- iii. A Group I Member shall have his normal retirement benefit calculated in accordance with the benefit formula (2.75%/2.25%) set forth in subsection (a)(1) a. above, unless he has delivered a written election to the Office of the Retirement System and the City's Finance Director prior to December 1, 2000 electing to continue to accrue benefits in accordance with the prior formula of 2.5% for the first twenty-five (25) years of service and 2.0% for years of service in excess of twenty-five (25). In addition, there shall be paid to each Child of such deceased retired Member, twenty (20) percent of such Member's normal Retirement Pension until the earliest of such Child's marriage, death or attainment of age eighteen (18). Provided, however, that the total

Upon the death of a Group II Member, all Retirement benefits shall cease, except that if such a Member has elected to receive a decreased Retirement benefit during his lifetime, such decreased Retirement benefit shall be continued to his Spouse until death or remarriage or, if there is no Spouse, to his Children, if any, until age eighteen (18). The decreased Retirement benefit elected shall be calculated by the Board to be the Actuarial Equivalent of the normal Retirement benefit which would otherwise have been paid to the Member during his lifetime.

(a.1) Deferred Retirement Option Program. A Deferred Retirement Option Program ("DROP") is hereby created for eligible Members. The purpose of this DROP is to encourage eligible Members to commence Retirement in accordance with the DROP at the earliest available date. Notwithstanding anything to the contrary herein, neither the Board nor the City shall take any action contrary to the Internal Revenue Code provisions applicable to this Plan or the tax qualification status of this Plan.

- (1) Members who have reached their DROP Retirement Date and whose employment with the City has not already terminated shall be eligible to participate in the DROP during the DROP Period.
- (2) In order to participate in the DROP, an eligible Member must meet the following conditions:
 - a. The eligible Member must have attained his DROP Retirement Date, elect normal Retirement and must elect to defer receipt of his normal monthly Retirement benefit into a DROP Account.
 - b. A written election of DROP participation form, on forms promulgated by the Board, must be filed by the eligible Member with both the Board and the City's Personnel Director at least three (3) months prior to the beginning of the DROP Period, except for those Members qualifying under section 20-110 (a.1)(4)a., who shall be governed by the filing dates indicated therein. An otherwise eligible Member may file an election of DROP participation form three (3) months prior to his DROP Retirement Date.
 - c. Upon filing of the election of DROP participation form as required above, the eligible Member shall obtain from the City's Personnel Director an irrevocable resignation and waiver form, on forms promulgated by the City. The resignation and waiver form shall provide for the Member's irrevocable resignation from employment, with the actual date of termination being postponed until the end of the DROP Period. The administration and timing of execution and delivery of the resignation and waiver form shall meet the requirements of the Age Discrimination in Employment Act and the Older Worker's Benefits Protection Act, as same may be amended from time to time. The eligible Member must execute and deliver the resignation and waiver form to both the Board and the City's Personnel Director at least forty-five (45) days prior to the beginning of the DROP Period. An otherwise eligible Member may file the irrevocable resignation and waiver form provided for herein prior to his Normal Retirement Date.
- (3) An eligible Member electing to participate in the DROP shall have receipt of his normal monthly Retirement benefits deferred and transferred, on a monthly basis as such normal monthly Retirement benefits would otherwise be payable, into a

DROP Account for the DROP Period, commencing with the first day of the first month after which the conditions in section 20-110(a.1)(2) are met. The amount of the normal monthly Retirement benefits deferred and transferred into a DROP Account shall be in accordance with the amount otherwise payable under section 20-110(a)(1), including, to the extent applicable, cost of living adjustments otherwise payable under section 20-110(h).

- (4) For each calendar month, or fraction thereof, beyond the Normal Retirement Date that an eligible Member delays election to participate in the DROP, the maximum period of participation in the DROP shall be proportionately reduced.
 - a. For Members who (i) first attain their Normal Retirement Date on or before February 1, 2002, (ii) elected to commence DROP Retirement by filing the election forms under section 20-110(a.1)(2)b. and c. no later than March 1, 2002, and (iii) commence DROP Retirement no later than May 1, 2002, there shall be no proportionate reduction of the maximum period of participation in the DROP for delays beyond their DROP Retirement Date in electing to participate in the DROP.
- (5) Each DROP Account shall accrue DROP Earnings during the DROP Period. DROP Earnings shall be computed at simple interest at the actuarially assumed rate of return for the Fund. At the end of the DROP Period, the DROP Account shall no longer accrue DROP Earnings. Cost of living adjustments pursuant to section 20-110(h) shall be applicable to monthly Retirement benefits during the DROP Period to the same extent the adjustments would be applicable to normal Retirement monthly benefits.
- (6) A DROP Participant is a retired Member under the Plan and shall accrue no further Continuous Service credits during the DROP Period. At the conclusion of the DROP Period a DROP Retirement is converted to a normal Retirement with monthly normal Retirement benefits being paid thereafter directly to the Member.
- (7) A DROP Participant on DROP Retirement shall not be eligible for either disability benefits or preretirement death benefits under sections 20-110(c)(1) or (2), but eligibility for death or disability benefits provided to a DROP Participant upon DROP Retirement under federal law, state law, City ordinance (other than as stated within this Plan), or any rights or benefits under any applicable collective

bargaining agreement (other than as stated within this Plan) shall not be affected by a DROP Retirement.

- (8) No later than one (1) year after termination of employment with the City, the DROP Account, together with accrued DROP Earnings, shall be distributed in the following manner:
- a. Lump sum distribution to the Member (which may be used at the Member's discretion to purchase an annuity); or
 - b. Roll over of the balance to another qualified Retirement Plan; or
 - c. Any combination of a. and b. above.
 - d. To the extent a Member fails to elect b., or c. above, the balance of the DROP Account will be distributed in accordance with a. above at the end of the one (1) year period after termination of employment with the City.
- (9) Upon the death of a DROP Participant during DROP Retirement, the DROP Retirement shall cease and the benefits payable thereafter shall be the normal monthly Retirement benefits as modified by the duration and survivor benefits formula provided in section 20-110(a)(2). If a DROP Participant dies before the DROP Account balances are distributed in full, the Beneficiary or Beneficiaries duly designated by the DROP Participant on forms promulgated by the Board shall receive the DROP Account balances in accordance with the DROP Beneficiary Form in effect and on file with the Board at the time of the DROP Participant's death. If no designation of DROP Beneficiary form is on file with the Board upon the death of the Member with a DROP Account balance remaining, the DROP Account shall be paid to the Member's estate.
- (10) Notwithstanding the general severability provisions set forth below in this article, in the event there is a determination (i) by the Internal Revenue Service or a court of competent jurisdiction, that the DROP provision therein or similar DROP provisions contravene provisions of the Internal Revenue Code applicable to this qualified Plan or a qualified Plan; or (ii) by a court of competent jurisdiction or any federal or state agency with authority over such subject matter, that the DROP provisions respecting the irrevocable resignation and waiver process herein are contrary to law and not enforceable, then the Board shall be notified of such event(s) and the DROP provisions set forth above shall, upon the next regularly scheduled meeting of the Board, terminate in the manner set forth below and the

DROP Participants shall be so notified.

- a. As of the date of termination of the DROP provisions, there shall be no new DROP Retirement established.
- b. As of the date of termination of the DROP provisions, DROP Retirements shall cease and receipt of normal monthly Retirement benefits under section 20-110(a)(1) shall no longer be deferred and transferred into a DROP Account.
- c. For those Members who were DROP Participants on the date of termination of the DROP provisions, normal monthly Retirement benefits shall be suspended until termination of employment with the City and such Members shall continue to accrue Credited Service during their continued employment.
- d. For those Members who are DROP Participants and still in the employ of the City at the time of the termination of the DROP provision, the following provisions shall apply:
 1. The normal monthly Retirement benefits and the Member's normal Retirement status shall be suspended until termination of employment with the City.
 2. During the period that the normal Retirement benefits and normal Retirement status is suspended, the Member shall continue to make contributions to the Plan in accordance with the applicable provisions of section 20-112 and the Member shall continue to accrue Service during such period in accordance with the provisions otherwise applicable to the Member under section 20-110(a)(1).
 3. The DROP Account shall be distributed upon termination of employment with the City.
 4. As an alternative to subsection 3. above, a Member may elect to dissolve the DROP Account and, upon making payment to the Plan of contributions that the Member would have otherwise owed under section 20-112 had the Member not elected a DROP Retirement, the Member shall have Continuous Service credit restored for the period the Member was in DROP Retirement.

- (11) Members who are included in the bargaining unit for general employees will no longer be eligible to enter DROP on or after January 14, 2004; provided, however, that Members who filed an application for participation in DROP prior to January 14, 2004 may elect the DROP Program for any remaining period of eligibility. For Members whose DROP Period commenced prior to January 14, 2004 and Members not included in the general employees bargaining unit, administration of DROP shall continue in accordance with subsections (a.1)(1) through (10) above.

(b) Early retirement pension. A Member retiring on an Early Retirement Date may elect either a deferred or an immediate Pension as follows:

- (1) A deferred monthly Pension commencing at his Normal Retirement Date equal to his Accrued Pension.
- (2) An immediate monthly Pension commencing on the first day of any month prior to his Normal Retirement Date equal to his Accrued Pension reduced by five-twelfths (5/12) percent for each month by which the commencement date of such Pension precedes the Normal Retirement Date of a Group I Member. The early retirement Pension of a Group II Member shall be reduced by one-third (1/3) percent for each month by which the commencement date of such Pension precedes such Member's Normal Retirement Date up to a maximum of sixty (60) months and one-half (½) percent for each additional month by which such commencement date precedes such Member's Normal Retirement Date. Provided, however, that upon favorable recommendation by the Board, which recommendation shall contain a detailed statement of the facts and circumstances applicable to the case, the City Commission may, in its discretion, waive the reduction factor if there is a finding by the Board of unusual and compelling circumstances which justify such a waiver.

Survivor benefits upon the death of a Member retired under this subsection (b) shall be computed in accordance with section 20-110(a)(2); provided, that for a Member electing a deferred early retirement Pension, such survivor benefits shall be computed as if the Member had retired with an immediate early retirement Pension on the first day of the month immediately following his death.

(c) Disability. Disability benefits may be granted under this Plan as follows:

(1) Service incurred.

- a. A Member who receives an injury which is determined by a Medical Board to be a medically substantiated Service-connected injury, disease or disability, which injury, disease or disability totally incapacitates him, physically or mentally, from regular and continuous duty as an Employee shall, upon the approval of the Board, receive, commencing on the ninety-first day of disability, a Pension equal to the excess, if any, of sixty-five (65) percent of his monthly Earnings in effect at the date of his disability, over, to the extent permitted by law, any amounts paid or payable from workers' compensation.
- b. If such disabled Member dies prior to his Normal Retirement Date as a result of such injury, disease or disability, as determined by a Medical Board, survivor benefits shall be determined in accordance with section 20-110(e)(1).

(2) Nonservice incurred.

- a. A Member who receives an injury which is determined by a Medical Board to be a medically substantiated nonservice connected injury, disease or disability, which injury, disease or disability totally incapacitates him physically or mentally from regular and continuous duty as an Employee, or any other gainful employment, shall upon the approval of the Board, receive, commencing on the ninety-first day of disability, a disability Pension.
 1. The amount of the disability Pension for Group I Members shall be equal to the excess, if any, of fifty (50) percent of such Member's monthly Earnings in effect at the date of his disability over, to the extent permitted by law, his Primary Social Security Benefit and any amounts paid or payable from worker's compensation.
 2. The amount of the disability Pension for Group II Members shall be equal to the excess, if any, of five (5) percent of such Member's

Earnings in effect at the date of his disability multiplied by years of Service, up to a maximum of thirteen (13) years, over, to the extent permitted by law, his Primary Social Security Benefit and any amounts paid or payable from worker's compensation.

- b. If such disabled Member dies prior to his Normal Retirement Date, survivor benefits shall be determined in accordance with section 20-110(e)(2).

(3) Payment.

- a. Subject to the provisions of subsection c. below, disability Pensions under (c)(1) or (c)(2) above shall be paid until the earlier of a Member's death, recovery from disability or Normal Retirement Date (or age sixty-five (65) for Prior Plan Participants so electing). After a Member's Normal Retirement Date (or age sixty-five (65) for Prior Plan Participant's so electing) a disabled Member shall be paid a Pension computed in accordance with section 20-110(a)(1) based upon his Earnings at date of disability and Service at his Normal Retirement Date.
- b. If a disabled Member dies after his Normal Retirement Date, survivor benefits shall be determined in accordance with section 20-110(a)(2).
- c. In the event the disability benefit being received upon a Group I Member's Normal Retirement Date (prior to adjustment in accordance with this subsection c.) exceeds the amount of his normal Retirement benefit, or in the event a Group I Member suffers a disability after his Normal Retirement Date (prior to adjustment in accordance with this subsection c.) and the amount of the disability benefit exceeds the amount of the normal Retirement benefit, then for the purposes of sections 20-110(c)(3)(a) and 20-110(c)(3)(b) above, a Group I Member's disability benefit shall be extended as follows: (i) for an additional five (5) years beyond such Member's Normal Retirement Date (as that date existed prior to adjustment in accordance with this subsection c.); or (ii) until, because of the further accrual of Service during the period of disability, the amount of such Member's disability benefit equals the amount of such Member's normal Retirement benefit; whichever event (i) or (ii) above, should first occur. The Normal Retirement Date for Group I Members whose disability benefits are

extended under this subsection c. shall be deemed to be adjusted in accordance with the formula set forth herein.

- d. As to any Member awarded either a Service incurred or non-service incurred disability benefit prior to or after November 1, 2000, which such Member is returning to work on a graduated or less than full-time basis, the Board of Trustees shall have the power and discretion to equitably apportion or reduce the monthly amount of such Member's disability benefit, provided such equitable apportionment or adjustment shall never result in such Member receiving disability benefits and Earnings which, when combined, exceeds one hundred (100) percent of such Member's monthly Earnings in effect as of the date of his disability, as adjusted for cost of living increases. The period of equitable apportionment or reduction shall not exceed six (6) months while such Member is returning to work on a graduated or less than full-time basis. A Member shall be given reasonable advance written notice and an opportunity to be heard prior to the Board of Trustees equitably apportioning or reducing a monthly disability benefit.

(4) Determination of disability.

- a. The status of each Service incurred and nonservice incurred disability shall be determined initially and reviewed periodically pursuant to uniform procedures established by the Board. To assist with such determination the Board shall require at least two (2) concurring medical opinions of disability for consideration of payment of benefits. No Member shall be granted a disability Pension if his disability results from voluntary participation or involvement in the commission of a crime which results in a felony conviction.
- b. Except as provided in subsection (c)(3)d. above, if a Member receiving a disability Pension is determined by the Board to have sufficiently recovered such that he no longer qualifies as disabled under (c)(1) or (c)(2) above, such Member's disability pension shall immediately cease. For determining any other benefits under this Plan, such Member shall receive Service credit for the period of disability, provided that he continued to make Member contributions during his period of disability based on his Earnings at date of disability, where such continued contributions are required under

section 20-112(a).

Successive periods of disability separated by less than six (6) months of actual work as an Employee shall be considered as one (1) period of disability except when the subsequent disability is due to entirely different causes and commences after the Employee's return to active employment.

- c. Disability benefits shall not be awarded retroactively for a period in excess of six (6) months prior to the date an application for Service incurred or nonservice incurred disability benefits is filed with the Board. Any Member who delays filing an application for disability benefits for a period in excess of six (6) months from the date he or she first suffered or was aware of an injury, disease or disability forming the basis for an application for Service incurred or nonservice incurred disability benefits shall forfeit rights to disability benefits for that period in excess of six (6) months preceding the date of filing an application for disability benefits with the Board. The Member's application for disability benefits shall be considered based on the status of the Member's injury, disease or disability as of the date of the application for such disability benefits is filed with the Board.

(d) Service retirement pension. A Group II Member retiring on a Service Retirement Date shall receive a monthly Pension commencing on his Service Retirement Date equal to his accrued Pension reduced by a percentage for each month by which his Service is less than thirty-five (35) years, as follows:

Period Between	Percentage Reduction For Each Month
34 years of Service and 35 years of Service	1/6% (2% per year)
33 years of Service and 34 years of Service	1/4% (3% per year)
32 years of Service and 33 years of Service	1/3% (4% per year)
30 years of Service and 32 years of Service	5/12% (5% per year)

Survivor benefits upon the death of a Group II Member retired under this subsection (d) shall be computed in accordance with section 20-110(a)(2).

- (e) Preretirement death:

- (1) Service incurred. If a Member dies while employed by the City from causes directly related to employment as an Employee, as determined by the Board, the following death benefits shall be paid:
 - a. To the Spouse, if any, until the earlier of death or remarriage, a Pension equal to fifty (50) percent of the Member's monthly Earnings as of the last date of active employment.
 - b. For each Child, if any, until the earliest of death, marriage or the attainment of age eighteen (18), a Pension equal to ten (10) percent of the Member's monthly Earnings as of the last date of active employment, provided that the maximum payment in any month to Spouse and Children combined shall be eighty (80) percent of the Member's monthly Earnings; or to Children only, if there is no Spouse, fifty (50) percent of the Member's monthly Earnings. The manner of handling and administering the Pension to any Child or Children shall be determined by the Board.
 - c. If, upon the satisfaction of the terms of (e)(1)a. and b. above (i.e., there is no longer any qualified Spouse or Children), the aggregate Pension paid on Account of the Member's death are less than the nonservice incurred death benefit provided in section 20-110(e)(2)b., the excess of the nonservice incurred death benefit over the Spouse and Children's Pension paid shall be paid to a designated contingent Beneficiary, or Beneficiaries, if so designated by the Member. Otherwise no further benefits shall be paid. Such designated contingent Beneficiary may elect, as approved by the Board, to receive such excess either in a lump sum or in equal monthly installments over a period not to exceed five (5) years.
 - d. At any time during his employment, a Member may file a written directive with the Board providing that, upon his death while an Employee, the nonservice incurred death benefit described in section 20-110(e)(2) shall be paid to his designated Beneficiary or Beneficiaries in lieu of the Pension payable in (e)(1)a. and b. above.
- (2) Nonservice incurred. If a Member dies while employed by the City from causes not directly related to his employment as an Employee, the following death benefits shall be paid:

- a. To the designated Beneficiary or Beneficiaries of a Group I Member, a monthly payment or payments, the sum of which shall not exceed fifty (50) percent of such Member's monthly Earnings as of the last date of active employment, such payment or payments to continue until the earlier of ninety-six (96) months or the death of the last surviving designated Beneficiary. At any time during his employment, a Group I Member who was a Participant in the Prior Plan may file a written directive with the Board providing that, upon his death while an Employee, a lump sum death benefit equal to four (4) times his annual Earnings at the date of death, shall be paid to his designated Beneficiary or Beneficiaries in lieu of the benefit payable in (e)(2)a. above.
- b. To the Spouse of a Group II Member who, at the time of death, was eligible for early Retirement pursuant to section 20-110(b), a monthly payment equal to fifty (50) percent of the early Retirement benefit to which the deceased Member would have been entitled had he elected an early Retirement, such payments to continue until the earlier of ninety-six (96) months or the death of the surviving Spouse.

(f) Termination of employment: The termination of a Member covered by this Plan shall affect the benefits payable hereunder as follows:

(1) Vesting.

- a. Except as set forth herein, a Group I Member shall be eligible for a pension, commencing at his Normal Retirement Date and continuing for his lifetime thereafter, if his employment is terminated before death or Retirement but after he has completed at least five (5) years of Service. Upon completion of at least five (5) years of Service and termination of employment on or after his Normal Retirement Date, such Member shall be one hundred (100) percent vested in his accrued pension. Alternatively, upon attainment of fifty (50) years of age or more, a Group I Member who terminates with fifteen (15) or more years of continuous Service may elect an immediate monthly pension subject to the reduction formula for an earlier Retirement pension under section 20-110(b).

1. The City Manager shall be eligible for a pension, commencing at his Normal Retirement Date and continuing for his lifetime thereafter, if his employment is terminated before death or Retirement, but after he has completed at least two (2) years of Service. Upon completion of at least two (2) years of Service and termination of employment on or after his Normal Retirement Date, such Member shall be one hundred (100) percent vested in his accrued pension.
 2. For the purpose of vesting under this section and for no other purpose, for nonclassified Employees and Employees of Affiliated Agencies, Service shall include the period of the Employee's uninterrupted employment with the City or Affiliated Agency from the date he last entered employment as an Employee up to the date his employment is terminated or the date he ceases to be an Employee as defined herein.
- b. A Group II Member shall be eligible for a Pension commencing at his Normal Retirement Date and continuing for his lifetime thereafter, if his employment is terminated before death or Retirement but after he has completed at least ten (10) years of Service. Upon completion of ten (10) years of Service, such Member shall be entitled to a one hundred (100) percent vested percentage of his Accrued Pension. Alternatively, upon attainment of fifty-five (55) years of age or more, a Group II Member who terminates with fifteen (15) or more years of Continuous Service may elect an immediate monthly pension subject to the reduction formula for an early Retirement Pension under section 20-110(b).
 - c. Provided, further, any Member not eligible for a normal, early or disability Retirement benefit but who has a vested interest at time of termination shall receive such benefit on a monthly, life annuity basis commencing at his regular Normal Retirement Date. Alternatively, election of an immediate monthly Pension subject to the reduction formula for an early Retirement Pension under section 20-110(b) shall be available to Members in accordance with subparagraphs a. and b. above.
 - d. Upon the death of a Member terminated under this subsection (a), the excess, if any, of his accumulated contributions, plus interest, at his date of

termination over the aggregate Pension payments, if any, which he received prior to his death, shall be paid to his designated Beneficiary.

- (2) Severance. If a Member's employment terminates for any reason other than death or Retirement and before he has completed the minimum vesting period as set forth above such Member shall receive a refund of his accumulated Employee contributions, plus interest at three (3) percent per annum.

(g) Guaranteed refund of contributions. Notwithstanding any other provisions of this Plan, the aggregate benefits paid to any Member and his Beneficiaries shall not be less than such Member's accumulated contributions, plus interest at three (3) percent per annum.

(h) Cost of living adjustment. The Board may, with the advice of the Plan's actuary and the approval of the City Commission, adjust the Pensions of retired Members, including those receiving the Member's duration and survivor benefits under section 20-110(a)(2), annually to reflect the change in the cost of living as measured by the Consumer Price Index or such other index approved by the Board, provided that such adjustments may only be made from investment return of the Fund in excess of that required to satisfy the actuarial interest assumption used in the most recent actuarial valuation of the Plan. If similar adjustments in the three (3) previous Plan Years were less than the increase for those years in the index being used, such difference may be applied in addition to the current year's adjustment, subject to a total additional adjustment in any Plan Year of four (4) percent. The procedures and methods to be followed in the determination of any adjustments shall be established from time to time by the Board.

(i) No duplication of benefits. No Employee will be entitled to benefits provided by any other benefit program maintained by the City if such benefits are based upon a period of Service for which benefits are provided under this Plan.

(j) Payment of benefits. Unless a Member elects earlier payment, distribution of his benefits shall commence within sixty (60) days from close of the Plan Year after the later of a Member's:

- (1) Termination of employment;
- (2) Attainment of normal Retirement age; or

- (3) Tenth anniversary of the date on which the Member commenced participation in the Plan.

Sec. 20-111. Optional forms of Retirement benefits.

Each Member who is entitled to a regular Normal Retirement Benefit shall have the right at any time prior to his actual Retirement to elect to have such benefit payable under any one of the options hereinafter set forth in lieu of the Retirement benefits otherwise provided herein, and to revoke any such elections and make a new election at any time prior to actual Retirement. The value of optional Retirement benefits shall be actuarially equivalent (as defined in section 20-107) to the value of benefits otherwise payable. The Member shall make an election by written request to the Board and such an election shall be subject to the approval of the Board.

- (1) *Option 1. Joint and last survivor option.* A retiring Member may elect to receive a decreased Retirement benefit during his lifetime and have such decreased Retirement benefit (or a designated fraction thereof) continued after his death to and during the lifetime of the designated contingent annuitant. The election of Option 1 shall be null and void if the designated contingent annuitant dies before the Member's Retirement.
- (2) *Option 2. Ten (10) years certain and life thereafter.* A retiring Member may elect to receive a decreased Retirement benefit with one hundred twenty (120) monthly payments guaranteed. If, after retiring, the Member should die before said one hundred twenty (120) monthly payments are made, payments are then continued to his designated beneficiary until one hundred twenty (120) payments in all have been made, at which time benefits cease. After expiration of the certain period, should the retired Member be then alive, payment shall be continued during his remaining lifetime.
- (3) *Option 3. Other.* In lieu of the other optional forms enumerated in this section, Retirement benefits may be paid in any form approved by the Board so long as actuarial equivalence with the benefits otherwise payable is maintained.

Sec. 20-112. Contributions.

(a) *Member contributions.*

- (1) Except as otherwise provided herein, commencing with the first pay period after an Employee has satisfied the requirements of section 20-108 and continuing thereafter during his period of Service, a Group I Member shall contribute by payroll deduction six (6) percent of his Earnings.
- (2) A Group II Member shall contribute four (4) percent of his Earnings by payroll deduction during his period of Service.
- (3) The Member contributions are to be "picked-up" by the City for all compensation earned after the effective date of this amendment. All contributions, although designated as Employee contributions and accumulating in individual Employee Accounts, are to be paid ("picked-up") directly by the City in lieu of contributions being paid directly by the Employee in determining tax treatment under the United States Internal Revenue Code. This Plan prohibits an Employee from directly receiving contribution amounts. A Member is one hundred (100) percent vested in his portion of City ("picked-up") contributions at all times.
- (4) During periods of authorized leave of absence, suspension, or Service in the armed forces of the United States, a Member shall continue to contribute the applicable percentage of his Earnings to the Fund in a manner approved by the Board.
- (5) During periods of approved disability, no Members shall be required to continue to make contributions in order for such period of approved disability to be counted as Service.
- (6) Once a Group I Member has attained his or her maximum benefit accrual under Section 20-110 (a)(1)a.i. above, such Member shall no longer be required to make contributions as set forth above. Once any Member has benefit accruals amounting to 100%, such Member shall no longer be required to make contributions as set forth above. DROP Participants shall not be required to make contributions during the DROP Period.

- (7) Member contributions shall be deposited in the Fund and shall be credited with three (3) percent interest per annum, compounded annually on December 31 of each Plan Year.

(b) *City contributions.* The City shall make contributions to the Fund in the amount necessary to maintain the Plan on a sound actuarial basis as set forth in the most recent actuarial valuation of the Plan. Such contribution for any year shall not be less than the amount necessary to amortize the past Service liability over a period of not more than forty (40) years from October 1, 1979.

Sec. 20-113. Administration.

(a) The general administration and responsibility for the proper operation of the Plan are hereby vested in the Board consisting of eight (8) persons, as follows:

- (1) Three (3) persons other than employees to be appointed as hereinafter provided.
- (2) Four (4) Members to be elected as hereinafter provided.
- (3) The finance director of the City shall be a nonvoting, ex-officio Member of the Board.

(b) The terms of office for each appointed Board Member shall be three (3) years and shall be staggered in such a manner that no more than one Board Member's term of office shall expire in any one calendar year.

(c) The initial terms of office for each elected Board Member shall be as follows: the two (2) Members who receive the highest number of votes shall be appointed for a period of three (3) years, and the remaining two (2) Members shall be appointed for a period of two (2) years. Following the initial terms, the terms of office for each elected Board Member shall be three (3) years.

(d) The appointive Members shall be appointed by the mayor of the City with the approval of a majority of the City commission.

(e) The elective Board Members shall be elected by per capita vote of all employees, retirees and individuals who are on approved disability leave. Such election shall be conducted either by mailing ballots to all persons entitled to vote, or at polling places designated by the Board, at the sole discretion of the Board. If conducted by mail, an election shall be undertaken by first class mail to all persons entitled to vote. Such mailing shall include a letter of instruction written in a manner calculated to be understood by the average recipient; a Board approved ballot; a Board approved form which contains a description of each candidate's profile or description of qualifications (which profile or description must be submitted to the pension office no later than thirty (30) days prior to an election) and a postage paid return envelope. The Board shall direct its best efforts toward ensuring that mailing addresses are accurate and current with respect to persons entitled to vote; provided, however, that ballots may be obtained in person by a person entitled to vote and returned to the pension office if the voter so chooses. If conducted at polling places, an election shall be conducted at polling places designated by the Board. Such polling places may be located at a fixed site on City property or may allow for flexible locations (e.g., a "floating" ballot box) to permit all eligible individuals to cast a vote. Each polling place shall be open for such length of time as determined by the Board. Each ballot box shall be supervised by at least two (2) ballot box volunteers. Such ballot box volunteers' duties shall include, but are not limited to:

- (1) Verifying that an individual is eligible to vote;
- (2) Ensuring that proper voting procedures are followed at all times; and
- (3) Assisting with the counting of votes, as may be necessary or desirable.

All qualified persons entitled to vote shall be notified in person or by mail ten (10) days in advance of an election. The candidates receiving the highest number of votes shall be declared elected and shall take office as soon thereafter as qualified. All ballots shall be received and counted under the supervision of the pension administrator or other designees of the Board. An election shall be held each year not more than thirty (30) and not less than ten (10) days prior to commencement of the terms for which Members are to be elected in that year. The Board shall meet, organize and elect one (1) of their Members as chairman and one (1) Member as vice-chairman, at the February monthly Board meeting.

(f) If an elective seat on the Board is vacated for any reason, an election to fill the vacated position shall be conducted. However, if an elected Board Member retires before the expiration of their term, such Board Member may continue to hold such elective seat for the balance of their elected term. If an appointive seat on the Board is vacated for any reason, the seat shall be filled by appointment. A replacement Member shall serve for the unexpired term of the person replaced.

(g) Members shall serve without compensation, but they may be reimbursed from the Fund for all necessary expenses which they may actually expend through Services on the Board.

(h) Each Board Member shall, within ten (10) days after his appointment or election, take an oath of office before the City clerk of the City, that so far as it develops upon him he will diligently and honestly administer the affairs of the said Board, and that he will not knowingly violate or willingly permit to be violated any of the provisions of the law applicable to the Plan. Such oath shall be subscribed to by the Members making it and certified by the said clerk and filed in his office.

(i) Each Member shall be entitled to one (1) vote on the Board. A majority vote of those present, where a quorum is in attendance, shall be necessary for a decision at any meeting of the Board. The chairman shall have the right to one (1) vote only. A quorum shall consist of four (4) Members, at least one (1) of whom shall be an appointive Member.

(j) Subject to the limitations of this division, the Board shall from time to time establish uniform rules and regulations for the administration of Funds created by this division and for transaction of its business, including provisions for compulsory attendance of its Members.

(k) The Board shall, by majority vote of its Members, appoint a secretary who may, but need not be, one of its Members. The Board, with the approval of a majority of the City commission, shall engage such actuarial and other Services as shall be required to transact the business of the Plan. The compensation of all persons engaged by the Board and all other expenses of the Board necessary for the operation of the Plan shall be paid at such rates and in such amounts as the Board shall agree, but in no case shall the expenditures for such Services or operations exceed one (1) percent of the maximum Fund assets in any Plan Year.

All Funds shall be disbursed by the City finance department only on authorization of the Board.

(l) Any Member who neglects the duties of his office as determined by the Board, may be removed by a two-thirds (2/3) vote of the Board.

(m) The duties and responsibilities of the Board shall include, but not necessarily be limited to, the following:

- (1) To construe the provisions of the Plan and determine all questions arising thereunder.
- (2) To determine all questions relating to eligibility and participation.
- (3) To determine and certify amount of all Retirement pensions or other benefits hereunder.
- (4) Have annual actuarial valuations of the Plan performed.
- (5) To establish uniform rules and procedures to be followed for administrative purposes, benefit applications and all matters required to administer the Plan.
- (6) To distribute at regular intervals to employees, information concerning the Plan.
- (7) To receive, process and approve all applications for Membership and benefits; to notify the City finance department of approved benefit payments.
- (8) To perform such duties as are specified in section 20-114
- (9) To review reports of the trustee, custodian and investment advisor, if any.
- (10) To submit copies of all annual reports to the City commission.

- (11) To conduct meetings with the trustee and investment advisor not less than once every three (3) months.

The decision of the Board in all questions of interpretation of the Plan shall be final.

(n) The City attorney, his designated assistant or special counsel, shall be the attorney for the Board, shall give advice to said Board in all matters pertaining to its duties in the administration and operation of the Retirement System and shall represent and defend said Board as its attorney in all suits and legal actions to which the Board may be a party. If, in a particular instance, the City attorney determines that, pursuant to the code of professional responsibility, he is unable to represent both the City and the Board due to the presence of a conflict, the City commission shall engage independent legal counsel for the purpose of advising and representing the Board in connection with the particular matter from which said conflict arises.

Sec. 20-114. Finances and Fund management; establishment and operation of Fund.

(a) All of the contributions and assets whatsoever attributable to the Plan shall be deposited into the Fund originally established and continued hereunder.

(b) The actual supervision of the Fund (and the ability to acquire in trust and convey assets thereof) shall be vested in the Board. Payment of benefits and disbursements from the Fund shall be made by the City finance department on authorization from the Board.

(c) The trustee and custodian of the Fund shall be designated by the Board upon an affirmative vote of five (5) Members of the Board and with the approval of a majority of the City commission. A trust agreement shall be executed between the City and the trustee under the terms of which the trustee shall be authorized to receive and hold in such Fund all contributions and assets whatsoever payable and attributable to the Plan. It shall be impossible under the terms of this Plan or any trust agreement hereunder for any part of the principal or income of the Fund, except for such sums as may be expended in administration of the Plan, to be used for or diverted to purposes other than the exclusive benefit of Employees, their Beneficiaries and benefits provided hereunder. No disbursements shall be made by the trust except upon written authorization from the Board to the City finance

department and subsequent written notification to the trustee. No amendment shall be made to the trust agreement without approval of a majority of the City commission.

(d) Either the trustee or a separate investment advisor, if any, shall have full authority to supervise, pass upon and approve the nature, amount and timing of investments of the Fund and the purchase, sale and disposition of such investments. The Board may, accordingly and in its discretion, hire and appoint such persons, firms or entities as it determines to be required or advisable so as to accomplish and have performed investment advisory duties hereunder. The Board may thus enter into appropriate agreements for the purpose of securing separate investment advisory Service for the Fund.

(e) All Funds and securities of the Plan may be commingled in the Fund, provided that accurate records are maintained at all times reflecting the financial composition of the Fund, including accurate current Accounts and entries as regards the following:

- (1) Current amounts of accumulated contributions of Members on both an individual and aggregate Account basis;
- (2) Receipts and disbursements;
- (3) Payments to retirees;
- (4) Current amounts clearly reflecting all monies, Funds and assets whatsoever attributable to contributions and deposits from the City;
- (5) All interest, dividends and gains (or losses) whatsoever; and
- (6) Such other entries as may be properly required so as to reflect a clear and complete financial report of the Fund.

(f) The City finance department is authorized to and charged with the responsibility of collecting Member contributions, maintaining records pertaining thereof, and promptly transmitting all Funds so collected, as well as all other Funds whatsoever designated for the Plan, to the trustee. The City finance department shall also:

- (1) Make payments to retirees;
- (2) Review copies of all annual reports on Fund transactions; and
- (3) Make disbursements from the Fund as authorized by the Board.

Sec. 20-115. Maximum Pension.

(a) Basic Limitation. Notwithstanding any other provisions of this plan to the contrary, the Employee contributions paid to, and retirement benefits paid from, the plan shall be limited to such extent as may be necessary to conform to the requirements of Code Section 415 for a qualified retirement plan. Before January 1, 1995, a plan Employee may not receive an annual benefit that exceeds the limits specified in Code Section 415(b), subject to the applicable adjustments in that section. On and after January 1, 1995, an Employee may not receive an annual benefit that exceeds the dollar amount specified in Code Section 415(b)(1)(A) (\$160,000), subject to the applicable adjustments in Code Section 415(b) and subject to any additional limits that may be specified in this plan. For purposes of this section, "limitation year" shall be the calendar year.

For purposes of Code Section 415(b), the term "annual benefit" means a benefit payable annually in the form of a straight life annuity without regard to the benefit attributable to after-tax employee contributions (except pursuant to Code section 415(n)) and to rollover contributions (as defined in Code section 415(b)(2)(A)), and with the benefit attributable determined in accordance with Treasury Regulations located in 26 C.F.R. 1.415(b)-1.

(b) Adjustments to Basic Limitation for Form of Benefit. If the form of benefit is other than the annual benefit defined in subsection (a), the benefit shall be adjusted so that it is the equivalent of the annual benefit using factors prescribed in Treasury Regulations. If the form of benefit without regard to any automatic benefit increase feature is not a straight life annuity or a qualified joint and survivor annuity then the preceding sentence is applied by either reducing the Code Section 415(b) limit applicable at the annuity starting date or by adjusting the form of benefit to an actuarially equivalent amount determined using the assumptions specified in 26 CFR 1.415(b)-1 that takes into account the additional benefits under the form of benefit as follows:

- (1) Benefit Forms Not Subject to § 417(e)(3): The straight life annuity that is actuarially equivalent to the Employee's form of benefit shall be determined under this subsection if the form of an Employee's benefit is either a non-decreasing annuity (other than a straight life annuity) payable for a period of not less than the life of the Employee (or in the case of a qualified pre-retirement survivor annuity, the life of the surviving spouse), or an annuity that decreases during the life of the Employee merely because of (a) the death of the survivor annuitant (but only if the reduction is not below 50% of the benefit payable before the death of the survivor annuitant), or (b) the cessation or reduction of Social Security supplements or qualified disability payments (as defined in Code Section 401(a)(11). For a benefit paid in a form described in this subsection, the actuarially equivalent straight life annuity is equal to the greater of:
- a. The annual amount of the straight life annuity (if any) payable to the Employee under the plan commencing at the same annuity starting date as the Employee's form of benefit, or
 - b. the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the Employee's form of benefit, computed using a 5 percent interest rate assumption and the applicable mortality tables described in Code Section 417(e)(3)(B) (Notice 2008-85 or any subsequent Internal Revenue Service guidance implementing Code Section 417(e)(3)(B); or
- (2) Benefit Forms Subject to § 417(e)(3): If a form of Employee's benefit is other than a benefit form described in subsection (b)(1), the actuarially equivalent straight life annuity benefit that is the greatest of:
- a. The annual amount of the straight life annuity commencing at the annuity starting date that has the same actuarial present value as the particular form of benefit payable, computed using the interest rate and mortality table, or tabular factor, specified in the plan for actuarial experience;
 - b. The annual amount of the straight life annuity commencing at the annuity starting date that has the same actuarial present value as the particular form of benefit payable computed using a five percent interest assumption for the applicable statutory interest assumption and (i) for years prior to January 1, 2009 the applicable mortality tables for the distribution under 26

CFR 1.417(e)-1(d)(2) (Revenue Ruling 2001-62 or any subsequent Revenue Ruling modifying the applicable provisions of Revenue Ruling 2001-62) and (ii) for years after December 31, 2008 the applicable mortality tables described in Code Section 417(e)(3)(B) (Notice 2008-85 or any subsequent Internal Revenue Service guidance implementing Code Section 417(e)(3)(B); or

- c. The annual amount of the straight life annuity commencing at the annuity starting date that has the same actuarial present value as the particular form of benefit payable computed using the applicable interest rate for the distribution under 26 CFR 1.417(e)-1(d)(3) the 30-year Treasury rate prior to January 1, 2007 using the rate in effect for the month prior to retirement and on and after January 1, 2007 using the rate in effect for the first day of the plan year with a one-year stabilization period and (i) for years prior to January 1, 2009 the applicable mortality tables for the distribution under 26 CFR 1.417(e)-1(d)(2) (the mortality table specified in Revenue Ruling 2001-62 or any subsequent Revenue Ruling modifying the applicable provisions of Revenue Ruling 2001-62) and (ii) for years after December 31, 2008 the applicable mortality tables described in Code Section 417(e)(3)(B) (Notice 200885 or any subsequent Internal Revenue Service guidance implementing Code Section 417(e)(3)(B)), divided by 1.05.

- (3) The actuary may adjust the 415(b) limit at that annuity starting date in accordance with paragraphs (1) and (2) above.

(c) Benefits Not Taken into Account. For purposes of this Section, the following benefits shall not be taken into account in applying these limits:

- (1) Any ancillary benefit which is not directly related to retirement income benefits;
- (2) Survivor benefits payable to a surviving spouse under a qualified joint and survivor annuity to the extent such benefits would not be payable if the Employee's benefit were paid in another form.
- (3) Any other benefit not required under §415(b)(2) of the Code and Regulations thereunder to be taken into account for purposes of the limitation of Code Section 415(b)(1);

(d) COLA Effect. Effective on and after January 1, 2003, for purposes of applying the limits under Code Section 415(b) (the "Limit"), the following will apply:

- (1) An Employee's applicable limit will be applied to the Employee's annual benefit in the Employee's first limitation year of benefit payments without regard to any automatic cost of living adjustments;
- (2) thereafter, in any subsequent limitation year, an Employee's annual benefit, including any automatic cost of living increases, shall be tested under the then applicable benefit limit including any adjustment to the Code Section 415(b)(1)(A) dollar limit under Code Section 415(d), and the regulations thereunder; but
- (3) in no event shall an Employee's benefit payable under the plan in any limitation year be greater than the limit applicable at the annuity starting date, as increased in subsequent years pursuant to Code Section 415(d) and the regulations thereunder.

Unless otherwise specified in the plan, for purposes of applying the limits under Code Section 415(b), an Employee's applicable limit will be applied taking into consideration cost of living increases as required by Section 415(b) of the Code and applicable Treasury Regulations.

(e) Other Adjustments in Limitations.

- (1) In the event the Employee's retirement benefits become payable before age sixty-two (62), the limit prescribed by this section shall be reduced in accordance with regulations issued by the Secretary of the Treasury pursuant to the provisions of Code Section 415(b) of the Code, so that such limit (as so reduced) equals an annual straight life benefit (when such retirement income benefit begins) which is equivalent to an annual benefit in the amount of the applicable dollar limitation of Section 415(b)(1)(A) of the Internal Revenue Code (as adjusted pursuant to Section 415(d) of the Internal Revenue Code) beginning at age sixty-two (62).
- (2) In the event the Employee's benefit is based on at least fifteen (15) years of credited service as a full-time police officer or firefighter, the adjustments provided for in (D)(1) above shall not apply.
- (3) The reductions provided for in (D)(1) above shall not be applicable to disability benefits or pre-retirement death benefits.

- (4) In the event the Employee's retirement benefit becomes payable after age sixty-five (65), for purposes of determining whether this benefit meets the limit set forth in subsection (b) herein, such benefit shall be adjusted so that it is actuarially equivalent to the benefit beginning at age sixty-five (65). This adjustment shall be made in accordance with regulations promulgated by the Secretary of the Treasury or his delegate.

(f) Less than Ten (10) Years of Service. The maximum retirement benefits payable under this section to any Employee who has completed less than ten (10) years of credited service shall be the amount determined under subsection (a) multiplied by a fraction, the numerator of which is the number of the Employee's years of credited service and the denominator of which is ten (10). The reduction provided by this section cannot reduce the maximum benefit below 10% of the limit determined without regard to this subsection. The reduction provided for in this section shall not be applicable to pre-retirement disability benefits or pre-retirement death benefits.

(g) Participation in Other Defined Benefit Plans. The limit of this section with respect to any Employee who at any time has been an Employee in any other defined benefit plan as defined in Code Section 414(j) maintained by the City shall apply as if the total benefits payable under all City defined benefit plans in which the Employee has been an Employee were payable from one plan.

(h) Ten Thousand Dollar (\$10,000) Limit. Notwithstanding anything in this section to the contrary, the retirement benefit payable with respect to an Employee shall be deemed not to exceed the limit set forth in this section if the benefits payable, with respect to such Employee under this plan and under all other qualified defined benefit pension plans to which the City contributes, do not exceed ten thousand dollars (\$10,000) for the applicable limitation year and for any prior limitation year and the City has not at any time maintained a qualified defined contribution plan in which the Employee participated; provided, however, that if the Employee has completed less than ten years of credited service, the limit under this subsection shall be a reduced limit equal to ten thousand dollars (\$10,000) multiplied by a fraction, the numerator of which is the number of the Employee's years of credited service and the denominator of which is ten.

(i) Reduction of Benefits. Reduction of benefits and/or contributions to all plans, where required, shall be accomplished by first reducing the Employee's benefit under any defined benefit plans in which Employee participated, such reduction to be made first with respect to the plan in which Employee most recently accrued benefits and thereafter in such

priority as shall be determined by the board and the plan administrator of such other plans, and next, by reducing or allocating excess forfeitures to defined contribution plans in which the Employee participated, such reduction to be made first with respect to the plan in which Employee most recently accrued benefits and thereafter in such priority as shall be established by the board and the plan administrator for such other plans provided, however, that necessary reductions may be made in a different manner and priority pursuant to the agreement of the board and the plan administrator of all other plans covering such Employee.

(j) Service Credit Purchase Limits.

(1) Effective for permissive service credit contributions made in limitation years beginning after December 31, 1997, if an Employee makes one or more contributions to purchase permissive service credit under the plan, then the requirements of this section will be treated as met only if:

- a. the requirements of Code Section 415(b) are met, determined by treating the accrued benefit derived from all such contributions as an annual benefit for purposes of Code Section 415(b), or
- b. the requirements of Code Section 415(c) are met, determined by treating all such contributions as annual additions for purposes of Code Section 415(c).
- c. For purposes of applying subparagraph (1)b. the plan will not fail to meet the reduced limit under Code section 415(b)(2)(C) solely by reason of this subparagraph, and for purposes of applying subparagraph (1)b. the plan will not fail to meet the percentage limitation under Section 415(c)(1)(B) of the Code solely by reason of this subparagraph c.

(2) For purposes of this subsection the term "permissive service credit" means service credit—

- a. recognized by the plan for purposes of calculating an Employee's benefit under the plan.
- b. which such Employee has not received under the plan, and
- c. which such Employee may receive only by making a voluntary additional contribution, in an amount determined under the plan, which does not exceed the amount necessary to fund the benefit attributable to such

service credit.

Effective for permissive service credit contributions made in limitation years beginning after December 31, 1997, such term may, if otherwise provided by the plan, include service credit for periods for which there is no performance of service, and, notwithstanding clause (B)(2), may include service credited in order to provide an increased benefit for service credit which an Employee is receiving under the plan.

- (3) For purposes of applying the limits in this subsection (j) only and for no other purpose, the definition of compensation where applicable will be compensation actually paid or made available during a limitation year, except as noted below and as permitted by Treasury Regulations located in 26 CFR 1.415(c)-2, or successor regulations. Unless another definition of compensation that is permitted by Treasury Regulations Section 1.415(c)-2, or successor regulation, is specified by the plan, compensation will be defined as wages within the meaning of Code Section 3401(a) and all other payments of compensation to an employee by a City for which the City is required to furnish the employee a written statement under Code Sections 6041(d), 6051(a)(3) and 6052 and will be determined without regard to any rules under Code Section 3401(a) that limit the remuneration included in wages based on the nature or location of the employment or the services performed (such as the exception for agricultural labor in Code Section 3401(a)(2)).

- a. However, for limitation years beginning after December 31, 1997, compensation will also include amounts that would otherwise be included in compensation but for an election under Code Sections 125(a), 402(e)(3), 402(h)(1)(B), 402(k), or 457(b). For limitation years beginning after December 31, 2000, compensation will also include any elective amounts that are not includible in the gross income of the employee by reason of Code Section 132(f)(4).

- b. For limitation years beginning on and after January 1, 2007, compensation for the limitation year will also include compensation paid by the later of 2½ months after an employee's severance from employment or the end of the limitation year that includes the date of the employee's severance from employment if:

1. the payment is regular compensation for services during the

- employee's regular working hours, or compensation for services outside the employee's regular working hours (such as overtime or shift differential), commissions, bonuses or other similar payments, and, absent a severance from employment, the payments would have been paid to the employee had the employee continued in employment with the City; or
2. the payment is for unused accrued bona fide sick, vacation or other leave that the employee would have been able to use if employment had continued.
- c. Back pay, within the meaning of Treasury Regulations Section 1.415(c) - 2(g)(8), shall be treated as compensation for the limitation year to which the back pay relates to the extent the back pay represents wages and compensation that would otherwise be included under this definition.
- (4) Notwithstanding any other provision of law to the contrary, the Board may modify a request by an Employee to make a contribution to the plan if the amount of the contribution would exceed the limits provided in Code Section 415 by using the following methods:
- a. If the law requires a lump sum payment for the purchase of service credit, the Board may establish a periodic payment deduction plan for the Employee to avoid a contribution in excess of the limits under Code Sections 415(c) or 415(n).
- b. If payment pursuant to subparagraph (4)a. will not avoid a contribution in excess of the limits imposed by Code Section 415(c), the Board may either reduce the Employee's contribution to an amount within the limits of that section or refuse the Employee's contribution.
- (5) If the annual additions for any Employee for a plan year exceed the limitation under Code Section 415(c), the excess annual addition will be corrected as permitted under the Employee Plans Compliance Resolution System (or similar IRS correction program).
- (6) For limitation years beginning on or after January 1, 2009, an Employee's compensation for purposes of this subsection shall not exceed the annual limit

under Code Section 401(a)(17).

(k) Additional Limitation on Pension Benefits. Notwithstanding anything herein to the contrary:

- (1) The normal retirement benefit or pension payable to a retiree who becomes an Employee of the Plan and who has not previously participated in such Plan, on or after January 1, 1980, shall not exceed one hundred percent (100%) of average final compensation. However, nothing contained in this section shall apply to supplemental retirement benefits or to pension increases attributable to cost-of-living increases or adjustments.
- (2) No Employee shall be allowed to receive a retirement benefit or pension which is in part or in whole based upon any service with respect to which the Employee is already receiving, or will receive in the future, a retirement benefit or pension from a different City's retirement system or plan. This restriction does not apply to social security benefits or federal benefits under Chapter 67, Title 10, U.S. Code.

Sec. ~~20-115~~ 20-116. Additional specific provisions.

(a) *Small pensions.* If the pension payable to a Member or Beneficiary has a lump sum actuarial value of less than three thousand five hundred dollars (\$3,500.00), the Board may, in its discretion, pay such benefit in a lump sum in lieu of any other payments under the Plan.

The exclusion set forth herein shall nevertheless apply if disability or death occurs beyond such two-year period as the result of an injury that was intentionally self-inflicted within the first two (2) years of employment;
- (2) That alcoholic beverages, narcotics or drugs were the cause of disability or death, and disability or death occurred as a direct result of the habitual intentional ingestion of alcoholic beverages, narcotics or drugs without an intervening or contributing cause;
- (3) That disability or death resulted from unlawful participation or unlawful involvement in riots, insurrection or assembly; or
- (4) That disability or death resulted from participation or involvement in the commission of a felony as defined by the laws of the State of Florida, or the United States of America.

The provisions of this subsection shall apply to both Service and nonservice incurred death or disability.

(h) *Denial of claim.*

- (1) A Member or Beneficiary whose claim for benefits under this Plan is denied by the Board shall be given, within thirty (30) days, a written notice setting forth the specific reasons for such denial. Such notice shall also advise the Member or Beneficiary that he has the right to a full and fair review of the Board's decision.

(i) *Right to amend Plan.* The City reserves the right at any time to amend or modify this Plan in any respect or to terminate the Plan; provided that no amendment shall cause any part of the Fund assets to be used for or diverted to purposes other than the exclusive benefit of Members and their beneficiaries.

(j) *Termination and discontinuance.* Notwithstanding any other provisions of this Plan to the contrary, upon the date of either full or partial termination of the Plan, or in the case of a Plan to which Internal Revenue Code Section 412 does not apply, upon complete discontinuance of contributions under the Plan, an affected employee's or Member's right to their accrued benefit shall be one hundred (100) percent nonforfeitable.

(k) *Rollover distributions.* This subsection applies to distributions made on or after January 1, 1993. Notwithstanding any provision of the Plan to the contrary that would otherwise limit a distributee's (as defined below) election under this subsection, a distributee may elect, at the time and in the manner prescribed by the Plan administrator, to have any portion of an eligible rollover distribution (as defined below) that is equal to at least \$500 paid directly to an eligible Retirement Plan specified by the distributee in a direct rollover (as defined below). If an eligible rollover distribution is less than \$500, a distributee may not make the election described in the preceding sentence to rollover only a portion of the eligible rollover distribution.

- (1) For the purposes of this subsection 20-115(k) the following words and phrases shall have the meanings indicated:

- a. *Eligible rollover distribution* is any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include:
1. Any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the distributee or the joint lives (or joint life expectancies) of the distributee and the distributee's designated beneficiary, or for a specified period of ten (10) years or more;
 2. Any distribution to the extent such distribution is required under Section 401(a)(9) of the Internal Revenue Code; and
 3. The portion of any distribution that is not includable in gross income. (determined without regard to the exclusion for net unrealized appreciation with respect to employer securities); and
 4. Any other distribution(s) that is reasonably expected to total less than \$200 during a year.

A portion of a distribution shall not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions which are not includible in gross income. However, such portion may be transferred only to (1) a traditional individual retirement account or annuity described in § 408(a) or (b) of the Code (a traditional IRA) or a Roth individual retirement account or annuity described in § 408A (a Roth IRA); or (2) to a qualified defined contribution, defined benefit, or annuity plan described in § 401(a) or § 403(a) or to an annuity contract described in § 403(b), if such plan or contract provides for separate accounting for amounts so transferred (including interest thereon), including separately accounting for the portion of such distribution which is includible in gross income and the portion of such distribution which is not so includible.

- b. *Eligible Retirement Plan* is an eligible plan under § 457(b) of the Code which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state and which agrees to separately account for amounts transferred into such plan from this plan, an individual Retirement Account described in Section 408(a) of the Internal Revenue Code, an individual Retirement annuity described in Section 408(b) of the Internal Revenue Code, an annuity Plan described in Section 403(a) of the Internal Revenue Code, or a qualified trust described in Section 401(a) of the Internal Revenue Code, that accepts the distributee's eligible rollover distribution. However, in the case of an eligible rollover distribution to the surviving spouse, an eligible Retirement Plan is an individual Retirement Account or individual Retirement annuity.
- c. *Distributee* includes an employee or former employee. In addition, the employee's or former employee's surviving spouse are distributees with regard to the interest of the spouse. For distributions occurring in plan years beginning after December 31, 2009 (or in any earlier plan year beginning after December 31, 2006), a distributee also includes the participant's non-spouse designated beneficiary. In the case of a non-spouse beneficiary, the direct rollover may be made only to a traditional IRA or Roth IRA that is established on behalf of the designated beneficiary and that will be treated as an inherited IRA pursuant to the provisions of § 402(c)(11). Also, in this case, the determination of any required minimum distribution under § 401(a)(9) that is ineligible for rollover shall be made in accordance with Notice 2007-7, Q&A 17 and 18, 2007-5 I.R.B. 395.
- d. *Direct rollover* is a payment by the Plan to the eligible Retirement Plan specified by the distributee.

(l) *Overpayment of benefits.* In the event of overpayment of benefits, the monies owed to the Plan shall be payable in Fort Lauderdale, Broward County, Florida, within thirty (30) days of the date of overpayment. The monies owed to the Board shall accrue interest at the highest lawful rate allowed by law, but the Board, in its discretion, shall have the authority to compromise such accrued interest. In the event the Board finds it necessary to resort to

litigation to collect the overpayment, venue for an action for overpayment shall be in Broward County, Florida. In the event the Board is the prevailing party in an action to collect overpayments, the Board shall be entitled to an award of attorneys' fees, together with interest at the highest lawful rate allowed by law.

(m) *Distribution of Benefits.* As of the Effective Date, this Plan shall pay all benefits in accordance with a good faith interpretation of the requirements of Code Section 401(a)(9) and the regulations promulgated thereunder, as applicable to a governmental plan as defined in Code Section 414(d). Notwithstanding any other provision of this Plan to the contrary, a form of retirement income payable from this Plan shall satisfy the following conditions:

(1) If the retirement income is payable before the Participant's death,

- a It shall either be distributed or commence to the Participant not later than April 1 of the calendar year following the later of the calendar year in which the Participant attains age seventy and one-half (70½), or the calendar year in which the Participant retires; and,
- b the benefit shall be paid over the life of the Participant or over the lifetimes of the Participant and designated beneficiary and shall be paid over the period extending not beyond the life expectancy of the Participant and designated beneficiary.

Where benefit payments have commenced in accordance with the preceding paragraphs and the Participant dies before his entire interest in the Plan has been distributed, the remaining portion of such interest in the Plan shall be distributed no less rapidly than under the form of distribution in effect at the time of the Participant's death.

(2) If the participant dies before distributions begin, the participant's entire interest will be distributed, or begin to be distributed, no later than as follows:

- a If the participant's surviving spouse is the participant's sole designated beneficiary, then distributions to the surviving spouse will begin by December 31 of the calendar year immediately following the calendar year in which the participant died, or by December 31 of the calendar year in which the participant would have attained age 70½, if later.

- b If the participant's surviving spouse is not the participant's sole designated beneficiary, then, except as provided in the adoption agreement, distributions to the designated beneficiary will begin by December 31 of the calendar year immediately following the calendar year in which the participant died.
 - c If there is no designated beneficiary as of September 30 of the year following the year of the participant's death, the participant's entire interest will be distributed by December 31 of the calendar year containing the fifth anniversary of the participant's death.
 - d If the participant's surviving spouse is the participant's sole designated beneficiary and the surviving spouse dies after the participant but before distributions to the surviving spouse are required to begin, this section (2), other than subsection (2)a, will apply as if the surviving spouse were the participant. For purposes of this section, unless subsection (2)d applies, distributions are considered to begin on the participant's required beginning date. If subsection B(4) applies, distributions are considered to begin on the date distributions are required to begin to the surviving spouse under section (2)d. If distributions under an annuity meeting the requirements of this article commence to the participant before the participant's required beginning date (or to the participant's surviving spouse before the date distributions are required to begin to the surviving spouse under section (2)a, the date distributions are considered to begin is the date distributions actually commence.
- (n) *Prohibited Transaction.* The Board may not engage in any transaction prohibited under Section 503(b) of the Internal Revenue Code.
- (o) *Qualification of Plan.* It is intended that this plan shall constitute a qualified public pension plan under the applicable provisions of the Code for a qualified plan under Code Section 401(a) and a governmental plan under Code Section 414(d), as now in effect and as may be amended from time to time. Any modification or amendment of this Plan may be made retroactively, if necessary or appropriate to maintain qualification.

SECTION 2. That if any clause, section or other part of this Ordinance shall be held invalid or unconstitutional by any court of competent jurisdiction, the remainder of this Ordinance shall not be affected thereby, but shall remain in full force and effect.

SECTION 3. That all ordinances or parts of ordinances in conflict herewith, be and the same are hereby repealed.

SECTION 4. That this Ordinance shall be in full force and effect ten days from the date of final passage.
