale, FL Policy and Standards Manual, 6.10.8.3,

3.3. City employees may not contract with the City through any corporation or business entity in which they or their immediate family members hold a controlling financial interest (e.g. ownership of five (5) percent or more).

3.4. Immediate family members (spouse, parents and children) are also prohibited from contracting with the City subject to the same general rules.

Fallure of a vendor to disclose any relationship described herein shall be reason for debarment in accordance with the provisions of the City Procurement Code.

NAME		RELATIONSHIPS

CONTRACT PAYMENT METHOD

The City of Fort Lauderdale has implemented a Procurement Card (P-Card) program which changes how payments are remitted to its vendors. The City has transitioned from traditional paper checks to credit card payments via MasterCard or Visa as part of this program.

This allows you as a vendor of the City of Fort Lauderdale to receive your payments fast and safely. No more waiting for checks to be printed and mailed.

In accordance with the contract, payments on this contract will be made utilizing the City's P-Card (MasterCard or Visa). Accordingly, bidders must presently have the ability to accept these credit cards or take whatever steps necessary to implement acceptance of a card before the start of the contract term, or contract award by the City.

All costs associated with the Contractor's participation in this purchasing program shall be borne by the Contractor. The City reserves the right to revise this program as necessary.

By signing below you agree with these terms.

CONTRACTOR'S CERTIFICATE OF COMPLIANCE WITH NON-DISCRIMINATION PROVISIONS OF THE CONTRACT

The completed and signed form should be returned with the Contractor's submittal. If not provided with submittal, the Contractor must submit within three business days of City's request. Contractor may be deemed non-responsive for failure to fully comply within stated timeframes.

Pursuant to City Ordinance Sec. 2-187(c), bidders must certify compliance with the Non-Discrimination provision of the ordinance.

The Contractor shall not, in any of his/her/its activities, including employment, discriminate against any individual on the basis of race, color, national origin, religion, creed, sex, disability, sexual orientation, gender, gender identity, gender expression, or marital status.

- 1. The Contractor certifies and represents that he/she/it will comply with Section 2-187, Code of Ordinances of the City of Fort Lauderdale, Florida, as amended by Ordinance C-18-33 (collectively, "Section 2-187").
- The failure of the Contractor to comply with Section 2-187 shall be deemed to be a material breach of this Agreement, entitling the City to pursue any remedy stated below or any remedy provided under applicable law.
- 3. The City may terminate this Agreement if the Contractor fails to comply with Section 2-187.
- 4. The City may retain all monies due or to become due until the Contractor complies with Section 2-187.
- The Contractor may be subject to debarment or suspension proceedings. Such proceedings will be consistent with the procedures in section 2-183 of the Code of Ordinances of the City of Fort Lauderdale, Florida.

Bid 12713-125, Design Build New River Water Watermain Extension- Phase 2

The Contractor and Surety are bound to the Owner in the amount set forth above, for the payment of which the Contractor and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, as provided herein. The conditions of this Bond are such that if the Owner accepts the bid of the Contractor within the time specified in the bid documents, or within such time period as may be agreed to by the Owner and Contractor, and the Contractor either (1) enters into a contract with the Owner in accordance with the terms of such bid, and gives such bond or bonds as may be specified in the bidding or Contract Documents, with a surety admitted in the jurisdiction of the Project and otherwise acceptable to the Owner, for the faithful performance of such Contract and for the prompt payment of labor and material furnished in the prosecution thereof; or (2) pays to the Owner may in good faith contract with another party to perform the work covered by said bid, then this obligation shall be null and void, otherwise to remain in full force and effect. The Surety hereby waives any notice of an agreement between the Owner and Contractor to extend the time in which the Owner may accept the bid. Waiver of notice by the Surety shall not apply to any extension exceeding sixty (60) days in the aggregate beyond the time for acceptance of bids specified in the bid documents, and the Owner and Contractor shall obtain the Surety's consent for an extension beyond sixty (60) days.

If this Bond is issued in connection with a subcontractor's bid to a Contractor, the term Contractor in this Bond shall be deemed to be Subcontractor and the term Owner shall be deemed to be Contractor.

When this Bond has been furnished to comply with a statutory or other legal requirement in the location of the Project, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted herefrom and provisions conforming to such statutory or other legal requirement shall be deemed incorporated herein. When so furnished, the intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

POWER OF ATTORNEY HARCO NATIONAL INSURANCE COMPANY

INTERNATIONAL FIDELITY INSURANCE COMPANY

Member companies of IAT Insurance Group, Headquartered: 702 Oberlin Road, Raleigh, North Carolina 27605

KNOW ALL MEN BY THESE PRESENTS: That HARCO NATIONAL INSURANCE COMPANY, a corporation organized and existing under the laws of the State of Illinois, and INTERNATIONAL FIDELITY INSURANCE COMPANY, a corporation organized and existing under the laws of the State of New Jersey, and having their principal offices located respectively in the cities of Rolling Meadows, Illinois and Newark, New Jersey, do hereby constitute and appoint

JARRETT MERLUCCI, BRETT ROSENHAUS, CHARLES J. NIELSON, CHARLES D. NIELSON, JOSEPH P. NIELSON

Miami Lakes, FL

their true and lawful attorney(s)-in-fact to execute, seal and deliver for and on its behalf as surety, any and all bonds and undertakings, contracts of indemnity and other writings obligatory in the nature thereof, which are or may be allowed, required or permitted by law, statute, rule, regulation, contract or otherwise, and the execution of such instrument(s) in pursuance of these presents, shall be as binding upon the said HARCO NATIONAL INSURANCE COMPANY and INTERNATIONAL FIDELITY INSURANCE COMPANY, as fully and amply, to all intents and purposes, as if the same had been duly executed and acknowledged by their regularly elected officers at their principal offices.

This Power of Attorney is executed, and may be revoked, pursuant to and by authority of the By-Laws of HARCO NATIONAL INSURANCE COMPANY and INTERNATIONAL FIDELITY INSURANCE COMPANY and is granted under and by authority of the following resolution adopted by the Board of Directors of INTERNATIONAL FIDELITY INSURANCE COMPANY at a meeting duly held on the 13th day of December, 2018 and by the Board of Directors of HARCO NATIONAL INSURANCE COMPANY at a meeting held on the 13th day of December, 2018.

"RESOLVED, that (1) the Chief Executive Officer, President, Executive Vice President, Senior Vice President, Vice President, or Secretary of the Corporation shall have the power to appoint, and to revoke the appointments of, Attorneys-in-Fact or agents with power and authority as defined or limited in their respective powers of attorney, and to execute on behalf of the Corporation and affix the Corporation's seal thereto, bonds, undertakings, recognizances, contracts of indemnity and other written obligations in the nature thereof or related thereto; and (2) any such Officers of the Corporation may appoint and revoke the appointments of joint-control custodians, agents for acceptance of process, and Attorneys-in-fact with authority to execute waivers and consents on behalf of the Corporation; and (3) the signature of any such Officer of the Corporation and the corporation's seal may be affixed by facsimile to any power of attorney or certification given for the execution of any bond, undertaking, recognizance, contract of indemnity or other written obligation in the nature thereof or related thereto; being hereby adopted by the Corporation as the original signature of such officer and the original seal of the Corporation, to be valid and binding upon the Corporation with the same force and effect as though manually affixed."

IN WITNESS WHEREOF, HARCO NATIONAL INSURANCE COMPANY and INTERNATIONAL FIDELITY INSURANCE COMPANY have each executed and attested these presents on this 31st day of December, 2018

STATE OF NEW JERSEY County of Essex

STATE OF ILLINOIS County of Cook

Kenneth Chapman Executive Vice President, Harco National Insurance Company and International Fidelity Insurance Company

On this 31st day of December, 2018 , before me came the individual who executed the preceding instrument, to me personally known, and, being by me duly sworn, said he is the therein described and authorized officer of HARCO NATIONAL INSURANCE COMPANY and INTERNATIONAL FIDELITY INSURANCE COMPANY; that the seals affixed to said instrument are the Corporate Seals of said Companies; that the said Corporate Seals and his signature were duly affixed by order of the Boards of Directors of said Companies.

IN TESTIMONY WHEREOF, I have hereunto set my hand affixed my Official Seal, at the City of Newark, New Jersey the day and year first above written.

Shirelle A. Outley a Notary Public of New Jersey My Commission Expires April 4, 2023

CERTIFICATION

I, the undersigned officer of HARCO NATIONAL INSURANCE COMPANY and INTERNATIONAL FIDELITY INSURANCE COMPANY do hereby certify that I have compared the foregoing copy of the Power of Attorney and affidavit, and the copy of the Sections of the By-Laws of said Companies as set forth in said Power of Attorney, with the originals on file in the home office of said companies, and that the same are correct transcripts thereof, and of the whole of the said originals, and that the said Power of Attorney has not been revoked and is now in full force and effect.

IN TESTIMONY WHEREOF, I have hereunto set my hand on this day, August 22, 2022

ADDENDUM #1

The Contractor has the sole responsibility for all insurance premiums and shall be fully and solely responsible for any costs or expenses as a result of a coverage deductible, co-insurance penalty, or self-insured retention; including any loss not covered because of the operation of such deductible, co-insurance penalty, self-insured retention, or coverage exclusion or limitation. Any costs for adding the City as an Additional Insured shall be at the Contractor's expense.

If the Contractor's primary insurance policy/policies do not meet the minimum requirements, as set forth in this Agreement, the Contractor may provide evidence of an Umbrella/Excess insurance policy to comply with this requirement.

The Contractor's insurance coverage shall be primary insurance as respects to the City, a Florida municipal corporation, its officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, a Florida municipal corporation, its officials, employees, or volunteers shall be non-contributory.

Any exclusion or provision in any insurance policy maintained by the Contractor that excludes coverage required in this Agreement shall be deemed unacceptable and shall be considered breach of contract.

All required insurance policies must be maintained until the contract work has been accepted by the City, or until this Agreement is terminated, whichever is later. Any lapse in coverage shall be considered breach of contract. In addition, Contractor must provide to the City confirmation of coverage renewal via an updated certificate should any policies expire prior to the expiration of this Agreement. The City reserves the right to review, at any time, coverage forms and limits of Contractor's insurance policies.

The Contractor shall provide notice of any and all claims, accidents, and any other occurrences associated with this Agreement to the Contractor's insurance company or companies and the City's Risk Management office, as soon as practical.

It is the Contractor's responsibility to ensure that any and all of the Contractor's independent contractors and subcontractors comply with these insurance requirements. All coverages for independent contractors and subcontractors shall be subject to all of the applicable requirements stated herein. Any and all deficiencies are the responsibility of the Contractor.

All other terms, conditions, and specifications remain unchanged.
