CODING: Words, symbols, and letters ~~stricken~~ are deletions; words, symbols, and letters underlined are additions.

railroad property, telephone and telegraph lines, and telephone and telegraph property and all other taxable property lying within the district over which the comptroller has jurisdiction for valuation or assessment purposes. (b) The governing board shall thereupon by resolution fix and determine the distribution of the benefits tax which, when levied, will raise the total amount to be raised by taxation in that year necessary to meet the costs of district works as provided in the budget for that year, and shall designate the geographical areas or zones specially benefited by such activities and the millages to be applied to the several areas. It is the intent of this provision that the geographical areas which will be specially benefited by each proposed or undertaken major activity or construction shall insofar as possible bear the cost of such works, to the end that the tax burden shall be distributed, within the limits of administrative feasibility, proportionately to the benefits.

(1) For this purpose the governing board may, by resolution at the time of adopting a plan for specific water management works, or at such other time as may be convenient, determine and designate the total area which will be benefited by such works, and may determine and designate unit areas within the total area in which benefits are deemed to be proportionately equal. The governing board may indicate comparative degrees of benefit and the geographical boundaries of the total areas and the unit areas, and may amend and adjust these when and as often as necessary in order to carry out the intent of this provision.

(2) Provided, however, that all determinations of the governing board relative to the allocation and assessment of the district taxes provided for in this section shall be subject to review and equalization by the city commission in like manner as county taxes.

(c) The governing board shall thereafter certify to the tax assessor of the county, and to the comptroller of the State of Florida, timely for incorporating into the completed tax roll, the total millage rate to be applied to the properties within the district and under their respective jurisdictions, indicating where appropriate the rates by areas and units. The tax assessor shall extend on his county tax roll the amount of such tax, determined at the rates certified to him by the governing board, and shall certify the same to the tax collector at the same time and in like manner as for county taxes. The comptroller shall levy and collect the tax applicable to properties under his jurisdiction, determined at the rates certified to him by the governing board, in the same

manner and at the same time as he is required by law to assess and collect such taxes for county purposes.

(d) All taxes so collected shall be paid over to the governing board for its use pursuant to this chapter.

(e) Collection of district taxes, the issuance of tax sale certificates for nonpayment thereof, the redemption or sale of said certificates, the vesting of title by tax forfeiture, and the sale of the land and other real estate so forfeited shall be at the same time, in conjunction with, and by like procedure and of like effect as is provided by law with respect to county taxes, nor may either the county or the district taxes be paid or redemption effected without the payment or redemption of both. The title to district tax forfeited land shall vest in the county on behalf of the district along with that of the county for county tax forfeited land, said district tax forfeited land to be held, sold or otherwise disposed of by the county for the benefit of the district. The proceeds therefrom, after deducting costs, shall be paid to the district in amounts proportionate to the respective tax liens thereon.

(f) The district tax liens shall be of equal dignity with those of the city.

(g) The tax officers of the county are hereby authorized and directed to perform the duties evolving upon them under this chapter, and to receive compensation therefor at such rates or charges as are provided by law with respect to similar services or charges in other cases.

Section 28-310. - Cost of organization and initial expenses.

If it should appear necessary to procure funds with which to pay expenses of organizing the district before a sufficient sum can be obtained from the collection of taxes, the governing board may borrow a sufficient amount of money to meet such expenses, and may issue interest bearing negotiable notes therefor and pledge the proceeds of the tax imposed under the provisions of this chapter for the repayment thereof. The governing board may issue to any person performing work or services, or furnishing anything of value in the organization of the district, interest bearing negotiable evidence of debt.

(a) Land held by the trustees of the internal improvement fund shall be subject to the taxes imposed under authority of this chapter, and said trustees are authorized to pay the same out of any money in their possession derived from the sale of land or otherwise. For facilitating the

assessment of district taxes on land of said fund, the trustees thereof are authorized to prepare lists of land held by them and, timely for the purpose, to transmit a list of said land to the tax assessor of the county, and the tax assessor is directed to extend said land upon the district tax roll according to the description furnished by said trustees and to ascertain the value thereof as for other land.

(b) Land comprising part of the principal of the state school fund declared by the constitution to be "sacred and inviolate," or other real estate, title to which is in the state board of education, shall not be subject to the district taxes nor shall there be liability therefor upon any state agency.

(c) There shall be excluded from district taxes all bodies of navigable water, unreclaimed water areas meandered by the public surveys, all rights-of-way of said district, all areas devoted or dedicated to the use of and for the works of the district, rights-of-way of state and county highways, and streets within the limits of incorporated towns, and property owned by a public agency open to the use of the public or for the public benefit not leased to or operated by a private agency.

Section 28-312. - Treasurer and depositories.

The governing board shall designate a treasurer who shall be the custodian of all funds belonging to the governing board and to the district, and such funds shall be disbursed only upon the order of the governing board. The governing board is hereby authorized to select as depositories in which the funds of the governing board and of the district shall be deposited any banking corporation, organized under the laws of the state or under the national banking act, doing business in the state, upon such terms and conditions as the governing board shall deem just and reasonable.

Section 28-313. - Investment of funds.

The governing board of the district may, in its discretion, invest funds of the district as provided for below or as consistent with Chapter 189, Florida Statutes.
