Multi-Focused Community Policing Assessment

Critique:

"Calls for service drive the organizational strategy. Solely responding to calls for service doesn't give officers time to interact with the community or focus on serious crime issues."

Multi-Focused Community Policing Assessment

Community Policing Recommendation 2: FLPD should formalize a call for service reduction plan.

- Every department, to create more time for officers to engage the community, found that they had to devise a more efficient method to handle the massive nonemergency call for service workload.
- In FLPD, as we find in so many other police departments, non-emergency radio calls for service stifle the opportunity for patrol officers to park and meet the residents they serve let alone focus their efforts on crime reduction activities.

Objectives

- Free Up Officers' Available Patrol Time
 - For Community Engagement Activities
 - Increased Visibility in Neighborhoods
 - Proactive Crime Suppression
- Improve the Quality of Service Provided by the Police Department
 - Convenience to Make Incident Reports
 - Time Savings for Report Makers

Strategies

- Public Safety Aide program
- Station Report program
 - Walk-in Service
 - Call-in Service
- Online Reporting System
