- 3.2 CITY and CONSULTANT acknowledge that the Scope of Services does not delineate every detail and minor work tasks required to be performed by CONSULTANT to complete the Project. If, during the course of the performance of the services included in this Agreement, CONSULTANT determines that work should be performed to complete the Project, which is in CONSULTANT's opinion, outside the level of effort originally anticipated, whether or not the Scope of Services identifies the work items, CONSULTANT shall notify Contract Administrator and obtain written approval by the Contract Administrator before proceeding with the work. In the event of any inconsistency in the Contract Documents, where such inconsistency is not clarified by change order, addendum or amendment, the Contract Documents shall be construed according to the following priorities:

First priority: Approved Change Orders, Addendums or Amendments to all related documents.

The CONSULTANT has within ten (10) working days thereafter to take such measures as will, in the judgment of the CITY, ensure satisfactory performance and completion of the Task Order. Contract Administrator may, at his or her sole option, require CONSULTANT to submit itemized deliverables/documents for the Contract Administrator's review.

- 7.4 In the event CONSULTANT is unable to complete any services because of delays resulting from untimely review by CITY or other governmental authorities having jurisdiction over the Project, and such delays are not the fault of CONSULTANT, or because of delays which were caused by factors outside the control of CONSULTANT, CITY shall grant a reasonable extension of time for completion of the services. It shall be the responsibility of the CONSULTANT to notify CITY promptly in writing whenever a delay in approval by a governmental agency is anticipated or experienced, and to inform CITY of all facts and details related to the delay.
- 7.5 The time for the performance of services described in assigned Task Orders shall be negotiated by the CITY and the CONSULTANT as the services are requested and authorized by the CITY.

8.2.3 It is acknowledged and agreed to by CONSULTANT that the dollar limitation set forth in each Task Order is a limitation upon, and describes the maximum extent of CITY's obligation to reimburse CONSULTANT for direct, non-salary expenses, but does not constitute a limitation, of any sort, upon CONSULTANT'S obligation to incur such expenses in the performance of services hereunder. If CITY or Contract Administrator requests

CONSULTANT to incur expenses not contemplated in the amount for Reimbursables, CONSULTANT shall notify Contract Administrator in writing before incurring such expenses. Any such expenses shall be reviewed and approved by CITY prior to incurring such expenses.

Accordingly, CONSULTANT does not guarantee that proposals, bids or actual costs will not vary from opinions, evaluations or studies submitted by CONSULTANT.

10.3 Should the lowest responsible, responsive proposal exceed the Final Statement of Probable Construction Costs by 10% or more, CONSULTANT shall, at the CITY'S direction, redesign each Project and/or work with the CITY to reduce the costs to within the Final Statement of Probable Construction Costs at no additional expense to the CITY. In such a circumstance, the CITY may at its sole discretion, exercise any one or more of the following options:

- CONSULTANT shall be required to amend at the sole cost and expense of CONSULTANT, the Construction Drawings, Technical Specifications and Supplemental Conditions to enable the project to conform to a maximum of ten (10%) above the Estimated Construction Costs of the project, such amendments to be subject to the written final acceptance and approval of same by the CITY;
- CONSULTANT shall be required to provide at the cost and expense of CONSULTANT, re-bidding services and related items (including costs associated with regulatory review and approval of revised documents) as many times as requested by the CITY until the base bid of at least one "best value" bid falls within the factor of ten (10%) of the Estimated Construction Cost of the project;
- The CITY may approve an increase in the Estimated Construction Cost of the Project;
- The CITY may reject all bids or proposals and may authorize re-bidding;
- The CITY may if permitted, approve a renegotiation of the Project within a reasonable time;
- The CITY may abandon the Project and terminate CONSULTANT'S work authorization and Services for the Project; or
- The CITY may select as many deductive alternatives as may be necessary to bring the award within ten percent (10%) of the Estimated Construction Costs of the Project.

It is expressly understood and agreed that the redesigning services required to keep the Project within 10% of the Estimated Construction Cost shall not be considered additional services and CONSULTANT agrees that it shall not seek compensation from the CITY for such Services.

10.4 The CONSULTANT may be requested to provide the CITY with a list of recommended, prospective proposers.

10.5 The CONSULTANT may be asked to attend all pre-bid / proposal conferences.

- 10.6 The CONSULTANT shall recommend any addenda, through the Contract Administrator, as appropriate to clarify, correct, or change proposal /bid documents.
- 10.7 If pre-qualification of proposers is required as set forth in the request for proposal, CONSULTANT shall assist the CITY, if requested, in developing qualification criteria, review qualifications and recommend acceptance or rejection of the proposers. If requested, CONSULTANT shall evaluate proposals and proposers, and make recommendations regarding any award by the CITY.
- 10.8 The CITY shall make decisions on claims regarding interpretation of the Construction Documents, and on other matters relating to the execution and progress of the work after receiving a recommendation from CONSULTANT. CONSULTANT may also assist in approving progress payments to the Contractor based on each Project Schedule of Values and the percentage of work completed.
- 10.9 The CITY shall maintain a record of all Change Orders which shall be categorized according to the various types, causes, etc. that it may be determined are useful or necessary for its purpose. Among those shall be Change Orders identified as architectural/engineering Errors or Omissions.
- 10.9.1 Unless otherwise agreed by both Parties in writing, it is specifically agreed that any change to the work identified as an Error on the part of CONSULTANT shall be considered for purposes of this Agreement to be an additional cost to the CITY which would not be incurred without the Error. Errors on the part of the CONSULTANT shall be rectified by the CONSULTANT with no additional cost to the CITY.
- 10.9.2 Unless otherwise agreed by both Parties in writing, it is further specifically agreed for purposes of this Agreement that fifteen percent (15%) of the cost of Change Orders for any item categorized as an Omission shall be considered an additional cost to the CITY which would not be incurred without the Omission. So long as the total of those two numbers (Change Order costs of Errors plus fifteen percent (15%) of Omissions) remains less than two percent (2%) of the total Construction Cost of the Project, the CITY shall not look to CONSULTANT for reimbursement for Errors and Omissions.
- 10.9.3 Should the sum of the two as defined above (cost of Errors plus fifteen percent (15%) of the cost of Omissions) exceed two percent (2%) of the Construction Cost, the CITY shall recover the full and total additional cost to the CITY as a result of CONSULTANT'S Errors and Omissions from CONSULTANT, that being defined as the cost of Errors plus fifteen percent (15%) of the cost of Omissions above two percent (2%) of the Construction Cost.

- 10.9.4 To obtain such recovery, the CITY shall deduct from CONSULTANT'S fee a sufficient amount to recover all such additional cost to the CITY.
- 10.9.5 In executing this Agreement, CONSULTANT acknowledges acceptance of these calculations and to the CITY'S right to recover same as stated above. The recovery of additional costs to the CITY under this paragraph shall not limit or preclude recovery for other separate and/or additional damages which the CITY may otherwise incur.
- 10.9.6 10.9.6 The Contract Administrator's decision as to whether a Change Order is caused by an Error or caused by an Omission, taking into consideration industry standards, shall be final and binding on both Parties for amounts in the aggregate under \$100,000 per project, subject to Section 9.3. In the event of a dispute in an amount over \$100,000, the Parties agree to use their best efforts to settle such dispute. To this effect, they shall consult and negotiate with each other, in good faith and, recognizing their mutual interests, attempt to reach a just and equitable solution satisfactory to both Parties. If they do not reach such solution within a period of sixty (60) days, then upon notice to the other, either Party may commence litigation to resolve the dispute in Broward County, Florida.

Any reuse, except for the specific purpose intended hereunder, will be at the CITY's sole risk and without liability or legal exposure to CONSULTANT or its subcontractors. This does not, however, relieve CONSULTANT of liability or legal exposure for errors, omissions, or negligent acts made on the part of CONSULTANT in connection with the proper use of documents prepared under this Agreement. Any such verification or adaptation may entitle CONSULTANT to further compensation at rates to be agreed upon by the CITY and CONSULTANT. This shall not limit the CITY'S reuse of preliminary or developmental plans or ideas incorporated therein, should the Project be suspended or terminated prior to completion.

## 12.2 TERMINATION

12.2.1 Termination for Cause. Such compensation shall be based on the fee as set forth above, wherever possible. For those portions of services rendered to which the applicable fee cannot be applied, payment shall be based upon the appropriate rates for the actual time spent on the Project. In the event that the CONSULTANT abandons this Agreement or through violation of any of the terms and conditions of this Agreement, causes it to be terminated, CONSULTANT shall indemnify the CITY against any and all loss pertaining to this termination.

All finished or unfinished documents, data, studies, surveys, drawings, maps, models, photographs and reports prepared by CONSULTANT shall become the property of CITY and shall be delivered by CONSULTANT to

the CITY within five (5) days of CITY's request. Upon payment of such sum by CITY to CONSULTANT, CITY shall have no further duties or obligations pursuant to or arising from this Agreement.

12.2.3 Notice of termination shall be provided in accordance with Section 12.26, NOTICES, except that Contract Administrator may provide a prior verbal stop work order if the Contract Administrator deems a stop work order of this Agreement in whole or in part is necessary to protect the public's health, safety, or welfare. A verbal stop work order shall be promptly confirmed in writing as set forth in Section 12.26, NOTICES.

12.2.4 Termination for Convenience. Upon being notified of CITY'S election to terminate, CONSULTANT shall refrain from performing further services or incurring additional expenses under the terms of this Agreement. Under no circumstances shall CITY make payment for services which have not been performed or not accepted.

12.2.5 Termination by Consultant. CONSULTANT shall have the right to terminate this Agreement only based upon breach by the CITY of its obligation under this Agreement as to unreasonable delay in payment or non-payment of undisputed amounts. CONSULTANT shall have no right to terminate this Agreement for convenience of the CONSULTANT.

If any audit has been initiated and audit findings have not been resolved at the end of the retention period or three (3) years, whichever is longer,

the books, records, and accounts shall be retained until resolution of the audit findings. If the Florida Public Records Act is determined by CITY to be applicable to CONSULTANT'S records, CONSULTANT shall comply with all requirements thereof; however, no confidentiality or non-disclosure requirement of either federal or state law shall be violated by CONSULTANT. Any incomplete or incorrect entry in such books, records, and accounts shall be a basis for CITY'S disallowance and recovery of any payment upon such entry.

**12.4 NON-DISCRIMINATION, EQUAL EMPLOYMENT OPPORTUNITY, AND AMERICANS WITH DISABILITIES ACT**

CONSULTANT shall not unlawfully discriminate against any person in its operations and activities in its use or expenditure of the funds or any portion of the funds provided by this Agreement and shall affirmatively comply with all applicable provisions of the Americans with Disabilities Act (ADA) in the course of providing any services funded in whole or in part by CITY, including Titles I and II of the ADA (regarding nondiscrimination or the basis of disability), and all applicable regulations, guidelines, and standards.

CONSULTANT'S decisions regarding the delivery of services under this Agreement shall be made without regard to or consideration of race, age, religion, color, gender, sexual orientation, national origin, marital status, physical or mental disability, political affiliation, or any other factor which cannot be lawfully or appropriately used as a basis for service delivery.

CONSULTANT shall comply with Title I of the Americans with Disabilities Act regarding nondiscrimination on the basis of disability in employment and further shall not discriminate against any employee or applicant for employment because of race, age, religion, color, gender, sexual orientation, national origin, marital status, political affiliation, or physical or mental disability. In addition, CONSULTANT shall take affirmative steps to ensure nondiscrimination in employment against disabled persons. Such actions shall include, but not be limited to, the following: employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff, termination, rates of pay, other forms of compensation, terms and conditions of employment, training (including apprenticeship), and accessibility.

Historically, the CITY has been able to achieve participation levels of approximately twelve percent (12%) by MBE/WBE firms in CITY projects, and in the purchase of goods and services. The CONSULTANT shall make a good faith effort to help the CITY maintain and encourage MBE/WBE participation levels consistent with such historical levels and market conditions. The CONSULTANT will be required to document all such efforts and supply the CITY with this documentation at the end of the Project, or in cases where projects are longer than one year, each CITY fiscal year.

Violation of this section by Consultant shall result in cancellation of the City purchase and may result in Consultant debarment.

12.7.1 CONSULTANT may subcontract certain items of work to subconsultant. The Parties expressly agree that the CONSULTANT shall submit pertinent information regarding the proposed subconsultant, including subconsultant's scope of work and fees, for review and approval by the CITY prior to subconsultant's proceeding with any work.

12.7.2 CONSULTANT shall utilize the subconsultants identified in the proposal that were a material part of the selection of CONSULTANT to provide the services for this Project. ## **12.9 INDEMNIFICATION OF CITY**

12.9.1 CONSULTANT shall indemnify and hold harmless CITY, its officers and employees, from liabilities, damages, losses, and costs, including but not limited to reasonable attorneys' fees, to the extent caused by the negligence, recklessness or intentional misconduct of CONSULTANT and persons employed or utilized by CONSULTANT in the performance of this Agreement. 12.9.2 To the extent considered necessary by Contract Administrator and CITY, any sums due the CONSULTANT under this Agreement may be retained by CITY until all of the CITY's claims for indemnification pursuant to this Agreement have been settled or otherwise resolved, and any amount withheld shall not be subject to payment of interest by CITY.

12.9.3 The Indemnification provided above shall obligate CONSULTANT to defend at its own expense to and through appellate, supplemental or bankruptcy proceeding, or to provide for such defense, at CITY's option,

#### 12.10 LIMITATION OF CITY'S LIABILITY

The CITY desires to enter into this Agreement only if in so doing the CITY can place a limit on the CITY'S liability for any cause of action arising out of this Agreement, so that the CITY'S liability for any breach never exceeds the sum of \$1,000.00. For other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the CONSULTANT expresses its willingness to enter into this Agreement with the knowledge that the CONSULTANT'S recovery from the CITY to any action or claim arising from the Agreement is limited to a maximum amount of \$1,000.00 less the amount of all funds actually paid by the CITY to the CONSULTANT pursuant to this Agreement. Accordingly, and notwithstanding any other term or condition of this Agreement that may suggest otherwise, the CONSULTANT agrees that the CITY shall not be liable to the CONSULTANT for damages in an amount in excess of \$1,000.00, which amount shall be reduced by the amount actually paid by the CITY to the CONSULTANT pursuant to this Agreement, for any action or claim arising out of this Agreement. Nothing contained in this paragraph or elsewhere in this Agreement is in any manner intended either to be a waiver of the limitation placed upon the CITY'S liability as set forth in Section 768.28, Florida Statutes, or to extend the CITY'S liability beyond the limits established in said Section 768.28; and no claim or award against the CITY shall include attorney's fees, investigative costs, extended damages, expert fees, suit costs or pre-judgment interest. Notwithstanding the foregoing, the parties agree and understand that the provisions of this Article 12.10 do not apply to monies owed, if any, for services rendered to CONSULTANT by the CITY under the provisions of this Agreement.

Best rating of A-, VII or better, subject to approval by the City's Risk Manager.

The coverages, limits, and/or endorsements required herein protect the interests of the City, and these coverages, limits, and/or endorsements shall in no way be relied upon by the Consultant for assessing the extent or determining appropriate types and limits of coverage to protect the Consultant against any loss exposures, whether as a result of this Agreement or otherwise. The City reserves the right to suspend the Agreement until this requirement is met.

## COMMERCIAL AUTOMOBILE BROAD FORM ENDORSEMENT

This endorsement modifies insurance provided under the following:

### BUSINESS AUTO COVERAGE FORM

To the extent that the provisions of this endorsement provide broader benefits to the "insured" than other provisions of the Coverage Form, the provisions of this endorsement apply.

#### 1. BROAD FORM INSURED

##### A. Subsidiaries and Newly Acquired or Formed Organizations

The Named Insured shown in the Declarations is amended to include:

- (1) Any legal business entity other than a partnership or joint venture, formed as a subsidiary in which you have an ownership interest of more than 50% on the effective date of the Coverage Form. However, the Named Insured does not include any subsidiary that is an "insured" under any other automobile policy or would be an "insured" under such a policy but for its termination or the exhaustion of its Limit of Insurance.
- (2) Any organization that is acquired or formed by you and over which you maintain majority ownership. However, the Named Insured does not include any newly formed or acquired organization:
  - (a) That is a partnership or joint venture,
  - (b) That is an "insured" under any other policy,
  - (c) That has exhausted its Limit of Insurance under any other policy, or
  - (d) 180 days or more after its acquisition or formation by you, unless you have given us notice of the acquisition or formation.

Coverage does not apply to "bodily injury" or "property damage" that results from an "accident" that occurred before you formed or acquired the organization.

##### B. Employees as Insureds

Paragraph A.1. - WHO IS AN INSURED - of SECTION II - LIABILITY COVERAGE is amended to add:

- d. Any "employee" of yours while using a covered "auto" you don't own, hire or borrow in your business or your personal affairs.

##### C. Lessors as Insureds

Paragraph A.1. - WHO IS AN INSURED - of Section II - Liability Coverage is amended to add:

- e. The lessor of a covered "auto" while the "auto" is leased to you under a written agreement if:
  - (1) The agreement requires you to provide direct primary insurance for the lessor and
  - (2) The "auto" is leased without a driver.

Such a leased "auto" will be considered a covered "auto" you own and not a covered "auto" you hire.

##### D. Additional Insured if Required by Contract

- (1) Paragraph A.1. - WHO IS AN INSURED - of Section II - Liability Coverage is amended to add:
  - f. When you have agreed, in a written contract or written agreement, that a person or organization be added as an additional insured on your business auto policy, such person or organization is an "insured", but only to the extent such person or organization is liable for "bodily injury" or "property damage" caused by the conduct of an "insured" under paragraphs a. or b. of Who Is An Insured with regard to the ownership, maintenance or use of a covered "auto."

The insurance afforded to any such additional insured applies only if the "bodily injury" or "property damage" occurs:

- (1) During the policy period, and
- (2) Subsequent to the execution of such written contract, and
- (3) Prior to the expiration of the period of time that the written contract requires such insurance be provided to the additional insured.

**(2) How Limits Apply**

If you have agreed in a written contract or written agreement that another person or organization be added as an additional insured on your policy, the most we will pay on behalf of such additional insured is the lesser of:

- (a) The limits of insurance specified in the written contract or written agreement; or
- (b) The Limits of Insurance shown in the Declarations.

Such amount shall be a part of and not in addition to Limits of Insurance shown in the Declarations and described in this Section.

**(3) Additional Insureds Other Insurance**

If we cover a claim or "suit" under this Coverage Part that may also be covered by other insurance available to an additional insured, such additional insured must submit such claim or "suit" to the other insurer for defense and indemnity.

However, this provision does not apply to the extent that you have agreed in a written contract or written agreement that this insurance is primary and non-contributory with the additional insured's own insurance.

**(4) Duties in The Event Of Accident, Claim, Suit or Loss**

If you have agreed in a written contract or written agreement that another person or organization be added as an additional insured on your policy, the additional insured shall be required to comply with the provisions in LOSS CONDITIONS 2. - DUTIES IN THE EVENT OF ACCIDENT, CLAIM, SUIT OR LOSS - OF SECTION IV - BUSINESS AUTO CONDITIONS, in the same manner as the Named Insured.

**E. Primary and Non-Contributory if Required by Contract**

Only with respect to insurance provided to an additional insured in 1.D. - Additional Insured If Required by Contract, the following provisions apply:

**(3) Primary Insurance When Required By Contract**

This insurance is primary if you have agreed in a written contract or written agreement that this insurance be primary. If other insurance is also primary, we will share with all that other insurance by the method described in Other Insurance 5.d.

**(4) Primary And Non-Contributory To Other Insurance When Required By Contract**

If you have agreed in a written contract or written agreement that this insurance is primary and non-contributory with the additional insured's own insurance, this insurance is primary and we will not seek contribution from that other insurance.

Paragraphs (3) and (4) do not apply to other insurance to which the additional insured has been added as an additional insured.

When this insurance is excess, we will have no duty to defend the insured against any "suit" if any other insurer has a duty to defend the insured against that "suit". If no other insurer defends, we will undertake to do so, but we will be entitled to the insured's rights against all those other insurers.

When this insurance is excess over other insurance, we will pay only our share of the amount of the loss, if any, that exceeds the sum of:

- (1) The total amount that all such other insurance would pay for the loss in the absence of this insurance; and
- (2) The total of all deductible and self-insured amounts under all that other insurance.

We will share the remaining loss, if any, by the method described in Other Insurance 5.d.

**2. AUTOS RENTED BY EMPLOYEES**

Any "auto" hired or rented by your "employee" on your behalf and at your direction will be considered an "auto" you hire.

The OTHER INSURANCE Condition is amended by adding the following:

If an "employee's" personal insurance also applies on an excess basis to a covered "auto" hired or rented by your "employee" on your behalf and at your direction, this insurance will be primary to the "employee's" personal insurance.

**3. AMENDED FELLOW EMPLOYEE EXCLUSION**

EXCLUSION 5. - FELLOW EMPLOYEE - of SECTION II - LIABILITY COVERAGE does not apply if you have workers' compensation insurance in-force covering all of your "employees".

Coverage is excess over any other collectible insurance.

**4. HIRED AUTO PHYSICAL DAMAGE COVERAGE**

If hired "autos" are covered "autos" for Liability Coverage and if Comprehensive, Specified Causes of Loss, or Collision coverages are provided under this Coverage Form for any "auto" you own, then the Physical Damage Coverages provided are extended to "autos" you hire or borrow, subject to the following limit.

The most we will pay for "loss" to any hired "auto" is:

- (1) \$100,000;
- (2) The actual cash value of the damaged or stolen property at the time of the "loss"; or
- (3) The cost of repairing or replacing the damaged or stolen property,

whichever is smallest, minus a deductible. The deductible will be equal to the largest deductible applicable to any owned "auto" for that coverage. No deductible applies to "loss" caused by fire or lightning. Hired Auto Physical Damage coverage is excess over any other collectible insurance. Subject to the above limit, deductible and excess provisions, we will provide coverage equal to the broadest coverage applicable to any covered "auto" you own.

We will also cover loss of use of the hired "auto" if it results from an "accident", you are legally liable and the lessor incurs an actual financial loss, subject to a maximum of \$1000 per "accident".

This extension of coverage does not apply to any "auto" you hire or borrow from any of your "employees", partners (if you are a partnership), members (if you are a limited liability company), or members of their households.

**5. PHYSICAL DAMAGE - ADDITIONAL TEMPORARY TRANSPORTATION EXPENSE COVERAGE**

Paragraph A.4.a. of SECTION III - PHYSICAL DAMAGE COVERAGE is amended to provide a limit of \$50 per day and a maximum limit of \$1,000.

**6. LOAN/LEASE GAP COVERAGE**

Under SECTION III - PHYSICAL DAMAGE COVERAGE, in the event of a total "loss" to a covered "auto", we will pay your additional legal obligation for any difference between the actual cash value of the "auto" at the time of the "loss" and the "outstanding balance" of the loan/lease.

"Outstanding balance" means the amount you owe on the loan/lease at the time of "loss" less any amounts representing taxes; overdue payments; penalties, interest or charges resulting from overdue payments; additional mileage charges; excess wear and tear charges; lease termination fees; security deposits not returned by the lessor; costs for extended warranties, credit life Insurance, health, accident or disability insurance purchased with the loan or lease; and carry-over balances from previous loans or leases.

**7. AIRBAG COVERAGE**

Under Paragraph B. EXCLUSIONS - of SECTION III - PHYSICAL DAMAGE COVERAGE, the following is added:

The exclusion relating to mechanical breakdown does not apply to the accidental discharge of an airbag.

**8. ELECTRONIC EQUIPMENT - BROADENED COVERAGE**

a. The exceptions to Paragraphs B.4 - EXCLUSIONS - of SECTION III - PHYSICAL DAMAGE COVERAGE are replaced by the following:

Exclusions 4.c. and 4.d. do not apply to equipment designed to be operated solely by use of the power from the "auto's" electrical system that, at the time of "loss", is:

- (1) Permanently installed in or upon the covered "auto";
- (2) Removable from a housing unit which is permanently installed in or upon the covered "auto";
- (3) An integral part of the same unit housing any electronic equipment described in Paragraphs (1) and (2) above; or

- (4) Necessary for the normal operation of the covered "auto" or the monitoring of the covered "auto's" operating system.

b. Section III – Version CA 00 01 03 10 of the Business Auto Coverage Form, Physical Damage Coverage, Limit of Insurance, Paragraph C.2 and Version CA 00 01 10 01 of the Business Auto Coverage Form, Physical Damage Coverage, Limit of Insurance, Paragraph C are each amended to add the following:

\$1,500 is the most we will pay for "loss" in any one "accident" to all electronic equipment (other than equipment designed solely for the reproduction of sound, and accessories used with such equipment) that reproduces, receives or transmits audio, visual or data signals which, at the time of "loss", is:

- (1) Permanently installed in or upon the covered "auto" in a housing, opening or other location that is not normally used by the "auto" manufacturer for the installation of such equipment;
- (2) Removable from a permanently installed housing unit as described in Paragraph 2.a. above or is an integral part of that equipment; or
- (3) An integral part of such equipment.

c. For each covered "auto", should loss be limited to electronic equipment only, our obligation to pay for, repair, return or replace damaged or stolen electronic equipment will be reduced by the applicable deductible shown in the Declarations, or \$250, whichever deductible is less.

#### **9. EXTRA EXPENSE - BROADENED COVERAGE**

Under Paragraph A. - COVERAGE - of SECTION III - PHYSICAL DAMAGE COVERAGE, we will pay for the expense of returning a stolen covered "auto" to you.

#### **10. GLASS REPAIR - WAIVER OF DEDUCTIBLE**

Under Paragraph D. - DEDUCTIBLE - of SECTION III - PHYSICAL DAMAGE COVERAGE, the following is added:

No deductible applies to glass damage if the glass is repaired rather than replaced.

#### **11. TWO OR MORE DEDUCTIBLES**

Under Paragraph D. - DEDUCTIBLE - of SECTION III - PHYSICAL DAMAGE COVERAGE, the following is added:

If another Hartford Financial Services Group, Inc. company policy or coverage form that is not an automobile policy or coverage form applies to the same "accident", the following applies:

- (1) If the deductible under this Business Auto Coverage Form is the smaller (or smallest) deductible, it will be waived;
- (2) If the deductible under this Business Auto Coverage Form is not the smaller (or smallest) deductible, it will be reduced by the amount of the smaller (or smallest) deductible.

#### **12. AMENDED DUTIES IN THE EVENT OF ACCIDENT, CLAIM, SUIT OR LOSS**

The requirement in LOSS CONDITIONS 2.a. - DUTIES IN THE EVENT OF ACCIDENT, CLAIM, SUIT OR LOSS - of SECTION IV - BUSINESS AUTO CONDITIONS that you must notify us of an "accident" applies only when the "accident" is known to:

- (1) You, if you are an individual;
- (2) A partner, if you are a partnership;
- (3) A member, if you are a limited liability company; or
- (4) An executive officer or insurance manager, if you are a corporation.

#### **13. UNINTENTIONAL FAILURE TO DISCLOSE HAZARDS**

If you unintentionally fail to disclose any hazards existing at the inception date of your policy, we will not deny coverage under this Coverage Form because of such failure.

#### **14. HIRED AUTO - COVERAGE TERRITORY**

Paragraph e. of GENERAL CONDITIONS 7. - POLICY PERIOD, COVERAGE TERRITORY - of SECTION IV - BUSINESS AUTO CONDITIONS is replaced by the following:

- e. For short-term hired "autos", the coverage territory with respect to Liability Coverage is anywhere in the world provided that if the "insured's" responsibility to pay damages for "bodily injury" or "property damage" is determined in a "suit," the "suit" is brought in the United States of America, the territories and possessions of the United States of America, Puerto Rico or Canada or in a settlement we agree to.

#### **15. WAIVER OF SUBROGATION**

TRANSFER OF RIGHTS OF RECOVERY AGAINST OTHERS TO US - of SECTION IV - BUSINESS AUTO CONDITIONS is amended by adding the following:

We waive any right of recovery we may have against any person or organization with whom you have a written contract that requires such waiver because of payments we make for damages under this Coverage Form.

#### **16. RESULTANT MENTAL ANGUISH COVERAGE**

The definition of "bodily injury" in SECTION V-DEFINITIONS is replaced by the following:

"Bodily injury" means bodily injury, sickness or disease sustained by any person, including mental anguish or death resulting from any of these.

#### **17. EXTENDED CANCELLATION CONDITION**

Paragraph 2. of the COMMON POLICY CONDITIONS - CANCELLATION - applies except as follows:

If we cancel for any reason other than nonpayment of premium, we will mail or deliver to the first Named Insured written notice of cancellation at least 60 days before the effective date of cancellation.

#### **18. HYBRID, ELECTRIC, OR NATURAL GAS VEHICLE PAYMENT COVERAGE**

In the event of a total loss to a "non-hybrid" auto for which Comprehensive, Specified Causes of Loss, or Collision coverages are provided under this Coverage Form, then such Physical Damage Coverages are amended as follows:

- a. If the auto is replaced with a "hybrid" auto or an auto powered solely by electricity or natural gas, we will pay an additional 10%, to a maximum of \$2,500, of the "non-hybrid" auto's actual cash value or replacement cost, whichever is less,
- b. The auto must be replaced and a copy of a bill of sale or new lease agreement received by us within 60 calendar days of the date of "loss,"

- c. Regardless of the number of autos deemed a total loss, the most we will pay under this Hybrid, Electric, or Natural Gas Vehicle Payment Coverage provision for any one "loss" is \$10,000.

For the purposes of the coverage provision,

- a. A "non-hybrid" auto is defined as an auto that uses only an internal combustion engine to move the auto but does not include autos powered solely by electricity or natural gas.
- b. A "hybrid" auto is defined as an auto with an internal combustion engine and one or more electric motors; and that uses the internal combustion engine and one or more electric motors to move the auto, or the internal combustion engine to charge one or more electric motors, which move the auto.

#### **19. VEHICLE WRAP COVERAGE**

In the event of a total loss to an "auto" for which Comprehensive, Specified Causes of Loss, or Collision coverages are provided under this Coverage Form, then such Physical Damage Coverages are amended to add the following:

In addition to the actual cash value of the "auto", we will pay up to \$1,000 for vinyl vehicle wraps which are displayed on the covered "auto" at the time of total loss. Regardless of the number of autos deemed a total loss, the most we will pay under this Vehicle Wrap Coverage provision for any one "loss" is \$5,000. For purposes of this coverage provision, signs or other graphics painted or magnetically affixed to the vehicle are not considered vehicle wraps.

The words "we", "us" and "our" refer to the stock insurance company member of The Hartford providing this insurance.

The word "insured" means any person or organization qualifying as such under Section II - Who Is An Insured.

## SECTION I - COVERAGES

### COVERAGE A BODILY INJURY AND PROPERTY DAMAGE LIABILITY

#### 1. Insuring Agreement

- a. We will pay those sums that the insured becomes legally obligated to pay as damages because of "bodily injury" or "property damage" to which this insurance applies. We will have the right and duty to defend the insured against any "suit" seeking those damages. However, we will have no duty to defend the insured against any "suit" seeking damages for "bodily injury" or "property damage" to which this insurance does not apply. We may, at our discretion, investigate any "occurrence" and settle any claim or "suit" that may result. But:

- (1) The amount we will pay for damages is limited as described in Section III - Limits Of Insurance; and
- (2) Our right and duty to defend ends when we have used up the applicable limit of insurance in the payment of judgments or settlements under Coverages A or B or medical expenses under Coverage C.

No other obligation or liability to pay sums or perform acts or services is covered unless explicitly provided for under Supplementary Payments - Coverages A and B.

- b. This insurance applies to "bodily injury" and "property damage" only if:

- (1) The "bodily injury" or "property damage" is caused by an "occurrence" that takes place in the "coverage territory";
- (2) The "bodily injury" or "property damage" occurs during the policy period; and
- (3) Prior to the policy period, no insured listed under Paragraph 1. of Section II - Who Is An Insured and no "employee" authorized by you to give or receive notice of an "occurrence" or claim, knew that the "bodily injury" or "property damage" had occurred, in whole or in part. If such a listed insured or authorized "employee" knew, prior to the policy period, that the "bodily injury" or "property damage" occurred, then any continuation, change or resumption of such "bodily injury" or "property damage" during or after the policy period will be deemed to have been known prior to the policy period.

- c. "Bodily injury" or "property damage" will be deemed to have been known to have occurred at the earliest time when any insured listed under Paragraph 1. of Section II - Who Is An Insured or any "employee" authorized by you to give or receive notice of an "occurrence" or claim:

- (1) Reports all, or any part, of the "bodily injury" or "property damage" to us or any other insurer;
- (2) Receives a written or verbal demand or claim for damages because of the "bodily injury" or "property damage"; or
- (3) Becomes aware by any other means that "bodily injury" or "property damage" has occurred or has begun to occur.

- d. Damages because of "bodily injury" include damages claimed by any person or organization for care, loss of services or death resulting at any time from the "bodily injury".

#### e. Incidental Medical Malpractice And Good Samaritan Coverage

"Bodily injury" arising out of the rendering of or failure to render the following health care services by any "employee" or "volunteer worker" shall be deemed to be caused by an "occurrence" for:

**(1) Professional health care services such as:**

- (a)** Medical, surgical, dental, laboratory, x-ray or nursing services or treatment, advice or instruction, or the related furnishing of food or beverages;
- (b)** Any health or therapeutic service, treatment, advice or instruction; or
- (c)** The furnishing or dispensing of drugs or medical, dental, or surgical supplies or appliances; or

**(2) First aid services, which include:**

- (a)** Cardiopulmonary resuscitation, whether performed manually or with a defibrillator; or
- (b)** Services performed as a Good Samaritan.

For the purpose of determining the limits of insurance, any act or omission together with all related acts or omissions in the furnishing of these services to any one person will be considered one "occurrence".

However, this Incidental Medical Malpractice And Good Samaritan Coverage provision applies only if you are not engaged in the business or occupation of providing any of the services described in this provision.

**2. Exclusions**

This insurance does not apply to:

**a. Expected Or Intended Injury**

"Bodily injury" or "property damage" expected or intended from the standpoint of the insured. This exclusion does not apply to "bodily injury" or "property damage" resulting from the use of reasonable force to protect persons or property.

**b. Contractual Liability**

"Bodily injury" or "property damage" for which the insured is obligated to pay damages by reason of the assumption of liability in a contract or agreement. This exclusion does not apply to liability for damages:

- (1)** That the insured would have in the absence of the contract or agreement; or
- (2)** Assumed in a contract or agreement that is an "insured contract", provided the "bodily injury" or "property damage" occurs subsequent to the execution of the contract or agreement. Solely for the purposes of liability assumed in an "insured contract", reasonable attorney fees and necessary litigation expenses incurred by or for a party other than an insured are deemed to be damages because of "bodily injury" or "property damage", provided:

**(a)** Liability to such party for, or for the cost of, that party's defense has also been assumed in the same "insured contract"; and

**(b)** Such attorney fees and litigation expenses are for defense of that party against a civil or alternative dispute resolution proceeding in which damages to which this insurance applies are alleged.

**c. Liquor Liability**

"Bodily injury" or "property damage" for which any insured may be held liable by reason of:

- (1)** Causing or contributing to the intoxication of any person;
- (2)** The furnishing of alcoholic beverages to a person under the legal drinking age or under the influence of alcohol; or
- (3)** Any statute, ordinance or regulation relating to the sale, gift, distribution or use of alcoholic beverages.

This exclusion applies even if the claims against any insured allege negligence or other wrongdoing in:

- (a)** The supervision, hiring, employment, training or monitoring of others by that insured; or
- (b)** Providing or failing to provide transportation with respect to any person that may be under the influence of alcohol;

if the "occurrence" which caused the "bodily injury" or "property damage", involved that which is described in Paragraph (1), (2) or (3) above.

However, this exclusion applies only if you are in the business of manufacturing, distributing, selling, serving or furnishing alcoholic beverages. For the purposes of this exclusion, permitting a person to bring alcoholic beverages on your premises, for consumption on your premises, whether or not a fee is charged or a license is required for such activity, is not by itself considered the business of selling, serving or furnishing alcoholic beverages.

**d. Workers' Compensation And Similar Laws**

Any obligation of the insured under a workers' compensation, disability benefits or unemployment compensation law or any similar law.

**e. Employer's Liability**

"Bodily injury" to:

- (1)** An "employee" of the insured arising out of and in the course of:

- (a) Employment by the insured; or
- (b) Performing duties related to the conduct of the insured's business; or
- (2) The spouse, child, parent, brother or sister of that "employee" as a consequence of Paragraph (1) above.

This exclusion applies:

- (1) Whether the insured may be liable as an employer or in any other capacity; and
- (2) To any obligation to share damages with or repay someone else who must pay damages because of the injury.

This exclusion does not apply to liability assumed by the insured under an "insured contract".

#### **f. Pollution**

- (1) "Bodily injury" or "property damage" arising out of the actual, alleged or threatened discharge, dispersal, seepage, migration, release or escape of "pollutants":

- (a) At or from any premises, site or location which is or was at any time owned or occupied by, or rented or loaned to, any insured. However, this subparagraph does not apply to:

- (i) "Bodily injury" if sustained within a building and caused by smoke, fumes, vapor or soot produced by or originating from equipment that is used to heat, cool or dehumidify the building, or equipment that is used to heat water for personal use, by the building's occupants or their guests;
- (ii) "Bodily injury" or "property damage" for which you may be held liable, if you are a contractor and the owner or lessee of such premises, site or location has been added to your policy as an additional insured with respect to your ongoing operations performed for that additional insured at that premises, site or location and such premises, site or location is not and never was owned or occupied by, or rented or loaned to, any insured, other than that additional insured; or
- (iii) "Bodily injury" or "property damage" arising out of heat, smoke or fumes from a "hostile fire";

- (b) At or from any premises, site or location which is or was at any time used by or for any insured or others for the handling, storage, disposal, processing or treatment of waste;

- (c) Which are or were at any time transported, handled, stored, treated, disposed of, or processed as waste by or for:

- (i) Any insured; or
- (ii) Any person or organization for whom you may be legally responsible;

- (d) At or from any premises, site or location on which any insured or any contractors or subcontractors working directly or indirectly on any insured's behalf are performing operations if the "pollutants" are brought on or to the premises, site or location in connection with such operations by such insured, contractor or subcontractor. However, this subparagraph does not apply to:

- (i) "Bodily injury" or "property damage" arising out of the escape of fuels, lubricants or other operating fluids which are needed to perform the normal electrical, hydraulic or mechanical functions necessary for the operation of "mobile equipment" or its parts, if such fuels, lubricants or other operating fluids escape from a vehicle part designed to hold, store or receive them. This exception does not apply if the "bodily injury" or "property damage" arises out of the intentional discharge, dispersal or release of the fuels, lubricants or other operating fluids, or if such fuels, lubricants or other operating fluids are brought on or to the premises, site or location with the intent that they be discharged, dispersed or released as part of the operations being performed by such insured, contractor or subcontractor;

- (ii) "Bodily injury" or "property damage" sustained within a building and caused by the release of gases, fumes or vapors from materials brought into that building in connection with operations being performed by you or on your behalf by a contractor or subcontractor; or

- (iii) "Bodily injury" or "property damage" arising out of heat, smoke or fumes from a "hostile fire"; or

- (e) At or from any premises, site or location on which any insured or any contractors or subcontractors working directly or indirectly on any insured's behalf are performing operations if the

operations are to test for, monitor, clean up, remove, contain, treat, detoxify or neutralize, or in any way respond to, or assess the effects of, "pollutants".

(2) Any loss, cost or expense arising out of any:

(a) Request, demand, order or statutory or regulatory requirement that any insured or others test for, monitor, clean up, remove, contain, treat, detoxify or neutralize, or in any way respond to, or assess the effects of, "pollutants"; or

A person or organization is an additional insured under this provision only for that period of time required by the contract or agreement.

However, no such person or organization is an insured under this provision if such person or organization is included as an insured by an endorsement issued by us and made a part of this Coverage Part.

#### **a. Vendors**

Any person(s) or organization(s) (referred to below as vendor), but only with respect to "bodily injury" or "property damage" arising out of "your products" which are distributed or sold in the regular course of the vendor's business and only if this Coverage Part provides coverage for "bodily injury" or "property damage" included within the "products-completed operations hazard".

- (1) The insurance afforded the vendor is subject to the following additional exclusions:

This insurance does not apply to:

- (a) "Bodily injury" or "property damage" for which the vendor is obligated to pay damages by reason of the assumption of liability in a contract or agreement. This exclusion does not apply to liability for damages that the vendor would have in the absence of the contract or agreement;
- (b) Any express warranty unauthorized by you;
- (c) Any physical or chemical change in the product made intentionally by the vendor;
- (d) Repackaging, except when unpacked solely for the purpose of inspection, demonstration, testing, or the substitution of parts under instructions from the manufacturer, and then repackaged in the original container;
- (e) Any failure to make such inspections, adjustments, tests or servicing as the vendor has agreed to make or normally undertakes to make in the usual course of business, in connection with the distribution or sale of the products;
- (f) Demonstration, installation, servicing or repair operations, except such operations performed at the vendor's premises in connection with the sale of the product;
- (g) Products which, after distribution or sale by you, have been labeled or relabeled or used as a container, part or ingredient of any other thing or substance by or for the vendor; or

(h) "Bodily injury" or "property damage" arising out of the sole negligence of the vendor for its own acts or omissions or those of its employees or anyone else acting on its behalf. However, this exclusion does not apply to:

(i) The exceptions contained in Sub-paragraphs (d) or (f); or

(ii) Such inspections, adjustments, tests or servicing as the vendor has agreed to make or normally undertakes to make in the usual course of business, in connection with the distribution or sale of the products.

(2) This insurance does not apply to any insured person or organization, from whom you have acquired such products, or any ingredient, part or container, entering into, accompanying or containing such products.

**b. Lessors Of Equipment**

(1) Any person(s) or organization(s) from whom you lease equipment; but only with respect to their liability for "bodily injury", "property damage" or "personal and advertising injury" caused, in whole or in part, by your maintenance, operation or use of equipment leased to you by such person(s) or organization(s).

(2) With respect to the insurance afforded to these additional insureds this insurance does not apply to any "occurrence" which takes place after the equipment lease expires.

**c. Lessors Of Land Or Premises**

Any person or organization from whom you lease land or premises, but only with respect to liability arising out of the ownership, maintenance or use of that part of the land or premises leased to you.

With respect to the insurance afforded these additional insureds the following additional exclusions apply:

1. Any "occurrence" which takes place after you cease to lease that land; or
2. Structural alterations, new construction or demolition operations performed by or on behalf of such person or organization.

**d. Architects, Engineers Or Surveyors**

Any architect, engineer, or surveyor, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused, in whole or in part, by your acts or omissions or the acts or

omissions of those acting on your behalf:

(1) In connection with your premises; or

(2) In the performance of your ongoing operations performed by you or on your behalf.

With respect to the insurance afforded these additional insureds, the following additional exclusion applies:

This insurance does not apply to "bodily injury", "property damage" or "personal and advertising injury" arising out of the rendering of or the failure to render any professional services by or for you, including:

1. The preparing, approving, or failing to prepare or approve, maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications; or
2. Supervisory, inspection, architectural or engineering activities.

This exclusion applies even if the claims against any insured allege negligence or other wrongdoing in the supervision, hiring, employment, training or monitoring of others by that insured, if the "occurrence" which caused the "bodily injury" or "property damage", or the offense which caused the "personal and advertising injury", involved the rendering of or the failure to render any professional services by or for you.

**e. Permits Issued By State Or Political Subdivisions**

Any state or political subdivision, but only with respect to operations performed by you or on your behalf for which the state or political subdivision has issued a permit.

- (1) In the performance of your ongoing operations;

- (2) In connection with your premises owned by or rented to you; or
- (3) In connection with "your work" and included within the "products-completed operations hazard", but only if
  - (a) The written contract or agreement requires you to provide such coverage to such additional insured; and
  - (b) This Coverage Part provides coverage for "bodily injury" or "property damage" included within the "products-completed operations hazard".

However:

- (1) The insurance afforded to such additional insured only applies to the extent permitted by law; and
- (2) If coverage provided to the additional insured is required by a contract or agreement, the insurance afforded to such additional insured will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

With respect to the insurance afforded to these additional insureds, this insurance does not apply to:

"Bodily injury", "property damage" or "personal and advertising injury" arising out of the rendering of, or the failure to render, any professional architectural, engineering or surveying services, including:

- (1) The preparing, approving, or failing to prepare or approve, maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications; or
- (2) Supervisory, inspection, architectural or engineering activities.

This exclusion applies even if the claims against any insured allege negligence or other wrongdoing in the supervision, hiring, employment, training or monitoring of others by that insured, if the "occurrence" which caused the "bodily injury" or "property damage", or the offense which caused the "personal and advertising injury", involved the rendering of or the failure to render any professional services by or for you.

The limits of insurance that apply to additional insureds is described in Section III - Limits Of Insurance.

How this insurance applies when other insurance is available to the additional insured is described in the Other Insurance Condition in Section IV - Commercial General Liability Conditions.

No person or organization is an insured with respect to the conduct of any current or past partnership, joint venture or limited liability company that is not shown as a Named Insured in the Declarations.

### **SECTION III - LIMITS OF INSURANCE**

#### **1. The Most We Will Pay**

The Limits of Insurance shown in the Declarations and the rules below fix the most we will pay regardless of the number of:

#### **2. General Aggregate Limit**

The General Aggregate Limit is the most we will pay for the sum of:

- c. Damages under Coverage B.

#### **3. Products-Completed Operations Aggregate Limit**

The Products-Completed Operations Aggregate Limit is the most we will pay under Coverage A for damages because of "bodily injury" and "property damage" included in the "products-completed operations hazard".

#### **4. Personal And Advertising Injury Limit**

Subject to 2. above, the Personal and Advertising Injury Limit is the most we will pay under Coverage B for the sum of all damages because of all "personal and advertising injury" sustained by any one person or organization.

#### **5. Each Occurrence Limit**

Subject to 2. or 3. above, whichever applies, the Each Occurrence Limit is the most we will pay for the sum of:

- a. Damages under Coverage A; and
- b. Medical expenses under Coverage C because of all "bodily injury" and "property damage" arising out of any one "occurrence".

#### **6. Damage To Premises Rented To You Limit**

Subject to 5. above, the Damage To Premises Rented To You Limit is the most we will pay under Coverage A for damages because of "property damage" to any one premises, while rented to you, or in the case of damage by fire, lightning or explosion, while rented to you or temporarily occupied by you with permission of the owner.

In the case of damage by fire, lightning or explosion, the Damage to Premises Rented To You Limit applies to all damage proximately caused by the same event, whether such damage results from fire, lightning or explosion or any combination of these.

#### **7. Medical Expense Limit**

Subject to 5. above, the Medical Expense Limit is the most we will pay under Coverage C for all medical expenses because of "bodily injury" sustained by any one person.

#### **8. How Limits Apply To Additional Insureds**

If you have agreed in a written contract or written agreement that another person or organization be added as an additional insured on your policy, the most we will pay on behalf of such additional insured is the lesser of:

- a. The limits of insurance specified in the written contract or written agreement; or
- b. The Limits of Insurance shown in the Declarations.

Such amount shall be a part of and not in addition to Limits of Insurance shown in the Declarations and described in this Section.

The Limits of Insurance of this Coverage Part apply separately to each consecutive annual period and to any remaining period of less than 12 months, starting with the beginning of the policy period shown in the Declarations, unless the policy period is extended after issuance for an additional period of less than 12 months. In that case, the additional period will be deemed part of the last preceding period for purposes of determining the Limits of Insurance.

### **SECTION IV - COMMERCIAL GENERAL LIABILITY CONDITIONS**

#### **1. Bankruptcy**

Bankruptcy or insolvency of the insured or of the insured's estate will not relieve us of our obligations under this Coverage Part.

#### **2. Duties In The Event Of Occurrence, Offense, Claim Or Suit**

##### **a. Notice Of Occurrence Or Offense**

You or any additional insured must see to it that we are notified as soon as practicable of an "occurrence" or an offense which may result in a claim. To the extent possible, notice should include:

- (1) How, when and where the "occurrence" or offense took place;
- (2) The names and addresses of any injured persons and witnesses; and
- (3) The nature and location of any injury or damage arising out of the "occurrence" or offense.

##### **b. Notice Of Claim**

If a claim is made or "suit" is brought against any insured, you or any additional insured must:

- (1) Immediately record the specifics of the claim or "suit" and the date received; and
- (2) Notify us as soon as practicable.

You or any additional insured must see to it that we receive written notice of the claim or "suit" as soon as practicable.

##### **c. Assistance And Cooperation Of The Insured**

You and any other involved insured must:

- (1) Immediately send us copies of any demands, notices, summonses or legal papers received in connection with the claim or "suit";
- (2) Authorize us to obtain records and other information;
- (3) Cooperate with us in the investigation or settlement of the claim or defense against the "suit"; and
- (4) Assist us, upon our request, in the enforcement of any right against any person or organization which may be liable to the insured because of injury or damage to which this insurance may also apply.

##### **d. Obligations At The Insureds Own Cost**

No insured will, except at that insured's own cost, voluntarily make a payment, assume any obligation, or incur any expense, other than for first aid, without our consent.

##### **e. Additional Insureds Other Insurance**

If we cover a claim or "suit" under this Coverage Part that may also be covered by other insurance available to an additional insured, such additional insured must submit such claim or "suit" to the other insurer for defense and indemnity.

However, this provision does not apply to the extent that you have agreed in a written contract or written agreement that this insurance is primary and non-contributory with the additional insured's own insurance.

##### **f. Knowledge Of An Occurrence, Offense, Claim Or Suit**

Paragraphs a. and b. apply to you or to any additional insured only when such "occurrence", offense, claim or "suit" is known to:

- (1) You or any additional insured that is an individual;
- (2) Any partner, if you or the additional insured is a partnership;

- (3) Any manager, if you or the additional insured is a limited liability company;
- (4) Any "executive officer" or insurance manager, if you or the additional insured is a corporation;
- (5) Any trustee, if you or the additional insured is a trust; or
- (6) Any elected or appointed official, if you or the additional insured is a political subdivision or public entity.

This duty applies separately to you and any additional insured.

### **3. Legal Action Against Us**

No person or organization has a right under this Coverage Part:

- a. To join us as a party or otherwise bring us into a "suit" asking for damages from an insured; or
- b. To sue us on this Coverage Part unless all of its terms have been fully complied with.

A person or organization may sue us to recover on an agreed settlement or on a final judgment against an insured; but we will not be liable for damages that are not payable under the terms of this Coverage Part or that are in excess of the applicable limit of insurance. An agreed settlement means a settlement and release of liability signed by us, the insured and the claimant or the claimant's legal representative.

### **4. Other Insurance**

If other valid and collectible insurance is available to the insured for a loss we cover under Coverages A or B of this Coverage Part, our obligations are limited as follows:

#### **a. Primary Insurance**

This insurance is primary except when b. below applies. If other insurance is also primary, we will share with all that other insurance by the method described in c. below.

#### **b. Excess Insurance**

This insurance is excess over any of the other insurance, whether primary, excess, contingent or on any other basis:

##### **(1) Your Work**

That is Fire, Extended Coverage, Builder's Risk, Installation Risk or similar coverage for "your work";

##### **(2) Premises Rented To You**

That is fire, lightning or explosion insurance for premises rented to you or temporarily occupied by you with permission of the owner;

### **(3) Tenant Liability**

That is insurance purchased by you to cover your liability as a tenant for "property damage" to premises rented to you or temporarily occupied by you with permission of the owner;

### **(4) Aircraft, Auto Or Watercraft**

If the loss arises out of the maintenance or use of aircraft, "autos" or watercraft to the extent not subject to Exclusion g. of Section I - Coverage A - Bodily Injury And Property Damage Liability;

### **(5) Property Damage To Borrowed Equipment Or Use Of Elevators**

If the loss arises out of "property damage" to borrowed equipment or the use of elevators to the extent not subject to Exclusion j. of Section I - Coverage A - Bodily Injury And Property Damage Liability;

### **(6) When You Are Added As An Additional Insured To Other Insurance**

Any other insurance available to you covering liability for damages arising out of the premises or operations, or products and completed operations, for which you have been added as an additional insured by that insurance; or

### **(7) When You Add Others As An Additional Insured To This Insurance**

Any other insurance available to an additional insured.

However, the following provisions apply to other insurance available to any person or organization who is an additional insured under this coverage part.

#### **(a) Primary Insurance When Required By Contract**

This insurance is primary if you have agreed in a written contract or written agreement that this insurance be primary. If other insurance is also primary, we will share with all that other insurance by the method described in c. below.

#### **(b) Primary And Non-Contributory To Other Insurance When Required By Contract**

If you have agreed in a written contract, written agreement, or permit that this insurance is primary and non-contributory with the additional insured's own insurance, this insurance is primary and we will not seek contribution from that other insurance.

Paragraphs (a) and (b) do not apply to other insurance to which the additional insured has been added as an additional insured.

When this insurance is excess, we will have no duty under Coverages A or B to defend the insured against any "suit" if any other insurer has a duty to defend the insured against that "suit". If no other insurer defends, we will undertake to do so, but we will be entitled to the insured's rights against all those other insurers.

When this insurance is excess over other insurance, we will pay only our share of the amount of the loss, if any, that exceeds the sum of:

- (1) The total amount that all such other insurance would pay for the loss in the absence of this insurance; and
- (2) The total of all deductible and self-insured amounts under all that other insurance.

We will share the remaining loss, if any, with any other insurance that is not described in this Excess Insurance provision and was not bought specifically to apply in excess of the Limits of Insurance shown in the Declarations of this Coverage Part.

**c. Method Of Sharing**

If all of the other insurance permits contribution by equal shares, we will follow this method also. Under this approach each insurer contributes equal amounts until it has paid its applicable limit of insurance or none of the loss remains, whichever comes first.

If any of the other insurance does not permit contribution by equal shares, we will contribute by limits. Under this method, each insurer's share is based on the ratio of its applicable limit of insurance to the total applicable limits of insurance of all insurers.

**5. Premium Audit**

- a. We will compute all premiums for this Coverage Part in accordance with our rules and rates.
- b. Premium shown in this Coverage Part as advance premium is a deposit premium only. At the close of each audit period we will compute the earned premium for that period and send notice to the first Named Insured. The due date for audit and retrospective premiums is the date shown as the due date on the bill. If the sum of the advance and audit premiums paid for the policy period is greater than the earned premium, we will return the excess to the first Named Insured.
- c. The first Named Insured must keep records of the information we need for premium

computation, and send us copies at such times as we may request.

**6. Representations**

**a. When You Accept This Policy**

By accepting this policy, you agree:

- (1) The statements in the Declarations are accurate and complete;
- (2) Those statements are based upon representations you made to us; and
- (3) We have issued this policy in reliance upon your representations.

**b. Unintentional Failure To Disclose Hazards**

If unintentionally you should fail to disclose all hazards relating to the conduct of your business that exist at the inception date of this Coverage Part, we shall not deny coverage under this Coverage Part because of such failure.

**7. Separation Of Insureds**

Except with respect to the Limits of Insurance, and any rights or duties specifically assigned in this Coverage Part to the first Named Insured, this insurance applies:

- a. As if each Named Insured were the only Named Insured; and
- b. Separately to each insured against whom claim is made or "suit" is brought.

**8. Transfer Of Rights Of Recovery Against Others To Us**

**a. Transfer Of Rights Of Recovery**

If the insured has rights to recover all or part of any payment, including Supplementary Payments, we have made under this Coverage Part, those rights are transferred to us. The insured must do nothing after loss to impair them. At our request, the insured will bring "suit" or transfer those rights to us and help us enforce them.

**b. Waiver Of Rights Of Recovery (Waiver Of Subrogation)**

If the insured has waived any rights of recovery against any person or organization for all or part of any payment, including Supplementary Payments, we have made under this Coverage Part, we also waive that right, provided the insured waived their rights of recovery against such person or organization in a contract, agreement or permit that was executed prior to the injury or damage.

**9. When We Do Not Renew**

If we decide not to renew this Coverage Part, we will mail or deliver to the first Named Insured shown in the Declarations written notice of the

nonrenewal not less than 30 days before the expiration date.

If notice is mailed, proof of mailing will be sufficient proof of notice.

**RE: RFQ # 12637-421 - Civil Engineering, Consulting Services Contract**

Dear Selection Committee,

Calvin, Giordano & Associates, Inc. (CGA) is pleased to submit our qualifications to provide professional services to the City of Fort Lauderdale (City) for a Civil Engineering, Consulting Services contract. We have reviewed the scope of services set forth by the City and have selected a project team with the necessary experience and skills to successfully complete all requested tasks in the functional areas of interest.

CGA's project team has a wealth of knowledge and experience in reviewing existing conditions, designing solutions that meet the City's needs and local regulatory requirements, preparing construction documents and bid packages, assisting during the construction phase, and providing overall project management for municipal infrastructure projects. Having gone through countless project life cycles all the way through construction completion, we have vast experience in civil engineering, roadway improvement projects, mobility enhancements, park rehabilitation, water/wastewater infrastructure projects, feasibility studies, hydraulic modeling, and overall system evaluations. We understand the requirements and demands of such projects and will execute them successfully.

CGA is a multi-disciplinary firm that began as a small two person surveying firm in Florida for 85 years. We have grown to over 370 employees and expanded geographically throughout Florida. We have strategically added a broad range of services to meet our clients' needs. With a focus on contract government services, CGA derives vast experience and understanding of the workings of local government. This level of understanding and experience in and of itself sets us apart from other consulting firms.

Client satisfaction remains our underlying theme and is the most important part of any statement on past performance. Our firm provides a broad range of design and engineering-related services typical of a large firm, but with the personalized attention of a much smaller company.

The CGA team will be led by Jenna Martinetti, PE, an experienced civil engineer and project manager with strong leadership and client relationship skills that compliment her extensive project management background. Her experience includes site development, utilities design, paving and drainage design, ADA compliance upgrades, park improvements, and roadway design. Under her management, there will be continuous communication with the City's project manager and staff as well as the stake holders and permitting agencies. Mrs. Martinetti will ensure that our team remains on schedule and keep the City's project manager up to date on project status, challenges or any value engineering initiatives that would prove beneficial to the project. Ms. Martinetti will be supported by a group of professionals with unparalleled experience, our team's experience is detailed in this proposal, under tab 4 - Qualifications of Project Team.

<b>Phase 3C Potable Water and Sanitary Sewer Improvements</b> Bal Harbour, Florida	PROFESSIONAL SERVICES <b>2020 - 2022</b>	CONSTRUCTION (if applicable) <b>2022</b>
(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE  CGA was retained by Bal Harbour Village to design and permit new water and sanitary sewer infrastructure within its gated residential community. The purpose of the project was to replace infrastructure in disrepair, improve surface ponding along the curb flow path, replace damaged curbing and asphalt, redirect a portion of gravity sanitary sewer, and to relocate water mains and meters to the front of properties for future maintenance access and monthly readings. Coordination played a key role with the affected residences in terms of temporary water shutdowns, maintenance of traffic, staging of equipment and materials, work on private property, and restoration. The project included over 2,200 LF of 8" and 10" water main inclusive of services, valves, and hydrants, some of which was within FDOT right-of-way, and over 500 LF of 8" and 10" sanitary sewer pipe inclusive of manholes.	<input checked="" type="checkbox"/> Check if project performed with current firm

Therefore, the design included horizontal directional drilling approximately 600 linear feet of new 8-inch pipe to clear the canal bottom by at least 10 feet and then capping and abandoning the existing water main in place. Additionally, two new hydrants and reconnection of several water services were included. Project scope included design, permitting, cost estimating, preparing technical specifications, reviewing front-end documents for advertising, assistance during bidding, evaluating bidders, periodic construction inspections, approving shop drawings, reviewing RFI's, and final project certification to close out permits. 24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (include scope, size, and cost)

CGA completed the design and permitting for the stormwater project for the Hallandale Beach SW Quadrant Drainage Basin, which encompasses an area of approximately 330 acres. This tidally influenced basin is bounded by Hallandale Beach Boulevard, S Dixie Highway, SW 11th Street and SW 8th Avenue in the City of Hallandale Beach, FL. Land uses within the study area are primarily single-family residential. There are a number of drainage facilities within the project area with limited conveyance to the existing Schaffer Canal. The conveyance system is subject to the effects of tidal fluctuation. Consequently, at high tide there is virtually no head available to drain the basin. The lack of conveyance capacity within this system has led to multiple Severe Repetitive Loss (RL) properties and the complete inundation of the roadway system for extended periods during storm events of lesser frequency than that required by SFWMD. Using ICPR, CGA modeled and designed an improved drainage system conveying water to a new duplex pump stations located in the Schaffer Canal which is connected to a total of 17 deep injection drainage wells. The new wells are pressurized with 15 feet of head in order to produce the necessary discharge into the G-III aquifer. Additionally, as part of the permitting requirements, a complex monitoring system will be installed to allow for real time review of pressure data at each drainage well along with monitoring wells installed within the project area to record ground water levels. The existing gravity outfall will be modified with the installation of four (4) "backflow" flap gates in a control structure at the downstream ends of the gravity system. The flap gates are designed to stop the tidal water from flowing back into the gravity system at higher tides. The project was permitted through FDEP and the Broward County Environmental Protection and Growth Management Division. CGA, in conjunction with the City of Hallandale Beach, worked with FEMA to get an expansion approved for the existing HMGP grant. The expansion was approved to provide over \$22 million in funding for this project and another project for the adjacent neighborhood.

**24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (include scope, size, and cost)**

The existing Pump Station D-41 was experiencing excessive run times and causing frequent surcharging of the sewer network due to inadequate capacity of the existing pumps and aging of the mechanical equipment. On top of these existing issues, the construction of a nearby private development was approved by the City and was going to contribute an additional 45,000 gallons per day to the sewer system. One of the key challenges was relocating the station and consequently redirecting gravity sewer as part of the agreement with the private developer. CGA retained and managed a subconsultant to install a flow monitor in the existing terminal manhole to obtain sewer data over a two week period in order to confirm theoretical Average Daily Flow (ADF) calculations and properly size a new wet well and submersible pumps. A Geotechnical firm was also retained by CGA to gather subsurface conditions in the proposed location for the new station.

The project tasks included an analysis of existing sewer flow contributions, review of existing force main pressures from the installation of a data logger, hydraulic calculations for designing new force main and submersible pumps, valve vault design, control panel, permitting, and coordination with other disciplines including geotechnical and electrical. Coordination played a major role in this project as the proposed location for the pump station and design of the new sewer main had to be planned with the neighboring development and their engineers. CGA also provided bidding assistance and evaluation of opened bids, attended progress meetings, addressed any Contractor RFI's during construction, reviewed Change Orders as needed, conducted daily site inspections, reviewed record drawings, and certified the project with the applicable regulatory agencies.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (include scope, size, and cost)

Palm Beach County Water Utilities Department (PBCWUD) requested CGA to provide grant application assistance for funding of disaster mitigation improvements to critical infrastructure within their water and wastewater service area. CGA assisted PBCWUD with researching and preparation of multiple grant applications to the Florida Department of Economic Opportunity (DEO) under the Rebuild Florida Critical Facilities Hardening Program (CFHP) and General Infrastructure Program (GIP). DEO was designated by the U.S. Department of Housing and Urban Development (HUD) to administer the grant funding through the Community Development Block Grant (CDBG) program in areas impacted by presidentially declared disasters in 2016 and 2017. The projects that were identified were required to be consistent with the State of Florida Mitigation Action Plan and were generally within the western region of Palm Beach County serving the Cities of Belle Glade, Pahokee, and South Bay with a primary objective to benefit the Low and Moderate Income (LMI) communities and to better protect this area from future disasters.

CGA prepared grant applications for four (4) projects under the CFHP, with a total in the amount of \$11,377,000 and twelve (12) projects under the GIP, with a total in the amount of \$55,958,457.33. This required close coordination with PBCWUD internal team members and consultants to obtain the information necessary for completing the application process. CGA's history with working with PBCWUD and familiarity with their critical infrastructure played a major role in the ability to prepare the grant application that met all of the requirements of the Rebuild Florida Grant Program.

To date, DEO has completed their review of the grant applications submitted for the CFHP and PBCWUD was approved for \$2,710,000 for electrical and wet weather improvements at their Western Region North Wastewater Treatment Facility that generally included replacement of outdated electrical equipment, consolidating electrical equipment into a single building, installation of a single standby weather-protected generator, and pipe modifications to the aeration basin and clarifier to meet peak flow conditions.

CGA completed the design, permitting, and CEI services for the Hallandale Beach Stormwater 44 Year CDBG project. The project scope of work included ADA improvements (sidewalk and curb ramps), milling and resurfacing, pavement marking and signing, and drainage improvements. The drainage improvements included additional catch basins, curb inlets, roadside swale, exfiltration trench and conveyance pipes reducing roadway flooding and flood duration.

The project work was generally located along NW 8th Avenue between NW 9th Street and Pembroke Road (SR 824), and at the following intersections in City of Hallandale Beach:

1. NW 8th Avenue and NW 9th Street
2. NW 8th Avenue and NW 10th Street

The project was permitted through Broward County Environmental Protection and Growth Management Division and FDEP. The construction of the project was completed in 2019. The project was funded by City of Hallandale Beach and Broward County (Community Development Block Grant).

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (include scope, size, and cost)

The Lloyd Estates residential neighborhood is a 17.3 acres area that is bordered on the north by Prospect Road, on the south by Oakland Park Boulevard, on the west by Interstate I-95, and on the east by Andrews Avenue in the City of Oakland Park, Florida. The area has a history of flooding problems due to undersized and/or damaged underground storm drainage collection systems and poorly graded and silted in swales. The existing area experiences frequent flood conditions even at low intensity rain events due to limited discharge capacity and high tail water conditions downstream of the Sleepy River.

In order to increase the flood protection Level of Service (LOS) for the area, the Expanded Lloyd Estates Residential and Industrial Improvements (LERIX) project was designed to provide drainage system improvements including swale reconstruction, drainage collection system expansion, exfiltration trenches, bio-swale with a tidal wetland landscape typology, and an emergency pump station with flood gates on the Sleepy River. The proposed drainage system improvements will be able to mitigate a considerable amount of damage caused by storm events by providing additional water quality treatment and storage volume, thereby reducing the durations of flood conditions. The proposed emergency flood gates and pump station will allow the City to aid in preventing the backflow of water from the SFWMD C-13 canal into the Lloyd Estates area and to facilitate the lowering of the Sleepy River flood stages upstream of the structure so that the existing and proposed drainage system improvements will function optimally.

The project received a \$5,432,550 grant from FEMA under the Hazard Mitigation Grant Program as a result of Hurricane Wilma. CGA assisted the City with identifying the funding opportunity and with successfully completing the application process.

Point Lake Canal separates Biscaya Island from the rest of the Town of Surfside's primary neighborhood, and the canal is connected to Biscayne Bay, which borders the Town to the west. The Town had concerns with the shallow depth of the existing subaqueous water main causing navigability issues for deeper vessels within the canal. Therefore, the design included horizontal directional drilling approximately 600 linear feet of new 8-inch pipe to pass under the canal bottom by at least ten feet. Additionally, two new hydrants, new valves, and reconnections of several water services were included. The subaqueous crossing also prompted certain environmental permitting and regulatory requirements. The project was partially grant funded by FDEP, so regular progress reports and maintaining the project schedule were crucial. Project scope included design, permitting, cost estimating, preparing technical specifications, reviewing front-end documents for bid advertisement, assistance during bidding, evaluating bidders, periodic construction inspections, approving shop drawings, reviewing RFI's, managing the grant, and final project certification to close out permits and to receive full grant reimbursement. The project was completed within the contract time and budget.

Calvin, Giordano & Associates, Inc. (CGA) was retained by the City of Fort Lauderdale to prepare construction plans for the replacement of approximately 16,000 linear feet of undersized and corroded water main with new 8-inch pipe. The existing pipe did not provide adequate fire protection. Additionally, local residents were filing complaints regarding low water pressure and discoloration caused by years of corrosion of the existing cast irons water mains. CGA prepared bidding documents that included an alternate for trenchless construction to allow the City to capture lower prices and have less disruption to local traffic. The majority of the project was constructed using trenchless methods; specifically, horizontal directional drilling and pipe bursting. These construction methods significantly reduced the roadway restoration requirements and allowed for a much cleaner work area. CGA's scope included survey, design, permitting, incorporating Geotechnical findings, utility conflict resolution, cost estimating, preparing technical specifications for the bid advertisement, addressing Bidder questions, evaluating opened bids, attending biweekly progress meetings, reviewing shop drawings, addressing Contractor RFI's, conducting interim inspections, reviewing as-builts, and providing final certifications.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (include scope, size, and cost)

The purpose of the project was to replace over 8,000 linear feet of undersized and corroding water main in a residential neighborhood with new 12-inch and 8-inch pipe. The existing water main was experiencing frequent breaks and low pressures. In turn, this became a high-priority project for the City of Dania Beach. In addition to the water main replacement were new water services, hydrants, valves, reconnecting cross streets, and final pavement restoration. One key project challenge was isolating the existing water main for the cut-in connections at the cross streets. The existing water system was estimated to be over 70 years old with valves that were no longer functional. Therefore, it required an overall team effort of exercising valves to determine where temporary line-stops would be required for tie-ins; all in a timely manner to maintain the project schedule and to limit project costs. CGA's scope included survey, design, permitting, bidding assistance, providing full-time inspections with reporting, reviewing shop drawings, responding to RFIs, reviewing change orders, assisting with permit closeouts, reviewing Contractor payment applications, reviewing as-builts, and assisting with final project closeout.

Calvin, Giordano & Associates, Inc. (CGA) was retained by the City of Pembroke Pines to provide surveying and civil engineering services for the replacement of approximately 20,000 linear feet of water main within a residential community in Pembroke Pines. This area was originally developed over 50 years ago, and the original 2-inch galvanized water mains were still in service. Numerous residential complaints regarding water discoloration and low pressure, caused by years of rust and corrosion buildup, prompted the City to take action. Additionally, about half of the existing water main and meters within the project limits were located at the back of each residential lot. CGA was tasked with updating and rectifying the existing survey base map for the project area, field-locating all water meters in the front and back of properties, preparing construction drawings for new water main in the ROW, designing new private services and appurtenances in order to relocate backyard water meters to the front of the properties, providing adequate fire protection for the project area, preparing an opinion of probable construction cost, coordinating with the Geotechnical subconsultant for trench backfill recommendations, applying for Broward County Health Department and Traffic Engineering Division permits, attending a public information meeting with the City to inform residents of the upcoming project and to address any questions, addressing Bidder questions during advertisement, and evaluating opened bids for the lowest apparent responsive and responsible Bidder.

CGA recently completed the design, permitting (SFWMD, CBWCD, THISCD, BC-HCED), and bidding services (2018) for the Nova Drive Improvements project for Town of Davie. The project is currently in construction. The construction scope of work includes 2521 LF of Exfiltration Trench, 4067 LF of RCP (12" to 30" diameter), 75 storm inlets/manholes, regrading of swales, and associated roadway infrastructure improvements. The construction cost is \$6.3 million. CGA's professional services fee for the project is \$459,475.

The Nova Drive improvements project (from Davie Road to University Drive) included upgrading of the existing roadway with turn lanes, driveway access, bike lanes, and roadway intersection improvements. The project construction completed at the end of 2020.

**Lighting**

The Town of Davie contact CGA to improve the existing streetlight for Nova Drive between Davie Road Extension and University Drive. The Town goal is the installation of dark-sky LED fixtures as part of the City's Energy Conservation goal. CGA prepared lighting design for the Town's street. The streetlighting design took in consideration that this street is part of the residential neighborhood and spillage requirements to the homes shall have a priority during the light selections and lighting design. CGA prepared bidding documents to replace the existing FPL high pressure sodium streetlights and new lights with dark-sky friendly LED units throughout the streets under the lighting improvement renovations. CGA design took consideration of the challenge presented due to overhead FPL power distribution lines. When the contracted work was completed, 36 new Town own light fixtures and 21 FPL own light fixtures were installed.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (include scope, size, and cost)

Calvin, Giordano & Associates, Inc. (CGA) was retained by Bal Harbour Village to develop a hydraulic model and to prepare an overall evaluation for the Village's sanitary sewer network. The Village owns, operates, and maintains a wastewater collection and transmission system that includes approximately 27,000 linear feet of gravity sewer, 5,000 linear feet of force main, and two pump stations. Wastewater from various customers, including single family homes, oceanfront high rises, multi-family dwellings, and commercial properties, is collected and conveyed through laterals, gravity mains, force mains, and pump stations. The purpose of the hydraulic study was to provide the Village with the capability to predict peak flows, hydraulic pressures, pump station capacities, and likelihood of surcharged conditions throughout their entire sanitary sewer network, as well as assess the capacity to serve future proposed demands and plan future projects. Using the Village's GIS database, which was also prepared by CGA, the information was imported into SewerCAD and overlaid onto high-resolution aerials to confirm that all infrastructure was correctly and geographically located within the model. Record drawings were then used to model pump curves, and daily and monthly pressure and flow readings were used to calibrate the model results. From this calibration process, we were able to produce results with less than 4% variation from actual field conditions. A signed and sealed summary report was prepared for the Village so that they could provide it to the local regulatory agency as part of a compliance requirement.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (include scope, size, and cost)

Calvin, Giordano & Associates, Inc. (CGA) was retained by Bal Harbour Village to design and permit new water and sanitary sewer infrastructure within its gated residential community. The purpose of the project was to replace infrastructure in disrepair, improve surface ponding along the curb flow path, replace damaged curbing and asphalt, redirect a portion of gravity sanitary sewer, and to relocate water mains and meters to the front of properties for future maintenance access and monthly readings. Coordination played a key role with the affected residences in terms of temporary water shutdowns, maintenance of traffic, staging of equipment and materials, work on private property, and restoration. The project included over 2,200 LF of 8" and 10" water main inclusive of services, valves, and hydrants, some of which was within FDOT right-of-way, and over 500 LF of 8" and 10" sanitary sewer pipe inclusive of manholes. Most of the water services were relocations from the back to the front of each property, requiring horizontal directional drilling of new services within private property. The new water main was also installed by horizontal directional drilling to limit restoration and maintenance of traffic. CGA's role in the project included design, permitting, incorporating Geotechnical and Subsurface Utility Exploration findings, reviewing shop drawings, addressing Contractor RFI's, conducting full-time inspections, overseeing testing, reviewing payment applications, managing the Contractor's schedule, assisting with change order reviews requested by the Client, public outreach, reviewing record drawings, closing permits, and final project certification.

**24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (include scope, size, and cost)**

Calvin, Giordano & Associates, Inc. was selected by the City of Fort Lauderdale to provide planning, design, and construction services for the addition of three new soccer and lacrosse fields at Mills Pond Park. The existing park located at 2201 N.W. 9th Avenue (Powerline Road) has three lighted soccer fields, one un-lighted soccer field, and five lighted softball fields. The improvements to the park include three new fields and all associated sports lighting, drainage, and irrigation, as well as a future restroom/concession building, new parking, walkways, and landscaping. Originally, the city staff and the park's stakeholders had indicated their desire to have at least 2 of the 3 fields be synthetic turf, and to use organic in-fill material instead of black rubber in-fill material for them.

Working with the City and stakeholders, CGA prepared six (6) configuration options for bidding purposes per the City's desire to see what layout would fit within their construction budget. The City ended up choosing the option with three (3) artificial turf fields and a future restroom. In addition, the City of Fort Lauderdale wanted to continue their emphasis on Sustainability by incorporating Green Design principles such as LED sports lighting, innovative drainage solutions, permeable pavers, and Florida Friendly Landscaping. One of the main reasons that CGA was selected for this project is its excellent team of sub-consultants.

The team consisted of Sports Turf One for sports field expertise, Lakdas/Yohalem Engineering for structural engineering, and Nutting Engineering of Florida for geotechnical. Construction of the project began in January 2017 and completed in February 2018.

**24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (include scope, size, and cost)**

Calvin, Giordano & Associates, Inc. designed and permitted an on-grade, ADA-accessible pathway that supports the use of pedestrians and cyclists. The project is a part of the greater Atlantic Greenway Network, and comprises a critical component of the bicycle facilities throughout the City of Miami Beach. It connects Indian Beach Park on the south to the North Beach Recreational Trail at Allison Park with a 2-mile paver walkway, continuing the City's unique branding qualities.

The path was permitted in accordance with the Florida Dept. of Environmental Protection's and the Florida Fish and Wildlife Conservation Commission's regulations, as the entirety of the project lies within State-owned lands. The scope of work included extensive public outreach, branding and site design, coastal engineering, dune planting plans, lighting design, and bidding and construction administration. The project connects business districts, cultural/tourism centers, parks, residential neighborhoods and the beaches, and it completed a major portion of the essential north-south connector of the AGN to facilitate pedestrian and non-motorized transportation throughout the City.

CGA also provided public outreach components related to this transportation and recreational component to the City's bicycle infrastructure. This included conducting one-on-one meetings with over 39 HOAs, holding public community outreach meetings, conducting meetings with key stakeholders, and preparing and delivering presentations to committees, boards and community interest groups.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (include scope, size, and cost)

CGA assisted TOWN with the conversion of 18 residential properties in the Bryn Mawr neighborhood from onsite sewer treatment septic tank systems to a new sanitary sewer collection system. The project included performing a survey of the project area to document the existing conditions and location of the onsite treatment systems, preparation of the new sanitary sewer collection system design, obtaining approval from the PBC-DOH, bidding assistance to select the most responsive and responsible contractor, and providing construction management and inspection services. A key component of this project was to locate the existing onsite treatment systems to confirm the future connection to the sanitary sewer system would meet the proper pipe slope requirements. This required accessing the private properties with the Town Staff after receiving approval from the property owner. Multiple public meetings were held with the property owners to provide updates on the project and assurance the overall goals for the project are being met. The project was designed to demolish the septic tanks in-place while minimizing disruption to the private properties by placing the point of connection to the new sanitary sewer system at the right-of-way in a location to accommodate the shortest distance to the connection at the buildings. During the construction phase, CGA performed inspections to ensure the project was being built in substantial conformance with the design and prepared the permit closeout documentation required by the PBC-DOH.

The project was US Department of HUD funded through the CDBG program that was administered by the PBCHEs. This Agreement between the TOWN and PBCHEs required compliance with all Federal requirements including Section 3 of the Housing and Community Development Act of 1968, and the Davis-Bacon Act. CGA assisted the TOWN with compliance of this Agreement by reviewing contractor's applications for payment and certified payroll, performing interviews with the contractor's employees, and managing the documentation through the online cloud based portal called Elation Systems that was required by PBCHEs.

The Pembroke Pines Wastewater Treatment Plant (WWTP) is located at 13955 Pembroke Road, Pembroke Pines, Florida. The WWTP has a design capacity of 9.5 million of gallons per day (mgd). The WWTP consists of headworks, two surge tanks, five wastewater treatment units, sludge tank, sludge dewatering building, effluent storage tank, two deep injection wells and one effluent basin.

The City proposed to rehabilitate the East Influent Pump Station, East Surge Tank, Treatment Unit No. 5, West Surge Tank, and repair the air piping and odor control FRP duct. CGA assisted the City with the development and production of a Design Criteria Package for the Design-Build rehabilitation. The rehabilitation scope of the influent pump station included eight influent pumps, piping, valves, drain pumps system, modification to existing sump, control panels with variable frequency drives (VFDs) and improvements to existing canopy and new service crane. The surge tanks rehabilitation included replacement of all aeration system, modifications to air scrubber system, relocate transducer, blast and coat all surfaces of the tanks, replace air actuator valve and repair of corroded areas. The treatment unit no. 5 rehabilitation included modifications to existing air header, clarifier drive, replacement of diffuser system, reinforce carbon steel walls, replace clarifier sludge return pipe, replace existing fabric cover of digester, replace weirs on clarifier, install new spray wash system for effluent launders, electrical and control improvements. The odor control FRP duct included the repair of ductwork along the WWTP and surface preparation and paint of all existing FRP ductwork.

The project scope consisted of design, producing preliminary (30%) plans and technical specifications, bidding assistance, recommendation of award during the evaluation of the Guaranteed Maximum Price ("GMP") contract and design services during construction as required by the City.

**24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (include scope, size, and cost)**

CGA designed a new Master Lift Station No. 8 and force main that serves approximately 50% of the wastewater generated within the Town of Davie's service area. The existing station was comprised of a suction lift pump configuration that was undersized for the current demand and was approaching the end of its design life. The new Lift Station No. 8 transmits approximately 2.0 Million Gallons per Day (MGD) of wastewater through a 24-inch diameter force main to the existing Headworks facility at the Town of Davie's Wastewater Treatment Plant (WWTP). Portions of the new force main were designed using the horizontal directional drilling method for installation to reduce impacts to the surrounding residents and businesses. The project also included improvements to the Headworks facility to allow for the increased capacity.

Due to the space restraints at the existing Lift Station No. 8, multiple locations were investigated for the new Lift Station No. 8. CGA coordinated meetings with the adjacent property owners and the Town of Davie's staff to determine the best location to meet the goals of the project. Once the location was agreed upon, CGA provided the legal description and sketch for a new utility easement to allow access for future maintenance.

At the completion of the design and permitting phase of this project, CGA managed all bidding activities to select the most responsive and responsible contractor. After the selection was made, CGA provided construction services to ensure the project was constructed in substantial conformance to the contract documents.

CGA also assisted the Town of Davie with acquiring funding assistance for this project through the State of Florida Clean Water State Revolving Fund (SRF) loan program.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (include scope, size, and cost)

The improvements to Andrews Avenue from Prospect Road south to Oakland Park Boulevard was funded by a Transportation Enhancement grant through the FDOT District 4, which required it to follow FDOT LAP submittal requirements. The scope of this project includes construction of a landscaped median, reconstruction of existing sidewalks to meet current ADA standards, adding bicycle lanes, and a mid-block crossing for pedestrians, turn lane analysis, milling and resurfacing, signing and pavement markings, pedestrian lighting and conventional roadway lighting modifications. Permitting is required through Broward County Environmental Protection and Growth Management Division (BCEPGMD), Broward County Highway Construction and Engineering Division (BCHCED), Broward County Traffic Engineering Division (BCTED), and the City of Oakland Park.

**Transportation Enhancement Grant**

CGA conducted a route survey of Andrews Avenue and prepared accompanying conceptual civil engineering, landscape, hardscape design, and planting plans as components for the Broward County Transportation Enhancement Grant, administered through the Metropolitan Planning Organization. The focus of the redesign was to apply 'Complete Streets' principles to the corridor to include an access management plan, extensive new medians construction, median and ROW planting, the narrowing of travel lanes, provision of safe and improved crosswalks, new street lighting, and the provision of bicycle lanes. CGA's ability to quickly turn around a conceptual design and in preparing a solid application package lead to the City's success in winning the grant award for \$1 Million to be disbursed in FY17-18.

## Approach, Methodology and Scheduling

### APPROACH

CGA and the Project Manager (PM) understand the scope of this contract is for continuing civil engineering services that fall within the CCNA guidelines. We understand the projects could range from studies, plan review, design projects, or construction management of projects and therefore the CGA team has provided either in-house staff or qualified sub-consultants equipped to handle projects varying in nature and timeline.

At CGA, excellent project management skills are the cornerstone to any successful project, large or small. Regular and efficient communication between our company and the City designated representative will be paramount to the success of the project. The CGA team management of this contract is based on the following elements:

- ✓ Complete understanding of the technical requirements
- ✓ Communication with City and amongst the team
- ✓ Pro-active leadership that strives for client satisfaction, achievement, and success
- ✓ Experienced team of professionals ready to resolve unique issues through the most innovative solutions
- ✓ Guaranteed staff availability
- ✓ Emphasis on teamwork and quality control
- ✓ Exceeding our clients' expectations for schedule and budget
- ✓ Cutting edge software portfolio

Our multi-disciplinary approach, in-depth experience, and broad range of services enables us to coordinate effectively and seamlessly with our clients, other disciplines and consultants, and the multitude of public and private agencies necessary to keep our projects on track and on schedule.

Whether a large utility project, small neighborhood CDBG project, a Mobility Advancement Program improvement, or park rehabilitation project, the general project approach is similar. Upon request for a cost proposal, CGA will meet with the City to clarify specific requirements of the project scope, define the project budget and understand the schedule. A cost proposal will be provided including a narrative of scope, deliverables, and summary of compensation. Once the task order is executed and a Notice to Proceed (NTP) issued, the project manager (PM) will provide the detailed scope and schedule to team members at the internal project "Kick-off Meeting." The primary purpose of the "Kick-off Meeting" is to:

1. Clarify the quality control/quality assurance requirements to be followed;
2. Discuss the critical elements affecting the overall schedule; and
3. Review methods to ensure effective communication is maintained throughout the design process.

This process is followed for all task orders however below is an example approach for a typical engineering design project.

After the PM reviews the project information with the team and the City, CGA will then begin the inventory and data collection process by researching and obtaining available documents such as grant commitments, existing studies, records and as-built information for the project corridors. Information and insight from City staff regarding the history of the areas will supplement the research. In conjunction with this task, the project team will perform the design survey. The utility coordination process kicks off by sending out utility information request letters to all utility agency owners within the project limits. Coordination with any adjacent projects and upcoming developments would also occur during this phase.

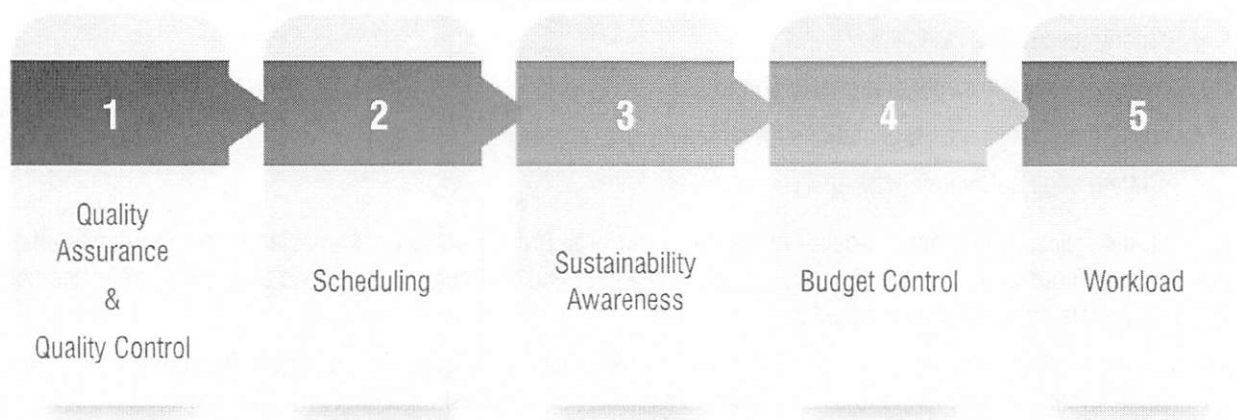

Once all the information has been assembled through the inventory and data collection phase, design analyses begins. Site visits to the corridor to confirm utility and survey information as well as familiarize the project team with controlling design elements and the project corridor. These site assessments are critical during this analysis phase as well as throughout the life

Calvin, Giordano & Associates, Inc.  
A SAFEbUILT COMPANY

of the design project. A concept plan is developed to confirm the design layout and intent. These plans can also be utilized to begin the pre-application process with the review and permitting agencies, begin the public outreach process, and route plans to relevant City staff. Once City and stakeholder input have been obtained and the concept is approved by the city, the design team will enter the design and permitting process. This process involves additional meetings with the City staff to be sure the project is moving in the intended direction and on schedule. During the design process, CGA implements the company-wide QA/QC process before releasing plans for City or outside agency review. Maintenance of Traffic (MOT)/Traffic Control Plans are critical for all projects due to the business and residential impacts of construction within the City. CGA staff has FDOT's advanced temporary traffic control (TCC) certification required to prepare MOT plans and will work with the City, stakeholders and local event schedules to ensure a smooth and successful MOT plan and criteria package is developed. Once the client and regulatory agencies approve the final design, the construction documents will be finalized and turned over to the City for bidding. The team will attend the pre-bid meeting and assist the City in responses to contractor requests for information (RFI's), issuing addenda and bid evaluation. Once the contract is awarded, post design services include a hand-off meeting to the CEI/construction engineering group, a pre-construction meeting with the contractor, review and approval of shop drawings, responses to RFI's, and support to the construction manager, as needed during construction.

A few additional components to accomplish our projects efficiently are:

### 1. Quality Assurance (QA) and Quality Control (QC)

The CGA Team recognizes the importance of a superior quality product and the need of a systematic QA/QC plan to assure excellence and client satisfaction. The CGA Team Quality Control Plan is based on the ability to provide the finest product that will be extensively reviewed for facts, evidence, errors and omissions.. A detailed QA/QC plan is applied to each task order to identify and coordinate responsibilities, and describe the procedures and standards to be utilized. This plan facilitates independent checks, reviews, verification of all data, as well as standard compliance for the proper coordination and production documents as part of this contract.

CGA performs QA/QC of the plans and specifications at 30%, 60%, 90%, bidding, and prior to issuance of final Construction Documents. At each of the project progress levels, the design plans and specifications are first reviewed by the EOR for Quality Assurance and then routed for Quality Control review by the CADD Manager, an Independent Professional Engineer, the Traffic Engineer (where warranted), the Construction/CEI Director, and the Quality Control Director.

The CGA Team QA/QC plan includes at a minimum the following elements to ensure that the production meets accuracy and timeliness: Understanding of the scope; verification of accuracy of data and field procedures; establishment of check and balances; guidance of staff in compliance with QA/QC procedures; constructability of the plans, verification of updated standards and methodologies; field observations; and supplemental documentation.

## 2. Scheduling

The CGA Team is committed to providing the City of Fort Lauderdale with a high-quality project by meeting the City's schedule and budget requirements, as well as assign the most qualified and dependable staff to carry out the work required under this contract. The CGA Team understands that a schedule is intended not only for the consultant, but also for the City to coordinate their resources for budgeting, reviewing submittals, and for reporting to other staff members and departments.

We value the importance of meeting milestones dates, review dates, and final submittal dates. The Project Manager will be responsible for assigning tasks to the various departments within CGA as well as to any applicable sub-consultant. At the kick-off meeting, the team will be introduced to the scope, the budget and the timeline. The Project Manager will define the various elements of the project and describe the QA/QC requirements at this meeting. The team's Project Manager will periodically review the progress of the project to assure that we are meeting the project schedule and budget as initially approved by the City. The CGA Project Manager will then update City staff of the project progress. Regular project meetings will be held, as needed, with the City staff for all phases of the project. The CGA attendees present at the meetings will be dependent on the complexity and the phase of the project. To minimize budget impacts, some of these meetings could be virtually attended by CGA staff and sub-consultants. These meetings will be focused on adherence to the project timeline, quality control, budget, and on the resolution of any project related items.

## 3. Sustainability Awareness

CGA understands the City's vulnerabilities to the impacts of climate change. Climate change is a global issue with regionally specific impacts. Of the many factors that may challenge community resiliency, climate change is a critical force.

Due to the geophysical location and characteristics of the City, sea level rise alone has the potential to be enormously disruptive and destructive both physically and economically. The challenges associated with the rising sea includes:

- Intrusion into the freshwater source for potable water.
- Increases in storm surges.
- Impacts of King Tide events.
- Jeopardized viability of protective nearshore freshwater vegetative systems.
- Decreasing functionality of the stormwater drainage systems.
- Intrusion into stormwater and sewer systems where leaks occur in aging infrastructure.
- Flooding in neighborhoods and roadways.
- Releases of contaminants, debris, or hazardous materials associated with flooding.
- Rising ground water elevations, and
- Loss of services and impaired access to infrastructure.

Resilience planning is challenged in that our porous geology does not allow for protection from sea level rise just through the use of levees or seawalls, the relatively flat topography increases the area prone to flooding and subject to surge, the dense urban development limits open space and green infrastructure options, the rising seas are impeding drainage of the existing flood control system, and the protections provided by offshore reefs and other marine systems are degrading due to ocean acidification. Seawalls can however provide a level of protection from storm surge, nuisance and seasonal high tide flooding, and short-term elevated water levels in canals. CGA understands these vulnerabilities and challenges. With each project that is assigned, CGA and our sub-consultant team are committed to ensuring the most tangible and feasible mitigation and adaptation strategies are incorporated into each project to enhance the resiliency of the City to the impacts from climate change.

#### 4. Budget Control

The approach to controlling project budgets, an important management technique, is to identify if the budget is sufficient for the scope of work being requested at the beginning of a project and track the budget throughout the life of the project. CGA works with the City to understand the basis of the budget number to help ensure that additional scope is not added without consideration on how this affects the budget. With each design milestone, cost estimates are prepared for comparison to the budget. The unit prices in the cost estimates are constantly being updated with the best available information at that time and are subject to change even when additional scope is not added due to variation in the construction industry. CGA maintains a database of unit prices that is updated with each project bid received to track construction industry costs as accurately as possible. If a project is in jeopardy of being over budget, immediate attention is provided to address why and determine what steps need to be taken.

Another method of cost control during construction is CGA's multidisciplinary constructability review as part of our Quality Assurance/Quality Control process described above. This review specifically ensures that the plans make sense from a construction perspective and is intended to minimize potential problems in the field during construction.

#### 5. Workload

The CGA Team is committed to serving the City and to delivering task work order assignments on-time and within budget. The CGA Team of professionals has been specifically selected, based on past performance, experience in the City, and innovation, to offer the available resources and the technological capabilities to serve the City in all the tasks envisioned under this contract. CGA and each of the sub-consultants have availability for this contract and existing workload will not impact the needs of this contract. As a team we commit all the resources necessary to provide timely responses as City requests arrive. We ensure that availability of our staff never goes below 40 percent for our senior staff and 30 percent for our technical support staff, amending our staffing needs as necessary. This is a strategy that we maintain to allow us to meet the impromptu and unexpected demands of all of our clients without sacrificing the needs of others.

#### Firm Software Portfolio

CGA uses technology to improve customer service, increase efficiency, provide consistency, and ease the experience for our clients. We pride ourselves for utilizing the latest available technology. We will work with the County's preferred software and file formats for any printed and electronic documents required. Our software portfolio includes:

- Adobe Acrobat
- Adobe Illustrator
- Adobe Photoshop
- Adobe InDesign
- AutoCAD
- Civil 3D
- Microstation
- ICPR
- Visual and AGI (Photometrics)
- Generator sizing software
- EDR
- WaterCAD Photometric
- Hydraflow
- Adobe PageMaker
- ArcGIS
- MS Office Suite
- Rhino 3D
- SketchUP
- Ajera

CGA utilizes Ajera to manage the full project life cycle of each project. As one of our project management tools, the system controls all aspects of the project including accounting, project management, and resource utilization in real-time. This system is web based allowing both internal and remotely placed employees full function capabilities via any Internet connection.

## Securing Approvals from Permitting Agencies

The agency-review process in South Florida often involves a complex number of overlapping jurisdictions. This requires a consultant with not only the technical knowledge and the ability to advocate on behalf of the City, but also the relationships with the agencies and the sensitivity towards residents and property owners to guarantee a successful project on all fronts. You will find all of those traits in CGA. We have worked extensively with Broward County Traffic Engineering, Broward County Highway Construction and Engineering Division, FDEP, FDOT District IV, South Florida Water Management District, Broward County Water and Wastewater Division, Broward County Surface Water Management, and the Army Corps of Engineers.

For the majority of our government-sector work, we have been responsible for all permitting associated with the projects we have developed for our clients. In that capacity, we have planned and organized the construction plan's submission, approval, and permit issuance procedures. That has included managing and overseeing the construction application approval process; handling difficult and complex review problems; conferring with project owners and developing a permitting strategy and timeline; and monitoring, tracking and following-up on the completion and progress of on-going permit processes. CGA also has dedicated staff that specifically provide building department plans reviews, including reviewing plans against standards of the Florida Building Code, National Electric Code, ADA, Fire, etc. The team of dedicated staff work in support of design professionals, as in-house 3rd party reviewers, and as plans reviewers for specific municipalities.

## Conclusion

Collectively the CGA team is a powerhouse of knowledge and includes team members which have served the City in different capacities previously. This means that we have the sense of practicality in making recommendations to the City because our team truly possess the experience and know-how of the issues and how to resolve them. Whether plan review, technical resource staffing or project specific task orders are required, the CGA team has the resources, skills, leadership, and desire to deliver successful services on-time and within budget to the City of Fort Lauderdale.

## **SECTION V - EVALUATION AND AWARD**

### **5.1 Evaluation Procedure**

- 5.1.1** Evaluation of the submittals will be conducted by an Evaluation Committee, consisting of a minimum of three members of City Staff, or other persons selected by the City Manager or designee. All committee members must be present at scheduled evaluation meetings. Submittals shall be evaluated based upon the information and references contained in the proposals as submitted. Evaluation procedures shall be regulated by F.S. § 287.055, referred to as Consultant's Competitive Negotiations Act (CCNA). Any firm(s) involved in a joint venture in its proposal will be evaluated individually, as each firm of the joint venture would have to stand on its own merits.
- 5.1.2** The Committee shall short list no less than three (3) submittals, assuming that three or more submittals have been received, that it deems best satisfy the weighted criteria set forth herein and attempt to select the best qualified firm(s) for the particular discipline. The Committee shall then hold discussions, conduct interviews, and/or require oral presentations with all short-listed firms. The Committee shall then re-rank the short-listed firms based upon the information provided in interviews and/or presentations, the materials presented, the firm's responses to the RFQ, and deliberations of the Evaluation Committee at publicly advertised evaluation meetings. The City may request, and the firm shall provide, additional information deemed necessary by the Evaluation Committee to conduct evaluations.
- 5.1.3** If the City Manager or his/her designee is unable to negotiate a satisfactory contract with the first ranked firm, negotiations with that firm shall be formally terminated. ### **5.2 Evaluation Criteria**

- 5.2.1** Per Florida Statute 287.055, in determining whether a firm is qualified, the agency shall consider such factors as the ability of professional personnel; whether a firm is a certified minority business enterprise; past performance; willingness to meet time and budget requirements; location; recent, current, and projected workloads of the firms; and the volume of work previously awarded to each firm by the agency, with the object of effecting an equitable distribution of contracts among qualified firms, provided such distribution does not violate the principle of selection of the most highly qualified firms. The agency may request, accept, and consider proposals for the compensation to be paid under the contract only during competitive negotiations.
- 5.2.2** The City uses a mathematical formula to determine the scoring for each individual responsive and responsible firm based on the weighted criteria stated herein. Each evaluation committee member will rank each firm by criteria, giving their first ranked firm as number 1, the second ranked firm a number 2, and so on. The City shall average the ranking for each criterion, for all evaluation committee members, and then multiply that average ranking by the weighted criteria identified herein. The lowest average final ranking score will determine the recommendation by the evaluation committee to the City Manager.

- 10.3 In the event that the lowest "best value" bid, as such term is used in the City of Fort Lauderdale Procurement Code, excluding any alternate bid items ("base bid"), exceeds the Estimated Construction Cost for a project by more than ten percent (10%), CONSULTANT shall explain, in writing, the reasons why the bids or proposals exceeded the ten percent (10%) factor following the analysis of all base bids. In such a circumstance, the CITY may at its sole discretion, exercise any one or more of the following options:

- CONSULTANT shall be required to amend at the sole cost and expense of CONSULTANT, the Construction Drawings, Technical Specifications and Supplemental Conditions to enable the project to conform to a maximum of ten (10%) above the Estimated Construction Costs of the project, such amendments to be subject to the written final acceptance and approval of same by the CITY;
- CONSULTANT shall be required to provide at the cost and expense of CONSULTANT re-bidding services and related items (including costs associated with regulatory review and approval of revised documents) as many times as requested by the CITY until the base bid of at least one "best value" bid falls within the factor of ten (10%) of the Estimated Construction Cost of the project;
- The CITY may approve an increase in the Estimated Construction Cost of the Project;
- The CITY may reject all bids or proposals and may authorize re-bidding;
- The CITY may if permitted, approve a renegotiation of the Project within a reasonable time;
- The CITY may abandon the project and terminate CONSULTANT's work authorization and Services for the Project; or
- The CITY may select as many deductive alternatives as may be necessary to bring the award within ten percent (10%) of the Estimated Construction Costs of the Project.

It is expressly understood and agreed that the redesigning services required to keep the Project within 10% of the Estimated Construction Cost shall not be considered additional services and CONSULTANT agrees that it shall not seek compensation from the CITY for such Services.

- 10.4 The CONSULTANT may be requested to provide the CITY with a list of recommended, prospective proposers.
- 10.5 The CONSULTANT may be asked to attend all pre-bid / proposal conferences.
- 10.6 The CONSULTANT shall recommend any addenda, through the Contract Administrator, as appropriate to clarify, correct, or change proposal /bid documents.
- 10.7 If pre-qualification of proposers is required as set forth in the request for proposal, CONSULTANT shall assist the CITY, if requested, in developing qualification criteria, review qualifications and recommend acceptance or rejection of the proposers. If requested, CONSULTANT shall evaluate proposals and proposers, and make recommendations regarding any award by the CITY.
- 10.8 The CITY shall make decisions on claims regarding interpretation of the Construction Documents, and on other matters relating to the execution and

progress of the work after receiving a recommendation from CONSULTANT. CONSULTANT may also assist in approving progress payments to the Contractor based on each Project Schedule of Values and the percentage of work completed.

- 10.9 The CITY shall maintain a record of all Change Orders which shall be categorized according to the various types, causes, etc. that it may be determined are useful or necessary for its purpose. Among those shall be Change Orders identified as architectural/engineering Errors or Omissions.

10.9.1 Unless otherwise agreed by both Parties in writing, it is specifically agreed that any change to the work identified as an Error on the part of CONSULTANT shall be considered for purposes of this Agreement to be an additional cost to the CITY which would not be incurred without the Error. Errors on the part of the CONSULTANT shall be rectified by the CONSULTANT with no additional cost to the CITY.

10.9.2 Unless otherwise agreed by both Parties in writing, it is further specifically agreed for purposes of this Agreement that fifteen percent (15%) of the cost of Change Orders for any item categorized as an Omission shall be considered an additional cost to the CITY which would not be incurred without the Omission. So long as the total of those two numbers (Change Order costs of Errors plus fifteen percent (15%) of Omissions) remains less than two percent (2%) of the total Construction Cost of the Project, the CITY shall not look to CONSULTANT for reimbursement for Errors and Omissions.

10.9.3 Should the sum of the two as defined above (cost of Errors plus fifteen percent (15%) of the cost of Omissions) exceed two percent (2%) of the Construction Cost, the CITY shall recover the full and total additional cost to the CITY as a result of CONSULTANT's Errors and Omissions from CONSULTANT, that being defined as the cost of Errors plus fifteen percent (15%) of the cost of Omissions above two percent (2%) of the Construction Cost.

10.9.4 To obtain such recovery, the CITY shall deduct from CONSULTANT's fee a sufficient amount to recover all such additional cost to the CITY.

10.9.5 In executing this Agreement, CONSULTANT acknowledges acceptance of these calculations and to the CITY's right to recover same as stated above. The recovery of additional costs to the CITY under this paragraph shall not limit or preclude recovery for other separate and/or additional damages which the CITY may otherwise incur.

10.9.6 The Contract Administrator's decision as to whether a Change Order is caused by an Error or caused by an Omission, taking into consideration industry standards, shall be final and binding on both Parties for amounts

in the aggregate under \$100,000 per project, subject to Section 9.3. In the event of a dispute in an amount over \$100,000, the Parties agree to use their best efforts to settle such dispute. To this effect, they shall consult and negotiate with each other, in good faith and, recognizing their mutual interests, attempt to reach a just and equitable solution satisfactory to both Parties. If they do not reach such solution within a period of sixty (60) days, then upon notice to the other, either Party may commence litigation to resolve the dispute in Broward County, Florida.

They are not intended or represented to be suitable for reuse by the CITY or others on extensions of this Project or on any other project without appropriate verification or adaptation. Any reuse, except for the specific purpose intended hereunder, will be at the CITY's sole risk and without liability or legal exposure to CONSULTANT or its subcontractors. This does not, however, relieve CONSULTANT of liability or legal exposure for errors, omissions,

or negligent acts made on the part of CONSULTANT in connection with the proper use of documents prepared under this Agreement. Any such verification or adaptation may entitle CONSULTANT to further compensation at rates to be agreed upon by the CITY and CONSULTANT. This shall not limit the CITY's reuse of preliminary or developmental plans or ideas incorporated therein, should the Project be suspended or terminated prior to completion.

## 12.2 TERMINATION

12.2.2 Termination for Cause. It is expressly understood and agreed that the CITY may terminate this Agreement at any time for cause in the event that the CONSULTANT (1) violates any provisions of this Agreement or performs same in bad faith or (2) unreasonably delays the performance of the services or does not perform the services in a timely and satisfactory manner upon written notice to the CONSULTANT. Notice of termination shall be provided in accordance with Section 12.27. Such compensation shall be based on the fee as set forth above, wherever possible. For those portions of services rendered to which the applicable fee cannot be applied, payment shall be based upon the appropriate rates for the actual time spent on the Project. In the event that the CONSULTANT abandons this Agreement or through violation of any of the terms and conditions of this Agreement, causes it to be terminated, CONSULTANT shall indemnify the CITY against any and all loss pertaining to this termination.

All finished or unfinished documents, data, studies, surveys, drawings, maps, models, photographs and reports prepared by CONSULTANT shall become the property of CITY and shall be delivered by CONSULTANT to the CITY within five (5) days of CITY's request. Upon payment of such sum by CITY to CONSULTANT, CITY shall have no further duties or obligations pursuant to or arising from this Agreement.

12.2.2 This Agreement may also be terminated by CITY upon such notice as CITY deems appropriate in the event CITY or Contract Administrator determines that termination is necessary to protect the public health, safety, or welfare.

12.2.2 Notice of termination shall be provided in accordance with Section 12.27, NOTICES, except that Contract Administrator may provide a prior verbal stop work order if the Contract Administrator deems a stop work order of this Agreement in whole or in part is necessary to protect the public's health, safety, or welfare. A verbal stop work order shall be promptly confirmed in writing as set forth in Section 12.27, NOTICES.

**12.2.2 Termination for Convenience.** In the event this Agreement is terminated for convenience, CONSULTANT shall be paid for any services performed and accepted by the CITY to the date the Agreement is terminated. Compensation shall be withheld until all documents specified in Section 11.3 of this Agreement are provided to the CITY. Upon being notified of CITY's election to terminate, CONSULTANT shall refrain from performing further services or incurring additional expenses under the terms of this Agreement. Under no circumstances shall CITY make payment for services which have not been performed.

**12.2.2 Termination by CONSULTANT.** CONSULTANT shall have the right to terminate this Agreement upon substantial breach by the CITY of its obligation under this Agreement as to unreasonable delay in payment or non-payment of undisputed amounts. CONSULTANT shall have no right to terminate this Agreement for convenience of the CONSULTANT.

CONSULTANT shall preserve and make available, at reasonable times and upon prior written notice for examination and audit by CITY all financial records, supporting documents, statistical records, and any other documents pertinent to this Agreement for the required retention period of the Florida Public Records Act (Chapter 119, Florida Statutes), if applicable, or, if the Florida Public Records Act is not applicable, for a minimum of three (3) years after termination of this Agreement. If any audit has been initiated and audit findings have not been resolved at the end of the retention period or three (3) years, whichever is longer, the books, records, and accounts shall be retained until resolution of the audit findings. If the Florida Public Records Act is determined by CITY to be applicable to CONSULTANT's records, CONSULTANT shall comply with all requirements thereof; however, no confidentiality or non-disclosure requirement of either federal or state law shall be violated by CONSULTANT. Any incomplete or incorrect entry in such books, records, and accounts shall be a basis for CITY's disallowance and recovery of any payment upon such entry.

CONSULTANT shall not unlawfully discriminate against any person in its operations and activities in its use or expenditure of the funds or any portion of the funds provided by this Agreement and shall affirmatively comply with all applicable provisions of the Americans with Disabilities Act (ADA) in the course of providing any services funded in whole or in part by CITY, including Titles I and II of the ADA

CONSULTANT's decisions regarding the delivery of services under this Agreement shall be made without regard to or consideration of race, age, religion, color, gender, sexual orientation, national origin, marital status, physical or mental disability, political affiliation, or any other factor which cannot be lawfully or appropriately used as a basis for service delivery.

CONSULTANT shall comply with Title I of the Americans with Disabilities Act regarding nondiscrimination on the basis of disability in employment and further shall not discriminate against any employee or applicant for employment because of race, age, religion, color, gender, sexual orientation, national origin, marital status, political affiliation, or physical or mental disability. In addition, CONSULTANT shall take affirmative steps to ensure nondiscrimination in employment against disabled persons. Such actions shall include, but not be limited to, the following: employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff, termination, rates of pay, other forms of compensation, terms and conditions of employment, training (including apprenticeship), and accessibility.

The CONSULTANT shall make a good faith effort to help the CITY maintain and encourage MBE/WBE participation levels consistent with such historical levels and market conditions. The CONSULTANT will be required to document all such efforts and supply the CITY with this documentation at the end of the Project, or in cases where projects are longer than one year, each CITY fiscal year.

Violation of this section by Contractor shall result in cancellation of the City purchase and may result in Contractor debarment.

## 12.7 SUBCONSULTANTS

12.7.2 CONSULTANT may subcontract certain items of work to sub-consultant. The parties expressly agree that the CONSULTANT shall submit pertinent information regarding the proposed sub-consultant, including sub-consultant's scope of work and fees, for review and approval by the CITY prior to sub-consultants proceeding with any work.

12.7.2 CONSULTANT shall utilize the subconsultants identified in the proposal that were a material part of the selection of CONSULTANT to provide the services for this Project. Forms Non-ISO – Revised 7/2/2021

**ARCHITECT-ENGINEER QUALIFICATIONS**OMB No.: 9000-0157  
Expires: 12/31/2006

Public reporting burden for this collection of information is estimated to average a total of 29 hours per response (25 hours for Part 1 and 4 hours for Part 2), including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the FAR Secretariat (MVA), Regulatory and Federal Assistance Publications Division, GSA, Washington, DC 20405.

**PURPOSE**

Federal agencies use this form to obtain information from architect-engineer (A-E) firms about their professional qualifications. Federal agencies select firms for A-E contracts on the basis of professional qualifications as required by the Brooks A-E Act (40 U.S.C. 1101 - 1104) and Part 36 of the Federal Acquisition Regulation (FAR).

The Brooks A-E Act requires the public announcement of requirements for A-E services (with some exceptions provided by other statutes), and the selection of at least three of the most highly qualified firms based on demonstrated competence and professional qualifications according to specific criteria published in the announcement. The Act then requires the negotiation of a contract at a fair and reasonable price starting first with the most highly qualified firm.

The information used to evaluate firms is from this form and other sources, including performance evaluations, any additional data requested by the agency, and interviews with the most highly qualified firms and their references.

**GENERAL INSTRUCTIONS**

Part I presents the qualifications for a specific contract.

Part II presents the general qualifications of a firm or a specific branch office of a firm. Part II has two uses:

1. An A-E firm may submit Part II to the appropriate central, regional or local office of each Federal agency to be kept on file. A public announcement is not required for certain contracts, and agencies may use Part II as a basis for selecting at least three of the most highly qualified firms for discussions prior to requesting submission of Part I. Firms are encouraged to update Part II on file with agency offices, as appropriate, according to FAR Part 36. If a firm has branch offices, submit a separate Part II for each branch office seeking work.

2. Prepare a separate Part II for each firm that will be part of the team proposed for a specific contract and submitted with Part I. If a firm has branch offices, submit a separate Part II for each branch office that has a key role on the team.

**INDIVIDUAL AGENCY INSTRUCTIONS**

Individual agencies may supplement these instructions. For example, they may limit the number of projects or number of

pages submitted in Part I in response to a public announcement for a particular project. Carefully comply with any agency instructions when preparing and submitting this form. Be as concise as possible and provide only the information requested by the agency.

**Part II - General Qualifications**

See the "General Instructions" on page 1 for firms with branch offices. Prepare Part II for the specific branch office seeking work if the firm has branch offices.

1. Solicitation Number. If Part II is submitted for a specific contract, insert the agency's solicitation number and/or project number, if applicable, exactly as shown in the public announcement or agency request.

2a-2e. Firm (or Branch Office) Name and Address. Self-explanatory.

3. Year Established. Enter the year the firm (or branch office, if appropriate) was established under the current name.

4. DUNS Number. Insert the Data Universal Numbering System number issued by Dun and Bradstreet Information Services. Firms must have a DUNS number. See FAR Part 4.6.

5. Ownership.

a. Type. Enter the type of ownership or legal structure of the firm (sole proprietor, partnership, corporation, joint venture, etc.).

b. Small Business Status. Refer to the North American Industry Classification System (NAICS) code in the public announcement, and indicate if the firm is a small business according to the current size standard for that NAICS code (for example, Engineering Services (part of NAICS 541330), Architectural Services (NAICS 541310), Surveying and Mapping Services (NAICS 541370)). The small business categories and the internet website for the NAICS codes appear in FAR Part 19. Contact the requesting agency for any questions. Contact your local U.S. Small Business Administration office for any questions regarding Business Status.

6a-6c. Point of Contact. Provide this information for a representative of the firm that the agency can contact for additional information. The representative must be empowered to speak on contractual and policy matters.

7. Name of Firm. Enter the name of the firm if Part II is prepared for a branch office.

8a-8c. Former Firm Names. Indicate any other previous names for the firm (or branch office) during the last six years. Insert the year that this corporate name change was

effective and the associated DUNS Number. This information is used to review past performance on Federal contracts.

9. Employees by Discipline. Use the relevant disciplines and associated function codes shown at the end of these instructions and list in the same numerical order. After the listed disciplines, write in any additional disciplines and leave the function code blank. List no more than 20 disciplines. Group remaining employees under "Other Employees" in column b. Each person can be counted only once according to his/her primary function. If Part II is prepared for a firm (including all branch offices), enter the number of employees by disciplines in column c(1). If Part II is prepared for a branch office, enter the number of employees by discipline in column c(2) and for the firm in column c(1).

10. Profile of Firm's Experience and Annual Average Revenue for Last 5 Years. Complete this block for the firm or branch office for which this Part II is prepared. Enter the experience categories which most accurately reflect the firm's technical capabilities and project experience. Use the relevant experience categories and associated profile codes shown at the end of these instructions, and list in the same numerical order. After the listed experience categories, write in any unlisted relevant project experience categories and leave the profile codes blank. For each type of experience, enter the appropriate revenue index number to reflect the professional services revenues received annually (averaged over the last 5 years) by the firm or branch office for performing that type of work. A particular project may be identified with one experience category or it may be broken into components, as best reflects the capabilities and types of work performed by the firm. However, do not double count the revenues received on a particular project.

11. Annual Average Professional Services Revenues of Firm for Last 3 Years. Complete this block for the firm or branch office for which this Part II is prepared. Enter the appropriate revenue index numbers to reflect the professional services revenues received annually (averaged over the last 3 years) by the firm or branch office. Indicate Federal work (performed directly for the Federal Government, either as the prime contractor or subcontractor), non-Federal work (all other domestic and foreign work, including Federally-assisted projects), and the total. If the firm has been in existence for less than 3 years, see the definition for "Annual Receipts" under FAR 19.101.

12. Authorized Representative. An authorized representative of the firm or branch office must sign and date the completed form. Signing attests that the information provided is current and factual. Provide the name and title of the authorized representative who signed the form.

**Question 11**

RFQ Section 3.13 states Functional Areas of Interest. Even within a specific area there are broad definitions. Can you provide a more detailed description for each area?  
(Submitted: Mar 3, 2022 12:31:46 PM EST)

**Answer**

- We feel that the Functional Areas of Interest as listed in the RFQ are self-explanatory and do not require any further detailing. (Answered: Mar 4, 2022 5:15:40 PM EST)

#### Question 12

In regards to the 100 page limit. Please advise if anything is not included in that count ie covers, tables, etc. (Submitted: Mar 4, 2022 1:37:02 PM EST)

#### Answer

- The forms required are not included. All else is included in the 100 pages. (Answered: Mar 4, 2022 5:15:40 PM EST)

#### Question 13

Section 3.3 lists a number of Tasks that could be subjectively applicable to one or more of the Functional Areas of Interest in Section 3.13. In order to provide a complete response that is acceptable to the City, can the City provide its interpretation of specifically which Tasks (Section 3.3) should be addressed under each Functional Area of Interest? For example if a firm wishes to be considered for Transportation Engineering only, then please identify which Tasks in Section 3.3 needs to be addressed in the response. The same is being requested for the other Functional Areas. (Submitted: Mar 4, 2022 2:57:17 PM EST)

#### Answer

- This is a general civil services contract, with the majority of the projects focusing on the design and permitting of water, sewer, stormwater and roadway improvements throughout the City. The selected firms must demonstrate proficiency in general civil design. However should the need arise for geotechnical, environmental, structural, mechanical etc, as sometimes it has in the past, the selected firm(s) must have the ability, either in-house, or using subs to address these functional areas as needed. This should be showcased in the submittals, but we are not necessary looking for large teams with members specializing in each of the functional areas listed, nor are we looking for sperate submittals for each of the functional areas as it was done in the previous library of consultants RFQ. (Answered: Mar 8, 2022 6:41:13 PM EST)

#### Question 14

Given that a firm would like to be considered for multiple Functional Areas (Section 3.13), is the City looking for one proposal from each firm, that identifies all the Functional Areas for consideration? or is a separate submission package required for each Functional Area? (Submitted: Mar 4, 2022 2:58:10 PM EST)

#### Answer

- Please see response to #13 above. (Answered: Mar 8, 2022 6:41:13 PM EST)

#### Question 15

Does the City want us to split up the SF-330 forms into sections 4.2.3 and 4.2.4, as opposed to submitting a complete 330 set? (Submitted: Mar 4, 2022 5:14:05 PM EST)

#### Answer

- This is up to proposer. (Answered: Mar 28, 2022 1:16:29 PM EDT)

#### Question 16

Please clarify on what exactly the City is looking for, as sections 3.2 and 3.13 conflict one another:

3.2 states: The selected consultants must be able to provide all the services required of any civil engineering project and associated planning services through its own staff or sub-consultants.

Then, 3.13 states: The consultant shall identify in their response to this RFQ the functional areas for which it particularly wishes to specialize. Multiple firms will be selected, and multiple firms may be selected for more than one (1) functional area.

Thank you! (Submitted: Mar 7, 2022 6:42:59 AM EST)

**Answer**

- Please see response to question #13 above. We are looking for one submittal specializing in the general civil and with the option to address smaller the disciplines should in the need arise. Not specialized submittals for each functional areas as it was done in the library of consultant RFQ (Answered: Mar 11, 2022 10:42:46 AM EST)
