

CITY OF FORT LAUDERDALE
City Commission Agenda Memo
REGULAR MEETING

#15-0247

TO: Honorable Mayor & Members of the
Fort Lauderdale City Commission

FROM: Lee R. Feldman, ICMA-CM, City Manager

DATE: February 17, 2015

TITLE: Proprietary Purchase of License Plate Recognition (LPR) Systems - Dana
Safety Supply, Inc. - \$69,400

Recommendation

It is recommended that the City Commission approve a proprietary purchase of two additional Genetec AutoVu LPR systems from Dana Safety Supply, Inc. in the amount of \$69,400 and authorize execution of an agreement in substantially the form attached.

Background

On September 3, 2013 per CAM 13-1099, the City Commission approved the purchase of one Genetec AutoVu LPR system from Dana Safety Supply, Inc.

The Parking Services Division of the Transportation and Mobility Department maintains a list of repeat offenders, also known as a scofflaw list. Currently, there are 6,350 vehicles on the list. The average amount of fines/fees per scofflaw is \$310. The total potential recovery of fines and fees is approximately \$2,000,000.

The LPR system consists of 2 vehicle mounted cameras and a computer that provides automated detection of license plates. The system converts data from electronic images of license plates into a readable format and then compares the information against the City's scofflaw list.

This system has been in operation for 197 days, immobilized 575 vehicles, and recovered \$175,037.02. The system can also enforce pay by plate, pay by phone and permit parking in City parking garages and parking lots, as well as provide occupancy reports for similar locations.

T2 Systems, Inc., the City's parking management system, currently has an exclusive partnership with Genetec to integrate their two systems and Dana Safety Supply is the regional channel partner for Genetec.

Resource Impact

There will be a fiscal impact to the City in the amount of \$69,400.
