- (c) It shall be unlawful for any person or certificate holder to lease certificates or permits without first applying to the city for permission therefor.

- (d) In consideration of sale, transfer or lease of a certificate of public convenience and necessity the commission shall set application for hearing as provided in this article, giving all certificate holders under this article an opportunity to be heard or present objections in connection with such sale, transfer or lease.

ARTICLE VII. - NONMOTORIZED VEHICLES—SELF PROPELLED

DIVISION 1. - BICYCLE-SHARING FACILITIES

Sec. 27-250. - Purpose and findings.

- (a) The purpose of this division is to:
 - (1) Support a bicycle-sharing program in order to offer residents and visitors of the city the ability to use rented bicycles as an alternative form of short-term transportation.
 - (2) Support the provision of an important amenity and means of transportation for city residents, workers and visitors, and help bring visitors to the city, displace car traffic, take pressure off the city's parking needs and improve public health by providing opportunities for exercise.
 - (3) Help the city meet its goals of reducing air pollution and greenhouse gas emissions.
 - (4) Enable the success of city-supported bicycle-sharing program facilities by permitting bicycle-sharing facilities to be placed at optimal locations throughout the urban environment that prioritize visibility, location desirability and convenience, among other considerations.
 - (5) Recognize the lack of sufficient public or private open space at optimal locations and permit at certain locations placement of facilities of a city-sponsored bicycle-sharing program within the city right-of-way and on other city owned land.
 - (6) Provide for the placement of bicycle-sharing facilities in the right-of-way and city owned property through the granting of a bicycle-sharing facility permit and a permit and license agreement.
 - (7) In order to fund a high quality city-supported program with the features the city desires, the program allows limited advertising for sponsors on city-supported bicycle-sharing facility stations and bicycles located in the right-of-way and on city owned property.
- (b) The city commission finds that the display of signs consistent with this division on city-supported bicycle-sharing facility stations and bicycles in the right-of-way and on city owned property will not cause aesthetic blight or traffic hazards of the sort unacceptable to the city. Rather, when included as part of the overall program, such signs will further the city's substantial governmental interests set forth in section 27-250 by:
 - (1) Allowing the city to select and control the location and appearance of the station and signs;
 - (2) Identifying the station as part of the city-supported bicycle-sharing program;

- (3) Providing necessary directions and instructions for using the bicycle-sharing program;
- (4) Allowing for attractive, well-maintained public bicycle facilities;
- (5) Providing information about sponsors of the program thereby defraying the cost of offering the program to the public;
- (6) Offering an environmentally beneficial transportation option that relieves vehicular congestion and reduces air pollution and greenhouse gas emissions;
- (7) Improving public health by providing opportunities for recreation and exercise; and
- (8) The city commission further finds that signs mounted on the bicycles and bicycle-sharing station used in the city-support bicycle-sharing program are incidental to the primary use of the bicycles as vehicles.

([Ord. No. C-11-16, § 2, 7-6-11](#))

Sec. 27-251. - Applicability.

The provisions of this division shall only apply to bicycle-sharing facilities within the right-of-way or on city owned properties that are part of a city-supported bicycle-sharing program. For purposes of this division, the applicant/managing agent and owner shall be jointly and severally liable for complying with the provisions of this division, the permit and the permit and license agreement.

- (1) *Bicycle facility location:* The bicycle-sharing facility location must meet the following:
 - a. A bicycle-sharing facility may only be within a right-of-way that is under the city's jurisdiction or city owned property. Applicant shall apply to the city if a jurisdictional agency approves a BSF on that jurisdiction's right-of-way or other publicly owned land. The applicant shall submit copies of insurance policies meeting the provisions of this division and shall include the city as an additional named insured on any policies provided to insure another jurisdictional agency and a statement indemnifying the city as provided in section 27-259 of this division.
 - b. If on right-of-way or city owned property, the location of the bicycle-sharing facility does not unnecessarily or unduly interfere with the public's right of travel or use at the location.

- c. If in a public park, the location of the bicycle-sharing facility complies with all applicable ordinances and does not unnecessarily or unduly interfere with the public's right of travel or use at the location.
- (2) *Bicycle facility:* A bicycle-sharing facility and the equipment shall be permitted subject to meeting the following dimensional criteria:
- a. *Single-sided bicycle-sharing facility station area:*
